COLORADO

Department of Agriculture

It's a pleasure to again introduce the Colorado Agricultural Statistics Bulletin, an annual report and important information source for major crop, livestock and agricultural data in the state of Colorado. As a product of the USDA, the data on the following pages is publicly available and recorded for the sole benefit of agriculture.

The information contained in these pages helps farmers, ranchers, and the Department of Agriculture understand and compare crop values and yields, livestock inventory and production, and economic impacts of ag production. This information will also serve to educate and update our county, state, and federal elected officials about emerging crops, movement of crops, research and development needs, and considerations when drafting farm policy. Additionally, it aids research universities like the Colorado State University system to gather data about various aspects of agriculture.

This report is a summary of the work of many ag producers, the USDA Mountain Region Field Office, and dozens of field and phone enumerators. We're grateful for their work and collaboration to provide this important data to Coloradans each year.

These statistics are a vital component of our mission at the Colorado Department Agriculture to strengthen and advance Colorado agriculture and to support the work of all our state's invaluable ag producers. I hope you find much use for this data as well.

Kate Greenberg
Colorado Commissioner of Agriculture

The Colorado Agricultural Statistics Bulletin is compiled by the National Agricultural Statistics Service, Mountain Region Field Office, which is an agency within the U.S. Department of Agriculture, in cooperation with the Colorado

United States Department of Agriculture
National Agricultural Statistics Service
Mountain Regional Field Office
Cooperating with the Region's Departments of Agriculture

Dear Friends of Agriculture:

I am pleased to present the 2021 Colorado Agricultural Statistics Bulletin made available through the Mountain Regional Field Office of USDA's National Agricultural Statistics Service in cooperation with the Colorado State Department of Agriculture.

Once again, this year proved to show how good information is crucial for the Agricultural Industry. Whether used to help write disaster programs and or to help make decisions going into the future, the need for accurate agricultural information in times like these is invaluable.

Our agency strives to deliver the timely, accurate and useful statistics that the agricultural industry depends on. On the following pages, you will find much of that information including acreage, production, and economic data from 2020 and earlier at the state and county level. This information is used for marketing decisions, planning, research, insurance and disaster programs, and policy decisions.

I extend a big thank you to the farmers and ranchers for taking time out of their busy schedules to provide the data needed to produce these statistics. This information would not be possible without you. I also want to thank all the agribusinesses, extension educators and USDA's Farm Service Agency for contributing information for this bulletin and providing support for our programs.

This report would also not be possible without the dedicated effort of NASDA field and telephone interviewers who collect this data and the office staff that compiles it. I would like to thank Brad Hensley of Weld County for the cover photography, and a special thanks to the Colorado Department of Agriculture for their support of our programs.

Sincerely,

A handwritten signature in black ink, appearing to read "W. Meyer", with a long, sweeping horizontal line extending to the right.

William R. Meyer
Director, Mountain Regional Field Office

COLORADO

The Centennial State, admitted to the Union in 1876, is the eighth largest state in area and has the highest average elevation. The highest point is at Mount Elbert, 14,433 feet above sea level, one of the 53 "fourteeners" rising above 14,000 feet. The lowest elevation is 3,350 feet in extreme eastern Prowers County.

Approximate Land Area: 66.3 Million Acres
 Land in Farms: 31.8 Million Acres*
 Number of Farms and Ranches (2021): 38,800
 Average Size of Farm and Ranch (2021): 820 Acres

Farms by Type*

81.4% Individual
 8.2% Partnership
 7.3% Corporate
 3.0% Other

Farms by Tenure*

75.9% Full Owners
 18.6% Part Owners
 5.4% Tenants

Farms by Class*

55.1% Livestock & Poultry
 44.9% Crops

Farm Cash Receipts (2020): \$7.28 Billion
 Livestock & Livestock Products: \$5.14 Billion (71% of the total)
 Field, Fruit & Vegetable Crops: \$2.13 Billion (29% of the total)

2020.....	30,000	41	1,230	455,000	2.09	2,571

¹ Honey producing colonies are the maximum number of colonies from which honey was taken during the year. It is possible to take honey from colonies which did not survive the entire year.

² Stocks held by producers.

³ Average price per pound based on expanded sales.

⁴ Value of production is equal to production multiplied by average price per pound.

Trout: Total Value of Fish Sold & Foodsize Sales – Colorado: 2011-2020

National Agricultural Statistics Service (NASS) Reports and Data

The NASS Internet homepage provides easy access to the wide range of reports, data and general information published throughout the year. All data in this bulletin is published at an earlier date and can be found most quickly via the Internet.

NASS Homepage – <http://www.nass.usda.gov>
Colorado Homepage – [https://www.nass.usda.gov/Statistics by State/Colorado/index.php](https://www.nass.usda.gov/Statistics%20by%20State/Colorado/index.php)

Through a cooperative agreement with Cornell University, the Albert R. Mann Library distributes NASS, Economic Research Service (ERS), and World Agricultural Outlook Board (WAOB) periodicals and data files via the USDA Economics and Statistics System on a web server. Over 500 NASS reports annually are available free of charge. All NASS reports along with WAOB's World Agricultural Supply and Demand Estimates (WASDE) are available electronically seconds after release.

A calendar of scheduled releases is available from the NASS Homepage by clicking on **Publications**. The next screen is the Reports Calendar where you can choose the year and month of interest.

Free E--Mail Subscriptions to NASS Reports

When a current report is released, it can be sent free of charge via e--mail to the list of subscribers for that report. From the NASS homepage, select the **Publications drop down**, then follow the instructions under **Receive Reports by Email**. The four report options available in Colorado are:

Colorado All Reports
Colorado Crop Progress and Condition
Colorado Press Releases

There is no charge for e--mail subscriptions via Internet. You will receive a confirmation message to your email address you provide. You must verify that you subscribed to the releases before you start receiving the releases in your inbox. You may unsubscribe at any time by going to the **Subscription Page** and unchecking the reports you wish to discontinue.

Agricultural Statistics Data Base (Quick Stats)

Published **U.S., State, and County** information is also available in an online database **FREE OF CHARGE**. The database allows custom extracts based on commodity, year, State, and other selection criteria and produces an output file compatible for updating databases and spreadsheets for selected commodities. The database can be accessed from the NASS homepage then selecting **Data and Statistics**. From there you can retrieve National, State, or County level data. The Census of Agriculture is also available in Quick Stats. The database allows custom extracts based on commodity, year, selected counties within a State, or all counties in one or more States. The county data include totals for the Agricultural Statistics Districts (county groupings) and the State. Video tutorials and other information can be found by selecting **Help**.

LEARN MORE

Visit: www.nass.usda.gov to gain access to the following features:

- Browse the NASS website for information on surveys, the Census of Agriculture, NASS procedures, and more.
- Confidentiality and Security Pledges – Select **About NASS** to see our agency history and governing principles.
- Report Calendar – Select **Publications** to get reports by date/topic, email subscriptions, and historic reports.
- Colorado Reports – Use the map to find state-specific reports created in cooperation with the State of Colorado.
- Quick Stats – Select **Data and Statistics** to find data by agricultural product, geography, date, or other variables.
- Quick Stats Lite – Commonly searched pre-defined queries of the Quick Stats database.
- Special Tabulations – Request your own customized **Census of Agriculture** summary.
- CropScape – Create your own annual geospatial land cover maps going back to 2009.
- VegScape – Create your own weekly vegetative index maps back to January 2000.
- Follow NASS on Twitter - @usda_nass
- Customer Service – For assistance finding data online or to request hard copies, call toll free: (800) 727-9540 (7:30 a.m. to 4 p.m. ET Mon-Fri) or write to nass@nass.usda.gov.

REPORTS ISSUED DURING THE YEAR ¹ COLORADO FIELD OFFICE, USDA NASS

	<u>Frequency</u>	<u>Approximate Date of Publication</u>
General Reports:		
Crop Progress and Condition	Weekly	April-October (Mondays)
Colorado Agricultural Statistics	Annual	
Summary	Annual	October

Report Dates for Crops:

Winter Wheat Seedings	Annual	January (9th-12th)
Prospective Plantings	Annual	March (28th-31st)
Acreage Planted	Annual	June (28th-30th)
Crop Production Forecasts	Monthly	May-November (9th-12th)
Dry Edible Bean Acreage by Class	Annual	August (9th-12th)
Dry Edible Bean Production by Class	Annual	December (9th-12th)
Crop Production Annual	Annual	January (9th-12th)
Crop Values	Annual	February (20th-25th)
Wheat Varieties	Annual	February (20th-25th)
Barley Varieties	Annual	July (not done in 2015)
Hay Stocks	Semi-Annual	January, May (9th-12th)

Report Dates for Livestock, Dairy, Poultry, and Livestock Products:

Cattle Inventory and Calf Crop	Semi-Annual	January or February (5th Friday of year),
Cattle Loss	Annual	March
Sheep Inventory and Lamb Crop	Annual	January or February (5th Friday of year),
Sheep Shorn and Wool Production	Annual	January or February (5th Friday of year)
Sheep and Lamb Loss	Annual	February (3rd Friday)
Hog Inventory and Pig Crop	Quarterly	March, June, September, December
Livestock Slaughter	Monthly	20th-26th
Meat Animals - Production, Disposition, and Income	Annual	April (26th-30th)
Bee Colonies and Honey Production	Annual	March (26th-30th)

County Estimates:

Wheat and Barley	Annual	December
Corn	Annual	February
Hay - All, Alfalfa, and Other	Annual	April
Sugarbeets	Annual	July
Dry Beans	Annual	April
Livestock - Cattle and Breeding Sheep	Annual	April

Prices and Miscellaneous:

Farm Labor	Semi--Annual	May and November (15th-21st)
Agricultural Prices	Monthly	(28th-31st)
Number of Farms and Land in Farms	Annual	February (10th-19th)
Farm Production Expenditures	Annual	August
Agricultural Land Values	Annual	August

¹Same day news releases are issued for most reports. Separate reports are also printed for Cattle Loss, Sheep Loss, Wheat

Varieties, and Barley Varieties. The annual book, "Colorado Agricultural Statistics", is a summary of all data for the

previous year. All reports are available on the internet at www.nass.usda.gov/co
