WELCOME TO COMMUNITY COLLEGE OF DENVER

COLORADO STATE BOARD FOR COMMUNITY COLLEGES AND OCCUPATIONAL EDUCATION

Tamra J. Ward, Chair
Barbara McKellar, Vice Chair
Stephen A. Chapman
Wanda Cousar
Patricia A. Erjavec
Jennifer Hopkins
Preslano "Pres" Montoya
Ralph J. Nagel
David C. Taylor

Dr. Nancy McCallin, President
Colorado Community College System

The State of Colorado approves CCD's operation. All program approval is by the Colorado State Board for Community Colleges and Occupational Education. The Colorado Commission on Higher Education reviews and approves all programs that lead to an associate's degree.

COLLEGE OPPORTUNITY FUND (COF)

The College Opportunity Fund is the state's new way of providing tax dollar support to public and participating private colleges and universities that offer undergraduate education. CCD is one of those institutions.

The money follows you!

If you are a Colorado resident undergraduate student, the state has set aside money for your education — a stipend of \$2,480 or \$86 per credit hour — for the 2006-07 school year. You will not receive a check. Instead, the state will apply the stipend toward your tuition bill at CCD.

The stipend will NOT cover all of your tuition. You will be responsible for paying the remainder of the bill using financial aid, scholarship or grant funding, or your own money.

You MUST sign up for COF!

Once you are enrolled and registered for CCD classes, the College Access Network will authorize the COF stipend payment toward your tuition bill. Colorado residents who have not signed up for COF are responsible for the FULL amount of their tuition bills — both their portion and the amount the COF stipend would cover. That's why all Colorado resident undergraduate students MUST sign up for COF at www.collegeincolorado.com.

ACCREDITATION

CCD maintains continuous accreditation through the Academic Quality Improvement Program (AQIP) of the Higher Learning Commission of the North Central Association of Colleges and Schools. Specific programs are accredited through professional organizations as follows.

Comprehensive Medical Assistant at CCD East

- Commission of Accreditation of Allied Health Education Programs (CAAHEP) upon recommendation of the Curriculum Review Board of the American Association of Medical Assistants Endowment (AAMAE). CAAHEP, 35 East Wacker Drive, Suite 1970, Chicago, IL 60606.

Dental Hygiene

- American Dental Association

Human Services

- Council for Standards in Human Service Education

Nursing

- Colorado Board of Nursing

Radiologic Technology

- Committee on Allied Health Education and Accreditation
- Joint Review Committee on Education for Radiologic Technology

CCD Children's College on the Auraria Campus

- National Association for Education of Young Children (NAEYC) Center

Veterinary Technology

- American Veterinary Medical Association

Psychiatric Technician

- Colorado Board of Nursing

CCD is a member of the American Association of Community Colleges and the Hispanic Association of Colleges and Universities.

FIND YOUR WAY TO CCD

WELCOME TO COMMUNITY COLLEGE OF DENVER

CCD faculty, administration and staff will get you on the right track and help you stay there, whether you are taking a few refresher courses or working toward a certificate or associate degree. We will give you the individualized attention you need and want. CCD provides many learner-support services, including tutoring, advising, mentoring and career planning. We guarantee you'll be competent for a job in your area of study — what you learn here will apply to your work. And we guarantee that the credits you earn at CCD will transfer from our school to any four-year Colorado public college or university. (See College Guarantees)

Education at CCD is affordable, whether you study at Auraria — the main campus — or at one of our four Denver-area Branch Campuses. Financial aid is available to qualified students, and we offer convenient payment options. You can choose from day, evening, weekend or online classes. CCD will help you learn any way, any place and any time.

CCD Auraria is in the heart of the city and within walking distance of downtown, Larimer Square, the 16th Street Mall, LoDo, the Denver Pavilions, Colorado Convention Center and the Denver Center for the Performing Arts Complex. At Auraria, you're also close to Invesco Field at Mile High, home of the Denver Broncos; Coors Field, home of the Colorado Rockies; the Pepsi Center, home of the NHL Colorado Avalanche and NBA Nuggets; Six Flags Elitch Gardens; and Ocean Journey.

We know you'll get a lot out of your CCD experience, and we're glad you are here! We

want you to succeed because your success is our success!

CCD Accountability

Community College of Denver is recognized nationally for its success in recruiting, enrolling and retaining first-generation, low income and minority college students. The college is equally acclaimed for seeing students through to graduation or transfer to a four-year institution.

To learn more about the college's accountability, visit www.ccd.edu and download CCD's Annual Report.

Our Philosophy

CCD is a comprehensive, student and learning centered urban college. It provides open access and admission to a diverse population. CCD offers lifelong learning opportunities any way, any place and any time, along with the appropriate academic and personal support to any learner who asks for help to achieve success. CCD students are full partners in a collaborative learning experience.

Educated people make an impact on the economy, their local communities and the nation. CCD continually studies the local economy to provide appropriate transfer, educational and occupational programs that meet community and workforce needs and create positive change in individual learners.

CCD's Mission and History

Community College of Denver pledges to provide:

- programs that transfer for a baccalaureate degree.
- occupational programs for job-entry or upgrading skills.
- general education courses.
- developmental instruction and GED preparation.
- continuing education and community services.

- cooperative inter-institutional programs with Metropolitan State College of Denver and University of Colorado at Denver.

The Colorado Legislature created CCD in 1967. Three years later, classes began in a renovated auto showroom close to Denver's Civic Center. Enrollment increased so rapidly, the college immediately expanded into rental storefronts near the main building.

In 1975, CCD moved to the 124-acre Auraria Higher Education Center campus in downtown Denver. It sits on the west bank of Cherry Creek, originally the site of the 1858 frontier town of Auraria. The campus has the oldest-standing structure in Denver — the former Temple Emmanuel, now the Emmanuel Gallery, an exhibition space for student and faculty artwork.

CCD is one of 13 institutions in the Colorado Community College System. It is the third largest with more than 5,000 full-time equivalent students and an unduplicated student headcount of more than 14,000. CCD is the only community college in the City and County of Denver and the only truly urban community college in the state. It also is the only community college in the nation to share a campus with a four-year college and a university — Metropolitan State College of Denver and University of Colorado at Denver. The three institutions share classroom buildings, a regional library, recreational facilities, a performing arts center and a student union. At Auraria, CCD offers two-year programs, awards two-year degrees and certificates, provides basic skills instruction, adult basic skills education and GED preparation.

CCD Branch Campuses

- In 1985, CCD North opened at 6221 Downing St., six miles northeast of Auraria. In addition to general education, GED and English as a Second Language classes, CCD North houses trades programs like welding and machine tool.
- In 2005, CCD East relocated to the former Cole Middle School at 3240 Humboldt St., space it shares with KIPP Middle School and Skyland Community Big Picture High School. CCD East offers general education, GED and English as a Second Language classes and programs for medical office careers.
- In 2004, CCD West became CCD Southwest when it moved to the historic Teikyo Loretto Heights University Campus at 3001 S. Federal Blvd. In addition to general education, GED and English as a Second Language classes, CCD Southwest offers unique opportunities in international business studies.

CCD's branch campuses offer vocational education college courses that fit almost any schedule. The branch campuses follow the same fall, spring and summer semester schedule as CCD Auraria, but they offer students several other start dates throughout the semester. Students can finish a class over the traditional 16-week semester or start later and complete the work before the end of the semester. CCD's branch campuses provide the classes and training that Denver businesses need their employees to have.

In 2003, CCD entered into a unique partnership with Denver Public Schools, launching the CEC Middle College of Denver.

Middle College students earn dual high school and college credit for classes they take during their junior and senior years.

Under a similar arrangement with CCD in fall 2004, DPS opened Southwest Early College, a charter school, collocated with CCD Southwest on the Teikyo Loretto Heights University Campus. In the students' "13th year" of high school, they can graduate with both a high school diploma and an associate degree.

CCD Lowry, on the former Lowry Air Force Base bordering east Denver and west Aurora, is home to the college's Center for Health Sciences, Dental Hygiene Clinic and other allied health programs.

Diversity at CCD

CCD believes all learners are entitled to a quality education that provides them with an understanding and appreciation of our interdependence as individuals and nations.

The education must be meaningful to multi-ethnic students and provide CCD students, faculty and staff with an understanding of cultural pluralism. To that end, CCD provides an educational environment that fosters cultural diversity, international understanding and global awareness.

CCD recognizes that the environment can exist only with an administration, faculty and staff who reflect the cultural diversity of its students. Therefore, the administration unconditionally endorses affirmative action.

COLLEGE GUARANTEES
We guarantee your job competency

Community College of Denver guarantees the job skills of those who graduate from certificate programs or with Associate of Applied Science (AAS) degrees. Certificate and AAS graduates

should leave CCD with technical job skills that were part of their programs. If an employer finds a certificate or AAS graduate lacking in technical job skills he or she should have learned at CCD, the college will provide up to nine tuition-free credits of retraining in the degree or certificate area.

The graduate must have passed the CCD certificate or AAS capstone course. The employer must identify the job skill deficiencies in writing. The graduate, employer and program faculty must develop a written retraining plan for the student to complete within one year.

We guarantee your transfer

CCD guarantees that many of the credits students earn at CCD will transfer to all Colorado public and some private colleges and universities. CCD has articulation agreements that guarantee credits a student earned at CCD will count toward

a degree at those institutions.

Credits for all the degrees and certificates that CCD awards are explained later in this catalog. CCD guarantees:

- that those who graduate with Associate of Arts (AA) and Associate of Science (AS) degrees will be able to transfer credits to all Colorado public colleges and universities.
- that students who complete the CCD general education core curriculum will fulfill the lower-division general education requirements for liberal arts and sciences majors at all Colorado public colleges and universities.
- that many credits earned toward an Associate of General Studies (AGS) or an Associate of Applied Science (AAS) degree will transfer into Colorado college and university professional schools with which CCD has articulation agreements.

CCD will refund the tuition paid for any course (identified in the CCD catalog as an accepted part of the AA, AS, articulated AGS or general education core curricula) that does not transfer under this guarantee to students who have completed the AA, AS, articulated AGS or general education core curriculum.

Degrees other than AA, AS or AGS do not transfer except on a course-by-course basis with any given four-year school.

STATEMENT OF VALUES FOR TEACHING AND LEARNING
CCD's faculty and staff are committed to a teaching/learning process that:

1. ENABLES students to become independent learners.
2. DEMONSTRATES a commitment to student outcomes — job readiness, computer literacy, skill levels, mastery of subject matter.
3. PROVIDES an opportunity for critical thinking and problem solving.
4. DEMONSTRATES an excitement about teaching and learning.
5. MAINTAINS high but realistic expectations.
6. DEMONSTRATES an appreciation and an understanding of a diverse student population.
7. PRACTICES an individualized, learning-centered approach to encourage growth in student self-esteem.

LEARNING OPTIONS AND CAMPUS CHOICES

CCD offers traditional semester courses, English as a Second Language, GED preparation and a number of “enroll-anytime” courses on the main Auraria Campus. CCD’s administrative offices also are located at Auraria.

CCD East at Cole, North & Southwest

Students have a number of learning options. CCD East at Cole, CCD North and CCD Southwest offer a unique college experience with the flexibility to fit almost any schedule. The branch campuses follow the fall, spring and summer semester schedule, but they offer flexible enrollment — a chance to start classes at the beginning of the term or enroll on any time through the first 10 weeks of the semester. Whether you start at the beginning or some time later, you’ll finish your class by the end of the 16-week semester.

CCD Branch Campus faculty help students work at their own pace in vocational classes — whether it’s fast or slow. As a student, you’ll meet with a case manager to set a start date that allows you to complete your class before the end of the term. The case manager will work with you to examine your other life commitments — like job and family — before determining how you schedule your classes.

In addition to traditional class formats, you can choose to work one-on-one with an instructor in a lab setting. You’ll work on assignments at your own pace, with help readily available. You can finish some classes quickly or take the full semester to finish the work in the subjects you find more challenging.

These campuses offer fast-track job-training certificate programs and Associate of Applied Science degrees. With fast-track training, students can

complete certificate programs in as few as three months and as many as seven months, if they attend full time and depending on the training program. CCD grants college credit for all courses successfully completed.

CCD East at Cole, North and Southwest also provide classes in GED preparation, basic academic skills and English as a Second Language (ESL). Career assessment, GED testing and case management are available.

Performance Solutions

CCD’s Performance Solutions provides customized and contract training to satisfy the business community’s needs. Companies may select from current college programs or from tailored courses and workshops. Performance Solutions develops customized programs to meet the needs of each business and its employees.

It offers non-credit classes at the employer’s work site or at Performance Solutions’ offices in Suite 355 of the Auraria Campus Administration Building at 1201 5th St. CCD has a state-of-the-art, networked, Pentium-based computer lab offering beginning, intermediate and advanced computer instruction in an expanding range of software packages. The computer lab also is available for rental at competitive rates. Contact Performance Solutions, 303-352-6921.

The Small Business Development Center

The Small Business Development Center (SBDC) provides small business owners and would-be entrepreneurs with guidance in small business planning, start-up preparation, loan and bid package preparation, contract identification and marketing plan development. SBDC staff works with grant writing and funding for small businesses, small business computerized databases and

information networking. Visit the SBDC at 1445 Market St., or call 303-620-8076.

Online Learning

Online courses through CCD have a professor and a class of 12 to 25 learners. There are specific beginning and ending dates for online courses and, week by week, learners cover specific material and have due dates for assignments. Learners retain control over their daily schedules. They don’t need to be at the computer at a specific time on a specific day. Class participation and the exchange of ideas is the foundation of CCD Online. Although students and professors are geographically remote, they definitely are well connected. E-mail access is required. For more information, call 303-556-6304.

Evening and Weekend College

Evening and Weekend College courses and programs, coordinated through the Center for Arts & Sciences, are for adult students who want the highest quality education available in a convenient evening and weekend format. The program offers classes during fall, spring and summer semesters that are taught by experienced, effective teachers who have a master’s or higher degree, are committed to academic excellence and specialize in the content areas they teach. Small class sizes allow teachers to provide students with personalized attention.

Students can earn certificates or degrees, advance their career opportunities and marketability, or prepare for transfer to a four-year college or university. Core courses lead to the Associate of General Studies, Associate of Science and Associate of Applied Science degrees. Certificate and degree programs in high-demand professional careers are available.

For complete listings, see the current schedule of classes, available online at www.ccd.edu.

CCC Online

CCD is part of a group of community colleges in Colorado offering an Associate of Applied Science (AAS) degree in business, advanced placement nursing and other courses. All classes are offered online. Information is available at www.ccconline.org.

Workforce Initiatives

Workforce Initiatives offers credit and noncredit essential skills courses for employees of businesses and municipal agencies interested in expanding and upgrading their workforces’ skills. An Essential Skills certificate available in several career tracks, has three components:

1. training in workplace core courses, such as communication, writing and speaking for the workplace, reading, English as a Second Language, math and computational skills;
2. vocational core courses specific to each vocational track; and
3. cooperative education in the student’s field of interest involving job coaching and mentoring.

For more information, contact Workforce Initiatives, 1201 5th St., Suite 260, Denver, 303-352-6900.

ACADEMIC CALENDAR

FALL 2006

- Aug. 12 **Graduation application deadline for fall 2006**
- Aug. 14-20 **Fall 2006 advising and registration**

GETTING STARTED

If you're new to CCD, welcome! You may have met with a recruiter or requested information from the Welcome Center before choosing CCD. Most likely the people who have helped you work for Student & Enrollment Services.

CCD's S&ES staff will continue to help you get comfortable with college and with CCD. They will help you plan for your education and career, choose your classes, apply for financial aid, register for classes, learn your way around, get involved and stay active with enriching student activities while you're at CCD.

You will find friendly people who can help you with any life issues that might get in the way of your success in college when you stop by:

- Recruitment & Student Outreach in SO 136
- CCD Welcome Center in the South Classroom Lobby
- Educational Planning & Advising Center in SO 134
- Enrollment Services in SO 135
- Student Life in Suite 309 of the Tivoli Student Union

Admission policy

CCD is an open-door institution. We admit students who are 16 years of age or older, but admission to the college does not guarantee enrollment in specific programs that may have prerequisites, or classes that must be successfully completed before entering a program.

The college may deny admission to anyone whose background indicates that his or her presence would endanger the health, safety, welfare, or property of others, or would interfere with the function of the college. CCD has the right to deny admission or continued enrollment to anyone who has misrepresented his or her credentials or background.

Come visit us!

If you're a new student or simply considering CCD for your college choice, contact the Campus Relations Coordinator at 303-556-6200 to arrange a tour of the Auraria Campus.

Students who plan to enroll at one of CCD's branch campuses should call to arrange a tour:

CCD East at Cole, 303-293-8737
CCD North, 303-289-2243
CCD Southwest, 720-858-2900
CCD Lowry, 303-365-8300

The first step: Apply! Our doors are open!

CCD is a comprehensive two-year, public higher education institution that offers a variety of certificate and degree programs.

The first step toward earning a degree is to apply to CCD. The application is available online at www.ccd.edu. You can fill it out and submit it to CCD Enrollment Services in South Classroom Building 135 or to any CCD branch campus. There is no application fee.

You'll need high school, GED, or any college transcripts plus ACT/SAT scores if you have them when you submit your

application. You will receive official notification by mail of your acceptance to CCD.

Need financial assistance?

An Enrollment Services specialist can help you with the next step, applying for financial aid, or you can download CCD's Financial Aid Handbook at www.ccd.edu/es/ESfinancialaid.html. Financial assistance, grants, scholarships, Work-study and loans are available to help eligible students. To find out if you're eligible, fill out an application in Enrollment Services or online at www.fafsa.ed.gov. The financial aid process can take six to eight weeks, so start early!

What should I take first? What if I don't have the skills?

Any CCD student who is studying for a degree or certificate must meet the assessment requirement by taking Accuplacer™, which covers reading, English, math and study skills. The purpose of assessment is to help you succeed by placing you in classes that are appropriate for your skill level.

You may be exempt from taking the placement test if you can do any of the following:

- submit proof of an associate's (AA or AS) or higher degree.
- submit transcripts that show you successfully completed basic skills instruction in reading, writing or math from another institution.
- submit transcripts showing you successfully completed — with a grade of "C" or better — a college-level course in English and/or math at another institution.
- submit minimum ACT scores of 17 in reading, 18 in English and 19 in math.
- submit minimum SAT scores of 430 for reading, 440 for English and 460 in math.

Colorado law requires students to complete all basic skills courses within their first 30 credit hours of enrollment. The law prevents students from registering for courses if they don't have the appropriate test scores, or if they have not completed the mandatory basic skills courses.

Veterans using VA benefits to attend CCD also must submit transcripts of all previous postsecondary education and training no later than the end of the first semester of attendance.

Evening Services

Students who have evening classes can still get help and information in EPAC and CCD Enrollment Services, located across the hall from each other in SO 134 and 135. The offices are open until 6 p.m. on Tuesday and Wednesday evenings when classes are in session. Call 303-556-2600 for more information.

Advising philosophy

Next stop: Educational Planning & Advising Center (EPAC) in SO 134. Stop by or call 303-556-2481 and make an appointment with an adviser. Advice is critical to your success in college, so our integrated advising program helps you explore your life and career goals, examine academic and career skills, and select instructional programs and courses. You and your adviser share responsibility for the advising process. CCD recommends that EPAC be your first point of contact at the college. Our advisers can help you enroll, plan your college programs and remove barriers that may interfere with your success in school and life.

All first-time, full-time, degree-seeking students and any student on academic probation must see an EPAC adviser before registering.

Your EPAC adviser will help you interpret your placement test scores and pick classes that are challenging, but not too far above your skill level. Your adviser will help you explore the programs CCD offers so you can pick a major field of study by the time you have taken 12 credits in college-level courses numbered 100 or above.

Once you've picked a major, you'll work with a case manager in the center that houses the program you choose. Your case manager will help you complete and sign an educational planning guide.

Follow (almost) the same steps to CCD branch campuses!

Enrolling at CCD's branch campuses involves all the same steps as enrolling at Auraria, but you can do it all in one stop! Just talk to a case manager at the branch campus of your choice.

1. If you want to attend one of the CCD branch campuses, fill out a CCD application and submit it to the branch campus you plan to attend. You will receive official notification by mail of your acceptance to CCD. Take the basic skills assessment test at the branch campus you choose.
2. Then make an appointment with a branch campus case manager.
 - CCD East, 303-293-8737
 - CCD North, 303-289-2243
 - CCD Southwest, 720-858-2900
 - CCD Lowry, 303-365-8300

Your case manager will assist you with all the registration and enrollment processes.

Have a great first year at CCD!

CCD wants to make college a little less overwhelming. Whether you just finished high school or are coming back to school

after several years away, you'll find that college is a whole new world! You need to learn about credit hours, academic majors, degrees, certificates, financial aid and scholarships on top of what you learn in the classroom.

CCD's AAA 101: First Year Experience class could make your life a whole lot easier. This one-credit, interactive seminar class designed to help you succeed in college.

You'll learn about all resources and services that CCD offers and meet other students who are in the same boat — struggling to navigate the tricky waters of college. You may find that college is smooth sailing when you know how everything works and you've made friends who are having the same experiences.

The class will help you set academic and career goals, balance your lifestyle with your academic commitments and develop an appreciation for diversity and community involvement.

Student Life also offers New Student Orientation sessions in a four-hour format or Red Carpet Days, a full-day orientation session that includes testing, advising and registration.

Ask your adviser about AAA 101 and New Student Orientation or contact Student Life at 303-556-2597 for more information.

Educational Opportunity Center

The Educational Opportunity Center (EOC) is a community service program that provides educational planning, information and assistance, including:

- career counseling;
- college/university admission assistance;
- vocational-technical school enrollment assistance;
- academic assessment coordination;
- federal and state student financial aid application

- assistance; and
- educational planning workshops.

Services are free. You may stop by EOC before enrolling at CCD or to get help finding a scholarship or picking a career.

EOC is located in the Administration Building, Room 325, on the Auraria Campus. Call 303-629-9226 for an appointment. Visit www.ccd.edu/eoc for more information.

Student Life

CCD's Student Life office is a resource for students in other areas of their lives — outside of the classroom. The office has programs and activities that provide experiences to stimulate personal and social growth and add to students' enjoyment of life at CCD. The staff also provides crisis counseling services and referrals for legal assistance, day care, health, housing and employment services. Student Life operates an in-house food bank and textbook lending library to help students who are struggling financially.

Student Life also oversees New Student Orientation, CCD Student Government, The Community News student newspaper, student organizations and clubs and leadership training. Visit Student Life on the third floor of the Tivoli Student Union, TV 309, call 303-556-2597, or learn more online at www.ccd.edu/Student_Life.

Testing Center

The Testing Center offers a variety of testing services, including placement and credit for prior learning tests. The Computer Based Testing Center, which is part of CCD's Testing Center, offers a number of licensure exams and entrance exams, like the Test of English as a Foreign Language (TOEFL). Contact the center at 303-556-3810 for

information about dates, times, applications and registration fees, stop by SO 223, or visit www.ccd.edu/test_cntr.

Basic Skills Assessment —

Assessment helps you succeed by placing you into courses that are appropriate to your academic skill level. Based on your test results, your adviser can place you in the appropriate-level classes. Non-degree seeking students under the age of 20 must take the assessment if they do not meet the exemption criteria. See our Web site at www.ccd.edu/test_cntr for study guides to review your skills before taking the exam.

All degree- or certificate-seeking students must meet the Community College of Denver (CCD) assessment requirement when they apply to the college, and before they meet with an adviser to enroll in classes. Here's how you can meet the requirement.

1. Take the Basic Skills Assessment Test (BSAT) in reading, English, mathematics and study skills. CCD administers the Accuplacer® test.
2. Submit proof of an associate (AA or AS) or higher degree.
3. Submit transcripts showing that you have successfully completed basic skills instruction in reading, writing or mathematics from another accredited institution.
4. Submit transcripts showing that you have successfully completed ("C" grade or better or its equivalent) a college-level course in English and/or math from another accredited institution.
5. Submit minimum ACT scores of 17 in reading, 18

in English, and 19 in math; or SAT scores of 430 for reading, 440 for English and SAT math scores of 460.

Exemptions: To receive an exemption from taking all or part of the BSAT, you can submit copies of your college transcripts or test scores to the CCD Testing Center at Auraria or to your case manager at one of the CCD branch campuses. All test scores must be no more than five years old, although it is strongly recommended you take the assessment test if your scores are more than two years old.

Class Testing — Students who miss a class test at the Auraria Campus can make it up in the Testing Center with the instructor's permission.

Credit for Prior Learning Exams — The Testing Center at Auraria offers CLEP, the College-Level Examination Program tests, and DSST or DANTES Subject Standardized tests. Both nationally-recognized tests give students a chance to get college credit for learning acquired outside the traditional college classroom. (See *Credit for Prior Learning*)

Official GED Testing Center — CCD North is an official, state-sanctioned GED testing center. Testing times are Monday at noon and 5 p.m., and Thursday at 9 a.m., 2 p.m. and 6 p.m. Call 303-289-2243 for other testing times.

CCD Southwest is a satellite center, with testing on Fridays from 8:30 a.m. to noon.

CCD East is also a satellite center, with testing on Tuesdays at 8:30 a.m.

Test fees are \$16 for each of the five GED tests and \$16 for each test retake, ex-

cept for the writing retest, which is \$20. Tests are available in Spanish and English. For more information, contact the CCD North GED Testing Center at 303-289-2243.

Enrollment definitions every student needs to know

Census date — The census date for a standard course is that point when 15 percent of the days for the term of the class are over. The census date for standard courses is listed in the Schedule of Classes or online at www.ccd.edu. The census date for courses at CCD East, North and Southwest branch campuses is that point when 15 percent of the balance of the term from the date of registration has passed.

Add — An add is when you enroll in a class after initial registration.

Drop — A drop is when you officially exit a class before census date.

Withdrawal — A withdrawal is when you exit a class after census date, but before 80 percent of the class is ended.

Add, drop or withdraw from a class

The final date to add or drop a class, called the census date, is posted in the current semester's class schedule book or on the Web at www.ccd.edu. Students may add a class or drop one and receive a full refund before the census date. Classes you drop before the census date will not appear on your official transcript. A special form is needed to add a class after the first week of classes. The form is available in Enrollment Services in SO 135.

After the census date, you may withdraw from classes, but you will not receive a refund. Classes you drop after the census date will appear on your transcript with a grade of

W, for withdraw. You may not withdraw from classes after the date published in the Schedule of Classes — usually four to five weeks before the end of term in the fall and spring semesters.

To drop or withdraw from a class, fill out appropriate forms in Enrollment Services, SO 135. You also may make changes to your record online at www.ccd.edu. Add classes at CCD's branch campuses on the continuous enrollment schedule — with several different start dates each semester. Contact your branch campus case manager for more information.

Auditing classes

Students may audit — or take for no credit — courses at the regular tuition rate. The deadline to register for audited classes is the census date. An audit cannot change to a for-credit class after this date. The grade of S or U will appear on all official transcripts for audited classes.

By auditing a course, a student may participate in course activities, but does not receive a formal transcript grade. Students must indicate intent to audit a course at registration. Audited courses are eligible for the College Opportunity Fund stipend. Audited courses do not meet the credit hour requirements for financial aid or veteran benefits and may not be applied to certificates or degrees.

Course load

A full-time course load is 12 to 15 credits. Students registered for fewer than 12 credits are classified as part-time students. A heavy load is 18 credits, and 18 is the maximum load for all students without special permission from the vice president for Learning & Academic Affairs.

Late Registration

Self service registration (web and phone) will be available until the

end of the first week of the course, unless a more restrictive time limitation has been established for the course section. Walk-in registration may be available until the census date, as long as the necessary approvals are obtained. Registration after the census date will not be permitted due to COF restrictions. An advisor can assist you with other enrollment options.

STATEMENT OF VALUES FOR ADVISING EXCELLENCE

Community College of Denver's faculty, staff and administrators:

1. are personally and professionally committed to helping students.
2. understand the value of active listening, focusing on students' strengths and potential.
3. commit the time and effort to know college policy and practice to provide students with accurate, usable information.
4. view long-range planning and immediate problem solving as an essential part of effective advising.
5. share advising skills with their colleagues who also are involved with advising.
6. improve both the style and substance of their advising roles by staying current with trends, such as developmental advising and professional development.
7. respect the diverse cultural background of each person at CCD and create positive advising and communications with each CCD student.

MONEY MATTERS

TUITION AND FEES*

The State Board for Community Colleges and Occupational Education determines tuition, which is subject to change annually. Fees also can change.

Total tuition for 2006-07 is \$152.75 per credit hour for Colorado resident students and \$345.15 per credit hour for non-residents.

For resident students, the College Opportunity Fund (COF) stipend pays \$86 per credit hour the student takes up to \$2,480 per school year. Resident students who have signed up for COF at www.collegeincolorado.com may use their COF stipend to pay \$86 per credit hour of their total tuition bill. The student is responsible for the remainder of the bill — \$66.75 per credit hour.

For example, a full-time student who is taking 12 credit hours will get a bill showing the total tuition owed is \$1,833. The COF stipend pays for \$1,032 of that total, leaving the student to pay the remaining \$801.

CCD students also pay an additional \$5.70 per credit hour instructional program fee and a non-refundable registration fee of \$10.40 on top of their tuition.

Nursing and Dental Hygiene, CCD Online and CCCOnline students pay a differential tuition rate for high-cost programs.

Colorado resident Dental Hygiene students owe total tuition of \$222.75 per credit hour. With the \$86 COF stipend, the student actually pays \$136.75 per credit hour. Non-resident students in Dental Hygiene pay \$345.15 per credit hour.

Total tuition for resident Nursing students is \$185.95. Subtract the \$86 COF stipend and the resident student actually pays \$99.95 per credit hour. Non-resident nursing students pay \$345.15 per credit hour.

Total tuition for CCCOnline and CCD Online courses is \$216.40 per credit hour. Resident students can use their \$86 per hour COF stipends to reduce the amount they pay to \$130.40.

Cisco classes have a mandatory \$15.60 per credit hour instructional program fee.

CCD students who attend classes on the Auraria Campus pay additional fees that are not charged to online, health and branch campus students. Those fees include: a student activity fee of \$4.60 per credit hour up to a maximum of \$55.20; an Auraria Higher Education Center (AHEC) bond fee with a maximum of \$73 per hour; an Auraria Library resource fee of \$4 per credit hour; and an RTD fee of \$22.

The student activity fee pays for cultural, recreational and organizational activities, student publications, Student Government and clubs. The AHEC bond fee goes to pay off construction debts for the Tivoli Student Union, Child Care Center and the Physical Education & Recreation Events Center.

The RTD fee of \$22 provides all Auraria students with a bus and LightRail pass.

Tuition rates and refund deadlines vary for CCCOnline courses. Contact the Cashier's Office at 303-556-2075 with questions about CCCOnline tuition and payment.

Updated information on CCD tuition and fees is online at www.ccd.edu under "Current Students."

*** Rates are subject to change without advanced notice.**

Residency Classification

To be considered a Colorado resident and be eligible for in-state tuition, you must be a citizen or an eligible non-citizen and have lived in Colorado for 365 days

before the first day of the semester in which you enroll. Active duty military personnel and their dependents qualify as residents. The residency of the parent or legal guardian determines residency for students under age 23. Call Enrollment Services for details at 303-556-2420.

Initial Classification Procedures

The initial tuition classification decisions are made by Enrollment Services staff based on the residency information provided on the application for admission. Persons with incomplete residency information, and persons who are required to provide parent's information and do not, may be classified as non-residents.

Petition Procedures

If you are classified as non-resident and believe you qualify for resident status, you may submit a petition for "in-state" tuition classification with documentation to support the claim of resident status. The petition form is available in the Enrollment Services office. If the petition submitted is incomplete, the Residency Examiner will send a letter to the student requesting necessary documentation with a deadline for response. If the documentation is not provided, in-state tuition classification will be denied. Paying Colorado state income tax is considered highly persuasive evidence of intent to remain permanently in Colorado. However, no single factor will enable or prohibit a student from attaining in-state tuition. Colorado state law requires that motor vehicle registration and driver's license or identification be changed to Colorado. The Residency Examiner determines if there is sufficient evidence to support a claim with the rationale for denial. The deadline to submit a petition for in-state

tuition classification is the first day of the term for which the student is petitioning. Late petitions are not accepted.

Appeal Procedures

Appeals can be made to the residency petition decision, by filing a formal appeal with the Dean of Enrollment Services. This decision made by the Dean of Enrollment Services is final.

Veterans Benefits

Veterans seeking VA educational benefits may apply through the VA Web site, www.va.gov, or see the VA Certifying Official in Enrollment Services, SO 135. Veterans who are eligible for educational benefits may apply for advanced payment. Full payment of tuition and fees is

due by the deadline posted in the schedule. That rule applies to ALL veterans. The last date to apply for VA advanced payment is 45 days prior to the first day of classes. Visit Enrollment Services, or call 303-556-2420 for more information.

Tuition Refund Policy

Students may receive a 100 percent refund of tuition and fees for any classes they dropped and for any classes the college canceled — except for the non-refundable registration fee — through the census date. The census date for standard classes is listed in the Schedule of Classes or in the Academic Calendar online at www.ccd.edu. Call Enrollment Services for the census date of continuous-enrollment courses.

No refunds or financial credits are given after the census date or for courses concentrated into one week or less. Drop forms are available in Enrollment Services.

CCD normally mails tuition refund checks each Friday to students who are eligible for refunds as of the close of business Tuesday. Students owed a refund will be required to pay for all classes added after refunds are issued. Please check your class schedule for

any amount owed to the college. Get more information regarding your account balance from the Cashier's Office at 303-556-2075.

**FINANCIAL AID
Apply Early!**

Enrollment Services administers federal and state programs to help eligible students meet the cost of their CCD education. Financial aid funds are limited, however. We encourage students to start the application process several months before enrolling. Information brochures and applications are available in Enrollment Services, SO 135, 303-556-2420, and at all branch campuses. See page 3 of the catalog for addresses and phone numbers.

Application Procedures

To apply for grants, scholarships, Work-study employment and Federal Family Educational Loans, complete the Free Application for Federal Student Aid (FAFSA). Loans and scholarships require an additional application.

Financial aid applicants also may have to supply supporting documents, such as Federal Income Tax forms or statements of assistance from Social Services, Social Security, vocational rehabilitation benefits or unemployment.

Priority in awarding financial aid goes to students who apply early. The federal processor must have received your application by March 1 to be considered on time, and you must complete your file and submit all documents by May 1. Applications received after those dates will be considered based on the availability of funds.

Four to six weeks after sending your FAFSA to the federal processor, you will receive a Student Aid Report (SAR). Review it for correctness. CCD will receive the results of your financial aid status electronically if you included our school code — 009542 — on your application.

Student Budget

The cost of a CCD education includes tuition, fees, books and supplies. Additional expenses include room and board, transportation, medical and personal items. We base our standard student budget on current estimated living costs. Budgets are adjusted for living arrangements, such as living with parents, and the length of enrollment. The standard monthly living allowances are as follows.

	per year	per month
Living with Parents	\$11,134	\$815
Living Away from Parents	\$15,022	\$1,200

A child care allowance may be added if you use day care. Allowances are subject to change without advanced notice.

Ability to Benefit

To be eligible for financial aid, you must have a high school diploma or GED. If you are entering CCD without a high school diploma or GED, you are not eligible for financial aid. You may meet the ability to benefit requirements by:

1. meeting minimum qualifications on a test approved by the U.S. Department of Education for determining eligibility to receive financial aid.
2. being admitted as a regular student, seeking a degree or certificate.
3. completing the regular assessment process and planning a schedule with an adviser.

Once scores are high enough to meet the Ability to Benefit requirements, you are eligible to apply for financial aid for up to 30 credits of developmental courses, which are numbered 099 or below.

Eligibility

To be determined as eligible for financial aid, you must meet each of the following requirements:

1. be a citizen or eligible non-citizen of the United States.
2. be accepted for admission at CCD in a degree or certificate program.
3. have earned a high school diploma, passed the General Educational Development test, or be over the age of 16 and have a passing score on a federally-approved Ability to Benefit test administered by the CCD Testing Center.
4. be registered with the Selective Service if you are a male between the ages of 18 and 25. Male students born during or after 1960 and who are older than 25 must have registered with Selective Service prior to age 25.
5. be in good standing at the college and maintaining "satisfactory and measurable progress."
6. not be in default on a student loan or owe a repayment on a federal grant.
7. plan to attend classes on at least a half-time basis — 6 credit hours or more.

Federal Pell Grant recipients may qualify on a less-than-half-time basis.

8. have completed a FAFSA application form and had it processed.
9. have officially calculated financial need for need-based funds. Some scholarships and loans are NOT need based.
10. have supplied CCD Enrollment Services with any additional application material or documentation required to be considered for financial aid.
11. meet other state and federal eligibility requirements.

Eligible Non-Citizens

To be eligible for federal, state and most college financial assistance, you must be a U.S. citizen, national or eligible permanent resident non-citizen. An eligible non-citizen is one who:

1. has an Alien Registration Receipt Card (I-151 or I-551), or is a conditional permanent resident (I-151C);
2. has an Arrival-Departure Record (I-94) from the U.S. Immigration and Naturalization Service showing any one of the following designations:
 - refugee, asylum granted;
 - Cuban-Haitian entrant;
 - indefinite parole;
 - citizen of the Freely Associated States — Republic of the Marshall Islands, Federated States of Micronesia or the Republic of Palau (may receive only Pell Grant, Federal SEOG, and federal Work-study); or
3. can provide acceptable documentation for the INS that he or she is in the United States for other than a temporary purpose with the intention of becoming a citizen or permanent resident.

Financial need, which determines most types of financial aid awards, is the difference between the cost of attending college and your available resources. Resources include parents' contributions, your earnings, spouse's earnings, and veterans, Social Security, vocational rehabilitation, welfare and unemployment benefits.

Financial aid applicants must maintain satisfactory academic and measurable progress both prior to applying and during the semester(s) aid is received. The minimum requirements are a 2.0 cumulative grade point average and 67 percent cumulative completion rate for all attempted course work. Students may receive aid for up to 150 percent of the credits required to complete their programs. All credit hours taken at CCD and transfer hours are counted to determine satisfactory/measurable progress, even if no financial aid was received.

Contact Enrollment Services for more information. Students denied aid, based on this policy,

may appeal. Appeal forms and copies of the complete policy are available at www.ccd.edu.

Students enrolled in programs that require fewer than 16 credits are not eligible for financial aid.

All Colorado state financial aid programs require Colorado state residency for tuition purposes.

Financial Aid Programs GRANTS AND WORK-STUDY

- **Federal Pell Grant** — Federally-funded Pell Grants assist with educational expenses. Award amounts range up to \$4,050 depending on student eligibility and enrollment status.
- **COLORADO STUDENT GRANTS (CSG)** are available to Colorado residents based on financial need. Awards range up to \$5,000 per academic year.
- **COLORADO LEVERAGING EDUCATIONAL ASSISTANCE PARTNERSHIP PROGRAM (CLEAP)** are available on a needs basis. The maximum award is

\$5,000 per year. Colorado and the federal government contribute to the award.

- **FEDERAL SUPPLEMENTAL EDUCATIONAL OPPORTUNITY GRANT (SEOG)** — Federally-funded grants range from \$200 to \$5,000 depending on financial need. Pell Grant recipients with the lowest family contributions receive priority.
- **COLORADO WORK-STUDY** — The Colorado Work-study program provides part-time employment opportunities for Colorado residents who demonstrate financial need.
- **FEDERAL WORK-STUDY** — The federal Work-study program provides part-time employment for students who demonstrate financial need.
- **COLORADO WORK-STUDY (NO NEED)** — Colorado also provides limited funds to employ students part-time who do not demonstrate financial need, and who are Colorado residents for tuition purposes.

**Scholarships
COLORADO SCHOLARS
PROGRAM**

—A limited number of scholarships are available through the undergraduate merit programs to Colorado residents who have completed a minimum of 12 credit hours at CCD with at least a 3.75 GPA in all courses attempted. Apply using the Free Application for Federal Student Aid (FAFSA). Scholarship awards depend on the availability of funds and amounts range up to resident tuition and fees.

High school graduates with a 3.75 GPA or counselor’s recommendation can apply by using a separate application available at their high schools.

Institutional and community scholarships are posted on the Enrollment Services scholarship board. The Educational Opportunity Center, 303-629-9226, has other scholarship listings and information, or visit fastweb.com.

Federal Family Educational Loan Programs (FFEL) — Loan applicants first must complete the FAFSA form, have an entrance counseling experience at the

beginning of each academic year and an exit counseling experience prior to graduation or leaving CCD.

In compliance with federal law, CCD restricts first-year students’ loan borrowing to \$2,625 per academic year, or \$1,313 per semester. Call Enrollment Services, 303-556-2420, to learn more about student loan eligibility.

- The Federal Stafford Subsidized Loan is a need-based program. The interest rate is variable and paid by the federal government. Loans have a six-month grace period prior to the first payment. Federal program limits allow students to borrow up to \$2,625 per year as freshmen. Sophomores who have finished 30 credit hours of college-level work may borrow up to \$3,500 per year.
- The Federal Stafford Unsubsidized Loan program provides loans for students’ remaining loan eligibility. Independent students may borrow an additional unsubsidized loan of up to \$4,000.

Students may borrow the cost of education minus any other aid and will pay the interest rate from the date of disbursement. No family contribution is subtracted from the loan.

- Federal Family Education Loans to Parents — Parents may borrow for their students from the FFEL PLUS Loan program. Repayment begins within 60 days after disbursement. The interest rate is variable, and the parent has up to 10 years to repay the loan. A credit check is required.

Financial Aid Repayment

If you don’t start attending a class, you will not receive financial aid for the class. You will be charged tuition and fees if you fail to officially withdraw by the published census date.

If you receive Title IV financial aid from CCD and then withdraw from classes or stop attending prior to the completion of 60 percent of the semester, you will have to repay

a portion of the financial aid you received. The institution is required to pay back a portion to the financial aid accounts from which you were paid. That amount will be billed to you. You will also pay the amount owed to the federal government. CCD must report the amount that you owe to the U.S. Department of Education, and you won’t be eligible to receive aid at CCD or ANY school until the funds are repaid.

Title IV funds include the Federal Stafford Loan programs, Federal Pell Grant, Federal Supplemental Educational Opportunity Grant.

The following formula is used to calculate refund by CCD and student repayment for Title IV fund recipients: Number of days not attended by number of days in the term multiplied by Federal aid received = Total to be repaid. There are no exceptions.

Any amount owed by the student to a grant program is reduced by 50 percent. Any amount owed by the student to a loan program will be repaid using the normal repayment schedule.

Financial aid refunds by CCD and repayments by the student will be distributed in the following order.

1. Unsubsidized Federal Loan
2. Subsidized Federal Loan
3. FFEL PLUS Loan
4. Federal Pell Grant
5. Federal Supplemental Educational Opportunity Grant

The complete policy is available from Enrollment Services and is included in the Guide to Financial Aid mailed with award letters or available online at www.ccd.edu.

MORE SERVICES FOR STUDENTS

Community College of Denver offers an array of learner services that have one goal — to increase your access to quality education and help you achieve your educational goals. Our services are listed in alphabetical order for your convenience.

African American Staff Council

CCD's African American Staff Council brings college faculty, staff, students and administrators who share the same heritage together and provides a forum to discuss ethnicity and other issues. The council helps CCD develop programs to address diversity, collaborative sensitivity, student and staff retention. It creates an accessible environment for African Americans. For more information, contact Ken Swiney, 303-556-3801.

Auraria Interfaith Ministry

The Auraria Interfaith Ministry (AIM) is a cooperative endeavor of several church denominations. AIM provides programs and counseling and promotes individual spiritual growth. AIM offices are in the St. Francis Center. For more information, call 303-556-8591.

Auraria Library

The Auraria Library has more than 700,000 volumes of books, microforms and bound periodicals, and more than 1,700 current periodical and newspaper subscriptions. As a member of the Colorado Alliance of Research Libraries (CARL), the Auraria Library has access to an additional six million volumes through inter-library loans.

Students can take a 50-minute, self-guided, audiotape tour of the library to become familiar with its services and resources, including: computerized bibliographic

searches, library orientation and instruction for groups and individuals, a depository of U.S. and Colorado government publications and media listening and viewing facilities. Rooms for individual study, group conferences and typing also are available. For information about library services and hours, call 303-556-2741.

Campus Recreation

Auraria Campus Recreation facilities and classes help students develop athletic skills, leadership and team spirit. Major campus attractions include aerobics, swimming pool, weight room, and handball and racquetball courts. The outdoor adventure program has a variety of one-day and multi-day trips for wind surfing, skiing, snowshoeing, bicycling, cross-country skiing and ice sailing. The intramural program includes touch football, basketball, racquetball, tennis, 3-on-3 basketball, floor hockey, volleyball and inner tube water polo. Club sports include rugby, lacrosse, Tae Kwon Do, weight lifting, soccer, football, karate, skiing and volleyball.

Stop by Room 108 of the PER/Events Center for semester schedules and to check out team sports equipment. For more information, call 303-556-3210 or visit www.mscd.edu/~cra. For handball or racquetball reservations visit PE 111 or call 303-556-3211.

CCD Alumni Association

Stay connected with your CCD family — classmates, instructors, advisers and other staff — through the CCD Alumni Association. Graduates, former and current students who have taken at least three credit hours at CCD are encouraged to sign up and take advantage of this great opportunity to network with fellow alumni and continue a great relationship with CCD. Call the CCD Welcome Center at 303-556-2600 or e-mail ccdnews@ccd.edu for more information.

Center for Persons with Disabilities

The Center for Persons with Disabilities (CPD) provides free services to assist CCD students with documented disabilities. Services include academic

advising and registration assistance; furniture assistance; curriculum and test modification; consultation with instructors; text recording and use of adaptive equipment; accessible parking and campus orientation; sign language and oral interpreting; liaison with rehabilitation agencies and other Colorado postsecondary institutions. CPD is in the Educational Planning and Advising Center, in SO 134, 303-556-3300. Visit www.ccd.edu/EPAC/disabilities for more information.

In addition to CPD, the college offers other resources for students with disabilities.

- Access to Employment (ATE) offers employment-focused services to CCD students who are clients of the Colorado Division of Vocational Rehabilitation (DVR). ATE services include case management, coordination with DVR counselors, employability skills training, internship and job placement services. For more information, contact ATE Coordinator Susie Bell at 303-556-3567 or for an appointment, call

Case Manager Jean Kelly at 303-556-3621.

- ROOTS is a customized work-training certificate program in financial services that provides training and paid internships for persons with disabilities, 720-858-2912.
- Learning Success Services provides tutoring for students, 303-556-2497.
- Special Learning Support provides some testing and services for students with learning disabilities, 303-556-4705.
- The Access Center, in the Auraria Library, trains all students with disabilities to use assistive technology, 303-556-6252.

CCD complies with and fully supports Section 504 of the Rehabilitation Act of 1973, with amendments of 1974, regarding nondiscrimination on the basis of disability (documentation required.) Refer questions concerning Title VI, Title IX and Section 504 may be referred to Student & Enrollment Services Vice President Felicia Patterson, CCD Campus Box 200, P.O. Box

173363, Denver, CO 80217-3363, SO 301, 303-556-2413, or to the Office for Civil Rights, U.S. Department of Education, 1244 Speer Blvd., Suite. 300, Denver, CO 80204-3582 or www.ed.gov/ocr/know.html.

CCD Children’s College

The CCD Children’s College, on the Auraria Campus just off of Ninth Street and Colfax Avenue, provides a full-day program in early childhood care and education. Children have numerous opportunities to practice being competent, creative, caring and self-sufficient. Materials, equipment and activities are nonsexist and multicultural to prepare children for a diverse society.

The CCD Children’s College is licensed by the Colorado Department of Human Resources and accredited by the National Academy for the Education of Young Children. Center hours are Monday through Friday, 7:30 a.m. to 5:30 p.m. The Children’s College accepts children between the ages of 2 1/2 and 6 years. The center is popular, so enroll early. Call 303-556-2439 for current information.

Auraria Child Care Center

The center provides care for children of students, faculty and staff on the Auraria Campus. It is fully licensed by the Colorado Department of Social Services and has space for 30 toddlers, from 18 months to 3 years old, and 120 children, aged 3 to 8 years. Professional staff provide a toddler, preschool and state-certified kindergarten program. Call 303-556-3188.

GED Institute — CCD Auraria

The GED Institute conducts preparation classes for the General Education Development test in the Learning Success Services Center, SO 142J on the Auraria Campus. It also offers GED and English as a Second Language (ESL) classes at off-campus sites in the City & County of Denver. Learners who are interested in obtaining a Colorado High School Equivalency Diploma, or learning ESL are invited to participate. GED and pre-GED classes are self-paced, while an instructor teaches the ESL classes. For more information on locations, scheduled classes and admission requirements, call 303-556-3805.

GED — Branch Campuses

Call for GED information at CCD branch campuses:

- 303-293-8737 at CCD East at Cole
- 303-289-2243 at CCD North
- 720-858-2900 at Southwest

Health Services

CCD students taking at least one credit hour are eligible for services at the Auraria Student Health Center. Student health insurance is NOT required to use the Health Center. Physicians, physician assistants, nurse practitioners, radiology technologists and medical assistants staff the facility. Students must complete a sign-in sheet and show a current student ID.

Services include treatment of illness and injuries, lab testing, medications, physical exams, annual gynecological exams, sexually transmitted disease information and testing, birth control information/services, minor surgery, cholesterol screening, immunizations, T Band HIV testing, blood pressure checks, casting, suturing and X-ray. All services listed are low cost. Payment is required at time of service. Health-related classes are offered free to students each semester.

Walk-in services begin at 8 a.m., Monday through Friday. Access is on a first-come, first-served basis. The daily closure time for walk-in care varies depending on when all patient slots are filled. Patients are encouraged to check in as early as possible. The Student Health Center is in the Plaza Building 150, on the lower level. Brochures with additional information are available at the Health Center. For more details, call 303-556-2525 or visit www.mscd.edu/student/resources/health.

Students who have concerns about infectious diseases should contact vice president for Student & Enrollment Services Felicia Patterson, SO 301, 303-556-2413,

felicia.patterson@ccd.edu. The college will follow procedures defined by the Colorado Department of Human Services to ensure the health and safety of all students, faculty and staff.

Health Insurance

Students may purchase an accident and sickness insurance plan after registering. Brochures are available from the Student Health Center, CCD Student Life in TV 309 and the office of the vice president for Student & Enrollment Services, SO 301, 303-556-2413.

Hispanic Council

CCD's Hispanic Council helps students through various activities and programs that ensure their success in college. The organization operates for educational purposes as they pertain to all Latino students, faculty and staff at all CCD campuses. Programs and activities sponsored by Hispanic Council include, but are not limited to: scholarships available to students each year to help cover educational expenses; orientation for new Latino students on campus; participation in campus activities; Latino Graduation Recognition Reception and advocate services for Latino students, faculty and staff on campus. For additional information, contact Delma Valdez, at 303-556-8455.

International Student Information

Federal law authorizes CCD to enroll nonimmigrant, alien students with F-1 Visas. CCD is not authorized to accept students whose English proficiency is at a basic level. Read all the policies regarding international students at www.ccd.edu on the Enrollment Services page.

Call 303-556-2420, visit www.ccd.edu/international or write for more information:

International Student Admissions
303-556-2420
Campus Box 201
P.O. Box 173363
Denver, CO 80217-3363
Auraria Campus Location: SO 135

Parking and Transportation Services

Prospective students who come to the Auraria Campus for advising, orientation, basic skills assessment, financial aid workshops or registration may park in the Tivoli Lot at the corner of Auraria Parkway and Ninth Street and get their parking tickets validated in SO 134 for four hours of free parking. Once you register, you no longer are eligible for free parking.

Parking is available in daily fee lots ranging in price from \$1.75 to \$10. The parking garage at Seventh Street and Lawrence Way is currently \$3.75 all day.

A student ID is required for parking in Lot R, near the intersection of Speer Boulevard and Auraria Parkway. A limited number of monthly permits are available for other lots around campus and are sold at the beginning of each semester. Students may park free for 20 minutes in the Tivoli Lot if they bring their tickets for validation to the Parking Office. Four-hour parking meters are available for student use on the east side of the South Classroom Building and in Lot N. Use nickels to get the maximum number of minutes. The Parking Office, on the first floor of the parking garage, is open Monday through Friday from 7:30 a.m. to 5:30 p.m. Call 303-556-2000 for more information about:

- free carpool-matching assistance
- carpool parking discounts
- free on-campus transportation for disabled students on the wheelchair-accessible Handivan
- parking at Branch Campuses is nominal or free

- free campus shuttle service for evening students on the Auraria Evening Express (Monday through Thursday, dusk to 10 p.m.)

Transcripts Requests

You may request copies of your academic records accumulated while at CCD from Enrollment Services. All transcripts must be paid for and requested in writing by the student, or ordered online at www.ccd.edu.

Transcript requests cannot be honored for students whose financial and academic records at the college are not cleared.

Veterans Affairs

The Veterans Affairs certifying officer provides information about veterans' federal, state and community benefits; assistance with VA inquiries; and gives referrals for emergency food, clothing, housing, legal aid and employment. The VA certifying officer is in SO 133, 303-556-2420. The VA Web site is www.va.gov.

WHAT YOU'LL NEED TO TRANSFER INTO OR OUT OF CCD

TRANSFERRING CREDIT TO CCD

1. A currently enrolled student may request that an academic credential evaluator transfer his or her academic credit. A student may obtain a Transcript Evaluation Request Form in Enrollment Services, EPAC

2. CCD reserves the right to evaluate all credit according to Enrollment Services policies. Evaluation is done for general acceptance of all transferable credit and is not confined to any specific degree or certificate program, unless otherwise specified. Students will

another Colorado Community College System (CCCS) institution will be automatically posted on the transcript of the student's home institution unless a request for exclusion is specifically submitted by the student during the semester following the completion of the course.

Applied Technology. Academic counselors at EGOS or an EPAC adviser can provide more information.

Emily Griffith Opportunity School certificate programs and instruction areas include:

- apprenticeships and related activities;
- business and computer technology;
- consumer and family studies;
- health occupation;
- marketing education;
- technical, trades and industrial education;
- high school and continuing education; and
- English as a second language.

Visit the EGOS Web site for more information: www.egos-school.com.

Credit for Prior Learning

Students may earn credit for college-equivalent education acquired through prior schooling, work or other life experiences. Such prior learning must be comparable to CCD courses or curricula and must relate to the student's educational objectives. Prior learning may be documented through standardized tests, challenge exams, published guides or portfolio assessment.

1. **STANDARDIZED TESTS**
 - a. Advanced Placement Program (AP) — High school students can receive credit through the AP examinations.
 - b. International Baccalaureate — CCD recognizes the International Baccalaureate program and accords special consideration for students presenting I.B. credentials on an individual basis. To receive college credit, students who take the

4. Credits earned by a student enrolled in another CCCS community college that are applicable to the AA, AS or AAS degrees or a certificate program will be accepted as meeting degree or certificate requirements in comparable or equivalent programs at CCD.

5. CCD will accept lower-division credits earned at colleges or universities granting bachelor's degrees that are applicable to B.A. or B.S. degrees as meeting requirements for comparable or equivalent programs leading to an AA or AS degree at CCD.

6. Students who have attended international institutions and want their transfer credits evaluated need to provide official transcripts and/or other educational documents in the native language along with certified English translations. Accepted documents become the property of the college.

Transfer of credits from Emily Griffith Opportunity School to CCD Auraria

Students who register for and complete programs at Emily Griffith Opportunity School (EGOS) can take additional academic credit hours at CCD toward an AAS degree in

or from his or her educational case manager. Official transcripts must be sent by the previous institution and received by CCD through the U.S. Postal Service. Hand-carried transcripts or transcripts issued to the student are not considered official, although they may be used for informal advising purposes.

The institutions sending transcripts should address them to CCD Enrollment Services, Campus Box 201, P.O. Box 173363, Denver, CO 80217-3363.

Documents become the property of the college and will not be released to the student or transferred to other institutions.

need to meet with their program adviser or educational case manager to determine how accepted transfer credit will apply to their intended program. *Note:* Credit evaluated for general acceptance may or may not be applicable to specific degree or certificate programs. At least one CCD credit hour must be transcribed on a student's CCD record before any credit from transfer is awarded.

3. CCD will accept transfer credit from other colleges or universities that are accredited by one of the six regional accrediting associations. Courses at

higher-level I.B. examinations must request that their scores be sent to the Enrollment Services. When CCD receives the scores, they will be evaluated for credit. Students will be notified of the results of that evaluation. Scores of four or better on the higher-level I.B. examinations will receive three or more credits for each exam.

- c. College Level Examination Program (CLEP) — CCD recognizes selected CLEP general examinations and subject examinations. A list of CLEP exams, their cut-off scores and their CCD course equivalents are available from the EPAC, SO 134, 303-556-2481. The CLEP examinations may be taken in the CCD Testing Center.
- d. DANTES Subject Standardized Tests (DSST) — Most of the DSSTs also are recognized by CCD as acceptable tests for college credit. Contact the EPAC adviser for a list of tests and their cut-off scores. The DSSTs may be taken in the CCD Testing Center.

2. **CHALLENGE EXAMINATIONS**

Currently enrolled students may challenge most courses by taking a comprehensive examination. Only one exam for a particular course may be arranged. The cost for a Challenge Exam is 50 percent of the current tuition rate for the course being challenged.

3. **PUBLISHED GUIDES**

ACE-Military —

CCD uses the credit recommendation of the American Council on Education (ACE), as published in The Guide to the Evaluation of

Educational Experiences in the Armed Services, to evaluate military training and learning experiences.

ACE-Non-Collegiate —

CCD uses the credit recommendations from the ACE program on Non-Collegiate Sponsored Instruction, as published in the National Guide to Educational Credit for Training Programs, to evaluate industrial and corporate training programs.

4. **PORTFOLIO OF LEARNING OUTCOMES**

Currently enrolled students may petition for credit by developing a portfolio that describes and documents pertinent learning experiences comparable to those available in CCD courses. A faculty member in the appropriate program area evaluates the portfolio and determines what, if any, credit will be given. Only one portfolio evaluation for a particular course will be arranged during any one semester. The cost for a portfolio evaluation is 50 percent of the current tuition rate for the course being challenged.

A student may receive a maximum of 50 percent of the requirements for a degree or certificate through College Level Examination Program (CLEP), Portfolio Assessment, AP, Challenge Exams or Published Guides. For more details on Credit for Prior Learning options, contact your case manager or an EPAC adviser in SO 134, 303-556-2481.

Note: Credit evaluated for general acceptance may or may not be applicable to specific degree or certificate programs. At least one CCD credit hour must be transcribed on a student's

CCD record before any Credit for Prior Learning is awarded.

TRANSFERRING TO FOUR-YEAR INSTITUTIONS

CCD's Associate of Arts and Associate of Science degrees are guaranteed to transfer to Colorado public four-year colleges and universities. Students with AA and AS degrees enter four-year institutions as juniors. CCD also has programs leading to the Associate of General Studies degree that transfer to Metropolitan State College of Denver or the University of Colorado at Denver.

In some circumstances, the Associate of Applied Science degree may transfer. Consult the Degree and Certificate section of this catalog for more information about these transfer degrees. If you intend to transfer, become familiar with the requirements of the school you plan to attend. Consult an Education Planning & Advising Center (EPAC) adviser or your educational case manager.

EPAC has reference catalogs, transfer guides, and application materials from Colorado's four-year colleges and universities, as well as catalogs from several out-of-state, four-year colleges and universities. Visit www.ccd.edu/EPAC/transferCenter.html or links to some of the four-year institutions that have articulation or transfer agreements with CCD.

Admission counselors from four-year colleges and universities visit CCD regularly. Ask about campus visits in EPAC or call 303-556-2481. A transfer bulletin board by SO 134 has postings of campus visits and a display case near SO 134 contains a monthly calendar of upcoming visits from four-year college representatives and pertinent information about transferring.

60 + 60 transfer

If you

1. complete your AA or AS degree including 35 credits of state-guaranteed general education courses, AND
2. earn a "C" grade or better in each course

Then

1. at least 60 hours of your AA or AS degree will transfer completely, if you are admitted to a baccalaureate liberal arts and sciences major at any of Colorado's public four-year institutions AND
2. you are guaranteed to be able to finish your liberal arts and sciences baccalaureate degree in just another 60 hours.

See a transfer adviser in EPAC as soon as possible for a list of applicable degrees. CCD has special articulation—or transfer—agreements for its Teacher Education, Business, and Engineering programs that specify which lower-division credits students need to transfer.

Certain majors require that students take essential lower-division prerequisites before transfer to a four-year institution. More information and a transfer guide from an EPAC adviser will help you select lower-division credits that will speed you on your way to finishing the baccalaureate degree.

Credit earned for prior learning, Advanced Placement, correspondence courses, CLEP and other tested-only credit that CCD approved might not transfer. The institution you transfer to will evaluate these credits according to its own policies.

Veterans' Academic Standards of Progress

The following policy applies to all students who are eligible to receive veterans educational benefits, including U.S. military veterans and their dependants.

1. GRADE POINT REQUIREMENTS

Veterans must maintain a cumulative grade point average of 2.0 for all course work attempted. Veterans whose cumulative GPA is below 2.0 will be placed on academic probation for the next term of study. If the GPA is not raised to 2.0 during the probationary term, the veteran will be suspended for one academic term and may only be reinstated after approved counseling.

2. OTHER SPECIAL GRADES

AU Grade — The Veterans Administration will not certify a grade of AU, indicating a course that was audited, or taken for no credit.

I Grade — An incomplete or "I" grade must be made up no later than the next consecutive 15-week semester. For veterans, if an "I" grade is not completed during the required period, the "I" will revert to "NC" — no credit — and the veteran's certification will be adjusted back to the beginning date of the term in which the "I" grade was received.

SP: Developmental Studies courses, (course numbers start with 0). Students must have met course attendance requirements and successfully completed at least 60 percent of course work requirements. All course objectives must be complete before the end of the next consecutive semester (fall or spring) or the "SP" will revert to a "U."

3. ATTENDANCE

Students who stop attending class, but don't officially withdraw, will earn a grade of "F" for the course. Veterans who fail to inform the VA Certifying Official in

Enrollment Services of a withdrawal may get an overpayment. The veteran is financially responsible for reimbursement of any VA overpayment.

4. MITIGATING CIRCUMSTANCES FOR VETERANS

Mitigating circumstances — as defined by P.L. 94-502 — that directly hinder an eligible veteran's or dependant's pursuit of a course and are judged to be out of the student's control include, but are not limited to:

- a. serious illness of the eligible veteran or dependant.
- b. serious illness or death in the eligible veteran's or other dependant's immediate family.
- c. immediate family or financial obligations that require a change in terms or place of employment and preclude the veteran or dependant from pursuing course work.
- d. the college discontinues a course.
- e. active military duty, including active duty for training.
- f. withdrawal from a course or receipt of a non-punitive grade upon completion of a course because of unsatisfactory work may be considered mitigating circumstances if the student can demonstrate good faith pursuit of the course up to the point of withdrawal or completion. You must submit evidence that you applied for tutorial aid, consulted a VA counselor or consulted a CCD academic adviser in an attempt to remedy the unsatisfactory work before withdrawal or completion.

When mitigating circumstances prevail, CCD will attempt to intervene on behalf of the veteran with the VA.

CCD HELPS STUDENTS SUCCEED

FASTSTART@CCD

CCD recognizes that young working adults may have academic needs that are different from other students. FastStart@CCD Learning Communities help adults who require developmental courses in reading, English and math accelerate through those classes. FastStart orients first-year students to the college environment on a schedule that is compatible with their family and job obligations and keeps them from feeling socially isolated.

FastStart students can take two levels of developmental reading and English at the same time they take two levels of developmental math. They complete the first sequence during the first seven weeks of the semester and the second during the second seven weeks. Students also enroll in the 1-credit AAA 101 College 101 course. Students meet for three hours each day, two days a week for each sequence and an additional day for College 101 and review sessions.

FastStart provides students with one-on-one instruction throughout the semester and an opportunity to share their knowledge and experiences with other students in the learning community setting. An educational case manager — with help from three student ambassadors — monitors FastStart students' progress and directs them to whatever services they need to succeed.

LEARNING SUCCESS SERVICES

CCD's Learning Success Services provides tutoring and access to both PC and Macintosh computers for qualified Auraria Campus students. Our mission is to provide an alternative learning environment that supports students in multiple ways. We want you to succeed in your college courses and we provide the services that

will help you do just that!

Anyone who uses Learning Success Services must sign in and out and provide a valid student ID. Learning Success Services is located in the South Classroom Building 142 and Technology Building 104. Stop by or call 303-556-2497.

Academic Support Center (ASC)

Students who are registered in developmental classes — those with a course number of less than 100 — will find guided learning in the Academic Support Center labs. Tutors are available in each of the ASC labs, where students can use computers with tutorial software and Internet access. ASC tutors address students' individual learning needs — either one-on-one or in small groups in the areas of English as a Second Language, math, reading, study skills and writing.

AAA 175 or AAA 099 — Enhanced Learning Support is a required one-credit, lab-based course that is a co-requisite for all developmental courses with prefixes MAT, ENG, REA, ESL and AAA. Students who register for AAA 175 or AAA 099 have unlimited access to the Reading, Writing, Math and ESL labs in SO 142 at Auraria or the Basic Skills Labs at CCD East, North and Southwest branch campuses throughout the semester. Students not registered in those classes may pay a semester charge of \$80 to take advantage of ASC support services, including unlimited access for the entire semester.

English as a Second Language tutors help with pronunciation, conversation, grammar, reading and other subject areas such as math, biology, chemistry and computer science. The ESL Lab has computers, language learning

software and other equipment to help students.

Mathematics tutors help students gain greater experience with math principles and practice their skills using personal computer tutorials, course videos, specialized workshops and study groups. Students also can get help with online NetTutor.

Reading and Study Skills tutors help students strengthen their reading, note taking, organization, test taking and other skills. Personal computers enhance and reinforce students' learning.

Writing tutors work with students on all types of writing at every level. The Writing Lab staff helps students plan, compose and revise their college papers. Students can use the lab's computers to work on assignments, do Internet research or connect to the Auraria Library.

The Online Writing Lab (OWL) is another resource to help students with writing assignments. Students can e-mail a paper or a specific writing question to the lab and a tutor will read it and respond with comments within 24 hours.

Lab schedules are posted at the entrance to SO 142 and outside each lab. Computerized tutorials are available in all labs.

Academic Technology Center (ATC) — The Academic Technology Center, located in TE 104, provides access to personal computers with Windows XP and Microsoft Office 2003 for all students. In the ATC, students can access e-mail and the Internet, print class work up to 10 pages, access Blackboard for online classes, get help on programming or software support, burn CDs and use DVD-ROM. All comput-

ers are virus protected. Students may check out materials from the ATC with a valid student ID.

Colorado High School Equivalency Diploma LAB (CHSED, formerly GED)

— Students can prepare to pass the CHSED test and earn a CHSED diploma in SO 142I, the GED Institute lab.

Special Learning Support (SLS) — CCD's Special Learning Support program serves nearly 200 students per semester with different learning needs and abilities using innovative curricula, highly-trained instructors and tutors. Appropriate documentation of your disability is required.

Specialized instructors in the SLS Lab provide screenings for learning disabilities; academic, financial aid and personal advising; tutoring in math, writing, reading, study skills and other academic areas. SLS provides students with classroom and testing accommodations, including note takers, recorded books, extended test time and student advocacy about learning disabilities with instructors.

SLS has classes in spelling, math, reading, writing, study skills, learning and skills development. Students apply for this service. For more information, call 303-556-4705 or stop by SO142L.

Vocational Tutoring Services (VTS) — Vocational Tutoring Services is federally funded Perkins program that serves hundred of CCD students each year, providing free tutoring in any subject for students who have declared a vocational major or concentration, and are registered and attending classes at CCD. VTS program staff work with faculty and advisors to provide the most appropriate services for

each student. In fact, 89 percent of the students VTS has served completed their classes with a “C” or higher. VTS has up to 40 tutors available. To access this free service, visit www.ccd.edu/vts or stop by SO 142 or TE 104 for application assistance.

PRE-COLLEGIATE AND FIRST GENERATION STUDIES Postsecondary Enrollment Options

The state’s Postsecondary Enrollment Options Act (PSEO) allows 11th- and 12th-grade students at Colorado public high schools to enroll in college courses as a substitute for classes they must take for high school graduation. CCD provides its PSEO students with a CCD transcript of the college credits they earned. Credits for classes they successfully completed may apply toward a certificate or degree at CCD. For more information, contact the director of Pre-Collegiate Programs at 303-352-3301.

CENTER FOR ACADEMIC SUPPORT & ACHIEVEMENT (CASA)

If you are the first in your family to go to college, you might need some help finding your way around, filling out forms, meeting deadlines, learning how to study, making and sticking to a plan for your education and career. The people you trust the most — your family — can provide plenty of encouragement, but not much help if they haven’t had the college experience.

Two programs to help students succeed are now together in one center — the Center for Academic Support & Achievement (CASA).

CASA’s staff includes case managers, student ambassadors and peer mentors who will help you balance college with all your other obligations. If you need help in a class, your case manager can help you find a

tutor or help you enroll in classes that are right for you. Student ambassadors and peer mentors will be your role models. They’ve been where you are. They can help you overcome any obstacles that stand between you and your educational success.

The CASA staff have a mission: To create a supportive environment to address the needs of the whole student, promoting intellectual growth and ensuring academic success for students from all backgrounds.

First Generation Student Success

CCD wants you to stay in college and graduate. As a first-generation college student, you have some unique needs. In the FGSS program, you’ll get the help you need to get through your first 12 credit hours of college-level classes at CCD.

TRiO Scholars

The federal government funds TRiO Scholars, a Student Support Services program for low-income, first generation college students and students with documented disabilities. CCD’s TRiO program has an amazing track record! Of the 200 students the program works with each year, more than 80 percent stay in school to reach their goals!

CASA helps students in a variety of ways! We provide:

- Counseling, support and advocacy
- Academic advising and course selection
- Learning Communities
- Goal setting
- Tutoring
- Financial aid application assistance
- Scholarship search assistance
- Transfer assistance
- College visits to four-year institutions
- Career guidance and exploration
- Cultural events and services

- Workshops on college and life survival skills
- A connection to community resources

New and current CCD students can apply to any of the CASA programs. Stop by the office in South Classroom 244 to pick up an application or call 303-556-4964.

CCD CELEBRATES STUDENT SUCCESS Graduation Honors

Graduation honors recognize outstanding academic achievement throughout a student’s academic career at their home institution. The honors are awarded to students who complete the requirements for an associate degree and earn a 3.5 or better cumulative grade point average. Only college level courses completed with this college will be included in the GPA calculation. The three levels of recognition are defined as follows and will be posted on the students transcript. Cum Laude (“with honor”) – 3.50 to 3.749 cumulative GPA; Magna Cum Laude (“with great honor”) – 3.75–3.99 cumulative GPA; Summa Cum Laude (“with highest honor”) – 4.0 cumulative GPA

Semester Honors

Each semester, students taking 12 or more hours may be eligible for honors. All eligible hours must have been completed. S/U grades and grades for Developmental Education course work are not included in the Grade Point Average Calculation. The semester Grade Point Average (GPA) required to qualify for the Dean’s Honors List must be 3.50 to 3.749. To qualify for the Vice President’s Honors List the Grade Point Average must be 3.75 to 3.999. The President’s Honors List consists of students with a 4.0 Grade Point Average. The President’s Honor List, the Vice President’s Honor List and

the Dean’s Honor List recipients will have the honor printed on their academic transcript.

Phi Theta Kappa

Phi Theta Kappa, the international honor society for two-year community and junior colleges, recognizes student academic excellence at CCD and promotes academic community at the college.

To be eligible for membership in CCD’s Alpha Mu Mu Chapter, students must have a 3.5 grade point average after completing 12 or more credit hours of college-level work, and carry three or more credit hours during the current academic year. Phi Theta Kappa members are honored at graduation for their outstanding academic achievements. Eligible students are invited to join each semester.

In spring 2005, Alpha Mu Mu once again was designated as a five-star Distinguished Chapter. Alpha Mu Mu has also earned the Pinnacle Award for the group’s recruitment success and increased membership.

For more information, interested and eligible students should contact any current executive board member at 303-556-4521 (voice mail) or the faculty sponsors by calling 303-919-1128, or 303-352-3208.

SPECIAL ACADEMIC PROGRAMS

Cooperative Education Program

Students in CCD's Cooperative Education program do supplemental course work or get practical work experience related to their educational and career goals. They can earn credit for working part-time in a job that is directly related to their field of study. Students must apply at least one semester before their cooperative education experience is supposed to start. For more information, call Student & Enrollment Services at 303-556-2413.

Denver PREP/Projecto Access

CCD offers a summer learning opportunity for Denver middle and high school students called Denver PREP/Projecto Access. The enrichment program is free and open to students who have a B or better grade point average, are willing to make a three-summer commitment, and are interested in engineering, science and math careers. Denver PREP participants learn problem solving, research and study skills, explore careers and practice for the SAT/CPT college entrance exams.

For more information on deadlines or an application, call 303-556-4964.

Developmental Studies Program

To be successful at CCD, students must be able to use reading, math, writing and study skills. CCD has a comprehensive academic program for those who need to upgrade these skills. It includes:

1. an evaluation or assessment of a student's basic academic skills;
2. an interpretation of assessment test results by skilled faculty and advisers;
3. skill development courses in reading, mathematics, writing and study skills;

4. support with computer-assisted instruction;
5. preparation for GED; and
6. English-as-a-second-language instruction and support.

For more information, contact the Center for Educational Advancement, SO 313, 303-556-8455. The Developmental Studies Program is also available at the branch campuses.

Early/Middle College Initiative

Denver Public Schools has partnered with CCD to open the Career Education Center Middle College of Denver High School and Southwest Early College. Both are very untraditional "high schools." Students take the regular high school curriculum during their freshman and sophomore years, then take the assessment test to determine if they're ready for college. During their junior and senior years, the students take CCD classes and earn dual credit in high school and college. One year out of high school, the early and middle college students can earn their associate's degrees and enter a four-year institution as a junior.

Honors Program

The Honors Program gives qualified students honors credit for signing a contract with an instructor and doing individual honors work within existing courses or by taking designated honors courses. Honors work helps students develop sophisticated, creative, critical thinking and research skills while enhancing their academic résumés. For more information, visit the Honors Program office in SO 244A, or contact the program coordinator at 303-556-3861.

International Study Programs

CCD is a member of the Colorado Consortium for International Programming (CCIP). Through CCIP, students may find opportunities to live and study abroad while earning CCD credit. For more information about study possibilities in foreign countries, contact the Center for Arts & Sciences dean at 303-556-2473.

North Lincoln Campus of Learners Project

The North Lincoln Campus of Learners project is a joint partnership between CCD and the Denver Housing Authority. North Lincoln helps its residents get access to education, training and related services. Residents who enroll at CCD are assigned to an educational case manager, get one-semester of child care stipends and motivational tuition scholarships. The college's First Generation Student Success program works collaboratively with the North Lincoln Campus of Learners to help residents get into college and attain their educational and career goals.

ROOTS

ROOTS — Recognizing Ongoing Opportunities Through Success — is a customized work-training certificate program that trains participants in financial services and finds them meaningful, paid internships. The program is targeted specifically at people who have disabilities, are age 17 or older and are clients of the Colorado Division of Vocational Rehabilitation. ROOTS provides reasonable student accommodations, including interpreters, books on tape, adaptive equipment, learning support, advocacy, job coaching and shadowing, job search assistance, case management, one-on-one tutoring, workshops and job fairs. When they finish their classes,

ROOTS participants are placed in paid internships with supportive job coaching.

ROOTS graduates enter the high-demand job market for entry-level financial services workers at a starting pay averaging \$10 per hour. Entry-level positions include bank tellers, proof operators, bookkeepers, administrative assistants, customer service representatives, and accounting, mailroom and general office clerks.

The ROOTS program is at CCD Southwest. For more information and to schedule a tour, call 720-858-2912.

Summer Bridge Program

The Summer Bridge program is a well-established, intensive learning program that gives participants a firm foundation for successful college education. Students prepare for taking classes and navigating college. They learn about financial assistance and other student services at CCD, take first-year experience, academic development, computer applications courses, explore their career options and participate in a variety of enrichment activities. Summer Bridge motivates students to pursue a college education and equips them with the skills and confidence needed to complete it.

Applications are accepted from January through April. The eight-week program begins in June. Applicants should be recent high school or Colorado High School Equivalency Diploma — formerly GED — graduates between the ages of 18 and 22. However, any student who intends to enroll in CCD's fall classes and can benefit from instruction is welcomed to apply.

For more information and for specific entrance requirements, contact Center for Academic Support & Achievement, in SO 244, 303-556-4964.

GRADUATION REQUIREMENTS

Colorado Community College System Guidelines

Colorado Community College System (CCCS) colleges have adopted guidelines for graduating with an Associate of Arts or an Associate of Science degree in two calendar years. For more information on those guidelines, or to develop an education plan, students can contact the Educational Planning & Advising Center at 303-556-2481, or stop by SO 134 on the Auraria Campus. Branch campus or center case managers also can provide information.

The CCCS colleges guarantee that a student will be able to complete all course work necessary to earn an AA or an AS degree from a specific CCCS college in 24 months and 60 credit hours.

Students must satisfy all the following conditions to be eligible for this guarantee.

1. Enroll at the same community college for at least four consecutive semesters, excluding summer.
2. Register within one week of the beginning of registration for each semester.
3. Have completed all required

developmental course work before beginning the count of two years to degree completion.

4. Enroll in and pass (with a "C" or better in each course) an average of 15 credit hours in course work that applies to the AA/AS in each of four consecutive semesters.
5. Obtain a recommended Plan of Study for the AA or AS degree, signed by the student and community college adviser, prior to registration for the second semester, and according to the requirements of the community college.
6. Follow the signed Plan of Study.
7. Continue with the same degree (AA or AS) from entrance to graduation.
8. Retain documentation demonstrating that all the above requirements were satisfied (advising records, transcripts, etc.).

Degree Requirements

The document you receive at graduation will list the degree or certificate only, not the area of emphasis you chose.

If you are applying for a CCD degree program, you must meet all of the following requirements. The vice president for Learning & Academic Affairs may approve exceptions.

1. Complete a minimum of 60 semester hours of credit in approved course work.
2. Earn a cumulative grade point average of 2.0 — a "C" average. Some programs may require a student to earn at least a "C" in specific course work. Students should check with their instructional center, case manager or adviser for information about the minimum grade point average requirement.
3. Complete a minimum of 15 credits at CCD in the program area.
4. Complete the program's capstone course with a "C" or better grade.

General Education Requirements

All associate degrees have general education requirements that meet goals for general education established by the Colorado State Board for Community Colleges and Occupational Education. They are:

1. to build skills for advanced and lifelong learning.
2. to expose students to the mainstream of thought and interpretation in the humanities, sciences, mathematics, social sciences, communications and the arts.
3. to integrate learning in ways that cultivate a student's broad understanding and ability to think about a large and complex subject, formulate and analyze valid concepts, solve problems and clarify values.

CCD, the Colorado Community College System and the Colorado Commission on Higher Education have adopted the following rationale for the Associate of Arts (AA) and Associate of Science (AS) general education core curriculum, which was developed by faculty.

General education addresses the needs of all students — regardless of the program area, degree sought, or major — since all people share certain experiences and have certain life goals that are unrelated to any specific discipline of study. The core curriculum is a set of courses that satisfies the general education portion of the requirements for an AA, an AS, or an Associate of General Studies (AGS) degree. All courses in the core curriculum are designed to transfer to four-year baccalaureate, degree-granting colleges and universities. Core courses are academically rigorous, high-quality classes. Students who successfully complete the core courses at CCD can be sure they will be able to compete successfully when they transfer to a four-year institution.

The core curriculum classes stimulate students to think deeply, clearly and logically about a variety of human questions. These classes provide a balanced, broad-based program that requires students to develop critical-thinking and problem-solving skills, to analyze, synthesize and communicate information, and to use knowledge and technology intelligently and responsibly.

These core offerings:

- develop students' understanding of the inter-relationships among the humanities, sciences, communications, mathematics, social sciences and arts fields of study.
- expand students' interper-

sonal, intercultural and international understanding and develop their perceptions of the evolving nature of societies and the interdependence among all peoples.

- to help students achieve personal independence and develop self-understanding, communication, math and reasoning skills.
- develop students' leadership and group dynamics skills.
- increase students' knowledge of the value of physical and environmental well-being to help them fulfill their roles as citizens within a free and changing society.

Certificate Requirements

All CCD certificate program graduates must meet the following requirements. The vice president for Learning & Academic Affairs may approve exceptions.

1. Complete the specified requirements of an approved vocational/technical program.
2. Earn a cumulative grade point average of 2.0 ("C"). Some programs may require you to earn at least a "C" grade in specific course work. Check with your instructional center and your adviser for information about the minimum grade point average required for graduation.
3. Complete a minimum of 15 credits or 25 percent of your program area at CCD.
4. Complete the capstone course.

Before You Can Graduate

Degrees and certificates will be granted during the semester in which the final requirements are completed. Students need to apply for graduation by the deadline date published in the class schedule. If the graduation application is submitted after the deadline, the student automatically will be added to the next semester's graduating class.

An "I" grade in a course required for graduation in the final semester will delay graduation until the semester in which the "I" grade is replaced by a letter grade. The student must reapply for graduation by the posted deadline for that semester.

Students must take at least 15 credit hours at CCD to receive a diploma from this institution.

Other Graduation Policies

1. You can apply no more than six semester hours of courses numbered "299" (independent study course work) toward an associate degree program.
2. There is no limit on special topics courses allowed to count toward a degree. In individual cases, the limit is determined by the program area. If you take special topics courses, consult with your advisers about how these credits apply toward a degree.

CCD Catalog Requirements for Graduation

The graduation requirements in the CCD catalog published during the year a student starts a program at the college are the rules that apply for up to seven years or through completion. If a student interrupts attendance for a year or more and then returns, the catalog published during the year he or she returns to CCD is the document of authority.

If graduation requirements and policies change, students may choose to follow the catalog of the year they first came to CCD or the current catalog. Students should keep a copy of the catalog published the year they enter or are re-admitted, but no catalog can be used that is seven years old. The instructional center or program will determine which previously earned credit hours will apply to degree requirements listed in the most current college catalog.

The catalog is not a contract between you and CCD. The college retains the right to cancel or change programs or course offerings where enrollments are insufficient or for any other reason. Every course listed in the catalog may not be offered every semester.

Students may petition for waivers or program substitutions by completing a "Waiver/Program Substitution Request Form" available in each academic center and getting approval from the program coordinator, the center dean and the vice president for Learning & Academic Affairs. Enrollment Services will keep the form on file.

Graduation Checklist

- All prospective graduating students must be accepted into a program of study or major at CCD before applying for graduation. File a program application in the appropriate academic center and you will be assigned a faculty adviser or educational case manager.
- Meet with your academic adviser or case manager to review your record and make sure you are a viable candidate for graduation.
- Students requesting credit for previous college course work must have all official transcripts sent to Enrollment Services. The evaluation must be completed prior to submitting your graduation application. Check your student record to ensure that your transcript has been received and credit has been posted to your record.
- Credit for Prior Learning can be applied toward a student's degree or certificate only after formal processing in the Education Planning &

Advising Center. The evaluation must be completed prior to submitting your graduation application.

- Name Changes. All documentation for name changes to be printed on diplomas must be submitted to Enrollment Services before or during the semester the graduation application was submitted. Otherwise all diplomas will be printed with names on current school records.
- Submit your completed graduation application to Enrollment Services by the posted deadlines as found on www.ccd.edu and in the schedule of classes.
- Submit a program plan with your graduation application. You can get a graduation form from your academic adviser or case manager. He or she also must sign the form.

All degree, certificate, catalog and general education requirements and other graduation policies are posted in the CCD catalog and at www.ccd.edu. Refer to the catalog or contact your academic adviser, case manager or center with questions.

All financial obligations to CCD must be cleared before a degree, certificate, or transcript will be released.

COMMON GRADING SYMBOLS

CCD Grade Policy

CCD students are evaluated using a letter-grade system that uses A, B, C, D and F for most classes. The following explains what each grade means. For more information, visit www.ccd.edu, consult the course syllabus, ask the instructor to explain his or her grade system, or contact the vice president for Learning & Academic Affairs at 303-556-3598.

Colorado Community College System Inventory of Common Grading Symbols

Effective Fall 2006

- A Excellent or Superior
- B Good
- C Average
- D Deficient
- F Failure
- I Incomplete
- S Satisfactory
- U Unsatisfactory
- S/A Satisfactory (A-level) work in a developmental course
- S/B Satisfactory (B-level) work in a developmental course
- S/C Satisfactory (C-level) work in a developmental course
- U/D Unsatisfactory (D-level) work in a developmental course
- U/F Unsatisfactory (F-level) work in a developmental course
- W Withdrawal
- AW Administrative Withdrawal

Place Holders

- SP Satisfactory Progress
- Z Grade not yet reported
- R Repeat Field

I- Incomplete

The "Incomplete" grade is a temporary grade and is designed for students who because of documented illness or circumstances beyond their control are unable to complete their course work within the semester, but have completed a majority of the course work (defined as at least

75 percent of all course assignments and tests) in a satisfactory manner (grade C or better).

If circumstances beyond the student's control prevent the student from completing a test or assignments at the end of the term, then it is the student's responsibility to initiate the request for an "Incomplete" grade

from the instructor. The instructor will determine whether the student has a reasonable chance of satisfactorily completing the remaining course activities in a timely manner.

In requesting an "Incomplete" grade the student must present the instructor with documentation of circumstances justifying an "Incomplete" grade.

The instructor will sign an "Incomplete Grade Contract" and submit it to the Academic Chair with final grades for the semester. While waiting for the work to be completed, the instructor will assign an Incomplete Grade on the regular grade roster.

Students are encouraged to let instructors know, as soon as possible, if they are having difficulties with any part of the course. In the event that a student and instructor cannot reach resolution concerning an Incomplete, then the student should contact the vice president of Learning & Academic Affairs.

Incomplete grades that are not converted to a letter grade by the instructor after one subsequent semester (not including summer semester) will revert to an F grade. If the student would have earned a letter grade higher than an F without completing the work, faculty should be encouraged to submit that higher grade before the automatic conversion to F.

S- Satisfactory

The satisfactory grade is equivalent to a grade of "C or better". The course will count in attempted and earned credits, but will not carry quality points.

U- Unsatisfactory

The unsatisfactory grade is equivalent to a "D" or "F" grade. The course will count in attempted credits, but will not carry earned credits or quality points.

S/A, S/B, S/C

These are satisfactory grades awarded only for developmental courses. The A, B and C indicate the level of satisfactory performance. These grades are not included in the GPA calculation. The course will count for attempted and earned credits.

U/D, U/F

These are unsatisfactory grades awarded only for developmental courses. The D and F indicate the level of unsatisfactory performance. These grades are not included in the GPA calculation. The course will count in attempted credits, but will not carry earned credits.

W- Withdrawal

The "Withdrawal" grade is assigned when a student officially withdraws from a course after the census date published in the class schedule. A withdrawal can only be processed during the first 80 percent of the course. Withdrawal dates are published in the class schedule. No academic credit is awarded. The course will count in attempted hours. Faculty is required to provide the last date of attendance for each student who is assigned this grade.

AW: Administrative Withdrawal

AW grades are given only for extenuating circumstances that are documented, appealed and approved by the center dean or the vice president for Learning & Academic Affairs.

• In some programs it may be necessary to repeat the course to advance. Credit may not transfer.

Last Date of Attendance

Faculty is required to provide the last date of attendance for each student who is awarded a withdrawal grade of AW or W or a grade of I, F, U or U/F

Place Holders

SP- Satisfactory Progress

Developmental Studies courses, (course numbers start with 0). Students must have met course attendance requirements and successfully completed at least 60 percent of course work requirements. All course objectives must be complete before the end of the next consecutive semester (fall or spring) or the "SP" will revert to a "U."

Z- No Grade Submitted

The grade of "Z" is a temporary grade entered by the Registrar when a grade is not received from the course instructor.

Repeat Field

The Repeat Field on the transcript will be marked I — Include in hours and GPA calculation, A — Exclude from earned hours and GPA calculation, or A Exclude from earned hours but count in GPA calculation.

WHAT ALL STUDENTS NEED TO KNOW

Americans with Disabilities Act and CCD Compliance

The Americans with Disabilities Act prohibits discrimination based on disability in admission to, access to and the operation of programs, services or activities at CCD. The college is committed to providing an environment where all students have the opportunity to attain their educational goals. CCD provides both physical and programmatic access for all students. Reasonable accommodations will be made in instructional delivery and evaluation methods to ensure full educational opportunities for all students. Appropriate documentation of a student's disability is required.

Questions, complaints and requests for additional information may be directed to the vice president for Student & Enrollment Services, Campus Box 200, P.O. Box 173363, Denver, CO 80217-3363, 303-556-2413. Or visit www.ccd.edu and look under Educational Planning and Advising Center.

Notice of Nondiscrimination

CCD does not discriminate on the basis of race, color, creed, national origin, sex, sexual orientation, age or disability in admission or access to, or treatment or employment in its educational programs or activities. Inquiries concerning Title VI, Title IX and Section 504 may be referred to the vice president for Student & Enrollment Services, Campus Box 200, Community College of Denver, P.O. Box 173363, Denver, CO 80217-3363, 303-556-2413, or to the Office for Civil Rights, U.S. Department of Education, 1244 Speer Blvd., Ste. 300, Denver, CO 80204-3582, 303-844-5695.

Directory Information

The following items will be designated as "directory information". Colleges may disclose any of this information without prior written consent, unless notified by the student in writing to the contrary by the first official class meeting date of each semester.

- student name
- date of birth
- major field of study
- participation in officially recognized activities and sports
- dates of attendance
- degrees and awards received
- most recent educational institution attended

CCD complies fully with the Family Educational Rights and Privacy Act (FERPA) that protects the privacy of students' educational records. Ask questions in Enrollment Services, SO 135, or call 303-556-2420.

Release of Information

Other than Directory Information, which may be released to the general public, the college will not release educational records without a student's written consent, signed and dated by the student and indicating which records to release.

Parents of a dependent student can obtain release of that student's records only with writ-

ten consent of the student. The rights given to parents transfer to the student when he or she attends a postsecondary or college-level educational institution.

STATUS OF CAMPUS SAFETY

Although located in an urban environment, the Auraria Campus has one of the lowest campus crime rates in the state primarily because most CCD students commute.

Timely advisories are made to the campus community on crimes that are reported to Auraria Campus Police or local police and may be considered a threat to other students or employees. These reports are made using one or a combination of the following methods:

- news releases;
- crime advisories;
- making reports available to the media through campus newspaper, radio and television;
- advertising in campus publications; and
- distributing the above information to campus employees.

LAW ENFORCEMENT ON CCD CAMPUSES

Call the police at any CCD campus if:

- you need to report a crime
- someone is injured or ill
- you see fire or smell smoke
- you see anyone or anything suspicious
- you see someone stealing something
- you think you see a drunken driver
- you see a chemical spill

Auraria Campus

Auraria Campus Police Department employs certified officers who receive their police authority via the provisions of the Colorado Revised Statutes, Title 24, Article 7, Part 1. The Auraria

Campus Police Department is authorized to enforce campus rules and regulations as well as Municipal, State Laws and Federal Statutes.

If you are a victim or a witness of a crime, you should report it to the Auraria Campus Police Department immediately. The department's services are available 24 hours a day, seven days a week. Priority is given to reports of incidents that threaten the life or safety of people, the security of property and the peace of the community.

Colorado Revised Statutes, 18-8-115, "Duty to Report a Crime," require all persons who believe a crime has been committed to report the suspected crime promptly to law enforcement authorities. To report a crime on campus, use one of the emergency telephones located in every classroom building for immediate, direct access. Call 911 from any campus phone for emergencies or dial 6-5000 for other police assistance. From off campus call 303-556-3271.

Victims of stalkers or persons with restraining orders against another party are strongly encouraged to notify the Auraria Campus Police Department of the threat and to provide Campus Police a copy of the restraining order so that campus officers may enforce it.

Auraria Campus Police Department has the primary responsibility to coordinate locking and unlocking of most campus buildings. Campus Police work closely with Facilities Management to maintain building security and key control. Access to facilities after normal building hours is limited and coordinated with Campus Police. A satellite police and security unit is located in the Tivoli Student Union — which houses student and media operations plus a variety of retail outlets, a movie theater, a bar and restaurants. Police patrol the Tivoli 24 hours a day because of its open nature.

CCD North

The campus is monitored during regular business hours by CCD North maintenance staff. Campus personnel are not certified police and cannot make arrests or other legal decisions. The Adams County Sheriff is the official law enforcement agency for the campus.

If you are a victim of a crime, a witness to a crime or need the fire department, law enforcement or an ambulance while at CCD North, contact the Adams County Sheriff's Department by calling 911 from any telephone, including pay phones. Report crimes and other emergencies immediately to the nearest CCD North faculty, staff or administrator. For non-emergency crimes, contact the Adams County Sheriff's Department at 303-288-1535.

CCD North's maintenance staff has the primary responsibility for opening and closing the campus. Buildings are generally open Monday through Thursday from 7:30 a.m. to 9 p.m. and on Fridays from 7:30 a.m. to 5 p.m. Access to CCD North after regular business hours is limited and coordinated with the campus director and the maintenance department, or as arranged by individual instructors.

CCD Southwest

The Teikyo Loretto Heights Security Office monitors the campus during regular business hours. Campus personnel are not certified police and cannot make arrests or other legal decisions. The Denver Police Department is the official law enforcement agency for the campus.

If you are a victim of a crime, witness of a crime or need the fire department, law enforcement, or an ambulance while at CCD Southwest, contact the Denver City Police Department by calling 911 from any phone or

call 303-640-2011 for non-emergencies. Always report crimes and other emergencies to Teikyo security and CCD Southwest faculty or staff.

The security office for Teikyo Loretto Heights University Campus has the primary responsibility for opening and closing the CCD Southwest building. Faculty and staff members are responsible for opening and closing individual classrooms. Buildings are generally open Monday through Friday at 7 a.m. The buildings close at 9 p.m. Monday through Thursday and at 5 p.m. on Friday. There are currently no weekend classes. Access to CCD Southwest after regular business hours is limited and coordinated with the campus.

CCD East at Cole

The campus is monitored during regular business hours by Cole maintenance and facilities staff. Campus personnel are not certified police and cannot make arrests or other legal decisions. The Denver Police Department is the official law enforcement agency for the campus.

If you are a victim of a crime, witness of a crime or need the fire department, law enforcement, or an ambulance while at CCD East, you should immediately contact the Denver Police Department by calling 911 from any phone or call 303-640-2011 for non-emergencies. Always report crimes and other emergencies to CCD East security and to CCD East faculty or staff.

The facilities office at Cole has the primary responsibility for opening and closing the campus. Regular business hours are Monday through Thursday from 8 a.m. to 8 p.m. and on Fridays from 8 a.m. to 5 p.m. Buildings are generally open from 6 a.m. to 10 p.m. Access to the East Campus at Cole after regular business hours is not permitted.

CCD Lowry

The campus facilities staff monitor the premises from 6 a.m. until 11 p.m. Monday through Friday and from 7 a.m. until 5 p.m. on Saturdays and Sundays. Campus personnel are not certified police officers and can not make arrests. The Denver Police and Aurora Police departments are the official law enforcement agencies for the campus and both patrol the campus frequently.

The Lowry Campus is divided between the City of Denver and the City of Aurora. Different cities have jurisdiction depending on the building where an incident occurs. However, if you are a victim of a crime, witness a crime or need the fire department, law enforcement, or an ambulance while

at CCD Lowry, contact the Denver metro-area emergency response system by dialing 911 or 303-892-9111 from any telephone including pay phones.

Report all crimes and other emergencies to Center Security at 303-419-5557 or pager 303-855-9970. The security supervisor can be reached at 303-739-9874. For non-emergency crimes, contact Aurora Police at 303-739-6402 or Denver Police at 303-640-2011.

The Lowry Campus buildings are open during normal business hours, Monday through Friday, 8 a.m. until 5 p.m. Classroom buildings are open between 6 a.m. and 7 a.m. and locked as scheduled activities end, which may be as late as 11 p.m. Contact the Facilities Department at 303-739-9874 with questions on building access and maintenance.

STUDENT RIGHT-TO-KNOW AND CAMPUS SECURITY ACT

This report was prepared by the Auraria Higher Education Center (AHEC) Campus Police Department and the Community College of Denver Dean of Students to comply with Federal Law No.101- 542, the Student Right-to-Know and the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act of 1999 (formerly the Campus Security Act of 1990).

For a paper copy of this report, contact the Dean of Students at 303-556- 2413. The report describes security practices and procedures at the Auraria Higher Education Center and Community College of Denver Branch Campuses, and lists crime statistics for the most recent calendar year the two preceding calendar years. Since 1992, these institutions have been required to report each year on the status of campus security to all current students and employees.

Campus Crime Information

During the past three years, the following crimes were reported to have been committed on the Auraria Higher Education Center Campus, and at CCD Satellite Locations, including CCD West, CCD North, CCD East, CCD Health Sciences Center at Lowry and CCD Southwest.

CCD strives to provide a safe and healthy environment that enhances the learning process. Each student and employee should be able to attend classes, work on campus and participate in activities with a feeling that they are in an environment that is safe and secure. The college provides to all prospective students and CCD employees the Campus Security Policies and Procedures and the most recent campus crime statistics. This is part of the Federal Law No.101-542, the Student Right-to-Know and the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act of 1999 (formerly the Campus Security Act of 1990).

Reported criminal offenses on the Auraria campus***

Statement Regarding Registered Sex Offenders

Colorado Revised Statutes requires that “each institution of post secondary education in the state shall provide a statement to its campus community identifying the name and location at which members of the community may obtain the law enforcement agency information collected pursuant to 19-3-412(6.3), C.R.S., concerning registered sex offenders.”

Information concerning persons who are required by Colorado law to register as sex offenders, including registered sex offenders who are enrolled, employed, or volunteering at CCD, may be obtained from the Denver Police Department, 1331 Cherokee St. (720-913-2000) or the Auraria Campus Police (303- 556-3271).

CCD Sexual Assault Policies

Within the provisions of our Policies and Practices, CCD assures that all employees and students or users of college facilities are able to enjoy a campus environment free of all forms of unlawful discrimination.

It is CCD’s intent that no employee or student, male or female, shall be subjected to unsolicited and unwelcome sexual overtures or conduct, either verbal or physical. It is the employees’ role and responsibility to address concerns of sexual harassment and to discourage inappropriate behavior in the classroom and workplace. In general, guidelines for determining sexual harassment are as follows:

- Unwelcome sexual advances, requests for sexual favors and other like verbal, visual, or physical conduct.
- Submission being expressed or implied as a condition of employment or education.
- Interference with an individual’s work or academic performance or creating a hostile, intimidating or offensive working or learning environment.
- Such conduct or behavior was known by the actor to be unwelcome, harmful or offensive; or a person of average sensibilities would clearly have understood that the behavior or conduct was unwelcome, harmful or offensive.

If you believe that you may have been a victim of sexual harassment you should:

- Immediately inform the alleged offender to stop the unwelcome, harmful or offensive behavior
- Contact the Vice President for Student & Enrollment Services, CCD Human Resources Office, or a responsible supervisor for guidance and support.

WHAT CCD AND ITS STUDENTS EXPECT FROM EACH OTHER

CCD has policies and standards that help students know what to expect of CCD and what CCD expects of them. The full text of all college policies and standards is at www.ccd.edu or available by contacting the dean of students in SO 301, 303-556-2413. Following is a summary of the information students need to know. An adviser, educational case manager or anyone on the Student & Enrollment Services staff can help you understand these policies, standards and your rights as a CCD student.

Academic Standards

ATTENDANCE

Regular and punctual attendance is expected, and each instructor will keep a complete record of student attendance for the entire length of each course. Students will be counted absent from missed class meetings, beginning with the first official date of enrollment or the first day of classes, whichever is later. Faculty may give a failing grade to any student who has missed at least 15 percent of a class, after the first class meeting. Students are responsible for properly processing a withdrawal from a class if they want to avoid receiving a failing grade. Students must provide instructors with a valid reason for an absence in a timely manner. Students are responsible for learning the material that was taught during the absence and completing all class assignments.

The attendance policy for health care and certain other programs, may differ because of clinical requirements or rules set by approving agencies.

Academic Standards of Progress

1. CCD students must maintain a cumulative grade point average of 2.0 for all course

work attempted.

2. Students whose cumulative grade point average falls below 2.0, will be placed on academic probation for the following semester of enrollment and advising is mandatory.
3. CCD may suspend a student academically for a minimum of one semester if he or she fails to bring the cumulative GPA to 2.0 by the end of the probationary instructional semester.
4. Students placed on a second academic suspension must meet with the Dean of Students to determine eligibility for continued enrollment at CCD.

Academic Renewal

Students may apply to have a maximum of 30 credit hours excluded from their Grade Point Average. In order to be eligible, you must have been out of school for two years. Since returning, you must have enrolled and completed 6 credit hours with a 2.0 minimum GPA. You can only apply for Academic Renewal once and it is not reversible.

CCD Rights

CCD reserves the right to change provisions, requirements and fees published in this catalog. Without notice, CCD may cancel any course or program, or change its content, description, timing, availability, location, academic credit, or any other aspect.

Drug-Free Schools

In compliance with the Drug-Free Schools and Communities Act Amendment of 1989, CCD has a strict rule against students or employees unlawfully manufacturing, distributing, dispensing, possessing or using alcohol or illicit drugs on college property or during

college activities. Any student or employee convicted of any such drug violation is subject to criminal penalties under local, state and federal law, as well as disciplinary action by the college.

For information on substance abuse, contact the Auraria Student Health Center in PL 150, 303-556-2525; or for a referral, contact CCD Student Life in TV 309 or at 303-556-2597

The Colorado Department of Health offers counseling, treatment, rehabilitation and re-entry programs for drug and alcohol abusers. For more information visit www.cdph.state.co.us or e-mail cdphe.information@state.co.us.

Electronic Communications Policy

CCD has adopted a policy to guide usage of all forms of electronic communication, including e-mail, Internet services, voice mail, audio and video conferencing, and fax messages that are sent or received by faculty, staff, students and other authorized users of CCD resources.

In general, CCD provides various forms of electronic communication for teaching, learning and college operations. All records created through the electronic communication equipment CCD provides are the property of the college. People

who are authorized to use e-mail and voice mail provided by CCD may make personal use of those media as long as there is no direct cost to the college.

All electronic communication at CCD must meet the standards of conduct, laws and regulations published in such official CCD, state and federal documents as the CCD catalog, CCD Student Code of Conduct, any CCD faculty handbook and the Colorado State Employees Handbook.

CCD electronic communications may not be used for commercial purposes; to send

copies of documents in violation of copyright laws; to transmit information that is restricted by laws or regulations; to intimidate, threaten, or harass other individuals, or to interfere with the ability of others to conduct CCD business; forge communication so it appears to be from someone else; to get unauthorized access to data, files or other communication; to breach security measures to access electronically stored information in any way; sending chain letters or jokes of any nature.

CCD does not routinely monitor electronic communica-

tion, nor is e-mail backed up. Message contents are inspected only to protect health, safety or security. Still, the contents of e-mail messages can be disclosed as a result of legal discovery, writ, warrant or subpoena, or as a result of a request under the Colorado Open Records Law.

For information about the student e-mail accounts that CCD provides, visit www.ccdstudents.net. CCD requires that all students learn to use e-mail as many courses require it.

Family Education Rights & Privacy Act of 1974

The Family Education Rights and Privacy Act — FERPA — protects the privacy of education records, establishes the students' right to inspect and review their educational records, and provides guidelines for correcting inaccurate or misleading data through informal and formal hearings. Students have the right to file complaints about FERPA if they believe CCD failed to comply with the act.

CCD's policy explains in detail the procedures the institution uses to comply with the act's provisions. Copies of the policy are available from Enrollment Services, SO 135, and the vice president for Student & Enrollment Services, SO 301. These offices also maintain a Directory of Records that lists all educational records CCD maintain on students.

Please refer questions about FERPA to Enrollment Services, 303-556-2420.

Grade Changes

The faculty member who gave the grade is the only one who can change it. If the instructor is not available to consider the grade change, the instructional dean will work with the vice president for Learning & Academic Affairs to approve the change.

Grade Point Average

Grade points measure a student's achievement for the number of credits completed. The grade point average — or GPA — is calculated by multiplying the number of grade points by the number of credits for each course. Total the credits and points, then divide the grade points by the total number of credits.

- A = 4 grade points
- B = 3 grade points
- C = 2 grade points
- D = 1 grade point
- F = 0 grade points

Note: All other grades (Satisfactory, Unsatisfactory, SP, I, W, AU, AW) are not calculated into the CCD GPA.

The following example will help you calculate your grade point average:

Course	Credits	Grade	Points
ANT 111 Physical Anthropology	3	A	12 (3 x 4)
BIO 111 General College Biology	5	A	20 (5 x 4)
CIS 115 Introduction to Computing	3	B	9 (3 x 3)
ENG 121 English Comp. Essay Writing	3	D	3 (3 x 1)
POS 111 American Government	3	F	0 (3 x 0)
TOTALS	17		41

Total grade points divided by total credits equals the cumulative grade point average. Therefore, the grade point average for the above example is 41 divided by 17 for a 2.41 GPA.

Repeating Courses

Students must fill out a "Petition to Repeat a Course" form in Enrollment Services. All college courses may be repeated. Each

registration for the course and each grade received will be listed on the transcript. On the transcript a notation will follow the course indicating that the course was repeated and designating whether the course will be included in the GPA. The highest grade will be used in the GPA calculation. There will be no limitation on course grades that are eligible for repeat. All credit hours earned for initial and repeated courses will be deducted from a student's remaining COF stipend eligible hours.

"Repeated" courses may be applied only one time to a certificate or degree, except for variable credit courses and designated courses that may be repeated for professional or personal development.

Student Code of Conduct

Community College of Denver has the right to protect its educational purpose and its students from the irresponsible conduct of others. The rules and regulations in the Student Rights, Freedom and Code of Conduct have been established to explain how CCD expects its students to conduct themselves. A student who violates the student code of conduct may face disciplinary action which includes, but is not limited to: probation, suspension or permanent removal from CCD. Every CCD student should read and understand this policy. Visit www.ccd.edu for the entire text or pick up a hard copy from the Dean of Students in the office of the vice president Student & Enrollment Services, SO 301.

Academic Integrity Policy

CCD students are expected to behave as responsible members of the college community, and to be honest and ethical in their academic work. CCD strives to provide students with the knowledge, skills, judgment, and wisdom they need to function in

society as educated adults. Any student who presents false or "made-up" research; plagiarizes or presents the work of someone else as his or her own; or cheats on an examination corrupts the essential process of higher education. That student performs a great disservice to him or herself and to the college. Everyone in the CCD community — students, faculty and staff — share the responsibility of challenging or reporting academic dishonesty. Read the entire policy including the Guidelines for Academic Integrity and Academic Dishonesty Complaint Procedures at www.ccd.edu. A detailed, printed copy of the "Academic Integrity Policy" is available in the office of the vice president for Student & Enrollment Services, SO 301.

Student Grievance Procedure

CCD students have all the rights and responsibilities of other citizens and are subject to the same federal, state and local laws as non-students. As members of the college community, students also are subject to the rules and regulations of the college. If you believe your rights have been violated, you may file a grievance using the Grievance Procedure for Students. A detailed, printed copy of "Students' Rights and Responsibilities" is available from CCD Student Life in TV 309 or in the office of the vice president for Student & Enrollment Services, SO 301.

READING GUIDE TO DEGREE & CERTIFICATE PROGRAMS

CATALOG 101

College catalogs contain so much information! This reference page should help you understand the importance of the catalog and how it can help you set your educational goals. No one at CCD expects you to navigate college by yourself! The college has services to help you make the most of your time at CCD so that you leave with all the knowledge and skills you need for your career or transfer to a four-year institution. CCD advisors, case managers and faculty are expecting your questions so don't be afraid to ask! Here are some quick tips.

New to CCD? Visit the Educational Planning & Advising Center (EPAC) in SO 134 and get to know an advisor. Once you have been at CCD for a semester or more, you will find others who can answer your questions, but don't forget your EPAC advisors! They are always there to help. Stop by or call 303-556-2481.

Enjoying your classes? CCD faculty are experts in their subject areas. They've also been to college, usually for more than one degree. Get to know your instructors! Ask them about their own careers. They can tell you about jobs, salaries and four-year colleges and universities where you can continue your education. CCD faculty have been where you want to go. Don't be afraid to ask questions! Your instructors are expecting questions and are eager to provide answers.

Life getting in your way? Most CCD students have jobs, families and commitments outside of school. Your Educational Case Manager is there to help you succeed in college and manage your other responsibilities. Don't feel like you're alone! CCD has case managers in each of its academic centers, at all of its branch campuses, and in special programs for first-genera-

tion college students. Student ambassadors who work for CCD case managers will help track your progress, remind you about deadlines and answer questions. To find your case manager, visit the academic center that houses your major area of emphasis (see the definitions that follow). Those centers include:

- Center for Arts & Sciences, SO 307
- Center for Career & Technical Education, PL 262
- Center for Health Sciences at Lowry

If you're enrolled in developmental classes — those with course numbers of 030, 060 and 090 — you can talk to the case manager in the Center for Educational Advancement.

First-generation students — those who are the first in their families to pursue a college degree — will find programs and people who can help with their unique needs in the Center for Academic Support & Achievement. Visit SO 242 or call 303-556-4964.

Still have questions? College is a whole new world with all new rules and vocabulary. CCD offers a class to help students understand the rules, define the new words and feel comfortable in college. AAA 101 College 101 will help you learn the ropes. In this one-credit class, you'll also set academic and career goals.

UNDERSTAND CCD'S DEGREE & CERTIFICATE PROGRAMS

The college offers an Associate of Arts degree and an Associate of Science degree. These degrees have a generic major of Liberal Arts. No designation of an emphasis area or concentration may appear on a transcript or diploma other than "Liberal Studies". The area of emphasis refers to the stu-

dent's subject field in which the student takes 12 or more credit hours. See a faculty advisor for detailed information about the transferability of courses within an emphasis in Liberal Arts.

Capstone Courses

These courses, usually taken during the student's final semester at CCD, review and assess the skills a student has learned in his or her program of study. All courses identified as capstone courses require a grade of "C" or better for graduation. Capstone courses must be taken at CCD.

Core Curriculum

These courses fulfill lower-division general education requirements as defined and agreed on between the State Board for Community Colleges and Occupational Education and the governing boards of all public four-year institutions in Colorado.

Corequisite

This is a course or requirement that must be completed during the same semester as the course that identifies the corequisite.

Credit Hour

This is the basic unit of academic credit. Generally, one credit hour is earned by attending a lecture class for a 50-minute period, once a week, for a full semester. In a laboratory course, one-credit hour is granted for two to three 50-minute periods per week in the laboratory.

Credit Hours in Parentheses

For each academic program listed in this catalog, credit hours for some classes are in parentheses. These classes are optional and you may choose to take one or more to fulfill the requirements for your program. Always review your choices with your case manager or adviser.

Statewide Guaranteed Transfer Courses

Some of the classes you take at CCD are guaranteed to transfer to any public college or university in the state and count toward your four-year degree as though you took the class at that institution. In the Course Description section of the catalog, those classes Guaranteed Transfer Courses include a code such as "GT-SC1" which indicates that the class is guaranteed to transfer as a science credit.

General Education

General education is the liberal arts component of a baccalaureate degree that may include lower- and upper-division courses as defined by each institution.

Flexible Enrollment

Courses designated as flexible allow students to start at various times. The student must complete all course requirements by the end of the semester.

Prerequisite

This is a required course that must be completed satisfactorily before registering for the course that identifies that prerequisite. All college level courses have a reading skill prerequisite and a required assessment score. If a student takes a course without the appropriate preparation, they may not have the skills needed to be successful in the course.

Speech Intensive Courses

Associate of Applied Science "Speech Intensive" courses combine the requirements of SPE 115 with the content of vocational classes. Students who transfer a course from another college that is noted as "speech intensive" at CCD may meet the SPE 115 requirements only by taking SPE 115 as a separate course.

DEGREE & CERTIFICATE PROGRAMS

ASSOCIATE OF ARTS DEGREE EMPHASES

University Parallel, Transfer Program

An Associate of Arts (AA) degree provides a learning foundation in communications, social sciences, arts or humanities. Some students work toward the AA degree for purposes of personal enrichment. Many others plan to transfer to four-year colleges and universities to continue their work toward baccalaureate degrees and pre-professional training in such fields as law, education, the arts and social sciences. A student can complete this program in four semesters, going full-time and carrying the required number of hours. A student may choose, due to personal circumstances, to extend the amount of time for completion.

The AA degree sometimes is referred to as a “university parallel” or “transfer” degree. The general education core requirements, when completed at CCD, meet the lower-division general education requirements of all public baccalaureate colleges and universities in Colorado. Students graduating with the AA degree may transfer into liberal arts programs in most public baccalaureate colleges and universities with junior standing. Courses to be counted toward the general education core curriculum must be completed with a grade of C or higher. Students planning to transfer should familiarize themselves with the full requirements of the school they plan to attend. These are available in the Transfer Center in South Classroom Building 134.

Student Performance Objectives for Transfer Education

Students will plan and write well-structured compositions demonstrating the writing capabilities to express, inform, analyze, evaluate, persuade, argue, conduct research, and use primary and secondary sources logically and stylistically.

Students will compose and deliver oral presentations, providing ideas and information and using delivery skills suitable to the topic, purpose and audience. Students will demonstrate an understanding of speeches and be able to evaluate speeches.

Students will read and think critically about a variety of interdisciplinary topics, demonstrating college-level reading skills in a variety of disciplines, including humanities, social sciences and the natural sciences.

Students will demonstrate orally and in writing the critical-thinking skills of analysis, synthesis and evaluation.

Students will analyze and use numerical data and qualitative reasoning skills, including applying proper formulas to mathematical data and calculating results, illustrating quantitative data graphically, rearranging general formulas to solve for any missing information, and interpreting graphic data and assessing the importance of the portrayed trends.

AA Degree Program Entry

Students must apply for entry to the AA degree program. Students are encouraged to apply to a program by the time they have completed 12 credits of 100-level college-transfer courses. At the time of application, students are encouraged to identify an area of emphasis. Program application forms are in South Classroom Building 134 and all academic center offices. Students should obtain an Advising Transcript from Admissions, Registration and Records and attach it to the program application.

Program Admission Requirements

1. Meet minimum assessment scores or prerequisites required for general education courses in the program.
2. Meet with a faculty program adviser and obtain an authorized signature.

AA Degree Program Requirements

Within the AA degree, the college offers 14 areas of program emphasis: Art, Behavioral Sciences, Business Administration, Communications, Economics, English/Literature, Graphic Design, History, Multimedia, Music, Photography, Political Sciences, Speech or Theatre. The same course may not count toward both general education requirements and toward an area of emphasis. An area of emphasis consists of four identified courses in one academic area. If students do not select an area of emphasis or have fewer than 60 credit hours with their core courses and area of emphasis, they should take transfer electives as needed to complete the 60 credit hours required for the AA degree. Up to 3 credits of physical education may apply toward this degree. All general education core and capstone courses must be completed with a C grade or better. All graduates of the AA degree must meet the following program requirements.

AA Degree Guaranteed General Education Core Transfer Courses

- I. Communications9
ENG 121, 122
Speech
SPE 115 or 125**
**This requirement is a Colorado Community College System requirement and is in addition to the Guaranteed General Education Transfer Courses.
- II. Mathematics3-5
Select any 1 of the following. (Credits over 3 will be applied to the electives category.)
MAT 120, 121, 122, 123, 125, 135, 201, 202
- III. Physical & Life Sciences8
Select 2 laboratory-based courses. (Credits over 8 will be applied to the electives category.)
AST 101, 102
BIO 105, 111, 112, 201, 202, 204
CHE 101, 102, 105, 111, 112
GEY 111, 112
PHY 111, 112, 211, 212
- IV. Social & Behavioral Sciences9
(Select 3 courses, 1 of which must be History, with no more than 2 courses from any 1 category.)
ANT 101, 111
ECO 201,202
GEO 105, 106
HIS 101, 102, 201, 202, 247
POS 105, 111
PSY 101, 102, 235
SOC 101 and 102

v. Humanities9
 (Select 3 courses hours from 2 disciplines)
 ART 110, 111, 112
 FRE 211, 212
 GER 211, 212
 HUM 121, 122, 123
 LIT 115, 201, 202, 205, 211, 212, 221, 222
 MUS 120, 121, 122
 PHI 111, 112, 113
 SPA 211, 212
 THE 105, 211, 212

General Education Sub-Total 38-40

Area of Emphasis (Required) SEE BELOW

The required area of emphasis a must include a minimum of 6 credit hours in 200-level courses, such as HIS 201, 202, HUM 251, LIT 201, 202, THE 211, 212 and others.

See Program Coordinators/Faculty Advisors to determine whether or not courses in these areas transfer.

Subtotal 22

Total Hours 60-63

Approved Electives for the AA Degree

- AAA - 109 (CCD and MSCD only)
- ANT - all courses
- ART - all courses
- ASL - all courses
- AST - all courses
- BIO - 105 and higher
- CHE - 101 and higher
- CIS - 118
- CSC - 160, 161
- ECO - 201 and higher
- ENG - 121 and higher
- Any foreign language 111 or higher
- GEO - all courses
- GEY - all courses
- HIS - all courses
- HPL - all courses (limit to 4 credits)
- HUM - all courses
- JOU - all courses
- LIT - all courses
- MAT - 121 and higher
- MUS - all courses
- PHI - all courses
- PHY - all courses
- POS - all courses
- PSY - all courses
- REA - 151, 223 (approved by CCD and MSCD only)
- SOC - all courses
- SPE - all courses
- THE - all courses

Courses in any prefix with numbers beginning in "0" will not meet requirements for the AA degree. English and math courses with numbers below 121 will not meet requirements for the AA degree.

Credit Hours

Credits are the hours of credit awarded to the course. An associate degree requires a minimum of 60 credits. Credit hours in parenthesis, e.g., (3), are options from which students may choose. They are not included in the total credit hours listed below. An average full-time student course load is 15 credit hours. An AA degree takes four semesters of 15 credits each semester, assuming that all courses taken count toward the degree.

AA Degree Areas of Emphasis

Students must confer with faculty advisors in the areas of emphasis in order to determine whether or not courses will transfer.

ART EMPHASIS REQUIREMENTS

ART 121	Drawing I	3
ART 122	Drawing II	3
	(Prerequisite ART 121, Drawing I)	
ART 131	2-D Design	3
ART 132	3-D Design	3
ART 211	Painting I	3
ART 212	Painting II	3
	Art Emphasis Electives.....	4-7
Total	22-25

The Following may be taken as Art electives:

ART 123	Watercolor I	(3)
ART 124	Watercolor II	(3)
ART 156	Figure Drawing I.....	(3)
ART 213	Painting III	(3)
ART 214	Painting IV	(3)
ART 256	Advanced Figure Drawing	(3)
ART 264	Marketing for the Visual Arts	(3)
ART 275	Special Topics (with instructor consent)	(3)
ART 285	Independent Study (with instructor consent)	(3)
MGD 101	Introduction to Computer Graphics	(3)
MGD 116	Typography I.....	(3)
PHO 205	Digital Photography I.....	(3)

Students choosing the AA Degree with an Emphasis in ART must elect to take the following courses from the Arts and Humanities list under the General Education Requirements. See the Educational Planning Guide available from your Faculty advisor.

ART 111	Art History I.....	3
ART 112	Art History II.....	3
Total Art Emphasis	22-25

BEHAVIORAL SCIENCES EMPHASES REQUIREMENTS

Select 4 courses, either from one option, or from among the three options listed below. At least 3 must be 200-level courses

Total 12

Anthropology Emphasis

(Choose 4)

ANT 101	Cultural Anthropology	(3)
ANT 107	Introduction to Archaeology	(3)

Total	21-23

ASSOCIATE OF GENERAL STUDIES DEGREES

CCD offers two types of Associate of General Studies degrees. Both require the lower-division core general education courses that transfer to all majors at all state baccalaureate colleges and universities. Only grades of C or better are acceptable for the core general education requirements. Up to three credits of physical education may apply toward this degree.

Associate of General Studies Generalist Degree (AGS-G)

In addition to the general education core requirements, the degree allows students to self-select 23 credits of transfer and/or career courses. The general education core courses fully meet the general education requirements of all baccalaureate schools. Transferability of career courses is not guaranteed. If students select this option, they should consult with a faculty adviser or educational case manager. Students are encouraged to develop specific career goals and to transfer to the CCD degree program appropriate to those goals. A student can complete this program in four semesters, going full time and carrying the required number of hours. A student may choose, because of personal circumstances, to extend the amount of time for completion.

The AGS-G degree is the only degree that does not require application for program entry. All CCD certificate and degree-seeking students are classified AGS-G students until they apply and are accepted into another certificate or degree program. Any CCD career/vocational course from any CCD campus may count as an elective for the AGS-G degree. All students who pursue this degree plan are assigned a faculty adviser or educational case manager after completing 12 credit hours.

Program Admission Requirements

None

All other Associate of General Studies (AGS) Degrees

Most AGS degrees (with the exception of the AGS-G degree) are the result of articulation agreements and provide a transfer option for students in vocational programs. The career courses are fully transferable only into the particular program and college identified by the articulation agreement. Consult with a faculty adviser/case manager.

Students must apply for entry. Students are encouraged to apply to a program by the time they have completed 12 credits of 100-level courses. At the time of application, students must identify which Associate of General Studies degree program they want to enter.

Program application forms are in SO 134, and appropriate academic center offices. Entry requirements are the same as for the matching AAS degree.

Program Admission Requirements

See individual articulated degree options.

Credit Hours

Credits are the hours of credit awarded to the course. An associate degree requires a minimum of 60 credits. Credit hours in parenthesis, e.g., (3), are options from which students may choose. They are not included in the total credit hours listed below. An average full-time student course load is 15 credit hours. An AGS degree of 60 credit hours takes four semesters of 15 credits each semester, assuming that all courses count toward the degree. AGS degrees of more than 60 credit hours may take more than four semesters to complete.

AGS Degree Program Requirements

All AGS degrees require the following:

Associate of General Studies-Generalist Degree (AGS-G)

All CCD certificate and degree-seeking students are classified as AGS-G students until they apply and are accepted into another certificate or degree program. Students remain in the AGS-G program if they want to complete a broad program of both career and transfer courses without the constraints of specialization.

The AGS-G general education core curriculum transfers to and fully meets the lower-division general education requirements of all public baccalaureate colleges and universities in Colorado. Transferability of AGS-G career courses depends on the courses taken and the receiving institution. All students who have completed 12 college-level credits should see a faculty adviser/case manager in their area of interest.

Students may take either the AA core curriculum or the AS core curriculum. The AA core follows.

General Education AGS-Core

General Education Core Courses	40-42
Electives or courses prescribed by articulation agreements	20-23
Capstone Course	3
Total	60-62

Courses to be counted toward the core general education requirement must be completed with a grade of C or better.

Associate of General Studies Degree in Business Administration

CCD Auraria

ASSOCIATE OF GENERAL STUDIES DEGREE

Business Administration (AA-BUS)

This is an educational transfer agreement in Business Administration between Colorado public community colleges and Colorado public postsecondary education institutions. In accordance with Colorado Revised Statute Title 23, Article 1, Section 103.5, the state's schools

of business agree to the following policies and conditions governing the transfer of credit earned at a Colorado community college into a business program offered at a participating Colorado public four-year college and university.

Specifically, community college students who complete the Colorado community college core curriculum, as certified on their community college transcript, are considered to have satisfied Colorado four-year colleges' lower-division general education requirements. All of these general education and business courses represent the CCD/Colorado Commission on Higher Education transfer agreement in Business Administration.

Students completing the listed courses will be admitted as juniors at one of the following Colorado public four-year colleges and universities that participate in this agreement: Adams State College, Colorado State University, Fort Lewis College, Mesa State College, Metropolitan State College of Denver, University of Colorado at Denver and Western State College.

Program Admission Requirements

1. Meet minimum assessment scores or prerequisites required for general education courses in the program.
2. 2. Completion of ACC 121 with a grade of C or better.

General Education AA Core (AS General Education Core is acceptable)

- I. English6
ENG 121, 122
 - II. Speech3
SPE 115 OR SPE 125
 - III. Mathematics3-5
(Select any 1 of the following)
MAT 121, or 123 and 125
 - IV. Physical & Biological Sciences8-10
(Select any 2 of the following)
AST 101, 102

BUS 226	Business Statistics	3
BUS 216	Legal Environment of Business.....	3
BUS 217	Business Communications and Report Writing.....	3

* The following courses are required before enrolling in BUS 228 and BUS 236: ACC 121, 122, ECO 202, MAT 175 (or BUS 226), BUS 115 and sophomore standing. 20

Capstone course (required)

HUM 285	Seminar in Critical Thinking (Capstone)	3
	or	
SCI 285	Critical Thinking (Capstone).....	(3)

Associate of General Studies Degree in Early Childhood Education

CCD Auraria

EARLY CHILDHOOD EDUCATION (AGS-ECE)

The following courses represent the CCD/MSCD Early Childhood Education (ECE) Teacher Education 2-plus-3 transfer agreement. Students completing degree requirements will be admitted to Metropolitan State College of Denver as juniors in the ECE Teacher Education program. A grade of C or better is required in all degree classes. Students completing the degree requirements will have met the requirements for an Early Childhood Education Group Leader certificate and an Early Childhood Education Director certificate.

Graduate exit competency is measured by successful development (80 percent) of ECE capstone portfolio. Any student not completing CCD's capstone course must successfully develop a portfolio prior to approval for graduation.

Students must apply to the Teacher Education program with an Early Childhood Education major for course work and take all mandatory prerequisites.

Program Admission Requirements

Meet minimum assessment scores or prerequisites required for general education courses in the program.

General Education Core

Major Requirements

ECE 101	Introduction to Early Childhood Education	3
ECE 102	Introduction to Early Childhood Lab Techniques.....	3
ECE 103	Guidance Strategies for Children	3
ECE 205	Nutrition, Health and Safety	3
ECE 220	Curriculum Development: Methods and Techniques	3
ECE 236	Child Growth and Development Lab	1
ECE 240	Administration of Early Childhood Care and Education Programs.....	3
ECE 241	Administration: Human Relations for Early Childhood Professions	3
ECE 256	Working with Parents, Families and Community Systems	3

PSY 238	Child Development	3
	ECE Subtotal.....	36

Associate of General Studies Degree in General Studies

CCD Auraria

ASSOCIATE OF GENERAL STUDIES-GENERALIST DEGREE (AGS-G)

All CCD certificate and degree-seeking students are classified as AGS-G students until they apply and are accepted into another certificate or degree program. Students remain in the AGS-G program if they want to complete a broad program of both career and transfer courses without the constraints of specialization. The AGS-G general education core curriculum transfers to and fully meets the lower-division general education requirements of all public baccalaureate colleges and universities in Colorado. Transferability of AGS-G career courses depends on the courses taken and the receiving institution. All students who have completed 12 college-level credits should see a faculty advisor in their area of interest. Students may take either the AA core curriculum or the AS core curriculum. The AA core follows.

General Education AA Core

I.	English	6
	ENG 121, 122	
II.	Speech	3
	SPE 115 or SPE 125	
III.	Mathematics	3-5
	(Select any 1 of the following)	
	MAT 120, 125, 135, 201, 202	
IV.	Physical & Biological Sciences	4-5
	(Select any 1 of the following)	
	AST 101, 102	
	BIO 105, 111, 112	

CHE 101, 102, 111, 112
 GEY 111, 121
 PHY 105, 111, 121, 211, 212

V. Social & Behavioral Sciences9
 (Select 9 credit hours from a minimum of 2 disciplines)
 ANT 101, 111
 ECO 201, 202
 GEO 105
 HIS 101, 102, 201, 202
 POS 105, 111
 PSY 101, 102
 SOC 101, 102

VI. Humanities9
 (Select 9 credit hours from a minimum of 2 disciplines; many four-year schools prefer a concentration of 2 classes in same prefix)
 ART 110, 111, 112
 HUM 121, 122, 123
 Any foreign language 111 or higher
 LIT 115, 201, 202
 MUS 120, 121, 122
 PHI 111, 112, 113
 THE 105, 211, 212

*** Elective Sub-Total 20-23**
 (Must include a minimum of 6 hours in 200-level courses.)
 Capstone Course3
 HUM 289 Seminar in Critical Thinking
 or
 PSY 289 Leadership Development

Please note: Any course whose number begins with "0" in any prefix will not meet requirements for the AGS-G degree. English and mathematics courses numbered before the core general education courses will not meet requirements for the AGS-G. All general education and capstone courses must be completed with a C grade or better for all AGS degrees.

Degree Requirements

ENG 121	English Composition I.....	3
ENG 122	English Composition II.....	3
SPE 115	Public Speaking.....	(3)
	or	
SPE 125	Interpersonal Communication	(3)

ASSOCIATE OF SCIENCE DEGREE EMPHASES

University Parallel, Transfer Program

The AS degree provides a learning foundation in mathematics and the sciences. Although some students work toward the AS degree for personal enrichment, many plan to transfer to four-year colleges and universities to continue work toward a baccalaureate degree and professional training in such fields as engineering, medicine, mathematics, biology, chemistry and physics. A student can complete this program in four semesters, going full-time and carrying the required number of hours. A student may choose, due to personal circumstances, to extend the amount of time for completion.

The AS degree is sometimes referred to as a “university parallel” or “transfer” degree. The general education core requirements, when completed at CCD, meet the lower-division general education requirements of all public Colorado baccalaureate colleges and universities in the state of Colorado. Students graduating with the AS degree may transfer into liberal arts or sciences programs in all public baccalaureate colleges and universities with junior standing. Courses to be counted toward the general education core curriculum must be completed with a grade of C or higher. Students planning to transfer should familiarize themselves with the full requirements of the school they plan to attend. These are available in the Transfer Center in South Classroom Building 134.

Student Performance Objectives for Transfer Education (AS Degree)

Students will plan and write well-structured compositions demonstrating the writing capabilities to express, inform, analyze, evaluate, persuade, argue, conduct research, and use primary and secondary sources logically and stylistically.

Students will compose and deliver oral presentations, providing ideas and information and using delivery skills suitable to the topic, purpose and audience. Students will demonstrate an understanding of others’ speeches and be able to evaluate others’ speeches.

Students will read and think critically about a variety of interdisciplinary topics, demonstrating college-level reading skills in a variety of disciplines, including humanities, social sciences and the natural sciences. Students will demonstrate orally and in writing the critical-thinking skills of analysis, synthesis and evaluation.

Students will analyze and use numerical data and qualitative reasoning skills, including applying proper formulas to mathematical data and calculating results, illustrating quantitative data graphically, rearranging general formulas to solve for any missing information, and interpreting graphic data and assessing the importance of the portrayed trends.

AS Degree Program Entry

Students must apply for entry into the AS degree program. Students are encouraged to apply to a program by the time they have completed 12 credits of college-level transfer courses. At the time of application, students are encouraged to identify an area of emphasis. Program application forms are in South Classroom Building, rooms 134 and 306. Students should obtain an Advising Transcript from Admissions, Registration and Records and attach it to the program application. To complete the program application, the student will need to meet with a designated advisor for his or her probable emphasis area

Program Admission Requirements

1. Meet minimum assessment scores or prerequisites required for general education courses in the program.
2. Meet with a faculty program advisor and obtain an authorized signature.

AS Degree Program Requirements

Within the AS degree, the college offers 14 areas of emphasis: Biology, Biomedical Research Assistant, Chemistry, Computer Science, Earth Science, Pre-engineering, Mathematics, Pre-Dental, Pre-Medical, Pre-Pharmacy, Pre-Physical Therapy, Pre-Physician Assistant, Pre-Veterinary Science, and Physics. An associate degree can be earned without completing an emphasis area. Students must complete a total of 60 credit hours for the associate degree. Of the 60 hours, 24 credit hours may come from courses within an emphasis area. The same course cannot count toward both a general education and an area of emphasis requirement. Requirements in four-year or professional programs sometimes change yearly. Students should meet regularly with their faculty advisor to ensure satisfactory progress is being made toward completion of the AS degree and transferability of credit to a four-year institution or professional program.

General Education Sub-Total 39

Area of Emphasis (Required) SEE BELOW

The required area of emphasis must include a minimum of 6 credit hours in 200-level courses, such as HIS 201, 202, LIT 201, 202, THE 211, 212 and others. See program coordinators/faculty advisers to determine whether or not courses in these areas transfer.

Area of Emphasis Sub-Total 21

Approved Electives for the AS Degree

- AAA - 109 (CCD and MSCD only)
 - ANT - all courses
 - ART - all courses
 - ASL - all courses
 - AST - all courses
 - BIO - 105 and higher
 - CHE - 101 and higher
 - CIS - 118
 - CSC - 160, 161
 - ECO - 201 and higher
 - ENG - 121 and higher
 - Any foreign language 111 or higher
 - GEO - all courses
 - GEY - all courses
 - HIS - all courses
 - HPL - all courses (limit to 4 credits)
 - HUM - all courses
 - JOU - all courses
 - LIT - all courses
 - MAT - 121 and higher
 - MUS - all courses
 - PHI - all courses
 - PHY - 111 and higher
 - POS - all courses
 - PSY - all courses
 - REA - 151, 223 (approved by CCD and MSCD only)
 - SOC - all courses
 - SPE - all courses
 - THE - all courses
- Total 60**

Courses in any prefix with numbers beginning in "0" will not meet requirements for the AS degree. English and mathematics courses must be numbered 121 or above.

Credit Hours

Credits are the hours of credit awarded to the course. An associate degree requires a minimum of 60 credits. Credit hours in parenthesis, e.g., (3), are options from which students may choose. They are not included in the total credit hours listed below. An average full-time student course load is 15 credit hours. An AS degree takes four semesters of 15 credits each semester, assuming that all courses taken count toward the degree.

AS Degree Areas of Emphasis

Students should complete the courses listed under the emphasis area if they plan to transfer to a four-year degree program in one of these emphasis areas, or plan to enter a professional school in an area listed. An associate degree can be earned without completing an emphasis area, and associate degree requirements may be fulfilled before all the courses listed under an area of emphasis have been completed. Students must complete a total of 60 credit hours for the associate degree. Of these, 21 additional credits must be selected in an area of study/emphasis. The additional elective courses must be from courses listed as having science or math prefixes and not used to fulfill the core requirements, 6 credit hours must be at the 200 level number. Requirements in four-year or professional programs sometimes change yearly. We recommend that students meet frequently with the appropriate adviser in the Center for Arts and Sciences, South Classroom Building 306, while completing degree requirements.

BIOLOGY EMPHASIS

CAREER PATHWAYS

All Essential Skills certificate programs require department approval prior to selection.

Certificate in Essential Skills

CCD Auraria, CCD Southwest

BUSINESS SERVICES

The Essential Skills certificate in Business Services prepares students for entry-level administrative support and accounting positions. The Business Services curriculum emphasizes customer service, business math and basic PC applications.

The certificate is completed in one semester and includes an internship.

At CCD Southwest, the program is self-paced and provides additional support for people with disabilities, and includes internships. The ROOTS program requires work-place competencies that address the soft skills necessary for the job market such as punctuality, initiative, and attendance.

The ROOTS Essential Skills Business Services Certificate internship requirements are:

1. Overall GPA of 2.0
2. All certificate requirements completed successfully
3. Attendance requirement standards of 85% met.
4. Passed other workplace competencies with a minimum of 80%
5. Participated in (8) workshops and/or job shadows.

Certificate Requirements

AAA 109	Advanced Academic Achievement..... 3
BTE 102	Keyboarding Applications I..... 2
BTE 108	Ten-Key by Touch 1

GRAPHIC DESIGN

Associate of Applied Science Degree in Graphic Design

CCD Auraria

GRAPHIC DESIGN

This program provides the skills necessary for entry into the field of graphic design. The graphic design profession involves graphic and advertising design, illustration and pre-press. The Graphic Design program allows students to develop basic skills common to all three specialties, while developing an emphasis in one.

Successful students may enjoy careers in book/publication design, Web page design, package design, ad/promotional design, and where creative typography and image are needed to move ideas and information.

Students are expected to buy their own tools and materials. The beginning program courses require an original investment of between \$100 and \$300, and students are expected to add needed tools and materials as the program progresses.

Program Admission Requirements

1. Meet minimum assessment scores or prerequisites required for general education courses in the program.
2. Meet with a faculty program advisor and obtain an authorized signature.

HEALTH

DENTAL HYGIENE

Associate of Applied Science Degree in Dental Hygiene

CCD Lowry

DENTAL HYGIENE

This program prepares the student to practice as a professional dental hygienist following successful completion of two semesters of pre-professional prerequisites and 87 Credit Hours of professional study. Completion of the prerequisites and the full, Dental Hygiene program curriculum with a grade of C or better results in an AAS degree. After receiving the AAS degree and a grade of B or better in the capstone course, students are eligible to take the licensure exam to become registered dental hygienists.

Dental hygienists are licensed preventive oral health professionals who provide educational, clinical and therapeutic services in dentistry. Dental hygienists perform procedures such as oral prophylaxis, application of preventive agents, and exposure of dental radiographs, patient education and nutritional counseling. Career opportunities for hygienists are available in a variety of settings, including private dental

practices, community dental health clinics, public schools, clinical and basic science research laboratories, state and federal health facilities and management positions. Licensure by national and state examination is required.

Application materials must be submitted no later than January 1 to be considered for admission into the class beginning fall of the next academic year. Eligible applicants are selected according to overall GPA, GPA for prerequisite science courses, essay scores, a commitment to a health care career and interpersonal skills. Because of the competitive admissions process, all prerequisite courses must be taken for a letter grade. Applicants not accepted are considered for the following year; however, reapplication is necessary. Graduate exit competency is measured by successful completion of the capstone course, DEH 71, Clinic Practice of Dental Hygiene III.

Program Admission Requirements

1. Meet minimum assessment scores or prerequisites required for general education courses in the program.
2. Submit the CCD application to Admissions, Registration and Records, South Classroom Building 133, on the Auraria Campus.
3. Submit a completed Dental Hygiene application form and packet. Dental Hygiene application packets are online at <http://www.ccd.edu/dental/dhadmissions>.
4. Complete the general education prerequisites with a grade of C or better, or a cumulative GPA of 2.5 or better. Science courses must show cumulative GPA of 2.8 or better prior to the beginning of the fall semester of the intended year of entry. Courses in progress will be considered. Proof of successful completion of these courses must be submitted to both the CCD registrar and the CCD Dental Hygiene program at the end of each semester in which they are taken. An official, final transcript must be forwarded to Admissions, Registration and Records and the CCD Dental Hygiene program as soon as it becomes available.
5. All prerequisite courses must be taken for a letter grade.
6. Complete the written essay portion of the application process.
7. A personal interview with the Dental Hygiene Admissions Committee is required. The admissions coordinator will schedule an interview after successful preliminary applicant screening.
8. Following acceptance into the program, the student must present documentation of health insurance, CPR certification, and dental, medical and vision examination that includes up-to-date immunization records. More information on this subject will be given to the applicant following acceptance into the program.
9. Background check and fingerprint checks are necessary for all students who are accepted into the program. For information on disqualifying offenses, visit <http://www.ccd.edu/dental>.

General Education Requirements

1. Must be completed with a grade of C or better.
 2. Science courses must show cumulative GPA of 3.0 or better prior to enrollment date.

Associate of Applied Science Degree in Electroneurodiagnostic Technology

CCD Southwest

ELECTRONEURODIAGNOSTIC TECHNOLOGY

(Offered every other year starting fall 2006.) This program prepares the student for an entry-level position as an Electroneurodiagnostic (END) technologist in a variety of clinical settings, including the hospital. The program consists of five semesters of course work that include classroom, laboratory and clinical internship experience. Graduates earn an AAS degree and are eligible to apply for registration by the American Board of Registration of Electroencephalographic and Evoked Potential Technologists Inc. (ABRET).

Applicants are accepted first-come, first-served and are placed on the acceptance list according to the date their application packet is received. Once the class is filled for the current year, students are placed on a waiting list.

Program Admission Requirements

1. Submit the CCD application to Admissions, Registration and Records, South Classroom Building 133 on the Auraria Campus.
2. Meet minimum assessment scores or prerequisites required for general education courses in the program.
3. Attend the mandatory Electroneurodiagnostic program orientation.
4. Submit a completed Electroneurodiagnostic application form and packet. The completed application packet includes the Electroneurodiagnostic program application form, immunization forms, a copy of the high school diploma or GED and an official transcript from any other college attended.
5. Complete the following general education requirements with a grade of C or better.
6. Complete a job shadow. Contact 720-858-2900 for information.

Certificate in Emergency Medical Services

CCD Lowry

EMERGENCY MEDICAL TECHNICIAN (EMT)-BASIC

The Emergency Medical Technician (EMT)-Basic certificate option in the Emergency Medical Services (EMS) program provides students with the knowledge and skills necessary to obtain employment in ambulance, rescue, or other pre-hospital emergency service settings. Program graduates provide direct patient care, scene management, and patient transportation under the direction of EMS service physician advisors. Courses within the EMT-Basic certificate program must be taken in specific succession for students to be eligible to sit for Colorado and National Registry certification exams.

Elective courses in the EMS program are either: 1) admission-selective courses which require that a student must be EMT-Basic certified and admitted into the EMS program to enroll in EMS courses or 2) open enrollment courses which allow students with an interest in the subject to enroll in EMS courses. Admission-selective courses provide students with EMT-Basic certification with knowledge and skills needed for additional certifications or increased job marketability. Open enrollment courses are particularly suited for students with an allied health background.

Program Application and Admission and Requirements

1. To be eligible to enroll in the EMT program, students must be 18 years of age, have a high school diploma or GED, and current vaccinations and immunizations.
2. Meet minimum assessment scores or prerequisites required for general education courses in the program.
3. Take the CCD Basic Skills Assessment Test (BSAT) in the Testing Center in South Classroom Building 223, 303-556-3810.
4. Attend an EMT program advising session held the first Wednesday of every month at 5 p.m. at the Rita Bass Trauma and EMS Education Institute, 190 W. 6th Avenue, Classroom F, Denver, Colorado, 80204 (call 303-436-8843 for directions). To attend an advising session, students must have been accepted to CCD and have a copy of their BSAT scores in their possession.

Major Requirements

NURSING

Associate of Applied Science Degree in Nursing

CCD Lowry

NURSING

This program is currently being revised at the state level.

Refer to www.cccs.edu/nursing/index.html

This degree program prepares the graduate to practice as a registered nurse. Applicants must complete general education courses with a GPA of 2.5 or better prior to admission. A new class of 60 students is accepted for each fall and spring semester. After the successful completion of NUR 107 and NUR 170 during the first semester, students are eligible for state certification as a nurse aide. Upon successful completion of first year NUR courses students are eligible to apply for graduation with a Certificate in Practical Nursing (application must be made at the end of the first semester) and are eligible to take the NCLEX-PN exam for practical nursing. Students must successfully complete BIO 204 (Microbiology) before continuing into the second level of the program.

Applicants are accepted first come, first served, according to the date their completed application packets are received by CCCS. More specific program information may be obtained from the Center for Health Sciences, 303-365-8300. Program Application and Admission Requirements CCD adheres to the Common Admission Criteria agreed upon by all Colorado Community Colleges.

1. Meet minimum assessment scores for the Nursing program or show proof of a previous degree including college English and Math.
2. Applicants will now go through the Community Colleges of Colorado System. CCD adheres to the common admission criteria agreed upon by all Colorado Community Colleges. CCD's Nursing program participates in the Colorado Nursing Articulation model through which practical nursing credits are accepted by other Colorado Nursing programs for applicants seeking an associates degree in nursing. For more information and to register on the waitlist go to <http://www.cccs.edu/Nursing>.
3. Submit proof of general education courses when completed with a grade of C or better General Education Requirements (common to all ADN Nursing Programs)

Associate of Applied Science Degree in Nursing

CCD Lowry, CCD Online

ADVANCED PLACEMENT FOR LPNS SEEKING THE RN DEGREE

This program is currently being revised at the state level.

Refer to www.cccs.edu/nursing/index.html

Licensed practical nurses who are graduates of approved schools of practical nursing may enter the second year of the Nursing program to become registered nurses. A new class of students is accepted for admission each fall and spring semester. CCD adheres to the common admission criteria agreed upon by all Colorado Community Colleges. The Nursing program participates in the Colorado Nursing Articulation model through which the college grants 27 practical nursing credits when the student completes articulation requirements. Educational validation through testing is required if the applicant graduated more than 10 years prior to entry into the program. Applicants must complete all general education courses and the bridge course, NUR 175, before admission into the program.

To be eligible for admission, students must have:

LPN License within last 3 years

OR

LPN License within last 10 years AND 1,000 hours paid work experience as an LPN within last 3 years

OR

CCNE approved LPN refresher course

Applicants are accepted first come, first served, according to the date their completed application packet is received by CCCS.

The Advanced Placement Nursing Program may also be completed online. For more information, call 303-365-8300.

Program Waitlist and Admission Requirements

1. Meet minimum assessment scores for the Nursing program OR show proof of a previous degree including college English and Math.
2. Applicants will now go through the Community Colleges of Colorado System. CCD adheres to the common admission criteria agreed upon by all Colorado Community Colleges. CCD's Nursing program participates in the Colorado Nursing Articulation model through which practical nursing credits are accepted by other Colorado Nursing programs for applicants seeking an associates degree in nursing. For more information and to register on the waitlist go to <http://www.cccs.edu/Nursing>.
3. Submit proof of successful completion of general education courses as early as possible. Proof of completion of all general education courses must be submitted to the Nursing Program office before enrolling in NUR courses.
4. Submit copy of a valid Colorado license for practical nursing and any required employment verification and/or evidence of a refresher course to the Nursing Program office.
5. Submit transcripts from PN program to CCD's Enrollment Services Office on the Auraria Campus. Prerequisites and General Education Requirements (common to all ADN Nursing programs)

Associate of Applied Science Degree in Nursing

CCD Lowry, CCD Online

ADVANCED PLACEMENT FOR LPNS SEEKING THE RN DEGREE

— ONLINE

This program is currently being revised at the state level.

Refer to www.cccs.edu/nursing/index.html

Licensed practical nurses who are graduates of approved schools of practical nursing may enter the Online Advanced Placement Nursing Program to become registered nurses. A new class of students is accepted for admission each fall and spring semester. CCD adheres to the common admission criteria agreed upon by all Colorado Community Colleges. The Nursing program participates in the Colorado Nursing Articulation model through which the college grants 27 practical nursing credits when the student completes articulation requirements. Educational validation through testing is required if the applicant graduated more than 10 years prior to entry into the program. Applicants must complete all general education courses and the bridge course, NUR 175, before admission into the program.

To be eligible for admission, students must have:

LPN License within last 3 years

OR

LPN License within last 10 years AND 1,000 hours paid work experience as an LPN within last 3 years

OR

CCNE approved LPN refresher course

Applicants are accepted first come, first served, according to the date their completed application packet is received by CCCS.

The Online Nursing Program is designed so that students attend all Nursing classes online, and attend Clinical coursework two days per week in a clinical setting, with an instructor present. Online students must come to campus for an IV Therapy lab, and a Physical Assessment demonstration in the first semester. All Online courses have a required Comprehensive Final examination, which must be completed at a proctored site.

The Advanced Placement Nursing Program may also be completed in a traditional format. For more information call 303-365-8300.

Program Waitlist and Admission Requirements

1. Meet minimum assessment scores for the nursing program OR show proof of a previous degree including college English and Math.

NUA 170	Nurse Aide Clinical Experience	1
Total		5

** CPR Certification & immunizations are required before taking NUA 170. *Please Note:* The Colorado Board of Nursing, which is responsible for overseeing Nurse Aides in Colorado, has varied restrictions that may affect persons with a history of a felony conviction. Community College of Denver assumes no responsibility for the denial of licensure by the State Board of Nursing. Prospective students are responsible for contacting the Board of Nursing at 303-894-2432 with any questions regarding their eligibility for licensure.

Also Note: Clinical agencies used during the program require that students successfully complete a background check and a urine drug screen. Details on these requirements will be given to the student at orientation.

Reasonable accommodations will be made to help students meet program requirements/objectives.

Certificate in Nursing

CCD Southwest

PSYCHIATRIC TECHNICIAN

This program prepares graduates with knowledge and skills for employment in psychiatric settings. Upon satisfactory completion of program requirements, the graduate is awarded a certificate and is eligible to write a standardized examination leading to state licensure. The Colorado State Board of Nursing approves the program. Program Admission Requirements: Meet minimum assessment scores or complete any developmental courses as indicated by the results of the Basic Skills Assessment.

RADIOLOGIC TECHNOLOGY
Certificate in Radiologic Technology

CCD Lowry

LIMITED SCOPE RADIOLOGIC TECHNOLOGY

This program prepares the student as a limited scope radiographer who practices in the physician's office or small clinic. Limited scope radiographers are not prepared to practice in the hospital. The program consists of three semesters of course work that includes classroom, laboratory and clinical internship experience. Graduates earn a certificate and are eligible to take the state of Colorado Limited Scope Radiography exam.

The program begins fall semester of each year. Information and requirements can be obtained from the Auraria Educational Planning and Advising Center, or the Radiologic Technology program chair at the Health Sciences Center at CCD Lowry, 303-365-8300. Students in the RTE program are enrolled in clinical internships 2-3 days a week for 8.5 hours a day. Students in the RTE program are enrolled in clinical internships 2-3 days a week for 8.5 hours a day. RTE students are expected to perform the same duties as a Radiologic Technologist during their clinical internships. The typical physical demands a student will encounter are:

Job skills require full range of body motion including handling and lifting patients, physical dexterity and eye-hand coordination.

Frequent mobility required for extended periods of time

Frequently lifts and carries items weighing up to 25 pounds and occasionally, lifts and places 50 or more pounds with assistance normally available.

Requires visual acuity

Program Admission Requirements

There are two steps for admission into the Radiologic Technology program.

1. Take the CCD Basic Skills Assessment Test (Accuplacer).
 Only FIRST-TIME, DEGREE-SEEKING students must take the test. The Accuplacer is given at the Health Sciences Center at CCD Lowry. Please call 303-365-8300 for the testing schedule and to make an appointment for testing. The test may also be taken at the Auraria Campus Testing Center in South Classroom Building 223, 303-556-3810.

Exemptions: Certificate- and degree-seeking students who are applying for health care education programs and who already have an associate or higher degree from an accredited college or university are not required to take the Basic Skills Assessment Test.

Prospective health students who have taken and successfully passed English and math courses from another accredited institution of higher education also may be exempt from one or all of the tests.

Transcripts showing proof of degree or prior college course work from an accredited college or university must be submitted to the Testing Center (South Classroom Building 223, phone: 303-556-3810, fax: 303-556-8027) to receive an exemption from taking the Accuplacer.

2. Complete the following general education and related course requirements with a grade of C or better prior to starting the program. All Health Science students will need a criminal

background check before being accepted to any health program. The Radiology Technology Program requires this background check to be completed the Semester before enrollment. Any conviction, plea of guilty or no contest, or deferred adjudication of the following criminal offenses (Felony or Misdemeanor) appearing on a criminal background check will disqualify an applicant for admission to a CCCS Health or Nursing Program. There is no appealing this background check. It is mandatory. If you are concerned about your criminal background record, we advise you to perform a background check before applying. (Students who have successfully completed the terms of their deferred adjudication agreement will not be disqualified.)

Associate of Applied Science Degree in Radiologic Technology

CCD Lowry

RADIOLOGY TECHNOLOGY

The Radiologic Technology program prepares the student for an entry-level position as a radiographer in a variety of medical settings, including the hospital. The program consists of five semesters of course work that includes classroom, laboratory and clinical internship experience. Graduates earn an AAS degree and are eligible to apply for registration by the American Registry of Radiology Technologists (ARRT).

The program begins fall semester of each year. Information and requirements can be obtained from the Auraria Educational Planning and Advising Center or the Radiology Technology program coordinator at CCD Lowry, 303-365-8300. Students who are interested in articulating their career with a Bachelor of Science degree should contact the degree-awarding institution for information about transferable prerequisite course work.

Program Admission Requirements

There are four steps for admission into the Radiology Technology program.

1. Apply to the Community College of Denver.
2. Take the CCD Basic Skills Assessment Test (Accuplacer). Minimum scores are: Elementary Algebra (EA) - 60 Reading Comprehension (RC) - 60 Sentence Skills (SS) - 95 Only FIRST-TIME, DEGREE SEEKING students must take the test. The Accuplacer is given at the Health Sciences Center at CCD Lowry. Please call 303-365-8300 for the testing schedule and to make an appointment for testing. The test may also be taken at the Auraria Campus Testing Center in South Classroom Building 223, 303-556-3810 [Exemptions: Certificate- and degree-seeking students who are applying for health care education programs and who already have an associate or higher degree from an accredited college or university are not required to take the Basic Skills Assessment Test. Prospective health students who have taken and successfully passed English and Math courses from another accredited institution of higher education also may be exempt from one or all of the tests. Transcripts showing proof of degree of prior college work from an accredited college or university must be submitted to the Testing Center (South Classroom Building 223, phone: 303-556-3810, fax: 303-556-8027) to receive an exemption from taking the Accuplacer.]
3. To receive an application to the Radiology Technology Program, students must attend program information and advising meeting held the third Tuesday (of every month when the college is in session. Advising sessions will not be given during the months of December, March and May.) Sessions are held at 5 p.m. at the Health Sciences Center at Lowry. Bring a copy of the BSAT results or waiver, and any student transcripts of course work at CCD or other colleges attended.

4. Applications are due by December 30th of the following year.
5. Complete the following general education and related course requirements with a grade C or better prior to starting the program. (Applicants are considered for admission by the following criteria: the date of application and the date all program prerequisite course work is completed. It is important to complete steps 1 and 2 as soon as possible to receive an early date on the program application and to begin a Radiologic Technology student file.)

VETERINARY TECHNOLOGY

Associate of Applied Science Degree in Veterinary Technology

CCD Lowry

VETERINARY TECHNOLOGY

This program prepares the graduate to practice as a veterinary technician. The program is designed for completion in five semesters. Completion of the curriculum with a grade of C or better results in an Associate of Applied Science degree. At program completion students are eligible for the Veterinary Technician National Exam

Veterinary technicians are paraprofessional members of a veterinary team, assisting a doctor of veterinary medicine. Veterinary technicians perform a variety of tasks, including preparing examination rooms and surgery suites, holding and restraining animals during the exam and/or treatment, collecting specimens, performing routine laboratory procedures, taking diagnostic X-rays, administering medication or treatments, assisting in surgery, performing office skills, maintaining inventory of supplies and assisting with client education.

Career opportunities for Veterinary technicians are available in a variety of settings, including private veterinary practices, research laboratories, kennels, zoos, and local, state and federal agencies. These experiences can lead to other job opportunities such as sales, hospital administration, teaching in a Veterinary Technology program and animal advocacy.

The Veterinary Technology program at CCD is partnered with the Animal Assistance Foundation. Clinical experience will be obtained at various metro-Denver-area veterinary clinics and shelters.

Application materials must be submitted by April 1 for the fall semester and November 1 for the spring semester to be considered for admission. Eligible applicants are selected first come, first served, based on the dates applications are received by the program coordinator at the CCD Health Sciences Center at Lowry, 1070 Alton Way, Building 849.

Program Admission Requirements

1. Completion of BIO 111 or equivalent, and ENG 121 or equivalent with a grade of C or better.
2. Take the CCD Basic Skills Assessment Test (Accuplacer).

Only FIRST-TIME, DEGREE-SEEKING students must take the test. The Accuplacer is given at the Health Sciences Center at CCD Lowry. Please call 303-365-8300 for the testing schedule

and to make an appointment for testing. The test may also be taken at the Auraria Campus Testing Center in South Classroom Building 223, 303-556-3810.

Exemptions: Certificate- and degree-seeking students who are applying for health care education programs and who already have an associate or higher degree from an accredited college or university are not required to take the Basic Skills Assessment Test. Prospective health students who have taken and successfully passed English and math courses from another accredited institution of higher education also may be exempt from one or all of the tests. Transcripts showing proof of degree or prior college course work from an accredited college or university must be submitted to the Testing Center (South Classroom Building 223, phone: 303-556-3810, fax: 303-556-8027) to receive an exemption from taking the Accuplacer.

3. Must attend advisory meeting the 2nd Tuesday of every month (except for Spring Break) at 4 p.m. at the Lowry CCD Campus. Bring copies of your transcripts and assessment test scores.
4. Completion of Veterinary Technology Program Application.
5. All materials must be submitted by April 1 or November 1. All eligible applicants will be evaluated on date application is received and on completion of prerequisite. Documentation of classes in progress must be included. All qualified applicants will be asked to attend an orientation/interview with the program advisory committee.
6. Application materials must be sent to the Veterinary Technology program director at the CCD Health Sciences Center at Lowry, 1070 Alton Way, Building 849, and Denver, Colorado, 80230, 303-365-8300.

HUMAN SERVICES

Associate of Applied Science Degree in Human Services

There is also an Associate of General Studies Degree in Human Services. You will find it on page 45.

CCD Auraria

HUMAN SERVICES

This program prepares students for entry-level employment in communities and institutions that serve clients with a variety of human needs. Students may choose to focus on specific skill areas, such as social service agencies, health care centers, youth services, substance abuse programs, geriatric centers, child abuse programs, community corrections facilities, crisis centers and domestic violence programs.

With the exception of MAT 103, the AAS in Human Services degree at CCD may be transferred to the Human Services Department at MSCD. Students who wish to meet the MSCD Human Services Department's mathematics requirement while at CCD are advised to take MAT 135. AAS students in Human Services must earn a grade of C or better in all general education and major course requirements.

Program Admission Requirements

1. Meet minimum assessment scores or prerequisites required for general education courses in the program.
2. Signature authorization on program application from Human Services faculty adviser.

General Education Requirements

Associate of Applied Science Degree in Information Technology

CCD Auraria

COMPUTER TECHNOLOGY

This program prepares students to obtain an entry-level position in the Information Technology industry. This degree offers students a broad educational background in computer information systems. Students can choose to specialize in a specific IT category by using the six elective credits to focus on a particular area. Students completing this degree will qualify for the COMPTIA A+ certification exam, and gain experience in networking, computer security and database management. Students will enhance their communication skills, and obtain an exposure to the business environment.

Program Admission Requirements

1. Meet minimum assessment scores or prerequisites required for general education courses in the program.
2. Completion of 6 credit hours of college-level work.

General Education Requirements

CIS 118	Introduction to PC Applications	3
ENG 121	English Composition I	(3)
	or

TRADES AND INDUSTRY

Associate of Applied Science Degree in Trades and Industry

CCD North

TRADES

The Trades AAS degree program consists of a maximum of 58 credit hours of trade-specific credits. Students may earn these credits via apprenticeship training (classroom and on-the-job hours) or technical education course work and training, plus a maximum of 20 credit hours of core general education courses at CCD. For these registered apprentices who complete a three-year registered apprenticeship program, 20 CCD credit hours are required. For those completing a four-year or five-year apprenticeship program, 17 CCD general education credits are required. Students completing certificate course sequences and wishing to pursue the AAS degree must complete a minimum of 25 credit hours of general education credit and a minimum of 60 hours as noted below.

This program is offered jointly by CCD, Emily Griffith Opportunity School and the Joint Apprenticeship Training Committee. Students enrolled in the apprenticeship-training part of this program are not eligible for financial aid from CCD

Program Admissions Requirements

1. Meet minimum assessment scores or prerequisites required for general education courses in the program.
2. Official transcript showing completion of Emily Griffith Opportunity School's Apprenticeship program.

Apprenticeship Training

FABRICATION WELDER

This program prepares the student as an entry-level specialist to work with most operations in oxyacetylene welding, shielded metal arc welding, gas metal arc welding, and gas tungsten arc welding on metals that range from heavy plate and pipe to thin-gauge sheet metals. Various steels and aluminum metal are used. Upon successful completion of this program, graduates are prepared to enter positions such as arc welders, industrial welders, production welders, fabrication welders, and MIG or TIG welders.

Program Admission Requirements

1. Meet minimum assessment scores or prerequisites required for general education courses in the program.
2. Or, in place of the above requirements, have completed the Fabrication Welder certificate.

General Education Requirements

CIS 118	Introduction to PC Applications	3
ENG 121	English Composition I.....	3

Certificate in Trades and Industry

CCD North

FABRICATION WELDER

Fabrication Welder is a program designed for completion in three, 17-week semesters. It prepares students with the job-entry skills necessary to perform most operations in oxyacetylene welding, shielded metal arc welding, gas metal arc welding, and gas tungsten arc welding on materials that range from heavy plate to thin-gauge sheet metals and are composed of various steels and aluminum. Upon successful completion of this program, graduates are prepared to test for certification in SMAW, MIG/TIG. Graduates are prepared to enter positions as arc, plate, industrial, production, fabrication, TIG or MIG and construction welders.

The Fabrication certificate program credits and the previously listed General Studies Core credits complete the requirements of the AAS degree in Trades, Fabrication Welder.

Program Admission Requirements

Minimum TABE assessment score of 8th grade on reading and mathematics, or co-enrollment in REA 060 and/or MAT 060.

COURSE DESCRIPTIONS

AAA — ADVANCED ACADEMIC ACHIEVEMENT (READING PROGRAM)

AAA 090 Academic Achievement Strategies *3 credit hours*

Prerequisite: Score below 70 on CSSAT test or minimum CPT Reading score of 40

Develops personalized approaches to learn and succeed for easier transition into college. Topics include goal-setting, time management, textbook reading strategies, note-taking, test-taking, listening techniques, concentration and memory devices, and critical thinking for student success.

AAA 101 College 101: The Student Experience *1 credit hour*

Prerequisite: N/A

Corequisite: N/A

Introduces students to college culture and prepares them for the challenges they will face in higher education. Through a series of interactive seminars, students discover learning in a multicultural environment and use college and community resources to attain education and career goals.

AAA 109 Advanced Academic Achievement *3 credit hours*

Prerequisite: CPT 80, or Compass 72, or a C grade or better in Rea 090 or AAA 090, or permission of instructor.

Examines theories and practices associated with successful learning to enhance college success. Areas of study include education and career planning, effective communication, personal management, critical and creative thinking, development of community and awareness of diversity, leadership, and techniques for successful academic performance. Recommended for new and returning students.

AAA 175 Enhanced Learning *1 credit hour*

Registering for this course allows students access to the Reading, Math and ESL Labs and the Writing Center on the Auraria Campus, and the Basic Skills Labs at the branch campuses. Students may also use the Online Writing Lab and online math tutoring. Providing they meet other criteria for eligibility, they may also use Vocational Tutoring Services, GED and other lab, along with other tutoring services.

ACC — ACCOUNTING

ACC 101 Fundamentals of Accounting *3 credit hours*

Presents the basic elements and concepts of accounting, with emphasis on the procedures used for maintaining journals, ledgers, and other related records, and for the completion of end-of-period reports for small service and merchandising businesses.

ACC 115 Payroll Accounting *3 credit hours*

Studies federal and state employment laws and their effects on personnel and payroll records. The course is non-technical and is intended to give students a practical working knowledge of the current payroll laws and actual experience in applying regulations. Students are exposed to computerized payroll procedures.

ACC 116 Computerized Billing (Peachtree) *3 credit hours*

Introduces the concepts and operations of a computerized billing system. Topics include searches, queries, entering and posting account charges and payments, corrections and audits of journals, and preparation and printing of reports.

ACC 121 Accounting Principles I *4 credit hours*

Introduces the study of accounting principles for understanding of the theory and logic that underlie procedures and practices. Major topics include the accounting cycle for service and merchandising companies, special journals and subsidiary ledgers, internal control principles and practices, notes and interest, inventory systems and costing, plant assets and intangible asset accounting, and depreciation methods and practices. Introduces the study of accounting principles for understanding of the theory and logic that underlie procedures and practices. Major topics include the accounting cycle for service and merchandising companies, special journals and subsidiary ledgers, internal control principles and practices, notes and interest, inventory systems and costing, plant assets and intangible asset accounting, and depreciation methods and practices.

ACC 122 Accounting Principles II *4 credit hours*

Prerequisite: ACC 121

Continues the study of accounting principles as they apply to partnerships and corporations. Major topics include stocks and bonds, investments, cash flow statements, financial analysis, budgeting, and cost and managerial accounting.

ACC 125 Computerized Accounting *3 credit hours*

Prerequisite: ACC 121

Introduces the capabilities of computer applications in accounting. Includes solving accounting problems of a financial nature and hardware and software controls.

ACC 131 Income Tax *3 credit hours*

Corequisite: ACC 121

Studies the basic concepts of federal income taxation, including gross income, deductions, accounting periods and methods, and property transactions with emphasis on taxation of individuals and sole proprietorships.

ACC 135 Spreadsheet Applications for Accounting *3 credit hours*

Prerequisite: ACC 121, ACC 122, CIS 155

Introduces spreadsheets as an accounting tool. Using an accounting perspective, the student applies fundamental spreadsheet concepts. The spreadsheet is used as a problem solving and decision making tool.

ACC 211 Intermediate Accounting I *4 credit hours*

Prerequisite: ACC 122

Focuses on comprehensive analysis of generally accepted accounting principles (GAAP), accounting theory, concepts and financial reporting principles for public corporations. It is the first of a two-course sequence in financial accounting and is designed primarily for accounting and finance majors. Focuses on the preparation and analysis of business information relevant and useful to external users of financial reports. Explores the theories, principles and practices surveyed in Accounting Principles and critically examines "real-world" financial analysis and reporting issues.

ACC 212 Intermediate Accounting II*4 credit hours*

Prerequisite: ACC 211

Focuses on the theoretical and practical aspects of accounting for long-term liabilities, stockholders' equity, investments, pensions and leases. Includes income tax allocation, financial statement analysis, cash flow statements and accounting methods changes.

ACC 215 Accounting Information Systems and eBusiness*3 credit hours*

Prerequisite: ACC 122

Studies the principles, concepts and tools used in the analysis, design, implementation and integration of accounting systems, internal controls systems and accounting procedures. Key elements of system analysis, business systems design, accounting software selection, and the acquisition and implementation of systems are studied. Techniques and systems for electronic control systems, electronic data interchange, electronic funds transfer and Web commerce are explored.

ACC 226 Cost Accounting*3 credit hours*

Prerequisite: ACC 121, 122

Studies cost accumulation methods and reports. Focuses on the concepts and procedures of job order, process, standard, and direct cost systems, budgeting, planning, and control of costs.

ACC 231 Business Taxation*3 credit hours*

Prerequisite: ACC 121

Introduces student to taxation of business entities and transactions. Topics include taxation of property transactions, various tax issues that apply to different tax entities, tax administration and practice, and the taxation effects of formation, operation, and dissolution of corporations, partnerships, S corporations, trusts and estates.

ACC 245 Computerized Accounting with Professional Package (QuickBooks)*3 credit hours*

Prerequisite: ACC 101 and CIS 118 or permission of instructor

Integrates accounting principles and practices with a computerized accounting package such as Peachtree, QuickBooks, or other professional package. Emphasizes

computerized functions of the general ledger and integrated accounts payable, accounts receivable, invoicing and payroll systems.

ANT — ANTHROPOLOGY**ANT 101 Cultural Anthropology***3 credit hours*

Prerequisite: Grade of C or better in ENG 090 or minimum college-level English assessment score

Studies human cultural patterns and learned behavior. Includes linguistics, social and political organization, religion, culture and personality, culture change and applied anthropology. This course is one of the State-wide Guaranteed Transfer courses. GT-SS3

ANT 107 Introduction to Archaeology*3 credit hours*

Prerequisite: ENG 090 with C or better or minimum college-level English assessment score

Introduces the science of recovering the human prehistoric and historic past through excavation, analysis, and interpretation of material remains. Includes a survey of the archaeology of different areas of the Old and New Worlds. Also includes the works of selected archaeologists and discussions of major archaeological theories.

ANT 111 Physical Anthropology*3 credit hours*

Prerequisite: ANT 101 and grade of C or better in ENG 121

Studies human biology and its effects on behavior. Includes principles of genetics and evolution, vertebrates and primates, human origins, human variations and ecology. This course is one of the Statewide Guaranteed Transfer courses. GT-SS3

ANT 225 Anthropology of Religion*3 credit hours*

Prerequisite: Grade of C or better in ENG 090 or minimum college-level English assessment score

Explores the culturally universal phenomenon of religion. Cross-cultural varieties of beliefs in the supernatural and the religious rituals people employ to interpret and control their worlds are examined.

ANT 285 Independent Study*1 - 6 credit hours*

Prerequisite: Permission needed from instructor

Allows the student to independently study certain aspects of anthropology. It provides opportunity to investigate an area of interest that developed in the introductory courses.

ARA — ARABIC (FOREIGN LANGUAGE PROGRAM)**ARA 111 Arabic Language I***5 credit hours*

Begins a sequence dealing with the development of functional proficiency in listening, speaking, reading and writing the Arabic language.

ARA 112 First-Year Arabic II*5 credit hours*

Prerequisite: ARA 111

Continues Arabic Language I in the development of functional proficiency in listening, speaking, reading and writing the Arabic language. *Note:* The order of the topics and the methodology will vary according to individual texts and instructors.

ARM — ARMY ROTC**ARM 111 Adventures in Leadership I***2 credit hours*

Introduces the student to fundamentals of leadership and the United States Army. Includes Army leadership doctrine, team-building concepts, time and stress management, an introduction to cartography and land navigation, marksmanship, briefing techniques, and basic military tactics. Includes lecture and laboratory. Lab fee: \$87.50

ARM 112 Adventures in Leadership II*2 credit hours*

Investigates leadership in small organizations. Covers basic troop leading procedures, military first aid and casualty evacuation concepts, creating ethical work climates, an introduction to Army organizations and installations, and basic military tactics. Introduces students to effective military writing styles. Includes lecture and laboratory. Lab fee: \$87.50

ARM 211 Methods of Leadership and Management I*3 credit hours*

Reviews leadership and management concepts including motivation, attitudes, communication skills, problem solving, human needs and behavior, and leadership self-development. Students refine written and oral communications skills and explore the basic branches of the Army, and officer and NCO duties. Students conduct practical exercises in small unit light infantry tactics and perform as midlevel leaders in the cadet organization. Includes lecture and laboratory. Lab fee: \$87.50

ARM 212 Methods of Leadership and Management II*3 credit hours*

Focuses on leadership and management functions in military and corporate environments. Studies various components of Army leadership doctrine to include the four elements of leadership, leadership principles, risk management and planning theory, the know-do framework, and the Army leadership evaluation program. Continue to refine communication skills. Includes lecture and laboratory. Lab fee: \$87.50

ART**ART 110 Art Appreciation***3 credit hours*

Prerequisite: none

Introduces the cultural significance of the visual arts, including media, processes, techniques, traditions, and terminology. This course is one of the Statewide Guaranteed Transfer courses. GT-AH1

ART 111 Art History I*3 credit hours*

Provides the knowledge base to understand the visual arts, especially as related to Western culture. Surveys the visual arts from the Ancient through the Medieval periods. This course is one of the Statewide Guaranteed Transfer courses. GT-AH1

ART 112 Art History II*3 credit hours*

Provides the knowledge base to understand the visual arts, especially as related to Western culture. Surveys the visual arts from the Renaissance through the Modern

periods. This course is one of the Statewide Guaranteed Transfer courses. GT-AH1

ART 113 History of Photography*3 credit hours*

Surveys the history of photography from its beginnings to the present. Emphasizes individual photographers who have made significant contributions to the field. Includes technical, artistic, commercial and social development of photography as a form of visual communication.

ART 121 Drawing I*3 credit hours*

Investigates the various approaches and media that students need to develop drawing skills and visual perception.

ART 122 Drawing II*3 credit hours*

Prerequisite: ART 121

Explores expressive drawing techniques with an emphasis on formal composition, color media and content or thematic development.

ART 123 Watercolor I*3 credit hours*

Prerequisite: ART 121

Provides an introduction to the basic techniques and unique aspects of materials involved in the use of either transparent or opaque water media or both. Color theory is included.

ART 124 Watercolor II*3 credit hours*

Prerequisite: ART 123

Continues the study of watercolor techniques, emphasizing original compositions and experimentation with materials. Color theory is included.

ART 131 2-D Design*3 credit hours*

Examines the basic elements of design, visual perception, and artistic form and composition as they relate to two-dimensional media.

ART 132 3-D Design*3 credit hours*

Prerequisite: ART 131

Focuses on learning to apply the elements and principles of design to three-dimensional problems.

ART 138 Photography I*3 credit hours*

Prerequisite: None

Corequisite: None

Introduces black and white photography as a fine art medium and develops skills necessary for basic camera and lab operations.

ART 139 Photography II*3 credit hours*

Prerequisite: ART 138

This course is a further exploration in camera and lab operations with an emphasis on individual creativity. It includes the development of a comprehensive portfolio.

ART 143 Digital Photography I*3 credit hours*

Prerequisite: MGD 101 or instructor consent

Introduces the basic concepts of digital imaging as applied to photography. Using applicable technology and hands on experience, modern developments are presented leading to the present applications of digital imaging that combine traditional photographic ideas with electronic media. Enables the student to learn how to operate image manipulation software using a variety of scanning equipment, software tools and output devices by executing new assignments and applying these technologies to their photographic process.

ART 156 Figure Drawing I*3 credit hours*

Prerequisite: ART 121

Introduces the basic techniques of drawing the human figure.

ART 207 Art History — 1900 to Present*3 credit hours*

Provides students with the knowledge base to understand the visual arts as related to Modern and Contemporary visual art. Surveys world art of the twentieth century, including Modernism to Post-Modernism. This course is one of the Statewide Guaranteed Transfer courses. GT-AH1

ART 211 Painting I*3 credit hours*

Prerequisite: ART 131, 2-D Design

Explores basic techniques, materials, and concepts used in opaque painting processes in oil or acrylic painting to depict form and space on a two-dimensional surface.

ART 212 Painting II

3 credit hours

Prerequisite: ART 211, Painting 1 and ART 131, 2-D design or permission of Program Chair.

Further explores techniques, materials, and concepts used in opaque painting processes in oil or acrylic painting, with emphasis on composition and content development.

ART 213 Painting III

3 credit hours

Prerequisite: ART 121, Drawing I and ART 212, Painting II

Provides continued exploration of techniques, materials, and concepts used in opaque painting processes in oil or acrylic painting, with emphasis on composition and content development.

ART 214 Painting IV

3 credit hours

Prerequisite: ART 213, Painting III and Art 121, Drawing I or permission of the Program Chair.

Explores advanced techniques, materials, and concepts used in opaque painting processes, with emphasis on the development of themes and a cohesive body of work.

ART 243 Digital Photography II

3 credit hours

Prerequisite: ART 143

Expands upon the beginning digital photography class. Focuses on digital photography in terms of design and communication factors including color, visual design, lighting, graphics, and aesthetics.

ART 256 Advanced Figure Drawing

3 credit hours

Prerequisite: ART 156

Provides continuing study of the various methods of drawing the human figure, with emphasis on the description of form and individual style.

ART 264 Marketing for the Visual Arts

3 credit hours

Prerequisite: 12 credits of any combination of ART courses

Provides students with the framework, tools, and professional materials necessary for the practicing visual artist. Guidelines for writing proposals, artist's statements, and resumes are discussed

and practiced. Explores theoretical and practical considerations related to portfolio presentation and exhibiting artwork through hands-on activities, readings, and discussion.

ART 285 Independent Study

1 - 6 credit hours

Prerequisite: ART 217 or comparable experience and permission of department.

Provides structured and guided, individualized research that is organized and tailored around the interests and needs of the individual student.

ASL — AMERICAN SIGN LANGUAGE

ASL 121 American Sign Language I

5 credit hours

Exposes the student to American Sign Language. Readiness activities are conducted focusing on visual/receptive skills and basic communication. Utilizes the direct experience method. Students must complete this course with a 'B' or higher or pass the ASL proficiency test with a score of at least 80% or better prior to registering for ASL 122 if planning to enroll in the Interpreter Preparation Program.

ASL 122 American Sign Language II

5 credit hours

Prerequisite: ASL 121

Develops a basic syntactic knowledge of American Sign Language (ASL), basic vocabulary and basic conversational skills. Incorporates vital aspects of deaf culture and community. The direct experience method is used to enhance the learning process. Students must complete this course with a 'B' or higher or pass the ASL 121 proficiency test at 80% or better prior to acceptance into the Interpreting and Transliterating Preparation program.

ASL 123 American Sign Language III

5 credit hours

Prerequisite: ASL 122

Provides the student an opportunity to develop a stronger grasp of American Sign Language (ASL), as well as the cultural features of the language. ASL vocabulary is also increased. The direct experience method is used to further enhance the learning process. This course is a continuation of ASL 122 with more emphasis on expressive skills in signing.

AST — ASTRONOMY

AST 101 Astronomy I

4 credit hours

Prerequisite: ENG 090 or higher and MAT 090 or higher

Focuses on the history of astronomy, the tools of the astronomer and the contents of the solar system including the planets, moons, asteroids, comets, and meteoroids. Incorporates laboratory experience. This course is one of the Statewide Guaranteed Transfer courses. GT-SC1

AST 102 Astronomy II

4 credit hours

Prerequisite: AST 101

Emphasizes the structure and life cycle of the stars, the sun, galaxies, and the universe as a whole, including cosmology and relativity. Incorporates laboratory experience. This course is one of the Statewide Guaranteed Transfer courses. GT-SC1

AST 285 Independent Study

0.5 - 6 credit hours

Prerequisite: Instructor permission

Meets the individual needs of students. Students engage in intensive study or research under the direction of a qualified instructor.

BIO — BIOLOGY

BIO 105 Science of Biology

4 credit hours

Prerequisite: Grade of C or better in ENG 090 and MAT 090 or minimum college-level English and Math assessment scores.

Examines the basis of biology in the modern world and surveys the current knowledge and conceptual framework of the discipline. Explores biology as a science — a process of gaining new knowledge — as is the impact of biological science on society. Includes laboratory experiences. Designed for non-science majors. This course is one of the Statewide Guaranteed Transfer courses. GT-SC1

BIO 106 Basic Anatomy and Physiology

4 credit hours

Prerequisite: Grade of C or better in ENG 090 and MAT 090 or minimum college-level English and Math assessment scores.

Focuses on basic knowledge of body structures and function, and provides a

foundation for understanding deviations from normal and disease conditions. This course is designed for individuals interested in health care and is directly applicable to the Practical Nursing Program, Paramedic Program and the Medical Office Technology program.

BIO 109 Human Biology: Preparation for Anatomy and Physiology

2 credit hours

Prerequisite: Grade of C or better in ENG 090 or minimum college-level assessment score

Prepares students to take Human Anatomy and Physiology who have little or no background in science. It does not substitute for a yearlong Anatomy and Physiology course with lab. Topics covered include atoms, molecules, cells, energetics and genetics.

BIO 111 General College Biology I with Lab

5 credit hours

Prerequisite: Grade of C or better in MAT 090 and ENG 090 or minimum college-level English and Math assessment scores.

Examines the fundamental molecular, cellular and genetic principles characterizing plants and animals. Includes cell structure, function and the metabolic processes of respiration and photosynthesis, as well as cell reproduction and basic concepts of heredity. Includes laboratory experience. This course is one of the Statewide Guaranteed Transfer courses. GT-SC1

BIO 112 General College Biology II with Lab

5 credit hours

Prerequisite: Grade of C or better in BIO 111

A continuation of Biology I. Includes ecology, evolution, classification, structure, and function in plants and animals. This course includes laboratory experience. This course is one of the Statewide Guaranteed Transfer courses. GT-SC1

BIO 201 Human Anatomy and Physiology I

4 credit hours

Prerequisite: Grade of C or better in BIO 109 or BIO 111

Allows students to pursue a specific project within Biology. The student and instructor determine the topic, outline of work, and method of evaluation. This course is one of the Statewide Guaranteed Transfer courses. GT-SC1

BIO 202 Human Anatomy and Physiology II

4 credit hours

Prerequisite: BIO 201

Focuses on the integrated study of the human body and the histology, anatomy, and physiology of the following systems and topics: cardiovascular, hematology, lymphatic and immune, urinary, fluid, endocrine, and electrolyte control, digestive, nutrition, respiratory, reproductive, and development. Includes a mandatory hands-on laboratory experience involving experimentation, microscopy, observations, and dissection. This is the second semester of a two-semester sequence. This course is one of the Statewide Guaranteed Transfer courses. GT-SC1

BIO 204 Microbiology

4 credit hours

Prerequisite: Grade of C or better in BIO 202 or BIO 111

Designed for health science majors. Examines microorganisms with an emphasis on their structure, development, physiology, classification, and identification. The laboratory experience includes culturing, identifying, and controlling microorganisms with an emphasis on their role in infectious disease. This course is one of the Statewide Guaranteed Transfer courses. GT-SC1

BIO 228 Field Biology III

4 credit hours

Prerequisite: BIO 112 or GEY 111

Involves in-depth field study of natural environments within and outside of the United States. The course varies from seven to twenty-one days in length. Focuses on the identification of organisms, as well as an examination of ecological concepts and principles. Requires hands-on laboratory and field experience (includes extensive hiking).

BIO 285 Independent Study

0.5 - 6 credit hours

Prerequisite: Instructor permission

Allows students to pursue a specific project within Biology. The student and instructor determine the topic, outline of work, and method of evaluation.

BTE — BUSINESS TECHNOLOGY

BTE 100 Computer Keyboarding I

1 credit hour

Designed for students who have minimal or no keyboarding skills. Introduces the touch method of keyboarding, as well as the basic operation and functions of the equipment. Emphasizes learning the alphanumeric keyboard, proper technique, and speed control.

BTE 102 Keyboarding Applications I

2 credit hours

Prerequisite: BTE 100 or Instructor's permission (Keyboarding skills of 20 wpm)

Designed for students with minimal keyboarding skills. Introduces letters, tables, memos and manuscripts. Emphasizes speed and accuracy.

BTE 103 Keyboarding Applications II

3 credit hours

Prerequisite: BTE 102

Designed to reinforce basic keyboarding formats and procedures. Productivity and decision-making skills are exercised. Speed and accuracy is also emphasized.

BTE 108 Ten-Key by Touch

1 credit hour

Introduces the student to touch control of a ten-key pad. The class emphasizes the development of speed and accuracy using proper technique.

BTE 111 Keyboarding Speedbuilding I

2 credit hours

Prerequisite: BTE 100 or instructor consent

Designed to increase speed and improve accuracy in keyboarding on the PC through the use of correct techniques and concentrated effort.

BTE 112 Keyboard Speedbuilding II

2 credit hours

Prerequisite: BTE 111 or Instructor Permission

Continues the skill building sets from BTE 111. This course is designed to further increase speed and improve accuracy in keyboarding on the PC through the use of correct techniques and concentrated effort.

BTE 125 Records Management*3 credit hours*

Provides instruction on how records are created, stored and retrieved. Covers the basic filing rules — classifying, indexing, coding, storing, and retrieving as applied to the basic methods — alphabetic, chronological, subject, numeric, and geographic. The student performs “hands-on” records management through the use of simulations, which includes manual and/or computer software.

BTE 204 Keyboarding Applications III*3 credit hours*

Produces mailable computer printouts from straight-copy, rough draft, and simulated office projects and develops the ability to make decisions without direct supervision.

BTE 225 Administrative Office Management*3 credit hours*

Prerequisite: None

Presents new developments, technology, procedures, organization, and contemporary terminology used in effective office management. Emphasizes decision making and application of administrative skills.

BTE 226 Machine Transcription*3 credit hours*

Prerequisite: Keyboard II or acceptable keyboarding proficiency.

Designed to help students become more proficient in transcribing memos, letters and other documents from machine transcription. Includes exercises to improve language arts skills. Introduces proper dictation techniques.

BTE 287 Cooperative Education/Internship*3 credit hours*

Provides students with the opportunity to supplement course work with practical work experience related to their educational program and occupational objectives. Students are placed at approved work sites that are related to their program of study. They work under the immediate supervision of experienced personnel at the business location and with the direct guidance of the instructor/coordinator.

BUS — BUSINESS ADMINISTRATION**BUS 110 Working for Yourself***2 credit hours*

Prerequisite: BUS 115

Introduces small business start-up and offers practical training designed to provide students with a fundamental understanding of the special concerns of self-employment. The course also provides an overview of the subjects needed to become an entrepreneur, including financing, law insurance, government regulations, record keeping, and taxes. Guest speakers with expertise in the various topics add to the weekly discussion.

BUS 115 Introduction to Business*3 credit hours*

Prerequisite: Minimum assessment score of 60 in math, 60 in English, 60 in reading and 60 in study skills

Focuses on the operation of the American business system. Covers fundamentals of the economy, careers and opportunities, marketing, management, production, governmental regulations, tools of business and social responsibilities.

BUS 203 Introduction to International Business*3 credit hours*

Prerequisite: BUS 115

Provides students with an understanding of the interdisciplinary nature of international business, including: the development of theories and methods of international trade, financing mechanisms, and terms used in export documentation and finance; impacts of geography in business transactions; legal aspects of international business; and developing an effective international marketing strategy.

BUS 216 Legal Environment of Business*3 credit hours*

Prerequisite: BUS 115

Emphasizes public law, regulation of business, ethical considerations, and various relationships that exist within society, government and business. Specific attention will be devoted to economic regulation, social regulation, laws that have an impact on labor management and environmental concerns. Students will develop an understanding of the role of law in social, political and economic change.

BUS 217 Business Communications and Report Writing*3 credit hours*

Emphasizes effective business writing: letters, memoranda, reports, application letters and resumes. Includes the fundamentals of business communication and an introduction to international communication.

BUS 226 Business Statistics*3 credit hours*

Prerequisite: BUS 115, and MAT 090 or 107

Focuses on statistical study, descriptive statistics, probability, and the binomial distribution, index numbers, time series, decision theory, confidence intervals, linear regression, and correlation. Intended for the business major.

BUS 285 Independent Study (Capstone)*1 - 6 credit hours*

Prerequisite: Sophomore status and course taken in the last semester of study

Meets the individual needs of students. Students engage in intensive study or research under the direction of a qualified instructor.

BUS 287 Cooperative Education*3 credit hours*

Provides students with the opportunity to supplement course work with practical work experience related to their educational program and occupational objectives. Students work under the immediate supervision of experienced personnel at the business location and with the direct guidance of the instructor/coordinator.

BUS 289 Capstone: Executive Leadership*1 - 6 credit hours*

Prerequisite: MAR 216, MAN 228

Demonstrates the culmination of learning within a given program of study.

CAD — COMPUTER AIDED DRAFTING (ENGINEERING GRAPHICS PROGRAM)**CAD 101 Computer Aided Drafting I***3 credit hours*

Prerequisite: MAC 205

Focuses on basic computer aided drafting skills using the latest release of CAD software. Includes file management, Cartesian coordinate system, drawing set-ups, drawing

aids, layer usage, drawing geometric shapes, editing objects, array, text applications, basic dimensioning, and Help access.

CAD 102 Computer Aided Drafting II

3 credit hours

Prerequisite: CAD 101 or instructor consent

Focuses on advanced computer aided drafting skills using the latest release of CAD software. Includes blocks and wblocks, polylines, multilines, polyline editing, advanced editing, editing with grips, hatching, isometric drawings, dimensions and dimension variables, paper space and viewports, templates, external references, and printing/plotting.

CAD 202 Computer Aided Drafting/3-D

3 credit hours

Corequisite: CAD 102

Focuses on construction of three-dimensional objects using the latest release of CAD software. Includes wireframe construction, surface modeling, solid modeling, extrusions, Boolean operations, 3-D editing, 3-D views, rendering, and 3-D to 2-D construction.

CAD 224 Revit

3 credit hours

Prerequisite: CAD 202

Provides students with the software application training in AutoDesk Revit necessary to produce 3D Architectural modes and 2D drawings utilizing AIA standards.

CAD 225 Architectural Desktop/AutoDesk

3 credit hours

Prerequisite: CAD 202, DRT 160

Provides students with the software application training in Architectural desktop necessary to produce 3D Architectural drawings utilizing 2D drafting skills.

CAD 240 Inventor I — AutoDesk

3 credit hours

Prerequisite: CAD 202 or instructor consent

Introduces basic non-parametric 3-D concepts to build confidence in 3-D thinking and moves on to three-dimensional parameters. The student learns to construct, modify, and manage complex parts in 3-D space as well as how to produce 2-D drawings from the 3-D models.

CCN — CRITICAL CARE NURSING (NURSING PROGRAM)

CCN 230 Basic ECG Interpretation

2 credit hours

Prerequisite: Colorado licensure as a registered nurse

Develops the ability of the registered nurse to read and interpret the electrocardiogram of the critically ill client and identify treatment modalities for arrhythmias. Requires critical thinking and analytical skills.

CCN 231 Care of the Critically Ill Patient

6 credit hours

Prerequisite: Colorado licensure as a registered nurse, CCN 230

Corequisite: CCN 285

Synthesizes the applied physiology, physical, diagnostic, psychosocial and spiritual assessment of the critically ill patient into a comprehensive treatment plan using critical thinking and analytical and clinical skills.

CCN 285 Comprehensive Critical Nursing Internship

4 credit hours

Prerequisite: Instructor consent

Applies didactic learning of ECG interpretation and care of the critically ill patient to the clinical practice of nursing in a critical care environment.

CHE — CHEMISTRY

CHE 101 Introduction to Chemistry I

5 credit hours

Prerequisite: ENG 090 and MAT 106

Includes the study of measurements, atomic theory, chemical bonding, nomenclature, stoichiometry, solutions, acid and base, gas laws, and condensed states. Laboratory experiments demonstrate the above concepts qualitatively and quantitatively. Designed for non-science majors, students in occupational and health programs, or students with no chemistry background. This course is one of the Statewide Guaranteed Transfer courses. GT-SC1

CHE 102 Introduction to Chemistry II

5 credit hours

Prerequisite: CHE 101

Focuses on introductory organic and biochemistry (sequel to Introduction to Chemistry I). This course includes the study of hybridization of atomic orbitals for carbon, nomenclature of both organic and biochemical compounds, physical and chemical properties of various functional groups of organic chemistry, and physical and chemical properties of biochemical compounds along with their biochemical pathways. Laboratory experiments are included. This course is one of the Statewide Guaranteed Transfer courses. GT-SC1

CHE 109 General, Organic and Biochemistry

4 credit hours

Prerequisite: None

Focuses on fundamentals of inorganic, organic and biochemistry primarily for students in health science, non-science majors and/or students in the occupational and health related career areas. Includes the study of measurement, atomic theory, chemical bonding, nomenclature, stoichiometry, solutions, acid and base chemistry, gas laws, condensed states of matter and nuclear chemistry, nomenclature of organic compounds, properties of different functional groups, nomenclature of various biological compounds, their properties and biological pathways.

CHE 111 General College Chemistry I

5 credit hours

Prerequisite: ENG 121, MAT 121

Focuses on basic chemistry and measurement, matter, chemical formulas, reactions and equations, stoichiometry and thermochemistry. This course covers the development of atomic theory culminating in the use of quantum numbers to determine electron configurations of atoms, and the relationship of electron configuration to chemical bond theory and molecular orbital theory. The course includes gases, liquids, and solids and problem-solving skills are emphasized through laboratory experiments. This course is one of the Statewide Guaranteed Transfer courses. GT-SC1

CHE 112 General College Chemistry II*5 credit hours*

Prerequisite: CHE 111

Presents concepts in the areas of solution properties, chemical kinetics, chemical equilibrium, acid-base and ionic equilibrium, thermodynamics, electrochemistry, nuclear chemistry, and organic chemistry. This course emphasizes problem solving skills and descriptive contents for these topics. Laboratory experiments demonstrate qualitative and quantitative analytical techniques. This course is one of the Statewide Guaranteed Transfer courses. GT-SC1

CHE 285 Independent Study*0.5 - 6 credit hours*

Prerequisite: Instructor permission

Provides the opportunity for the highly motivated student to engage in intensive study and research on a specified topic under the direction of a faculty member. Allows a student to complete a course in a semester when the course has not been offered or has been canceled. The option to make independent study available is at the discretion of qualified faculty and the department chair. The student is limited to the number of independent study courses taken per semester.

CHI — CHINESE (FOREIGN LANGUAGES PROGRAM)**CHI 101 Conversational Chinese I***3 credit hours*

Introduces beginning students to conversational Chinese and focuses on understanding and speaking Chinese. Covers basic vocabulary, grammar, and expressions that are used in daily situations and in travel.

CHI 111 Chinese Language I*5 credit hours*

Focuses on the development of functional proficiency in listening, speaking, reading and writing the Chinese language. *Note:* The order of the topics and methodology varies according to individual texts and instructors.

CHI 112 Chinese Language II*5 credit hours*

Prerequisite: CHI 111

Continues Chinese Language I in the development of functional proficiency in

listening, speaking, reading and writing the Chinese language. *Note:* The order of the topics and the methodology will vary according to individual texts and instructors.

CHW — COMMUNITY HEALTH WORKER**CHW 100 Introduction to Community Health Work***2 credit hours*Prerequisite: High school diploma or GED
Corequisite: CHW 120, 130, 297

Introduces students to the basic concepts of community health work, to the roles of community health workers and to basic practical skills necessary to the occupation.

CHW 120 Community Health Issues*3 credit hours*Prerequisite: High school diploma or GED
Corequisite: CHW 100, 130, 297

Introduces students to the multiple health issues for community health workers. Develops core competencies to function as a community health worker.

CHW 130 Community Health Resources*3 credit hours*Prerequisite: High school diploma or GED
Corequisite: CHW 100, 120, 297

Introduces students to the skills and resources necessary for community health work with clients in the community.

CHW 297 Community Health Worker Field Experience*2 credit hours*Prerequisite: High school diploma or GED
Corequisite: CHW 100, 120, 130

Provides students with an opportunity to apply community health worker knowledge and practice community health worker skills in community settings.

CIS — COMPUTER INFORMATION SYSTEMS (INFORMATION TECHNOLOGY PROGRAM)**CIS 118 Introduction to PC Applications***3 credit hours*

Prerequisite: Minimum assessment scores of 60 in math, English, reading, and study skills

Introduces computer concepts and

components, as well as application-suite software and the Internet. Includes descriptions of and hands-on experiences with word processing, spreadsheets, databases, operating environments and other common PC application packages

CIS 124 Introduction to Operating Systems*3 credit hours*

Prerequisite: Minimum assessment score of 60 in math, 60 in English, 60 in reading and 60 in study skills

Introduces concepts, terminology and hands-on skills in the use of DOS and Windows. Emphasizes navigation, file manipulation, file creation and troubleshooting.

CIS 130 Introduction to Internet*1 credit hour*

Prerequisite: none

Enhances the student's knowledge of the Internet and its resources. Individuals learn terminology in dealing with the Internet. Includes privacy and copyright issues with information retrieved from the Internet. Students experience the use of e-commerce, multimedia and e-mail. Explores searching the Internet and credibility of information obtained with searches.

CIS 135 Complete PC Word Processing/Word*3 credit hours*

Prerequisite: CIS 118

Provides complete word processing skills and covers the use of basic commands and functions and originating, processing and editing business documents with Microsoft Word.

CIS 136 Microsoft Office Specialist Certification: Word*1 credit hour*

Prerequisite: CIS 135 or instructor consent based on prior experience

Prepares students for the Microsoft Office Specialist certification examination for Word. Students use software to determine strengths and weaknesses and elect to review and prepare for either the Core or Expert level exam.

CIS 140 Microsoft Outlook*1 credit hour*

Introduces the functions used in Microsoft Outlook including e-mail messages, calendar, contacts, tasks, journals, and notes.

CIS 145 Complete PC Database*3 credit hours*

Prerequisite: CIS 118 or instructor consent

Explores a complete array of database skills. Includes table, query, form, and report creation and modification. Other topics include application integration and automation of database tasks within the database.

CIS 149 Microsoft Office Certification Prep: Access*1 credit hour*

Prerequisite: CIS 145 or instructor consent based on prior experience

Prepares students for the Microsoft Office Specialist certification examination for Access. Students use software to determine strengths and weaknesses and elect to review and prepare for the Core level Certification exam.

CIS 155 PC Spreadsheet Concepts: Excel*3 credit hours*

Prerequisite: CIS 118 or instructor consent

Exposes the student to a wide range of uses of the electronic spreadsheet with special emphasis placed on using it as a business tool. Topics include fundamentals and terms, creating and saving workbooks, entering and using formulas, formatting, printing, multiple-page workbooks, creating charts, entering and using functions, managing lists, and simple macros.

CIS 159 Microsoft Office Certification Prep: Excel*1 credit hour*

Prerequisite: CIS 155 or instructor consent

Prepares students for the Microsoft Office Specialist certification examination for Excel. Students use software to determine strengths and weaknesses and elect to review and prepare for either the Core or Expert level Certification exam. The MOUS test is not included in this course.

CIS 165 Complete Presentation Graphics: PowerPoint*3 credit hours*

Prerequisite: CIS 118 or instructor consent

Focuses on the development of presentation graphics materials including graphs, charts, illustrations and diagrams. Emphasizes effective communication through computerized presentations. Covers features of Microsoft PowerPoint and effective presentation techniques.

CIS 169 Microsoft Office Specialist Certification Prep: PowerPoint*1 credit hour*

Prerequisite: CIS 165 or instructor consent based on prior experience

Prepares students for the Microsoft Office Specialist certification examination for PowerPoint. Students use software to determine strengths and weaknesses and elect to review and prepare for either the Core or Expert level Certification exam.

CIS 218 Advanced PC Applications*3 credit hours*

Prerequisite: CIS 135, CIS 145, CIS 155, CIS 165 or Instructor Consent

Covers the advanced capabilities of a PC software applications suite. Emphasizes solving business problems by integrating data from all of the software applications that facilitate the production of useful information. Printed documents, reports, slides and forms are produced to communicate information.

CIS 220 Fundamentals of UNIX*3 credit hours*

Prerequisite: CIS 124, CSC 119

Covers the structure and fundamentals of the UNIX operating system. Includes the files system and file processing, various utility programs, and shell, multi-user operation, text processing and communications.

CIS 222 UNIX System Administration*3 credit hours*

Prerequisite: CNG 104

Corequisite: CIS 220

Introduces the UNIX/Linux operating system and covers the skills required to install, configure and operate a UNIX/Linux system.

CIS 240 Database Design and Development*3 credit hours*

Prerequisite: CIS 145 or Instructor Approval

Introduces the basic concepts of relational databases, data storage, and retrieval. Covers database design, data modeling, transaction processing, and introduces the Structured Query Language for databases.

CIS 243 Introduction to SQL*3 credit hours*

Prerequisite: CSC 119 or instructor consent

Corequisite: CIS 145

Introduces students to creating database structures and storing, retrieving and manipulating data in a relational database.

SQL is the set of statements that all users and programs must use to access data in the Oracle database. This course also will use SQL*Plus to manipulate SQL statements.

CIS 260 Troubleshooting Microsoft Applications*3 credit hours*

Prerequisite: CIS 218, CIS 124

Focuses on troubleshooting techniques and procedures that are used in Microsoft applications. Includes learning how to manage the advanced configuration of Word, Excel, Access and PowerPoint.

CIS 263 PC Help Desk Skills*3 credit hours*

Prerequisite: CNG 120 or instructor consent

Enables the student to understand and develop appropriate help-desk techniques. Includes roles of help-desk personnel, and how to troubleshoot hardware and software problems.

CIS 267 Management of Information Systems*3 credit hours*

Introduces the concepts and techniques of managing computer-based information resources. Includes hardware, software, personnel, control techniques, and the placement integration of information systems resources within the organization.

CIS 287 Cooperative Education*1 credit hour*

Prerequisite: Instructor consent

Provides students an opportunity to gain practical experience in applying their occupational skills and/or to develop specific skills in a practical work setting. The instructor works with the student to select an appropriate work site, establish learning objectives and to coordinate learning activities with the employer or work site supervisor.

CNG — COMPUTER NETWORKING & TECHNOLOGY (INFORMATION TECHNOLOGY PROGRAM)**CNG 101 Introduction to Networking***3 credit hours*

Prerequisite: CIS 118

Focuses on underlying concepts of data communications, telecommunications and

networking. Emphasizes the terminology and technologies in current networking environments and provides a general overview of the field of networking as a basis for continued study in the field.

CNG 102 Local Area Networks

3 credit hours

Prerequisite: CNG 101 or instructor consent
Introduces Local Area Networking. Focuses on discussions and demonstrations of planning, installing and supporting networks.

CNG 104 Introduction to TCP/IP

3 credit hours

Prerequisite: CNG 102 or instructor consent
Outlines four important networking architectures in corporate environments today — TCP/IP, SNA, AppleTalk, and DNA. Focuses on the major components and functions of each of these architectures, as well as methods used to connect different architectures. Provides students with concepts that are important to the field of systems integration, as well as a conceptual basis for understanding network architectures.

CNG 105 Internet Technologies

3 credit hours

Prerequisite: CIS 118
Outlines the important Internet Technologies in use today. Focuses on the major components and functions of each of these technologies as well as methods used to connect different technologies. Provides the students with concepts that are important to the field of systems integration with the Internet as well as a conceptual basis for understanding Internet Technologies.

CNG 116 Microcomputer Hardware

3 credit hours

Corequisite: CIS 118
Covers the maintenance and installation of microcomputers and peripheral devices, including printers, expanded memory, modems, video display terminals and secondary storage devices. Introduces electronics and microcomputer architecture.

CNG 120 A+ Certification Preparation

4 credit hours

Prerequisite: CNG 116
Prepares students for the CompTIA A+ certification examination. Hardware and software concepts are reviewed using A+ techniques.

CNG 131 Network Security Fundamentals

3 credit hours

Prerequisite: CNG 101 - Introduction to Networking
Delivers a comprehensive overview of network security, including general security concepts. Communication Security is studied, including remote access, e-mail, the Web, directory and file transfer, and wireless data. Common network attacks are introduced, Cryptography basics are incorporated, and operation/organizational security is discussed as it relates to physical security, disaster recovery, and business continuity. Computer forensics is introduced.

CNG 132 Principles of Information Security

3 credit hours

Prerequisite: CNG 131 - Network Security Fundamentals
Examines the field of information security to prepare information systems students for their future roles as business decision-makers. The course presents a balance of managerial and the technical aspects of information security. The concepts covered in this course should be helpful for students working towards the Certified Information Systems Security Professional (CISSP) certification.

CNG 133 Network Security: Fire Walls and Intrusion Detection and Network Security

3 credit hours

Prerequisite: CNG 132
Teaches students the basics of network firewall security. It covers basic installation techniques, discusses how to make an intelligent choice of firewall technology, and presents basic firewall troubleshooting.

CNG 160 Telecommunications I

3 credit hours

Prerequisite: CIS 118
Introduces the background needed to understand telephony products and services in the telecommunications industry. Includes hardware and devices, transmission characteristics and codes, network configurations, software and protocols.

CNG 210 Windows 2000 Network and Operating Essentials

3 credit hours

Prerequisite: CNG 102 or instructor consent
Provides individuals new to Microsoft Windows 2000 with the knowledge necessary

to understand and identify the tasks involved in supporting Windows 2000 networks. Introduces an overview of networking concepts and how they are implemented in Windows 2000. Provides students with the prerequisite knowledge and skills required for CNG 212, Implementing Windows 2000 Professional and Server.

CNG 211 Windows XP Configuration

3 credit hours

Prerequisite: CNG 102 or instructor consent
Provides students with the knowledge and skills necessary to address the implementation and desktop support needs of customers who are planning to deploy and support Microsoft Windows XP Professional in a variety of network operating system environments.

CNG 251 Anti Virus Concepts

3 credit hours

Prerequisite: CNG 101 or instructor consent
Prepares the student for virus eradication. Focuses on how viruses work, how they are designed and how viruses are written. Emphasizes virus eradication and cleaning.

CNG 252 Security Modeling

3 credit hours

Prerequisite: CNG 101 or instructor consent
Designs various security models using rights and permissions. Covers Microsoft, CISCO, Novell Netware and UNIX, and Standard based security calls. Focuses on security theory with some practical security applications.

CNG 253 Firewalls and How They Work

3 credit hours

Prerequisite: CNG 261 or instructor consent
Introduces students to the design and implementation of firewalls. Covers such topics as firewalls using CISCO Routers, Microsoft server platform and UNIX platform. Focuses on how firewalls function in these environments and the basic steps to plan and implement firewalls.

CNG 254 Data Encryption

3 credit hours

Prerequisite: CNG 102 or instructor consent
Exposes the student to data encryption models. Examines the differences between data storage, including Microsoft, Novell Netware and UNIX. Includes encryption and data transmission. Covers encryption over various networks, including the Internet.

CNG 260 CISCO Network Associate I*5 credit hours*

Prerequisite: CNG 101

Introduces network fundamentals, the OSI model and industry standards, IP addressing (subnet masks) and basic network design.

COM — COMMUNICATIONS**COM 100 Workplace Communication***1 credit hour*

Covers topics that teach students how to communicate effectively in the workplace. Includes listening, speaking, reading, and writing and emphasizes the importance of these four modes of communication in the workplace.

COM 105 Career Communications*3 credit hours*

Develops skills needed in obtaining and keeping a job. Includes job searching, applications, resumes, interviews, and the dynamics of customer, peer, and managerial relationships. Emphasizes speaking, writing, listening, critical reading skills, and vocabulary development essential to the employment world.

COM 126 Communication in Healthcare*3 credit hours*

Prerequisite: N/A

Corequisite: N/A

Familiarizes the student with interactive concerns in settings related to patient-client care. Course includes discussions of diverse cultures, client interaction and family/caregiver issues. The student will also address the concerns of attitude, office politics, teamwork, self-initiative and conflict management as specifically experienced in the patient as client setting.

CRJ — CRIMINAL JUSTICE (PUBLIC SAFETY PROGRAM)**CRJ 110 Introduction to Criminal Justice***3 credit hours*

Introduces a study of the agencies and processes involved in the criminal justice system: the legislature, the police, the prosecutor, the public defender, the courts, and corrections. Includes an analysis of the roles and problems of the criminal justice

system in a democratic society, with an emphasis upon inter-component relations and checks and balances.

CSC — COMPUTER SCIENCE (INFORMATION TECHNOLOGY PROGRAM)**CSC 105 Computer Literacy***3 credit hours*

Prerequisite: N/A

Introduces computers and includes the history of computers and their impact on society. Focuses on microcomputer terminology, as well as criteria for evaluating hardware and software. Enables students to develop a working knowledge of an operating system, the Internet, and several microcomputer applications.

CSC 119 Introduction to Programming*3 credit hours*

Corequisite: CIS 118 or instructor consent

Focuses on general introduction to computer programming. Emphasizes the design and implementation of structured and logically correct programs with good documentation. Focuses on basic programming concepts, including numbering systems, control structures, modularization, and data processing. A structured programming language will be used to implement the student's program design.

CSC 150 Visual Basic Programming*3 credit hours*

Prerequisite: CSC 119 or instructor consent

Introduces programming and applications development for the Microsoft Windows programming environment using Visual Basic for Windows.

CSC 151 Advanced Visual Basic Programming*3 credit hours*

Prerequisite: CSC 150 or instructor consent

Builds on the skills learned in CSC 150. Focuses on more involved applications, work with advanced controls, and additional advanced topics.

CSC 152 Database Programming with Visual Basic*3 credit hours*

Prerequisite: CSC 150

Provides an in-depth look at Visual Basic as a database application development

language. Topics may include ADO, multi-tier components, data-bound controls, remote data access, SQL, and ASP.

CSC 153 Visual Basic Certification Preparation*3 credit hours*

Prerequisite: CSC 151 or instructor consent

Focuses on the Visual Basic experience to achieve credibility by preparing to become certified according to industry standards. Prepares the student to pass the Microsoft Certified Professional Examination #70-176.

CSC 160 Computer Science I: (Language)*4 credit hours*

Prerequisite: MAT 106 or 109

Introduces students to the discipline of computer science. Covers algorithm development, data representation, logical expressions, sub-programs and input/output operations using a structured programming language. Requires intensive lab work outside of class time.

CSC 161 Computer Science II: (Language)*4 credit hours*

Prerequisite: CSC 160 or instructor consent

Continues the structured algorithm development and problem solving techniques begun in Computer Science I. Enables students to gain experience in the use of data structures and design of larger software projects. Requires intensive computer laboratory experience.

CSC 240 Java Programming*3 credit hours*

Prerequisite: CSC 119 or instructor consent

Introduces students to Java programming language and covers basic graphics, events/procedures, user interface, and libraries. Enables the student to write and execute a variety of Java programs. Incorporates Java Applets into HTML.

CSC 241 Advanced Java Programming*3 credit hours*

Prerequisite: CSC 119

Continues the study of the Java programming language. Covers advanced programming topics including multi-threading, network/Internet programming, database programming, and JavaBeans. Enables the student to write advanced, large, and complex programs.

CWB — COMPUTER WEB BASED (INFORMATION TECHNOLOGY PROGRAM)

CWB 110 Complete Web Authoring

3 credit hours

Prerequisite: CIS 118 or instructor consent

Explores the complete set of web authoring skills using HTML and/or other scripting languages. Includes links, backgrounds, controlling text, and graphic placement, tables, image maps, frame and forms.

CWB 206 Web Database

3 credit hours

Corequisite: CIS 145

Emphasizes scripting languages used to create and manage web databases. Targets to multimedia authors who wish to add data base management and search functionality to their web sites. Enables students to build an inexpensive portable data base solution.

DAN — DANCE

DAN 130 Dance Sampler

1 credit hour

Introduces the beginning dancer to popular dances through a social dance sampler in Salsa, Swing, and Country Western Dance technique, footwork, body posturing, rhythms, and dance floor etiquette. Examines a variety of dances such as Salsa's Mambo, Cha-Cha, and Rumba; Swing's Lindy Hop (jitterbug); and Country Western's Two Step, Cowboy Waltz, Cotton-Eyed Joe and various Country Western line dances.

DEH — DENTAL HYGIENE

DEH 101 Preclinical Dental Hygiene Lecture

2 credit hours

Prerequisite: Enrollment in the Dental Hygiene program

Corequisite: DEH 102

Explores basic dental hygiene theory and development of basic skills. Focuses on the application of diagnostic, preventative and therapeutic procedures and includes an introduction to dentistry and dental hygiene, dental and medical terminology, infection control, the removal of tooth deposits, patient medical and dental histories, preventive instruction and treatment planning.

DEH 102 Preclinical Dental Hygiene Care

2 - 3 credit hours

Prerequisite: Enrollment in the Dental Hygiene program

Corequisite: DEH 101

Focuses on clinical experiences in basic dental hygiene procedures and techniques including basic instrumentation, infection control, and patient assessment skills. Students participate in a variety of clinical learning experiences.

DEH 103 Dental Anatomy and Histology

3 credit hours

Prerequisite: Enrollment in the Dental Hygiene Program

Corequisite: DEH 123

Focuses on a study of the anatomical and histological features of the teeth and other oral structures of the oral cavity. Includes terminology, anatomical landmarks, and tooth identification. Introduces histology, the embryology of the face and oral and nasal cavities, development of the teeth, and the histological features of the various components of the teeth and surrounding structures.

DEH 104 Dental Radiology

3 credit hours

Prerequisite: Enrollment in the Dental Hygiene program

Corequisite: DEH 101, 102, 103

Introduces principles of x-radiation production and safety factors; application and theory of properly exposing, processing, mounting and evaluating radiographs; identification of normal anatomic landmarks and pathologic conditions. Focuses on utilization of the laboratory in performing procedures necessary to produce quality radiographs.

DEH 111 Dental and Medical Emergencies

2 credit hours

Prerequisite: Enrollment in the Dental Hygiene program

Corequisite: DEH 103

Introduces the management of emergency situations in the dental office setting. Emphasizes reduction of risk for emergencies, identification and management of anxiety, and stress recognition protocol. Provides practical skills applicable to dental hygienists and the scope of responsibility for medical emergency management as dictated by state dental practice law. Covers the basic categories of emergencies, causes and management. Includes content and use of emergency kits and oxygen support systems.

DEH 116 Preventive Dentistry and Special Needs Patients

2 credit hours

Prerequisite: Enrollment in DH Program

Corequisite: DEH 103

Focuses on application of the basic sciences in maintaining healthy oral tissues for all patient populations. Emphasizes plaque and plaque related diseases and the basic philosophy involved in controlling and/or preventing disease. Addresses the role of the dental hygienist in etiology, epidemiology of disease, primary preventive efforts, oral health education, nutrition and dietary measures, and preventive agents.

DEH 122 Periodontics I

2 credit hours

Prerequisite: First-semester DEH course work

Corequisite: DEH 124, DEH 153

Introduces the principles of periodontics. Focuses on recognition of the tissues in health and disease, macro and microanatomy of the periodontium, and histopathology of periodontal diseases and other related gingival conditions. Provides the theory and discussion of periodontal assessment, etiology, epidemiology, inflammatory process/immune response, and the AAP classification system.

DEH 123 Head and Neck Anatomy

1 credit hour

Prerequisite: Enrolled in the Dental Hygiene program

Corequisite: First-semester DEH courses

Focuses on the study of head anatomy with emphasis on the muscles of mastication, the lymphatics, the TMJ, the nerve and vascular supply, and the oral cavity.

DEH 126 Dental Materials

3 credit hours

Prerequisite: DEH 101, 102, 103

Provides the dental hygiene student with a sound knowledge of the science of dental materials. Covers didactic and laboratory experiences and the physical properties, basic chemistry, and the clinical applications of the materials used in the practice of dentistry.

DEH 132 Applied Pharmacology

2 credit hours

Prerequisite: First-semester DEH courses

Corequisite: Second-semester DEH courses

Covers general pharmacology and reviews drugs that may influence the management of dental hygiene patients.

Enables the student to develop sufficient knowledge of pharmacology to permit safe and effective medical evaluation of patients for dental hygiene treatment.

DEH 133 Local Anesthesia

2 credit hours

Prerequisite: First-year DEH courses

Corequisite: DEH 103, 111, 123, 124, 132

Provides a working knowledge of the theory and practice of local anesthesia as applied to the practice of dentistry/dental hygiene. Emphasizes mastery of the armamentarium and techniques of regional anesthesia. Covers the knowledge and skills necessary to administer local anesthetics proficiently and safely.

DEH 134 Advanced Clinical Skills

1 credit hour

Prerequisite: Successful completion of first year dental hygiene courses.

Focuses on dental hygiene theory and laboratory experiences with major topics related to advanced clinical skills, including advanced instrumentation fulcrums, root morphology, periodontal files, periodontal file sharpening, mini cures, after five cures, nabors probe, universal focus spray ultrasonics, and scaling implants.

DEH 138 Nitrous Oxide/Oxygen Sedation

1 credit hour

Prerequisite: DEH 101, DEH 102, DEH 103, DEH 111, DEH 124, DEH 132, DEH 153

Provides a working knowledge of the latest equipment and methods of nitrous oxide/oxygen sedation administration in the dental office.

DEH 153 Clinical Theory of Dental Hygiene I

2 credit hours

Prerequisite: First-semester DEH courses

Corequisite: DEH 124

Builds on the broad theoretical basis provided in DEH 101 and 102. Focuses on enhancing patient assessment skills, instrumentation and additional information on preventative and prophylactic clinical procedures.

DEH 170 Clinical Practice of Dental Hygiene I

1 - 8 credit hours

Prerequisite: DEH 101, DEH 102, DEH 103, DEH 104

Corequisite: DEH 153

Provides clinical experience in patient skills assessment, instrumentation and

additional preventative and prophylactic clinical procedures.

DEH 171 Clinical Practice of Dental Hygiene I-A

1 - 8 credit hours

Prerequisite: DEH 101, DEH 102, DEH 103, DEH 104, DEH 123, DEH 124, DEH 153

Continues patient care sessions for the performance of traditional dental hygiene treatment. Enables the student to provide treatment to periodontally involved patients utilizing advanced instrumentation and power scaling.

DEH 202 Applied Nutrition in Dentistry

2 credit hours

Corequisite: DEH 124

Gives students a fundamental understanding of general nutrition with an emphasis on the interrelationship between nutrition and dental health. Focuses on recognizing nutritional deficiencies and how to conduct and evaluate nutritional surveys on patients.

DEH 204 Community Dental Health I

2 credit hours

Prerequisite: First-semester DEH courses

Corequisite: Third-semester DEH courses

Provides instruction in the concepts, methods and issues of dental public health. Emphasis is placed on evidence-based criteria for effective promotion and prevention of dental disease in the public health setting. Concepts of dental health education and program planning in the community setting are reinforced through case based materials, including methods of assessment, planning, implementation and evaluation of effectiveness. Course activities will reinforce skills in speaking and writing effectively in preparation for the subsequent community dental health field experience course.

DEH 213 General and Oral Pathology

3 credit hours

Prerequisite: DEH 101, DEH 102, DEH 103, DEH 104, DEH 123

Corequisite: Second-semester DEH courses

Focuses on the fundamentals of general pathology and the disease process. Covers oral pathology with emphasis on recognition and identification of pathologic conditions that most frequently occur around the oral cavity. Helps students identify appropriate referral mechanisms to render a definitive diagnosis.

DEH 221 Ethics and Practice Management

2 credit hours

Prerequisite: Third-semester DEH courses

Corequisite: Fourth-semester DEH courses

Focuses on the transition from an educational environment to a working dental business. Enables the student to learn management skills of operating a dental office. Emphasizes opportunities for self-exploration in development of personal and professional goals. Examines professional ethics, legal issues, and the relationship to the licensed practice of dental hygiene.

DEH 225 Community Dental Health II: Field Experience

1 credit hour

Prerequisite: All 100 level courses, DEH 204, 242

Corequisite: Fourth-semester DEH courses

Provides practical application of community dental health theory and opportunities to conduct needs assessments on a variety of populations. Emphasizes meeting the educational needs of specific populations through program planning, implementation and evaluation. Incorporates supervised field experiences in low-income, school and other public health facilities, as well as private health and education-oriented organizations.

DEH 242 Periodontics II

2 credit hours

Prerequisite: All DEH 100 Level

Corequisite: DEH 264

Continues to explore theoretical/clinical preparations with emphasis on dental hygiene process of care, treatment planning, non-surgical treatment, evaluation of treatment, and maintenance needs of the periodontal patient. Develops research and decision-making skills with use of library and Internet resources relating to risk factors, etiologic agents, and treatment modalities. Includes comprehensive periodontal assessment, supplemental diagnostics, periodontal pharmacology, and evidence based treatment planning.

DEH 266 National Board Review

2 credit hours

Prerequisite: Third-semester DEH course work

Corequisite: Fourth-semester DEH course work

Provides formal review sessions for second year dental hygiene students preparing to sit for the National Board Examination in March.

DEH 268 Clinical Theory of Dental Hygiene II
2 credit hours

Prerequisite: All 100 Level DEH course
Corequisite: DEH 264

Provides the didactic theory for clinical practice of dental hygiene skills at the beginning of the second year of dental hygiene curriculum. Builds on clinic theory from first year curriculum to provide the knowledge base needed for treatment of patients with more advanced periodontal disease and medical/health factors. Focuses on: periodontal charting and documentation, interpretation of periodontal factors on radiographs, use of treatment planning in the dental hygiene process of care, legal parameters of record keeping and informed consent, use of oral photography, application of sealants, treatment of dental hypersensitivity, application of chemotherapeutics and professional oral irrigation, application of ergonomics in dentistry, clinical dental hygiene treatment considerations for patients with history of cardiac complications and diabetes.

DEH 270 Clinical Practice of Dental Hygiene II
1 - 8 credit hours

Covers patient care sessions for the performance of traditional dental hygiene treatment. Continues and expands periodontal patient care and special patient care sessions. Focuses on clinical competence in margination and polishing of restorations, nutrition counseling, oral irrigation, chemotherapeutics and OSHA compliance.

DEH 271 Clinical Practice of Dental Hygiene III
1 - 8 credit hours

Prerequisite: DEH 101, DEH 102, DEH 103, DEH 104, DEH 111, DEH 116, DEH 122, DEH 123, DEH 124, DEH 126, DEH 132, DEH 153, DEH 202, DEH 204, DEH 213, DEH 242, DEH 264
Corequisite: DEH 285

Continues patient care session with emphasis on attaining a level of competency and efficiency for successful performance in clinical board exams and private practice. Focuses on clinical skill development in tobacco cessation, product selection, patient communications, curettage and special topics developed patient treatments. Provides elective extra-mural clinical sites for additional practice.

DEH 282 Periodontics III
1 credit hour

Prerequisite: Third-semester DEH course work
Corequisite: Fourth-semester DEH course work

Provides comprehensive dental hygiene clinical management techniques for periodontal patients supported by application of basic clinical research sciences. Focus is on the "therapy" component of periodontics including instructional sessions covering the general principles of periodontal surgery, the surgical management of soft tissues and osseous defects, wound healing, implants, and the role of occlusion in periodontal therapy.

DEH 285 Clinical Theory of Dental Hygiene III
2 credit hours

Prerequisite: All 100 Level DEH courses, DEH 264, 268,

Corequisite: DEH 284

Serves as the capstone course of the final semester of a two-year curriculum. Prepares the student for two major goals: basic competence for transition to provision of dental hygiene services in private practice; and the ability to successfully pass both written National Boards examinations and regional dental hygiene clinical examinations. Emphasizes the application of case based learning. Major topics include: cosmetic bleaching, air powered polishing devices, application of the re-evaluation process in treatment planning for periodontally involved cases, preparation for the CRDTS regional clinical exam process, application of an effective tobacco cessation process, technique and process for gingival curettage, technique and process for amalgam polishing and margination, care of cosmetic dental restorations, and maintenance of implants.

**DRT — DRAFTING
(ENGINEERING GRAPHICS
PROGRAM)****DRT 101 Technical Drafting I**

3 credit hours

Introduces the student to basic engineering graphics technology principles through development of basic entry-level drafting skills. Enables the student to develop skills in sketching, reading drafting scales, interpreting line types, lettering techniques, geometric construction, orthographic projection, and drawing reproduction.

DRT 103 Technical Drafting III
3 credit hours

Prerequisite: DRT 101 or instructor consent
Introduces the student to industrial dimensioning practices. Enables the student to develop skills in dimensioning techniques and learn to apply the ASME Y14.5M-1994 dimensioning standard.

DRT 106 Introduction to Axonometric Views
3 credit hours

Prerequisite: DRT 101 or instructor consent
Introduces the principles of pictorial practices. Covers axonometric projection (isometric, oblique/cabinet and cavalier) and perspective drawing (one and two point perspectives).

DRT 107 Introduction to Sections and Auxiliary Views

3 credit hours

Prerequisite: DRT 101 or instructor consent
Introduces the principles of how parts are represented in 2-D space by using sectional views of parts to clarify internal detail, and projection of inclined planes that need to be shown in their true shape and size.

DRT 160 Introduction to Industrial Drafting and Design

3 credit hours

Prerequisite: CAD 102 or instructor consent
Introduces the drafting principles that are expected to be understood by drafters in both the mechanical and architectural disciplines.

DRT 260 History of Architecture

3 credit hours

Introduces the student to the history of architecture. Covers styles, building techniques, the influences of history, people and time from the earliest days of man's struggles, to modern industrial and deconstructionist.

DRT 269 Advanced Industrial Drafting and Design

6 credit hours

Prerequisite: DRT 160 or instructor consent
Continues to build upon the drafting principles that are expected to be understood by drafters in both the mechanical and architectural disciplines. Enables the student to develop a broader understanding of how production documents are generated.

DRT 275 Special Topics: Graduation Portfolio
6 credit hours

Completes the Architectural emphasis in Engineering Graphics. Students produce a complete 3-D model of an entire structure. Tasks include modeling individual parts at each level of manufacturing, assembling in 3-D space and developing a complete set of plans for production of the building. The project demonstrates understanding of the development cycle, revisions and the skills needed to perform in an architectural firm.

ECE — EARLY CHILDHOOD EDUCATION**ECE 101 Introduction to Early Childhood Education***3 credit hours*

Prerequisite: Minimum assessment scores.
Corequisite: ECE 102

Provides an introduction to Early Childhood Education. Includes the eight key areas of professional knowledge: Child Growth and Development; Health, Nutrition and Safety; Developmentally Appropriate Practices; Guidance; Family and Community Relationships; Diversity; Professionalism; Administration and Supervision. Focuses on ages birth through age 8.

ECE 102 Introduction to Early Childhood Lab Techniques*3 credit hours*

Prerequisite: Minimum Assessment Scores
Corequisite: ECE 101

Focuses on a classroom seminar and placement in a child care setting. The supervised placement provides the student with the opportunity to observe children, to practice appropriate interactions, and to develop effective guidance and management techniques. Addresses ages birth through age 8.

ECE 103 Guidance Strategies for Children*3 credit hours*

Prerequisite: Minimum assessment scores

Explores guidance theories, applications, goals, techniques and factors that influence expectations, classroom management issues, and prosocial skills. Addresses ages birth through age 8.

ECE 108 The Assessment Process in Early Childhood Education*1 credit hour*

Prerequisite: Minimum Assessment scores

Focuses on exposing students to a wide variety of screening tools and evaluations appropriate for children birth to eight years of age. Enables students to gain beginning knowledge in the selection of developmental screening tools and evaluations important to the IFSP/IEP.

ECE 111 Infant and Toddler Theory and Practice*3 credit hours*

Prerequisite: Minimum assessment scores

Presents an overview of theories, applications (including observations) and issues pertinent to infant and toddler development in group and/or family settings. Includes state requirements for licensing, health, safety and nutrition issues.

ECE 188 Practicum: Early Childhood Education*3 credit hours*

Prerequisite: ECE 101, ECE 102, ECE 103, ECE 220, ECE 236, ECE 240, ECE 241, ECE 256
Corequisite: ECE 108

Provides students with field experience in early childhood programs.

ECE 205 Nutrition, Health and Safety*3 credit hours*

Prerequisite: Minimum assessment scores

Focuses on nutrition, health and safety as a key factor for optimal growth and development of young children. Content includes nutrient knowledge, menu planning, food program participation, health practices, management and safety, appropriate activities and communication with families. Addresses ages from prenatal through age 8.

ECE 209 Observing and Utilizing Young Children's Assessment Instruments*1 credit hour*

Prerequisite: Minimum assessment scores

Corequisite: ECE 288

Examines the current research on the continuous practice of observing children. Students practice with a variety of assessment instruments currently used in Colorado ECE programs.

ECE 220 Curriculum Development: Methods and Techniques*3 credit hours*

Prerequisite: Minimum assessment scores.

Provides an overview of early childhood curriculum development. Includes processes for planning and implementing developmentally appropriate environments, materials and experiences, and quality in early childhood programs.

ECE 226 Creativity and the Young Child*3 credit hours*

Prerequisite: Minimum assessment scores

Provides an emphasis on encouraging and supporting creative self-expression and problem solving skills in children. Explores creative learning theories and research. Focuses on developmentally appropriate curriculum strategies in all developmental domains. Addresses ages birth through age 8.

ECE 228 Language and Literacy*3 credit hours*

Prerequisite: Minimum assessment scores

Presents strategies for optimum language development, literacy, social and emotional development. Supports children's language and literacy in home, classroom, and community settings. Provides appropriate teacher/child verbal interactions, classroom environments, and activities. Addresses ages birth through age 8.

ECE 236 Child Growth / Development Laboratory*1 credit hour*

Prerequisite: Minimum assessment scores

Covers the growth and development of the child from conception through the elementary school years. Emphasizes physical, cognitive, language, social and emotional domains and the concept of the whole child and how adults can provide a supportive environment. Addresses ages from prenatal through age 12.

ECE 238 Child Growth and Development*4 credit hours*

Prerequisite: ECE 101

Corequisite: ECE 102

Covers the growth and development of the child from conception through the elementary school years. Emphasizes physical, cognitive, language, social and emotional domains and the concept of the whole child and how adults can provide a

supportive environment. Ages addressed: prenatal through age 12. This course has an early childhood laboratory component.

ECE 240 Administration of Early Childhood Care and Education Programs

3 credit hours

Prerequisite: Minimum assessment scores
Examines Colorado's minimal licensing requirements, as well as optimal standards pertaining to the operation of programs for young children. Focuses on the director's administrative skills and role as a community advocate for young children. Addresses ages birth through age 12.

ECE 241 Administration: Human Relations for Early Childhood Education

3 credit hours

Prerequisite: Minimum assessment scores
Focuses on the human relations component of an early childhood professional's responsibilities. Includes director-staff relationships, staff development, leadership strategies, parent-professional partnerships, and community interaction.

ECE 256 Working with Parents, Families and Community System

3 credit hours

Prerequisite: Minimum assessment scores
Examines attitudes and family values systems and how they affect parent-professional partnerships. Addresses communication, problem-solving and conflict resolution strategies. Plans effective activities and programs for parent involvement. Addresses ages birth through 8.

ECE 260 Exceptional Child

3 credit hours

Prerequisite: ECE 236, minimum assessment scores
Presents an overview of typical and atypical developmental progression. Includes planning techniques, learning strategies, legal requirements and accommodations and adaptations that are necessary in order to create an integrated classroom environment for a child with a wide range of exceptionalities. Focuses on ages birth through age 8.

ECE 275 Special Topics: General (advanced)

1 - 6 credit hours

Explores current topics, issues and activities related to one or more aspects of the early childhood care and education profession.

ECE 288 Practicum: Early Childhood Education

3 credit hours

Prerequisite: ECE 188

Corequisite: ECE 209

Provides students with advanced field experience opportunities in early childhood education programs.

ECO — ECONOMICS

ECO 201 Principles of Macroeconomics

3 credit hours

Focuses on the study of the American economy, stressing the interrelationships among household, business, and government sectors. Explores saving and investment decisions, unemployment, inflation, national income accounting, taxing and spending policies, the limits of the market and government, public choice theory, the Federal Reserve System, money and banking, and international trade. This course is one of the Statewide Guaranteed Transfer courses. GT-SS1

ECO 202 Principles of Microeconomics

3 credit hours

Prerequisite: Minimum assessment scores in reading, math and English, or instructor consent.

Focuses on the consumer, the firm, the nature of cost, and how these relate to the economy as a whole. Analyzes economic models of the consumer, perfect competition, monopoly, oligopoly and monopolistic competition. Explores economic issues including market power, population growth, positive and negative externalities, income distribution, poverty and welfare, discrimination, and international economic interdependence. This course is one of the Statewide Guaranteed Transfer courses. GT-SS1

EDU — EDUCATION

EDU 110 Overview of Special Populations for Paraeducators

3 credit hours

Prerequisite: Instructor consent or minimum assessment scores

Provides students with knowledge in the areas of: laws and history of special education; roles and responsibilities of paraeducators; planning for students with disabilities; typical and non-typical developmental stages

of children and youth; basic learning concepts; cognitive, communicative, physical and affective needs of students with disabilities; understanding people with disabilities; transition, job coaching; and how to teach students self-advocacy skills.

EDU 111 Communication Skills with Special Populations for

3 credit hours

Prerequisite: Instructor consent or minimum assessment scores

Provides knowledge in areas of effective communication skills, problem-solving techniques, and analyzing self as communicator.

EDU 112 Health and Safety Issues in Schools for Paraeducators

1 credit hour

Prerequisite: Instructor consent or minimum assessment scores

Provides students with the knowledge in the areas of health and safety issues in schools; basic first aid and CPR procedures; and the feeding and positioning of physically challenged students.

EDU 114 Student Behavior Management for Paraeducators

3 credit hours

Prerequisite: Instructor consent or minimum assessment scores

Provides students knowledge in the areas of behavior modification; teaching appropriate behaviors; contingency contracts; observing and recording behavior; lunchroom supervision; and playground supervision.

EDU 130 Test Prep for Paraeducator WorkKeys

1 credit hour

Prerequisite: none

Reviews format and content for the ACT Paraeducator WorkKeys assessment. Students will become familiar with the knowledge needed for the applied math, reading for information and writing assessments. Test taking strategies will also be discussed.

EDU 141 Basic Instructional Techniques for Paraeducators

3 credit hours

Prerequisite: Instructor consent or minimum assessment scores

Provides students with knowledge in the areas of delivering instruction; grouping

students; reading with students; modifying instructional materials; using technology; and utilizing adaptive equipment.

EDU 187 Cooperative Education

1 - 6 credit hours

Provides students an opportunity to gain practical experience in applying their occupational skills and/or to develop specific skills in a practical work setting. The instructor works with the student to select an appropriate work site, establish learning objectives and to coordinate learning activities with the employer or work site supervisor.

EDU 188 Practicum I

4 credit hours

Prerequisite: EDU 110, EDU 111, EDU 112, EDU 114, EDU 141 or instructor consent

Provides students with the opportunity to supplement coursework with practical work experience related to their educational program. Students work under the immediate supervision of experienced personnel at the education facility and with the direct guidance of the instructor.

EDU 221 Introduction to Education

3 credit hours

Prerequisite: Minimum assessment scores or instructor consent

Corequisite: EDU 275

Focuses on the historical, social, political, philosophical, cultural and economic forces that shape the United States public school system. Includes current issues of educational reform, technology as it relates to education and considerations related to becoming a teacher in the state of Colorado.

EDU 230 Literacy Instructional Techniques

4 credit hours

Prerequisite: EDU 141 or instructor consent

Provides students with more knowledge of instructional techniques in the teaching of language, reading, and writing. Introduces students to the phases of literacy development and explores the best practices in literacy instruction for grades K-6. Accommodating the needs of learners with special needs, including learning disabilities or second language considerations, are also covered. Theory and practical classroom applications methods are emphasized.

EDU 231 Introduction to Bilingual Education

4 credit hours

Focuses on bilingual and multicultural education with emphasis on the linguistically and culturally diverse learner. Covers historical perspectives, philosophical frameworks, legal implications, subject matter methodologies and current issues that impact bilingual educational programs.

EDU 232 Literacy in the Multicultural/Multilingual Classroom

3 credit hours

Introduces students to the theories, methods, and techniques for teaching reading and language to children from diverse cultural and linguistic backgrounds. Includes field experience applying coursework with children.

EDU 233 English Language Learning (K-6)

3 credit hours

Prerequisite: Child Development Class (EDU 238) or Permission of Instructor

Prepares teachers with strategies to develop English language learners' social and academic English and support their transition to US culture and schools. This course is appropriate in a variety of program models—mainstream classrooms, self-contained ESL classrooms, and bilingual programs—and can be adapted for use with pre-service teachers.

EDU 242 Expressive Arts in the Elementary Classroom

3 credit hours

Explores the integration of visual arts, music, and physical education/movement into the self-contained elementary classroom curriculum based upon the theory of multiple intelligences. Familiarizes the student with the Colorado Model Content Standards for each area, basic curriculum development, and the opportunities to practice their skills with students through field experiences.

EDU 261 Teaching, Learning and Technology

3 credit hours

Prerequisite: Minimum assessment scores

Prepares students to integrate technology into their teaching curriculum. Enables the student to design educational and training materials incorporating instructional technology. Explores a variety of technologies, including the computer, Internet, multimedia, graphics, audio, and text with an emphasis on increasing learning through their use. Exam-

ines combining technology with a variety of instructional methodologies.

EDU 275 Special Topics: Multicultural Education

1 credit hour

Prerequisite: Minimum assessment scores or instructor consent

Corequisite: EDU 221

Provides students with a vehicle to pursue in depth exploration of special topics of interest.

EMS — EMERGENCY MEDICAL SERVICES

EMS 125 EMT Basic

9 credit hours

Corequisite: EMS 103, 170

Enables the student after successful completion of this course to take the EMT Certification Examination subject to the requirements of the Colorado Department of Health and Environment. Includes written and practical examinations. Student must be at least 18 years of age.

EMS 130 EMT Intravenous Therapy

2 credit hours

Prerequisite: EMT Basic Certification

Focuses on cognitive and skill practice as required by Colorado Prehospital Care program for EMT Basic level IV approval. Examines criteria, procedures and techniques for ICV therapy, discusses fluid and electrolyte balance and principles and treatment for shock.

EMS 170 EMT Basic Clinical

1 credit hour

Corequisite: EMS 103, 125

Provides the EMT student with the clinical experience required of initial and some renewal processes.

END — ELECTROENCEPHALOGRAPHIC TECHNOLOGY

END 102 Electroencephalography (EEG) I

4 credit hours

Prerequisite: BIO 201, ENG 121, MAT 107, CIS 118

Corequisite: END 103

Introduces the history and development of EEG, electrode design and application methods, patient assessment and basic

principles of laboratory management. Examines the International 10-20 system of electrode placement. Includes the laboratory sessions to practice the International 10-20 system of electrode placement.

END 103 Instrumentation/Principles

3 credit hours

Prerequisite: BIO 201, ENG 121, MAT 107, CIS 118

Corequisite: END 102, BIO 202, PSY 235

Concentrates on basic Electroencephalographic (END) principles, electrode types and characteristics, application techniques, machine instrumentation, basic electronic principles, electrical theory and safety, equipment maintenance and troubleshooting. Includes concepts of digital EEG and clinical observation.

END 112 Electroencephalography (EEG) II

4 credit hours

Prerequisite: BIO 202, PSY 235, END 102, END 103

Corequisite: END 104, END 115

Practices electroencephalography (EEG) testing at clinical sites. Develops skills in the 10-20 system.

END 115 Patient Care and Safety

3 credit hours

Prerequisite: END 102, END 103, PSY 235, BIO 202

Corequisite: END 104, END 112

Emphasizes basic techniques in patient handling and in communication skills with patient, family and staff. Examines patients with special needs, management of medical emergencies and seizure first aid.

END 206 Neuroanatomy and Physiology

3 credit hours

Prerequisite: BIO 202, END 112, END 115, END 104

Corequisite: END 214, END 207

Expands and explores information covered in END 102. Provides in-depth knowledge of the central nervous system (CNS) maturation and specific pertinent changes.

END 207 Evoked Potential

6 credit hours

Prerequisite: EEG 185

Presents the concepts, terminology and techniques of evoked potential (EP) technology. Provides an overview of instrumentation related to EPs. Introduces each of three modalities (VEP, BAEP and SEP).

Lab sessions will include practice recordings of each EP modality on classmates.

END 210 Clinical Neurology

3 credit hours

Prerequisite: END 102, END 103, END 181, END 112, END 115, END 206, END 214, END 207

Corequisite: END 224, END 285

Presents diseases relevant to Electro-neurodiagnostic Technology and clinical correlation of EEG patterns. Includes seizure types, classifications with EEG correlation, encephalopathies, infections, psychiatric and cerebrovascular disease, neoplasms, coma, headaches and related clinical disorders. Introduces neuropharmacology.

END 251 Related Modalities

3 credit hours

Prerequisite: END 115, Math 103, CIS 118, END 102, END 180, END 206, END 281, END 207

Corequisite: END 210, END 282, END 285

Develops a basic knowledge of neuromuscular disease processes, nerve conduction studies (NCV) and electromyography. Provides exposure to clinical techniques in intraoperative monitoring, polysomnography and long term epilepsy monitoring.

END 280 Internship — Clinical

1 credit hour

Prerequisite: END 115, MAT 107, CIS 118, END 102, END 103

Corequisite: END 112

Provides students with the opportunity to supplement coursework with practical work experience related to their educational program. Students work under the immediate supervision of experienced personnel at the business location and with the direct guidance of the instructor.

END 281 Clinical Internship

5 credit hours

Prerequisite: END 102, END 103, END 181, END 112, END 115

Corequisite: END 206, END 207

Emphasizes electroencephalographic (EEG) testing at clinical sites and includes history taking, electrode application and recording. Emphasis will be placed on development of basic techniques and interpersonal skills.

END 282 Clinical Internship II

5 credit hours

Prerequisite: END 102, END 103, END 181, END 112, END 115

Corequisite: END 206, END 207

Emphasizes evoked potential testing (EP) at clinical sites and includes evoked potential testing (EP) in the somatosensory, visual and auditory modalities. Emphasis will be placed on the observation and performance of other more specialized neurodiagnostic procedures such as intraoperative monitoring.

END 289 Electroencephalographic Technology Capstone

3 credit hours

Prerequisite: END 102, END 103, END 104, END 112, END 115, END 206, END 281, END 207

Corequisite: END 210, END 282

Prepares the student for a job search in the electroencephalographic field, and reviews the major areas covered during the two-year program prior to the student sitting for the National Registry Examination.

ENG — ENGLISH

ENG 030 Basic Writing Skills

2 credit hours

Prerequisite: Appropriate assessment score

Focuses on sentence and basic paragraph structure and development. Enables the student to review and improve grammar, usage, and punctuation skills while employing critical thinking strategies and the writing process to respond to a wide variety of writing situations.

ENG 060 Writing Fundamentals

3 credit hours

Prerequisite: Appropriate assessment score or ENG 030

Focuses on paragraph structure and development and introduces the formal essay. Enables the student to review and improve grammar, usage, and punctuation skills while employing critical thinking strategies and the writing process to respond to a wide variety of writing situations.

ENG 090 Basic Composition

3 credit hours

Prerequisite: Appropriate assessment score or ENG 060 or ESL 053

Emphasizes critical thinking as students

explore writing for specific purposes and audiences. Enables the student to develop skills required for college-level writing while reviewing paragraph structure and focusing on essay development.

ENG 121 English Composition I

3 credit hours

Prerequisite: ENG 090 with a grade C or better or minimum college-level English assessment score

Emphasizes the planning, writing, and revising of compositions, including the development of critical and logical thinking skills. This course includes a minimum of five compositions that stress analytical, evaluative, and persuasive/argumentative writing. This course is one of the Statewide Guaranteed Transfer courses. GT-CO1

ENG 122 English Composition II

3 credit hours

Prerequisite: Grade of C or better in ENG 121.

Expands and refines the objectives of English Composition I. Emphasizes critical/ logical thinking and reading, problem definition, research strategies, and writing analytical, evaluative and/or persuasive papers that incorporate research. This course is one of the Statewide Guaranteed Transfer courses. GT-CO1

ENG 131 Technical Writing I

3 credit hours

Prerequisite: ENG 090 with a grade of C or better or minimum college-level English assessment score.

Develops skills one can apply to a variety of technical documents. Focuses on principles for organizing, writing, and revising clear, readable documents for industry, business, and government.

ENG 221 Creative Writing I

3 credit hours

Prerequisite: ENG 090 with a grade of C or better or minimum college-level English assessment score.

Teaches techniques for creative writing. Explores imaginative uses of language through creative genres (fiction, poetry, literary nonfiction) with emphasis on the student's own unique style, subject matter and needs.

ENG 222 Creative Writing II

3 credit hours

Prerequisite: ENG 221 or instructor consent.

Provides continued development of written expression in such forms as poetry, fiction, and/or nonfiction writing.

ENG 285 Independent Study

1 credit hour

Prerequisite: Permission needed from instructor.

Meets the individual needs of students. Students engage in intensive study or research under the direction of a qualified instructor.

ESL — ENGLISH AS A SECOND LANGUAGE

ESL 001 Spelling

3 credit hours

Introduces ESL students to techniques that increase basic spelling skills in English. Study includes structured word analysis, rule analysis and spelling strategies for words not governed by rules.

ESL 011 Basic Pronunciation

3 credit hours

Provides listening and speaking activities that help students recognize and produce English vowel and consonant sounds and common stress and intonation patterns.

ESL 012 Intermediate Pronunciation

3 credit hours

Prerequisite: ESL 041 or LOEP reading score of 46+

Provides listening, speaking and reading activities that help students recognize and produce a variety of stress and intonation patterns in English. Helps ESL students to produce problematic English sounds.

ESL 013 Advanced Pronunciation 2 - 4 credit hours

Prerequisite: ESL 012

Continues instruction and practice in rhythm, stress, and intonation patterns, as well as the production of vowel and consonant sounds.

ESL 021 Basic Grammar

3 - 5 credit hours

Prerequisite: Minimum assessment score

Assists the student in mastering basic structures in English grammar through oral and written practice.

ESL 022 Intermediate Grammar

3 - 5 credit hours

Prerequisite: ESL 021 or minimum assessment score

Reviews basic grammar and introduces intermediate structures. Provides integrated practice through a variety of oral and written exercises.

ESL 023 Advanced Grammar

3 - 5 credit hours

Prerequisite: ESL 022 or minimum assessment score

Reviews intermediate grammar. Introduces advanced structures with increased emphasis on written communication.

ESL 031 Basic Conversation

3 - 4 credit hours

Prerequisite: Minimum assessment scores

Focuses on listening and speaking activities that help the student communicate more competently. Provides practice with pronunciation, vocabulary, and basic grammatical patterns.

ESL 032 Intermediate Conversation

3 credit hours

Prerequisite: ESL 031 or minimum assessment score

Teaches listening, pronunciation and conversation skills. Increases speed and accuracy in speaking through free and guided conversational practice.

ESL 033 Advanced Conversation

3 credit hours

Prerequisite: ESL 022 or minimum assessment score

Provides student with opportunities to increase the listening and speaking skills required in academic and work situations. Emphasizes vocabulary building, listening, and note-taking strategies, as well as questioning, discussion and presentation skills.

ESL 041 Basic Reading

3 credit hours

Prerequisite: Minimum assessment score

Improves comprehension of simple written texts through vocabulary building and reading strategies.

ESL 042 Intermediate Reading

3 - 4 credit hours

Prerequisite: ESL 041 or minimum assessment score

Helps the student read more quickly and accurately and understand a variety of intermediate-level reading material.

ESL 043 Advanced Reading

3 credit hours

Prerequisite: ESL 042 or minimum assessment score

Prepares the student for academic reading assignments. Assists the student to read more accurately and critically through the development of vocabulary knowledge and reading skills. Introduces research skills.

ESL 051 English As A Second Language (Off-Campus)

1 - 12 credit hours

Prerequisite: Appropriate score on entrance test

Serves as an open-entry, open-exit course of study from basic to intermediate to advanced (5 levels) in speaking, listening, reading, and writing English.

ESL 052 Intermediate Composition

3 credit hours

Prerequisite: ESL 022 or 023

Corequisite: ESL 023 (if not completed as a prerequisite)

Introduces the fundamentals of paragraph organization and development. Assists the student in developing sentence variety and grammatical competency within well-organized paragraphs.

ESL 053 Advanced Composition

3 credit hours

Prerequisite: ESL 052 or Writing Sample placement

Reviews paragraph organization and develops the skills of writing essays using selected rhetorical modes. Stresses accurate use of advanced grammatical structures. Includes summarizing, paraphrasing and research writing.

ESL 055 Computer Basics for ESL Students

2 credit hours

Prerequisite: ESL 022 or ESL 023 or LOEP

Grammar Assessment Score of 46+

Corequisite: ESL 052 Intermediate Composition, or ESL 053 Advanced Composition

Introduces the basic skills for computer

use, including word processing, test entry, document appearance, editing, spelling, e-mail, CCD web-based class support, programs available in the ESL lab and sites for learning grammar, web search, and word processing for composition classes.

ESL 061 Vocational ESL I

1 - 4 credit hours

Prerequisite: Instructor consent

Teaches limited English vocational students basic communication skills in preparation for vocational training and work.

ESL 062 Vocational ESL II

1 - 4 credit hours

Prerequisite: Instructor consent

Provides intermediate to advanced level English language learners with instruction in language skills needed for vocational training and employment.

ESL 064 Job Search Skills

3 credit hours

Prerequisite: Instructor consent

Provides ESL students with basic pre-employment skills that include developing a resume, completing applications, interviewing for a job, calling for information about a job and focusing the job search.

ESL 071 Basic Language Skills

9 credit hours

Prerequisite: Minimum assessment scores

Develops and strengthens the reading, writing, listening, speaking and grammar production skills of non-native English speakers whose assessment scores reflect a readiness to benefit from basic-level ESL courses.

ESL 072 Intermediate Language Skills

9 credit hours

Prerequisite: ESL 021 and 041, or intermediate level test scores

Provides intermediate and high-intermediate English language students with intensive instruction and practice in reading, writing and speaking English. Teaches intermediate and advanced-level grammar concepts. Prepares students for further academic and vocational study.

ETH — ETHNIC STUDIES

ETH 212 African-American Studies

3 credit hours

Explores in-depth introduction of Africans to the colonies and historical developments through modern-day America. Focuses on the decisions and choices that have impacted African-Americans through contemporary times.

ETH 224 Introduction to Chicano Studies

3 credit hours

Prerequisite: ENG 090 with a grade of C or better or minimum college-level English assessment score.

Introduces students to skills development in multicultural education. Covers Chicano history, migration and labor, education, law and Chicano culture.

FRE — FRENCH (FOREIGN LANGUAGES PROGRAM)

FRE 101 Conversational French I

3 credit hours

Introduces beginning students to conversational French and focuses on understanding and speaking French. Covers basic vocabulary, grammar, and expressions that are used in daily situations and in travel.

FRE 102 Conversational French II

3 credit hours

Continues the sequence for beginning students who wish to understand and speak French. Covers basic conversational patterns, expressions, and grammar.

FRE 111 French Language I

5 credit hours

Begins a sequence dealing with the development of functional proficiency in listening, speaking, reading and writing the French language.

FRE 112 French Language II

5 credit hours

Prerequisite: FRE 111 or instructor permission.

Continues French I in the development of functional proficiency in listening, speaking, reading and writing the French language.

FRE 211 French Language III*3 credit hours*

Prerequisite: FRE 112 or instructor permission.

Continues French I and II in the development of increased functional proficiency in listening, speaking, reading and writing the French language. *Note:* The order of the topics and the methodology will vary according to individual texts and instructors. This course is one of the Statewide Guaranteed Transfer courses. GT-AH4

FRE 212 French Language IV*3 credit hours*

Prerequisite: FRE 211 or instructor consent

Continues French I, II, and III in the development of increased functional proficiency in listening, speaking and writing the French language. *Note:* The order of the topics and the methodology will vary according to individual texts and instructors. This course is one of the Statewide Guaranteed Transfer courses. GT-AH4

FRE 285 Independent Study*1 - 6 credit hours*

Prerequisite: Permission from instructor.

Meets the individual needs of students. Students engage in intensive study or research under the direction of a qualified instructor.

**FST — FIRE SCIENCE
(PUBLIC SAFETY
PROGRAM)****FST 102 Introduction to Fire Science***3 credit hours*

Introduces students to fire service organizations and operations from past to present operations. Topics include: operation and organization of federal, state, local, and private forces; fire equipment, extinguishing agents; special hazard considerations; and other related topics.

**GED — GENERAL
EDUCATION DEVELOPMENT****GED 010 Pre-GED Preparation***1 credit hour*

Presents material for the students who needs review before doing GED preparation. Diagnostic tests determine skill level; help is available in writing skills, reading, and math.

GED 011 GED Preparation*1 - 3 credit hours*

Prerequisite: Must be at least 17 years of age. Must complete GED 010 or must meet minimum established assessment scores in reading and mathematics as measured by the Test of Adult Basic Education (TABE).

Presents material for students who need to prepare for the GED tests (Colorado High School Equivalency Examination): Language Arts, Writing; Language Arts, Reading; Mathematics; Science; and Social Studies.

GEO — GEOGRAPHY**GEO 105 World Regional Geography***3 credit hours*

Facilitates an understanding of spatial relationships between and among the geographic regions of the world. Includes demographic and cultural (political, economic, and historic) forces related to the physical environments of selected regions. Focuses on analysis of interrelationships between developed and developing regions, and the interactions between human societies and natural environments. This course is one of the Statewide Guaranteed Transfer courses. GT-SS2

GEO 165 Human Ecology*3 credit hours*

Provides a current outlook for the global environment, describing the threats imposed on different natural ecological systems. Enables the student to develop a set of intellectual tools and ways of thinking about the environment to evaluate for themselves how serious a given environmental problem will be.

**GER — GERMAN (FOREIGN
LANGUAGES PROGRAM)****GER 111 German Language 1***5 credit hours*

Begins a sequence dealing with the development of functional proficiency in listening, speaking, reading and writing the German language. *Note:* The order of the topics and methodology will vary according to individual texts and instructors.

GER 112 German Language II*5 credit hours*

Prerequisite: GER 111

Continues German Language I in the development of functional proficiency in listening, speaking, reading and writing the German language. *Note:* the order of the topics and the methodology will vary according to individual texts and instructors.

GER 211 German Language III*3 credit hours*

Prerequisite: GER 111

Continues German Language I and II in the development of increased functional proficiency in listening, speaking, reading and writing the German language. *Note:* The order of the topics and the methodology will vary according to individual texts and instructors. This course is one of the Statewide Guaranteed Transfer courses. GT-AH4

GER 212 German Language IV*3 credit hours*

Prerequisite: GER 111, GER 112 and GER 211

Continues German Language I, II and III in the development of increased functional proficiency in listening, speaking, reading and writing the German language. *Note:* The order of the topics and the methodology will vary according to individual texts and instructors. This course is one of the Statewide Guaranteed Transfer courses. GT-AH4

GER 275 Special topics*0.5 - 6 credit hours credit hours*

Provides students with a vehicle to pursue in depth exploration of special topics of interest.

GEY — GEOLOGY**GEY 111 Physical Geology***4 credit hours*

Prerequisite: ENG 090 or higher

Studies the materials of the earth, its structure, surface features and the geologic processes involved in its development. This course includes laboratory experience. This course is one of the Statewide Guaranteed Transfer courses. GT-SC1

GEY 121 Historical Geology*4 credit hours*

Prerequisite: GEY 111

Studies the physical and biological development of the earth through the vast span

of geologic time. Emphasizes the investigation and interpretation of sedimentary rocks, the record of ancient environments, fossil life forms, and physical events, all within the framework of shifting crustal plates. Course includes laboratory experience. This course is one of the Statewide Guaranteed Transfer courses. GT-SC1

GEY 285 Independent Study

0.5 - 6 credit hours

Prerequisite: Instructor permission

Meets the individual needs of students. Students engage in intensive study or research under the direction of a qualified instructor.

HEB — HEBREW (FOREIGN LANGUAGES PROGRAM)

HEB 111 Introduction to the Hebrew Language

5 credit hours

Deals with the development of functional proficiency in listening, speaking, reading and writing the Hebrew language. *Note:* The order of the topics and methodology will vary according to individual texts and instructors.

HIS — HISTORY

HIS 101 History of Western Civilization I

3 credit hours

Prerequisite: ENG 090 with a grade of C or better or minimum college-level English assessment score.

Explores a number of events, peoples, groups, ideas, institutions, and trends that have shaped Western Civilization from the prehistoric era to 1650. Reflects the multiple perspectives of gender, class, religion, and ethnic groups. Focuses on developing, practicing, and strengthening the skills historians use while constructing knowledge in this discipline. This course is one of the Statewide Guaranteed Transfer courses. GT-HI1

HIS 102 History of Western Civilization II

3 credit hours

Explores a number of events, peoples, groups, ideas, institutions, and trends that have shaped Western Civilization from 1650 to the present. Reflects the multiple perspectives of gender, class, religion, and ethnic groups. Focuses on developing, practicing, and strengthening the skills historians use while

constructing knowledge in this discipline. This course is one of the Statewide Guaranteed Transfer courses. GT-HI1

HIS 201 United States (U. S.) History I

3 credit hours

Prerequisite: ENG 090 with a grade of C or better or minimum college-level English assessment score.

Explores events, trends, peoples, groups, cultures, ideas, and institutions in North America and United States history, including the multiple perspectives of gender, class, and ethnicity, between the period when Native American Indians were the sole inhabitants of North America, and the American Civil War. Focuses on developing, practicing, and strengthening the skills historians use while constructing knowledge in the discipline. This course is one of the Statewide Guaranteed Transfer courses. GT-HI1

HIS 202 United States (U. S.) History II

3 credit hours

Prerequisite: ENG 090 with a grade of C or better or minimum college-level English assessment score.

Explores events, trends, peoples, groups, cultures, ideas, and institutions in United States History, including the multiple perspectives of gender, class, and ethnicity, between the period of the American Civil War and the present. Focuses on developing, practicing, and strengthening the skills historians use while constructing knowledge in the discipline. This course is one of the Statewide Guaranteed Transfer courses. GT-HI1

HIS 205 Women in World History

3 credit hours

Prerequisite: ENG 090 with a grade of C or better or minimum college-level English assessment score.

Examines the roles, experiences, and contributions of women in world history and explores ways in which women's history modifies the traditional interpretations of historical events.

HIS 225 Colorado History

3 credit hours

Prerequisite: ENG 090 with a grade of C or better or minimum college-level assessment score.

Presents the story of the people, society, and cultures of Colorado from its earliest Native Americans, through the Spanish influx,

the explorers, the fur traders and mountain men, the gold rush, railroad builders, the cattlemen and farmers, the silver boom, the tourists, and the modern state.

HIS 285 Independent Studies

1 - 5 credit hours

Prerequisite: Permission from the instructor
Incorporates structured and guided, individualized research that is organized and tailored around the interests and needs of the individual students.

HPR — HEALTH PROFESSIONS

HPR 102 CPR for Professionals

0.5 credit hour

Meets the requirement for American Red Cross Professional Rescuer CPR or American Heart Association Basic Life Support for those who work in Emergency Services, Health Care and other professional areas. Material presented in the course is basic patient assessment, basic airway management, rescue breathing, and CPR for infant, children and adult patients.

HPR 104 Health Career Options

1 credit hour

Discusses current market trends in the medical profession, professional opportunities, continuing education, and professional affiliations. Discussions regarding resumes, letters of inquiry, and interviewing techniques, as well as job search information is provided. This course is primarily informational and provides information to the student about aspects of career choices of Medical Office Technology career-chosen avenues: Medical Assisting, Medical Transcription, and Phlebotomy.

HPR 106 Law and Ethics for Health Professions

2 credit hours

Advances student knowledge in the study and application of medico-legal concepts in medical careers, establishes a foundation for ethical behavior and decision making.

HPR 108 Dietary Nutrition

1 credit hour

Studies the basic principles in clinical practice involved in the assistance of health care. The course will cover factors that

influence the nutritional status of individuals, methods of nutritional assessment and support, and diet modification for specific disease states.

HPR 112 Phlebotomy

4 credit hours

Teaches the duties associated with the practice of venipuncture, capillary puncture, and special collection procedures. Students will have experience with quality control, infection control and safety procedures as well as laboratory computer systems. Students successfully completing this course may apply for a National Phlebotomy Registry Examination.

HPR 175 Special Topics-First Aid/CPR

1 credit hour

Prerequisite: None

Provides students with the knowledge and skill in procedures for emergency care, accident prevention, injury and/or sudden illness until medical help is available. Students will earn American Red Cross certification in first aid and cardiopulmonary resuscitation for infant, child, and adult.

HPR 178 Seminar: Intro to Medical Terminology

1 - 4 credit hours

Prerequisite: none

Corequisite: none

Introduces the student to the structure of medical terms with emphasis on combining and using the most common prefixes, roots and suffixes. Includes terms related to clinical laboratory, diagnostic imaging, nuclear medicine and oncology, as well as major body systems. Classroom structure provides accepted pronunciation of terms and relative use in the healthcare setting.

HPR 190 Basic EKG Interpretation

2 credit hours

Provides instruction for interpretation of EKG strips, anatomy and physiology of the heart, using three-lead monitoring as a guide. Twelve-lead EKG may be discussed.

HPR 271 Clinical

3 credit hours

Prerequisite: HPR 112, HPR 113

Continues to build upon the principals that are expected to be understood by students in the construction discipline.

HPR 279 Seminar: Advanced Medical Terminology

2 credit hours

Prerequisite: HPR 178

Provides students with an experiential learning opportunity. Expands on commonly used medical abbreviations, symbols and word parts used in medical specialties such as surgery, pathology, radiology, etc.

HSE — HUMAN SERVICES

HSE 105 Introduction to Social Welfare

3 credit hours

Examines the historical and philosophical background of statutes, ideologies, political process, policy making, decision rules and influential leaders who have had an impact on shaping the social welfare institutions in the United States. Offered spring semester only.

HSE 106 Survey of Human Services

3 credit hours

Provides a philosophical, political, statutory and contemporary overview of the role, values, knowledge and intervention strategies encountered by human service professionals in addressing social problems.

HSE 107 Interviewing Principles and Practices

3 credit hours

Provides a beginning level of information on theoretical concepts, primary principles, strategies and interventions implemented in the practice and delivery of human services to individuals and families using the human services interview.

HSE 108 Introduction to Therapeutic Systems

3 credit hours

Prerequisite: HSE 107 or PSY 101 or PSY 235 or instructor consent

Introduces basic concepts of major therapeutic systems, including backgrounds, developmental theories and practices of specific systems from psychoanalysis to reality therapy.

HSE 109 Social Issues in Human Services

3 credit hours

Provides an analytical overview of the social functions of human services. Examines the welfare system from various political perspectives. Presents idealism and

pragmatism of the present state of human services and trends for the future. Offered fall semester only.

HSE 113 Human Services for Persons with Developmental Disabilities

3 credit hours

Prerequisite: ENG 060, REA 060, MAT 060 or instructor consent

Provides a basic overview of the historical development, philosophy and values of rehabilitative services for those who plan to work with persons with developmental disabilities. Offered fall semester only.

HSE 121 Psychosocial Interventions for Persons with Developmental Disabilities

3 credit hours

Prerequisite: ENG 060, REA 060, MAT 060, HSE 113, or instructor consent

Provides students with an overview of models and methods that can prevent and treat behavior problems in individual adults with developmental disabilities.

HSE 188 Human Services Practicum I

4 - 6 credit hours

Prerequisite: Instructor consent

Provides experience in various service agencies to familiarize students with agency work. Emphasizes developing observational skills, individual growth in self-awareness, interviewing skills, introduction to agencies and client systems. A weekly classroom seminar complements the agency experience. Offered spring semester only.

HSE 205 Human Services for Groups

3 credit hours

Prerequisite: HSE 108 or instructor consent

Introduces the concepts, principles, goals and skills of group work as a method of providing human services. Emphasis is on basic practice skills and intervention techniques. Offered fall semester only.

HSE 206 Human Services for Families

3 credit hours

Introduces family theory and practice. Covers such topics as systems theory, communications theories, structure therapists, developmental theory and future directions in family therapy research. Offered fall semester only.

HSE 207 Community Organization

3 credit hours

Prerequisite: HSE 108 or instructor consent

Examines the theory and practice of organizing communities, neighborhoods, committees and advisory boards as they relate to the social services delivery system. Offered fall semester only.

HSE 208 Social Welfare Policy

3 credit hours

Prerequisite: HSE 109 or instructor consent

Presents models for social policy analysis, program planning and evaluation. Applies models to relevant social welfare issues.

HSE 209 Crisis Theory and Intervention

3 credit hours

Prerequisite: HSE 107 and HSE 108 or instructor consent

Introduces basic theories and principles of crisis intervention from a historical and practical orientation. Offered spring semester only.

HSE 215 Introduction to Delinquency and Justice

3 credit hours

Prerequisite: HSE 107 and HSE 108 or instructor consent

Provides a historical and philosophical background of theories, ideologies, statutes, political processes and policies of the American Juvenile Justice System. Examines juvenile processes from predelinquency and adjudication, through corrections.

HSE 221 Substance Abuse Counseling

4 credit hours

Emphasizes two areas of drug and alcohol counselor preparatory work for state certification, including basic counseling skills and client records management. Prepares students for entry-level work in the substance abuse treatment field. Includes the development of treatment plans, clinical notes, discharge summary and demonstration.

HSE 226 Case Management for Human Service Practitioners

3 credit hours

Prerequisite: HSE 107 and HSE 108 or instructor consent

Introduces an advanced program of study incorporating the theory and practice strategies of case management utilizing the specialist model approach.

HSE 285 Independent Study

1 - 6 credit hours

Prerequisite: Permission from Instructor

Provides students the opportunity to pursue advanced topics and projects in the human services discipline utilizing standard research strategies that may include field studies.

HSE 288 Human Services Practicum II

4 credit hours

Prerequisite: HSE 188 or instructor consent.

Provides placement in a service agency where the student applies the values, concepts, and skills gained in theory courses to the actual process of helping people. Emphasis is on sharpening skills and knowledge, use of self in the helping process, understanding systems and use of community resources.

HSE 289 Human Services Practicum III Capstone

7 credit hours

Prerequisite: HSE 288 or instructor consent

Provides practical experience working in an approved social service agency. The student participates in various service agency functions as a group member and leader, and further develops skills and knowledge in the use of self and systems in the helping process. Offered spring semester only.

HUM — HUMANITIES

HUM 121 Early Civilizations

3 credit hours

Prerequisite: ENG 090 with a grade of C or better or minimum college-level English assessment score

Introduces students to the history of ideas that have defined cultures through a study of the visual arts, literature, drama, music and philosophy. It emphasizes connections among the arts, values, and diverse cultures, including European and non-European, from the Ancient world to 1000 C. E. This course is one of the Statewide Guaranteed Transfer courses. GT-AH2

HUM 122 From Medieval to Modern

3 credit hours

Prerequisite: ENG 090 with a grade of C or better or minimum college-level English assessment score.

Examines written texts, visual arts and musical compositions to analyze and reflect the evolution and confluence of cultures in

Europe, Asia and the Americas from 800 C.E. to 1750 C.E. Any two of the three Survey of Humanities courses equal a sequence. This course is one of the Statewide Guaranteed Transfer courses. GT-AH2

HUM 123 The Modern World

3 credit hours

Prerequisite: ENG 090 with a grade of C or better or minimum college-level English assessment score.

Examines the cultures of the 17th through the 20th centuries by focusing on the interrelationships of the arts, ideas, and history. Considers the influences of industrialism, scientific development, and non-European peoples. This course is one of the Statewide Guaranteed Transfer courses. GT-AH2

HUM 266 Documentary Film: From Traditional to Experimental

3 credit hours

Prerequisite: ENG 090 with a grade of C or better or minimum college-level English assessment score.

Explores documentary film as an art form, cultural artifact, and rhetorical strategy.

HUM 285 Independent Study

1 - 6 credit hours

Prerequisite: Permission of the instructor.

Meets the individual needs of students. Students engage in intensive study under the direction of a qualified instructor.

HWE — HEALTH AND WELLNESS

HWE 100 Human Nutrition

3 credit hours

Introduces basic principles of nutrition with emphasis on personal nutrition. Satisfies nutrition requirement of students entering health care professions.

HWE 124 Fitness and Wellness

2 credit hours

Provides information on fitness and wellness and to serve as a guide to design, implement, and evaluate a complete personal fitness and wellness program. The course integrates the basic components of fitness and wellness in understanding human health in order to achieve well-being. This course offers current information in the

health field and provides self-assessments for health risk and wellness behaviors. This includes lifestyle modification, nutrition, weight management, stress management, cardiovascular and cancer risk reduction, exercise and aging, exercise related injury, exercise and the environment, prevention of sexually transmitted diseases, substance abuse (including tobacco, alcohol and other psychoactive drugs), and analysis and interpretation of research publications and web sites in health and wellness

HWE 175 Special Topics: Fitness Technology Lab

6 credit hours

Prerequisite: BIO 175, HWE 103, HPR 108
Corequisite: HWE 124

Provides students with a vehicle to examine the concepts of improved performance in all fitness areas.

HWE 226 Curandismo: A Cultural Approach to Holistic Medicine

3 credit hours

Introduces students to intercultural, alternative and holistic approaches to health, diet and medical care employed by various cultural groups inside and outside the U. S. Methods of instruction include experiential education, critical thinking skills and exposure to experts in the areas of alternative medicine.

INT — INTERIOR DESIGN (ART PROGRAM)

IND 114 Space Planning

3 credit hours

Teaches the principles and factors of space planning, and practice the space planning process through residential and light commercial applications. Students are introduced to interior architecture. Use of bubble diagrams and freehand ink presentation techniques are also included.

JOU — JOURNALISM

JOU 105 Introduction to Mass Media

3 credit hours

Prerequisite: ENG 090 with a grade of C or better or minimum college-level English assessment score.

Places the mass media in an historical and cultural perspective, considering the

validity, integrity and influence of the media in a democracy.

JOU 106 Fundamentals of Reporting

3 credit hours

Prerequisite: ENG 090 with a grade of C or better or minimum college-level English assessment score.

Introduces newswriting, reporting and interviewing with an emphasis on clarity, accuracy, completeness, timeliness and fairness.

JOU 285 Independent Study

1 - 6 credit hours

Prerequisite: Permission needed from instructor

Meets individual needs of students. Students engage in intensive study or research under the direction of a qualified instructor.

JPN — JAPANESE (FOREIGN LANGUAGES PROGRAM)

JPN 101 Conversational Japanese I

3 credit hours

Introduces beginning students to conversational Japanese and focuses on understanding and speaking Japanese. Covers basic vocabulary, grammar, and expressions that are used in daily situations and in travel.

JPN 111 Japanese Language I

5 credit hours

Introduces a sequence dealing with the development of functional proficiency in listening, speaking, reading and writing the Japanese language. *Note:* The order of the topics and methodology will vary according to individual texts and instructors.

JPN 112 Japanese Language II

5 credit hours

Continues Japanese Language I in the development of functional proficiency in listening, speaking, reading and writing the Japanese language. *Note:* The order of the topics and the methodology will vary according to individual texts and instructors.

JPN 211 Japanese Language III

3 credit hours

Prerequisite: JPN 112

Continues Japanese Language I and II in the development of increased functional proficiency in listening, speaking, reading and writ-

ing the Japanese language. *Note:* The order of the topics and the methodology will vary according to individual texts and instructors. This course is one of the Statewide Guaranteed Transfer courses. GT-AH4

JPN 212 Japanese Language IV

3 credit hours

Prerequisite: JPN 211

Continues Japanese Language I, II and III in the development of increased functional proficiency in listening, speaking, reading and writing the Japanese language. *Note:* The order of the topics and the methodology will vary according to individual texts and instructors. This course is one of the Statewide Guaranteed Transfer courses. GT-AH4

LAK — LAKOTA (FOREIGN LANGUAGES PROGRAM)

LAK 101 Conversational Lakota Sioux Language I

3 credit hours

Introduces the skills necessary to acquire proficiency in communication skills (listening, speaking, writing and reading) in the Lakota Sioux language. Introduces students to an understanding of the Lakota Sioux culture.

LIT — LITERATURE

LIT 115 Introduction to Literature I

3 credit hours

Prerequisite: ENG 090 with a grade of C or better or a minimum college-level English assessment score.

Introduces students to fiction, poetry and drama. Emphasizes active and responsive reading. This course is one of the Statewide Guaranteed Transfer courses. GT-AH2

LIT 201 Masterpieces of Literature I

3 credit hours

Prerequisite: ENG 090 with a grade of C or better or minimum college-level English assessment score.

Examines significant writings in world literature from the ancients through the Renaissance. Emphasizes careful readings and understanding of the works and their cultural backgrounds. This course is one of the Statewide Guaranteed Transfer courses. GT-AH2

LIT 202 Masterpieces of Literature II*3 credit hours*

Prerequisite: ENG 090 with a grade of C or better or minimum college-level English assessment score.

Examines significant writings in world literature from the seventeenth century to the present. Emphasizes careful reading and understanding of the works and their cultural backgrounds. This course is one of the Statewide Guaranteed Transfer courses. GT-AH2

LIT 205 Ethnic Literature*3 credit hours*

Prerequisite: Grade of C or better in ENG 121.

Focuses on significant texts by ethnic Americans, including African-American, Native American, Latino/a, and Asian Americans. Emphasizes careful reading and understanding of the cultural and literary elements of the works. This course is one of the Statewide Guaranteed Transfer courses. GT-AH2

LIT 211 Survey of American Literature I*3 credit hours*

Prerequisite: ENG 090 with a grade of C or better or minimum college-level English assessment score.

Provides an overview of American literature from the Native American through the nineteenth century Romantics. It explores ideas, historical and social contexts, themes and literary characteristics of works in various genres by major writers. This course is one of the Statewide Guaranteed Transfer courses. GT-AH2

LIT 212 Survey of American Literature II*3 credit hours*

Prerequisite: Grade of C or better in ENG 121.

Provides an overview of American literature from the mid-nineteenth century to the present. It explores ideas, historical and social contexts, themes and literary characteristics of works in various genres by major writers. This course is one of the Statewide Guaranteed Transfer courses. GT-AH2

LIT 225 Introduction to Shakespeare*3 credit hours*

Prerequisite: ENG 090 with a grade of C or better or minimum college-level English assessment score.

Explores a selection of works by William Shakespeare. It focuses on careful reading

and interpretation of the plays and poems, includes pertinent information about Elizabethan England, and examines formal as well as thematic elements of the selected works.

LIT 235 Science Fiction*3 credit hours*

Prerequisite: ENG 090 with a grade of C or better or minimum college-level English assessment score.

Examines the techniques and issues of science fiction through a close reading of a variety of writers in the genre.

LIT 255 Children's Literature*3 credit hours*

Prerequisite: REA 090 and ENG 090 with a grade of C or better or minimum college-level English assessment score.

Evaluates the criteria for selecting appropriate literature for children through exploration of genres, age levels, values taught through literature, and the literary and artistic quality of various texts.

LIT 267 The Bible as Literature*3 credit hours*

Prerequisite: ENG 090 with a grade of C or better or minimum college-level English assessment score.

Introduces the Bible as the textual centerpiece of Western literature. Students will encounter the various literary genres represented in Biblical texts, the process of canonization, ways in which the Bible has been read by its various interpretive communities, and some impacts of the Bible in such areas as law, poetry, fiction, psychology, ethics, and theology.

LIT 285 Independent Study*3 credit hours*

Prerequisite: Permission of the instructor.

Explores particular authors, topics, themes in depth, such as Ibsen, Faulkner or Twain, or great fiction of the nineteenth century.

MAC — MACHINE AND CNC TOOL OPERATOR**MAC 101 Introduction to Machine Shop***3 credit hours*

Covers safety procedures, use of bench tools, layout tools, power saws, drill presses, precision measurement tools, and various hand tools related to the machine shop.

Also included are sharpening drill bits and general purpose turning tools for the lathe and determining speeds and feeds for both the lathe and the milling machine.

MAC 102 Blueprint Reading*3 credit hours*

Students read blueprints and interpret symbols, notes dimensions and tolerances.

MAC 110 Introduction to Engine Lathe*3 credit hours*

Prerequisite: MAC 101

Introduces basic lathe applications which will consist of identifying lathe components and controls, understanding turning safety, calculating speeds and feeds, using various tools and tool holders, identifying basic tool geometry, and the use of common lathe spindle tooling. Students will perform basic lathe operations, which will consist of facing, center-drilling, chuck turning, turning between centers, boring, grooving, tapers, knurling, and single point threading. Students will be required to produce specified parts to a tolerance of plus or minus .004 inches and perform competencies set by manufacturing standards.

MAC 111 Intermediate Engine Lathe*3 credit hours*

Prerequisite: MAC 110

Teaches students to prepare single point external and internal unified screw threads to a Class 3 fit, generate angles with the compound rest within one degree, ream holes concentric within .001 inches, determine cutting speeds, and perform facing and turning operations.

MAC 112 Advanced Engine Lathe*3 credit hours*

Prerequisite: MAC 111

Prepares students to form radius, single-point isometric threads, turn spherical radius, use a radius gauge, and work within .0005 inches tolerance externally.

MAC 120 Introduction to Milling Machine*3 credit hours*

Prerequisite: MAC 102

Teaches students to identify the major parts of the vertical mill, align a vise, use an indicator, edge finder, and boring head, determine speeds and feeds perform simple indexing, mill flat, square surfaces and slots, drill, bore, and tap holes, and work within a plus or minus .002 inches tolerance.

MAC 121 Intermediate Milling Machine*3 credit hours*

Prerequisite: MAC 120

Prepares students to determine hole locations by coordinates and degrees, use a rotary table, use a jig bore to drill holes by the coordinate method, and work within plus or minus .001-inch tolerance.

MAC 122 Advanced Milling Machine Operations*3 credit hours*

Prerequisite: MAC 105, 112, 115

Prepares students to indicate the head of a vertical mill, bore holes, drill holes at an angle, and work with tolerances of .0008 inches location and diameter.

MAC 145 Production Manufacturing Concepts*3 credit hours*

Prerequisite: To be determined by department lead.

Familiarizes the student to concepts related to manufacturing environments. Topics will consist of, but not be limited to Material Identifications, Shop Floor Management, Just-In-Time Manufacturing, Kan-Ban Systems, Statistical Quality Control, and Total Quality Management. Various lectures and demonstrations of these processes will be delivered.

MAC 178 Workshop: Machine Shop Lab*1 - 6 credit hours*

Designed to allow students practice on basic machine equipment for the purpose of upgrading job skills.

MAC 201 Introduction to CNC Turning Operations*3 credit hours*

Prerequisite: To be determined by department lead.

Covers computer numerical control (CNC) lathe operations, control functions, the letter address system, the program format, and machine setup. G&M codes, control functions, the letter address system, and math issues related to CNC are included.

MAC 205 Introduction to CNC Milling Operations*3 credit hours*

Prerequisite: MAC 112

Provides transitional information between conventional machining applications and the typical applications

found in Computer Numerical Control Machining. Topics may consist of Numerical Control Systems, The Cartesian Coordinate System, High Efficiency Tooling Applications, Objectives of Numerical Control, Calculating Speed and Feed Rates, Defining and Calculating Tool Motion, Fixturing Requirements, Basic Program Structure, Programming Codes, and Basic Conversational Programming. Operations of NC machines will be required.

MAC 207 CNC Milling Lab*3 credit hours*

Prerequisite: MAC 112, 121

Prepares students to write programs and run parts from both blueprints provided and per individual student designs. Proofing and editing programs, sub-programs, managing cutter compensations, fixture offsets, and overall execution at the machine will be the primary focus.

MAC 240 CAD/CAM 2-D*3 credit hours*

Prerequisite: MAC 102

Provides the student with the essential concepts and techniques that are required to successfully create part geometry, generate tool path, verify tool path models, and post process the NC codes. The student will be exposed to a 2-axis machining, 3-axis machining wire frame and surface modeling, lathe programming, and DNC systems. Programming projects and models will be demonstrated in the CNC manufacturing lab.

MAC 245 CAD/CAM 3-D*3 credit hours*

Covers both the production and surfacing of three-dimensional geometry in a self-paced setting. Issues will be covered related to the production of wire frames, solids, surfaces, the joining of solids, managing construction planes, sweeping, rotating, and controlling parameter settings with emphasis on CNC 3D mill. A familiarity with CAM Software, CNC programming techniques, and CNC operations is recommended.

MAC 246 CAD/CAM 3-D Lab*3 credit hours*

Requires students to produce a variety of three dimensional lab exercises on milling machinery in a self-paced format. Coursework will focus primarily on advanced geometry to include developing

an understanding of CNC codes related to work offsets, cutter compensations and tool management with CAD/CAM programs on the milling machine.

MAC 252 Practical Metallurgy*3 credit hours*

Prerequisite: permission of instructor

Offers a study of metallurgical terms and definitions in an effort to understand both the behavior of metals and their service to industry. Characteristics during heating, cooling, shaping, forming, and the stresses related to their mechanical properties are covered. The theory behind the alloys, heat treatment processes, and the impact they have on strength, toughness, hardness, elasticity, ductility, malleability, wear resistance and fatigue resistances is investigated.

MAC 278 Machining Workshop*4 credit hours*

Prerequisite: MAC 112

Covers the fabrication process; student will produce machine parts and machinist tools from an already prepared shop blueprint; write process sheets, select metal and estimate machine time to performance level expected in industry.

MAN — MANAGEMENT**MAN 117 Time Management***1 credit hour*

Provides students with the conceptual knowledge and tools to make better use of their time in the management function.

MAN 169 Supermarket Loss Prevention*3 credit hours*

Familiarizes managers from all area of King Soopers with the broad spectrum of supervisory area that can cause losses to profits within an overall supermarket company environment and what they might do prevent those occurrences.

MAN 200 Human Resources Management I*3 credit hours*

Prerequisite: BUS 115

Provides the student with a broad overview of the contemporary issues, theories and principles used to effectively manage human resources. Includes hiring, compensation, development, employee relations and legal issues.

MAN 216 Small Business Management*3 credit hours*

Prerequisite: ACC 101, BUS 115

Examines the elements necessary for the successful formation of a new small business. It is also designed to enhance the skills of those already involved in the operation of a small business. The course includes the development of a complete small business plan.

MAN 225 Managerial Finance*3 credit hours*

Prerequisite: ACC 121, BUS 115

Examines the concepts and techniques used to analyze financial accounting information for managerial planning, decision making and control. Focuses on decision making relating to the areas of budgets, forecasts, cost volume production, ROI and financial statements.

MAN 226 Principles of Management*3 credit hours*

Presents a survey on the principles of management. Emphasis is on the primary functions of planning, organizing, leading and controlling with a balance between the behavioral and operational approach.

MAN 229 Motivation and Management*3 credit hours*

Introduces an inner force that results from an individual's desire to satisfy unmet needs. Productivity is a result of the behavior of members of an organization; influencing behavior through motivation is a manager's key to increasing productivity.

MAN 241 Project Management in Organizations*3 credit hours*

Introduces students to the planning, implementation, and control activities of project management, including project and performance evaluation, quality control and workflow analysis. Emphasis will be on the initiating, planning, executing, controlling and closing activities of project management.

MAN 242 Project Management Tools and Techniques*3 credit hours*

Emphasizes project management techniques and tools wherein students will learn the necessary skills to track a project, keeping it on time and within budget. Students will

apply software to solve project cases and to construct scheduling charts and reports.

MAR — MARKETING**MAR 111 Principles of Sales***3 credit hours*

Prerequisite: BUS 115

Enables students to understand and develop ethical sales techniques and covers the role of selling the marketing process. Emphasizes behavioral considerations in the buying and selling process along with sales techniques.

MAR 117 Principles of Retailing*3 credit hours*

Prerequisite: BUS 115

Corequisite: BUS 115

Emphasizes the study of the basic principles and techniques of merchandising, operations, layout, store organization, site location, and customer service with an emphasis on retailing operations.

MAR 160 Customer Service*3 credit hours*

Prerequisite: ENG 090, REA 060

Enables students to learn the relationship of self to customers, problem solve and understand the importance of communicating with customers. Specific emphasis is given to managing customer expectations by building customer rapport and creating positive outcomes.

MAR 216 Principles of Marketing*3 credit hours*

Presents the analysis of theoretical marketing processes and the strategies of product development, pricing, promotion and distribution, and their applications to businesses and the individual consumer.

MAR 220 Principles of Advertising*3 credit hours*

Examines the principles and practices of advertising and its relationship to business in order to promote a business organization. Areas of major emphasis include advertising principles, strategies, media, copy and layout and ethical considerations.

MAR 240 International Marketing*3 credit hours*

Prerequisite: BUS 115

Enables the student to explore the international marketing for U.S. products,

and to explore the increasing competitive international environment and recent changes in the environment that have challenged U.S. business. The course is designed to make the reader an "informed observer" of the global market place as well as enabling him/her to develop skills to make marketing decisions in a global context.

MAT — MATHEMATICS**MAT 030 Fundamentals of Mathematics***2 credit hours*

Prerequisite: Minimum Assessment Score

Includes the vocabulary, operations and applications of whole numbers, decimals and basic fractions and mixed numbers.

MAT 060 Pre-algebra*3 credit hours*

Prerequisite: MAT 030 or minimum assessment score in math

Further the study of fractions and mixed numbers. Also included are vocabulary, operations and applications of ratio, proportion, percent, area, perimeter, US and metric measures, integers, and an introduction to algebraic expressions and the solution of basic first-degree equations.

MAT 090 Introductory Algebra*4 credit hours*

Includes first-degree equations, inequalities, formulas, polynomials, algebraic fractions, factoring polynomials, solving quadratic equations by factoring, and applications. Coordinate geometry, graphing linear equations and inequalities, and systems of linear equations may be included.

MAT 106 Survey of Algebra*4 credit hours*

Prerequisite: Grade of C or better in MAT 090 or minimum assessment score in math

Emphasizes problem solving with further study of equations, slope, inequalities, systems of equations, polynomials, quadratic equations, rational expressions, rational exponents, radical expressions, graphing and applications. A graphing calculator or equivalent software may be utilized.

MAT 107 Career Math*3 credit hours*

Prerequisite: Grade of C or better in MAT 060 or minimum assessment score in math

Covers material designed for career technical or general studies students who need to study particular mathematical topics. Topics may include measurement, algebra, geometry, trigonometry, graphs, and/or finance. These are presented on an introductory level and the emphasis is on applications.

MAT 109 Geometry*3 credit hours*

Prerequisite: Math 090 (grade of C or better) or math assessment.

Teaches basic geometric principles involving lines, triangles, circles, polygons, and three-dimensional figures. Geometric constructions and measurement in the metric and US systems are covered.

MAT 111 Technology Lab for Algebra*1 credit hour*

Prerequisite: Grade of C or better in MAT 106

Explores and applies algebraic topics in a laboratory course using graphing calculators.

MAT 112 Financial Mathematics*3 credit hours*

Prerequisite: none

Covers topics including pricing, taxes, insurance, interest, annuities, amortization, investments using financial calculators and spreadsheets.

MAT 120 Mathematics for the Liberal Arts*4 credit hours*

Prerequisite: Grade of C or better in MAT 090 or minimum college-level Math assessment score

Develops mathematical and problem-solving skills. Appropriate technological skills are included. Content is selected to highlight connections between mathematics and the society in which we live. Topics include set theory and logic, mathematical modeling, probability and statistical methods, and consumer mathematics. Additional content will include one topic in geometry, numeration systems, and decision. This course is one of the Statewide Guaranteed Transfer courses. GT-MA1

MAT 121 College Algebra*4 credit hours*

Prerequisite: MAT 106 or minimum assessment score in math

Includes a brief review of intermediate algebra, equations and inequalities, functions and their graphs, exponential and logarithmic functions, linear and non-linear systems, selection of topics from among graphing of the conic sections, introduction to sequences and series, progressions, permutations and combinations, the binomial theorem and theory of equations. This course is one of the Statewide Guaranteed Transfer courses. GT-MA1

MAT 122 College Trigonometry*3 credit hours*

Prerequisite: Grade of C or better in MAT 121 or minimum college-level Math assessment score

Covers topics including trigonometric functions (with graphs and inverse functions), identities and equations, solutions of triangles, complex numbers, and other topics as time permits. This is a traditional prerequisite course to the calculus sequence. This course is one of the Statewide Guaranteed Transfer courses. GT-MA1

MAT 123 Finite Mathematics*4 credit hours*

Prerequisite: Grade of C or better in MAT 106 or minimum college-level Math assessment score

Covers topics including functions, matrix algebra, linear programming, and an introduction to probability and counting techniques. Emphasis is on applications. This course may include other topics such as statistics when time permits. This course is primarily intended for business, life science, or social science majors. This course is one of the Statewide Guaranteed Transfer courses. GT-MA1

MAT 125 Survey of Calculus*4 credit hours*

Prerequisite: Grade of C or better in MAT 121 or MAT 123

Includes derivatives, integrals and their applications, with attention restricted to algebraic, exponential and logarithmic functions. For business, life science and/or social science majors. This course is one of the Statewide Guaranteed Transfer courses. GT-AH1

MAT 135 Introduction to Statistics*3 credit hours*

Prerequisite: Grade of C or better in MAT 106 or minimum college-level Math assessment score

Includes data presentation and summarization, introduction to probability concepts and distributions, statistical inference estimation, hypothesis-testing comparison of populations, correlation and regression. This course is one of the Statewide Guaranteed Transfer courses. GT-MA1

MAT 155 Integrated Mathematics I*3 credit hours*

Prerequisite: Grade of C or better in MAT 106 or minimum assessment score in math

Engages students in the concepts of school mathematics, the course will include the recognition of numerical and geometric patterns and their application to a variety of mathematical situations; mathematical problem-solving, reasoning, critical thinking, and communication; algebraic thinking, representation, analysis, manipulation, generalizations and extensions. This course is one of the Statewide Guaranteed Transfer courses. GT-MA1

MAT 156 Integrated Mathematics II*3 credit hours*

Prerequisite: Successful completion of MAT 155 with a grade of C or better

Furtheres MAT 155 concepts, the course will include fundamentals of probability, statistics, and Euclidean geometry. Mathematical problem solving, reasoning, critical thinking and communication will continue to be an integral part of this sequence. This course is one of the Statewide Guaranteed Transfer courses. GT-MA1

MAT 185 Independent Study*0.5 - 6 credit hours*

Provides an opportunity for the highly-motivated student to engage in intensive study and research on a specified topic under direction of a faculty member

MAT 201 Calculus I*5 credit hours*

Prerequisite: Grade of C or better in MAT 121 and MAT 122 OR minimum college-level Math assessment score

Introduces single variable calculus and analytic geometry. Includes limits, continuity, derivatives, and applications of derivatives as well

as indefinite and definite integrals and some applications. This course is one of the Statewide Guaranteed Transfer courses. GT-MA1

MAT 202 Calculus II

5 credit hours

Prerequisite: Grade of C or better in MAT 201 or minimum college-level MATH assessment score

Continuation of single variable calculus, which will include techniques of integration, polar coordinates, analytic geometry, improper integrals, and infinite series. This course is one of the Statewide Guaranteed Transfer courses. GT-MA1

MAT 203 Calculus III

4 credit hours

Prerequisite: Grade of C or better in MAT 202 or minimum college-level Math assessment score

Completes the traditional subject matter of the Calculus. Topics include vectors, vector-valued functions, and multivariable calculus including partial derivatives, multiple integrals, line integrals and application. This course is one of the Statewide Guaranteed Transfer courses. GT-MA1

MAT 265 Differential Equations

3 credit hours

Prerequisite: Grade of C or better in MAT 202 or minimum college-level Math assessment score

Emphasizes techniques of problem solving and applications. Topics include first, second, and higher order differential equations, series methods, approximations, systems of differential equations, and Laplace transforms. This course is one of the Statewide Guaranteed Transfer courses. GT-MA1

MAT 285 Independent Study

0.5 - 6 credit hours

Prerequisite: Instructor permission

Provides an opportunity for the highly-motivated student to engage in intensive study and research on a specified topic under direction of a faculty member

MGD — MULTIMEDIA AND GRAPHIC DESIGN (GRAPHIC DESIGN PROGRAM)

MGD 101 Introduction to Computer Graphics

3 credit hours

Introduces the student to the computer system developed for graphics. The student will learn the hardware and software components. Each student will explore basic computer operations, ergonomics, file management, scanning techniques, archiving capabilities, and utilization of the Internet connection.

MGD 102 Introduction to Multimedia

3 credit hours

Prerequisite: MGD 101 Intro to Computer Graphics

Introduces the types of equipment and technical considerations used in multimedia productions and the multimedia professions. It focuses on current types of equipment such as scanners, printers, digital cameras and computers. Students gain hands-on experience in how the technology is utilized for input and output in production and design projects. Over view of software and basic design principles will be explored.

MGD 105 Typography and Layout

3 credit hours

Prerequisite: MGD 101 Intro to Computer Graphics MGD 116 Typography I

Covers the creation and production of graphic projects, emphasizing the layout creative-design process, problem solving and research. Provides experience producing thumbnails, roughs and digital layouts, emphasizing refined creative typography.

MGD 111 Adobe PhotoShop I

3 credit hours

Prerequisite: MGD 101 Intro to Computer Graphics

Concentrates on the high-end capabilities of photo-editing software as an illustration, design and photo retouching tool. Students explore a wide range of selection and manipulation techniques that can be applied to photos, graphics and videos.

MGD 112 Adobe Illustrator I

3 credit hours

Prerequisite: MGD 101 Intro to Computer Graphics

Acquaints students with the processes of

a vector-drawing program on the computer. Students learn how to use the tools to create digital artwork that can be used in web design, print media and digital screen design.

MGD 113 QuarkXPress

3 credit hours

Prerequisite: MGD 101 Intro to Computer Graphics

Introduces students to QuarkXPress, a digital page layout tool. Students learn how to assemble, organize, manipulate and manage text and graphics to produce a high quality publication. Class discussions and independent projects supplement hands-on classroom work.

MGD 114 Adobe InDesign

3 credit hours

Introduces students to InDesign, a page layout program that integrates seamlessly with other Adobe design programs. In design delivers creative freedom and productivity to DTP. Class discussions and independent projects supplement hands-on classroom work.

MGD 116 Typography I

3 credit hours

Corequisite: MGD 101 Intro to Computer Graphics

Introduces the history and concepts of typography as applied to graphic communications. Explores appropriate use of typography in a variety of design applications, emphasizing the basic design principles of typographic compositions and typesetting. Covers type recognition and typographic terms.

MGD 141 Web Design I

3 credit hours

Prerequisite: MGD 101 or instructor consent.

Introduces the fundamentals of HTML syntax using a simple text editor to create a web page. Web-safe colors and the use of graphic editors will be explored. Students study web aesthetics and intuitive interface design. The course emphasizes file organization and layout including tables and frames.

MGD 143 Web Motion Graphic Design I

3 credit hours

Prerequisite: MGD 101 and 116 or instructor consent

Stresses creation of animated GIFs and dynamic, interactive media for web applications. Students will learn how to draw objects, create symbols and assemble motion tweens.

MGD 155 LightWave I*3 credit hours*

Prerequisite: MGD 101 and 141 or instructor consent

Introduces students to LightWave's Modeler program with an emphasis on modeling techniques. It also touches on LightWave's Layout program for setting up scenes with texture maps and lighting. There will also be instruction on how to import models from other programs.

MGD 161 Director I*3 credit hours*

Prerequisite: MGD 101 and 141 or instructor consent

Examines Macromedia Director, the leading authoring tool for interactive multimedia from the art director's perspective. Students will learn the basics of 2D animation for both computer presentations and the web. Interface design and scene development is emphasized. Hands-on projects include lingo scripts, behaviors, adding sound and digital video to students' movies.

MGD 164 Digital Video Editing I*3 credit hours*

Prerequisite: MGD 143

Introduces to digital non-linear video editing. Students will capture, compress, edit, and manipulate video images using a personal computer. Assembly techniques including media management, editing tools, titles, and motion control; transitions and filters, and special effects are explored.

MGD 203 Design and Concept*3 credit hours*

Prerequisite: MGD 103, 105 and 116 or instructor consent

Covers the process of comprehensive problem solving of complex and advanced print design. Provides experience in digital production of designs, using multiple computer applications emphasizing concept.

MGD 211 Adobe PhotoShop II*3 credit hours*

Prerequisite: MGD 111

Develops and reinforces image composition techniques learned in Adobe Photoshop I, MGD 111. Fundamentals are continuously reinforced as new design techniques are introduced.

MGD 213 Electronic Pre-press*3 credit hours*

Prerequisite: MGD 101, 116 or instructor consent

Explores in detail the electronic prepress process. Students examine steps for preparing a digital file for trapping, output considerations and proofing techniques. Creating effective electronic designs and efficient use of today's software programs are also covered.

MGD 285 Independent Study*1 - 6 credit hours*

Prerequisite: Permission of Instructor
Meets the individual needs of students. Students engage in intensive study or research under the direction of a qualified instructor.

MGD 289 Studio Art/Portfolio (Graphic Design Capstone)*1 - 6 credit hours*

Prerequisite: Permission of Instructor
A demonstrated culmination of learning within a given program of study.

MOT — MEDICAL OFFICE TECHNOLOGY**MOT 110 Medical Office Administration***4 credit hours*

Prerequisite: BIO 120, MOT 102 and 112

Introduces the administrative duties specifically used in medical offices.

MOT 120 Medical Office Financial Management*3 credit hours*

Prerequisite: BIO 120, BTE 101, CIS 135, MOT 102
Covers the practical uses of accounts and records with emphasis on accounting principles and analysis for use in a medical office.

MOT 124 Medical Filing*2 credit hours*

Introduces the student to the basic rules and principles of filing in medical facilities. Topics include numeric, terminal digit, alpha-numeric, and computer-assisted filing methods. Cross-referencing, color-coding, and medical records control will also be introduced.

MOT 130 Insurance Billing and Coding*3 credit hours*

Prerequisite: BIO 106, HPR 178, HPR 279
Introduces outpatient coding with an ul-

timate goal to present a clear picture of medical procedures and services performed (CPT codes), correlating the diagnosis, symptom, complaint or condition (ICD-9 codes), thus establishing the medical necessity required for third-party reimbursement.

MOT 131 Advanced Insurance Billing and Coding*3 credit hours*

Prerequisite: HPR 279, MOT 130

Prepares the student to code correctly, and optimize reimbursements for a full range of medical services by expanding coverage of diagnostic and therapeutic procedures, official coding guidelines, APGs, APCs, DRGs, Medicare fraud and abuse.

MOT 132 Medical Transcription I*4 credit hours*

Prerequisite: BIO 106, BTE 100, CIS 118, HPR 178, HPR 279, and COM 275

Provides basic knowledge, understanding, and skills required to transcribe medical dictation with accuracy, clarity, and timeliness, applying the principles of professional and ethical conduct.

MOT 134 Medical Unit Coordinating*7 credit hours*

Prerequisite: BTE 100, CIS 118, HPR 178

Introduces the history, growth and development of unit coordinating and provides an orientation to the work environment. Students will transcribe laboratory, diagnostic, treatment, and miscellaneous doctors orders.

MOT 136 Introduction to Clinical Skills*2 credit hours*

Prerequisite: BIO 120, MOT 102

Provides hands on experience with the basic clinical skills required for assisting with patient care. Delivers the theory behind each skill presented as well as proper technique for performing each skill. Includes knowledge and/or performance of blood borne pathogens/OSHA regulations, medical asepsis, procedural gloving, patient gowning, positioning and measurement of vital signs.

MOT 138 Medical Assisting Laboratory Skills*4 credit hours*

Prerequisite: HPR 279 and MOT 136

Introduces the student to basic routine laboratory skills and techniques for collection, handling, and examination of

laboratory specimens often encountered in the ambulatory care setting. Emphasizes hands-on experience.

MOT 139 Medical Records

4 credit hours

Prerequisite: HPR 178, HPR 279, MOT 120

Explores the development and content of the medical record for the hospital, ambulatory care, long-term care, and mental health. Management of record content, medical forms and filing methods are also presented.

MOT 140 Medical Assisting Clinical Skills

4 credit hours

Prerequisite: HPR 279, MOT 136

Corequisite: MOT 138

Provides hands on experience with the clinical skills required for assisting with patient care. Delivers the theory behind each skill presented as well as proper technique for performing each skill.

MOT 142 Medical Transcription II

4 credit hours

Prerequisite: MOT 132

Uses a simulation approach to build student vocabulary and speed, while providing actual medical transcription of a variety of health care and medical reports at progressively increasing accuracy and productivity standards.

MOT 150 Pharmacology for Medical Assistants

3 credit hours

Prerequisite: HPR 279, MOT 136

Provides an overview of pharmacology language, abbreviations, systems of measurement and conversions. The Controlled Substances Act, prescriptions, forms of medications, patient care applications, drug classifications/interactions, and safety in drug therapy and patient care are presented. Information regarding the measurement of medication, dosage calculations, routes of administration, and commonly prescribed drugs in the medical office is provided.

MOT 151 Orthopedic Assisting

8 credit hours

Prerequisite: Completion of Clinical or Comprehensive Medical Assistant Certificate

Provides the knowledge and skills necessary to perform orthopedic assistant duties, including terminology, orthopedic conditions, casting materials and procedures,

splint and sling procedures, wound care and professionalism.

MOT 175 Special Topics

1 credit hour

Provides students with an introduction to the world of work in the Medical Office Technology program.

MOT 180 Medical Transcription Internship

3 credit hours

Prerequisite: MOT 142

Provides supervised placement in contracted facility for guided experience in the application of knowledge and skills acquired in the classroom.

MOT 181 Administrative Internship

2 credit hours

Prerequisite: MOT 135, 133 or MOT 110, 120

Provides supervised placement in contracted facility for guided experience in the application of knowledge and skills acquired in the classroom. Positions are non-paid for students seeking administrative medical assistant certification as per CAAHEP requirements. Students must have permission of the program coordinator to begin internship.

MOT 182 Clinical Internship

3 credit hours

Prerequisite: MOT 138 and 140

Provides supervised placement in contracted facility for guided experience in the application of knowledge and skills acquired in the classroom. Positions are non-paid as per CAAHEP requirements. Students must have permission of the program coordinator to begin internship.

MOT 183 Medical Assistant Internship

5 credit hours

Prerequisite: MOT 110, MOT 120, MOT 130, MOT 136, MOT 138, MOT 140, MOT 150, MOT 183

Provides supervised placement in contracted facility for guided experience in the application of knowledge and skills acquired in the classroom. Students assist with a variety of business and clinical procedures. Positions are non-paid due to CAAHEP requirements. Students must have permission of program coordinator to begin internship.

MOT 189 Review for Medical Assistant National Examination

1 credit hour

Prerequisite: None

Prepares the candidate sitting for the National Registration/Certification Examination for Medical Assistant through review and practice. These examinations are given with the intent of evaluating the competency of entry-level practitioners in Medical Assisting, therefore supporting quality care in the office or clinic.

MOT 280 Internship: Orthopedic Assisting

3 credit hours

Prerequisite: Completion of MOT 151 and Clinical or Comprehensive Medical Assistant Certificate completion

Provides supervised placement in contracted facility for guided experience in the application of knowledge and skills acquired in the classroom. Positions are non-paid. Students must have permission of program coordinator to begin internship.

MST — MASSAGE THERAPY

MST 111 Basic Massage Therapy

4 credit hours

Corequisite: BIO 106 or prerequisite

Introduces theory and techniques of therapeutic massage, including understanding of physiological benefits of massage as well as proper body mechanics and appropriate draping. Focuses on basic strokes of Swedish massage. Students also learn techniques of seated massage.

MST 113 Professional Massage

3 credit hours

Prerequisite: MST 111, MST 184

Continues the study of Integrative Therapeutic Massage techniques with emphasis on assessing and meeting client's needs. Students give massage in supervised in-class clinicals, applying appropriate therapeutic intervention.

MST 178 Seminar

0.5 credit hour

Provides students with an experiential learning opportunity.

MST 184 Clinical Massage*3 credit hours*

Corequisite: MST 111

Applies skills in a clinical setting. Focuses on improvement of massage therapy skills, ethics and communication.

MST 204 MST Business Practices*2 credit hours*

Prerequisite: MST 111, MST 184

Assists the practitioner of massage therapy to envision, market, establish and maintain a professional massage therapy practice.

MST 284 Clinical Massage*3 credit hours*

Prerequisite: MST 111, MST 184

Corequisite: MST 113

Provides an application of massage therapy skills in a clinical setting. This course focuses on improvement of techniques, communication with clients and other health professionals as well as documentation of massage sessions.

MUS — MUSIC**MUS 100 Fundamentals of Music***3 credit hours*

Designed to help the beginning music student, or those students with a limited background in music theory, study the basic elements of music, including notation, rhythm, scales, key signatures, intervals and chords.

MUS 105 Introduction to Electronic / Computer Music*3 credit hours*

Explores the elements of electronic music and demonstrates some of the most popular music software for the Macintosh and IBM computers, including music notation and music sequencing programs. Achieving a fundamental working knowledge of setup and recording procedures on a personal computer is stressed. Equipment is provided and beginner's knowledge on either the Macintosh or IBM computer is helpful but not essential.

MUS 110 Music Theory I*3 credit hours*

Corequisite: MUS 112 and MUS 131

Presents music fundamentals, diatonic four-part harmony, analysis, ear training, and keyboard harmony. For music majors transferring to a 4-year program.

MUS 111 Music Theory II*3 credit hours*

Prerequisite: MUS 110

Corequisite: MUS 113 AND MUS 132

Presents chromatic four-part harmony, analysis, ear training, and keyboard harmony.

MUS 112 Ear Training/Sight-Singing I Lab*1 credit hour*

Corequisite: MUS 110 and MUS 131

Presents exercises in sight-singing with melodic and rhythmic dictation.

MUS 113 Ear Training/Sight-Singing II Lab*1 credit hour*

Prerequisite: MUS 112

Corequisite: MUS 111 and MUS 132

Presents exercises in sight-singing with melodic and rhythmic dictation.

MUS 120 Music Appreciation*3 credit hours*

Covers the basic materials of music, musical forms, media, genres and musical periods. Emphasizes the development of tools for intelligent listening and appreciation. This course is one of the Statewide Guaranteed Transfer courses. GT-AH1

MUS 121 Music History I*3 credit hours*

Studies the various periods of music history with regard to the composers, esthetics, forms, and genres of each period. Considers music from the Middle Ages through the Classical period. This course is one of the Statewide Guaranteed Transfer courses. GT-AH1

MUS 122 Music History II*3 credit hours*

Continues Music History I with a study of music from the early Romantic period to the present. This course is one of the Statewide Guaranteed Transfer courses. GT-AH1

MUS 123 Survey of World Music*3 credit hours*

Provides an overview of non-Western music from around the world; provides basic listening skills and the historical / cultural context for a variety of world music styles to enable an understanding and appreciation of non-Western musical expression.

MUS 131 Music Class I: Guitar, Piano, Voice or Woodwinds*2 credit hours*

Prerequisite: MUS 100 or instructor consent

Applies the fundamentals of music to the voice or specific musical instruments. This course also introduces basic techniques, repertoire, and sight-reading. First year, first term.

MUS 132 Music Class II: Guitar, Piano, Voice or Woodwinds*2 credit hours*

Prerequisite: MUS 131 or 141 or instructor consent

Applies the fundamentals of music to the voice or specific musical instruments. The course also introduces basic techniques, repertoire, and sight-reading. First year, second term.

MUS 141 Private Instruction I (Composition, Guitar, Piano,*1 - 2 credit hours*

Prerequisite: MUS 100 or instructor consent

1 credit primarily for non-music majors. 2 credits for music majors planning to transfer to 4 year school. Offers private instruction consisting of a thirty or sixty minute lesson per week. Participation in a student performance is required at least once each term for 1 credit. Regular attendance at and participation in student performances is required for 2 credits. First year, first term.

MUS 142 Private Instruction II (Composition, Guitar, Piano*1 - 2 credit hours*

Prerequisite: MUS 141 or instructor consent

1 credit primarily for non-music majors. 2 credits for music majors planning to transfer to 4 year school. Offers private instruction consisting of a thirty or sixty minute lesson per week. Participation in a student performance is required at least once each term for 1 credit. Regular attendance at and participation in student performances is required for 2 credits. First year, second term.

MUS 151 Ensemble I*1 credit hour*

Prerequisite: none

First year, first term. Rehearses and performs various types of musical literature.

MUS 152 Ensemble II*1 credit hour*

Prerequisite: MUS 151 or instructor consent.
First year, second term. Rehearses and performs various types of musical literature.

MUS 153 Ensemble III*1 credit hour*

Prerequisite: MUS 152 or instructor consent.
Rehearses and performs various types of musical literature. First year, third term.

MUS 154 Ensemble IV*1 credit hour*

Prerequisite: MUS 153 or instructor consent.
Rehearses and performs various types of musical literature. First year, fourth term.

MUS 210 Music Theory III*3 credit hours*

Prerequisite: MUS 100 or permission of the instructor.

Corequisite: MUS 212

Continues study of four-part music, including extended harmonic progressions of ninth, eleventh, thirteenth chords, extended alteration, non-chord tones, modulation and compositions

MUS 211 Music Theory IV*3 credit hours*

Prerequisite: MUS 210 and 212

Corequisite: MUS 112

Offers a continuation of chromatic harmony, analysis, ear-training, and keyboard harmony. New topics will include Impressionism and 20th Century styles of composition.

MUS 212 Advanced Ear Training/Sight-Singing I Lab*1 credit hour*

Prerequisite: MUS 111 and 113

Corequisite: MUS 210

Presents modulating and chromatic exercises in sight-singing and dictation. Dictation includes four-part writing.

MUS 213 Advanced Ear Training/Sight-Singing II Lab*1 credit hour*

Prerequisite: MUS 210 and 212

Corequisite: MUS 211

Presents modulating and chromatic exercises in sight-singing and dictation. Dictation includes four-part writing.

MUS 241 Private Instruction III: Guitar, Piano, Voice or*1 - 2 credit hours*

Prerequisite: MUS 142 or instructor consent.

1 credit primarily for non-music majors. 2 credits for music majors planning to transfer to 4 year school. Offers private instruction consisting of a thirty or sixty minute lesson per week. Participation in a student performance is required at least once each term for 1 credit. Regular attendance at and participation in student performances is required for 2 credits. Second year, first term.

MUS 242 PRIVATE INSTRUCTION IV (Composition, Guitar, Piano, Voice or Woodwinds*1 - 2 credit hours*

Prerequisite: MUS 241 or instructor consent.

1 credit primarily for non-music majors. 2 credits for music majors planning to transfer to 4 year school. Offers private instruction consisting of a thirty or sixty minute lesson per week. Participation in a student performance is required at least once each term for 1 credit. Regular attendance at and participation in student performances is required for 2 credits. Second year, second term.

MUS 244 Private Instruction IV: Guitar, Piano, Voice or W*1 - 2 credit hours*

Prerequisite: MUS 241

1 credit primarily for non-music majors. 2 credits for music majors planning to transfer to 4 year school. Offers private instruction consisting of a thirty or sixty minute lesson per week. Participation in a student performance is required at least once each term for 1 credit. Regular attendance at and participation in student performances is required for 2 credits. Second year, fourth term. May be repeated for credit more than once per individual institution policy.

MUS 251 Ensemble I*1 credit hour*

Prerequisite: MUS 152

Second year, first term. Rehearses and performs various types of musical literature.

MUS 252 Ensemble II*1 credit hour*

Prerequisite: MUS 251

Second year, second term. Rehearses and performs various types of musical literature.

NUA — NURSE AIDE**NUA 101 Certified Nurse Aide Health Care Skills***4 credit hours*

Corequisite: NUA 170

Prepares the student to perform the fundamental skills of the nurse aide. Basic nursing skills, restorative services, personal care skills, safety and emergency care issues are covered in theory and lab. The student will learn skills that address mental health needs as well as patient/resident/client rights.

NUA 170 Nurse Assistant Clinical Experience*1 credit hour*

Corequisite: NUA 101

Applies knowledge gained from NUA 101 in a clinical setting.

NUR — NURSING**NUR 101 Pharmacology Calculations***1 credit hour*

Prerequisite: Application on file in the Nursing program and within two semesters of starting first semester nursing courses

Introduces the nursing student to the concepts and techniques of dosage calculations and medication administration by a variety of routes. Learners will apply basic math concepts to complex conversion of dosages between and among various systems of weights and volumes. Learners will apply critical thinking skills to the calculation and administration of medications by oral and parenteral (including intravenous) routes of administration.

NUR 102 Alterations in Adult Health I*3 credit hours*

Prerequisite: NUR 103, 105, 111, 170, BIO 106, 201, 202, ENG 121, HPR 108, 178 and acceptance into the Nursing program

Corequisite: NUR 104, 112, 171, 174

Introduces the Practical Nurse to basic concepts necessary for assessing and meeting nursing care needs of the adult and older individual. The course focuses on the concepts of acute and chronic illness, pain management, fluid and electrolyte balance, perioperative care, oncology, death and dying, infection and inflammation, and shock syndromes. Common disorders of the musculoskeletal, integumentary, respiratory and reproductive systems are presented.

Relevant psychosocial and ethno cultural concepts and legal and ethical implications are integrated throughout.

NUR 103 Basic Health Assessment for the Practical Nurse

1 credit hour

Corequisite: NUR 105, 111, 170

Provides a foundation of assessment, therapeutic communication and teaching skills within the legal role of the practical nurse. Develops skills for obtaining a health history and performing basic assessment on adults and older adults. Includes concepts of health maintenance, health promotion, mental health, psychosocial and ethno cultural considerations.

NUR 104 Alterations in Adult Health II

3 credit hours

Prerequisite: NUR 103, 105, 111, 170

Corequisite: NUR 102, 112, 171, 174

Focuses on the nursing care needs of the adult and older adult, including concepts of acute and chronic illness, pain management, fluid and electrolyte balance, perioperative care, oncology, infection, inflammation, shock, and the dying client. Common disorders of the musculoskeletal, integumentary, respiratory, and reproductive systems are included.

NUR 105 Practical Nursing Arts and Skills

5 credit hours

Prerequisite: NUR 103, 105, 111, 170, BIO 106, 201, 202, ENG 121, HPR 108, 178 and acceptance into the Nursing program

Introduces the Practical Nursing learner to the principles of basic procedures necessary in caring for clients across the lifespan with stable and predictable outcomes in selected health care settings. Emphasis is placed on use of the nursing process in providing care. Opportunities are provided in the classroom and laboratory to develop competence in the performance of nursing skills. Relevant psychosocial and ethno cultural concepts are integrated throughout. Content regarding multidisciplinary relationships, historical perspectives, and health care delivery systems is presented. (1 or more credits may be given for students completing a Community College of Colorado approved CNA program.)

NUR 106 Medical and Surgical Nursing Concepts

7 credit hours

Prerequisite: NUR 109, 111, 118, 170

Corequisite: NUR 112, 117, 172

Introduces nursing students to roles of the nurse in assessing and meeting medical/ surgical nursing needs of adults across the life span in various health care settings. Students learn nursing concepts to assist the patient in achieving optimal functioning. Knowledge from foundational nursing, the sciences, pharmacology and nutrition, along with the continued integration of mental health and cultural concepts, provides foundations for nursing care planning for medical and surgical clients.

NUR 107 Nursing Concepts and Skills I

4 credit hours

Prerequisite: BIO 201, 202, ENG 121, NUR 101, PSY 235, HWE 100 and acceptance into the Nursing program.

Corequisite: NUR 108, 111, 118, 170

All of the community colleges in the state are affected by the change in curriculum for Nursing. The web site will be the best option for the most recent information.

Introduces the nursing student to applications of critical thinking and the nursing process to provide care to clients in a variety of community and acute care settings. Emphasis is on holistic health care across the health-illness continuum. Introduces learners to the clinical skills essential for the nursing role of care provider including safe and effective clinical environment, skill preparation, implementation and evaluation. Emphasizes use of caring, critical thinking, and communication while completing nursing skills.

NUR 108 Nursing Concepts and Skills II

3 credit hours

Prerequisite: BIO 201, 202, ENG 121, NUR 101, PSY 235, HWE 100 and acceptance into the Nursing program.

Corequisite: NUR 108, 111, 118, 170

All of the community colleges in the state are affected by the change in curriculum for Nursing. The web site will be the best option for the most recent information.

Introduces more complex concepts and behaviors of nursing roles within the context of the nursing process, holistic care and health care. Emphasizes the theoretical and practical aspects of more complex nursing skills required to meet the needs of clients in a variety of settings.

NUR 111 Socialization into Practical Nursing

1 credit hour

Prerequisite: BIO 201, 202, ENG 121, NUR 101, PSY 235, HWE 100, NUR 101

Corequisite: NUR 109, 118, 170

Introduces roles and responsibilities of the graduate practical nurse as defined by established standards, including the Colorado Nurse Practice Act. Emphasizes accountability, delegation, and perspectives in health care. Develops career and job readiness skills.

NUR 112 Basic Concepts of Pharmacology

2 credit hours

Prerequisite: NUR 109, 111, 118, 170

Corequisite: NUR 106, 117, 172

Introduces the basic concepts of pharmacology related to the actions, therapeutic and adverse effects, interactions of drugs, drug classifications, and the basic pharmacology of commonly used medications. Emphasis nursing considerations and client education, with application of clinical knowledge in caring for clients across the lifespan.

NUR 113 Basic Concepts of Maternal-Newborn Nursing

2 credit hours

Prerequisite: NUR 111, 105, 170, 103, 112, 102, 171, 104, 174

Corequisite: NUR 172, 114, 173, 115, 116

Introduces practical nursing care of the family experiencing childbirth. Focuses on normal pregnancy and its physiological and psychological changes and the care of the normal newborn. Presents relevant psychosocial and ethno-cultural concepts. Discusses selected common complications of pregnancy

NUR 114 Basic Concepts of Nursing of Children

2 credit hours

Prerequisite: NUR 111, 105, 170, 103, 112, 102, 171, 104, 174

Corequisite: NUR 172, 114, 173, 115, 116

Presents basic understanding of well and sick child care emphasizing growth and development from infancy to adolescence. Discusses common childhood conditions, nursing care of well children, sick children in various settings, special needs children, and impact of health care on the family. Integrates relevant psychosocial, ethno cultural and family concepts.

NUR 115 Basic Concepts of Mental Health and Illness*1 credit hour*

Prerequisite: NUR 111, 105, 170, 103, 112, 102, 171, 104, 174

Corequisite: NUR 113, 172, 114, 173, 116

Introduces basic concepts of mental health and illness that occur throughout the lifespan. Emphasizes mental health concepts, selected common psychiatric disorders, treatment modalities and related nursing care. Prepares the practical nurse to care for clients of various psychosocial and ethno cultural backgrounds.

NUR 116 Basic Concepts of Gerontological Nursing*1 credit hour*

Prerequisite: NUR 111, 105, 170, 103, 112, 102, 171, 104, 174

Corequisite: NUR 115, 113, 114, 172, 173

Introduces basic knowledge of normal aging, disorders related to aging and nursing care of the older person within the role of the practical nurse. Presents legal, ethical, psychosocial and ethno cultural factors that affect the older person.

NUR 117 Nursing Care of the Childbearing Family*3 credit hours*

Prerequisite: NUR 109, 111, 118, 170

Corequisite: NUR 106, 112, 172

Provides a foundational course in the nursing care of the childbearing family. The focus is on normal pregnancy, physiologic and psychological changes experienced, and care of the normal newborn. The nursing process is used in identifying and meeting the needs of the childbearing family to facilitate optimal functioning. The impact of psychosocial and cultural values and practices of the childbearing family are explored. Legal and ethical issues are addressed.

NUR 118 Nursing Care of Children*3 credit hours*

Prerequisite: BIO 201, 202, HWE 100, PSY 235, ENG 121, NUR 101 and acceptance into the NUR program

Corequisite: NUR 109, 111, 170

Introduces the role of the nurse in meeting the individual needs of the child from infancy through adolescence in health and illness. Beginning assessment and use of the nursing process, basic growth and development, pathophysiology, nutrition,

and relevant emotional, cultural and family concepts are integrated throughout.

NUR 170 Clinical I: Application of Practical Nursing Arts*1 - 6 credit hours*

Corequisite: NUR 105 OR 107/108

Introduces the health care environment and enables the practical nursing student to begin applying theoretical knowledge and basic nursing skills to clinical practice under the supervision of the instructor. Emphasizes communication skills, basic and advanced nursing skills, assessment and documentation of nursing care.

NUR 171 Clinical II: Application of Alterations in Adult*1 - 6 credit hours*

Corequisite: NUR 102

Provides an opportunity for the learner to apply theoretical knowledge and nursing skills to the care of the adult or the older adult with a commonly occurring medical-surgical problem in a health care environment under the supervision of an instructor.

NUR 172 Clinical III: Application of Basic Concepts of Ma*1 - 6 credit hours*

Corequisite: NUR 113

Provides an opportunity for the learner to apply theoretical knowledge when caring for the pregnant woman and her family, during her labor and delivery, after delivery, and caring for the newborn infant.

NUR 173 Clinical IV: Application of Basic Concepts of Nursing*1 - 6 credit hours*

Corequisite: NUR 114

Provides an opportunity for the learner to apply theoretical knowledge when caring for the well or sick child and family.

NUR 174 Clinical V: Applications of Alterations in Adult*1 - 6 credit hours*

Corequisite: NUR 104

Provides an opportunity for the learner to apply theoretical knowledge and nursing skills to increasingly complex care of the adult or the older adult with a medical-surgical problem in a health care environment under the supervision of an instructor and a preceptor.

NUR 175 Special Topics: Transitions in Professional Practice*1 - 6 credit hours*

Prerequisite: BIO 201 and 202, MAT 100

Corequisite: ENG 121, PSY 235, BIO 204

Introduces selected concepts related to the role of the AD nurse as a provider of care, teacher, manager, client advocate and member of the profession. Emphasis is placed on application of critical thinking in providing and managing comprehensive care in a variety of health care settings with clients across the lifespan. This course is designed to assist the licensed practical nurse (LPN) with the transition in to the practice of professional nursing.

NUR 206 Advanced Concepts of Medical-Surgical Nursing I*5 credit hours*

Prerequisite: NUR 210, 272, 211, 273

Corequisite: NUR 216, 217, 289

Focuses on the role of the registered professional nurse as care provider, teacher, manager, professional, and advocate in meeting the nursing needs of adults across the life span. Utilizing the nursing process, the student is expected to integrate previous learning to assist the patient and family in achieving optimal functioning in various health care settings.

NUR 210 Nursing Care of Complex Obstetrical and Pediatric*5 credit hours*

Prerequisite: BIO 204, NUR 172, 117, 112, or program director consent

Corequisite: NUR 272, 211, 273, 288

Prepares the professional nurse to comprehend and apply advanced concepts in care of the high-risk child bearing family and for children with complex health problems from birth through adolescence. Emphasizes special needs and complications during the perinatal experience and altered functioning, special needs, and disease processes manifested in children. The nursing process is used as a framework to attain optimal levels of maternal-newborn and pediatric health and wellness. Legal and ethical accountability are integrated throughout the course. Critical thinking skills are utilized throughout.

NUR 211 Nursing Care of Psychiatric Patients*5 credit hours*

Prerequisite: BIO 204, 117, 172, NUR 106, 112 and acceptance Level II of the Nursing program

Corequisite: NUR 210, 272, 273

Develops concepts of psychosocial integrity and emphasizes the function and responsibility of nursing in promoting and maintaining mental health of individuals and families. This course emphasizes communication and caring through the application of the therapeutic relationship and nursing process in the care and treatment of common clinical conditions/disorders.

NUR 216 Advanced Concepts of Medical Surgical Nursing II*4 credit hours*

Prerequisite: First year NUR courses, BIO 204, Second year NUR first Semester

Corequisite: NUR 206, 217, 289

Continues to focus on the role of the registered professional nurse as care provider, teacher, manager, professional, and advocate in meeting the complex medical and surgical health care needs of adult clients. Utilizing the nursing process, the student is expected to integrate previous learning to assist the patient and family in achieving optimal functioning in various complex health care situations and settings.

NUR 217 Leadership for Professional Nursing Practice*2 credit hours*

Prerequisite: NUR 210, 272, 211, 273, 288
Corequisite: NUR 206, 216, 289

Socializes the student into the graduate registered nurse role. The focus is on the exploration and analysis of contemporary nursing practice, current trends and issues impacting nursing care delivery. Advanced leadership and management concepts are discussed as part of the nursing role.

NUR 272 Expanded Clinical III*1 - 6 credit hours*

Prerequisite: BIO 204, NUR 106, NUR 112, NUR 117, NUR 172

Corequisite: NUR 210, NUR 211

Offers practical experience and continues to build upon the principles that are expected to be understood by students in the nursing discipline.

NUR 273 Expanded Clinical IV*1 - 6 credit hours*

Prerequisite: BIO 204, NUR 106, NUR 112, NUR 117, NUR 172

Corequisite: NUR 211, NUR 288

Offers the clinical practicum to apply the related nursing theory.

NUR 288 Practicum: Health and Physical Assessment for Nursing*1 - 3 credit hours*

Prerequisite: BIO 204 and acceptance into Level II of Nursing program, or program director consent

Corequisite: NUR 272, 211, 273, 210

Develops skills of nursing assessment across the life span using effective communication, interview techniques and beginning physical assessment. The course develops critical thinking skills in assessment, data analysis and derivation of actual/potential health needs.

NUR 289 Capstone: Comprehensive Nursing Internship*2 credit hours*

Prerequisite: NUR 210, 272, 211, 273, 288
Corequisite: NUR 206, 216, 217

Facilitates transition from student to graduate nurse through application of nursing principles and skills in an area of health care delivery. Critical thinking, life long learning, nursing process, caring, collaboration, and health teaching and promotion are emphasized.

OSH — OSHA (BUSINESS ADMINISTRATION PROGRAM)**OSH 116 OSHA Voluntary Compliance***3 credit hours*

Provides a 30-Hour OSHA certification course for general industry. Participants will review the current OSHA standards contained in 29 CFR 1910 and participants that complete the course will receive a certificate of completion from the United States Department of Labor, Occupational Safety and Health Administration. The course is taught by instructors certified by the Occupational Safety and Health Administration.

PAR — PARALEGAL**PAR 115 Introduction to Law***3 credit hours*

Prerequisite: MGD

Provides an understanding of the role of paralegals, issues facing paralegals, the working of the legal system, and ethical questions. Legal terminology and an overview of the substantive areas of law will be discussed.

PAR 116 Torts*3 credit hours*

Focuses on tort law, including negligence, intentional torts, and strict liability, with an emphasis on personal injury litigation.

PAR 117 Family Law*3 credit hours*

Covers domestic law, common property, dissolutions, adoptions, legal separation, and other family law issues.

PAR 118 Contracts*3 credit hours*

Covers the basic principles of contract law.

PAR 125 Property Law*3 credit hours*

Covers real estate law, ownership, sale, leasing, financing and government regulation of land.

PAR 126 Administrative Law*3 credit hours*

Introduces administrative and regulatory agencies, their jurisdiction, rule-making and decision-making processes.

PAR 201 Civil Litigation*3 credit hours*

Provides students with an intensive study of the legal process including the Federal and Colorado Rules of Civil Procedure.

PAR 202 Evidence*3 credit hours*

Introduces students to State and Federal Rules of Evidence, and application to the trial process.

PAR 205 Criminal Law*3 credit hours*

Introduces basic concepts of criminal law and criminal procedure, including Colorado statutes and Rules of Procedure.

PAR 206 Business Organizations*3 credit hours*

Focuses on the study of the major types of business organizations.

PAR 208 Probate and Estates*3 credit hours*

Provides an understanding of the creation and administration of an estate, including wills and trusts, and the probate process.

PAR 209 Constitutional Law*3 credit hours*

Emphasizes the study of the powers of government as they are allocated and defined by the United States Constitution.

PAR 211 Legal Research*3 credit hours*

Introduces students to basic legal research tools including statutes, digests, case law, citations, encyclopedias, dictionaries, and online databases.

PAR 212 Legal Writing*3 credit hours*

Focuses on practicing the content and conventions of legal writing.

PAR 217 Environmental Law*3 credit hours*

Covers state and federal laws concerning the environment, including chemical safety laws, workplace safety, and hazardous waste.

PAR 218 Bankruptcy Law*3 credit hours*

Covers the federal and state laws and procedures involving bankruptcy.

PAR 278 Legal Research Seminar I*3 credit hours*

Prerequisite: PAR 211

Introduces students to computer-assisted legal research. Enables the student to draft legal memorandums and a trial court brief.

PAR 279 Legal Research Seminar II*3 credit hours*

Prerequisite: PAR 278

Continues from Legal Research Seminar I with computer-assisted legal research used in drafting appeals and court briefs.

PAR 280 Internship: Paralegal*6 credit hours*

Prerequisite: PAR 115

Provides students with the opportunity to supplement coursework with practical work experience related to their educational program. Students work under the immediate supervision of experienced personnel at the business location and with the direct guidance of the instructor.

PAR 285 Independent Study*1 - 6 credit hours*

Prerequisite: Instructor permission.

Meets the individual needs of students. Students engage in intensive study or research under the direction of a qualified instructor.

PAR 289 Capstone: Paralegal Synthesis*3 credit hours*

Prerequisite: PAR 115, PAR 211, AND PAR 212.

Emphasizes a synthesis of the information and skills that students have learned throughout their paralegal studies.

PHA — PHARMACY AIDE**PHA 101 Pharmacy Aide***4 credit hours*

Prerequisite: By application process.

Provides students with the opportunity to perform a variety of tasks associated with the delivery of pharmacy services in an inpatient or outpatient pharmacy.

PHA 187 Cooperative Education: Pharmacy Aide*2 credit hours*

Prerequisite: PHA 101

Provides students with the opportunity to receive hands-on experience associated with the delivery of pharmacy services in an inpatient or outpatient pharmacy.

PHI — PHILOSOPHY**PHI 111 Introduction to Philosophy***3 credit hours*

Prerequisite: ENG 090 with a grade of C or better or minimum college-level English assessment score.

Introduces significant human questions and emphasizes understanding the meaning and methods of philosophy. Includes human condition, knowledge, freedom, history,

ethics, the future, and religion. This course is one of the Statewide Guaranteed Transfer courses. GT-AH3

PHI 112 Ethics*3 credit hours*

Prerequisite: ENG 090 with a grade of C or better or minimum college-level English assessment score.

Examines human life, experience, and thought in order to discover and develop the principals and values for pursuing a more fulfilled existence. Theories designed to justify ethical judgments are applied to a selection of contemporary personal and social issues. This course is one of the Statewide Guaranteed Transfer courses. GT-AH3

PHI 113 Logic*3 credit hours*

Prerequisite: College-level reading and writing skills.

Studies effective thinking using language-oriented logic. Provides tools and develops skills for creative and critical thinking. Emphasizes the development of decision-making and problem-solving. This course is one of the Statewide Guaranteed Transfer courses. GT-AH3

PHI 115 World Religions -- West*3 credit hours*

Prerequisite: ENG 090 with a grade of C or better or minimum college-level English assessment score.

Introduces the student to the common and different concepts predominant in the major world religions. Includes sociological, political, psychological, and philosophical aspects of a variety of belief systems. Focuses on the concept of religion as a cultural system, and a way that people make sense of a complex world. Particular emphasis is placed on how myths, legends, and folk tales reveal religious concerns.

PHI 116 World Religions -- East*3 credit hours*

Prerequisite: ENG 090 with a grade of C or better or minimum college-level English assessment score.

Emphasizes the diversity and richness of Eastern Religions within a cross-cultural context. Concepts such as fate, reincarnation, enlightenment and morality are analyzed.

PHI 205 Business Ethics*3 credit hours*

Prerequisite: BUS 115

Analyzes of ethical behavior for business. The premise is that ethics deals with right and wrong standards of behavior that are determined by the ethical and social expectations of society in general, and further, that we expect responsible people to observe the ethical standards of our society. A case approach is used throughout the course. The ethical issues involve trade-offs among ethical decisions and economics, legal, social, and cultural concepts.

PHI 285 Independent Study*1 - 6 credit hours*

Prerequisite: Permission of the instructor.

Focuses on directed readings and independent study on specific philosophical topics.

PHO — PHOTOGRAPHY**ART 140 Color Photography I***3 credit hours*

Prerequisite: ART 138

Covers the fundamentals of color photography such as color theory and light, production, processing and printing color negatives.

PHO 110 View Camera Techniques*3 credit hours*

Prerequisite: Instructor consent

Introduces the visual aesthetics and techniques of view camera photography. Students receive hands-on photographic experience with the 4x5 view camera, process film, and produce prints.

PHO 277 Special Topics*0.5 - 6 credit hours*

Provides students with a vehicle to pursue in depth exploration of special topics of interest.

PHO 280 Internship: Photography*1 - 6 credit hours*

Prerequisite: PHO 101 and PHO 102 or instructor consent

Provides students with the opportunity to supplement course work with practical work experience related to their educational program. Students work under the immediate supervision of experienced personnel at the business location and with the direct guidance of the instructor/coordinator.

PHO 285 Independent Study*1 - 6 credit hours*

Prerequisite: Permission of instructor.

Corequisite: PHO 109

Meets the individual needs of students. Students engage in intensive study or research under the direction of a qualified instructor.

PHO 289 Capstone: Studio Art/Portfolio: (Photography Capstone)*3 credit hours*

Prerequisite: Permission of Department Chair

Corequisite: PHO 109

Provides students an opportunity to compile a professional portfolio as a preparation for job entry. Provides the advanced student with an opportunity to receive personal attention from the photography faculty in her/his special area of professional expertise.

PHY — PHYSICS**PHY 105 Conceptual Physics***4 credit hours*

Prerequisite: Minimum assessment score in reading or REA 090

Focuses on mechanics, heat, properties of matter, electricity and magnetism, light and modern physics. Incorporates laboratory experience. This course is one of the Statewide Guaranteed Transfer courses. GT-SC1

PHY 111 Physics: Algebra-Based I with Lab*5 credit hours*

Prerequisite: MAT 121 and minimum assessment score in reading or REA 090

Corequisite: MAT 122

Enables the student to explore the truth about physical reality through reasoning, mathematics and experimentation. Examines kinematics, force, circular motion, energy, momentum, torque, rotational dynamics, simple harmonic motion, temperature, heat and thermodynamics. The concepts and theories presented are explored through demonstrations and hands-on experiments. It is a general physics course that is recommended for all of the health sciences and all other interested students. Students entering engineering or one of the advance sciences should register for PHY 211. This course is one of the Statewide Guaranteed Transfer courses. GT-SC1

PHY 112 Physics: Algebra-Based II with Lab*5 credit hours*

Prerequisite: PHY 111

Expands upon PHY 111 and covers sound waves, electric fields, electric circuits, magnetic fields, optics, and modern physics. Explores the concepts and theories presented in class through demonstrations and hands-on experiments. This course is one of the Statewide Guaranteed Transfer courses. GT-SC1

PHY 211 Physics: Calculus-Based I with Lab*5 credit hours*

Prerequisite: MAT 201

Enables the student to examine the truth about physical reality through reasoning, mathematics and experimentation. Covers kinematics, force, gravity, energy, momentum, torque, rotational dynamics, fluids and waves. The concepts and theories presented in class are explored through demonstrations and hands-on experiments. This first semester calculus-based physics course is recommended for students entering engineering or one of the advance sciences. This course is one of the Statewide Guaranteed Transfer courses. GT-SC1

PHY 212 Physics: Calculus-Based II with Lab*5 credit hours*

Prerequisite: PHY 211

Expands upon PHY 211 and examines thermodynamics, electric fields, electric circuits, magnetic fields, light and optics, and modern physics. The concepts and theories presented in class are explored through demonstrations and hands-on experiments. This course is one of the Statewide Guaranteed Transfer courses. GT-SC1

PHY 285 Independent Study*0.5 - 6 credit hours*

Prerequisite: Instructor permission

Meets the individual needs of students. Students engage in intensive study or research under the direction of a qualified instructor.

POS — POLITICAL SCIENCE**POS 105 Introduction to Political Science***3 credit hours*

Prerequisite: ENG 121 or instructor consent

Focuses on a survey of the discipline of political science, including political philosophy and ideology, democratic and

non-democratic governments, and processes, and international relations.

POS 111 American Government

3 credit hours

Prerequisite: ENG 121 or instructor consent

Includes the background of the U. S. Constitution, the philosophy of American government, general principles of the Constitution, federalism, and civil liberties. Examines public opinion and citizen participation, political parties, interest groups, and the electoral process, and the structure and functions of the national government. This course is one of the Statewide Guaranteed Transfer courses. GT-SS1

POS 125 American State and Local Government

3 credit hours

Prerequisite: ENG 121 or instructor consent

Emphasizes the structure and function of state, county, and municipal governments, including their relations with each other and with national government. Colorado government and politics are emphasized.

POS 205 International Relations

3 credit hours

Prerequisite: ENG 121 or instructor consent

Examines relationships among modern nation states. Topics include diplomacy, nationalism, ideologies, power and influence, conflict and cooperation, the role of non-state actors, the international economy and theoretical attempts to understand international behavior. This course is one of the Statewide Guaranteed Transfer courses. GT-SS1

POS 215 Current Political Issues

3 credit hours

Prerequisite: ENG 121 or instructor consent

Incorporates an in-depth analysis of critical issues in political science. Examines current topics and issues.

PSM — PUBLIC SECURITY MANAGEMENT

PSM 101 Introduction to Private Security

3 credit hours

Introduces security and loss prevention in proprietary and governmental institutions. An overview of the historical, philosophical, and legal basis of private security and its role in a modern society is also presented.

PSM 102 Crime Prevention and Technologies

3 credit hours

Explores the contemporary security management and loss prevention issues that require expertise in specialized investigative methods. Computer-related investigations, such as child abduction, fraud, and identification theft, will be covered with a focus on how the Internet can be used as an investigative tool. A historical perspective of terrorism as well as special investigative techniques associated with the investigation of terrorist activity will be presented. Additional analyses and discussions will center on forensic advances as they relate to suspect identification and loss prevention analysis.

PSM 103 Loss Prevention and Risk Management

3 credit hours

Explores the roles, techniques and strategies of safety and risk management in both the private and public sectors. Students will examine the concept, techniques, and strategies of asset protection, crime prevention and loss reduction, with emphasis upon the selection and implementation of comprehensive prevention systems and loss-reduction strategies. Topics will include facility security, OSHA regulations and topologies of fraud.

PSM 104 Homeland Security: Introduction to Emergency Management

3 credit hours

Offers the student an orientation to the position of Emergency Manager; the requirements for emergency preparedness in the USA; an orientation to community disaster relief; basic incident command systems; State disaster management; the role of emergency management in community preparedness, response and recovery; and the response to failure of infrastructure on individuals and communities.

PSM 105 Crime and Forensics

3 credit hours

Examine the philosophical considerations of the integration of forensic science disciplines with criminal investigations. Encompasses and provide an overview of physical evidence and examine the major forensic sub disciplines of pathology, toxicology, deontology, anthropology, art, firearms, and tool marks, criminalistics, serology, and questioned documents. Provides an important base for the security management profes-

sional who may become the first responder in a crime scene.

PSM 110 School Violence

3 credit hours

Provides an understanding of what leads to violence and the types of support that research has shown to be effective in preventing violence as a necessary tool for the security management professional. Preparing for a violent confrontation or the threat of physical harm is not an everyday occurrence. Although most schools are safe, the violence that occurs in our neighborhoods and communities has found its way inside the schoolhouse door.

PSM 111 Workplace Violence

3 credit hours

Explores the complicated issues that result in Workplace Violence through a systematic approach to behavioral cues. Understand the potential violent behavior that may begin to manifest in a troubled worker. Analyze the situation so that identification and mitigation can be implemented without endangering others. Understand what individuals and managers must do when they see potentially violent employee clues, and how to create and maintain a safe work environment.

PSM 112 Preventing Liability — Steps for the Security Professional

3 credit hours

Understanding the issues of common liability enhances the security professional's ability to avoid the pitfalls of lengthy litigation. Emphasizing prevention, reduction and removal of liability issues becomes a tangible asset for security professional.

PSM 130 Homeland Security Law

3 credit hours

Provides a comprehensive overview for business, industry, and government as well as those faced with the new legal and security issues raised by new public laws, the new regulatory framework, and a new Department of Homeland Security. A complete overview of homeland security laws and regulations; Emerging public safety requirements and policies; Current and evolving programs to protect water, food and air supplies; Latest security challenges in air transportation, vessel and port operations, and chemical handling and storage; Privacy rights-finding the right balance with security

concerns; Human resource issue-hiring, firing, monitoring, providing a safe workplace, and Department of Homeland Security: organizational structure and management priorities; Developing the most effective and compliant security plans.

PSM 131 Intelligence and Homeland Security
3 credit hours

Analyzes intelligence and homeland security relationships using a case study methodology; examines the evolving relationship between intelligence and homeland security strategy; challenges the student with an exercise in which students will be placed in the role of a government or organization having to deal with a hypothetical 21st Century security crisis.

PSM 132 Homeland Defense: Forecasting Terrorism
3 credit hours

Examines the variety of new indicators, warning methodologies, and analytical tools available to analysts; review of the extensive academic, governmental, and policy literature on terrorism forecasting that has been developed to assess and forecast terrorism in its numerous dimensions. Students will comprehend the various analytical capabilities of the types of terrorist threats that are most likely to confront the USA and its allies in the near future, and predict how to develop proactive defenses for the long term protection of our society.

PSM 133 Homeland Security: Chemical and Biological Defense
3 credit hours

Provides an overview of the chemical, biochemical, and biological threat to Homeland Security. Analysis of the agents and means of dissemination or attack that an adversary nation, group, or terrorist cell may employ to deliver these agents; review the current and projected means, techniques, and procedures for defense against such agents; review of theory and practices in chemical and biological threats to develop proactive defensive postures to defeat these threats.

PSM 134 Homeland Defense: Critical Incident Response Management
3 credit hours

Examines the political results from nuclear, biological, and chemical incidents or uses. Analysis of Critical Incident Management of

Natural Disasters: Hurricane, Tornado, Blizzard, Fire, Flood, and Earthquake. Review of public health consequences; development of emergency planning and response measures in place among US agencies, State agencies, and emerging detection and management technologies; discussion of existing vulnerabilities to these incidents and attacks; protection of infrastructures and communication alternatives will also be examined.

PSM 140 Executive Protection
3 credit hours

Develop the student programs in practical self-defense application for beginners and intermediate practitioners and advanced Close Quarter Combat Tactics custom tailored to suit the needs of Professionals such as Executive Protection Specialists, High Risk Security Operators, Private Investigators, and Martial Art Instructors all within an integrated and academic training curriculum.

PSM 143 Executive Leadership for Security Personnel
3 credit hours

Offers the student a unique opportunity to explore leadership skills and abilities. Use of power, goal setting, benchmarking, and organizational behavior is discussed. Motivation techniques are discussed along with situational leadership models. Theories of leaders and great men are reviewed culminating in the student's use of leadership skills within a practical setting for Security Management, Loss Prevention, and Homeland Security.

PSM 201 Private Security Management and Administration
3 credit hours

Presents a study of administration and management principles and practices applicable to security management and loss prevention. Topics will focus on organizational structure and development, operations, technology and trends, and management theories.

PSM 202 Legal and Ethical Issues in Private Security
3 credit hours

Offers an in-depth analysis of ethical issues confronting the modern security management professional. Current issues are examined in light of both classical and contemporary standards. Students will articulate

an understanding of the symbiotic nature of ethics, morality, and legality through application of written and oral skills in the resolution and implementation of role conflict.

PSM 203 Evaluating Security Programs
3 credit hours

Examines industry standards, practices, and methods of determining the adequacy of security management programs. It also explores the concepts of legal and premises liability. Finally, this course explores the interplay of management structures, functions, and processes as well as examines state-of-the-art management techniques and their impact on security operations.

PSM 204 Terrorism, Intelligence, and Justice
3 credit hours

Provides the student with an interactive opportunity for students to develop enforcement strategies for investigating terrorism, intelligence gathering, and justice. The course will focus on the history and development of traditional and non-traditional terrorist actors, cells, supporting countries, and homeland defensive methodologies for the security professional. The operational strategies of law enforcement in combating terrorism, including electronic surveillance, intelligence operations and covert operations will be discussed and applied in role-play situations.

PSM 205 Crime Prevention through Environmental Design
3 credit hours

Explore the contemporary security management and loss prevention issues are required in architectural design and human behavior. Understanding this link can enable a planner to use natural environmental factors to minimize loss and crime - and to maximize productivity.

PSM 210 Physical Security and Foreseeability
3 credit hours

Offers the student an opportunity to explore the issues surrounding the appropriateness of the existing security in any location; Review of issues such as industry standards and adequacy of hiring, training, supervision, and policies; Comparison of physical security to ensure reasonableness and appropriateness. Emphasis will be placed on a thorough review of the issue of foreseeability assessment in the determination of proximate cause.

PSM 211 Introduction to Corrections*3 credit hours*

Designed to provide the student with an orientation to the corrections system and current trends in privatization. An overview of the history and trends in juvenile and adult corrections will be covered, including probation and parole. This course will focus on legal issues, specific laws relating to corrections and the general operations of correctional institutions. The student will have an opportunity to explore various career options in various subsections of corrections and will receive a better understanding of the complexity of the correction system within the United States. The relationship between corrections and the other components of the criminal justice system will also be examined.

PSM 212 Control and Supervision in Corrections*3 credit hours*

Offering an overview of supervision of inmates in the local, state, and federal correctional institutions; the issues of control in a continuum from institutional daily living through crisis situations will be introduced and discussed. The course will emphasize the role played by the offender and the correctional worker. Topics will include inmate subculture, violence, and the effects of overcrowding on inmates and staff, as well as coping techniques for Correctional Officers in a hostile prison environment. The causes and effects of abusive tactics will also be discussed.

PSM 213 Legal Aspects of Corrections*3 credit hours*

Offering an overview of supervision of inmates in the local, state, and federal correctional institutions. The issues of control in a continuum from institutional daily living through crisis situations will be introduced and discussed. The course will emphasize the role played by the offender and the correctional worker. Topics will include inmate subculture, violence, and the effects of overcrowding on inmates and staff, as well as coping techniques for Correctional Officers in a hostile prison environment. The causes and effects of abusive tactics will also be discussed.

PSM 214 Corrections: Leadership in Action*3 credit hours*

Designed to assist students in understanding effective leadership skills and their application in the correctional setting.

This course will provide the student with the working knowledge of leadership, efficient administration, and today's workforce in the corrections setting.

PSM 220 White-collar Crime and Fraud Investigation*3 credit hours*

Define and examine white-collar crime and, through a comprehensive analysis of this type of crime, to ascertain who are the predators and victims of this nonviolent but costly criminal activity. Once white-collar criminals and victims have been identified, this course will explore what can be done to deter this crime. In addition, the economic impact of this crime will be reviewed to determine the financial burden caused by white-collar crime.

PSM 221 Forensic Computer Analysis: Computer Forensics I*3 credit hours*

Offers the student an overview of computer forensics, while discussing the different aspects of computers as it pertains to the forensic field, loss prevention, security management, and homeland security. Introduction to the legal aspects as it pertains to the search and seizure of computers and the effects of new legislation that changes our concepts of privacy and ownership.

PSM 222 Forensic Computer Analysis: Computer Forensics II*3 credit hours*

Prerequisite: PSM 221

Provides the student with enhanced materials built on the foundations of PSM 221 - Computer Forensics I. Introduces and incorporates software used within the security industry to identify and locate evidence on a computer system. The procedures of computer seizure are reintroduced along with the proper guidelines of computer seizure.

PSM 223 Forensic Computer Analysis: Computer Forensics III*3 credit hours*

Prerequisite: Computer Forensics II

Provides knowledge of forensic software programs and their usage in identifying data that is believed to no longer exist on a computer system and the processes needed to gather that data for forensic examination and preservation. Court testimony, chain of custody and trial preparation concerning

the collected computer evidence and documentation guidelines is reviewed.

PSM 225 Forensic Computer Analysis: Computer Forensics V*3 credit hours*

Prerequisite: Computer Forensics IV

Provides students with an overview and concentration on securing a network from hackers and closing security holes. Networking overview, with a look at the popular network operating systems, along with tools that a hacker may use to enter a network, and how to track and prevent future break-ins.

PSM 230 Physical Security*3 credit hours*

Examines the security controls of a physical nature, with the idea that they can only be regarded as one security element in a complete system of many different elements. Examination of site selection, location of facilities on the site, protection of those assets, and budgeting and cost benefit analysis. Physical barriers are examined and discussed to include vaults, safes, fire-resistive buildings, walls, floors, roofs and doors - meeting functional objectives from the viewpoint of object illumination, physical deterrence, and psychological deterrence.

PSM 231 Patrol, Surveillance and Countermeasures*3 credit hours*

Offers the student an opportunity to examine the origins of security. Security originally began as a "guarding" operation. The activity was known as plant protection and the organization was almost entirely watchmen. Security Officers are now recognized as an integral part of the overall security protection plan. This course examines patrol functions, surveillance and countermeasures.

PSM 232 Premises Liability for the Security Professional*3 credit hours*

Ascertain and review the problem of premises liability to better serve the needs for protection of assets, people and property. Propose and manage preventive measures to take a proactive approach to the inevitable accident or violent act that may occur on premises.

PSM 240 Hazmat Awareness for Security Professionals*3 credit hours*

Exploring the Occupational Health and Safety Act's (OSHA) general industry standards and integrates materials from other consensus and proprietary standards that relate to hazardous materials - United Nations and National Fire Protection Act - including flammable and combustible liquids, compressed gases, LP-Gas, cryogenic liquids, anhydrous ammonia and explosives. Processes such as welding, spraying and dipping are covered, as well as electrical equipment, ventilation, and fire protection. This knowledge base prepares the first responder to be alert, aware and safe.

PSM 241 Environmental Health and Safety — Occupational Health and Safety Act (OSHA) Awareness*3 credit hours*

Designed to present detailed information on how the provisions of the OSHA Act may be implemented in the workplace. Rights and responsibilities under the OSHA Act, the appeals process, and record keeping are covered. OSHA's general industry standards and an overview of the requirements of the most frequently referenced standards will also be addressed.

PSM 250 Contemporary Issues in Security Management*4 credit hours*

Offers topics important to Public Security Management Professionals - discussion will include concepts and applications that pertain to managing hostage situations and critical incidents in both terrorist and critical incident response to a major disaster, and the evolution and cultural response to the social issue of domestic violence with a focus on the "cycle of violence." Additional topics include how technology and advances in technology are instrumental to public security professionals, and common misconceptions regarding the portrayal of public security professionals in respect to today's media coverage.

PSY — PSYCHOLOGY**PSY 101 General Psychology I***3 credit hours*

Prerequisite: ENG 090 with C or better or minimum college-level English assessment score

Focuses on the scientific study of behavior including motivation, emotion, physiological psychology, stress and coping, research methods, consciousness, sensation, perception, learning and memory. This course is one of the Statewide Guaranteed Transfer courses. GT-SS3

PSY 102 General Psychology II*3 credit hours*

Prerequisite: ENG 090 with C or better or minimum college-level English assessment score

Studies behavior scientifically, including cognition, language, intelligence, psychological assessment, personality, abnormal psychology, therapy, life span development, and social psychology. This course is one of the Statewide Guaranteed Transfer courses. GT-SS3

PSY 110 Career Development*3 credit hours*

Assists students in recognizing their career potential and provides tools for making realistic decisions concerning educational and occupational objectives.

PSY 205 Psychology of Gender*3 credit hours*

Prerequisite: ENG 090 with C or better or minimum college-level English assessment score

Examines gender differences in work, courtship, family life, and sexual behavior throughout the life span. This course is one of the Statewide Guaranteed Transfer courses. GT-SS3

PSY 215 Psychology of Adjustment*3 credit hours*

Prerequisite: ENG 121 with a grade of C or better.

Emphasizes personal growth and the development of interpersonal skills. Focus is on the practical application of psychological principles and theories in achieving self-understanding and personal growth.

PSY 217 Human Sexuality*3 credit hours*

Prerequisite: ENG 121 with a grade of C or better.

Surveys physiological, psychological, and psychosocial aspects of human sexuality. Topics include relationships, sexual identity, and sexual health.

PSY 227 Psychology of Death and Dying*3 credit hours*

Prerequisite: PSY 101, or PSY 102, or SOC 101, or SOC 102, or instructor consent

Covers philosophies of life and death, emphasizing dying, death, mourning, and the consideration of one's own death. This course is one of the Statewide Guaranteed Transfer courses. GT-SS3

PSY 235 Human Growth and Development*3 credit hours*

Prerequisite: ENG 121 with grade of C or better.

Surveys human development from conception through death emphasizing physical, cognitive, emotional and psychosocial factors. This course is one of the Statewide Guaranteed Transfer courses. GT-SS3

PSY 238 Child Development*3 credit hours*

Prerequisite: ENG 090 with C or better or minimum college-level English assessment score

Focuses on growth and development of the individual from conception through childhood, emphasizing physical, cognitive, emotional, and psychosocial factors. This course is one of the Statewide Guaranteed Transfer courses. GT-SS3

PSY 249 Abnormal Psychology*3 credit hours*

Prerequisite: PSY 101 or PSY 102 and ENG 121 with grade of C or better

Studies abnormal behavior and its classification, causes, treatment, and prevention.

PSY 285 Independent Study*1 - 6 credit hours*

Prerequisite: Permission from the instructor

Meets the individual needs of students. Students engage in intensive study or research under the direction of a qualified instructor.

PSY 289 Capstone: Leadership Development
3 credit hours

Prerequisite: ENG 121 and MAT 120 and SPE 115

Studies and applies the theories and techniques of leadership and group processes. In addition, introduces leadership skills and experiences with applications in group and community settings.

PTE — PSYCHIATRIC TECHNICIAN

PTE 110 Introduction to Psychiatric Care
5 credit hours

Prerequisite: Admission to Psychiatric Technician Certificate

Explores basic principles of psychiatric care utilizing therapeutic communication, human development, behavior assessment, and documentation. Enables the student to develop and apply interpersonal and technical skills while working with clients in psychiatric care settings. Prerequisites and corequisites will be determined by each individual institution.

PTE 116 Theoretical Concepts of Psychiatric Care

2 credit hours

Prerequisite: Admission into the Psychiatric Program and PTE 110

Corequisite: PTE 170

Explores basic etiology, symptoms of, and interventions for common psychiatric disorders. Builds on prior knowledge. Provides opportunities to recognize and intervene with clients experiencing typical psychiatric problems.

PTE 117 Theoretical Concepts of Psychiatric Care II

2 credit hours

Prerequisite: PTE 116 and PTE 170 at PCC and PPCC or PTE 179 at CCD, or permission of instructor

Corequisite: PTE 171 and PTE 179 and awaiting Nursing CORE numbers.

Explores psychiatric problems common to four (4) special populations: children/adolescents, developmentally disabled individuals, aging persons, and forensic clients. The student learns to recognize and intervene with problems common to these four groups.

PTE 118 Psychiatric Management Principles
1 credit hour

Prerequisite: PTE117 and PTE 171

Corequisite: PTE 172

Explores principles of psychiatric unit management and professional behaviors in psychiatric care. Self-care issues and job-seeking skills are also discussed.

PTE 170 Clinical Concepts of Psychiatric Care I

3 credit hours

Prerequisite: PTE 110 at PCC and PPCC and PTE 112 at CCD

Corequisite: PTE 116

Provides clinical application of theory and principles presented in PTE 116 through supervised clinical practice in a psychiatric care setting.

PTE 171 Clinical Concepts of Psychiatric Care II

3 credit hours

Prerequisite: PTE 116 and PTE 170 or permission of instructor

Corequisite: PTE 117

Provides clinical application of theory and principles presented in PTE 117 through supervised clinical practice in a psychiatric care setting.

PTE 172 Psychiatric Management Clinical

1 credit hour

Prerequisite: PTE 117, and PTE 171

Corequisite: PTE 118

Synthesizes knowledge from prerequisite courses and provides clinical application of theory presented in PTE 118.

REA — READING

REA 030 Basic Reading Skills

2 credit hours

Prerequisite: Appropriate reading assessment score.

Focuses on phonics, vocabulary development, dictionary usage, locating main ideas and supporting details, understanding the relationship between main ideas and supporting details. .

REA 060 Foundations of Reading

3 credit hours

Prerequisite: REA 030: Basic Reading Skills

Focuses on strategies for vocabulary development, improved reading

comprehension, and enrichment.

REA 090 College Preparatory Reading
3 credit hours

Prerequisite: Minimum Assessment Score in Reading or REA 060

Enables the student to apply strategies for improving comprehension, developing vocabulary, and increasing rate for reading college textbooks.

REA 151 College Reading

3 credit hours

Prerequisite: REA 090, or reading assessment score of 80+, or instructor consent

Covers information processing systems, analyzing reasoning strategies, concept development and retention, and patterns of organization with emphasis on applying reading strategies to college expository text.

REA 223 Critical Reading and Analysis

3 credit hours

Prerequisite: REA 090, or REA 151 or reading assessment score of 80+, or instructor consent

Covers problem solving, goal setting, decision making, analyzing critical issues, constructing effective arguments, reasoning logically, organizing and interpreting visual perceptions, evaluating beliefs based upon experiences, and examining the symbolic nature of language. Emphasizes creating a learning environment where students are able to read and think both critically and creatively.

REA 225 Exploring Diversity Issues

3 credit hours

Prerequisite: CPT 80, REA 151, or REA 223 or instructor consent

Assist students in developing diversity awareness. Emphasizes the strengths inherent in mastering a developmental framework for awareness and application of diversity-related concepts.

RTE — RADIOLOGY TECHNOLOGY

RTE 101 Introduction to Radiography

2 credit hours

Prerequisite: ENG 121, MAT 106 or higher, BIO 201/202 or BIO 106, PSY 101 or SOC 101 or PSY 235

Offers an introduction to radiology including equipment, exposure, positioning and the knowledge necessary for the

radiography student to provide safe patient care including communication skills, body mechanics, patient transfer, and radiography as a profession.

RTE 111 Radiographic Patient Care

2 credit hours

Prerequisite: BIO 201/202, ENG 121, MAT 106 or higher, PSY 101 or SOC 101, PSY 285, RTE 101

Corequisite: RTE 121, RTE 141, RTE 181

Offers expansion of the information presented in RTE 101, including diversity, universal precautions, legal considerations and ethics. Includes lecture and laboratory experience in the patient care areas of asepsis, vital signs, venipuncture, medical emergencies, assistance with drug administration, patient with special needs, and death and dying.

RTE 121 Radiologic Procedures I

3 credit hours

Prerequisite: BIO 106 or Bio 201 and 202, ENG 121, MAT 106 or higher, PSY 101 or SOC 101 or PSY 135 and RTE 101
Corequisite: RTE 131, 141, 181

Introduces fundamentals of radiographic positioning, including use of radiographic equipment and safety, positioning terminology, anatomy, pathology, and skill necessary to perform radiographic procedures of the chest, abdomen, upper extremity, gastrointestinal and urinary systems.

RTE 122 Radiologic Procedures II

3 credit hours

Prerequisite: BIO 201 and 202, ENG 121; MAT 106 or higher; PSY 101 or SOC 101; PSY 285; RTE 111, 121, 131, 141 and 181
Corequisite: RTE 132, 142, 182

Introduces additional material covered in RTE 121 including the knowledge of anatomy, pathology, and skills necessary to perform radiographic procedures of the lower extremity, pelvis, spine, and boney thorax.

RTE 131 Radiographic Pathology and Image Evaluation I

1.5 credit hours

Prerequisite: ENG 121, MAT 106 or higher, BIO 201/202 or BIO 106, PSY 101 or SOC 101 or PSY 235 and RTE 101
Corequisite: RTE 111, RTE 121, RTE 141, RTE 181

Provides a detailed anatomic discussion of respiratory, digestive, and genitourinary

systems and related medical terminology. This course will also cover the details of bony anatomy including bone structure, pathology and arthrology.

RTE 132 Radiographic Pathology and Image Evaluation II

1.5 credit hours

Prerequisite: RTE 111, RTE 121, RTE 131, RTE 141, RTE 181

Corequisite: RTE 122, RTE 142, RTE 182

Provides detailed anatomic/pathologic discussion of the spine, circulatory system, nervous system and skull and related medical terminology.

RTE 141 Radiographic Equipment/Imaging I

3 credit hours

Prerequisite: BIO 201 and 202 or 120, ENG 121, MAT 106 or higher, PSY 101 or SOC 101, PSY 285

Corequisite: RTE 111, 131, 181

Introduces the fundamental aspects of radiographic equipment, including a basic review of physics fundamentals pertaining to X-ray production, the X-ray machine, image receptors and control of scatter radiation.

RTE 142 Radiographic Equipment/Imaging II

3 credit hours

Prerequisite: BIO 201 and 202 or 120, ENG 121, MAT 106 or higher, PSY 101 or SOC 101, PSY 285, RTE 101, 111, 121, 131, 141, 181

Corequisite: RTE 122, 132, 182

Expands information covered in RTE 141 and provides in depth knowledge of radiographic exposure and the factors that effect radiographic film quality and assurance.

RTE 180 Radiography Limited Scope Internship

3 credit hours

Prerequisite: RTE 111, 122, 132, 142, 182

Corequisite: RTE 189

Applies knowledge learned in the classroom and previous internship experience to the practice of radiography in the private medical office.

RTE 181 Radiographic Internship I

5 credit hours

Prerequisite: BIO 201 and 202 or 120, ENG 121, MAT 107 or higher, PSY 101 or SOC 101, PSY 285

Corequisite: RTE 101, 121, 141

Introduces the clinical education experi-

ence at the clinical education center. The student applies knowledge learned in the classroom to the actual practice of radiography.

RTE 182 Radiographic Internship II

5 credit hours

Prerequisite: BIO 201 and 202 or 120, ENG 121, MAT 107 or higher, PSY 101 or SOC 101, PSY 285, RTE 101, 121, 141, 181
Corequisite: RTE 122, 132, 142

Introduces additional concepts and more complex radiographic procedures to those learned in Internship I.

RTE 183 Radiographic Internship III

7 credit hours

Prerequisite: BIO 201 and 202 or 120, ENG 121, MAT 107 or higher, PSY 101 or SOC 101, PSY 285, RTE 111, 122, 142, 182

Reinforces the basic concepts of Clinical Internship I and II.

RTE 185 Independent Study

1 - 6 credit hours

Prerequisite: RTE 121, RTE 181

Meets the individual needs of students. Students engage in intensive study or research under the direction of a qualified instructor.

RTE 189 Radiography Limited Scope Capstone

2 credit hours

Prerequisite: RTE 111, 122, 132, 142, 182

Corequisite: RTE 180

Introduces the concepts of radiobiology necessary to practice good radiation safety. Prepares the student for job search and provides a comprehensive review for the State of Colorado Limited Scope Radiography Exam.

RTE 221 Advanced Medical Imaging

3 credit hours

Prerequisite: BIO 201 and 202 or 120, ENG 121, MAT 106 or higher, PSY 101 or SOC 101, PSY 235, RTE 183, 122

Corequisite: RTE 231, 281

Introduces advanced imaging techniques including radiography of the cranium, facial bones and special radiographic procedures. These concepts are combined with the basic oral communication techniques necessary for the professional radiographer.

RTE 231 Radiation Biology/Protection*2 credit hours*

Prerequisite: BIO 201 and 202 or 120, ENG 121, MAT 106 or higher, PSY 101 or SOC 101, PSY 285, RTE 183

Corequisite: RTE 221, 281

Provides the basic knowledge and understanding of the biologic effects of ionizing radiation and radiation protection and safety.

RTE 281 Radiographic Internship IV*8 credit hours*

Prerequisite: BIO 201 and 202 or 106, ENG 121, MAT 106 or higher, PSY 101 or SOC 101, PSY 235, RTE 181, 182, 183

Corequisite: RTE 221, 231

Introduces the student to the radiographic specialty areas of Pediatrics, Geriatrics, the out-patient clinic, as well as increasing proficiency in general radiography.

RTE 282 Radiographic Internship V*8 credit hours*

Prerequisite: BIO 201/202, or BIO 106; ENG 121; MAT 106 or higher; PSY 101 or SOC 101; PSY 235; RTE 181, 182, 183 and 281

Corequisite: RTE 289

Introduces the student to the radiographic specialty areas of pediatrics, geriatrics, the outpatient clinic, portable and trauma radiography as well as increasing proficiency in general radiography.

RTE 289 Radiographic Capstone*3 credit hours*

Prerequisite: BIO 201 and 202 or 120, ENG 121, MAT 106 or higher, PSY 101 or SOC 101, PSY 285, RTE 181, 182, 183, 281

Corequisite: RTE 282

Prepares the radiology technology student to effectively search for a job in radiography and sit for the American Registry of Radiologic Technology examination.

SCI — SCIENCE**SCI 155 Integrated Science I***4 credit hours*

Prerequisite: Grade of C or better in MAT 090 and ENG 090.

Examines the nature of energy and matter, their interactions and changes, and the application of fundamental concepts to the study of our natural world. This course is one of the Statewide Guaranteed Transfer courses. GT-SC1

SCI 156 Integrated Science II*4 credit hours*

Prerequisite: Grade of C or better in MAT 090 and ENG 090

Examines earth and biological systems, living and non-living environments, through the application and refinement of fundamental energy and matter concepts. This course is one of the Statewide Guaranteed Transfer courses. GT-SC1

SOC — SOCIOLOGY**SOC 101 Introduction to Sociology I***3 credit hours*

Prerequisite: ENG 090 with C or better or minimum college-level English assessment score

Examines the basic concepts, theories, and principles of sociology as well as human culture, social groups, and the social issues of age, gender, class, and race. This course is one of the Statewide Guaranteed Transfer courses. GT-SS3

SOC 102 Introduction to Sociology II*3 credit hours*

Prerequisite: ENG 090 with C or better or minimum college-level English assessment score

Examines social institutions and organizations from the macro perspective. Emphasizes issues of social change, demography, social movements, and conflicts and trends within education, religion, family, political, and economic structures. This course is one of the Statewide Guaranteed Transfer courses. GT-SS3

SOC 201 Introduction to Gerontology*3 credit hours*

Prerequisite: PSY 101 or 102 or SOC 101 or 102

Acquaints students with the major issues and concepts pertinent to the field of gerontology. The course introduces various theoretical perspectives on aging, the changing trends in life expectancy and other demographic considerations, and the interrelationship between elders and key social institutions. It provides an overview of physical, cognitive, and socioemotional factors associated with aging.

SOC 203 Urban Socio-Anthropology*3 credit hours*

Prerequisite: ENG 121 with grade of C or better, and ANT 101 or SOC 101 or SOC 102

Examines how cities and city life are shaped by cultural, social, political, and economic forces operating at many different levels. Additionally, SOC 203 examines the history and theoretical roots of urban anthropology and sociology, ethnographic fieldwork in urban environment, and urban social organization in cross-cultural perspectives.

SOC 205 Sociology of Family Dynamics*3 credit hours*

Prerequisite: ENG 121 with grade of C or better and SOC 101 or SOC 102

Develops an understanding of marriage, family and kinship. It examines the family as an institution and how social, cultural and personal factors influence family relations. The stability and diversity of the family will be explored, along with current trends and some alternative life styles.

SOC 215 Contemporary Social Problems*3 credit hours*

Prerequisite: ENG 121 with a grade of C or better, and SOC 101, or SOC 102, or instructor consent

Explores current social issues that result in societal problems. It focuses on such issues as civil liberties, gender discrimination, substance abuse, crime, poverty, and social change. This course is one of the Statewide Guaranteed Transfer courses. GT-SS3

SOC 218 Sociology of Diversity*3 credit hours*

Prerequisite: ENG 121 with a grade of C or better, and SOC 101, or SOC 102, or instructor consent

Explores the variety of inter-group relations regarding race, nationality, ethnicity, gender, sexual orientation, and other diversity issues. Patterns of prejudice, discrimination and possible solutions to these issues will be addressed.

SOC 223 Chicanos in a Changing Society*3 credit hours*

Explores the lives and roles of Chicanos and Chicanas (Americans of Mexican descent). It introduces students to the Chicano community, its historical, political and social development. It explores the ways in which Chicano communities interrelate

with Anglo and multicultural societies as well as its future prospects.

SOC 231 Sociology of Deviant Behavior

3 credit hours

Prerequisite: ENG 121 with a grade of C or better and SOC 101, or 102, or instructor consent

Examines the nature, identification, and explanation of deviant categories. Theories, and philosophies as well as methods of treatment related to deviancy will also be considered. The course will study society's attempts to control, change, and institutionalize those acts, individuals or groups that a population may deem unacceptable. This course is one of the Statewide Guaranteed Transfer courses. GT-SS3

SOC 237 Sociology of Death and Dying

3 credit hours

Prerequisite: Grade of C or better in ENG 121, and PSY 101, or PSY 102, or SOC 101, or SOC 102, or instructor consent

Provides an opportunity to familiarize students and professionals with the needs and issues surrounding dying and death. This course will provide sociological, psychological, religious, historical and anthropological perspectives for interpreting contemporary American customs dealing with dying, death and bereavement. We will examine the professions associated with death and dying, such as hospice, funeral and crematory institutions, and medical care.

SOC 265 Violence and Culture

3 credit hours

Prerequisite: ENG 121 with a grade of C or better, and ANT 101 or SOC 101 or instructor consent

Examines the concepts, relationships, organizations, and research as they relate to violence in multiple cultural settings. SOC 265 assists in developing an understanding of societal and institutional causes of violence; explores resources for intervention and treatment; and provides service learning applications in violence assessment, treatment, and victim assistance.

SOC 285 Independent Study

1 - 6 credit hours

Prerequisite: Permission from the instructor

Meets the individual needs of students. Students engage in intensive study or research under the direction of a qualified instructor.

SPA — SPANISH (FOREIGN LANGUAGES PROGRAM)

SPA 101 Conversational Spanish I

3 credit hours

Offers beginning students the skills necessary to understand and speak Spanish. The material includes basic vocabulary, grammar, and expressions that are used in daily situations and in travel.

SPA 102 Conversational Spanish II

3 credit hours

Prerequisite: SPA 101

Offers students the skills necessary to understand and speak Spanish. The material continues to cover basic conversations patterns, expressions, and grammar.

SPA 111 Spanish Language I

5 credit hours

Prerequisite: SPA 112 or instructor permission.

Deals with the development of functional proficiency in listening, speaking, reading and writing the Spanish language. *Note:* The order of the topics and methodology will vary according to individual texts and instructors.

SPA 112 Spanish Language II

5 credit hours

Prerequisite: SPA 111

Continues Spanish Language I in the development of functional proficiency in listening, speaking, reading and writing the Spanish language. *Note:* The order of the topics and the methodology will vary according to individual texts and instructors.

SPA 115 Spanish for the Professional I

3 credit hours

Prerequisite: SPA 111 or SPA 112 or instructor consent

Designed as an introduction to a working knowledge of the target language, cultural behaviors and values useful in various professional fields such as health care, law enforcement, bilingual education, business, and others.

SPA 211 Spanish Language III

3 credit hours

Prerequisite: SPA 112 or instructor permission.

Continues Spanish Language I and II in the development of increased functional proficiency in listening, speaking, reading

and writing the Spanish language. *Note:* The order of the topics and the methodology will vary according to individual texts and instructors. This course is one of the Statewide Guaranteed Transfer courses. GT-AH4

SPA 212 Spanish Language IV

3 credit hours

Prerequisite: SPA 211 or instructor permission.

Continues Spanish Language I, II and III in the development of increased functional proficiency in listening, speaking, reading, and writing the Spanish language. *Note:* the order of the topics and methodology will vary according to individual texts and instructors. This course is one of the Statewide Guaranteed Transfer courses. GT-AH4

SPA 215 Spanish for the Professional II

3 credit hours

Prerequisite: SPA 115

Continues SPA 115 in the development of a working knowledge of the target language, cultural behaviors and values useful in various professional fields such as health care, law enforcement, bilingual education, business, and others.

SPA 261 Grammar for the Heritage Language Speaker

3 credit hours

Prerequisite: Consent of the instructor.

Proficiency at an intermediate level of the Spanish Language required.

Provides formal grammatical instruction to Foreign Language students whether native or bilingual who want to develop their existing proficiency in the target language.

SPA 262 Composition for The Heritage Language Speaker

3 credit hours

Prerequisite: Consent of the instructor.

Proficiency at an intermediate level of the Spanish Language required.

Provides formal composing instruction to Spanish Language students whether native or bilingual who want to develop their existing proficiency in the target language.

SPA 285 Independent Study - Spanish

1 - 6 credit hours

Prerequisite: Instructor Permission

Meets the individual needs of students. Students engage in intensive study or research under the direction of a qualified instructor.

SPE — SPEECH**SPE 115 Public Speaking***3 credit hours*

Prerequisite: Grade of C or better in ENG 090 or minimum college-level English assessment score.

Combines the basic theory of speech communication with public speech performance skills. Emphasizes on speech delivery, preparation, organization, support, and audience analysis.

SPE 125 Interpersonal Communication*3 credit hours*

Prerequisite: Grade of C or better in ENG 090 or minimum college-level English assessment score

Examines the communication involved in interpersonal relationships occurring in family, social and career situations. Relevant concepts include self-concept, perception, listening, nonverbal communication, and conflict.

SPE 205 Voice and Diction*3 credit hours*

Prerequisite: Grade of C or better in ENG 090 or minimum college-level English assessment score

Studies the physiological production of the speaking voice and methods for improving the quality of the spoken word in general American speech.

SPE 216 Principles of Speech Communication II*3 credit hours*

Prerequisite: SPE 115 AND "Grade of C or better in ENG 090 or minimum college-level English assessment score

Emphasizes the intensification of ideas and styles with a focus on persuasive speaking. The course includes additional studies in rhetorical analysis and oral delivery methods.

SPE 219 Group Dynamics*3 credit hours*

Prerequisite: SPE 115 AND Grade of C or better in ENG 090 or minimum college-level English assessment score

Examines group communication theories with an emphasis on leadership and group behaviors. The course provides opportunities for group participation.

SPE 226 Oral Interpretation*3 credit hours*

Prerequisite: Grade of C or better in ENG 090 or minimum college-level English assessment score

Excites and exposes the student to the potential offered in the reading and performing of great literature such as is found in prose, poetry, and drama.

TEC — TECHNICAL (ENGINEERING GRAPHICS PROGRAM)**TEC 205 Geometric Dimensioning and Tolerancing***3 credit hours*

Prerequisite: DRT 103 or instructor consent

Enables students to interpret geometric dimensioning and tolerancing (GDT) in machining or drafting. The course covers math formulas, tolerancing systems, modifiers, symbols, datums, and tolerances of form, profile, orientation, runout and location. Students learn the generation of a working drawing is a team effort between design, drafting, manufacturing and quality control.

THE — THEATRE**THE 100 Technical Theatre Lab***1 - 3 credit hours*

Provides students with safety training for working with equipment used for Technical Theatre, as well as hands-on experience in one or all of the following areas: stage lighting, set construction, stage properties, costuming and makeup.

THE 105 Introduction to Theatre Arts*3 credit hours*

Includes discussions, workshops and lectures designed to discover, analyze and evaluate all aspects of the theatre experience: scripts, acting, directing, staging, history, criticism and theory. This course is one of the Statewide Guaranteed Transfer courses. GT-AH1

THE 106 Cross-Cultural Storytelling*4 credit hours*

Offers international students and American students the opportunity to share ethnic/cultural experiences by using the theatre techniques of storytelling,

improvisation, mime, verbal and non-verbal language, scripting and staging techniques resulting in performance projects.

THE 107 Elements of Theatrical Craft and Design*3 credit hours*

Explores the theory and practice of technical theatre craft and design. Through lecture, discussion and class projects, students learn about evolving forms and styles of architecture, scenery and decoration, properties, costume/make-up, lighting and sound.

THE 108 Play Reading*2 credit hours*

Introduces students to methods of reading literature for the stage. The course helps students learn to read plays fluently and exercise their imaginations for visualizing how a play looks, sounds, and feels when produced.

THE 111 Acting I*3 credit hours*

Covers basic acting techniques and approaches including scene study, improvisation, and script analysis. It includes practical application through classroom performance.

THE 112 Acting II*3 credit hours*

Prerequisite: THE 111

Continues to explore basic acting techniques and approaches including scene study, improvisation, and intermediate script analysis. It includes practical application through classroom performance.

THE 115 Stage Movement for Actors*3 credit hours*

Introduces the vocabulary of human movement, techniques of physical training, and anatomy and kinesiology for the actor. The course includes forms of basic dance and the coordination of movement with vocal delivery.

THE 116 Technical Theatre*3 credit hours*

Prerequisite: Instructor consent

Introduces hands-on methods of constructing and painting scenery and properties and operating stage lighting. Students also learn the proper procedures of using shop equipment and serving on stage crews.

THE 129 Introduction to the Entertainment Industry*3 credit hours*

Teaches the student an overview of what the Entertainment Industry is and what skill sets are required to enter this field.

THE 130 Safety, Tools and Materials*3 credit hours*

Addresses basic safety guidelines concerning the operation / use, care and storage of tools and materials. Areas covered include OSHA power tools, hand tools, hardware, lighting and sound equipment, paints, solvents, plastics, woods, steel, aluminum and ladders.

THE 131 Theatre Production I*3 credit hours*

Prerequisite: Instructor consent

Allows students to put into practice theories of theatre production. Participation in set construction, scenic artistry, costuming, lighting, sound, acting, stage managing, and administration is available.

THE 150 Comedy*3 credit hours*

Helps students learn improvisation comedy skills, stand-up comedy skills for performance along with the business aspect of comedy. Students will learn the career and marketing of putting together a show for performance.

THE 151 Stagecraft I*3 credit hours*

Focuses upon fundamental theories and construction of flats, platforms, stair units, soft scenery and other aspects of Stagecraft.

THE 211 Development of Theatre I*3 credit hours*

Surveys the history and evolution of drama from Ancient Greece to the Renaissance, emphasizing all aspects of the art from period values to analysis of dramatic literature and performance. This course is one of the Statewide Guaranteed Transfer courses. GT-AH1

THE 212 Development of Theatre II*3 credit hours*

Prerequisite: THE 211 (Development of Theatre I)

Surveys the history and evolution of drama from the Renaissance to the present,

emphasizing all aspects of the art from period values to the analysis of dramatic literature and performance. This course is one of the Statewide Guaranteed Transfer courses. GT-AH1

THE 215 Playwriting*3 credit hours*

Gives students the opportunity to learn and practice playwriting techniques, thereby improving creative writing skills. Elements of dramatic structure, dialogue, styles and theatrical practices are emphasized.

THE 216 Theatre Lighting and Design*3 credit hours*

Focuses on the theory and practice of stage lighting. Topics include basic electrical theory, color theories, rigging and design of lighting for the performing arts.

THE 218 Readers Theatre*3 credit hours*

Studies ensemble interpretation of literature—poetry, prose, and drama, primarily through the medium of the spoken word.

THE 240 Theatre Voice and Diction*3 credit hours*

Provides students with individual tutorials that define, design and apply specific vocal techniques to abate singing and speech difficulties. Master class performances provide the opportunity to conjure the energy, charisma and stage command necessary for presentations.

THE 241 Stage Properties*3 credit hours*

Offers the fundamentals of set dressing / stage properties theory and practice, including plot design, period style, set props, hand props, production paperwork and scene changes.

THE 284 Internship: Theatre*1 - 6 credit hours*

Prerequisite: Permission of the instructor.

Provides students with the opportunity to supplement coursework with practical work experience related to their educational program. Students work under the immediate supervision of experienced personnel at the business location and with the direct guidance of the instructor.

VET — VETERINARY TECHNOLOGY**VET 108 Introduction to Laboratory Procedures***3 credit hours*

Prerequisite: BIO 111, ENG 121 and admission into the Veterinary Technology program

Corequisite: VET 116, 120 and 205

Studies the biology, clinical appearance and laboratory diagnosis of parasitic diseases of veterinary and zoonotic importance.

VET 115 Surgical Nursing*2 credit hours*

Prerequisite: VET 108, 116, 205

Corequisite: VET 206, 224

Constructed for the student with limited background in veterinary medicine. The course expresses the need for familiarity with instruments, surgical support equipment, and proficiency in the proper preparation of the operating room.

VET 116 Humane Treatment and Handling of Animals*3 credit hours*

Prerequisite: Admission into the Veterinary Technology program

Corequisite: VET 108, 120 and 205

Designed to give students knowledge and skills required for veterinary technicians. The course focuses upon animal welfare and humane treatment during handling and restraint, behavior, safety, equipment choice, and typical clinical procedures.

VET 120 Office Procedures and Relations*2 credit hours*

Prerequisite: Admission into the Veterinary Technology program

Corequisite: VET 108, 116, 205

Presents commonly encountered clinical procedures with the emphasis on the role of the veterinary technician in the management of veterinary patients and records. The course also includes introduction to veterinary management software and on-line veterinary services.

VET 134 Diagnostic Imaging*2 credit hours*

Prerequisite: VET 108, VET 116, VET 205, VET 206

Corequisite: VET 187

Gives the student a basic understanding of radiographic equipment and film development, develops skills in taking diagnostic radiographs to be evaluated by a veterinarian, and teaches how to evaluate quality of radiographs and to troubleshoot problems in radiography. An introduction to special imaging techniques such as computed tomography (CT scan), Magnetic Resonance Imaging and ultrasound also will be included. This 2-credit class meets for a total of 30 hours of combined lecture and laboratory.

VET 182 Internship I*3 credit hours*

Prerequisite: VET 108, 116, 120, 205

Corequisite: VET 115, 206, 224

Students Participate in a one hour per week formal lecture, and 90 hours per semester internship experience in a private practice and research related facility. The student may be involved in the day-to-day work of the practice, basic clinical laboratory diagnostics, restraint and handling of animals, office procedures, surgical preparation, and radiology.

VET 187 Cooperative Education: Diagnostic Imaging*1 credit hour*

Prerequisite: VET 116, 205, 206

Corequisite: VET 134

Gains experience utilizing radiographic equipment, positioning of animals for radiographs, developing a technique chart and radiographic film. This is a 1-credit class that requires 45 contact hours in a private practice or research related facility.

VET 205 Veterinary Anatomy and Physiology I*4 credit hours*

Prerequisite: BIO 111, ENG 121 and admission into the Veterinary Technology program

Corequisite: VET 108, 116, 120

Provides background in the anatomy and physiology of animals. The class covers the structure and function of each body system, including skeletal, muscular, circulatory, integumentary, and respiratory. Other subjects include principles of metabolism and unique characteristics of common domestic species. Applied laboratory experiences are included.

VET 206 Veterinary Anatomy and Physiology II*4 credit hours*

Prerequisite: VET 108, 116, 205

Corequisite: VTE 115, 182, 224

Provides additional detail in anatomy and physiology of companion and farm animal species. The class covers interrelationships between body systems including respiratory, cardiovascular, urogenital, and reproductive. Additional topics include metabolism and digestion, acid/base balance, neuroendocrinology, and reproductive endocrinology. Applied laboratory experiences are included.

VET 224 Pharmacology for Veterinary Technicians*3 credit hours*

Prerequisite: VET 108, 116, 205, 120, 206

Corequisite: VET 115, 182, 206

Provides background in pharmacology principles including topics such as: mechanism of drug action, types of drugs, anesthetic agents, pharmacy management and calculations related to drug dosages.

VET 225 Anesthesiology*3 credit hours*

Prerequisite: VET 108, 115, 116, 120, 182, 205, 206, 224

Corequisite: VET 241, 281

Covers appropriate forms of injectable and gaseous anesthesia for surgical and diagnostic procedures. Other topics include anesthesia monitoring, emergency procedures, and control of post-surgical pain.

VET 227 Animal Nutrition*2 credit hours*

Prerequisite: Anatomy and Physiology course or graduation from an AVMA-accredited school

Gives students a foundation in the principles of animal nutrition. The course focuses on the basic elements of nutrition including the major categories of nutrients, and their sources, digestion, and metabolism. Both large and small animal feeds and feeding will be covered. The course emphasizes the relationship between nutrition and health.

VET 240 Veterinary Medicine and Surgery*4 credit hours*

Prerequisite: VET 108, 115, 116, 120, 134, 182, 187, 205, 206, 224, 225, 227, 241 and 281

Corequisite: VET 242, 243 and 282

Presents commonly encountered medical and surgical conditions of the dog and cat with the emphasis on the role of the veterinary technician in the management of these entities. The course also includes special techniques laboratories in small animal medicine that provide a hands-on teaching experience in catheterization, collection of bone marrow aspirates, and centesis.

VET 241 Clinical Laboratory Procedures*4 credit hours*

Prerequisite: VET 205, 206

Corequisite: VET 225, 281

Discusses the biochemical derangements that characterize disease. Topics include proper collection and analysis of urine, blood, and cytological samples; basic principles of anatomic pathology; necropsy procedure and sample collection.

VET 242 Veterinary Critical Care*2 credit hours*

Corequisite: VET 240, VET 241, VET 281

Provides instruction in appropriate nursing assessment, monitoring and intervention with emergencies. Uses knowledge and understanding of overall anatomy, physiology, and disease or accident process to assist in veterinarian's diagnoses and treatment.

VET 243 Veterinary Diagnostic Microbiology*4 credit hours*

Prerequisite: VET 108, 116, 205, 206, 241

Corequisite: VET 240, 242, 282

Includes the biology, clinical appearance and laboratory diagnosis of bacterial, fungal, and viral diseases of veterinary and zoonotic importance.

VET 275 Special Topics*2 credit hours*

Prerequisite: Minimum assessment scores

Introduces students to the maintenance of animal health through the use of vaccinations, wellness examinations, and health care plans. Students will design and implement health maintenance plans for their own pets and prepare to design similar plans for ani-

imals they may work with in the veterinary medical setting.

VET 281 Internship II

4 credit hours

Prerequisite: VET 182

Corequisite: VET 225, 227, 241

Students participate in a one hour per week formal lecture, and 135 hours per semester internships experience in a veterinary related facility. The student is involved in surgical assisting and anesthesia and exposed to the medical and surgical conditions of animals.

VET 282 Internship III

6 credit hours

Prerequisite: VET 182, 281

Corequisite: VET 240, 242, 243

This 6-credit class facilitates the transition from student to graduate veterinary technician through application of veterinary nursing and laboratory principles and skills. Participates in a two hour per week formal lecture, and 180 hours per semester internship experience in a private practice or research related facility. The student will utilize nursing skills in caring for hospitalized patients and perform necessary clinical laboratory procedures.

WEL — WELDING AND FABRICATION

WEL 101 Allied Cutting Processes

4 credit hours

Covers setting up equipment and performing cutting and gouging operations utilizing the oxyacetylene, air carbon arc, exothermic, and plasma arc cutting processes. This course will also provide an introduction to blueprint reading.

WEL 102 Oxyacetylene Joining Processes

4 credit hours

Prerequisite: WEL 101

Introduces safety inspections, minor repairs, operating parameters, oxyacetylene welding equipment, and oxyacetylene welding, brazing, and soldering operations. Blueprint reading skills will be practiced in this course.

WEL 103 Basic Shielded Metal Arc I

4 credit hours

Prerequisite: WEL 102

Covers performing safety inspections, making minor repairs, adjusting operating parameters, and operating SMAW equipment utilizing E-6010 electrodes. Layout procedures and practices will also be introduced.

WEL 104 Basic Shielded Metal Arc II

4 credit hours

Prerequisite: WEL 103

Covers performing safety inspections, making minor repairs, adjusting operating parameters, and operating SMAW equipment utilizing E-7018 electrodes. Layout procedures will be practiced during this course.

WEL 106 Blueprint Reading for Welders and Fitters

4 credit hours

Covers interpreting weld symbols on blueprints, identifying proper layout methods and tools, and proper joint design necessary for various welding processes.

WEL 110 Advanced Shielded Metal Arc I

4 credit hours

Prerequisite: WEL 104

Covers safety inspections, minor repairs, operating parameters, operation of SMAW equipment, and SMAW operations on groove and fillet welds utilizing E-6010 and E-7018 electrodes. Layout procedures will be practiced during this course.

WEL 111 Advanced Shielded Metal Arc II

4 credit hours

Prerequisite: WEL 110

Covers safety inspections, minor repairs, operating parameters, operation of SMAW equipment utilizing various electrodes, essential welding information from codes or other standards, and performance of weld inspections.

WEL 124 Introduction to Gas Tungsten Arc Welding

4 credit hours

Covers welding in all positions and on various joint configurations using the GTAW (tig) welding process on carbon steel, stainless steel and aluminum. Student should be familiar with basic metallurgy pertaining to the weldability of metals, structural joints, and safety in the welding industry.

WEL 125 Introduction to Gas Metal Arc Welding

4 credit hours

Covers welding in all positions and on various joint configurations using the GMAW (mig) welding process on carbon steel, stainless steel and aluminum. Student should be familiar with basic metallurgy pertaining to the weldability of metals, structural joints, and safety in the welding industry.

WEL 178 Special Topics

1 - 6 credit hours

Provides students with an exceptional learning experience.

WEL 202 Gas Metal Arc Welding II

4 credit hours

Prerequisite: WEL 125

Covers safety inspections, minor repairs, operating parameters, operation of GMAW equipment utilizing a variety of electrodes and base metals, and fundamental principles of welding metallurgy to welding, fabrication, and inspection.

WEL 224 Advanced Gas Tungsten Arc Welding

4 credit hours

Prerequisite: WEL 124

Covers welding in all positions on carbon steel, stainless steel and aluminum plate and carbon steel pipe with the GTAW process. Student should be familiar with basic metallurgy pertaining to the weldability of metals, structural joints, and safety in the welding industry.

WEL 230 Pipe Welding I

4 credit hours

Prerequisite: WEL 103

Covers safety inspections, minor repairs, operating parameters, and operation of SMAW, GMAW, and FCAW equipment in a variety of positions on plain carbon steel pipe joints. Also covers evaluating and solving complex welding and fabrication problems and administering hands on training and supervision to other students during assigned fabrication and welding operations.

COLLEGE OPPORTUNITY FUND

The College Opportunity Fund (COF) provides a stipend to eligible undergraduate students. The stipend pays a portion of your total in-state tuition. You must apply via the internet at www.CollegeinColorado.org in order to receive this stipend.

TUITION CLASSIFICATION: (Has no effect on admission to the college)

COMPLETE FOR COLORADO RESIDENCY CLASSIFICATION

Please answer the following questions carefully. If appropriate indicate "none" or "not applicable". You may write explanatory notes on this form and/or attach additional sheets as necessary. Use the word "present" for month/year if the date extends to the time you are completing this application. Failure to answer a question may result in your being misclassified. Please contact the Office of Admissions if you need assistance.

CURRENT AGE

If you are under 23:
 YOUR PARENT or
 LEGAL GUARDIAN

and YOU

Date of Colorado Voter Registration.....

mo yr

mo yr

If you are NOT a U.S. Citizen, please attach a photocopy of your parent's/legal guardian's Visa, I-551 (Resident Alien Card) (both sides) or I-94 (Arrival-Departure Record).

Date of marriage (answer this question only if you will be under the age of 23 by the initial enrollment date).

Response to this question is voluntary, will not affect the admission process, and is used only to determine residency status.

If you are active duty military or a dependent of an active duty military service member assigned to a Permanent Change of Station in Colorado, you may be eligible for in-state tuition rates. Contact your Military Base Education Office for documentation.

All items are subject to change without notice.

STUDENTS WHO CLAIM A CHANGE IN TUITION CLASSIFICATION OR EMANCIPATION MUST FILE A PETITION FOR RESIDENCY PRIOR TO REGISTRATION.

I hereby certify that, to the best of my knowledge, the information furnished in this application is true and complete without intent of evasion or misrepresentation. I understand the above information is submitted under penalty of perjury and false or misrepresented data is sufficient cause for tuition reclassification or dismissal.

 Student Signature

 AND Parent or Legal Guardian Signature if applicant is under 18

 Date

Institutions using this application form do not discriminate on the basis of race, color, national origin, sex, age, or disability in admission or access to, or treatment or employment in its educational programs or activities. Inquiries concerning Title VI, Title IX, and Section 504 may be referred to the affirmative action officer of the institution to which you are applying.

THANK YOU FOR YOUR INTEREST IN OUR COLLEGE
