Charter School Capital Construction Annual Report Pursuant to 22-54-124(3)(b), C.R.S.	4

Executive Summary

The Charter School Capital Construction Annual Report is submitted pursuant to Section 22-54-124(3)(b), C.R.S., which states:

No later than February 1 of each budget year, the Department of Education shall certify to the education committees of the Senate and the House of Representatives and the Joint Budget Committee of the General Assembly the total number of pupils expected to be enrolled in all qualified charter schools in the state during the next budget year, as derived from reports provided to the department by districts pursuant to section 22-30.5-112 (1) and by the Charter School Institute pursuant to section 22-30.5-513 (3) (a). For the purposes of any certification made during the 2003-04 budget year and budget years thereafter, a pupil expected to be enrolled in a qualified charter school as defined in sub-subparagraph (B) of subparagraph (I) of paragraph (f.6) of subsection (1) of this section shall be counted as one-half of one pupil.

Below is a table showing the total number of pupils expected to be enrolled in all qualified charter schools in the next budget year as reported by school districts and the Charter School Institute.

Section 22-54-124(1)(f.6)(I) outlines the criteria for a charter school qualified to receive charter school capital construction funding. The criteria includes:

- A charter school must have capital construction needs to be eligible for funding.
 - A charter school located in a district-owned facility that has capital construction needs is only eligible for half funding.
 - A charter school not located in a district-owned facility is eligible for full funding.
 - A charter school located in a facility included on the state inventory maintained by the office of the state architect is eligible for full funding if the charter school is making lease payments.
