Introduction

Expanding pathways from high school to higher education is essential for Colorado to reach its goals of increasing college completion rates, closing the attainment gap and increasing high school student engagement. As part of its 2017 Master Plan, *Colorado Rises: Advancing Education and Talent Development*, the Colorado Commission on Higher Education (CCHE) set the goal of reaching 66 percent postsecondary credential attainment for Colorado residents. Additionally, the Colorado Department of Education (CDE) has an aligned goal that 66 percent of students will earn a postsecondary credential after high school and is working toward the goal of 50 percent of all students earning college credit while in high school. In order to reach these goals, the state utilizes several strategies which contribute to continued student success.

Colorado, like other states across the country, utilizes dual enrollment as a strategy to cultivate seamless P-20 pathways and increase credential completion. Dual enrollment programs provide high school students the opportunity to enroll in college-level courses, simultaneously earning both high school and college credit, often at greatly reduced costs. Specifically, school districts participating in the state's Concurrent Enrollment program cover the student's tuition expense. These programs help students develop the knowledge, skills and abilities necessary to be postsecondary education- and workforce-ready. Research indicates that dual enrollment students are more likely to enroll and persist in college than their peers and are less likely to need remedial education once in college.

The Colorado Department of Higher Education (DHE) and the CDE have prepared this report pursuant to statute (C.R.S. §22-35-112). The data, collected through the DHE Student Unit Record Data System (SURDS) unless noted otherwise, provide a descriptive summary of students in Colorado's public education system who participated in dual enrollment programs in the 2016-2017 Academic Year.

Definitions and Data

The term *dual enrollment* is used in this report to refer to the broad array of programs available to high school students that allow them to take college-level courses for credit.

Concurrent Enrollment (capitalized in all usages) refers only to the statewide programs created by House Bill 09-1319 and detailed in the Concurrent Enrollment Programs Act (C.R.S. §22-35-101 et seq.). The Concurrent Enrollment Programs Act (C.R.S. §22-35-103, updated 2015), defines Concurrent Enrollment as the "simultaneous enrollment of a qualified student in a local education provider and in one or more postsecondary courses, including academic or career and technical education courses, which may include course work related to apprenticeship programs or internship programs, at an institution of higher education." Completed courses that fall under the Concurrent Enrollment definition are guaranteed to qualify as basic skills credit or apply to a certificate or degree program at a Colorado public postsecondary institution of higher education. The K-12 school district informs students and parents enrolled in Concurrent Enrollment courses how and if the college course will transfer to other public Colorado institutions of higher education. Additionally, most and sometimes all of the costs associated with these courses are

paid by the K-12 school district and the postsecondary institution. Early College High Schools and Pathways in Technology Early College High School (P-TECH) are included in this report.

The *Accelerating Students through Concurrent Enrollment Program (ASCENT)* is a dual enrollment program but it differs substantially in its parameters and funding. Students who have completed at least 12 credit hours of postsecondary coursework prior to completion of their 12th grade year may be eligible for ASCENT (C.R.S. § 22-35-108). They remain students at their Local Education Provider (LEP) for one year following their 12th grade year (creating a 5th year of high school), and the LEP receives ASCENT-specific, per-pupil state funding that it uses to pay the student's college tuition at the resident community college rate. Students receive their high school diplomas at the end of their ASCENT year.

Programs identified in this report as *other high school dual enrollment programs* are administered directly by postsecondary institutions and do not fall under the statutory definition of Concurrent Enrollment. Students can receive college-level credit through these other programs, but they and their families may be required to pay for courses. Additionally, these completed courses may not transfer and/or apply to programs of study at other Colorado public institutions of higher education.

This report summarizes:

1. The number of LEPs and institutions of higher education that have entered into cooperative agreements;
2. The number of public school students participating in Concurrent Enrollment, ASCENT and other dual enrollment programs;
3. Demographic information of students who participated in Concurrent Enrollment; and
4. The total number and percentage of students who passed Concurrent Enrollment courses during the 2016-2017 Academic Year.

Highlights

- Statewide, 41,857 students participated in dual enrollment programs of any type in the 2016-2017 Academic Year. This represents more than 32 percent of all 11th and 12th graders in public high schools in Colorado.
- Concurrent Enrollment continues to see sustained increases in participation, up more than 10 percent statewide with 28,290 students participating in 2016-2017. Participation in other high school dual enrollment programs in 2016-2017 increased by more than 5 percent overall from the previous year.
- Douglas County School District had the most students participating in Concurrent Enrollment by headcount (2,582 students), while Edison School District 54JT had the highest percentage (77 percent) of students participating in Concurrent Enrollment out of all Colorado school districts.
- Statewide, 96 percent of school districts (a 2 percentage-point increase from 2015-2016) and 86 percent of high schools (a 4 percentage-point increase from 2015-2016) offer Concurrent Enrollment programs.
- In 2016-2017, 31 districts had less than 5 percent Concurrent Enrollment participation among their 9th through 12th grade student population. This is a slight increase from last year when 30 districts had less than 5 percent Concurrent Enrollment participation.
- Compared to the previous year, participation in Concurrent Enrollment increased 16 percent among Asian students, 8 percent among African American students, 8 percent among Hawaiian or Pacific Islander students, 21 percent among Hispanic students, 6 percent among White, non-Hispanic students and 12 percent among students identifying as more than one race.
- In 2016-2017, high school students attempted a total of 242,728 Concurrent Enrollment credit hours. The average number of credit hours attempted per student was 8.6 with an average of 8 hours passed (averages of 8 credit hours attempted and 7.5 credit hours passed in 2015-2016).
- A large majority of the Concurrent Enrollment hours taken by students—94 percent—was passed in 2016-2017. This is a 1 percentage-point increase from the previous year.
- Participation in remedial Concurrent Enrollment courses makes up 7.1 percent of the Concurrent Enrollment total, representing 2,011 students. This percentage is a decrease from last year's rate of 7.5 percent, representing 1,911 students. Only students in their 12th grade year may take remedial Concurrent Enrollment courses.
- For the second year, more students registered for courses in a specific credential-seeking program than in non-credential seeking programs. More than 83 percent of ASCENT students were enrolled in a credential-seeking program, and more than 52 percent of Concurrent Enrollment students were enrolled in a credential-seeking program.
- Through Concurrent Enrollment or ASCENT programs, 2,017 students earned some type of postsecondary credential in 2016-2017 while still in high school. This is a 35 percent increase over last year's total credential-completion number of 1,491.
- Participation in ASCENT decreased by 4.5 percent from the previous year with 463 students participating statewide in 2016-2017.
- Nearly 44 percent of students who participated in ASCENT in 2016-2017 were Hispanic, a minority group that is historically underrepresented in postsecondary education. One of the goals of the ASCENT program is to increase the percentage of traditionally underserved students who participate in postsecondary education.

Summary of Dual Enrollment Programs

During the 2016-2017 Academic Year, 41,857 high school students participated in Concurrent Enrollment, ASCENT or other dual enrollment programs, representing more than 32 percent of all 11th and 12th graders. This number was an increase of more than 3,300 students from 2015-2016, or a nearly 9 percent jump in dual enrollment participation overall.

The highest area of participation growth in 2016-2017 was in Concurrent Enrollment programs at two- and four-year institutions, which saw a combined increase of 10.8 percent. Two-year institutions saw the biggest percentage increase in Concurrent Enrollment participation with an 11.3 percent increase. Area Technical Colleges (ATCs) provided 927 students with Concurrent Enrollment opportunities in the 2016-2017 Academic Year, which represents a slight decrease compared to the previous year.

Table 1 (page 7) provides a summary of the different dual enrollment programs in the state during the past three academic years. The largest number of students (nearly 70 percent) participated in Concurrent Enrollment programs (see Figure 1).

As stated earlier, the other high school dual enrollment programs category includes all other college-level courses taken by high school students that are outside of the Concurrent Enrollment Act Programs Act. Some of these courses are taken through a program with a formalized agreement between institutions of higher education and school districts and some are courses that high school students have enrolled in individually.

Table 1: High School Dual Enrollment Summary

Program Type	Unduplicated Student Count Academic Year 2014-2015	Unduplicated Student Count Academic Year 2015-2016	Unduplicated Student Count Academic Year 2016-2017	Change from 2015-2016 to 2016-2017
Concurrent Enrollment two- & four-year institutions*	23,127	25,534	28,290	+10.8%
<i>Two-year institutions</i>	20,878	22,582	25,127	+11.3%
<i>Four-year institutions</i>	2,645	3,599	3,782	+5.1%
Area Technical Colleges (ATCs)**	883	946	927	-2.0%
ASCENT Program***	462	485	463	-4.5%
Other High School Dual Enrollment Programs	11,241	11,554	12,177	+5.4%
Total	35,713	38,519	41,857	+8.7%

*Concurrent Enrollment program numbers include students at Early College High Schools and P-TECH.

**All counts for ATCs fall within the statutory definition of Concurrent Enrollment. Academic Year 2016-2017 is the first year that data for all ATCs have been available in SURDS, which represents a more accurate count than previous years.

*** ASCENT counts are from CDE's October Count data.

Table 2 displays participation in dual enrollment programs by higher education institutions. The two-year institutions that served the greatest number of high school students in the 2016-2017 Academic Year were Arapahoe Community College (5,077), followed by Front Range Community College (5,028). Of the ATCs, Pickens Technical College served the greatest number of high school students (529). Of the four-year institutions offering dual enrollment programs, the University of Colorado Denver served the greatest number of students (6,287), primarily through its institutionally developed dual enrollment program.

Figure 1 - High School Dual Enrollment Summary, by Program, 2016-2017

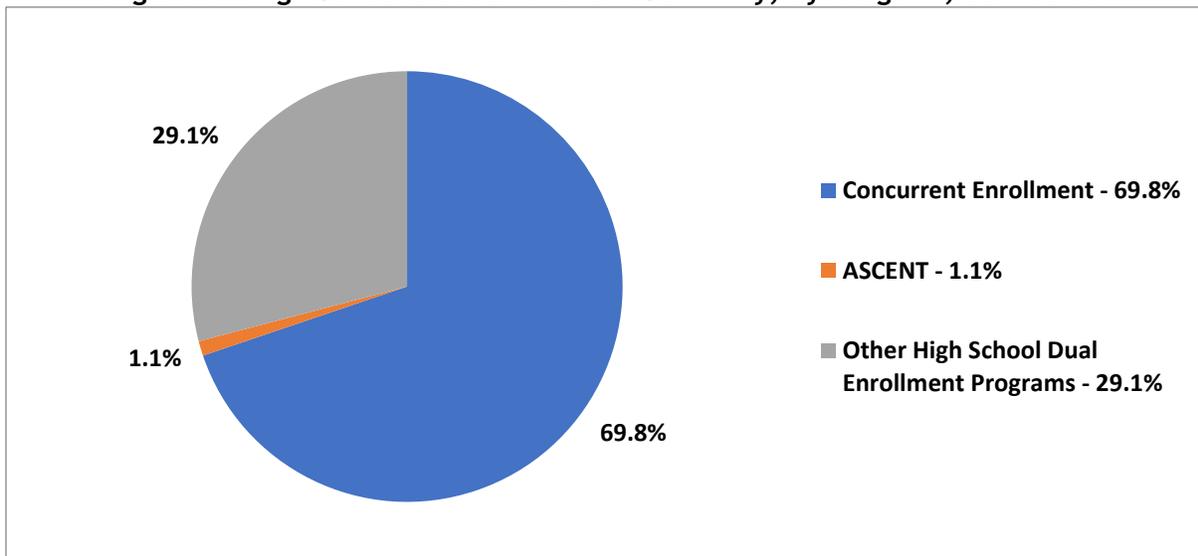

Table 2: 2016-2017 Dual Enrollment Participation by Higher Education Institution

Institution of Higher Education	Concurrent Enrollment	ASCENT	Other HS Dual Enrollment Programs	Total All Programs
Two-Year Institutions				
Aims Community College	1,706	12	426	2,144

Metropolitan State University of Denver	270	20	11	301
University of Colorado Boulder	34	0	21	55
University of Colorado Colorado Springs	38	0	2,354	2,392
University of Colorado Denver	21	0	6,266	6,287
University of Northern Colorado	30	0	724	754
Western State Colorado University	423	0	1	424
Four-Year Total	3,782	47	10,392	14,221
Grand Total	29,217	463	12,177	41,857

Note: All counts at each level are unduplicated. Totals in each section may not equal grand total.

All institutional data in Table 2, including ASCENT data, are unduplicated counts from DHE's SURDS. Grand total ASCENT counts are from CDE's October Count data. Also, as Colorado Mesa University (CMU) includes a two-year college, Western Colorado Community College (WCCC), as part of its system, some of the Concurrent Enrollment students counted here may be enrolled in WCCC, and not CMU's four-year program.

Concurrent Enrollment Participation

The remainder of the report summarizes Concurrent Enrollment and ASCENT programs as described in House Bill 09-1319; data from other dual enrollment programs are not included.

Partnership Summary

A local education provider (LEP) that seeks to allow students to participate in Concurrent Enrollment must enter into a cooperative agreement with an institution of higher education using the Concurrent Enrollment model per C.R.S. §22-35-104.

In 2016-2017, 28 public institutions of higher education had an estimated 230 cooperative agreements in place with LEPs. (This total may include duplicates, as one LEP can have cooperative agreements with multiple institutions of higher education. Institutions of higher education and LEPs with cooperative agreements may differ from data on participation as agreements vary in terms of length. Additionally, per C.R.S. §22-35-104, institutions are required to submit agreements to the DHE and those agreements may not have yet been received.)

Participation Growth

The Concurrent Enrollment program continues to see sustained increases in participation. During the 2016-2017 Academic Year, 2,756 more students participated in the program than in the previous year. As reported last year, the increase from 2014-2015 to 2015-2016 was 2,407 students. Growth in the state's Concurrent Enrollment program outpaced other forms of dual enrollment for the third year in a row. Data for Academic Year 2016-2017 show that the rate of growth in the state's Concurrent Enrollment program has stabilized at slightly above 10 percent per year. Currently, 96 percent of school districts and 86 percent of high schools in Colorado participate in Concurrent Enrollment, which is a slight increase from last year's participation.

Table 3 displays the unduplicated student count for Concurrent Enrollment participation by institutions of higher education for the last two years. Front Range Community College had the largest increase of students enrolled (+843), with a total of 4,689 students participating. Colorado Mesa University had the largest participation increase of four-year institutions, with 220 more students participating in 2016-2017 than in the previous school year. A total of 29 public institutions of higher education served Concurrent Enrollment students in 2016-2017. See Appendix A for an unduplicated count of students by institution and participating high school.

Table 3: Concurrent Enrollment Programs 2016-2017, Prior-Year Comparison

Institution of Higher Education	Number of Students, 2015-2016 Academic Year	Number of Students, 2016-2017 Academic Year	Change in number of students
Two-Year Public Institutions			
Aims Community College	1,463	1,706	+243
Arapahoe Community College	4,231	4,886	+655
Colorado Northwestern Community College	504	460	-44
Community College of Aurora	2,980	3,516	+536
Community College of Denver	2,278	2,018	-260
Front Range Community College	3,846	4,689	+843
Lamar Community College	335	321	-14
Morgan Community College	774	751	-23
Northeastern Junior College	393	385	-8
Otero Junior College	460	477	+17
Pikes Peak Community College	2,102	2,308	+206
Pueblo Community College	1,485	1,617	+132
Red Rocks Community College	1,652	1,925	+273
Trinidad State Junior College	658	771	+113
Area Technical Colleges (ATCs)*			
Technical College of the Rockies	45	56	+11
Emily Griffith Technical College	331	342	+11
Pickens Technical College	570	529	-41
Four-Year Public Institutions			
Adams State University	70	91	+21
Colorado Mesa University**	712	932	+220
Colorado Mountain College	1,139	1,172	+33
Colorado State University	10	6	-4
Colorado State University - Pueblo	731	786	+55
Fort Lewis College	50	53	+3
Metropolitan State University of Denver	301	270	-31
University of Colorado Boulder	34	34	0
University of Colorado Colorado Springs	60	38	-22
University of Colorado Denver	12	21	+9
University of Northern Colorado	34	30	-4
Western State Colorado University	514	423	-91
Total	26,480	29,217	+2,737

Note: Counts throughout the report may differ based upon multiple enrollments and descriptive reporting.

*Academic Year 2016-2017 is the first year that data for all ATCs have been available in SURDS which represents a more accurate count than previous years.

**As Colorado Mesa University includes a two-year college as a part of its system, some of the Concurrent Enrollment students counted here may be enrolled in the two-year program, not the four-year program.

Participation by Districts and High Schools

A total of three Boards of Cooperative Educational Services (BOCES) and 174 school districts participated in Concurrent Enrollment in 2016-2017, which represents 96 percent of school districts in Colorado (94 percent in 2015-2016). In 2016-2017, 31 districts had less than 5 percent Concurrent Enrollment participation among their 9th through 12th grade student population. This is a slight increase from last year when 30 districts had less than 5 percent Concurrent Enrollment participation. See Figure 2 for a visual display of participating districts and participation rates and Appendix B for a complete list of Concurrent Enrollment headcount and participation rates by school district. Additionally, 441 high schools had at least one student participating in Concurrent Enrollment, representing 86 percent of all Colorado high schools (82 percent in 2015-2016).

Table 4a lists the top 10 rural school districts with the highest percentage of high school students participating in Concurrent Enrollment. Edison School District 54JT tops the list with 77 percent of its students taking Concurrent Enrollment courses. All school districts in Table 4a are classified by CDE as small rural districts.¹

Table 4a: Top 10 Rural Districts Participating in Concurrent Enrollment by Percentage of High School Students, 2016-2017

District	Number of Students in Concurrent Enrollment (Unduplicated Headcount)	Percentage of 9 th -12 th Graders in Concurrent Enrollment
Edison School District 54JT	114	77%
Vilas RE-5	8	62%
Crowley County School District	74	59%
La Veta RE-2	34	53%
McClave School District	40	48%
West End RE-2	34	47%
Meeke RE1	96	46%
Fowler R-4J	51	40%
Liberty J-4	6	40%
Granada RE-1	23	39%

Note: Percentage of 9th-12th grade students is based on CDE's October Count data.

¹ CDE's definition of rural schools: "A Colorado school district is determined to be rural giving consideration to the size of the district, the distance from the nearest large urban/urbanized area and having a student enrollment of approximately 6,500 students or less. Small rural districts are those districts meeting these same criteria and having a student population of less than 1,000 students."

Tables 4b and 4c highlight the top 10 schools and school districts with the highest number of students participating in Concurrent Enrollment by headcount. When looking at Concurrent Enrollment participation by student headcount, the state’s larger schools and districts have the highest participation numbers. Cherokee Trail High School tops the high school list. Three of the high schools in Table 4b are new this year to the top 10 list: Colorado Springs Early College, Canon City High School and Colorado Early Colleges - Parker. In Table 4c, Douglas County School District had the largest Concurrent Enrollment participation by school district. This is the first year Douglas County School District has topped the list.

Recent research conducted by the DHE and CDE identified school districts in Colorado with low or no Concurrent Enrollment participation. Those districts were contacted to better understand the reasons for low participation. Those responses included:

- Data and terminology discrepancies between the various types of dual enrollment in Colorado;
- Newly clarified Higher Learning Commission (HLC) teacher-preparation guidelines that impact the ability of rural communities to find teachers with the necessary credentials to teach college-level courses;
- Funding constraints, especially in rural areas, that limit the ability of districts to offer various options for students to earn college credit while in high school;
- Focus on other forms of postsecondary credit opportunities for high school students, such as Advanced Placement;
- Limitations on the availability of Concurrent Enrollment courses due to service-area restrictions with institutions of higher education; and,
- A lack of streamlined paperwork and processes when working with institutions of higher education that offer Concurrent Enrollment.²

² Diaz, L. (2018). *Concurrent Enrollment Findings Among Rural Districts with Less than 5% Participation*.

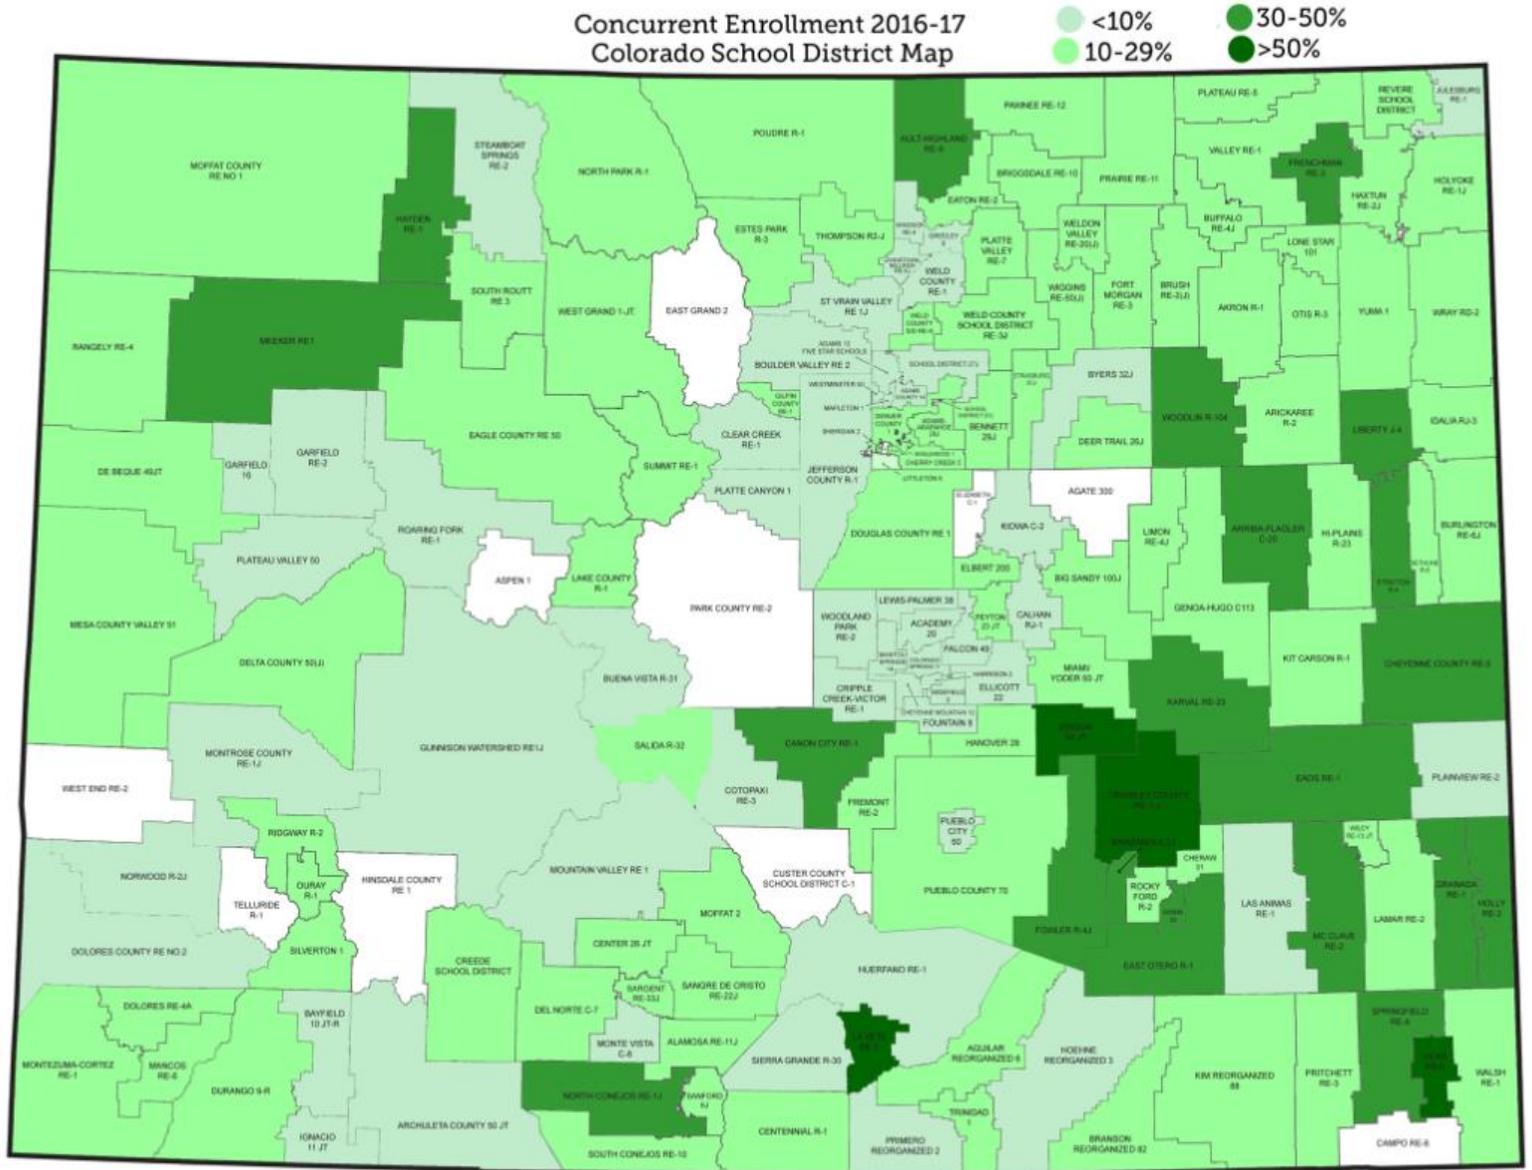

Table 4b: Top 10 Schools Participating in Concurrent Enrollment by Student Headcount 2016-017

District/Institute	School	Unduplicated Headcount
Cherry Creek Schools	Cherokee Trail High School	723

- Charter School Institute

Note: 10 school districts offer no Concurrent Enrollment through the state program.

Accelerating Students through Concurrent ENrollment (ASCENT)

The ASCENT program provides an opportunity for students to continue to participate in Concurrent Enrollment in the year directly following the student’s 12th grade year, or a fifth year of high school. Thirty-three districts, a decrease of four from the 2015-2016 year, participated in this program with a total enrollment of 463 students. Appendix A provides a list of the high schools and the unduplicated headcount of participating students.

CDE October Count data was used in this section of the report in order to align with the amount of funding received by districts/LEPs for ASCENT participation. As students can participate part-time, the unduplicated headcount may be larger than the total FTE funded by the legislature. Additionally, recent changes allow for ASCENT students to be counted in a district’s “on-time” high school graduating cohort, which may encourage more districts to adopt ASCENT programs.

ASCENT Demographics

Per C.R.S. §22-35-108, students eligible to participate in ASCENT must have completed 12 postsecondary credit hours prior to the completion of the 12th grade year and not be in need of basic skills coursework in their selected pathway. ASCENT students must also be selected for participation by the school principal or the equivalent school administrator and accepted into a postsecondary degree program.

One of the objectives of the ASCENT program is to increase the percentage of students who participate in postsecondary education, especially among low-income and traditionally underserved populations. Tables 5a and 5b provide information on ASCENT participation by race/ethnicity and gender. Nearly 44 percent of students who participated in ASCENT in 2016-2017 were Hispanic, a minority group that is historically underrepresented in postsecondary education. Similar to Concurrent Enrollment participation, more females participated in ASCENT than males.

Table 5a: ASCENT Participation by Race/Ethnicity, 2016-2017

Race/Ethnicity	2016-2017 Percentage of Students
Asian	< 5%
African American	< 5%
Hawaiian or Pacific Islander	< 5%
Hispanic	44%
Native American/Alaskan Native	< 5%
White	46%
More than one race/ethnicity	< 5%

Table 5b: ASCENT Participation by Gender, 2016-2017

Gender	2016-2017 Percentage of Students
Female	56%
Male	44%

Table 5c outlines ASCENT participation by students' eligibility for free or reduced-price lunch (FRL). Twenty-six percent of ASCENT students were eligible for free or reduced-price lunch, with the majority of these students qualifying for free lunch.

Table 5c: ASCENT Participation by FRL Status, 2016-2017

FRL Eligibility Status	2016-2017 Percentage of Students
Free Lunch	23%
Reduced-Price Lunch	3%
Not Eligible	74%

Concurrent Enrollment Demographics

Table 6a provides information on Concurrent Enrollment participation by race/ethnicity. The number of Hispanic students—Colorado’s largest minority group—participating in Concurrent Enrollment increased by 21 percent from 2015-2016 to 2016-2017. Additionally, participation by Asian students and African American students increased by 16 percent and 8 percent respectively. Overall, since the beginning of Concurrent Enrollment in 2009, the program has seen significant diversification, and the composition of the Concurrent Enrollment program continues to closely resemble the composition of public high schools in Colorado.

Table 6a: Concurrent Enrollment Participation by Race/Ethnicity, 2016-2017

Race/Ethnicity	2015-2016 Academic Year Number/Percentage		2016-2017 Academic Year Number/Percentage		Percentage Change in Number of Students
	Number	Percentage	Number	Percentage	
Asian	774	3%	897	3%	+16%
African American	794	3%	861	3%	+8%
Hawaiian or Pacific Islander	64	0.2%	69	0.2%	+8%
Hispanic	5,715	22%	6,934	24%	+21%
Native American/Alaskan Native	152	1%	145	1%	-5%
Unknown/Did Not Wish to Answer	2,528	10%	2,882	10%	+14%
White	14,436	56%	15,294	53%	+6%
More Than One Race/Ethnicity	939	4%	1,053	4%	+12%
Nonresident Alien*	401	2%	551	2%	+37%

*A nonresident alien is a person who is not a citizen or national of the United States and who is in this country on a visa or temporary basis and does not have the right to remain indefinitely.

Table 6b displays Concurrent Enrollment participation by gender. In each of the last five academic years more females have participated in Concurrent Enrollment than males.

Table 6b: Concurrent Enrollment Participation by Gender, 2016-2017

Gender	2015-2016 Academic Year Number/Percent		2016-2017 Academic Year Number/Percent		Percentage Change in Number of Students
	Number	Percent	Number	Percent	
Female	13,722	53.7%	15,487	54.3%	+13%
Male	11,788	46.1%	12,948	45.4%	+10%
No Gender Data	50	0.2%	64	0.2%	+28%

Note: Includes Concurrent Enrollment but does not include ASCENT. Counts may differ based upon multiple enrollments and descriptive reporting. Headcount enrollments, by ethnicity and gender, for each participating higher education institution are available in Appendices D and E.

Academic Success

Table 7 details the number of credit hours attempted and the number of credit hours passed for Concurrent Enrollment students by institution of higher education. In 2016-2017, high school students attempted a total of 242,728 Concurrent Enrollment credit hours, up from 214,276 hours in the previous year. The average number of credit hours attempted by Concurrent Enrollment students was 8.6 (average of 8 credit hours attempted in 2015-2016), with an average of 8 credit hours passed (average of 7.5 credit hours passed in 2015-2016).

Nearly all of the Concurrent Enrollment credit hours taken by students—94 percent—were passed in 2016-2017. This is a 1-percentage-point increase from the previous two years' pass rate of 93 percent.

Conversely, 3,317 students failed at least one Concurrent Enrollment course in which they were enrolled in Academic Year 2016-2017. This represents 11 percent of the total Concurrent Enrollment population. This rate has decreased over the past three years (12.4 percent in Academic Year 2014-2015 and 11.7 percent in Academic Year 2015-2016).

Remedial Courses

Table 8 details student participation in basic skills, or remedial, Concurrent Enrollment courses. Per C.R.S. §22-25-104, a student may concurrently enroll in basic skills courses only if the student is enrolled in the 12th grade. Out of all Concurrent Enrollment students, 2,011 students, or 7.1 percent, enrolled in remedial courses compared to 7.5 percent in the previous year.

Community College of Denver (CCD), the largest contributor to the remedial Concurrent Enrollment population, saw a 4.5 percent decrease in remedial Concurrent Enrollment in 2016-2017. CCD enrolls more than 40 percent of all remedial Concurrent Enrollment students. Utilizing dual enrollment for remedial courses can help students successfully complete developmental education prior to college enrollment. This enables students to immediately enter credit-bearing courses in college.

Table 7: Concurrent Enrollment Credit Hours Attempted and Passed, 2016-2017

Institution of Higher Education	Number of Students	Total Hours Attempted	Total Hours Passed	Pass Rate

Career and Technical Education Courses

Providing opportunities for postsecondary career and technical education (CTE) courses as part of dual enrollment offerings is an important strategy to help improve outcomes and encourage more students to complete high school with a credential. The CTE pathways in Colorado provide additional options for students to earn postsecondary credentials. Offering CTE through Concurrent Enrollment allows students to get a head start on those pathways.

Per C.R.S. §22-35-103, Concurrent Enrollment students have the opportunity to take CTE courses and earn credit that can be applied toward a technical certificate or degree. In 2016-2017, approximately 12,000 students participated in CTE Concurrent Enrollment courses, which represents 42 percent of all Concurrent Enrollment students. Table 9 displays the number of students by institution of higher education. In 2016-2017, Arapahoe Community College served the most students—over 2,900—with CTE Concurrent Enrollment programs.

Table 9: CTE Concurrent Enrollment Participation 2016-2017

Public Institution of Higher Education	Number of Students in CTE Concurrent Enrollment Courses
Adams State University	2
Aims Community College	918
Arapahoe Community College	2,916
Colorado Mesa University	429
Colorado Mountain College	241
Colorado Northwestern Community College	207
Community College of Aurora	726
Community College of Denver	550
Front Range Community College	2,171
Lamar Community College	84
Morgan Community College	236
Northeastern Junior College	106
Otero Junior College	175
Pikes Peak Community College	1,076
Pueblo Community College	689
Red Rocks Community College	1,345
Trinidad State Junior College	269
Total	11,838

Totals include unduplicated counts from DHE's SURDS

Note: Area Technical Colleges also offer CTE Concurrent Enrollment courses, but those data were unavailable for this report due to incomplete SURDS reporting.

Postsecondary Credentials

Table 10 shows how many Concurrent Enrollment students, including ASCENT participants, are seeking a postsecondary credential while in high school. Overall, 15,246 students registered for their courses in a specific credential program. Most students are seeking an Associate of Arts or Associate of Science degree.

Of students participating in ASCENT, nearly 83 percent enroll in a credential-seeking program. For students enrolled in Concurrent Enrollment programs, 52 percent enroll in a credential-seeking program. This is the second year that more students are enrolled credential-seeking programs than non-credential-seeking programs.

Table 10: Concurrent Enrollment and ASCENT Students by Postsecondary Credential-Seeking Status, 2016-2017

Credential Type	Concurrent Enrollment Students	ASCENT Students	Total Students
Certificate (less than 1 year)	2,690	12	2,702
Certificate (at least 1 year, less than 2)	838	10	848
Associate of Applied Science	3,818	85	3,903
Associate of General Studies	1,827	39	1,866
Associate Degree (AA or AS)	7,249	223	7,472
Bachelor of Arts Degree	45	39	84
Total credential-seeking	14,893	353	15,246
Not credential-seeking	13,577	75	13,652

Note: ASCENT numbers are from DHE's SURDS.

Table 11 displays the number and type of credentials actually earned by high school students participating in the Concurrent Enrollment or ASCENT programs during the past two academic years. Through Concurrent Enrollment or ASCENT programs, 2,017 students earned some type of postsecondary credential while in high school in 2016-17. This is a 35 percent increase over last year's total high school credential completion number (1,491).

Table 11: Concurrent Enrollment and ASCENT Postsecondary Credential Completion, 2016-2017

Credential Type	Total Students, 2016-2017	Total Students, 2015-2016	Change from previous year
Certificate (less than 1 year)	1,640	1,159	+481
Certificate (at least 1 year, less than 2)	79	55	+24
Associate of Applied Science	16	16	-
Associate of General Studies	53	35	+18
Associate Degree (AA or AS)	227	226	+1
Bachelor's Degree (BA or BS)*	1	-	+1
Total	2,017	1,491	+526

Note: ASCENT numbers are from DHE's SURDS.

*The student receiving a bachelor's degree was an ASCENT student.

Outcomes of Dual Enrollment Programs

A 2014 study using Colorado data shows better outcomes on all indicators for dual enrollment students as compared to students who did not take dual enrollment courses. Participation in Concurrent Enrollment is associated with:

- An increased likelihood of enrolling in college after high school (**23 percentage points higher**)
- A decreased need for remediation (**11 percentage points lower**)³
- Higher earned cumulative credit hours by the end of students' first year (**9 more credit hours**)
- Higher first-year grade point averages (**0.15 GPA higher**)
- Higher first-year retention rates (**3 percentage points higher**)⁴

DHE recently received a two-year \$400,000 U.S. Department of Education (DOE) grant to study dual enrollment. The study will investigate the relationship between dual enrollment in Colorado on college persistence and completion as well as the return on investment of Colorado's Concurrent Enrollment program. Finally, DHE is working with researchers to evaluate student outcomes based on where students took Concurrent Enrollment courses (high school vs. college campus).

In other states, the impacts of dual enrollment are similar. A recent study of the Illinois High School Class of 2003 showed that students enrolled in dual credit were significantly more likely to obtain baccalaureate degrees than their peers who did not participate in dual enrollment.⁵

A study using Texas data showed that students enrolled in dual enrollment courses are more likely to earn their baccalaureate degrees in three, four or five years, declare a major early compared to AP students and change their major less often. The study also found that compared to students who passed AP exams, dual credit students are **more likely to be rural, have lower incomes, have lower SAT scores/high school GPA and identify as African American or Hispanic.**⁶

A recent brief by the DOE, which reviewed the results of 35 studies that examined dual enrollment, showed consistent and positive outcomes for dual enrollment students. Dual enrollment programs were found to have positive effects on students':

- Degree attainment;
- College access and enrollment;
- Credit accumulation;
- Completion of high school; and
- General academic achievement⁷

Next Steps

Concurrent Enrollment is a valuable strategy in meeting the attainment and student success goals outlined by both DHE and CDE. In order to realize the full potential that Concurrent Enrollment can have in Colorado, all students in the state should have access to the program. With access as the focus, this section outlines guiding principles, barriers to success and proposed solutions for Concurrent Enrollment in Colorado.

Guiding Principles of Concurrent Enrollment

To help the state reach its goals, Colorado's Concurrent Enrollment infrastructure should strive to:

- Provide meaningful college exposure
- Offer college courses that are transferable and applicable to programs of study at Colorado institutions of higher education
- Accelerate time to degree and offer opportunities for students to receive credentials in high school
- Provide students with access to both CTE and general education pathways
- Ensure Concurrent Enrollment courses offer the same level of quality as other postsecondary courses

Barriers to Success of Concurrent Enrollment

A number of barriers exist in the current Concurrent Enrollment environment including:

- Confusion about the state's Concurrent Enrollment program and other dual enrollment programs (other programs can have additional costs to the family and do not guarantee course transfer to other institutions)
- Significant variation in costs and services available across districts
- Unequal costs to students and parents
- Unequal student access across the state
- Administrative burdens and inefficiencies
- The availability of qualified instructors and appropriate delivery models

Solutions for Improving Concurrent Enrollment

To achieve universal access to Concurrent Enrollment in the state and to maximize its impact, DHE, CDE, institutions of higher education, and LEPs should:

- Brand and differentiate the state Concurrent Enrollment program from other similar programs to reduce confusion for families and students
- Leverage Open Education Resources and similar approaches to minimize costs to families
- Streamline the administrative processes for institutions and districts adopting Concurrent Enrollment
- Provide opportunities for high school teachers to earn the necessary qualifications to teach Concurrent Enrollment courses, particularly in rural areas
- Create greater access to Concurrent Enrollment via diverse delivery models
- Give school districts more options in establishing cooperative agreements with postsecondary institutions
- Communicate clearly how Concurrent Enrollment impacts a student's college record and financial aid status
- Make it clear to students how credits are applicable to a degree of study
- Provide opportunities to receive stackable credentials in high school

Attachment A: Reporting requirements and data availability

Reporting Requirement	Source	Data Availability from 2016-2017 Academic Year (AY)
The number and names of local education providers and institutions of higher education that have entered into cooperative agreements	Institutions of Higher Education through DHE	Used institutional data for 2016-17 AY
The number of qualified students who participated in a Concurrent Enrollment program in the previous school year, including subtotals for each local education provider and each institution of higher education	DHE	Used SURDS data for 2016-17 AY
Demographic information about qualified students who participated in a concurrent enrollment program in the previous school year	DHE	Used SURDS data for 2016-17 AY
The total number of credit hours completed at each institution of higher education by qualified students who participated in a concurrent enrollment program in the previous school year	DHE	Used SURDS data for 2016-17 AY
The total number of basic skills courses completed at each institution of higher education in the previous school year by qualified students participating in a concurrent enrollment program	DHE	Used SURDS data for 2016-17 AY
The total tuition costs paid by local education providers to institutions of higher education in the previous school year on behalf of qualified students who participated in dual enrollment programs in the previous school year, including subtotals for each local education provider and each institution of higher education	Local Education Provider Request or Institution of Higher Education Request.	Data currently not available based on higher education tuition breakdowns and structures
The total number of qualified students designated by the department as ASCENT program participants in the previous school year	Colorado Department of Education / Department of Higher Education	Used CDE & SURDS data for 2016-17 AY
The postsecondary degree and certificate programs in which ASCENT program participants were concurrently enrolled in the previous school year, including subtotals indicating how many ASCENT program participants concurrently enrolled in each postsecondary degree and certificate program	CDHE	Used SURDS data for 2016-17 AY
Data indicating the total number and percentages of qualified students who failed to complete at least one course in which they concurrently enrolled	CDHE	Used SURDS data for 2016-17 AY
To the extent possible, data indicating the total number and percentage of qualified students who concurrently enrolled in college courses who have completed a postsecondary degree	CDHE	Used SURDS data for 2016-17 AY

Appendix A: 2016-2017 Concurrent Enrollment Headcount By Institutions of Higher Education with participating High Schools

*No Data indicates that there was not a high school associated with the student data submitted by the institution of higher education to the Department of Higher Education.

Note: A breakdown for Area Technical Colleges (ATCs) is not available due to data limitations.
