| Program Name  | WPHS - Guiding Students Toward Success  |
| The grant will significantly reduce suspensions and/or expulsions of at-risk students and promote academic success. Over 350 students will receive preventative services ranging in scope from social skills building interventions to comprehensive 9-12 alternative learning programs targeted at both behavioral and academic success. With this grant we have been able to stipend for students who are participating in internships with local business owners and been able to support "The Edge," a middle school alternative program for at-risk students. We also hope to make the transition from middle school to high school more dovetailed, to include seamless interventions and better communication. |   |
