Section 7 – Capital Construction Assistance Fund Projected Fund Balance	27

Executive Summary

In 2008, the General Assembly of the State of Colorado enacted the Building Excellent Schools Today Act, known as “BEST,” in order to repair or replace Colorado’s most needy public school facilities. The Colorado Department of Education’s Division of Capital Construction manages BEST — a competitive grant program available to all school districts, charter schools, institute charter schools, boards of cooperative educational services and the Colorado School for the Deaf and Blind.

Applications are reviewed on a yearly cycle and recommended for funding by the Capital Construction Assistance Board (CCAB)—a nine-member appointed board that, in conjunction with staff, reviews grant applications for the current fiscal year. The Division works to complete condition assessments and adequacy surveys for every facility in the state every five years, with a priority to updates assessments for any current grant applicants, to assist the CCAB in making informed decisions.

BEST is funded through multiple revenue sources: State Land Board proceeds, marijuana excise tax, Colorado Lottery spillover funds, and interest accrued in the Public School Capital Construction Assistance Fund. Matching funds are required by statute and calculated based on a series of factors, from the district’s bond election efforts over the past 10 years to the district’s assessed value per pupil.

This BEST Annual Report is submitted to the General Assembly pursuant to Section 22-43.7-111, C.R.S.

Section 1 – Aggregate Financial Assistance Provided

Section 22-43.7-111(1)(a)(I) & (II), C.R.S. requires the department’s report to include an accounting of the financial assistance provided through the prior fiscal year that includes:

(I) A statement of the aggregate amount of financial assistance awarded through the prior fiscal year, including statements of the amount of grants provided, and the amount of payments made and payments committed to be made but not yet made in connection with lease-purchase agreements;

(II) A statement of the aggregate amount of financial assistance provided as grants and the aggregate amount of payments made in connection with lease-purchase agreements during the prior fiscal year;

Sec. 1: An accounting of the financial assistance provided through the prior fiscal year that includes: a statement of the aggregate amount of financial assistance awarded through the prior fiscal year, including statements of the amount of grants provided, and the amount of payments made and payments committed to be made but not yet made in connection with lease-purchase agreements.

¹State COP Payments include principal and interest. Payments include applicable Federal subsidies as of June 2017.

²2015 Supplemental Finance Series funded one project using unexpended State Expense Funds from the 2010 B & C, 2010 D, E & F, & 2011 G financing series.

Section 2 – Brief Project Descriptions and Committed Funds

Section 22-43.7-111(1)(a)(III), C.R.S. requires the department’s report to include a list of the public school facility capital construction projects for which financial assistance has been provided, which must include a sub list of projects for which financial assistance has been provided in the form of technology grants pursuant to section 22-43.7-109 (13) and a sub list of projects for which financial assistance has been provided in the form of career and technical education capital construction grants pursuant to section 22-43.7-109 (14); a brief description of each project; a statement of the amount and type of financial assistance provided for each project and, where applicable, the amount of financial assistance committed to be provided for but not yet provided for each project; a statement of the amount of matching moneys provided by the applicant for each project and, where applicable, the amount of matching moneys committed to be provided by the applicant but not yet provided for each project; and a summary of the reasons of the capital construction assistance board and the state board for providing financial assistance for the project;

Please note that:

- The tables and lists below reflect the order in which projects were prioritized for award for cash grants with a sub list of lease-purchase grants.
- The sub list of technology grants awarded in FY 2020-21 is as follows:
 - East Central BOCES - Multi-District Secure Network Infrastructure.
- A sub list of career and technical education (CTE) grants is not included as the CCAB did not receive any applications for CDE grants in FY 2020-21.
- A more comprehensive summary list of project descriptions can be found at:
<http://www.cde.state.co.us/capitalconstruction/allbestprojectsummaries>
- Per statute, the CCAB and the State Board of Education (SBE) provided financial assistance for all projects in FY 2020-21 based on available funding and the following prioritization of need:
 1. Projects addressing health, safety, security issues & technology;
 2. Projects to relieve current overcrowding;
 3. Projects that will provide career and technical education in public school facilities; and
 4. All other capital needs.

Section 3 – Brief Summary of Projects Funded Previous Cycle

Section 22-43.7-111(1)(a)(IV), C.R.S. requires the department’s report to include a list of the public school facility capital construction projects for which financial assistance has been provided during the prior fiscal year, which must include a sub list of projects for which financial assistance has been provided in the form of technology grants pursuant to section 22-43.7-109 (13) and a sub list of projects for which financial assistance has been provided in the form of career and technical education capital construction grants pursuant to section 22-43.7-109 (14); a brief description of each project; a statement of the amount and type of financial assistance provided for each project; and a statement of the amount of matching moneys provided by the applicant for each project.

- The sub list of technology grants awarded in FY 2020-21 is as follows:
 - East Central BOCES - Multi-District Secure Network Infrastructure.
- A sub list of CTE grants is not included as the CCAB did not receive any applications for CDE grants in FY2020-21.

BEST Funded FY2020-21 Grant Projects - Summaries

Cash Projects:

Swink 33 – Swink Roof/ HVAC

This project addresses health and safety deficiencies by upgrading the existing mechanical system and replacing the existing roof that leaks. This project will resolve these deficiencies and enhance student achievement by providing a mechanical system that will provide the appropriate fresh air into the facility and meet all applicable code requirements. The replacement of the roof will provide a weather tight system that will eliminate water intrusion into student learning spaces which has created student disruption.

This project is recommended for BEST cash funding as follows:

Grant Amount – \$1,241,497.01; District Contribution – \$793,743.99 or 39%, with the source of match being the district’s reserves.

Greeley 6 – Martinez Elementary School Roof Replacement

This project addresses health and safety deficiencies including a failing roof membrane, which has caused leaks into the building, damaging materials and contents underneath. This project will resolve these deficiencies and enhance student achievement by replacing the roof with a fully adhered 60mil membrane, new insulation, roof accessories and sheet metal. The new roof will hold a three-year workmanship and ten-year manufacturer’s warranty, but is expected to have a life expectancy of at least twenty years.

This project is recommended for BEST cash funding as follows:

Grant Amount – \$301,825.07; District Contribution – \$340,355.93 or 53%, with the source of match being the district’s general fund.

Fort Morgan RE-3 – High School Secure Entry Renovation/Addition

This project addresses health, safety, and security deficiencies including a lack of access control due to the location of administration far from the entrances. This project will resolve these deficiencies and enhance student achievement by relocating the main entrance and administration offices and backfilling vacated space with classrooms, to support active supervision and access control as well as meet educational needs.

This project is recommended for BEST cash funding as follows:

Grant Amount – \$2,263,676.60; District Contribution – \$1,573,063.40 or 41%, with the source of match being the district’s general fund.

Pueblo County 70 – Pleasant View Middle School HVAC/ Ventilation Upgrades

This project addresses health and safety deficiencies due to ventilation and temperature control issues resulting in poor indoor air quality which was supported by testing of concentrations of carbon dioxide. The existing roof is no longer under warranty and leaks, causing disruption in the student environment when there is water intrusion. This project will resolve these deficiencies and enhance student achievement by installing a mechanical system that will result in maximum operational efficiency, system reliability and improved educational environment of all occupants. These projects will have a construction warranty and manufacturer’s warranty on equipment and the roof system.

This project is recommended for BEST cash and/or lease purchase funding as follows:

Grant Amount – \$3,762,541.64; District Contribution – \$4,788,689.36 or 56%, with the source of match being the district’s successful passage of a bond election in November 2020.

Atlas Preparatory Middle School – Atlas Middle School Roof Replacement – North Building

This project addresses health and safety deficiencies by replacing an existing roof that is no longer under warranty and is leaking. This disrupts the student learning environment by requiring the school to move students as they patch the leaking roof and clean up the water intrusion damage. This project will resolve these deficiencies and enhance student achievement by removing the existing roof system and installing a code compliant weather tight Ethylene Propylene Diene Monomer (EPDM) system with insulation. The project will have a three-year construction warranty and a ten-year manufacturer’s warranty.

This project is recommended for BEST cash funding as follows:

Grant Amount – \$547,172.20; Charter Contribution – \$257,492.80 or 32%, with the source of match being the charter’s maintenance funds and a 2018 bond.

Steamboat Springs RE-2 – High School Abatement & Security Improvements

This project addresses health and safety deficiencies, including addressing security, hazardous materials, indoor air quality, and accessibility. This project will resolve these deficiencies and enhance student achievement by creating a safer school with security vestibules observable from the administration area, adding ADA compliant restrooms, abating hazardous materials, and eliminating sources of odors.

This project is recommended for BEST cash funding as follows:

Grant Amount – \$275,241.20; District Contribution – \$1,100,964.80 or 80%, with the source of match being the district’s 2019 bond proceed fund.

Thompson R2-J – Entrance Security Improvements at Four Middle Schools

This project addresses health and safety deficiencies including improving the security at the main entrances to four middle schools. This project will resolve these deficiencies and enhance student achievement by adding the needed entries and plan for those in alignment with the district's standards and the Standard Response Protocol from the “I Love You Guys” Foundation.

This project is recommended for BEST cash and/or lease purchase funding as follows:

Grant Amount – \$262,690.24; District Contribution – \$558,216.76 or 68%, with the source of match being the district’s 2018 bond proceed fund.

Widefield 3 – Widefield High School Health and Safety Upgrades

This project addresses health and safety deficiencies. This project will resolve these deficiencies and enhance student achievement by installing a new redundant boiler system. The project will also include the removal of approximately 25,000 square feet of asbestos found in the existing ceiling finish and floor material. Once the abatement is completed, the project will allow for the installation of new ceilings, lighting and fire alarm system. The addition of a secured vestibule will allow the school to better monitor and control access. The project will consider high-performance options as appropriate. The project will have a construction warranty and a manufacturer’s warranty for equipment and specified products.

This project is recommended for BEST cash funding as follows:

Grant Amount – \$1,181,027.40; District Contribution – \$1,630,942.60 or 58%, with the source of match being the district’s capital reserve and a 2017 bond.

Montrose County RE-1J – Multiple HVAC Replacements – High School and Middle School

This project addresses health and safety deficiencies including poor indoor air quality and uncomfortable learning environments due to aging equipment with a high risk of heat exchange failure and carbon monoxide exposure. This project will resolve these deficiencies and enhance student achievement by replacing the outdated system with modern, energy efficient systems.

This project is recommended for BEST cash funding as follows:

Grant Amount – \$574,309.51; District Contribution – \$826,445.39 or 59%, with the source of match being the district’s capital reserve and building fund.

Montrose County RE-1J – Multiple Roof Replacements – High School and Elementary School

This project addresses health and safety deficiencies including roofs that are experiencing multiple leaks and impacting the structure of the building, damaging insulation, and creating negative environmental conditions. This project will resolve these deficiencies and enhance student achievement by replacing all roof sections that are beyond their useful life. The replacement roofs will have five-year contractor workmanship warranty and twenty-year, no dollar manufacturer warranty.

This project is recommended for BEST cash funding as follows:

Grant Amount – \$1,603,156.17; District Contribution – \$2,306,980.83 or 59%, with the source of match being the district’s capital reserve and building fund.

North Park R-1 – Elementary, Middle, and High School Safety, Security, & HVAC Upgrades

This project addresses health and safety deficiencies including correcting significant issues with the schools’ mechanical and security systems. This project will resolve these deficiencies and enhance student achievement by updating the HVAC systems which are long past their useful life and no longer support the educational environment, and by providing a fully functional locking system.

This project is recommended for BEST cash funding as follows:

Grant Amount – \$768,000.00; District Contribution – \$832,000.00 or 52%, with the source of match being the district’s capital reserve and school district 1% tax foundation fund.

Westminster Public Schools – Early Childhood Center – Gregory Hill Roof Replacement

This project addresses health and safety deficiencies by replacing the existing roof system that is leaking. This project will resolve these deficiencies and enhance student achievement by providing a weather tight Ethylene Propylene Diene Monomer (EPDM) fully adhered roof system. The project will include the structural analysis for current wind loads and any modifications, removing the existing roof down to deck and installing a code compliant system. The project will include a construction warranty and a manufacturer’s warranty for 30 years.

This project is recommended for BEST cash funding as follows:

Grant Amount – \$376,577.50; District Contribution – \$376,577.50 or 50%, with the source of match being the district’s restricted funds.

South Routt RE-3 – High School East Section & Elementary School Roof Replacement

This project addresses health and safety deficiencies including replacing the leaking roof over the east section of the high school and over the elementary school. This project will resolve these deficiencies and enhance student achievement by eliminating leaks, buckets, and wet areas in the buildings. The new roofs will have a 20-year warranty.

This project is recommended for BEST Cash funding as follows:

Grant Amount – \$880,257.78; District Contribution – \$749,849.22 or 46%, with the source of match being the district’s capital reserve fund.

Byers 32J – PK-12 HVAC/Air Quality

This project addresses health and safety deficiencies including exterior envelope failures, underperforming mechanical equipment, lack of welding booth fume hoods, and limited security notification capabilities. This project will resolve these deficiencies and enhance student achievement by replacing leaking exterior doors and roof-top mechanical units, adding fume hoods to welding booths, and adding an alert notification system.

This project is recommended for BEST cash funding as follows:

Grant Amount – \$586,253.50; District Contribution – \$1,088,756.50 or 65%, with the source of match being a 2020 mill levy override (MLO), or proceeds from an Energy Performance Contract should the MLO be unsuccessful.

Thompson R2-J – District Wide Mechanical Improvements

This project addresses health and safety deficiencies in seven schools including repairing essential building systems that are failing and/or past their useful life which result in a degradation of the student learning environment. These include heating systems, hot water systems, ventilation systems, exhaust systems, electrical systems, and associated health safety issues. Having functional essential systems is critical to the schools.

This project is recommended for BEST cash funding as follows:

Grant Amount – \$3,313,066.88 District Contribution – \$7,040,267.12 or 68%, with the source of match being the district’s 2018 bond proceed fund.

Fremont RE-2 – Fremont Elementary School Safety Upgrades

This project addresses health and safety deficiencies including two existing boilers that have been modified over their 57 years from coal to gas and are no longer dependable. The fire alarm system is outdated and no longer

provides basic coverage. The existing cafeteria is heated by a gas fired furnace with no cooling. This project will resolve these deficiencies and enhance student achievement by installing two new condensing boilers and a new gas fired furnace and condensing unit in the cafeteria. The project will consider high-performance design as appropriate. There will be a construction warranty and a manufacturer's equipment and product warranty.

This project is recommended for BEST cash funding as follows:

Grant Amount – \$599,430.16; District Contribution – \$470,980.84 or 44%, the district will be financing their match through a third-party, tax-exempt lease purchase process.

Thompson R2-J – District-wide Roof Replacement & Restoration

This project addresses health and safety deficiencies including replacing or repairing aged and leaking roofs on five schools. This project will resolve these deficiencies and enhance student achievement by replacing the deteriorated roofs determined to be the district's most urgent roof replacement need. The new roofs will have a 30-year warranty.

This project is recommended for BEST cash and/or lease purchase funding as follows:

Grant Amount – \$2,176,458.56; District Contribution – \$4,624,974.44 or 68%, with the source of match being the district's 2018 bond proceed fund.

Gunnison Watershed RE1J – Multiple Roof Replacements Elementary and Middle School

This project addresses health and safety deficiencies including leaking roofs that create unsafe learning environments. This project will resolve these deficiencies and enhance student achievement by replacing all portions of the original, leaky flat roofs with fully adhered 60mil EPDM systems. There will be a three-year workmanship warranty and a 10-year manufacturer's warranty.

This project is recommended for BEST cash funding as follows:

Grant Amount – \$493,292.16; District Contribution – \$876,963.84 or 64%, with the source of match being the district's capital reserve fund.

Campo RE-6 – Health and Safety Upgrades

This project addresses many health and safety issues within the entire facility including the building mechanical system, windows replacement, and a new roof installed that will be code compliant and meet energy expectations. The existing electrical system will be updated which will also support the new mechanical system. Asbestos abatement will be completed as it impacts the overall project. The fire alarm system will be updated. This project will resolve these deficiencies and enhance student achievement by updating all deficient systems that influence students' ability to focus on education. The project will consider high-performance design. There will be a construction warranty and a manufacturer's warranty for product and equipment.

This project is recommended for BEST cash funding as follows:

Grant Amount – \$5,919,404.92; District Contribution – \$200,108.08 or 3%, with the source of match being the district's reserves.

Strasburg 31J – High School and Elementary School Building System/Safety Renovations

This project addresses health and safety deficiencies including deteriorating mechanical systems leading to poor thermal comfort, fire alarm and fire egress inadequacies, and security challenges with controlling entry. This project will resolve these deficiencies and enhance student achievement by replacing mechanical equipment,

replacing existing temporary partitions with permanent code compliant fire rated corridor and doors, and adding card access at the entrances.

This project is recommended for BEST cash and/or lease purchase funding as follows:

Grant Amount – \$3,699,808.71; District Contribution – \$6,299,674.29 or 63%, with the source of match being an anticipated 2020 bond.

Westminster Public Schools – Early Learning Center – Francis M. Day – Roof Replacement

This project addresses health and safety deficiencies by replacing the existing leaking roof. This project will resolve these deficiencies and enhance student achievement by providing a weather tight EPDM fully adhered roof system. The project will include structural analysis for current wind loads and any modifications, removing the existing roof down to deck and installing a code compliant system. The project will include a construction warranty and a manufacturer’s warranty for thirty years.

This project is recommended for BEST cash funding as follows:

Grant Amount – \$523,599.50; District Contribution – \$523,599.50 or 50%, with the source of match being the district’s restricted funds.

East Central BOCES – Multi-District Secure Network Infrastructure

This project addresses health and safety and technology deficiencies including a lack of adequate network infrastructure for member school districts, limiting capabilities for security, communications, and student learning options. This project will resolve these deficiencies and enhance student achievement by providing a significant bandwidth infrastructure capacity increase for the BOCES 20 member districts through a fiber network, utilizing the E-Rate program.

This project is recommended for BEST cash funding as follows:

Grant Amount – \$171,609.97; BOCES Contribution – \$686,439.89 or 80%, with the source of match being the E-Rate program and BOCES general funds.

Mountain Phoenix Community School – Elementary School Healthy and Safe Classrooms

This project addresses health and safety concerns with existing modulars that house 1st and 2nd grade students, including mold that displaced students while testing and mitigation was completed; poor drainage from downspouts and improperly sealed openings contributing to moisture infiltration; and poor ventilation and filtration. This project will resolve these deficiencies and enhance student achievement by relocating the students to a brick-and-mortar building on site. A construction warranty and manufacturer’s warranty for products will be provided.

This project is recommended for BEST cash funding as follows:

Grant Amount – \$239,286.84; Charter Contribution \$390,415.37 or 62%, with the source of match being a 2018 bond.

Holyoke RE-1J – High School Secure Entry and Access Renovations

This project addresses health, safety, and security deficiencies including poor access control at the main entrance, security concerns caused by a lack of clinic space and food service at the high school, requiring students to travel between campuses, and accessibility issues preventing disabled students from required program areas including physical fitness and changing areas. This project will resolve these deficiencies and

enhance student achievement by renovating interior space to add a clinic, warming kitchen, accessible routes to program areas, and relocating and renovating the locker rooms to provide equal access.

This project is recommended for BEST cash funding as follows:

Grant Amount – \$2,533,301.58; District Contribution – \$2,157,997.64 or 46% with the source of match being either an anticipated 2020 bond or local financing using existing mill levy override funds.

Clear Creek RE-1 – King Murphy Elementary School Safe Water

This project addresses health and safety deficiencies including filtering for high concentration of gross alpha and uranium discovered in the water. Because drinking this water could cause a health threat to students, staff, and families at the school, the district immediately began use of bottled water and water coolers for drinking and food preparation. This project will resolve these deficiencies and enhance student achievement by installing a point of use filtration system under sinks or behind walls at water fountains. This system requires only minor maintenance and electricity.

This project is recommended for BEST cash funding as follows:

Grant Amount – \$6,536.25; District Contribution – \$19,608.75 or 75%, with the source of match being the district's 2018 bond proceed and capital unreserved funds.

Mesa County Valley 51 – Grand Junction High School Replacement

This project addresses health and safety deficiencies including radioactive mill tailing sand utilized as an admixture for concrete and mortar in the building. Much of this hazardous material still exists in the building. The eight separate buildings are beyond their useful life—from raw sewage backups to water infiltration at the electrical room, cracking and settling foundation system, over 55 exterior access doors, and many more deficiencies. This project will resolve all deficiencies and enhance student achievement by replacing the high school with a new single contiguous building with one main entry point. The new school will be designed specifically around the district's learning model.

This project is recommended for BEST cash and/or lease purchase funding as follows:

Grant Amount – \$9,999,538.28; District Contribution – \$99,885,497.72 or 90%, with the source of match being the district's anticipated 2020 bond proceed fund.

Eagle County RE 50 – Gypsum Creek Middle School Roof Replacement

This project addresses health and safety deficiencies including replacing the roofing system that is now at the end of its useful life. This project will resolve that deficiency and enhance student achievement by replacing the roof with a higher quality roofing system therefore eliminating the buckets, water diversions, and wet surfaces that create a distraction to the learning environment. The new roof will have a 10-year warranty.

This project is recommended for BEST cash funding as follows:

Grant Amount – \$279,143.52; District Contribution – \$883,954.48 or 76%, with the source of match being the district's capital reserve fund.

Arriba Flagler C-20 – PK-12 Building System/Safety Upgrades

This project addresses health and safety deficiencies including mechanical and electrical equipment deterioration, as well as security and hygiene issues resulting from the poorly functioning mechanical equipment

and lack of accessibility for disabled students. This project will resolve these deficiencies and enhance student achievement by replacing the problem equipment, adding ventilation, and renovating key inaccessible areas.

This project is recommended for BEST cash funding as follows:

Grant Amount – \$1,385,530.80; District Contribution – \$923,687.20 or 40%, with the source of match being the district’s capital reserve fund, supplemented by financing from a small Energy Performance Contract.

Legacy Academy – Elementary School/ Middle School Safety and Security Upgrades

This project addresses health and safety deficiencies which affect student safety and the learning environment, including the location of the front office, access by emergency responders, access to before and after school care, availability of appropriate special education space, lack of a school wide evacuation system and lack of a school wide control access system. This project will resolve these deficiencies and enhance student achievement by providing a secured environment for students and addressing educational needs. There will be a construction and manufacturer’s warranty on product specifications.

This project is recommended for BEST cash funding as follows:

Grant Amount – \$113,747.87; Charter Contribution – \$484,925.13 or 81%, with the source of match being the charter school reserves.

Adams 12 Five Star Schools – Northglenn High School Roof Replacement

This project addresses health and safety deficiencies by replacing a roof that leaks. There is no longer a warranty and when the roof leaks it damages interior spaces. Several potential leaks are over known asbestos containing materials in concealed ceiling spaces. Patching no longer is effective as the district is not able to determine where the leak originates. This project will resolve these deficiencies and enhance student achievement by replacing the existing roof with a graveled built-up system that is weather tight. The project will have a construction warranty and a manufacturer’s warranty.

This project is recommended for BEST cash funding as follows:

Grant Amount – \$1,743,516.22; District Contribution – \$2,968,689.78 or 63%, with the source of match being the district’s 2016 bond.

Mapleton 1 – Monterey Community School Renovation

This project addresses health and safety deficiencies including unmonitored access to the building, disjointed building layout and circulation, failing mechanical and electrical systems, and utility concerns specific to plumbing. The project will reconfigure the entrance to the building to provide for controlled access, open corridors and allow for better line of sight. The project will update building systems to current code and make the building ADA compliant. The project will resolve deficiencies and enhance student achievement by providing improved student safety, improved thermal comfort and indoor air quality. There will be a construction and manufacturer’s warranty on product specifications.

This project is recommended for BEST Cash and/or Lease Purchase funding as follows:

Grant Amount – \$3,772,608.28; District Contribution – \$9,700,992.72 or 72%, with the source of match being the district’s 2016 bond.

Stratton R-4 – PK-12 Electrical/HVAC Renovations

This project addresses health and safety deficiencies including failing and inadequate electrical systems and mechanical systems, causing thermal comfort issues and safety hazards due to lack of electrical grounding. This project will resolve these deficiencies and enhance student achievement by replacing the electrical distribution panels with modern code-compliant systems, replacing roof top mechanical units, and connecting with existing building controls.

This project is recommended for BEST cash funding as follows:

Grant Amount – \$787,152.80; District Contribution – \$196,788.20 or 20%, with the source of match being district reserve funds.

Animas High School – Animas High School Replacement

This project addresses health and safety deficiencies including inadequate electrical access, unsafe drop off/pick up and parking locations, HVAC and indoor air quality deficiencies, rodent infestation, separate buildings disconnected from communications and fire alarms, insufficient oversight of campus, and inadequate egress. This project will resolve these deficiencies and enhance student achievement by partnering with Ft. Lewis College to build a new 21st century facility on a safe, integrated site. The solution includes compliance with the high-performance certification program.

This project is recommended for BEST cash funding as follows:

Grant Amount – \$13,739,223.50; Charter Contribution \$4,338,702.16 or 24%, with the source of match being the district’s anticipated 2020 bond.

Global Village Academy – Northglenn – Kindergarten through Eight School Replacement

This project addresses health and safety deficiencies from building movement causing walls to crack, ceilings to shift and fall, floor slab to crack and create tripping conditions, utilities below the floor slab to break and door frames to shift and not allow the door to function. The charter school is leasing the building and the landlord is no longer assisting with addressing any of the movement issues. This project will resolve the health and safety concerns resulting from the building movement and enhance student achievement by providing a safe and secure brick-and-mortar facility that will incorporate the charter school’s educational mission. There will be a construction warranty and a manufacturer’s warranty for equipment and product specifications.

This project is recommended for BEST cash funding as follows:

Grant Amount – \$27,841,124.50; Charter Contribution – \$11,931,910.50 or 30%, with the source of match being a 2018 Colorado Educational and Cultural Facilities Authority, Charter School Revenue bond.

Lease-Purchase Projects:

Johnstown-Milliken RE-5J – Letford Elementary School Replacement

This project addresses multiple health and safety deficiencies including a severely leaking roof, site drainage concerns, security inadequacies, lighting and electrical distribution issues, failing mechanical controls and HVAC units, structural concerns, and presence of asbestos containing materials. This project will resolve these deficiencies and enhance student achievement by full replacement of the school on a new site. The existing school will be demolished. The new school will follow the High Performance Certification Program.

This project is recommended for BEST cash and/or lease purchase funding as follows:

Grant Amount – \$9,548,507.64; District Contribution – \$24,553,305.36 or 72%, with the source of match being an anticipated 2020 bond.

Springfield RE-4 – Springfield High School – Addition and Renovation

This project addresses health and safety deficiencies including nine separate school buildings creating a supervision and safety concern. Pre-K through elementary grades travel between buildings twice a day to access the cafeteria. The project will renovate the existing high school building to address lighting, HVAC and electrical upgrades, window, and roof replacement. Pre-K through elementary will be relocated. Vocational/ agricultural classes, home economics classes, and the band class/cafeteria will be relocated to an addition on the junior/senior high school. This project will resolve the noted deficiencies and enhance student achievement by bringing all students into one central building. There will be a construction warranty and manufacturer's equipment and product specifications warranty.

This project is recommended for BEST cash and/or lease purchase funding as follows:

Grant Amount – \$34,154,782.00; District Contribution – \$5,990,000.00 or 15%, with the source of match being an anticipated 2020 bond.

Pueblo City 60 – Sunset Park Elementary School Replacement

This project addresses health and safety concerns of failing mechanical, electrical and plumbing systems. In order to address these systems, the district first would have to abate asbestos. After district and community input with the assistance of a master planning team it was determined the most cost-effective approach would be to replace the existing building. This project will resolve these deficiencies and enhance student achievement by building a new brick-and-mortar school that will include an energy efficient mechanical system, current educational technologies, learning spaces that provide for the educational delivery determined by the school district and provide for the safety of students and staff. There will be a construction and manufacturer's warranty on equipment and product specifications.

This project is recommended for BEST cash and/or lease purchase funding as follows:

Grant Amount – \$15,953,022.72 District Contribution – \$6,203,953.28 or 28%, with the source of match being the district's 2019 bond.

Pueblo City 60 – Franklin School of Innovation – Elementary School Replacement

This project addresses health and safety concerns of failing mechanical, electrical and plumbing systems. In order to address these systems, the district first would have to abate asbestos. After district and community input with the assistance of a master planning team it was determined the most cost-effective approach would be to replace the existing building. This project will resolve these deficiencies and enhance student achievement by building a new brick-and-mortar school that will include an energy efficient mechanical system, current educational technologies, learning spaces that provide for the educational delivery determined by the school district and provide for the safety of students and staff. There will be a construction and manufacturer's warranty on equipment and product specifications.

This project is recommended for BEST cash and/or lease purchase funding as follows:

Grant Amount – \$16,142,175.36; District Contribution – \$6,277,512.64 or 28%, with the source of match being the district's 2019 bond.

Section 4 – Summary of Facility Assessment Scores Previous Cycle

Section 22-43.7-111(1)(b), C.R.S. requires the department’s report to include a summary of the findings and conclusions of any public school facility inspections conducted during the prior fiscal year.

Facility Condition Index (FY 2020-2021): The Facility Condition Index (FCI) is an industry-standard measurement of the current condition of a facility. To determine FCI, the total cost of remedying deferred maintenance is divided by the current replacement value. The higher the FCI, the poorer the condition of the facility. The range is 0.00-0.76.

Adequacy Score: Adequacy Score or Adequacy Index (AI) is a metric based on a set of questions that measures a school's compliance with set standards. The higher the score, the less the school complies with the standards. The range is 0.02-0.63.

District	Campus	Date of Assessment	Sq. Ft.	AI	FCI

Section 5 – Summary Findings of Facility Condition vs. School Performance

Section 22-43.7-111(1)(c), C.R.S. requires the department’s report to include a summary of any differences between the common physical design elements and characteristics of the highest performing schools in the state and the lowest performing schools in the state as measured by academic productivity measures such as the state assessments administered pursuant to section 22-7-1006.3 or Colorado SAT results.

This report compares the facility assessment rating of those schools which received the highest rating of Performance (100 schools) with those schools which received the lowest rating of Turnaround (19 schools), based on the most recent school performance data available (2019).

Definitions of factors used in determining this statutory requirement:

School Performance Framework: The performance frameworks measure attainment on the key performance indicators identified in SB 09-163 as the measures of educational success: academic achievement, academic longitudinal growth, and postsecondary and workforce readiness, all which are disaggregated by student groups. State identified measures and metrics for each of these performance indicators are combined to arrive at an overall evaluation of a school’s or a district’s performance. For districts, the overall evaluation leads to their accreditation rating. For schools, the overall evaluation leads to the type of plan schools will implement. Districts accredit schools, and they may do so using the state’s performance framework or using their own more exhaustive or stringent framework. More information at: <http://www.schoolview.org/performance.asp>

*Please note that accreditation ratings and plan types have been rolled over from 2019 due to the impacts of the COVID-19 pandemic and subsequent pause in accountability ratings outlined in HB 20-1418 and HB 21-1161.

Facility Condition Index (FY 2021-2022): The Facility Condition Index (FCI) is an industry-standard measurement of the current condition of a facility. To determine FCI, the total cost of remedying deferred maintenance is divided by the current replacement value. The higher the FCI the poorer the condition of the facility. The range is 0.09 – 0.70.

Adequacy Index: Adequacy Index (AI) is a metric based on a set of questions that measures a school's compliance with set standards. The higher the AI the less the school complies with the standards. The range is 0.02 – 0.54.

SUMMARY OF FINDINGS				
SCHOOL PERFORMANCE FRAMEWORK 2021 RATING	AVERAGE YEAR BUILT	MEDIAN YEAR BUILT	AVERAGE FACILITY CONDITION INDEX	AVERAGE ADEQUACY INDEX
Top 100 Scoring Schools Which Received a "Performance Plan" Rating. Scores Between 100 and 86.3.	1977	1980	0.38	0.17
Lowest 19 Scoring Schools Which Received a "Turnaround Plan" Rating. Scores Between 34.2 and 25.0.	1967	1957	0.51	0.20

*This summary correlates to the 36 schools below with FCI and AI data.

Section 6 – Brief Summary of Projects Not Funded Previous Cycle

Section 22-43.7-111(1)(d), C.R.S. requires the department’s report to include a list of the financial assistance applications for public school facility capital construction that were denied financial assistance during the prior fiscal year, which must include a sub list of denied applications for projects for which financial assistance in the form of technology grants was requested pursuant to section 22-43.7-109 (13), and a sub list of denied applications for which financial assistance in the form of career and technical education (CTE) capital construction grants was requested pursuant to section 22-43.7-109 (14), and that includes for each project:

- (I) A brief project description;
- (II) A statement of the amount and type of financial assistance requested for the project;
- (III) A statement indicating whether or not the board recommended a financial assistance award for the project; and
- (IV) A summary of the reasons why the board or the state board denied financial assistance for the project.

- A Sub list of technology grants is not included as the CCAB did not deny any applications for technology in FY 2020-21.

DISTRICT/SCHOOL	PROJECT DESCRIPTION	BEST REQUEST AMOUNT	APPLICANT MATCHING CONTRIBUTION	BEST & MATCHING CONTRIBUTION	COMMENTS
Chavez/Huerta K-12 Preparatory Academy	Dolores Huerta Prep HS Addition/Remodel	\$ 27,849,319.65	\$ 2,096,185.35	\$ 29,945,505.00	These projects qualified as priority 1 projects for the BEST grant program but could not be funded this cycle due to the limited funds available. The CCAB shortlisted these projects but felt they were less urgent than many of the other projects submitted this cycle.
