GENERAL INFORMATION

Capitol Telephone System.

1. To place inter-department calls to those State Capitol numbers having the prefix 839, dial the four digit extension numbers as listed in this directory.
2. To place an outside call, you must first dial "9" which gives you an outside trunk line. Listen for the outside dial tone then dial the appropriate number as listed in the Metropolitan Denver Telephone Directory.
3. Authorized **long distance calls** may be placed by dialing "9" which gives you an outside local trunk line, and following the Direct Distance Dialing instructions given in the Mountain Bell Directory. After you have completed dialing, the Mountain Bell operator will ask for your number.
4. **Save money** by placing your in-state long distance calls using the following time table:
12:00 P.M. to 1:00 P.M. save 60%.
1:00 P.M. to 9:00 A.M. save 35%.
3:00 A.M. to 12:00 P.M. no savings.
5. To obtain numbers not listed in the State of Colorado Telephone Directory, call the Capitol operator by dialing "0".
6. To report service difficulties or equipment trouble on the Capitol telephone system, dial 2200 for the Chief Operator.
7. Save time and expedite your calls by advising agencies outside the Capitol telephone system that they may dial direct by using the prefix 839 and your extension number.

Transferring Calls.

If you wish to transfer a call to another number simply depress the plunger in the receiver cradle once. This will alert the Capitol switchboard operator who will answer.

Tandem Service.

Tandem service provides a direct trunk line to the number you wish to reach, by-passing the switchboard and eliminating the need for operator assistance.

To use a tandem line, dial the tandem number, then dial the extension number you wish to reach.
