Introduction

The Office of Institutional Research (IR) at Arapahoe Community College will produce a single Data Book (report) each semester, including the Summer term. The data for these reports will be extracted from our student information system (Banner/Operation Data Warehouse (ODS)) approximately 2 days after the end of the term and reports will be published as soon as possible thereafter.

Read the notes for each table to understand the context of the report and know the data extraction time. Data items were selected based on best practices, as well as the frequency of report requests from different constituents. Additional data requests or questions may be directed to the IR office.

Thank you.

All Countable Student Enrollment Data

Total Countable Headcount

Countable Headcount is the number of unique students enrolled for credit into a countable class during the reporting period. Students enrolled solely into non-countable class and students enrolled solely for non-credit are excluded; these are mostly NCTI* students, students who are auditing a class, and students who dropped late for administrative reasons. Unless explicitly stated, all Headcount reported in the Data Book refers to Countable Headcount numbers.

Headcount by Student Type

Each academic term, enrolled students are assigned a Student Type by the Registrar's Office based on several factors, including the student's current status as a high school student, prior attendance at ACC, and prior attendance at other post-secondary institutions. Student Type is calculated multiple times during an academic term; therefore, a student's status may change after a data freeze is completed. The table below displays the unduplicated count of registered students in each Student Type category.

Countable Headcount by Student Type	Summer 2015	Summer 2016	Summer 2017	Summer 2018	Summer 2019

* ACC's partnership with NCTI allows broadband cable industry employees to earn a career-related degree/ certificates at ACC, but courses designated for NCTI affiliates are not considered countable for reporting purposes.

Total Full-Time Equivalency (FTE)

Full-time Equivalency (FTE) is a measure of students' academic enrollment activity and is calculated by dividing countable credit hours by 30 credits. An FTE of 1.0 is equivalent to enrollment in 30 credits per Academic Year ('Annualized FTE' or 'AFTE'); for the purposes of this report, all FTE is calculated using this method.

FTE by Campus

'FTE by Campus' reflects the total credit hours generated at a particular ACC campus (divided by 30 credits to create AFTE). Littleton Campus includes courses taken at the Art & Design Center, as well as certain other course types (clinical & practicum courses) which may not take place on campus. High School Campuses include courses facilitated at a high school or early college campus; credits generated by high school students at one of ACC's physical or online campuses are not included in High School Campus FTE.

Demographics

Age Group

Registered students' age group based on their age at the time of admission. Mean Age is obtained by computing the average of all ages for ACC students' registered for the term. Median Age is the 50th percentile, or the "middle", and is obtained by creating a list of registered (for the term) students' ages in numerical order. Percentage calculation is based on most recent term data. Age data may differ from the reported headcount for the same term, due to report timing, previous overlapping of age categories, and unreported date of birth.

Ethnicity/Race

Ethnicity is a self-reported data field on the admission application. In 2010, the Federal Government issued new guidelines on how to collect and report race and ethnicity; these guidelines are often referred to as 'IPEDS Ethnicities'. The table below reflects the unique count of students in each IPEDS Ethnicity category.

Registered Students by IPEDS Ethnicity	Summer 2015	Summer 2016	Summer 2017	Summer 2018	Summer 2019	Summer 2019 %

Gender

Gender is a self-reported data field on the admission application. IPEDS reporting requires gender to be reported as either male or female so, for reporting purposes only, students not self-declared as female or male are designated 'female' if their Social Security Number (SSN) ends in an odd number, and 'male', when it ends in an even number. The same rule is applied to the Student ID, if the student has no SSN on file.

Registered Students by Gender	Summer 2015	Summer 2016	Summer 2017	Summer 2018	Summer 2019	Summer 2019 %
Female	2168	2024	2042	1956	1934	62.0%

Instruction Method Distribution

Instruction method distribution describes how students take their courses and is calculated using students' billed credit hours for a specific term. "Online 100%", "Traditional 100%", and "Hybrid 100%" students are those who are taking all of their courses in one of the 3 aforementioned formats. "Online and In-Person" students are registered for at least one online class as well as a traditional, hybrid, and/or self-paced class. "Other Combination" students are registered in any combination of the three non-online methods of instruction (traditional, self-paced, and/or hybrid) or in self-paced only courses.

Online Class Registration	Summer 2015	Summer 2016	Summer 2017	Summer 2018	Summer 2019	Summer 2019 %

CE Students - Headcount and FTE

CE Students – Unduplicated Headcount

Unique count of students with the 'H' Student Type for the specified academic term.

CE Students - Demographics

CE Students - Ethnicity/Race

In 2010, the Federal Government issued new guidelines on how to collect and report race and ethnicity, which is often is referred us as the 'IPEDS Ethnicities'. The table below was calculated based on this guideline, using self-reported data from students' admission application.

CE Students by Ethnicity	Summer 2015	Summer 2016	Summer 2017	Summer 2018	Summer 2019	Summer 2019 %
American Indian or Alaskan Native	0	1	1	0	0	0.0%
Asian	9	7	10	4	6	7.6%
Black or African American	0	2	2	1	0	0.0%
Hispanic	4	7	4	7	6	7.6%

White	64	39	54	50	53	67.1%
Total CE Students	87	68	82	77	79	100.0%

CE Students - Gender

Gender data is taken from the student self-reported information on admission application. IPEDS reporting requires unknown and non-reported gender to be reported as either male or female; this is done based on the student Social Security Number (SSN). For reporting purposes, students with an SSN ending in an odd number

are designated 'female', otherwise, they are designated 'male'. The same rule is applied to the Student ID (S#), if the student has no SSN on file.

CE Students by Gender	Summer 2015	Summer 2016	Summer 2017	Summer 2018	Summer 2019	Summer 2019 %
Female	33	33	37	45	47	59.5%

CE Students – Registration Details

CE Students - Time Status

A full-time student is enrolled for 12 or more semester credit hours and students enrolled in less than 12 credits are classified as part-time. The table below displays the count of registered students in each category, including the breakdown of semester credits enrolled. Percentage calculation is based on most recent term data.

CE Students – High School Graduate Retention

CE Students – Post-High School Graduation Status

The high school (HS) graduation date on file is used to determine if a CE student has graduated from HS. For the purposes of calculating the total number of HS graduates for this report, if no graduation date is listed for a student, s/he is considered to have graduated if: 1. The student is at least 17 years old at the end of the Spring term and 2. The student did not return to ACC as a HS student in the subsequent Fall term. This section of the Data Book is only updated for the Fall end-of-term reports; results for most recent Fall terms will be copied to subsequent Spring and Summer Data Books.

- **'Returning' HS graduates:** CE Students who re-enroll at ACC as a non-HS student in the Fall semester immediately following their HS graduation.
- **'Retained' HS graduates:** Includes returning HS graduates and CE Students who earned an ACC degree or certificate but did not re-enroll in the Fall semester immediately following their HS graduation.

CE Students - Non-Returning High School Graduates, College Type Attended

Following is a table displaying counts of the HS Graduates who did not re-enroll at ACC in the Fall term immediately following their high school graduation date, as well as the type of institution(s) they attended in that Fall term. For the institution type break-out, graduates are counted no more than once per institution type but may be counted at multiple institution types, based on their Fall term enrollment status as determined by National Student Clearinghouse data.

Non-Concurrent Enrollment/ High School ("CE") Student Data

This section includes data for all students with countable class registration who have not been assigned the High School/ASCENT ('H') Student Type in Banner for the specified term.

Non-CE Students - Headcount and FTE

The table below excludes CE (High School) students as well as students who are solely registered into non-countable class and/or for non-credit courses.

Non-CE Students - Headcount by Student Type

Each academic term, enrolled students are assigned a Student Type by the Registrar's Office based on several factors, including the student's current status as a high school student, prior attendance at ACC, and prior attendance at other post-secondary institutions. Student Type is calculated multiple times during an academic period; therefore, a student's status might change after a data freeze is completed. The table below displays the unduplicated count of registered students in each Student Type category.

Non-CE Headcount by Student Type	Summer 2015	Summer 2016	Summer 2017	Summer 2018	Summer 2019

Non-CE Students - FTE by Student Type

Full-time Equivalency or 'FTE' is a measure of students' academic enrollment activity and is calculated by dividing all countable credit hours by 30 credits. An FTE of 1.0 is equivalent to a student enrolled full-time for an academic year (30 credits completed in an academic year). This type of FTE is sometimes referred to as 'Annualized FTE' or 'AFTE'; for the purposes of this report, all FTE is calculated using this method.
