CSI Annual Review of Schools (CARS) Summary

CARS was developed to fulfill statutory requirements and to align with best practice. CARS builds upon the evaluation lens utilized by the State—which evaluates academic achievement, academic growth, and postsecondary and workforce readiness—by including additional measures related to academic, financial, and organizational performance to provide a more comprehensive and robust evaluation that includes strong indicators of charter viability and sustainability. CARS will accomplish three primary objectives:

1. Add to the *body of evidence* that is used to make authorization decisions
2. Determine the school *accreditation rating* that is primarily used to inform authorization pathways
3. Determine the *level of support/intervention* to provide to the school

CSI Performance Framework

The CSI Performance Framework provides the basis for the CSI Annual Review of Schools. The Performance Framework explicitly defines the measures by which CSI holds schools accountable with regards to academic, financial, and organizational performance. The three areas of performance covered by the frameworks—academic, financial, and organizational— correspond directly with the three components of a strong charter school application, the three key areas of responsibility outlined in strong state charter laws and strong charter school contracts, and are the three areas on which a charter school's performance should be evaluated.

CARS Accreditation Ratings

Pursuant to the Colorado Revised Statutes and rules applicable to Colorado school districts and authorizers, CSI is responsible for accrediting its schools in a manner that emphasizes attainment on the four statewide performance indicators, and may, at CSI's discretion, include additional accreditation indicators and measures. CSI prioritizes academic performance in determining accreditation ratings. Specifically, a base accreditation rating is determined by academic performance on a subset of measures within the Academic Framework. Then, if a subset of measures on the Finance or Organizational Framework are missed, the accreditation rating is lowered.

Upon issuance of accreditation ratings, each school enters into an accreditation contract with CSI as required by state law. The accreditation contract describes the school's CARS accreditation rating, the school's performance plan type, assures compliance with the provisions of Title 22 and other applicable laws, and describes the consequences for noncompliance and Priority Improvement and Turnaround accreditation plan types. The accreditation contract is distinct from the charter contract, and may change from year-to-year or more frequently depending on the school's plan type and individual circumstances.

In accordance with the CSI Accreditation Policy, CSI schools accredited with a rating of Improvement, Priority Improvement, or Turnaround must re-execute the accreditation contract annually. For schools accredited Distinction or Performance, the accreditation contract will renew automatically, except all schools, regardless of plan type, will re-execute the accreditation contract upon renewal.

How to Use the CSI Annual Review of Schools (CARS) Report

This **CARS Report** summarizes the school's cumulative performance and compliance data from required and agreed-upon sources, as collected by CSI over the term of the school's charter. The data collected and presented within this report reflect outcomes along the academic, financial, and organizational measures outlined with the CSI Performance Framework.

In order to summarize each section, CSI will include a *brief* narrative providing feedback on the school's progress within the indicators and/or metrics where applicable. Schools have the opportunity to provide a brief narrative for each section as well. Any additional claims within the school narrative must be substantiated with supplemental evidence that can be verified by CSI. The school narrative should focus on outputs and outcomes. Factors such as culture, curriculum, and PD, for example are important in your internal evaluations and root cause analysis, but are not considered by CSI as a part of your annual evaluation.

Schools should look at trends in the data and use the feedback provided within the report as evidence of success, as well as to identify areas that may need the allocation of additional resources and attention. This can be a useful tool to use in conjunction with the **Unified Improvement Plan (UIP)**.

A majority of the metrics within this report will be collected by CSI on a yearly basis. Please review all data collected for accuracy. Should you find any incorrect or inaccurate data (as opposed to findings or conclusions you simply disagree with), please contact the appropriate director, listed below:

Academic Performance: Ryan Marks (ryanmarks@csi.state.co.us)

Financial Performance: Andi Denton (andradenton@csi.state.co.us)

Organizational Performance: Jess Welch (jessicawelch@csi.state.co.us) - State/Federal Programs
Stephanie Aragon (stephaniearagon@csi.state.co.us) - Compliance Monitoring

Once all data have been reviewed (and where applicable incorporated into the report), CSI will send each school a final report in **November**. This final version will also contain financial information that is unavailable during the preliminary drafting process. You may use the tables, graphs and narrative of this final report in your UIP.

Please note: Interim and formative assessment data submitted by schools as supplemental evidence should be presented in the form of official reports generated by the test vendor, or in the case of locally developed assessments, generated through the official reporting system (e.g., Edusoft). Where this is not possible, exported flat files must be provided. Criteria for submitting additional assessment data include:

- Testing administration date(s), total number of test takers, and total number of enrolled students at the time of administration should be noted with each report.
- Growth data should reflect gains made using the beginning of the year as baseline and the end of the academic year as compared to national, state or pre-approved norms. If seasonal gains are submitted, these must also be accompanied with norms recognized by the nation, state or pre-approved by CSI.
- Regarding other supplemental evidence you wish to submit, any outputs or outcomes submitted that are not calculated and reported by CSI or the State must be accompanied by a Mission-Specific Measures Form, specifying how you quantify the measure (including methodology used to determine, document and calculate your measure).

1. Academic Achievement

- a. How are students achieving on state assessments?
- b. How are students achieving on state assessments over time?
- c. How are students achieving on state assessments in comparison to other schools in their geographic home district or schools that students might otherwise attend?
- d. Have students demonstrated readiness for the next grade level/course, and, ultimately, are they on track for college and careers?
- e. How are students achieving in comparison to similar schools statewide?

2. Academic Growth

- a. Are students making sufficient growth on state assessments?
- b. Are students making sufficient growth on state assessments over time?
- c. How are students growing on state assessments in comparison to other schools in their geographic home district or schools that students might otherwise attend?
- d. How is student growth distributed across growth levels?
- e. How are students growing in comparison to similar schools statewide?

3. Postsecondary and Workforce Readiness

- a. How are students achieving on state assessments for postsecondary readiness?
- b. Are students graduating high school?
- c. Are students dropping out of high school?
- d. Are high school graduates adequately prepared for post-secondary academic success?
- e. What is the school’s post-completion success rate?

***Data Notes:**

- Data sources include achievement, growth, and postsecondary and workforce readiness state files from 2016 to 2022. To protect student privacy, achievement data N counts less than 16 and growth data N counts less than 20 have been hidden. For more information regarding data privacy, please consult:

<https://www.cde.state.co.us/dataprivacyandsecurity>

- Data symbols:

Symbol	Meaning
--	Used when data is not reported by the state.
n<16	Used for achievement measures. Indicates that student counts were too low to show the data publicly
n<20	Used for growth measures. Indicates that student counts were too low to show the data publicly.

- Traditionally underserved populations include minority, special education, free or reduced price lunch, non-English proficient/limited English proficient (English learners), and gifted & talented students.
- The Math section of this report includes student math scores disaggregated by grade level. Scores before 2017-18 reflect all students in 7th, 8th, and 9th grades who took any type of CMAS math test. State reporting did not disaggregate by grade for the high school level math tests. Therefore, students in 8th grade who opt to take either Algebra I, II, or Geometry are not included in the 8th grade level results. CSI can release an additional report containing disaggregated math results by test by request.
- Dropout rates contain 7th and 8th grade dropouts. The state files contain all students who dropped out of school from 7th to 12th grade. Schools have an option of requesting an additional report containing only dropout rates for 9th-12th grade.

CSI Performance Framework

Financial Performance Framework

1. Near Term

- a. Has the school met the statutory TABOR emergency reserve requirement?
- b. What is the school's current ratio?
- c. What is the school's months of cash on hand?
- d. Is the school in default with any financial covenants they have with loan agreements?
- e. What is the school's funded pupil count variance?

2. Sustainability

- a. What is the school's aggregate 3-year total margin?
- b. What is the school's net asset position?
- c. What is the school's debt?
- d. What is the school's unassigned fund balance on hand?

Organizational Performance Framework

1. Education Program

- a. Is the school complying with applicable education requirements?

2. Diversity, Equity of Access, and Inclusion

- a. Is the school protecting the rights of all students?

3. Governance and Financial Management

- a. Is the school complying with governance requirements?
- b. Is the school satisfying financial reporting and compliance requirements?

4. School Operations and Environment

- a. Is the school complying with health and safety requirements?
- b. Is the school complying with facilities and transportation requirements?
- c. Is the school complying with employee credentialing and background check requirements?

5. Additional Obligations

- a. Is the school complying with all other obligations?

Animas High School Overview

Students with a 504

Note on Data Source: Demographic data included in CARS comes from the annual student October Count files.

*Geo.Dist refers to the district in which your school is located (your school's geographic district).

CSI Annual Review of Schools (CARS) Rating

The CSI School Performance Framework serves to hold schools accountable for performance on the same, single set of indicators. The CSI Framework builds upon the evaluation lens by the State to include measures that may provide a more detailed and comprehensive summary of charter school performance. CSI's frameworks align with the state frameworks in that they also evaluate schools across the four key performance indicators of academic achievement, academic growth, academic growth gaps, and postsecondary and workforce readiness. The distinguishing feature between the CDE School Performance Framework (SPF) and CSI's Academic Framework is the incorporation of trend data and a comparison to the geographic district, as it is important to ask how a school is performing over time as well as whether the school is better serving the needs of students than area schools. Additionally, the CSI frameworks also include measures outside of the academic realm that are strong predictors of charter viability such as financial health and organizational sustainability.

Calculating your CARS Academic Rating

To determine your rating, CSI uses the CSI Academic Performance Framework to determine the percent of points earned overall and by level. The following are the cut score points that determine each rating:

Performance with Distinction: Greater than 70.1% Points Earned

Performance: Between 53% to 70.1% Points Earned

Improvement: Between 42% to 52.9% Points Earned

Priority Improvement: Between 34% and 41.9% Points Earned

Turnaround: Below 34% Points Earned

Framework	CARS Rating
Academic	Performance
Elementary School Rating	--
Middle School Rating	--
High School Rating	Performance (Points Earned: 70.2%)
Financial	Financial performance does not impact the school accreditation rating
Organizational	Organizational performance does not impact the school accreditation
Overall CARS Rating	Performance with Distinction

Participation

The School Performance Framework now includes participation descriptors for school plan types that have low participation rates. These descriptors include:

- **Low Participation** is for schools with test participation rates below 95 percent in two or more content areas. The participation rate used for this descriptor includes students as non-participants if their parents formally excused them from taking the tests. Because low participation can impact how well the results reflect the school as a whole, it is important to consider low participation in reviewing the results on the frameworks. Participation rates are also reported on the first page of the frameworks, along with the achievement results on the subsequent pages.
- **Decreased Due to Participation** indicates the plan type, or rating, was lowered one level because assessment participation rates fell below 95 percent in two or more content areas. Parent refusals are excluded from the calculations for this descriptor. According to the State Board of Education motion, schools and districts will not be held liable for parental excusals.

The tables below contain participation rates as shown on your school's Performance Framework, as well as test participation rates disaggregated by test.

Assurance	
	Rating
Accountability Participation Rate	Meets 95%

Test Participation Rates (Ratings are based on Accountability Participation Rate)						
Subject	Total Records	Valid Scores	Participation Rate	Parent Excuses	Accountability Participation Rate	Rating

^^ACCESS subgroup status and gap trends are not available due to low student counts. CSI can provide this data to schools if requested.

What is On Track Growth? This metric reports whether students are on-track to achieve language proficiency. As CDE states, "The Colorado growth model calculates projected targets that indicate how much growth would be required for an individual student to achieve a specified level of proficiency within 1, 2, or 3 years. These projected targets can then be compared against the student's observed growth percentile to determine whether the student is on-track to meet their proficiency goal within the allotted timeline".

*Grade level benchmarks for PSAT 8/9 and PSAT 10 are not available. CDE renormed the benchmarks in 2018 using combined PSAT 9 and PSAT 10 scores.

[^]CDE renormed SAT benchmarks in 2019. Therefore, benchmarks from 2016-2018 do not look the same as benchmarks from 2019.

PSAT/SAT EBRW: School Status, Trends, and Local Comparison Graphs

EBRW - Schoolwide

EBRW - PSAT (9&10)

EBRW - SAT (11)

Achievement Status and Local Comparison Narrative

The graphs above show schoolwide performance on the EBRW state assessment over time disaggregated by test and grade level. From 2017 to 2023, overall student achievement increased by 12 scale score points. Since last school year, overall mean scale score increased by 5 scale score points. The graphs on the bottom half of the page show the performance of the school in comparison to the geographic district (Durango 9-R) for the past five years. Overall, the school outperforms their geo. district by 6.5 scale score points.

Evidence-Based Reading and Writing Subgroup Achievement

PSAT/SAT EBRW: School Status, Trends, and Local Comparison Graphs

Growth Status and Local Comparison Narrative

The graphs above show schoolwide growth on the EBRW state assessment. From 2018 to 2023, overall student growth decreased. Since last year, student growth decreased by 1.5 percentile points. In 2023, overall student growth met state expectations. Overall student growth was above the geo. district. Overall student growth for the geo. district has increased over time.

PSAT/SAT EBRW: Levels of Growth Tables

-How is student growth distributed across growth levels over time?

EBRW Levels of Growth				
PSAT/SAT EBRW	%Students			
Category	2018	2019	2022	2023
Low (below 35)	26%	39%	35%	28%
Typical (35-65)	28%	21%	21%	28%
High (above 65)	46%	40%	44%	44%

EBRW At/Below 50th %ile				
PSAT/SAT EBRW	%Students			
Category	2018	2019	2022	2023
At or Above 50	59%	49%	57%	57%
Below 50	41%	51%	43%	43%

Levels of Growth Narrative

Students with low growth rates, categorized as students with a median growth percentile (MGP) below 35, account for 28% of students with growth scores while students with high growth rates, categorized as students with a MGP above 65, account for 44% of students. The percent of students at or above the 50th percentile has increased from last year (57% to 57%). Since 2018, the percent of students at or above the 50th percentile has decreased (59% to 57%).

Evidence-Based Reading and Writing Subgroup Growth

*Grade level benchmarks for PSAT 8/9 and PSAT 10 are not available. CDE renormed the benchmarks in 2018 using combined PSAT 9 and PSAT 10 scores.

[^]CDE renormed SAT benchmarks in 2019. Therefore, benchmarks from 2016-2018 do not look the same as benchmarks from 2019.

PSAT/SAT Math: School Status, Trends, and Local Comparison Graphs

Math - Schoolwide

Math - PSAT (9&10)

Math - SAT (11)

Achievement Status and Local Comparison Narrative

The graphs above show schoolwide performance on the Math state assessment over time disaggregated by test and grade level. From 2017 to 2023, overall student achievement increased by 2.7 scale score points. Since last school year, overall mean scale score increased by 6.4 scale score points. The graphs on the bottom half of the page show the performance of the school in comparison to the geographic district (Durango 9-R) for the past five years. Overall, the school performs lower than their geo. district by 18.3 scale score points.

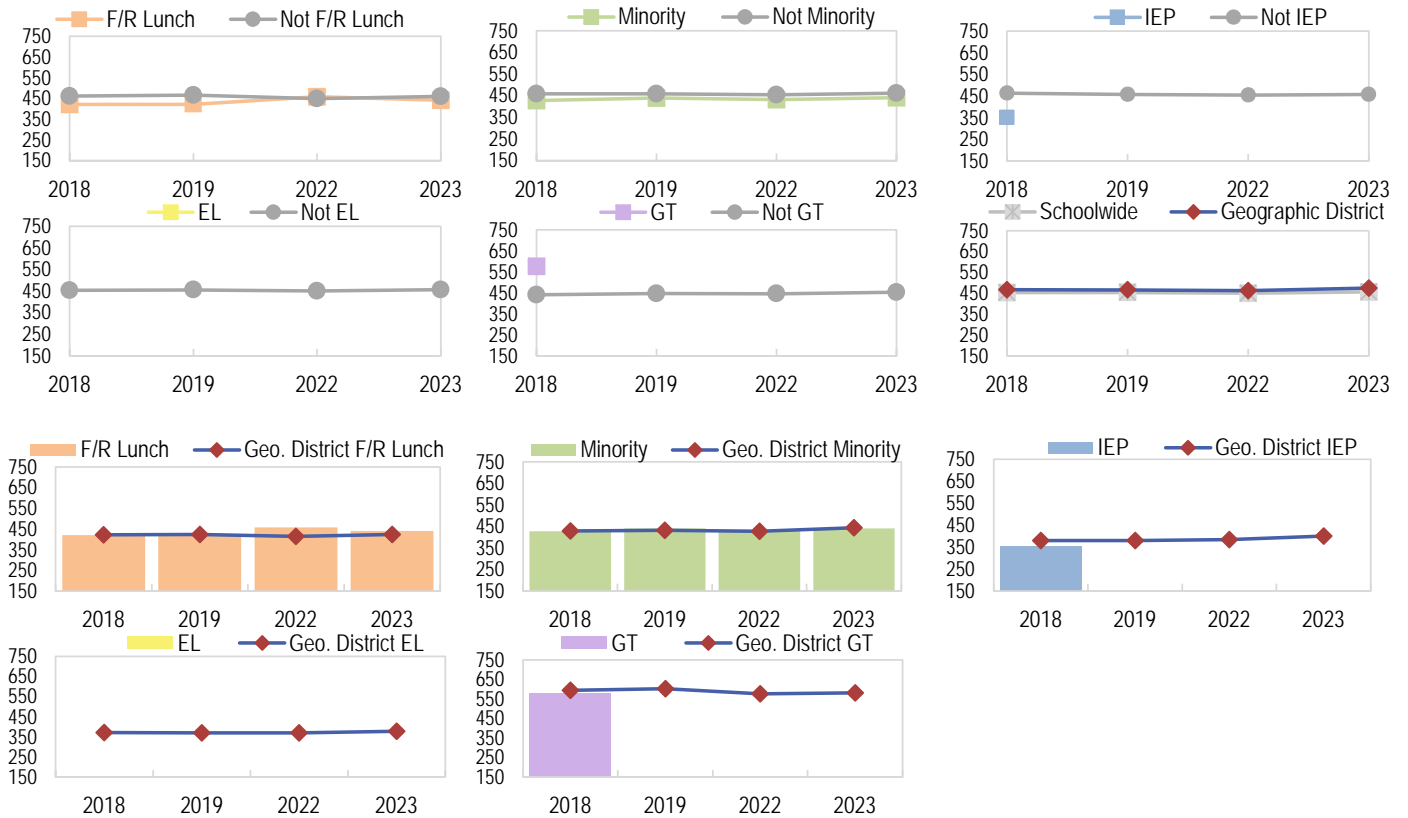

Math Subgroup Achievement

PSAT/SAT Math: Subgroup Status, Gap Trends, and Local Comparison Tables

- How are traditionally underserved students achieving on state assessments in Math over time?
- How are traditionally underserved students achieving on state assessments compared to their peers over time?
- How are traditionally underserved students achieving on state assessments in comparison to other schools in their geographic home district or schools that students might otherwise attend?

PSAT/SAT Math: School Status, Trends, and Local Comparison Graphs

Growth Status and Local Comparison Narrative

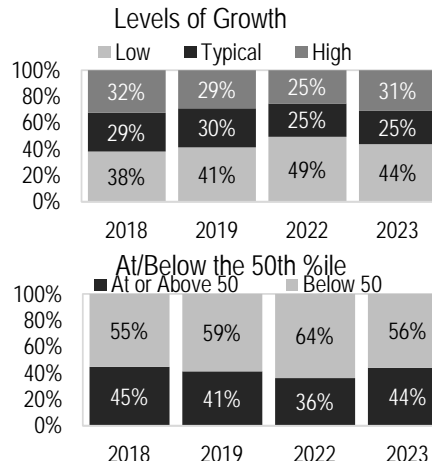

The graphs above show schoolwide growth on the Math state assessment. From 2018 to 2023, overall student growth decreased. Since last year, student growth increased by 10 percentile points. In 2023, overall student growth was approaching state expectations. Overall student growth was below the geo. district. Overall student growth for the geo. district has increased over time.

PSAT/SAT Math: Levels of Growth Tables

- How is student growth distributed across growth levels over time?

Math Levels of Growth				
PSAT/SAT Math	%Students			
Category	2018	2019	2022	2023
Low (below 35)	38%	41%	49%	44%
Typical (35-65)	29%	30%	25%	25%
High (above 65)	32%	29%	25%	31%

Math At/Below 50th %ile				
PSAT/SAT Math	%Students			
Category	2018	2019	2022	2023
At or Above 50	45%	41%	36%	44%
Below 50	55%	59%	64%	56%

Levels of Growth Narrative

Students with low growth rates, categorized as students with a median growth percentile (MGP) below 35, account for 44% of students with growth scores while students with high growth rates, categorized as students with a MGP above 65, account for 31% of students. The percent of students at or above the 50th percentile has increased from last year (36% to 44%). Since 2018, the percent of students at or above the 50th percentile has decreased (45% to 44%).
