^a Design Capacity is the number of inmates a prison is intended to hold when it was built or modified, including non-capacity and temporary beds.

^b Temporary Assignment beds are temporary beds designated as a temporary placement for an inmate who has a permanently assigned bed elsewhere such as Restrictive Housing, Classification Unit and Infirmary.

^c The Non-Capacity Other beds are not utilized beds due to requiring a statute authority change, significant construction, or legislative funding.

^d There are 16 Mom/Baby beds utilized as a visiting space and are not permanent beds.

* The Sterling Correctional Facility (SCF) currently has no active Level 4 beds, resulting in a zero Operational Capacity for that security level. To prevent a blank line in the report and avoid a 'divide by zero' error when calculating the vacancy rate, the SCF Level 4 data was temporarily combined with the Level 3 population for the January 2026 report. This grouping ensures that the facility's Level 4 Average Daily Population (ADP) is included in the overall totals, preventing an artificially low reported Total ADP Operational Vacancy Rate.

NOTE: Some columns may not total due to rounding. Negative vacancy rates are the result of movement in and/or pending regressive movement out for inmates in RH beds.

In accordance with Section 24-34-802 (1)(c), C.R.S., the Colorado Department of Corrections is in the process of remedying this document to meet accessibility requirements. ^a (PP) Denotes a private facility
^b Design Capacity is the number of inmates a prison is intended to hold when it was built or modified, including non-capacity and temporary beds.
^c Funded Capacity is the number of beds that have been funded by the legislature for the current fiscal year. INFORMATIONAL ONLY.
^d Operational Capacity is the number of permanent beds at a prison excluding Non-capacity Beds unless otherwise specified due to emergency needs.
^e ADP Total Assigned Population is calculated using ADP Populated Beds + ADP RH Inmates + ADP Infirmary/Off Grounds Inmates.
^f ADP Vacant Beds is calculated using the Operational Capacity - ADP Populated Beds - ADP RH Inmates - ADP Infirmary/Off Grounds Inmates.
^g Detailed YOS population data can be found on page 8.

NOTE: These figures are preliminary. They reflect the number of offenders added to the backlog compiled in the first few days of the following month. These figures change as offenders are removed from the backlog due to a court action such as an expungement order, stay order, set aside order, detainer, U.S. Marshal hold, future court date, awaiting sentencing on an additional case, completing misdemeanor sentence to a county jail, invalid mittimus, or an incorrect release from county jail. Conversely inmates are admitted retroactively via nunc pro tunc provisions. Therefore net admissions minus releases do not equal total inmate population change.

Fiscal year numbers do not finalize until September 30th of the following year.

Percentages represent the change from the previous FY. For the current FY, the percentage represents the projected change.

^a Other admissions include returns from a prior release to probation, court order discharge or appeal bond; interstate compact; and YOS terminations.

^b Includes mandatory parole releases and those released to parole under the earn time provisions of H.B. 09-1351.

^c Offenders revoked by the Parole Board reparole on a set date established by the Board.

^d All discharges including the Colorado Supreme Court decision on July 2001 resulted in the discharge of sex offenders who would have released to parole previously.

^e Other releases include releases to probation, court order discharge, appeal bond, and deceased.
