Richard D. Lamm
Governor

E. Robert Turner
Executive Director

James A. Stroup
State Controller

The Honorable Richard D. Lamm
Governor
State of Colorado

Dear Governor Lamm:

The Comprehensive Annual Financial Report of the State of Colorado for the fiscal year ended June 30, 1983 is submitted herewith. This report was prepared by the Division of Accounts and Control. We believe the data as presented is accurate in all material aspects; that it is presented in a manner designed to fairly set forth the financial position and results of operations of the State as measured by the financial activity of its various funds; and that all disclosures necessary to enable the reader to gain maximum understanding of the State's financial affairs have been included.

ACCOUNTING SYSTEM AND BUDGETARY CONTROL

The State's accounting records for governmental type funds are accounted for on a modified accrual basis with the revenues being recorded when available and measurable and expenditures being recorded when the services or goods are received and the liabilities are incurred. Accounting records for proprietary and fiduciary type funds are maintained on the accrual basis. That is, their revenues are recognized when they are earned and their expenses, including depreciation, are recognized when they are incurred.

In developing the State's Central Accounting System, consideration has been given to the adequacy of internal accounting controls. Internal accounting controls are designed to provide reasonable, but not absolute, assurance regarding the safeguarding of assets against loss from unauthorized use or disposition and the reliability of financial records for preparing financial statements and maintaining accountability for assets.

The concept of reasonable assurance recognizes that the cost of a control should not exceed the benefits likely to be derived and the evaluation of costs and benefits requires estimates and judgments by management.

Governor Richard D. Lamm
October 26, 1983
Page 2

All internal control evaluations occur within the above framework. We believe that the State's internal accounting controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

Budgetary control is maintained at the agency level and encumbrance accounting, under which purchase orders and contracts for expenditure of monies are recorded in order to reserve that portion of the applicable appropriation, is employed as an extension of formal budgetary integration in the general, special revenue, and capital project funds. Purchase orders or contracts which result in an overexpenditure of available balances are not released until additional appropriations are made available. Open encumbrances are not reported as a reservation of fund balances but are considered to be a commitment for the expenditure of available resources in future periods.

THE REPORTING ENTITY

The funds and entities related to the State of Colorado included in our Comprehensive Annual Report are controlled by or dependent on the State. The criteria applied in the exclusion of the following entities included its existence as an organized entity; governmental character; and substantial autonomy. They were found to be separately constituted quasi-governmental units or foundations directed by independent boards, authorities, or commissions and are financially independent of the State.

Cumbres and Toltec Scenic Railroad Commission
Health Facilities Authority
Agricultural Development Authority
Housing Finance Authority
Post-Secondary Educational Facilities Authority
Student Obligation Bond Authority
Water Resources and Power Development Authority
Public Employees' Retirement Association
University of Colorado Medical Services Foundation
College and University Foundations

Audited financial reports are available at each of the above entities.

STATEWIDE FUNCTIONS AND ACTIVITIES

Combined statewide financial statements reflect total assets of \$3.5 billion and liabilities of \$1.4 billion, leaving a residual total State fund equity of \$2.1 billion. A comparison of statewide revenues with the prior year are shown below:

**Total Revenues by Source
 (Expressed in Thousands)**

<u>Source</u>	<u>1983</u>		<u>1982</u>	
	<u>Amount</u>	<u>Percent</u>	<u>Amount</u>	<u>Percent</u>
General Taxes	\$1,961,272	46%	\$1,847,149	49%
Federal Grants & Contracts	948,985	22	840,740	22
Charges for Goods & Services	832,757	20	602,690	16
Interest and Rents	209,426	6	226,407	6
Licenses, Permits & Fines	143,047	3	134,912	3
Other Sources	143,016	3	150,311	4
	<u>\$4,238,503</u>	<u>100%</u>	<u>\$3,802,209</u>	<u>100%</u>

As you will note from the above schedule, State revenues as a percentage of total have decreased for General Taxes and Charges for Goods and Services (cash sources) have increased. We expect this trend for taxes to be reversed with the new tax legislation and Charges for Goods and Services should continue to increase. Similarly, a comparison of statewide expenditures with the prior year follows.

**Total Expenditures by Function
 (Expressed in Thousands)**

<u>Source</u>	<u>1983</u>		<u>1982</u>	
	<u>Amount</u>	<u>Percent</u>	<u>Amount</u>	<u>Percent</u>
Education	\$1,782,318	40%	\$1,623,262	42%
Social Assistance	946,364	22	736,005	19
Transportation	586,725	13	537,245	14
General Government	408,922	9	265,997	7
Business, Community and Consumer Affairs	226,987	5	218,532	6
Health & Rehabilitation	218,397	5	191,167	5
Justice	139,800	3	140,298	4
Natural Resources	114,456	3	134,862	3
	<u>\$4,423,969</u>	<u>100%</u>	<u>\$3,847,368</u>	<u>100%</u>

Based upon the above schedule, State expenditures as a percentage of total have decreased for Education and Transportation and increased for Social Assistance and General Government (local government grants). It is anticipated this trend will continue for fiscal 1984.

GENERAL FUND ACTIVITIES

This fund is the major focus of the financial operations of the State. At June 30, 1983, total assets of the general fund were \$434.7 million, an increase of \$18.1 million from the previous fiscal year. The increase in assets resulted primarily from an increase in receivables available for working capital purposes. Total liabilities of the general fund at June 30, 1983 were \$366.2 million, an increase of \$67.8 million from the previous fiscal year.

General fund revenue fell short of the "original" revenue estimate by \$154.9 million. The general fund revenues fell short of the "final" revenue estimate by \$108.5 million. Because of the shortfall in revenues, austerity measures were imposed during the fiscal year to reduce expenditures and revenues had to be enhanced by \$105.9 million from the Fiscal Emergency Fund. In addition to the reduction of expenditures, the 4% contingency reserve required by statute was exhausted at fiscal year-end. At fiscal year-end, unrestricted fund balance was zero, or the same as the previous fiscal year-end. For the first time in over fifteen years the \$15 million revolving fund was completely utilized except for \$7,000.

In summary, while the State's financial condition continues to be sound, the general fund financial position for both revenues and cash flow will require close monitoring during fiscal year 1984.

DEBT ADMINISTRATION

The State Constitution prohibits the incurring of general obligation debt. Long-term debt of the State consisted primarily of revenue bonds with an outstanding balance at June 30, 1983 of \$122,041,000. The majority of the bonds have been issued by institutions of higher education at interest rates ranging from 2.75% to 9.00% and will be retired from revenue sources.

At June 30, 1983 there were revenue anticipation warrants outstanding in the amount of \$8,680,000 and other notes and bonds in the amount of \$7,866,000. These obligations were also primarily incurred by higher education.

CASH MANAGEMENT

The State Treasurer manages the cash of the State. Monies are deposited by agencies with the Treasurer and are invested until the cash is needed. At June 30, 1983, there was a total of \$381.4 million in cash and pooled investments compared to \$438.6 million at June 30, 1982.

The State Treasury earned \$38.0 million on an accrual basis during the fiscal year ended June 30, 1983. The rate of return for the year was 11.2%.

CAPITAL PROJECTS FUNDS

There was construction in progress at June 30, 1983 of \$27,097,000, a decrease of \$12,404,000 from the prior fiscal year. During the year there was \$26,809,000 in completed construction which was capitalized in the General Fixed Assets Account Group.

GENERAL FIXED ASSETS

The general fixed assets of the State are those fixed assets used in the performance of general governmental functions and exclude the fixed assets of enterprise and internal service funds. As of June 30, 1983, the general fixed assets of the State amounted to \$1,364,734,000. This amount represents the recorded cost of the assets and is considerably less than their present value. Depreciation of general fixed assets is not recognized in the State's accounting system.

INDEPENDENT AUDIT

State statutes require an audit of the financial records by the Legislative State Auditor. This requirement is complied with on an annual basis.

ECONOMIC OUTLOOK

During the 1960's and 1970's Colorado expanded its economic base reflected by a growing population. Income gains and employment opportunities grew at rates far exceeding the national average. An example of this economic growth is that in the mid-1960's, Colorado's share of U.S. personal income was less than one percent. By 1982, Colorado's portion of U.S. personal income was approximately 1.4 percent.

In 1982, as the U.S. was mired in a recession, Colorado's economic activity began to wane. By the end of the calendar year, it was obvious that Colorado's employment growth would be smaller than in the previous seven years. Also, Colorado consumers deviated from the past and purchased fewer goods with their disposable income. These factors contributed to a recession in Colorado that was projected, but at a level that was not anticipated.

In the second quarter of the 1983 calendar year, an upturn in Colorado's economy finally appeared. Construction, reflected by a larger increase in

Governor Richard D. Lamm
October 26, 1983
Page 6

housing permits and non-residential contracts, improved over the prior year. Retail sales showed real growth after a year of depressed activity.

The outlook for 1984 is based on a continued economic recovery. Even though the strength of the recovery will not match previous levels of recovery periods, there will be renewed economic growth. Employment is projected to increase approximately 5 percent over 1983 and gross sales will expand 9.5 percent in 1984. Total personal income will finally reach double digit growth, 11.5 percent, after two years of growth in the 7 percent range.

The need for sound financial reporting is a prerequisite for effective fiscal management. I believe that need has been met in the presentation of this report and that it will assist you, as Governor, the legislature, and others in fulfilling their fiscal responsibilities to the citizens of Colorado.

Sincerely,

James A. Stroup
State Controller

JAS:mt

NOTES TO FINANCIAL STATEMENTS

The Notes to Financial Statements contain a summary of significant accounting policies and matters considered necessary in assisting the reader to understand and interpret the financial statements.

STATE OF COLORADO
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 1983

NOTE I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the State of Colorado conform to generally accepted accounting principles as applicable to governmental units.

The following entities are not included in these statements as they are separately constituted quasi-governmental units or foundations directed by independent boards, authorities, or commissions and are financially independent of the State:

Cumbres and Toltec Scenic Railroad Commission - operates the Cumbres and Toltec railroad.

Health Facilities Authority - sells bonds to finance health facilities capital construction.

Agricultural Development Authority - sells bonds to finance agricultural projects.

Housing Finance Authority - sells revenue bonds to assist financing of single and multi-family units.

Post-Secondary Educational Facilities Authority - sells bonds to finance post-secondary educational facilities.

Student Obligation Bond Authority - sells bonds to make funds available for student loans.

Water Resources and Power Development Authority - sells bonds to finance water projects.

Public Employees Retirement Association - operates a retirement program for public employees.

University of Colorado Medical Services Foundation - provides physician services at the University of Colorado Health Sciences Center.

College and University Foundations - solicits, collects, and invests contributions to further the educational functions of their respective institutions of higher education.

A. FUND STRUCTURE AND BASIS OF ACCOUNTING

The accounts of the State are organized on the basis of funds and account groups, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues, and expenditures, or expenses as appropriate. Government resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled.

For financial statement presentation, like kinds of funds have been combined into seven generic fund types and three broad fund categories. For example, the State may have a number of individual Loan, Endowment, Trust, and Agency funds which are grouped together in the financial statements. Account groups are presented for general fixed assets and general long-term debt.

GOVERNMENTAL FUNDS

General Fund:

The general fund is the principal operating fund in State Government. It includes all those operations financed from the unrestricted general revenues of the State. The general fund includes all the transactions not recorded in other funds.

The fund's primary revenues include general taxes and revenues generated by agency operations that augment State sources such as institutional care and Federal grants and contracts. A significant portion of the fund's expenditures are monies passed through to local elementary and secondary school districts and to colleges and universities. It also includes higher education grants and contracts for specific purposes such as research and sponsored programs accounted for in their current restricted funds.

Special Revenue Funds:

Special revenue funds account for specific revenues designated to finance specific activities. The individual funds included in this group are:

- Highway Fund - Proceeds from excise taxes on motor fuels, driver and vehicle registration fees, and ton-mile taxes provide the revenues of

this fund which are used primarily for the construction and maintenance of public highways in the State.

- Wildlife Fund - Hunting and fishing license fees are used to preserve the State's wildlife and provide outdoor recreational facilities.
- Employment Fund - From funds provided by the Federal Government, the fund provides employment services and pays out unemployment insurance benefits.
- Colorado Major Medical Insurance Fund, the Colorado Medical Disaster Insurance Fund, and the Subsequent Injury Fund - These funds are designed to provide additional medical, injury, or vocational rehabilitation benefits to those provided by Workmen's Compensation insurers in the State of Colorado. The primary sources of revenue for these funds are taxes on compensation insurance programs and interest on investments.

Debt Service Funds:

This fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs and includes the higher education retirement of indebtedness funds.

Capital Projects Funds:

The capital projects funds are comprised of what is regularly referred to as the "capital construction fund" and other capital construction funds which include the unexpended plant funds of higher education. The distinction between these two categories within the capital construction funds subgroup is primarily the source of the monies which are used for the acquisition and construction of plant facilities in both instances.

Revenues of the "capital construction fund" consist of the general revenues transferred from the general fund and Federal sources.

The revenues of the "special capital construction fund" are normally special sources, such as donations, fees, or Federal sources.

The source of monies used in the acquisition and construction of plant facilities in the higher education sector is primarily from Federal funds and

charges for services.

A combining statement segregating the three capital construction activities is included in the financial statements. The fund balance of each category normally represents amounts remaining unexpended at the reporting date.

All governmental type funds are accounted for on a modified accrual basis of accounting. This means that their revenues are recognized when they become susceptible to accrual, i.e., when they become both measurable and available to finance expenditures of the current period. Each of the primary sources of revenue of the governmental type funds susceptible to accrual are offset by related refund liabilities recorded where appropriate.

Excise taxes such as sales, liquor, cigarette, and use taxes are accrued based on filings received and filings due for filing periods on or before June 30, 1983. Accruals are established from inventories of excise tax filings in process, assessments in various stages of collectibility, and other filings expected to be received for those filing periods. Estimates are based on reliable historical data modified for economic trends and include a reasonable allowance for uncollectible amounts. Amounts expected to be collected after twelve months are recorded as deferred revenue.

Income taxes from individuals, corporations, and trusts are accrued based on current income earned by taxpayers prior to June 30, 1983. Income earned and taxes due on income are estimated through the use of quarterly filings, withholding statements, and historical data modified for current economic trends. Accrued tax revenue is reduced for amounts estimated to be uncollectible. Amounts expected to be collected after twelve months are recorded as deferred revenue.

Income from licenses, permits, fines, and forfeits is recorded when a court order, billing statement, or other legally enforceable notice of assessment issued.

Investment earnings are recorded in the year when earned.

Revenues earned under the terms of agreements with outside sources (e.g., contracts and grants from the Federal Government or private sources) are recorded at the time the expenditures are made.

Expenditures are recorded at the time liabilities are incurred except:

- Interest on long-term debt is recorded when due.
- Accumulated unpaid vacation and sick pay are recorded when paid.

Encumbrance accounting is used during the year for budgetary control purposes. Encumbrances outstanding at year end are charged against the subsequent year's operating budget when liquidated and therefore have no impact on ending fund balance of the current year.

Long-term investments of governmental funds are reported on their balance sheets, in spite of their spending measurement focus. Special reporting treatment is used to indicate, however, that they are not considered "available spendable resources" since they do not represent net current assets. Long-term investments are offset by fund balance reserve accounts.

Special reporting treatment is also applied to governmental fund inventories to indicate that they do not represent "available spendable resources" even though they are a component of net current assets. Such amounts are offset by fund balance reserve.

PROPRIETARY FUNDS

Enterprise Funds:

This type of fund is used to account for the operations of self-sustaining State agencies rendering services to the general public on a user charge basis, such as the Compensation Insurance Fund.

Internal Service Funds:

These funds are established to finance and account for services and commodities furnished by a designated agency to their department of State government on a cost reimbursement basis. Examples of services are: central stores, motor pool, and print shop operations.

All proprietary funds are accounted for on the accrual basis of accounting. Their revenues are recognized when they are earned and their expenses, including depreciation, are recognized when they are incurred. Depreciation has been recorded over the estimated

useful lives using the straight line method. The estimated useful lives are as follows:

- Buildings - 25 to 40 years
- Improvements - 10 to 17 years
- Equipment - 5 to 12 years

EDUCIARY FUNDS

Trust and Agency Funds:

These funds are similar in nature and therefore are combined and reported on as a group. The basic similarity of the funds is the custodianship of monies received.

Loan Funds account for the receipt of trust monies from private sources and Federal student loan assistance programs and the loaning of these monies to students, faculty, and staff. The terms of gift agreements usually specify that the funds operate on a revolving fund basis, i.e., repayments of principal and interest are loaned to other individuals. Loan funds are accounted for on the accrual basis of accounting.

Nonexpendable trust and endowment funds are funds with respect to which donors or other outside agencies have stipulated, as a condition of the gift, that the principal must be retained intact and invested for the purpose of producing present and future income which may either be expended or added to the principal. Nonexpendable trust and endowment funds are accounted for on the accrual basis of accounting.

Expendable trust funds are accounted for on a modified accrual basis essentially in the same manner as governmental funds.

Agency funds are strictly custodial in nature and do not involve measurement of results of operations.

ACCOUNT GROUPS

The two account groups are not "funds." They are concerned only with the measurement of financial position. They are not involved with measurement of results of operations.

e Fixed Asset Group of Accounts

Fixed assets used in governmental fund type operations such as land, buildings, other improvements, equipment, and library books are accounted for in the General Fixed Assets Account Group rather than in governmental funds.

Generally all items having a cost in excess of \$500 and an estimated useful life of two years or more are capitalized. Investment in plant funds of higher education are also included. Fixed assets utilized in enterprise, internal service, and trust and agency funds operations are recorded in those funds and depreciation of those assets is charged as an expense of operation in those funds.

Investments in roads, bridges, electrical systems, and similar public domain ("infrastructure") general fixed assets are neither capitalized nor reflected in the financial statements.

All fixed assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Donated fixed assets are valued at their estimated fair value on the date donated. Depreciation of exhaustible fixed assets is recorded only in the proprietary funds.

• **General Long Term Obligations Group of Accounts**

Long-term liabilities expected to be financed from governmental funds are accounted for in the General Long-Term Obligations Account Group, not in the governmental funds. Long-term debt related to higher education investment in plant funds is also included. Amounts due within one year may be recorded in the Debt Service Fund. Debt to be financed from proprietary funds is recorded in those funds.

B. BUDGETS AND BUDGETARY ACCOUNTING

The financial operations of the three branches of government are controlled by the annual appropriation made by the State Legislature. This annual appropriation is limited to the unrestricted funds held at the beginning of the year plus the revenues estimated to be generated during the year based on a modified accrual basis. The appropriation controls the expenses of the State at the agency level, predominately by category of expense or program. Appropriation may be shifted from one category to another, increased or decreased in the following session of the legislature by means of a supplemental appropriation. Supplemental legislation was passed during the reported year. A statute allowing the executive to transfer appropriation from one category to another was found to be unconstitutional by a district court at the end of the fiscal year. This ruling is currently under appeal by the Executive

branch. An unexpended appropriation lapses at the end of a fiscal year unless executive action is taken to roll-forward a specific unexpended appropriation into the next year. Appropriations which meet the strict criteria for roll-forward are reserved at year-end.

C. COMPARATIVE DATA

Comparative total data for the prior year have been presented in the accompanying financial statements where appropriate in order to provide an understanding of changes in the State's financial position and operations.

D. ELIMINATIONS

Substantially all the intrafund transactions and balances have been eliminated. Substantially all revenues from interfund transactions have been eliminated in total from the total gross revenues and accordingly have been reclassified to transfers-in in the "Other Financing Sources" (Uses) of the statements. Likewise, the interfund expenditures/expenses have been treated in the same manner and reflected as transfers-out.

E. TOTAL COLUMNS ON COMBINED STATEMENTS

Total columns on the Combined Statements are captioned Memorandum Only to indicate that they are presented only to facilitate financial analysis. Data in these columns do not present financial position, results of operations, or changes in financial position in conformity with generally accepted accounting principles. Neither is such data comparable to a consolidation. Interfund eliminations have not been made in the aggregation of this data.

F. CASH

The State Treasurer acts as a bank for all State agencies. Monies deposited with the Treasurer are invested until the cash is needed. Interest earnings on these investments are credited to the General Fund unless a specific statute directs otherwise. The detailed composition of the cash and investments is shown in the annual Treasurer's Report. The State maintains numerous cash accounts for administrative purposes. The cash reflected on the balance sheet is the composite amount of all accounts although some of the individual accounts may be periodically overdrawn. Any deficit cash balances on a fund basis are shown in the liability section of the balance sheet. This classification also includes all short-term investments such as certificates of deposit and U.S.

Treasury Bills, most of which are held by the State Treasurer. These investments are stated at cost at June 30, 1983 which approximates market.

G. INVESTMENTS

These are long-term investments, generally stated at cost or amortized cost, which approximates market.

H. SECURITIES HELD IN TRUST

Securities are held by the State Treasurer for the Division of Mined Land Reclamation to insure land restoration where permits have been issued to mine operators. In addition, surety bonds in the amount of \$131.4 million are also held for this purpose but are not included in the financial statements.

I. TAXES RECEIVABLE

The taxes receivable of \$298.2 million results from recording of self-assessed taxes on the accrual basis. They are collected subsequent to June 30, but are considered earned as of that date.

Tax refunds payable of \$158.5 million recognize the refund liability relating to these self-assessed taxes.

J. RECEIVABLES

Included in the receivables is \$10.9 million of interest and \$28.9 million of water conservation loans. There is \$21.7 million of unamortized discount applicable to these loans.

K. INVENTORY

The State's inventories consist primarily of consumable items such as office supplies, institutional medical and linen inventories, repair and maintenance items, and vocational shop materials. Also included in the inventory is an immaterial amount of finished goods produced and held for resale by units such as the Department of Corrections.

Inventories are stated at the lower of cost or market utilizing a variety of methods (i.e., LIFO, FIFO, average), the method remaining consistent from year to year in each specific State agency.

L. DEFERRED REVENUE

Summer school tuition revenues collected by

institutions of higher education and associated expenditures at June 30, are deferred to the subsequent year.

Revenue collected (by agencies other than Higher Education) from the Federal government and other sponsors is recorded as deferred until such time as expenditures are made. State Compensation Insurance premiums are recognized as earned in the period of coverage.

M. FUND EQUITY

The fund balance of the General Fund is made up of restricted and unrestricted amounts. Items are restricted as provided by statute or the State Constitution are otherwise unavailable for expenditure. The old age pension reserve is an example of the former and the reserve for inventories is an example of the latter. Those amounts left unrestricted represent that portion of General Fund equity (net assets less liabilities) available for future use as working capital or as determined by the Legislature. Current year shortfalls in actual revenue have reduced the General Fund balance to zero.

N. RESERVES

Reserves for the State of Colorado at June 30, 1983 consist of:

Reserve for Related Assets - These reserves were established to indicate that a portion of fund balance is represented by assets which are not available, spendable resources even though they are a component of assets. Assets of this type include inventories and long-term investments.

Reserve for General Cash Revolving - This reserve was established for working capital to enable the State to promptly make disbursement of moneys appropriated prior to the receipt of revenues from taxes imposed by law.

Reserve for Oil Shale Purposes - This reserve was established to segregate a portion of fund balance legally restricted for appropriation by the legislature.

Reserve for Agency Appropriation - These reserves are used to segregate a portion of fund balance appropriated prior to the end of the fiscal year or net receipts legally restricted for use by an agency. Because of extenuating circumstances, agencies have been unable to expend their appropriation and

executive action has been taken to roll-forward a specific appropriation into the next year.

Reserve for Old Age Pension Stabilization - This reserve was established to segregate a portion of fund balance legally restricted for the payment of old age pension.

Reserve for Other Specific Purposes - These reserves are used to indicate that a portion of fund balance is restricted as to the use of the assets represented. The restriction can be from the donor in the case of fiduciary funds or in the payment of debt principal by debt service funds. It is also possible for the fund balance of a certain fund like higher education's current restricted fund to be fully reserved. A portion of the lottery enterprise fund balance is reserved for statutory distributions.

Reserve for Estimated Benefit Payments - These reserves were established in conjunction with the providing of additional medical, injury or vocational rehabilitation benefits over and above those provided by Workmen's Compensation insurers.

O. FUND DEFICITS

Employment Fund

The Fund deficit of \$1,167,000 resulted primarily from benefit payments to existing claimants and a prior year adjustment exceeding revenues and residual equity transfers. Improvement in the unemployment picture should correct the situation.

Major Medical Fund

The fund deficit of \$12,737,000 resulted primarily from benefit payments to existing claimants exceeding revenues plus a deficit of \$8,040,000 at the beginning of the fiscal year. An actuarial study was performed to project fund activity through June 30, 1985 and it resulted in costs exceeding revenues. Claims for injuries incurred after June 30, 1981 are no longer accepted by the fund and become a liability of the insurer. Since the premium tax will continue to be assessed against the insurers but with no new claims being filed, it is conservatively estimated that the deficit could be erased in five years.

NOTE II. OTHER ACCOUNTING DISCLOSURES

A. GENERAL FIXED ASSETS

A statement of changes in general fixed assets for the

year ended June 30, 1983 follows (expressed in thousands):

<u>General Fixed Asset Types</u>	<u>Balance 6/30/82</u>	<u>Additions</u>	<u>Deletions</u>	<u>Balance 6/30/83</u>
Land & Improvements	\$147,320	\$5,537	\$1,366	\$151,491
Bldgs & Improvements	763,473	65,595	3,472	825,596
Equipment	349,105	57,820	19,278	387,647
Construction in Progress	<u>39,501</u>	<u>14,405</u>	<u>26,809</u>	<u>27,097</u>
Totals	<u>\$1,299,399</u>	<u>\$143,357</u>	<u>\$50,925</u>	<u>\$1,391,831</u>

B. PROPRIETARY FIXED ASSETS

A summary of proprietary fund type fixed assets follows (expressed in thousands):

	<u>Enterprise</u>	<u>Internal Service</u>
Land	\$ 3,398	\$ -0-
Buildings and Improvements	9,647	639
Equipment	7,409	61,763
Construction in Progress	<u>11</u>	<u>-0-</u>
Total	\$20,465	\$62,402
Less Accumulated Depreciation	<u>6,885</u>	<u>23,589</u>
Net Total	<u>\$13,580</u>	<u>\$38,813</u>

C. SEGMENT INFORMATION

The State maintains Enterprise Funds with the principal activities being student services, lottery, and insurance. Segment information for the Enterprise Funds of the State of Colorado for the year ended June 30, 1983 is as follows (expressed in thousands):

	Higher _Educ.	Comp. INSUR.	Correc. _Indus.	Lottery	Other	Totals
Operating Revenue	\$182,429	\$188,534	\$4,613	\$138,271	\$9,419	\$523,266
Depreciation	-	74	(29)	81	420	546
Operating Income or (Loss)	21,575	26,434	(816)	48,339	(180)	95,352
Financing Sources (Uses) Other Than Operating						
Transfers-In	7,709	-	500	2,000	444	10,653
Transfers-Out	(22,707)	-	-	(2,181)	(119)	(25,007)
Net Income or (Loss)	6,577	26,434	(316)	48,158	145	80,998
Net Increase in Property, Plant Equipment	-	(5)	217	1,108	3,015	4,335
Working Capital	28,603	185,603	2,110	47,131	1,716	265,163
Bonds and Other Long Term Liabilities	264	268,554	36	-	797	269,651
Total Assets	52,907	378,944	5,336	58,754	9,398	505,339

D. INTERFUND BALANCES

Individual fund interfund receivable and payable balances at June 30, 1983 are as follows (expressed in thousands):

<u>Fund</u>	<u>Interfund Receivables</u>	<u>Interfund Payables</u>
General Fund	\$ 9,917	\$ 2,335
Current Restricted Fund	193	856
Special Revenue Funds:		
Highway	1,185	9,330
Employment	78	-
Debt Service Fund	100	
Capital Projects Funds:		
Regular Capital Construction	-	557
Special Capital Construction	725	1,572
Higher Education Capital Construction	665	298
Enterprise Funds:		
Higher Education	2,249	1,530
Corrections	170	-
Other	107	121
Internal Service Funds:		
Highway	9,051	-
Higher Education	-	449
Expendable Trust Fund	689	499
Nonexpendable Trust Fund	329	1,065
Agency Fund	82	6,928
Totals	<u>\$25,540</u>	<u>\$25,540</u>

NOTE III. COMMITMENTS AND CONTINGENCIES

Long-term liabilities of the State are summarized as follows (expressed in thousands):

	<u>Proprietary</u>			<u>Account Group</u>	<u>Total</u>
	<u>Enterprise</u>	<u>Internal Service</u>	<u>Fiduciary</u>		
Claimant					
Benefits	\$246,397	\$ -	\$7,366	\$71,764	\$325,527
Tax Refunds					
Payable	-	-	-	5,088	5,088
Federal Loan	-	-	-	74,914	74,914
Capital Lease					
Obligations	46	1,757	-	50,197	52,000
Surety Bonds	22,097	-	1,519	-	23,616
Rate Adjust.	-	-	-	5,215	5,215
Advances to be					
Repaid	-	-	558	701	1,259
Deferred Comp.	-	-	7,135	-	7,135
Notes and Bonds					
Payable	1,111	-	-	137,476	138,587
TOTAL	<u>\$269,651</u>	<u>\$1,757</u>	<u>\$16,578</u>	<u>\$345,355</u>	<u>\$639,341</u>

A. BENEFIT PAYMENTS TO CLAIMANTS

The State Workmen's Compensation Insurance Fund has accepted liability for future benefit payments to disabled workers of \$246,397,000. The State Employees and Officials Group Insurance Trust Fund has recognized \$5,431,000 in liability for incurred but unreported claims. The Dependent Minor Trust Fund is holding \$1,935,000 from workman's compensation awards for worker fatalities. Future claims against the Colorado Major Medical Insurance Fund, the Colorado Medical Disaster Fund, and the Subsequent Injury Fund are estimated at \$71,764,000.

B. TAX REFUNDS PAYABLE

Tax refunds to be paid after one year.

C. LONG TERM FEDERAL LOAN PAYABLE

The Unemployment Insurance Trust Fund was depleted as of December 26, 1982 and the State of Colorado began to receive Federal loans to pay Unemployment Benefit Claims which exceeded revenue from UI Contribution Taxes. These loans were made at 10 percent simple interest. Interest due on these loans at June 30, 1983 was estimated at \$2,492,000. The principal of these and subsequent loans for UI benefits are due to be repaid no later than November 1984.

D. LEASE COMMITMENTS

State agencies may enter into lease or rental agreements for the use of buildings or equipment. Such contracts provide that any commitments for expenditures beyond the current year are contingent upon funds being appropriated for such purposes. The following information on these agreements is presented below.

Future minimum payments at June 30, 1983 under the capital lease agreements were as follows (expressed in thousands):

<u>Fiscal Year</u>	<u>Amount</u>
1984	\$ 9,963
1985	10,014
1986	8,396
1987	7,411
1988	7,079
After 1988	---24,525
Total Minimum Lease Payments	77,388
Less: Imputed Interest	---(25,388)
Present Value of Net Minimum Lease Payments	\$52,000

Future minimum payments at June 30, 1983 under operating lease agreements were as follows (expressed in thousands):

<u>Fiscal Year</u>	<u>Amount</u>
1984	\$ 7,221
1985	5,338
1986	4,056
1987	3,680
1988	3,591
After 1988	---2,734
Total Future Minimum Rental Payments	\$26,620

E. SURETY BONDS

Surety bonds held in the form of letters of credit and investments at June 30, 1983 included \$22,097,000 from Workmen's Compensation Insurance policy holders, \$453,000 from non-profit employers for the Unemployment Benefits Fund, and \$1,066,000 in responsibility bonds for the Department of Revenue.

F. COURT ORDERED RATE ADJUSTMENT

The \$5,215,000 court ordered adjustment represents the remaining rate increase the Department of Social Services has been ordered to pay hospitals and nursing homes for Medicaid eligible clients over the next two years.

G. LONG TERM ADVANCES - TO BE REPAYED

These advances will be repaid from college and university funds.

H. DEFERRED COMPENSATION LIABILITY

This is the liability for the State's Deferred Compensation Program.

I. NOTES AND BONDS PAYABLE

Long-term debt of the State at June 30, 1983 consists of (expressed in thousands):

	REVENUE BOND	Revenue Anticipation Warrants	Other Notes and Bonds Payable
Balance 6/30/82	\$126,575	\$8,945	\$7,949
Additions	-0-	-0-	1,075
Reductions	4,524	263	1,158
Balance 6/30/83	\$122,051	\$8,682	\$7,866
Interest Rate Ranges	2.75-9%	6-10%	5-12%
Maturing in Year Ended:			
June 30, 1984	\$ 4,626	\$6,285*	\$ 903
June 30, 1985	4,971	295	940
June 30, 1986	5,117	300	850
June 30, 1987	5,348	250	481
June 30, 1988	5,621	250	420
After June 30, 1988	96,358	1,300	4,272

*\$6,000,000 to be refinanced.

Revenue bonds and revenue anticipation warrants in higher education will be retired from revenue sources. The majority of the other notes and bonds payable are in higher education and will be paid from revenue sources.

J. OUTSTANDING ENCUMBRANCES

Encumbrance accounting, under which purchase orders and contracts for expenditure of monies are recorded in order to reserve that portion of the applicable appropriation, is employed as an extension of formal budgetary integration in the general, special revenue, and capital project funds. Encumbrances outstanding at year-end are not reported as a reservation of fund balances but are considered to be a commitment for the expenditure of available resources in future periods.

However, certain appropriations which have been encumbered are allowed to roll-forward into the subsequent period and these encumbered appropriations are a reservation of fund balance.

On June 30, 1983, outstanding encumbrances in all funds amounted to \$160,682,434. This amount included \$92,078,017 from the Highway Fund, \$13,525,659 from the Capital Construction Fund and \$30,039,336 from the General Fund.

K. CONTINGENCIES

Many State agencies enter into various grant and contract agreements with the Federal government and other parties. These agreements generally provide for audits of the transactions pertaining to the agreements with the State being liable to those parties for any disallowed expenditures. Audit disallowances in the Department of Social Services total approximately \$10 million. The State is contesting the disallowances and their outcome is uncertain.

A judgment of \$750,000 has been entered against the State in the case of Ramos v. Lamm.

There are other various claims and litigations pending, incident to the operations of State government. A report of significant pending litigation and claims prepared by the Colorado Attorney General's office is available from the State Controller's Office.

L. ACCUMULATED UNPAID VACATION AND SICK PAY

All employees in permanent positions earn and accrue sick leave at the rate of one and one-fourth days per month, with no limit on total days accrued. Employees are paid for one-fourth of their unused sick leave upon retirement.

Annual leave is earned at a fluctuating rate based on longevity. In no event can more than forty-two days of annual leave be accumulated at the end of each calendar year.

The following amounts represent the State's estimated liability for unused accrued annual leave and one-fourth of the unused accrued sick leave projected for employees which attain retirement.

The estimated liability which will be funded out of future revenues is not recorded on the accounting records or reflected in the financial statements (expressed in thousands):

<u>Year Ended</u>	<u>Annual Leave</u>	<u>Sick Leave</u>	<u>Combined</u>
June 30, 1983	\$51,349	\$2,641	\$53,990
June 30, 1982	<u>(49,295)</u>	<u>(2,890)</u>	<u>(52,185)</u>
Increase/Decrease	<u>\$2,054</u>	<u>\$(249)</u>	<u>\$1,805</u>

The above costs will be recorded as an expense of future years when paid.

M. FISCAL EMERGENCY FUND

House Bill 1320 was enacted during the fiscal year ending June 30, 1983 which created the Fiscal Emergency Fund in response to the revenue problems encountered by the General Fund. The legislation provided for tax increases in addition to authorizing the transfer of moneys from the Severance Tax Fund and the Water Conservation Trust Fund to the General Fund. The amounts transferred were \$49,874,867 from the Severance Tax Fund and \$24,072,760 from the Water Conservation Trust Fund, with the stipulation that if funds were available they be restored by June 30, 1985. Funds were not available and no restoration was made as of June 30, 1983.

NOTE IV. PENSION COSTS

A. PUBLIC EMPLOYEES' RETIREMENT ASSOCIATION

The Public Employees' Retirement Association (PERA) is a statewide retirement association established under the authority of Title 24, Article 51, CRS 1973 Revised, which administers a defined benefit plan for public employees. Substantially all employees of the State government are required to participate in this retirement program. The State of Colorado's legal obligation is limited to the amounts paid into the association. The contributory percentages of participant salaries provided by the State and the participants are 12.5% and 8.0% respectively as required by statute and current actuarial estimates. These percentages are expected to remain approximately level from year to year considering the current stated benefits.

Total pension cost charged to State operations for the year ended June 30, 1982 was \$91,285,704 and for June 30, 1983, \$106,438,385. These amounts combined with participant contributions are sufficient to fund benefits earned during the period and provide for the amortization of prior service liabilities.

An experience investigation is performed every five years for the purpose of evaluating long-term assumptions used in the actuarial computations. The last study, completed as of December 31, 1982, resulted in an increase in the assumed annual rate of return on investments from 6.5% to 7% and the assumed annual rate of salary increase from 5% to 5.5% per year. These changes, combined with new estimates on retirement age, and employee turnover have reduced the period of amortization of prior service liability. The revised period of amortization of prior service liability was 32 years as of December 31, 1981 (formerly 44 years under the old assumptions) and 29 years as of December 31, 1982.

As of the latest valuation date, December 31, 1982, the actuarially computed values of the vested and unvested accrued liability exceeded real assets by \$696,813,081.

B. OTHER RETIREMENT PLANS

Under the statute requiring State employee participation in the Public Employees' Retirement Association, a provision was made for continuing established retirement or annuity plans for presidents, deans, professors, and instructors in State educational institutions. Under this provision, the State makes contributions to the Teachers Insurance and Annuity Association (TIAA) for full time faculty members at the University of Colorado. The State's contribution to TIAA for the years ended June 30, 1982 and June 30, 1983 was \$3,685,327 and \$3,938,910 respectively. The State's legal obligation is limited to the amounts paid to TIAA. Faculty members at CU are under social security. CSU faculty under PERA only. State contributions for FICA for the years ended June 30, 1982 and June 30, 1983 were \$6,556,555 and \$5,832,457 respectively.

C. DEFERRED COMPENSATION

The State initiated a deferred compensation plan for State employees in 1981. This plan has a third party administrator and all costs of administration and funding are borne by the plan participants. Investments and accumulated earnings of the plan at June 30, 1982 and June 30, 1983 totaled \$1,422,774 and \$7,134,927 respectively.

SPECIAL REVENUE FUNDS

Special revenue funds are maintained to account for specific revenues designated to finance particular activities or functions of State Government.

Highway Fund - Accounts for proceeds from excise taxes on motor fuel, vehicle registration, etc., used to construct and maintain highways.

Wildlife Fund - Accounts for revenues generated from hunting and fishing fees used to preserve wildlife and provide for outdoor recreational facilities.

Employment Fund - Maintained to account for the providing of employment services and payment of unemployment insurance benefits.

Major Medical - Medical Disaster - Subsequent Injury Funds - Accounts for additional medical or injury award payments granted in excess of workmen's compensation. Revenue is from a tax levy and not premium.

CAPITAL PROJECTS FUNDS

The funds are maintained to account for the acquisition or construction of major governmental general fixed assets.

Capital Construction Fund - Accounts for the general revenues transferred from the general fund and augmenting federal sources.

Special Capital Construction Fund - Accounts for special revenue sources generated from donations, fees, or federal sources.

Higher Education Capital Construction - Accounts for revenues from service charges and federal grants used for construction in the higher education sector.

ENTERPRISE FUNDS

Enterprise funds are maintained to account for the operations of state agencies which render services to the general public in a manner similar to a private business enterprise.

Higher Education - Accounts for higher education activities such as dormitories, bookstores, and cafeterias.

Compensation Insurance - Accounts for the workmen's compensation insurance program administered by the State.

Correctional Industries - Accounts for operations performed by inmates of the State penitentiary in the production of license plates, farm and dairy products and wood products.

FIDUCIARY FUNDS

These funds account for assets held by the State in the capacity of trustee or agent.

Expendable Trust -- Funds are accounted for in essentially the same manner as governmental funds.

Nonexpendable Trust - The principal of these funds remains intact and is invested to produce income which is available for expenditure or may be added to the principal.

Loan - Funds are maintained to account for the receipt of monies from private sources and Federal student loan assistance programs and the loaning of these monies.

Agency - Funds are maintained to account for the custodianship of assets.

GENERAL LONG-TERM DEBT ACCOUNT GROUP

The general long-term debt account group is maintained to account for the outstanding principal balances of the State's general long-term debt.

By Constitution, the State is prohibited from incurring general obligation debt.

STATE OF COLORADO

ECONOMIC AND SOCIAL DATA

POPULATION

Following two decades of rapid growth, Colorado's population is over 3 million. Results from the 1980 Census show that the State was the eight most rapidly growing State during the 1970's. Roughly 80 percent of the State's population resides in the twelve metropolitan counties of the Front Range. Rapid growth has occurred in mountainous resort areas and in energy rich Western Slope counties.

<u>Year</u>	<u>Colorado Population</u>	<u>United States Population</u>
1973	2,489,200	211,357,000
1974	2,543,800	213,342,000
