EXECUTIVE DIRECTOR

HB 18-1040 ANNUAL REPORT INCENTIVES FOR MENTAL HEALTH PROFESSIONALS

A REPORT SUBMITTED TO THE
JOINT BUDGET COMMITTEE
DUE DECEMBER 1, 2022, PURSUANT TO C.R.S. 17-1-115.9(3)

PREPARED BY
THE OFFICE OF PLANNING AND ANALYSIS
DECEMBER 2022

TABLE OF CONTENTS

BACKGROUND	1
MONITORING INMATES IN NEED OF TREATMENT	2
INCENTIVE PLAN: MENU OF OPTIONS	5
APPENDIX A	7

BACKGROUND

In 2018, House Bill 18-1040 created C.R.S. 17-1-115.9, Incentives for Mental Health Professionals. The statute requires that the department:

Monitor the number of inmates who have a specified sex offender treatment or service identified in the inmate's recommended rehabilitation report and who are not receiving the treatment or service due to a lack of treatment or service providers. The department shall develop and may implement an incentive plan for each sex offender treatment or service and each geographic area in which there is a need for additional contracted mental health professionals to provide the identified sex offender treatment or service. The incentive plan must include specific incentives to contract with the necessary mental health professionals and may include increases in fees and travel reimbursements paid, bonuses, and other financial incentives.

In addition, the bill required that:

. . . On or before December 1, 2018, and each December 1 thereafter, the department shall submit a report to the joint budget committee that must include: (a) The statewide number of inmates requiring each sex offender treatment or service provided by a mental health professional and the number of inmates unable to receive such treatment or service; and (b) For each incentive plan developed pursuant to this section, the number of inmates requiring the treatment or service, the number of inmates still unable to receive the treatment or service, a description of the incentive plan developed, and a report on the effectiveness of any incentive offered by the department under the plan.

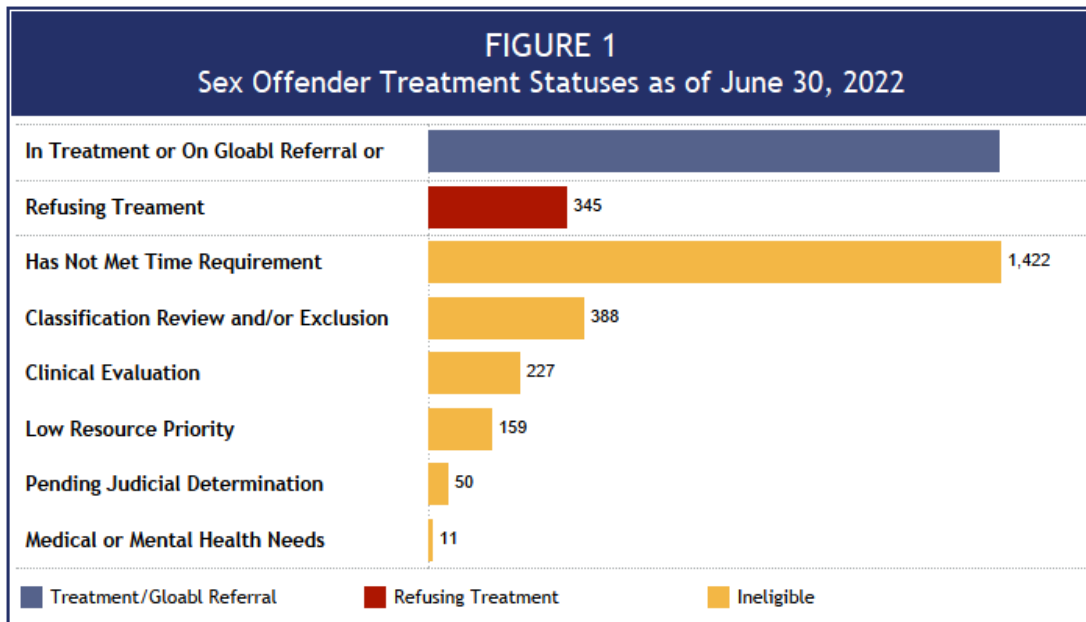

This report is developed pursuant to C.R.S. 17-1-115.9(3).

MONITORING INMATES IN NEED OF TREATMENT

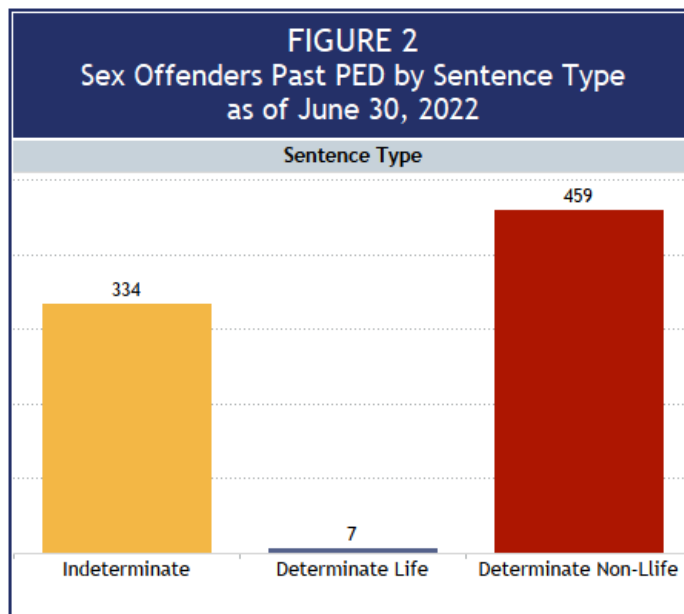

The Colorado Department of Corrections (CDOC) currently and routinely monitors the number of inmates who need sex offender treatment through a global referral list. One of the goals of this list is to establish prioritization for all sex offenders who meet the requirements for treatment. Both lifetime supervision and non-lifetime supervision sex offenders who meet the requirements are placed on the global referral list for treatment. Inmates must be within 4 years or less of their parole eligibility date (PED) to be placed on the global referral list. The statewide global referral list ensures inmates are moved to a facility offering the Sex Offender Treatment and Monitoring program (SOTMP) when they are prioritized to start treatment.

Inmates must meet basic eligibility criteria in order to be placed in treatment. The requirements for admission into sex offender treatment include: 1) must have 4 years or less to PED to be placed on the global referral list; 2) must be willing to discuss problems related to sexually abusive behavior and work on them in treatment; 3) must demonstrate a willingness to participate in group treatment at the level recommended by the program, and 4) must sign and comply with the conditions of all SOTMP requirements. Inmates are interviewed and screened before participation in treatment using these criteria. Even if the inmate does not initially meet participation requirements, the requirements and the specific reasons for the requirements are explained, and the inmate is encouraged to reapply when they meet the criteria in the future.

As of June 30, 2022, the CDOC had a total of 4,021 inmates requiring sex offender treatment. Of that number 214 inmates are participating in sex offender treatment; 1,205 inmates are on the global referral list awaiting treatment; 345 are refusing treatment; 1,422 are not yet eligible for treatment due to time served requirements; and 835 are not eligible for treatment for other reasons including the need for clinical evaluation, classification review and/or exclusion, medical or mental health needs, pending judicial determination or are a low resource priority for SOTMP services at the current time (Figure 1).

There are 800 inmates eligible for treatment who have passed their PED and are not currently assigned to a treatment group. Of that number, 334 have indeterminate life sentences, 7 have determinate life sentences, and 459 have determinate non-life sentences (Figure 2).

There are 28 inmates who have previously attempted treatment and zero refused treatment after passing their PED. Of the 214 inmates participating in sex offender treatment, 195 are past their PED.

Modified Track I is a program that was developed for individuals in the CDOC who have been convicted of a sexual crime and fall into the Below Average Risk category. Research shows that these individuals need less than 100 hours of offense specific treatment in order to mitigate their risk for sexual recidivism. Modified Track I groups were implemented in April 2021. To date, 41 individuals have completed Modified Track I.

A "Modified Operations Delivery" was developed for behavioral health treatment programs to include SOTMP, the Substance Use Disorder Treatment program and Residential Treatment program, and general mental health treatment. Options for treatment service delivery were developed with regard to the varying phases of operation. Services were offered via correspondence (during phase III Covid-19 interventions), cell house group and individual sessions, and small groups in the SOTMP group space when able.

INCENTIVE PLAN: MENU OF OPTIONS

Pursuant to HB 18-1040 and in an effort to attract contracted providers, the department developed a comprehensive menu of potential incentives. The department also modified its policies to indicate that when contracted SOTMP services are procured, the department may consider three options to help incentivize treatment providers to offer sex offender treatment services. These options have a budgetary impact and would only be offered based on appropriations made available to the department.

- **Mileage Compensation:** The CDOC may provide mileage compensation to individuals whose home to work assignment is greater than 25 miles at designated geographical locations.
- **Geographical Work Stipend:** SOTMP contractors who fulfill at least three, 8-hour shifts per week, may be provided an additional \$100 per week per contracted provider at designated geographical locations. Based on current vacancies, Canon City is the only geographical area where this option may apply.
- **Provision of Training:** The CDOC may reimburse contracted SOTMP providers for outside training at a rate of \$100 per year at designated geographical locations.

Clinical contract staffing agencies for behavioral health professionals have been utilized to the extent possible. The CDOC contracts with five agencies who provide behavioral health staff when available. There are two behavioral health agency staff currently working in CDOC facilities.

- Demonstrated attempts to seek more resources from these agencies with little or no yield.

In an effort to further determine if such incentives would entice treatment providers to contract with the CDOC, a request for information (RFI) CAAA 2019000014, was developed in 2018 describing the list of incentives that could be offered to sex offender treatment providers. The purpose of the RFI was to receive feedback from potential treatment providers as to which, if any, incentives might best attract sex offender treatment providers to work with the state. The state did not receive feedback in response to the RFI and at this point, based on a lack of interest and the unavailability of appropriations made available for this purpose, no incentives are being offered at this time. A copy of that RFI is enclosed (**Appendix A**).

In an effort to recruit SOTMP providers and retain committed and dedicated staff, the following incentive plan was developed and implemented:

- All behavioral health therapists received a \$200.00 base building increase in pay in fiscal year 2021.
- A sign-on bonus of \$2500.00 for Behavioral Health treatment providers.

- Incentive pay equal to \$100.00 to current Mental Health and SUD treatment providers. to assist with treatment coverage of group and individual sessions at facilities other than their assigned facility, as the needs are identified.
- Since the implementation of these incentives CDOC has hired 13 behavioral health treatment providers.

APPENDIX A

COLORADO
Department of Corrections

REQUEST FOR INFORMATION - CAAA 2019000014

PROCUREMENT TYPE: Service

TITLE: SOTMP Contract Therapist Incentives

DESCRIPTION: Sex Offender Treatment and Monitoring Program (SOTMP) is looking for additional contract therapists and possible incentives that would attract a therapist to come work at the CDOC as per the "Specifications" section below.

BID SUBMISSION DETAILS

Submission Deadline: 10/09/2018 at 2:00 PM MT

Submissions Accepted Via: E-mail or fax

Details: Please submit your quote response via email to stephanie.diggs@state.co.us or fax to 719-269-4064

Comments: The following information is required, and when completed, may serve as the cover page to your response to this solicitation.

ATTENTION: Stephanie Diggs, Purchasing Agent

FROM: Name of firm/DBA _____

Remit to Address _____

P.O. Address _____

City/State/Zip _____

Phone _____ Fax _____

Federal Taxpayer/Employer ID Number _____ VSS or CORE Vendor ID Number _____

Representative's printed name _____

E-mail address _____

Representative's comments (optional) _____

SERVICES LOCATION:

CDOC locations specifically in Crowley and Fremont Counties but possibly statewide.

PURCHASING POINT OF CONTACT:

Name: Stephanie Diggs

Agency: Department of Corrections

Fax: 719-269-4064

Email: stephanie.diggs@state.co.us

Comments: Please do NOT use the fax number or email address provided for advertisements.

SPECIFICATIONS:

The Colorado Department of Corrections (CDOC) Procurement Department on behalf of CDOC Clinical Services, is seeking to identify vendors who have an interest in providing contract therapists to conduct sex offense specific treatment as structured and delivered by the CDOC Sex Offender Treatment and Monitoring Program (SOTMP).

Per House Bill 18-1040 the CDOC is required to monitor the number of inmates who need sex offender treatment or services and the number who are not receiving such treatment services. In order to provide the necessary sex offender treatment and services in difficult to serve geographic areas, the CDOC has the flexibility to offer incentives to contracted therapists. The CDOC is seeking vendors to assist the SOTMP in providing sex offender treatment within DOC state facilities located in Crowley and Fremont counties.

Interested vendors would need to ensure that contracted therapists obtain and maintain listing status with the Sex Offender Management Board (SOMB) as well as maintaining appropriate credentials with the department of Regulatory Agencies (DORA) i.e., Licensed Clinical Social Worker, Licensed Professional Counselor, Licensed Professional Counselor Candidate, etc. Additionally, contracted therapists could not conduct treatment with parolees as an Approved Treatment Provider with the Division of Parole concurrent to contracted services within the CDOC SOTMP.

Contracted therapists will provide sex offender treatment at the direction of the CDOC Chief of Behavioral Health, SOTMP Administrator and SOTMP facility supervisors. Sex offender treatment duties include development, implementation and modification of individual treatment plans; preparation of parole board summaries to assist the parole board in making release decisions; completing primary therapist responsibilities in a timely and efficient manner, i.e., clinical documentation, staffing offenders for treatment interventions and following up with the status of the intervention, completing individual sessions; attending appropriate staff meetings, and co-facilitating sex offender treatment groups as assigned.

The CDOC is seeking information about what incentives could be offered to agencies to contract with CDOC to provide sexual offensive specific treatment as structured by the SOTMP.

Geographic Locations:

Statewide: Yes _____ No _____

Crowley County: Yes _____ No _____

Fremont County: Yes _____ No _____

Other: (please specify) _____

Incentives:

Holiday/Overtime Compensation: Contracted SOTMP providers at designated geographic locations may receive compensation at the holiday/overtime hourly rate for all shifts worked on the following days: New Year’s Day, Memorial Day, Fourth of July, Labor Day, Thanksgiving Day and Christmas Day. Yes _____ No _____

Mileage Compensation: The department may provide mileage compensation to individuals whose home to work assignment is greater than 25 miles at designated geographic locations. Yes _____ No _____

Out of State Travel Stipend: The department may provide out-of-state contracted SOTMP providers with a stipend at designated geographic locations. Yes _____ No _____

Clothing Cleaning Allowance: The department may set a clothing cleaning allowance for all contracted SOTMP providers at designated geographic locations. Yes _____ No _____

Provision of Training: The department may reimburse contracted SOTMP providers for outside training at a rate of \$100 per year at designated geographic locations. Yes _____ No _____

Other: (please specify any other incentives) _____

How to Respond to this Request:

Any vendor interested in providing the SOTMP contract services must complete page 1, and the questionnaire section above and place an X in the blank spaces provided for each of the incentives and geographic locations listed that would be needed in order to attract you to provide contract SOTMP therapist services at the CDOC. You will e-mail or fax this entire document to stephanie.diggs@state.co.us or fax to CDOC Purchasing Office at 719-269-4064 by the submission deadline.

BACKGROUND CONSENT TO SEARCH: The contractor and any employee(s) of the contractor/vendor who will be providing services on CDOC property may be required to undergo a CDOC criminal background check, and may be required to sign a “Consent to Search Authorization” form. Admittance of any persons to CDOC facilities or properties will be at the sole discretion of the CDOC. Also, please note that tobacco products and other contraband items are prohibited on CDOC property.
