#### **EXECUTIVE SUMMARY**

# **Budget Structure**

The President and Senior Management of Aims Community College (the College) are pleased to present the FY 2015-16 Operating Budget for approval by the Board of Trustees. The financial activities of the College are summarized in the following accounting funds:

- General Fund
- Auxiliary Enterprises Fund
- Restricted Fund
- Quasi-Endowment Fund (Reserves)
- Designated Reserves Fund
- Plant Fund

Revenue and expense budgets are established for each Fund. Each Fund is self-supporting, i.e., generates or receives sufficient revenues to offset expenses.

On June 25, 2015, the Aims Continuing Education Authority Board of Trustees unanimously voted to close the Authority and transfer the operations to Aims Community College. Correspondingly, the Aims Board of Trustees accepted the Continuing Education operations into the College operations beginning July 1, 2015. The 2015-16 revised budget reflects the addition of the Continuing Education's operations into the College budget. The budget also deletes the Continuing Education Authority in its 2015-16 revised budget.

The Authority was a non-profit corporation established to provide continuing education services to the community. Revenue and expense budgets were also established for the Authority. The Authority had the same Board of Trustees as the College. The combined operating budget for the College and the Authority is prepared and adopted pursuant to the School District Budget Law of 1964 (Article 44, Title 22 of the Colorado Revised Statutes).

#### **General Fund**

The General Fund comprises about 69.1% of the total \$121.4 million revenue budget. Sources of funds include Property Taxes (\$60,000,000), State Appropriation (\$8,446,176), Amendment 50 Gambling Revenue (\$351,616), Tuition and Fees (\$12,750,000), and Other Revenue (\$370,000). The General Fund accounts for revenues and expenses generated from Education and General programming to deliver credit courses and instructional programs to students.

# **Budget Structure** (continued)

#### **Auxiliary Enterprises Fund**

Auxiliary Enterprises Fund includes entities that exist to provide goods and services to students, faculty, and staff. The College's food services and student life activities are accounted for in the Auxiliary Enterprises Fund. Each entity through sales, services, and targeted student fees must generate sufficient revenues to cover its operating costs. The FY 2015-16 recommended Auxiliary Enterprises Fund budget is \$1,044,157. The Student Life budget comprises 97% of the Auxiliary Enterprises Fund expenditures. The development of this budget is managed by the Associated Students of Aims Community College (ASACC).

In FY 2014-15 bookstore services were managed by Barnes & Noble Bookseller as our contractor. In our agreement with Barnes & Noble, they perform all bookstore services including internet sales and service options and provide a variety of technology products and services for the College. We also receive 11% of the sales per the agreement.

#### **Restricted Fund**

Restricted Fund is used to record resources contracted with the College, but externally designated for a specific purpose(s). The College is required as a condition of receiving these monies to expend the resources pursuant to the grantor's or donor's intent. Examples include: federal student financial aid programs, state grants, private donations, and local contracts are reported in the Restricted Fund. The recommended operating budget for the Restricted Fund is \$12,702,908. Restricted Fund represents 10.4% of the College's overall operating expenditures plus transfers.

#### **Plant Fund**

Plant Fund records resources reserved and/or expended for facility and grounds improvements and deferred maintenance. In addition, the College has developed a Capital Projects Master Plan to guide current and future major capital projects determined to be necessary to improve and maintain the infrastructure systems of the College. Funds designated for master plan capital projects are accumulated in the Plant Fund until projects have been approved by the Board for construction. The Board has prioritized future capital projects and authorized the initiation of some capital projects for FY 2015-16 due to the improved stability in operating and non-operating revenues, as well as the availability of Plant Fund reserves accumulated to finance capital projects. Remaining Master Plan projects, although prioritized, will not begin until the Board determines the program planning and funds required are sufficient to proceed. Expenses for deferred maintenance and facility and ground improvements for FY 2015-16 are budgeted at \$2,680,710.

# **Budget Development Process**

The FY 2015-16 budget processes began in January 2015 with the distribution of budget guidelines and instructions to cost center administrators. The budget process is designed to allow the formulation of resource needs by faculty, staff and administrators. Budget information sessions are held to share information, present assumptions and rational used to develop annual budgets, and to receive feedback from faculty and staff. An open budget workshop for the Aims Community College Board of Trustees is also included in the budget development process. Budget decisions are made along organizational lines with Senior Management formulating final strategic recommendations. The Board of Trustees formally adopts the College's operating budget and approves an update of the current operating budget revisions.

The budget is formulated strategically with a process that considers the current and future economic situation and its impact on revenues and incorporates the most accurate enrollment, state appropriation and property tax projections.

# **Budget**

## Revenue (page 24)

- 1. Starting this fiscal year, the State appropriation for Aims Community College is a separate appropriation in the State Budget bill (Senate Bill 15-234). This is a change from the prior process of dividing one appropriation for local district junior colleges (Aims and Colorado Mountain College) based on resident FTE count. The reason for the change was two-fold. First, Colorado Mountain College plans to expand programming into baccalaureate degrees which is inconsistent with the original intent of the State funding for local junior college districts. Second, House Bill 14-1319 (HB 14-1319, The Higher Education Funding Allocation Model) changed the method all colleges receive funding from the State. The new rules provide Aims with a State appropriation based on the current appropriation adjusted for the average change in funding for all higher education entities. For FY 2015-16, the average change for all of higher education is approximately 11%. Therefore, the appropriation for Aims will increase by \$836,841 for a new appropriation of \$8,446,176. Additionally, State allocation of gambling dollars for Aims is projected to be \$351,616 for a State fund total of \$8,797,792. State revenue updates for the past seven reporting periods have all been positive, so, it is not believed the State will have unforeseen shortfalls in the State revenue projection for FY 2015-16.
- 2. Based on relatively flat enrollments for FY 2015-16, enrollments from FY 2014-15, and no change in tuition rates for in-state, out-of-district, and for out-of-state students, the tuition and fee revenue is projected at \$12.75 million.
- 3. General property taxes are a function of assessed valuations. It is estimated that the 2015 property tax revenues will increase by 21% over the 2014 collections based on the most recent Weld County Assessor's estimate. The tax revenue is expected to increase by \$4.5 million over the revised FY 2014-15 assessed amounts. For FY 2015-16 the College has budgeted \$58.0 million for property tax revenue and \$2.0 million for specific ownership tax. The revised 2014-15 amount to be received for property tax will be approximately \$47 million plus \$2.5 million for specific ownership tax.
- 4. Two significant student fees are being suspended again for FY 2015-16 and other fees will remain unchanged for FY 2015-16. It should be noted that for FY 2015-16 College fees are projected to not show a change for the helicopter program. The Veterans Administration (VA) requires all fees must be charged by the College for the helicopter program costs to be eligible for VA educational benefits. The helicopter flight costs, therefore, have been included as a College fee. However, there is a corresponding expense account that offsets the fee revenue for the cost of these flight charges. Other non-course fees charged by the College are budgeted flat, as the College is not projecting an increase or decrease in total credits. Special lab and course fees are adjusted by the College to reflect the approximate additional costs of programs above normal course expenditures. With the additional of the Continuing Education Authority operations, total fees budgeted for FY 2015-16 is estimated to be \$5.73 million.

# **Resource Strategies**

Tuition revenues include a 0% increase in tuition rates for in-district students, a 0% increase for out-of-district students, and a 0% increase for out-of-state students. The chart below indicates the recommended tuition rates per credit hour:

Historical Tuition and Fee Rates & Current Proposed Tuition and Fee Rates							
	2012-13	2013-14	2014-15	Proposed Academic Year 2015-16	\$ change

Administrative Fee	\$25.00	\$25.00	\$25.00	\$25.00	\$0.00		

#### Reserves

- 1. The College maintains a budgetary operating reserve of at least 2% of General Fund revenue. The establishment of a reserve is intended to offset changes in revenue estimates and unforeseen expenditures. (page 24)
- 2. In FY 2003-04, the College established reserves in the Plant Fund to begin to address the findings of the Campus Facilities Master Plan. Planned future construction projects have been prioritized, and excess revenues have remained in the fund. The College is requesting the Board determine which planned construction projects be initiated in FY 2015-16. The approximate balance in this fund is \$30.6 million as of FY 2014. (page 44)
- 3. In FY 2013 the College established a Quasi-Endowment fund (\$22.6 million) from a windfall in property tax due to the rise in oil prices prior to the economic downturn. The fund includes the Reserve Fund originally established in FY 2010 plus unrestricted funds at the conclusion of FY 2014. The purpose of this fund is to equalize shortfalls in other revenue funding streams that may occur due to an economic downturn. The use and inclusion of funds within the reserve fund is at the discretion of Board approval. The College will have no immediate need to draw from these funds in FY 2015-16. (page 42)

#### **General Fund**

The presentation on page 24 reflects the recommended General Fund budget for FY 2015-16 with a 18.7% overall increase in its base budget over the revised FY 2014-15 Operating Budget. The increase is attributable to an approximate \$2.3 million increase in travel and operating costs, and an \$8.1 million increase in salaries and benefits. Special projects decreased by \$1.6 million.

Salary and benefit increases include \$3.5 million for new positions (as may be reviewed and acted on throughout the year by Senior Management and the President); primarily driven by the advent of the two early colleges in Greeley and Windsor and the effort to meet Board goals; base building increases and 3% cost of living increases for FT and PT salaries (about \$2.1 million); medical and dental benefits (previously approved by the Trustees) include a 13.2% increase in medical insurance premiums; a 4% increase in employer paid dental insurance premiums; and a 9.8% decrease in long-term disability insurance for an estimated cost increase of \$695,000. Total projected compensation increase is \$2.7 million.

## **Auxiliary Enterprises Fund** (page 37)

No increase in approved Auxiliary Enterprises student fees for FY 2015-16. Total revenue, as well as expenses, is projected to remain about the same as FY 2014-15.

#### Restricted Fund (page 40)

The Restricted Fund shows an increase in both revenues and expenses for FY 2015-16 over the revised budget figures for FY 2014-15, consistent with the prior fiscal year's Restricted Fund operating budget. The largest changes are in student financial aid which is anticipated to decrease by \$1.9 million from the revised FY 2014-15 budget. It should be noted the Restricted Fund typically expends all revenues received each year according to the requirements of the gift/grant.

#### **Quasi Endowment Fund** (page 42)

Two new quasi-endowment accounts were created in FY 2012-13. Deposited into the Royalties account are all oil and gas well production revenues from the Greeley campus which are expected over time to receive slowly diminishing revenues; however for FY 2015-16, monthly royalty checks indicate total revenues of between \$260,000 and \$360,000 for FY 2014-15, so \$300,000 is projected. The sum of Futures and Royalties accounts, for slightly over \$25.3 million, provides the equivalent of 3 years of state appropriated funds, although the Trustees may consider and act on any alternate use.

# **Designated Reserves** (page 43)

New to the budget this year is the establishment of a designated reserve to fund the unfunded liability of the Colorado Public Employees Retirement System (PERA). The recent rulings by the Governmental Accounting Standards Board (GASB 67 and GASB 68) require agencies to recognize in their financial statements their agency's share of PERA's unfunded liability. While Administration is working with PERA as to the amount of the liability, it is expected an entry will be required by the end of FY 2014-15 and future entries will be required to this reserve account.

# Plant Fund (page 44)

The Plant Fund proposed budget reflects the projected cost to complete Board approved Master Planned projects, and annual deferred maintenance and minor remodeling projects.

The \$23,860,710 budgeted for FY 2015-16, includes: \$2.7 million for deferred maintenance and small remodel projects (based on year one phase-in of a two year plan to annually adjust this set-aside to match 2% of total college-wide permanent building, grounds, and infrastructure improvements, per the annual audit, including depreciated portion); and the following new projects to begin in FY 2015-16:

#### Plant Fund (continued)

Repurpose Hansen Building for Facilities & Operations and Purchasing	\$ 3,100,000
New Science Labs	\$ 2,430,000
Welding Building Renovation	\$ 3,100,000
Trades Building Addition	\$ 10,750,000
Site Improvements to 50th Street Entrance	
(Raze F&O Building and Purchasing Building)	\$ 1,800,000
Total Capital Projects Request	\$ 21,180,000

#### **Continuing Education Authority** (page 46)

On June 25, 2015, the Aims Continuing Education Authority Board of Trustees unanimously voted to close the Authority and transfer the operations to Aims Community College. Correspondingly, the Aims Board of Trustees accepted the Continuing Education operations into the College operations beginning July 1, 2015. The 2015-16 revised budget reflects the addition of the Continuing Education's operations into the College budget. The budget also deletes the Continuing Education Authority in its 2015-16 revised budget.

#### COLLEGE PLANNING

College planning and decision-making are done at multiple levels.

#### **Strategic Planning**

At Aims Community College, Strategic Planning focuses primarily on "Where" we are currently and "What" we want to achieve. It continues to remain a critical factor because the College uses this process to guide decision-making and future direction of the institution. Aims' strategic planning process follows a four-phased approach:

- The first phase is **formulation**, which is accomplished through review of a well-defined mission statement, established values, and an updated vision statement, reflective of the goal of Aims being a "destination institution."
- The second phase of our strategic planning process is development. This phase includes a SWOT analysis of the current state of Aims, which serves as the baseline for the organization to reach its vision.
- The third stage of the process is implementation. A college-wide Strategy Council recommended two newly generated Board of Trustees' priorities and one additional long-term goal. This phase of the process establishes mid-term goals/activities and benchmarks: the budget serves as the link between planning and resource allocation, a mechanism for setting priorities and a plan of action.
- The last and final phase of the strategic planning process is **evaluation**. This evaluation will consider how well the College has achieved its goals and met the anticipated benchmarks throughout the year.

#### **Tactical Planning**

Not all planning within the College is strategic. Much planning within divisions and departments is Tactical Planning. This type of planning constitutes the "*How*" response to what the organization will accomplish. Examples include assessment, various master plans, and departmental plans. Some mid-term goals in strategic planning are tactical in nature.

Further, the All College Action Committee (ACAC) provides a vehicle for college community input for cultivating ideas and action projects that relate to the fulfillment of accreditation through the Academic Quality Improvement Program (AQIP). The committee membership is reflective of students, faculty, staff, administrators, part-time employees, and Board of Trustees.

#### **COLLEGE PLANNING** (continued)

#### **Priorities and Outcomes**

Accountability is vital for our community, the State, and at the federal level. Due to this emerging trend to demonstrate accountability, the College is focused on outcomes and return on investment. In all planning processes, the College must ask the question: how will we measure this to ensure that it was successful?

The two Board priorities which are translated into long-term goals are:

- 1) Prepare Aims Community College for the learning needs of our current and future students.
- 2) Continue to improve and enhance the image and reputation of Aims Community College.

The additional long-term goal added by Strategy Council is:

3) Attain long-term financial, operational, human and environmental sustainability of Aims Community College.

These goals will also parallel the outcomes required for continued accreditation, as well as requirements in State Performance Contracts.

# **Mission Statement**

The mission of Aims Community College is to help students achieve their learning goals and objectives through effective and efficient program options and services and to develop partnerships that support economic development and global understanding.

# **Vision Statement**

Aims Community College is a destination institution...the institution of choice for a better you.

# **College Values**

Communication

Safety

Respect & Professionalism

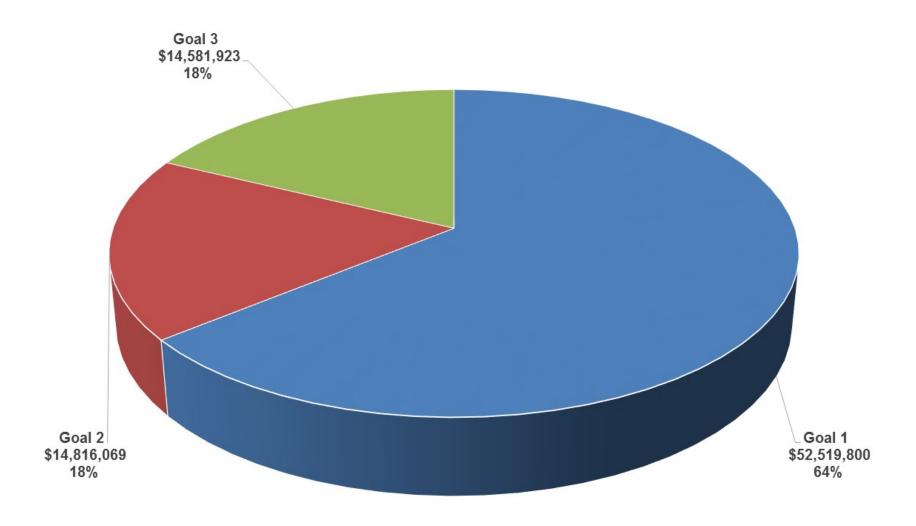

Trust

# **BOARD OF TRUSTEES FY 2015-16 GOALS** for the President and the College

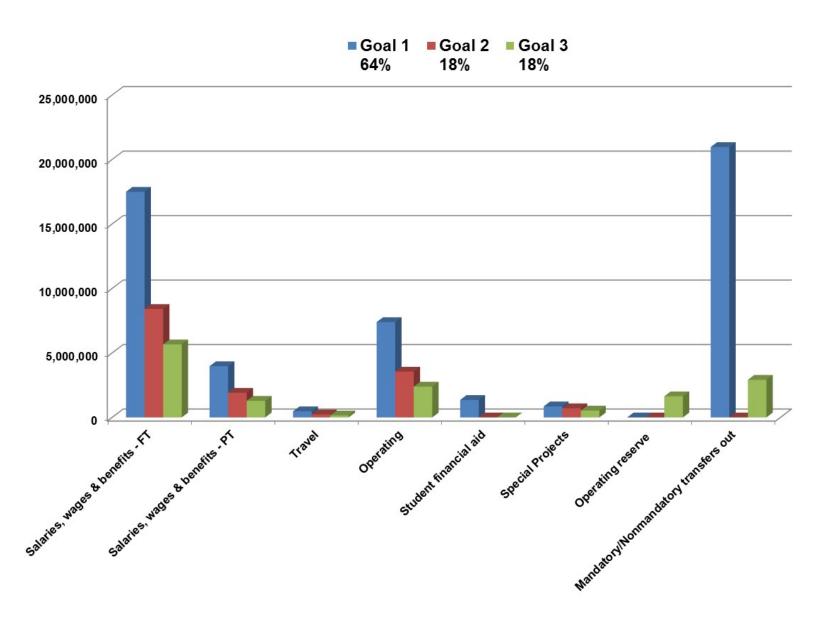

- 1. Prepare Aims Community College for the learning needs of our current and future students.
- 2. Improve and enhance the image and reputation of Aims Community College.
- 3. Attain long-term financial, operational, human and environmental sustainability of Aims Community College.

# **Board of Trustees FY 2015-16 General Fund Goals**

FY 2015-16 Operating Budget July 1, 2015 Page 14

# **Board of Trustees FY 2015-16 Goals by Category**

FY 2015-16 Operating Budget July 1, 2015 Page 15

# **COMPENSATION**

The College traditionally uses labor market trend survey data to establish salary recommendations for administrators and staff. Routinely, salary matrices are reviewed and adjustments made based on market competitiveness and internal equity. The College participates in various annual salary surveys. Salary increases are recommended to, and set by the Board, after consideration of:

- Regional salary survey data per equal employment opportunity categories
- Total compensation
- Supply/demand climate for personnel needs
- Supply/demand climate in the labor market
- CPI-U (3% through February, 2015)

#### Salary surveys utilized:

- Mountain States Association of Community Colleges
- Administrative Compensation Survey CUPA-HR
- Mid-Level Compensation Survey CUPA-HR
- State of Colorado
- Mountain States Employer's Council Northern Colorado

The College has been fortunate its major source of funding, property tax revenue, remains healthy. In fact, due to the current environment of oil production, a major component of the College's property tax revenue, it is anticipated to remain strong for the foreseeable future. In addition, after several years of declining State support, the legislature is finalizing their budget for FY 2015-16 to include an 11% increase of continuing funds. This increase brings State funding back up to funding levels dated back to 2008.

The Benefits Advisory Committee (BAC) of the State Board for Community Colleges and Occupational Education (SBCCOE) received an initial renewal rate increase of 15% due to high claims over the past 24 months. Following a review of the claims over the last 6 months compared to premium collections, it was noted that the loss experience prior to the rate increase in July 2014 was not the loss trend experience since July 2014. Claims were below premium collections after July 2014. The BAC was able to negotiate a rate reduction and reduce the cost increase to 13.2%. New to the plan options this year is the addition of Kaiser Permanente to Northern and Southern Colorado colleges. Also new to the plan is employees continuing in the Anthem plan will be able to select a health plan based not only on the plan benefits but also based on their out of pocket cost. Past practice was the cost of the three Anthem options, HMO, PPO and POS, was a "blended" rate, meaning that regardless of employee plan choice, the premium rate for each plan was the same. This year each plan will have different rates. This means that an employee will be able to pick a plan based on benefits and the cost to the employee. It should be noted that there are no benefit changes to any of the plan options (i.e. co-pays and deductibles remain the same) as was necessary last year to bring the rates to affordable rates.

Prior to the 2014-2015 plan year the SBCCOE Benefit Trust was able to buy down the premium payment. This was not the case last year or this year because the Trust could not continue to fund the premium buy-down in future years. Employers and employees would eventually have to pay all of the premium increase.

## **COMPENSATION** (continued)

Another component of the compensation plan is the status of faculty salaries. The beginning base salary for faculty is near the bottom of comparable Mountain States colleges. The faculty base for Aims faculty is \$37,500. The median is over \$41,600. Last year, we began the two-step process (\$2,500 increase in 2014-15 and \$2,500 for 2015-16) to bring the base faculty salary up to the median. In an effort to bring faculty salaries closer to the median we are proposing the implementation of the second step to bring the base salary up to \$40,000 for 2015-16. This will include \$2,500 base adjustment for all full-time faculty for the upcoming academic year. In addition, cost of living (CPI) in this area is increasing at 3%. Therefore the recommendation is to increase faculty salaries by \$2,500 and adjust the new base by the cost of living of 3% to match the CPI.

For full-time staff and administrators the recommendation is to adjust base salaries by \$1,500 and then adjust the new base by the 3% CPI which was similar to the increase provided last year. Funding is also provided to bring administrative salaries up to the average of their comparable salaries as developed last year. The recommendation also includes funding for the cost increases for medical insurance (13.2%) and dental insurance (4%). Employee coverage will continue to be provided by the College at 100% and family coverage will continue to be provided by the College at 85%.

As with the full-time faculty salary increase, our part-time/adjunct faculty salaries have been significantly below market rates paid by colleges and universities in the area. Administration is recommending the second year increase as proposed last year. The proposed increase will raise the credit hour rate from \$832 per credit hour to \$1,000 per credit hour. The cost of this rate increase is estimated to be \$490,000.

And in an effort to be competitive in recruiting part-time employees and retaining workstudy employees, a 5% increase is recommended at an estimated increase of \$100,000.

#### **Proposal Cost**

Medical & Dental 100%/0% employee; 85%/15% family	695,000
Adjunct faculty salary increase Part-time staff and work-study increase	490,000 
Total Cost	\$2,710,000

#### **ACADEMIC OFFERINGS**

**Academic Programs:** Aims Community College offers four degrees: Associate of Arts (AA), Associate of Science (AS), Associate of General Studies (AGS), and Associate of Applied Science (AAS). The AA, AS, and AGS degrees carry a major of Liberal Arts (in addition, there are 16 articulation agreements under the AA degree and one under the AS degree for specific programs like Pre-Nursing). There are 41 AAS degree majors. Aims also offers 140 occupational certificates.

**Library:** Kiefer Library resources include:

- More than 28,054 items, including books, DVDs, CDs, videos, hard copy periodicals and miscellaneous formats.
- 60 current periodical titles available in print format; however emphasis is placed on electronic access of periodicals through the library's databases.
- More than 115,007 full text electronic books; library customers may download individual titles onto their computer or hand held device.
- The majority of the physical collection is located at Kiefer Library, Greeley campus. Items are also available for delivery to the Loveland, Ft. Lupton and Windsor campuses.
- Free interlibrary loan service is available for requested items that are not part of the Kiefer collection. Often a Nook book is purchased which gives immediate satisfaction to the library customer.
- Kiefer Library emphasizes 24/7 access for students, faculty, staff and administration with the majority of the budget allocated to electronic databases, electronic books and electronic newspapers.
- Usage of electronic databases is high with more than 307,738 searches or documents retrieved last year. The annual subscription and access fees are part of the library budget. 24/7 access is available to all with an Aim's ID.
- 7-day checkout of laptops and Nook readers is available to currently enrolled students.
- "Purchases by Customer Suggestions" continues to increase especially with electronic titles. The suggested material is then made available to the library customer for check out on a Nook reader.

**Other Educational Services:** Student educational success is supported through assessment, advising, career planning, developmental education, tutoring, retention programs, and financial aid.

**Sites of Instruction:** Instruction is delivered at over 100 sites throughout the service area, and online over the internet. They are scheduled from 7 a.m. to 9 p.m.

(Source: Institutional Effectiveness & Assessment; Kiefer Library)

#### **EMPLOYEES OF THE COLLEGE**

**Full-Time Employees:** The College currently employs 102 full-time faculty, 196 full-time staff, and 32 administrators. They are distributed throughout the President's Office, Administrative Services, Student Services, Continuing Education, and the four Academic Divisions.

**Part-Time Employees:** The College currently employs 86 FTE part-time faculty and 50 FTE part-time staff.

**Federal Work Classifications:** The full-time instructional faculty is comprised of 46% male, 54% female, and 6.8% minority.

#### SITES AND FACILITIES

**Sites of Instruction:** Aims Community College provides instruction throughout its entire service region; however, most educational activities occur at the Greeley, Fort Lupton, Windsor and Loveland campuses. Aims also offers convenient online courses.

**Greeley Campus:** The Greeley campus occupies 184 acres and consists of 13 instructional facilities. The College Center went through an extensive renovation (LEED Certified) and reopened with centralized services under one roof for students in June 2010. Horizon Hall reopened in May 2011 after extensive renovation to improve the learning experience, offering eight classrooms, study rooms and a student break area. The Horizon Hall renovation used sustainable practices by bringing more light into spaces and energy efficient HVAC system. In the fall of 2012, the Greeley campus opened a new pedestrian promenade that provides contiguous contact with every building. The promenade project added a new road west of the physical education building, completing a north/south access from 54th Avenue to the northwest side of campus. A new parking lot in place of the existing tennis courts created an additional 58 parking spaces just west of Ed Beaty. New tennis courts emerged just west of the new parking lot, providing access to 3 courts and backstop. An outdoor classroom located between College Center and Horizon now provides a great location for outdoor instruction, along with an abundance of seating for relaxing between classes. The 40,000 square foot Westview building was also updated with renovations that created a more aesthetically pleasing learning environment. The General Services building renovation was completed 2014 and was renamed Cornerstone. The 50,000 square foot renovation was done in multiple phases while fully occupied. An exterior upgrade was approved by the Board of Trustees and completed the renovation of the former typewriter factory in early 2015.

Fort Lupton Campus: The campus is located east of Fort Lupton and occupies 60 acres. Beginning with the ground breaking in November of 2012 through the project completion in fall of 2013, the Fort Lupton campus has been transformed inside and out. The renovations to the Prairie building have created added function to the administrative offices and flow throughout the building. Updates include; lighting, flooring, paint, window coverings, open common area, etc. The new Platte building has 27,000 square feet consisting of a computer lab, science lab, oil and gas/agriculture labs and classrooms, a community room, student and faculty space and the addition of 56 parking spaces.

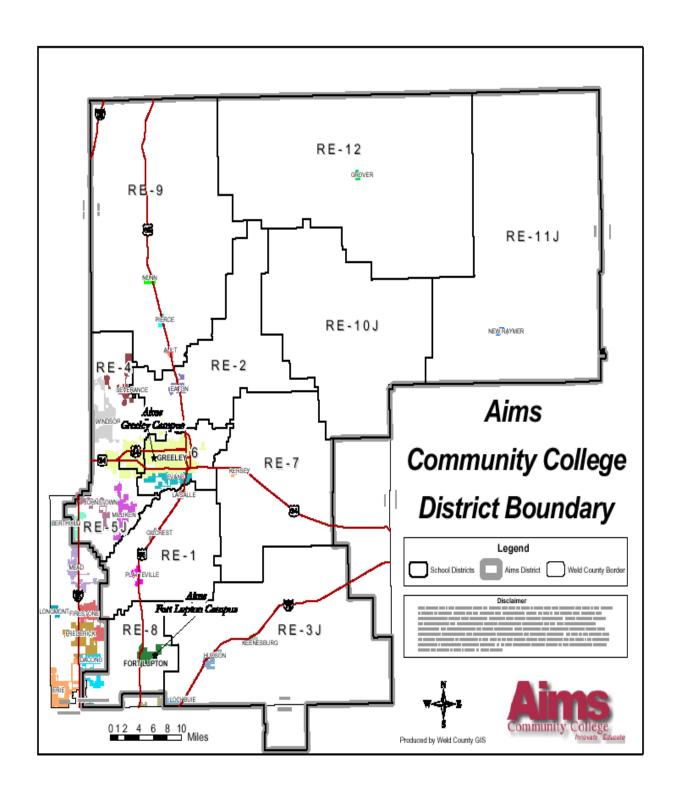

**Loveland Campus:** The campus is located in downtown Loveland and consists of a 14,000 square foot two-story instructional facility. This facility received an interior renovation in 2014.

**Windsor Campus:** The Automotive and Technology Center opened December 15, 2009 and consists of 46,499 square feet, on a site of 4.3 acres. With the purchase of an additional 10.77 acres, construction of a new building to house the Criminal Justice, Fire Science and EMT Services programs began January, 2015. A new fire training tower will also be located at the Windsor campus. The programs will move to this site in January, 2016.

# **SITES AND FACILITIES** (continued)

**Summary of Parking Capacities:** Parking for 1,787 cars is provided in 19 lots on the Greeley campus. Parking for 127 cars is found in the lots at the Fort Lupton campus. Parking at the Automotive and Technology Center consists of 111 spaces designated open parking and 82 spaces designated controlled. Parking for the Loveland campus is found on adjacent streets or adjacent parking lots to the north and west of this site.

#### REVENUE SOURCES DETAIL—PROPERTY TAXES

Colorado property taxes are paid based on assessed value, which is determined by multiplying the county assessors' estimate of the actual (market) value times a factor referred to as the assessment rate. The mill levy for each tax area represents the number of dollars of property taxes levied for each one thousand dollars of assessed value.

Several factors can affect the final tax revenue collected. One such factor is the Gallagher Amendment. This constitutional amendment established separate statewide assessment rates for nonresidential and residential properties. The rate for nonresidential property was set at a fixed rate of 29%. The assessment rate for residential property was set at 21% but is allowed to fluctuate to ensure that roughly 45% of the property tax collected is paid by residential property and 55% by nonresidential property. For tax year 2014-15, the assessment rate for residential property is 7.96%.

Amendment One, also known as the Taxpayer's Bill of Rights, or TABOR, also places restrictions on the generation of property tax revenues. It requires voter approval prior to any new tax, tax rate increase, extension of any expiring tax or a change in tax policy that results in a net tax revenue gain.

<sup>\*</sup> Final data for Spring 2015 is not yet available; therefore, credit hours, FTE, and headcount are based on the enrollment as of Spring day 35. The 2013-14 Spring figures have been updated to reflect the actual end of the term enrollment and this is the column used in the comparison with the prior FY.
