# Gifted and Talented Student Education Funds 

FY2008 (2007-2008) End-of-Year Report

## I. Demographic Results

* Total number of gifted and talented students formally identified in the district or BOCES as of the last day of the school year: 71,254.
* Total number of non-identified students that were served by gifted-education programming plus number of identified students: 54,705
* 1,734 ( $2.4 \%$ ) of the gifted and talented are considered Twice Exceptional.
* Number of early G/T kindergarten entrants:
o Age 4 at start of 2007-2008 school year: 7
0 Age 5 at start of 2007-2008 school year: 9
* As shown in Figure 1, the breakdown of gifted and talented students by content area is as follows:

0 Language Arts: 15,311 (21.5\%)
o Math: 14,037 (19.7\%)
o Both Language Arts and Math: 22,162 (31.1\%)
o Other: 19,744 (27.7\%)

## III. Programming and Accountability Report Results

## A. FTE

* The total number (FTE) of qualified gifted and talented personnel statewide was $\mathbf{3 , 9 7 0}$. The categorical breakdown of statewide FTE is shown below. Note that the numbers are higher than one would expect based on licensure data that is available and it appears that AUs did not always follow the state rules in this area.
o Elementary school level: 2,368
o Middle school level: 540
o High school level: 734
o Administrative level: 197
o Gifted resource teachers: 131

## B. Programming

## Structure

Table 6. Mean (M) extent to which structural options are implemented at each level throughout the administrative unit (AU), rated on 4 point scale with $1=$ seldom, 2=sometimes, $3=$ frequently, $4=$ always. " $N$ " reflects the number of AUs that indicated the option was available at that school level (Maximum N=55).
