MEMORANDUM

TO: GOVERNOR RICHARD D. LAMM
FROM: DAN S. WHITTEMORE, STATE CONTROLLER
SUBJECT: FINANCIAL HIGHLIGHTS

Dan S. Whittemore

We are pleased to submit Colorado's Annual Financial Report for the year ended June 30, 1979. This report includes all funds and activities for Colorado State Government.

The State of Colorado continues to be in sound financial condition. Total revenue from all funds exceeded expenditures by \$159 million during Fiscal Year 1979. Although expenditures have increased in 1979, the real cost increase was less than 1%. Real Cost reflects expenditures without the effect of inflation. Real statewide spending per capita was actually down 2.7%.

The General Fund revenues exceeded expenditures and transfers during the year by \$160 million. There has been a substantial increase in unrestricted surplus the past two years. The surplus is \$292.6 million as of June 30, 1979 with \$42.6 million a statutory minimum balance.

Some specific highlights from the consolidated report include:

<u>DESCRIPTION</u>	<u>MILLIONS OF DOLLARS</u>	<u>PERCENT CHANGE FROM PRIOR YEAR</u>
Statewide Information		
Assets	\$2,204	18%
Liabilities	1,250	18%
Equity	954	18%
Revenue	2,811	8%
Expense	2,652	10%
Educational Activity	1,336	14%
Social Assistance	510	5%
Tax Revenue	1,426	8%
Federal Revenue	686	0%

February 14, 1980
Governor Richard D. Lamm

<u>DESCRIPTION</u>	<u>MILLIONS OF DOLLARS</u>	<u>PERCENT CHANGE FROM PRIOR YEAR</u>
General Fund Information		
Revenue	<u>\$1,301</u>	<u>15%</u>
Expense and Transfers		
Appropriated	<u>1,015</u>	<u>5.9%</u>
Total	<u>1,141</u>	<u>8.3%</u>

The report is divided into the following four sections:

- Graphical Displays
The graphical presentation is included to pictorially display significant data on the financial position of the State. These are an attempt to convey the essence of the State's financial situation to readers who are unfamiliar with standard financial statement presentation.
- Consolidated Financial Statements (prototype)
These consolidated financial statements are an attempt to apply the generally accepted accounting principles, which apply to the business community, to the financial statements of the State of Colorado. All the financial transactions affecting the State are brought together in a reasonably simple accounting report.

Traditional governmental financial reports seldom provide a simple overview of what the State owns and what it owes. Traditional reports concentrate on compliance with specific legislative authorizations.

In this section of the report, business-type accounting is utilized to display the finances of the State of Colorado because this form is the most widely known and understood system.

This reporting departs from generally accepted reporting standards for governmental entities in the following manner:

- Reporting of fixed assets and corresponding estimated accumulated depreciation.
- Accruing amounts for pension liabilities.
- Accruing amounts for sick leave and annual leave of State employees.

- Combined Financial Statements
The combined statements are presented by fund type in accordance with generally accepted governmental reporting standards.
- Supplementary Schedules
This information attempts to answer the most frequently asked questions about Colorado's financial operation that are not presented in the other sections. The General Fund information is included in this section.

Additional information may be obtained by directing specific inquiries to my office.

The accompanying notes are an integral part of this unaudited financial statement

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. CONTENTS OF STATEMENTS

The consolidated statements include the activity of all State funds and groups of accounts.

The consolidated statements do not include the activities of Higher Education Foundations and Alumni Associations. These legal entities are independent of the respective Institutions of Higher Education but support their activities. Separate financial reports are prepared for each of these entities and are available upon request to the respective institutions.

2. STATEMENT OF ACCOUNTING POLICIES

The accounting policies of the State of Colorado conform to generally accepted accounting principles as applicable to governmental units. However, these consolidated financial statements depart from generally accepted reporting standards for governmental entities in the following manner:

- Reporting of fixed assets and corresponding estimated accumulated depreciation
- Accruing amounts for pension liabilities
- Accruing amounts for sick leave and annual leave for state employees

These financial statements are prepared on the accrual basis of accounting. The following is a summary of the significant policies:

A. Revenues

The major sources of revenue are recorded on the accrual basis along with the related refund liability except for inheritance tax and other less important sources. Inheritance tax is recorded as collected and known refunds are recorded. However, no adjustment is made to allow for future refunds which are not determinable until the final inheritance tax liability is assessed.

Revenues earned under the terms of agreements with outside sources (e.g., contracts and grants from the Federal Government and/or private sources) are recorded at the time expenditures are made.

B. Expenses

Expenses are recorded on the accrual basis of accounting.

C. Fund Accounting

The State maintains its accounting in accordance with the principles of "fund" accounting. Fund accounting is a concept developed to meet the needs of governmental entities in which legal or other restraints require the recording of specific revenues and expenditures. The transactions of each fund are reflected in a self-balancing group of accounts, an accounting entity which stands separate from the activities reported in other funds. All funds are combined for the consolidated financial statements. A brief description of each fund type is included in the accompanying notes to the combined financial statements.

D. Property and Depreciation

Property and equipment are stated at cost or estimated cost. Highway Department infrastructure assets such as highways and bridges are not recorded as assets.

Generally, all items having a cost in excess of \$500 and an estimated useful life of two years or more are capitalized. Depreciation is provided for on a straight-line basis using the following estimated useful lives to determine the rate for each principal classification.

Buildings50 years
Equipment	15 years
Books	10 years
Leasehold Improvements	3 years

E. Eliminations

Material interfund and intrafund transactions and balances have been eliminated.

3. CASH

The State Treasurer acts as a bank for all State agencies. Moneys deposited with the Treasurer are invested until the cash is needed. The detailed composition of the cash and investments held is shown in the annual Treasurer's Report. The State maintains numerous cash accounts for administrative purposes. The cash reflected on the balance sheet is the composite amount of all accounts although some of the individual accounts may be periodically overdrawn.

The June 30 cash balances (expressed in millions) are:

	<u>1979</u>	<u>1978</u>
Cash on Hand and in Bank	\$ 47.7	\$ 51.4
Cash in Custody of State Treasurer	449.5	297.7
Unemployment Insurance Cash with Fed. Govt.	<u>116.9</u>	<u>73.6</u>
Total	<u>\$614.1</u>	<u>\$422.7</u>

Cash on Hand and in Banks is used by agencies for day-to-day operational and administrative expenditures.

The cash balances on deposit with the State Treasurer are either used to meet short-term working capital requirements, such as paying warrants, or invested in various securities.

4. INVESTMENTS

Short-term investments consist primarily of U. S. Government securities which are generally recorded at cost.

Long-term investments are generally recorded at cost. The following is a summary of long-term investments by type of investment.

(Expressed in Millions)

U. S. Government Securities	\$82.2
Corporate Bonds	44.0
Mortgage Loans	96.9
Other Types	<u>41.2</u>
Total Long-Term Investments	<u>\$264.3</u>

5. ACCOUNTS RECEIVABLE

Accounts receivable and their respective allowances at June 30, 1979, and June 30, 1978, were comprised of the following major categories:

	(Expressed in Millions)			
	1979		1978	
	<u>Balance</u>	<u>Allowance</u>	<u>Balance</u>	<u>Allowance</u>
Operations	\$281.9	\$33.3	\$245.2	\$23.7
Interest	16.3	-	4.6	-
Taxes	62.0	20.7	51.0	18.0
Revenue Sharing	<u>6.3</u>	<u>-</u>	<u>6.3</u>	<u>-</u>
Total	<u>\$366.5</u>	<u>\$54.0</u>	<u>\$307.1</u>	<u>\$41.7</u>

Accrued taxes receivable of \$153.6 million result from the recording of self-assessed taxes on the accrual basis. They are collected subsequent to June 30, but are earned as of that date.

Accrued tax refunds of \$104.6 million is recognition of the refund liability relating to these self-assessed taxes.

6. INVENTORY

The State's inventories consist primarily of consumable items such as office supplies, institutional medical and linen inventories, repair and maintenance items and vocational shop materials. Also included in the inventory is an immaterial amount of finished goods produced and held for resale by such units as the Department of Corrections.

Inventories are stated at the lower of cost or market utilizing a variety of methods (i.e., lifo, fifo, average), the method remaining consistent from year to year in each specific State agency.

Food stamp coupons and surplus commodities held in safekeeping by the Department of Social Services are not included in the inventory. These inventories are held on consignment and are not owned by the State of Colorado. These inventories held on consignment by the Department of Social Services at June 30, 1979 and June 30, 1978 are as follows:

	(Expressed in Millions)
Food Stamp Coupons	\$3.4
Surplus Commodities-Dry Goods	1.4
Surplus Commodities-Frozen Foods	<u>.4</u>
Total	<u>\$5.2</u>

7. DEFERRED REVENUE

Summer school tuition revenues collected by Institutions of Higher Education at June 30, are deferred to the subsequent year.

Revenue collected (by agencies other than Higher Education) from the Federal government and other sponsors is recorded as deferred revenue until such time as expenditures are made.

State Compensation Insurance premiums are recognized as earned in the period of coverage.

8. LIABILITY FOR UNPAID LOSSES

The \$101.8 million liability for unpaid losses related to the State Compensation Insurance Fund. This amount is a liability for the payment of claims.

9. ACCRUED LEAVE

All employees in permanent positions earn and accrue sick leave at the rate of one and one-fourth days per month, with no limit on total days accrued. Employees are paid for one-fourth of their unused sick leave upon retirement.

Annual leave is earned at a fluctuating rate based on longevity. In no event can more than forty-two days of annual leave be accumulated at the end of each calendar year.

The amount shown represents the State's liability for unused accrued annual leave and one-fourth of the unused accrued sick leave projected for employees which attain retirement.

The total shown consists of:

	(Expressed in Millions)	
	1979	1978
Accrued Annual Leave	\$34.8	\$30.4
Accrued Sick Leave	10.4	8.6
Total	<u>\$45.2</u>	<u>\$39.0</u>

10. LONG-TERM DEBT

By Constitution, the State of Colorado cannot enter into general purpose debt financing. Accordingly, all long-term debts are self-liquidating, and relate to facilities of the colleges and universities and Trinidad State Nursing Home.

Long-term debt expressed in millions at June 30, 1979 consist of:

	ORIGINAL BALANCE	RANGE OF INTEREST RATES	UNPAID BALANCE 6-30-79
Bonded Debt:			
Colleges & Universities	\$170.1	2.75% to 8.0%	\$149.9
Trinidad State Nursing Home	1.6	4.88% to 5.0%	1.2
Lease Purchase Agreements			6.5
Other			2.6
Total Long-Term Debt			<u>\$160.2</u>

11. OUTSTANDING ENCUMBRANCES

On June 30, 1979, outstanding encumbrances in all funds amounted to \$181.5 million. This amount included \$118.9 million from the Highway Fund and \$24.4 million from the Capital Construction Fund.

12. CONTINGENCIES

Many State agencies enter into various grant and contract agreements with the Federal government and other parties. These agreements generally provide for audits of the transactions pertaining to the agreements with the State being liable to those parties for any disallowed expenditures. It is believed that any such adjustments will not be significant in amount.

There are also various claims and litigations pending, incident to the operation of State government. A contingent liabilities report prepared by the Colorado Attorney General's Office is available.

13. PENSION COSTS

The State has a joint contributory retirement plan for substantially all employees.

During plan year ended June 30, 1979, the contributory percentages of participant salaries provided by the State and by the participant approximated 10.64% and 7.75%, respectively.

It is the State's intent to fund pension costs as accrued. However, due to the comprehensive actuarial estimating process, funding which is based on a percentage of gross salaries in any one given year may not equal the accrued liability for the period. In this event, the temporary deficiency would be computed into the actuarial estimates used to determine the amortization period of the prior service costs and possibly could affect the future contributory percentages.

Total pension cost charged to State operations for the year ended June 30, 1978, was \$56,085,547 and for June 30, 1979, \$62,879,594 which at current rates and actuarial assumptions would fund benefits earned during the periods and provide for the amortization of prior service liabilities over 39 years and 34 years, respectively.

As of the latest valuation date, December 31, 1978, the actuarially computed value of pension liability exceeded plan assets by \$505,593,897 of which \$125,355,109 related to unfunded vested benefits. Assets and other liabilities of Public Employee Retirement Association are not included in these statements.

14. LEASE COMMITMENTS

State agencies may enter into lease or rental agreements for the use of property or equipment. Such contracts provide that any commitments for expenditures beyond the current year are contingent upon funds being appropriated for such purposes and consequently limits any liability.

15. COLORADO AND NEW MEXICO RAILROAD AUTHORITIES

The financial statements include the State's investment in the Colorado and New Mexico Railroad Authorities.

The Colorado Railroad Authority (created under Article 24-43, CRS 1973) and the New Mexico Railroad Authority purchased the Cumbres and Toltec Scenic Railroad in 1970. This railroad is a 64-mile line between Antonito, Colorado and Chama, New Mexico. The railroad is operated by Scenic Railways, Inc., under the terms of a long-term lease agreement with the Colorado and New Mexico Railroad Authorities.

State appropriations made to the Colorado Railroad Authority through June 30, 1979 was \$525,115.

16. STATE EQUITY

The State Equity, or net worth, of Colorado State government is \$954.2 million, of which \$292.6 million is General Fund unrestricted balance. The equity is the difference between assets and liabilities of the State. The June 30, 1979 balance is composed of the following:

<u>Restricted Equity</u>	<u>(Expressed in Millions)</u>
General Fund:	
Reserve for Correctional Industries Note	\$ 2.9
General Cash Revolving	15.0
Oil Shale	68.6
Revenue Sharing Appropriated to Capital Construction Fund	2.7
Old Age Pension Stabilization	5.0
Revenue Restricted for Specific Agency Appropriation	13.2
Appropriations Rolled Forward into FY 79-80	2.6
Reserve for Inventories	<u>3.6</u>
<u>Sub-total General Fund</u>	<u>113.6</u>

Current Restricted Fund in Higher Education	11.8
Special Revenue Funds:	
Highway Fund	41.4
Wildlife Fund	10.5
Employment Fund	1.8
Compensation Insurance Fund	52.7
Other Special Revenue Funds (Deficit)	(1.6)
Enterprise Funds (primarily Higher Ed.)	22.7
Internal Service Funds	.7
Agency Funds	262.2
Capital Project Funds	43.8
Debt Service Funds	15.5
Fixed Assets	1,016.5
Investment in Railroad Authority	.5
<u>Sub-total</u>	<u>1,592.1</u>

Less Consolidation Adjustments which depart
from generally accepted reporting standards
for governmental entities:

Annual and Sick Leave Accrual	(45.2)
Retirement-Excess Liabilities Over Assets	(505.6)
Accumulated Depreciation	(379.7)
<u>Net Restricted Equity</u>	<u>661.6</u>

<u>Unrestricted Equity - General Fund</u>	
4% Contingency Reserve	42.6
Available for Tax Relief	250.0
<u>Total Unrestricted Equity</u>	<u>292.6</u>
<u>Total State Equity</u>	<u>\$ 954.2</u>

Reconciliation of Consolidated Statements' Equity with Combined Statements'
Equity.

Per Combined Balance Sheet	\$1,887.1
Add: Investment in Railroad Authority	.5
Less: Annual and Sick Leave Accrual	(45.2)
Accrued Retirement	(505.6)
Accumulated Depreciation	(379.7)
Investment in Correctional Industries	(2.9)
Per Consolidated Balance Sheet	<u>\$ 954.2</u>

17. EVENTS SUBSEQUENT TO BALANCE SHEET DATE

On September 1, 1979, the State of Colorado, as lessee, made three lease/purchase agreements for the use and benefit of the State Department of Institutions. Under each lease, the State acquires a leasehold interest with the option to purchase three facilities (to be constructed) from the lessor. These facilities will consist of living units and therapy and treatment centers located at the State Home and Training Schools in Wheat Ridge, Pueblo, and Grand Junction. To finance construction of such facilities, tax free Certificates of Participation were issued and the cash managed by a trustee for certificate holders, in the following amounts:

Wheat Ridge	\$6,895,000
Pueblo	5,320,000
Grand Junction	4,375,000
	<u>\$16,590,000</u>

These certificates were issued at yields ranging from 6.25%-6.80% for periods extending through July 1, 1997.

Each lease is subject to annual renewal by the State and will terminate if sufficient funds are not appropriated, budgeted, or otherwise made available to the Department of Institutions to enable it to continue leasing. If the State would terminate the lease, the State would have no further liability to anyone. Essentially, the certificate holders bear the risk as there is no guarantee or assurance for payment of the certificates in the event of nonappropriation.

PART III - COMBINED FINANCIAL STATEMENTS

STATE'S FINANCIAL OPERATION

The financial operations of the three branches of State government are controlled by the annual appropriation made by the State Legislature. Since the State cannot debt finance its operation, the annual appropriation is limited to the unrestricted funds held at the beginning of the year plus the revenues generated during the year. Thus, the annual budgetary process begins with an estimate of revenues to be received. The expenditure side of the process begins with each State agency submitting a budget request to the Executive Budget Office and to the legislative Joint Budget Committee. The Legislature enacts the appropriation bill (appropriately termed the "Long Bill") which establishes the maximum amount each agency may spend in the ensuing year. The "Long Bill" becomes essentially an operating plan for the State.

The State Constitution prohibits deficit financing for operating expenses. However, the State may create debt to finance highway or building construction. Presently, the only outstanding bonded debt of a State agency is that related to self-liquidating facilities such as university dormitories.

Significant checks and balances are built into the State organizational structure. The Department of Revenue collects most of the general revenues of the State. These monies are then deposited with the State Treasurer for investment until needed. The Division of Accounts and Control, in the Department of Administration issues warrants drawn on the State Treasurer in payment of the State's expenditures and provides a central accounting system for all the State agencies. The Office of State Planning and Budgeting prepares the Governor's budget document and reviews compliance with legislative intent. Finally, the State Auditor's Office, a part of the Legislative Branch of State government, provides post audits of the agencies' transactions.

NOTES TO COMBINED FINANCIAL STATEMENTS

1. CONTENTS OF STATEMENTS

The combined statements include activity of all State funds and Groups of Accounts. The combined statements do not include activities of Higher Education Foundations and Alumni Associations. These legal entities are independent of the respective Institutions of Higher Education but support their activities. Separate financial reports are prepared for each of these entities and are available upon request to the respective institution.

2. STATEMENT OF ACCOUNTING POLICIES

The accounting policies of the State of Colorado conform to generally accepted accounting principles as applicable to governmental units. The financial statements are prepared on the accrual basis of accounting. The following is a summary of the significant policies:

A. Revenues

The major sources of revenue are recorded on the accrual basis along with the related refund liability except for inheritance tax and other less important sources. Inheritance tax is recorded as collected and known refunds are recorded. However, no adjustment is made to allow for future refunds which are not determinable until the final inheritance tax liability is assessed.

Revenues earned under the terms of agreements with outside sources (e.g., contracts and grants from the Federal Government and/or private sources) are recorded at the time expenditures are made.

B. Expenditures

Expenditures are recorded on the accrual basis except for depreciation and unused vacation and sick leave.

C. Fund Accounting

The State maintains its accounting in accordance with the principles of "fund" accounting. Fund accounting is a concept developed to meet the needs of governmental entities in which legal or other restraints require the recording of specific revenues and expenditures. The transactions of each fund are reflected in a self-balancing group of accounts, an accounting entity which stands separate from the activities reported in other funds.

For financial statement presentation, like kinds of funds are combined and reported as a fund group. For example, the State may have a number of individual "Loan, Endowment, Trust and Agency" funds which are grouped together in the financial statements.

The accounting profession has developed a common classification of funds so that there is a basis for comparability of financial statements of different entities. A brief description of each of the funds follows.

- (1) General Fund -- The general fund is the principal operating fund in State government. It includes all those operations financed from the unrestricted general revenues of the State. The general fund includes all the transactions not recorded in other funds.

The fund's revenues include general taxes and revenues generated by agency operations that augment State sources such as institutional care and federal grants and contracts. A significant portion of the fund's expenditures are monies passed through to local elementary and secondary school districts and to the colleges and universities.

- (2) Current Restricted Fund -- The financial statements published by the colleges and universities reflect their current activities in a different manner than is recorded in the State Central Accounting System. Consequently, the general fund statement has been separated into two categories; namely, general fund and current restricted fund, to endeavor to reflect more accurately the operations of higher education. The current restricted fund includes higher education grants and contracts for specific purposes such as research and specific student programs.

- (3) Special Revenue Funds -- Special revenue funds account for specific revenues designated to finance specific activities. The individual funds included in this group are:

HIGHWAY FUND

Proceeds from excise taxes on motor fuels, driver and vehicle registration fees, and ton-mile taxes provide the revenues of this fund which are used primarily for the construction and maintenance of public highways in the State.

WILDLIFE FUND

Hunting and fishing license fees are used to preserve the State's wildlife and provide outdoor recreational facilities.

EMPLOYMENT FUND

From funds provided by the Federal government, the fund provides employment services and pays out unemployment insurance benefits.

COMPENSATION INSURANCE FUND

Acting in the same capacity as a private insurance company, the fund provides workmen's compensation payments to employees injured or killed in industrial accidents. The required revenues are provided by a fee based on the amount of each employer's payroll.

COLORADO MEDICAL DISASTER INSURANCE FUND, THE COLORADO MAJOR MEDICAL INSURANCE FUND, AND THE SUBSEQUENT INJURY FUND

These funds are designed to provide additional medical or injury award payments to those provided by the Compensation Insurance Fund. The primary source of revenue for this purpose is a tax on compensation insurance premiums.

- (4) Enterprise Funds -- In this type of fund, the State provides a service to the general public which is financed by charges to the users. An example is the State Veteran's Nursing Home.
- (5) Internal Service Funds -- These funds are established to finance and account for services and commodities furnished by a designated agency to other departments of State government. Examples are: Central Stores, motor pool, and the print shop operation.
- (6) Trust and Agency Funds -- These funds including loan and endowment funds are similar in nature and therefore are combined and reported on as a group. The basic similarity of the funds is the custodianship of monies received.

A loan fund accounts for the receipt of monies from private sources and federal student loan assistance programs and the loaning of these monies to students, faculty and staff. The terms of gift agreements usually specify that the funds operate on a revolving fund basis; i.e., repayments of principal and interest are loaned to other individuals.

Endowment funds are funds with respect to which donors or other outside agencies have stipulated, as a condition of the gift, that the principal must be retained intact and invested for the purpose of producing present and future income which may either be expended or added to the principal.

Trust and agency fund activity, as the name implies, consists solely of accounting for monies placed in the custody of the trustee or agent for safekeeping. The receipt or withdrawal of such monies has no financial impact on the State.

(7) CAPITAL PROJECTS FUNDS

The capital projects funds are comprised of what is regularly referred to as the "capital construction fund" and other capital construction funds, which include the unexpended plant funds of higher education. The "capital construction fund" is the fund referred to in the "Long Bill".

The distinction between these two categories within the capital construction funds subgroup is primarily in the source of the monies which are used for the acquisition and construction of plant facilities in both instances.

The revenues of the "capital construction fund" consist of the general revenues transferred from the general fund and federal sources.

The revenues of the "other capital construction funds" are from special sources, such as donations, fees or federal sources and do not include any revenues from the general fund.

A supplemental schedule segregating the two capital construction activities is included in the financial statements. The fund balance of each category normally represent amounts remaining unexpended at the reporting date.

(8) DEBT SERVICE FUNDS

This group includes funds for renewals and replacements and funds for retirement of indebtedness.

Fund balances in retirement of indebtedness funds represent resources held for retirement and interest on debt and include sinking funds established under bond indentures, mortgage amortization payments accumulated but not yet due, and other resources accumulated for interest and debt retirement. Separate accounts are ordinarily maintained for each debt.

Fund balances in renewals and replacement funds represent unexpended resources held for renewal and replacement of physical plant. An account is usually maintained for each specific project.

(9) GENERAL FIXED ASSETS

Assets recorded here consist of land, buildings, improvements other than buildings, equipment and library books. The basis of valuation for assets purchased or constructed is cost; for assets acquired by gift, it is fair market value at date of gift. Construction in progress may be included if it is not included in the capital construction funds.

Investment-in-plant funds of higher education are included here, as are fixed assets not recorded in enterprise, internal service and trust and agency funds.

D. Property and Depreciation

Property and equipment are recorded at cost, except where acquired by gift. In these instances, the estimated or appraised fair market value at the date of acquisition is recorded. Generally, all items having a cost in excess of \$500 and an estimated useful life of two years are capitalized. Depreciation of fixed assets is recorded only in the enterprise and internal service funds. The amount of such provisions is not significant.

E. Eliminations

Substantially all the intrafund transactions and balances have been eliminated.

3. CASH

The State Treasurer acts as a bank for all State agencies. Monies deposited with the Treasurer are invested until the cash is needed. The detailed composition of the cash and investments held is shown in the annual Treasurer's Report. The State maintains numerous cash accounts for administrative purposes. The cash reflected on the balance sheet is the composite amount of all accounts although some of the individual accounts may be periodically overdrawn.

The June 30 cash balances expressed in thousands are:

	1979	1978
Cash on Hand and in Bank	\$ 47,685	\$ 39,729
Cash in Custody of State Treasurer	449,537	309,380
Unemployment Insurance Cash with Fed. Govt.	<u>116,912</u>	<u>73,598</u>
Total	<u>\$614,134</u>	<u>\$422,707</u>

Cash on Hand and in Banks is used by agencies for day-to-day operational and administrative expenditures.

The cash balances on deposit with the State Treasurer are either used to meet short-term working capital requirements, such as paying warrants, or invested in various securities.

4. INVESTMENTS

Short-term investments consist primarily of U.S. Government securities which are generally recorded at cost.

Long-term investments are generally recorded at cost. The following is a summary of long-term investments by type of investment at June 30, 1979.

	(Expressed in Thousands)
U.S. Government Securities	\$ 32,163
Corporate Bonds	44,033
Mortgage Loans	96,936
Other Types	<u>40,612</u>
Total Long-Term Investments	<u>\$263,744</u>

5. ACCOUNTS RECEIVABLE

Accounts receivable and their respective allowances at June 30, 1979, and June 30, 1978, were comprised of the following major categories:

	(Expressed in Thousands)			
	1979		1978	
	<u>Receivable</u>	<u>Allowance</u>	<u>Receivable</u>	<u>Allowance</u>
Operations	\$281,920	\$33,286	\$245,201	\$23,752
Interest	16,248	-	4,636	-
Taxes	62,001	20,678	51,025	18,014
Revenue Sharing	<u>6,311</u>	<u>-</u>	<u>6,264</u>	<u>-</u>
Total	<u>\$366,480</u>	<u>\$53,964</u>	<u>\$307,126</u>	<u>\$41,766</u>

Accrued taxes receivable of \$153.6 million result from the recording of self-assessed taxes on the accrual basis. They are collected subsequent to June 30, but are earned as of that date.

Accrued tax refunds of \$104.6 million are recognition of the refund liability relating to these self-assessed taxes.

6. INVENTORY

The State's inventories consist primarily of consumable items such as office supplies, institutional medical and linen inventories, repair and maintenance items and vocational shop materials. Also included in the inventory is an immaterial amount of finished goods produced and held for resale by such units as the Department of Corrections.

Inventories are stated at the lower of cost or market utilizing a variety of methods (i.e., LIFO, FIFO, average), the method remaining consistent from year to year in each specific State agency.

Food stamp coupons and surplus commodities held in safekeeping by the Department of Social Services are not included in the inventory. These inventories are held on consignment and are not owned by the State of Colorado. These inventories held on consignment by the Department of Social Services at June 30, 1979, and June 30, 1978, are as follows:

(Expressed in Thousands)

Food Stamp Coupons	\$3,373
Surplus Commodities-Dry Foods	1,432
Surplus Commodities-Frozen Foods	419
	<hr/>
Total	\$5,224
	<hr/>

7. DEFERRED REVENUE

Summer school tuition revenues collected by Institutions of Higher Education at June 30, are deferred to the subsequent year.

Revenue collected (by agencies other than Higher Education) from the Federal government and other sponsors is recorded as deferred revenue until such time as expenditures are made. State Compensation Insurance premiums are recognized as earned in the period of coverage.

8. LIABILITY FOR UNPAID LOSSES

The \$101.8 million liability for unpaid losses relates to the State Compensation Insurance Fund. This amount is a liability for the payment of claims.

9. LONG-TERM INDEBTEDNESS

By Constitutional Article, the State of Colorado cannot enter into general purpose debt financing. Accordingly, all long-term debts are self-liquidating and relate to facilities of the colleges and universities and Trinidad State Nursing Home. Long-term debt expressed in thousands at June 30, 1979, consists of:

	ORIGINAL BALANCE	RANGE OF INTEREST RATES	UNPAID BALANCE
Colleges and Universities	\$170,118	2.75%-8.0%	\$149,942
Trinidad State Nursing Home	1,530	4.88%-5.0%	1,220
Lease Purchase Agreements			6,514
Other			2,661
			<hr/>
Total			\$160,337
			<hr/>

10. OUTSTANDING ENCUMBRANCES

On June 30, 1979, outstanding encumbrances in all funds amounted to \$181,510,000. This amount included \$118,899,400 from the Highway Fund and \$24,338,900 from the Capital Construction Fund.

11. CONTINGENCIES

Many State agencies enter into various grant and contract agreements with the Federal government and other parties. These agreements generally provide for audits of the transactions pertain-

ing to the agreements with the State being liable to those parties for any disallowed expenditures. It is believed that any such adjustments will not be significant in amount.

There are also various claims and litigations pending, incident to the operation of State government. A contingent liabilities report prepared by the Colorado Attorney General's Office is available.

12. PENSION COSTS

The State has a joint contributory retirement plan for substantially all employees.

During plan year ended June 30, 1979, the contributory percentages of participant salaries provided by the State and by the participant approximated 10.64% and 7.75%, respectively.

It is the State's intent to fund pension costs as accrued. However, due to the comprehensive actuarial estimating process, funding which is based on a percentage of gross salaries in any one given year may not equal the accrued liability for the period. In this event, the temporary deficiency would be computed into the actuarial estimates used to determine the amortization period of the prior service costs and possibly could effect the future contributory percentages.

Total pension cost charged to State operations for the year ended June 30, 1978, was \$56,085,547 and for June 30, 1979, \$62,879,594, which at current rates and actuarial assumptions would fund benefits earned during the periods and provide for the amortization of prior service liabilities over 38 years and 34 years, respectively.

As of the latest valuation date, December 31, 1978, the actuarially computed value of pension liability exceeded plan assets by \$505,593,897, of which \$125,355,109 related to unfunded vested benefits.

13. LEASE COMMITMENTS

State agencies may enter into lease or rental agreements for the use of property or equipment. Such contracts provide that any commitments for expenditures beyond the current year are contingent upon funds being appropriated for such purposes and consequently limits any liability.

14. FUND BALANCE

The fund balance of the General Fund is made up of restricted and unrestricted amounts. Items are restricted where provided by statute or the State Constitution. Those amounts left unrestricted represent that portion of General Fund equity (net assets less liabilities) available for future use as working capital or as determined by the Legislature. The Legislature has provided that a minimum contingency reserve in the amount of at least 4% of the current year's appropriated General Fund expenditures be set aside and the remainder of unrestricted fund balance be used for tax relief. Since the contingency reserve may contain any amount with a stipulation that it cannot be less than 4% of current year's appropriated General Fund Expenditures, the reserve is indeterminate until a tax relief figure is set by the Legislature for specific use of unrestricted fund balance.

Unrestricted fund balance at June 30, 1979, is as follows:

Unrestricted fund balance	\$292,592,885
4% minimum contingency reserve: 1979 appropriated General Fund Expenditures of \$1,065,131,905 times 4%	<u>(42,605,276)</u>
Unrestricted fund balance available for tax relief	<u>\$249,987,609</u>

15. EVENTS SUBSEQUENT TO BALANCE SHEET DATE

On September 1, 1979, the State of Colorado, as lessee, made three lease/purchase agreements for the use and benefit of the State Department of Institutions. Under each lease, the State acquires a leasehold interest with the option to purchase three facilities (to be constructed) from the lessor. These facilities will consist of living units and therapy and treatment centers located at the State Home and Training School in Wheat Ridge, Pueblo, and Grand Junction. To finance construction of such facilities, tax free Certificates of Participation were issued and the cash managed by a trustee for certificate holders, in the following amounts:

Wheat Ridge	\$ 6,895,000
Pueblo	5,320,000
Grand Junction	<u>4,375,000</u>
	<u>\$16,590,000</u>

These certificates were issued at yields ranging from 6.25%-6.80% for periods extending through July 1, 1997

Each lease is subject to annual renewal by the State and will terminate if sufficient funds are not appropriated, budgeted, or otherwise made available to the Department of Institutions to enable it to continue leasing. If the State would terminate the lease, the State would have no further liability to anyone. Essentially, the certificate holders bear the risk as there is no guarantee or assurance for payment of the certificates in the event of nonappropriation.

The State Public School Fund is administered by the Department of Education. Its revenue is received from the State Public School Income Fund, which is administered by the Board of Land Commissioners in the Department of Natural Resources.

The expenditures made from the fund are to local school districts to help meet the total state's share of equalization support, contingency reserve, and small attendance centers.

The balance of funds derived from the above sources remain in the fund and are available for distribution during the following fiscal year.

STATE OF COLORADO

Balance, June 30, 1979		\$ -0-

The Highway Users' Tax Fund is administered by the State Treasurer. The revenues of the fund are derived from imposition of the above type taxes, fees and assessments.

All moneys in the fund are appropriated by statute for highway purposes with the Treasurer making statutory distribution of the moneys in the following order:

1. Statutory appropriations made by the Legislature.
2. Available balance as follows:
 - a. 65% to state highway fund.
 - b. 26% to counties for highway purposes.
 - c. 9% to cities for highway purposes.

The moneys distributed to the state highway fund are administered by the State Highway Department.

The Old Age Pension Fund is established in the Colorado State Constitution and is administered by the Department of Social Services. Revenues accruing to the fund are from the above described sources. All moneys deposited in the fund shall be utilized in the following priority:

1. Payment of basic minimum pensions to qualified recipients.
2. Transfer of five million dollars to a fund known as the stabilization fund. The moneys in this fund shall be used only to stabilize payments of basic minimum pensions.
3. Transfer of ten million dollars to a fund known as the health and medical care fund. The moneys in this fund shall be used to provide health and medical care to persons who qualify for pensions and are not covered by medicare insurance.

Moneys not needed for the payment of pensions or medical care are transferred to the General Fund to be used pursuant to law. The five million dollars in the stabilization fund is restricted for the above purpose and is not returned to the General Fund.

STATE OF COLORADO
OIL SHALE FUNDS
JUNE 30, 1979
(Expressed in Thousands)

<u>Balance, July 1, 1978</u>	\$69,206
<u>Revenue</u>	
Interest	6,000
<u>Expenditures</u>	(6,584)
<u>Balance, June 30, 1979</u>	<u>\$68,622</u>

The State Treasurer administers the receipt and transfer of oil shale moneys. The source of the moneys is from sales, bonuses, royalties, leases, and rentals of oil shale lands pursuant to the federal mineral lands leasing law.

The moneys are to be appropriated by the Legislature to State agencies, school districts, and political subdivisions of the State affected by the development and production of energy resources from oil shale lands, primarily for use by such entities in planning for and providing facilities and services necessitated by such development and production, and secondarily for other State purposes.
