ACKNOWLEDGMENTS

This report was prepared by Jo Ann Keith, Statistics/Data Base Coordinator with the Planning and Evaluation Unit under the supervision of Judith Burnes, Executive Director.

Stella MacKenzie, Data Collection Coordinator, collected and processed the data reported in the publication. Stella was instrumental in working with district and school personnel in clarifying the reporting procedures.

Diedre Middents, Programmer Analyst and Cain Padelio, Programmer Analyst, contributed to the automated systems which made the collection and reporting of the data possible.

Local school district personnel were essential in providing information contained in this publication. Their time and effort are appreciated.

INTRODUCTION

This report is divided into three major sections:

- Summary tables of state graduation rates for Class of 1992 and dropout rates for the 1991-92 school year,
- Reports of graduation and dropout rates by district,
- Profiles of districts' alternative education programs for dropouts.

A graduate is a student who completed locally-defined requirements for graduation from high school. If a student is not considered a graduate by the local board of education, then he/she is not included in the graduation rate calculation.

The graduation rate is a cumulative or longitudinal rate which calculates the number of students who actually graduate as a percent of those who were in membership and could have graduated over a four-year period (i.e., from grades 9-12). However, it may also include students who completed high school in three years, four years, or longer.

During the fall of 1988, a task force comprised of school district and Colorado Department of Education personnel recommended that the graduation rate calculation be based on information reported for the dropout data collection system. The dropout data collection system, implemented in the 1987-88 school year, provides pupil membership and transfer data by grade, school, and district. Schools with grades 7-12 are required to complete an end-of-year report which provides counts of students entering and withdrawing during the 12 month period July 1 through June 30.

The dropout rate is an annual rate reflecting the percentage of all students enrolled in grades 7-12 who leave school during the reporting period and are not known to transfer to other public or private schools.

The 1992 graduation rate is a four-year rate based on students reported by school districts beginning 9th grade in the 1988-89 school year. The membership base used to calculate a high school's graduation rate includes students who transfer into the Class of 1992 and excludes students who transfer out of the Class of 1992. In addition, high schools can adjust their membership base for a student reported as a dropout during a previous school year if the high school has documentation that the student returned or transferred to another educational program.

Although the Department is able to report graduation rates for the Class of 1992 and for future graduating classes, it is not currently possible to track students who drop out from their graduating class but complete their education several years later.

Several school districts have initiated alternative education programs for students who have dropped out or are at risk of dropping out. For those districts that have alternative schools, a district graduation rate, completer rate, and dropout rate is calculated including and excluding the alternative school. This comparison enables the reader to evaluate the rates of the traditional school program apart from the total district rates.

In addition, profiles of several alternative education programs currently offered by school districts are included. During October 1992 a survey was sent to high schools identified as alternative or second chance. Of the 38 schools surveyed, 28 responded for a 74 percent response rate. Program descriptions are detailed in this report, as submitted by the alternative school.

GRADUATION RATES

- The Colorado graduation rate for the Class of 1992 is 79.9 percent. This represents an increase of 1.0 percentage point from the 1991 graduation rate of 78.9 percent.
- The graduation rate for traditional high school programs (excluding alternative) is 82.4 percent.
- Female students reflect a higher graduation rate (81.9 percent) than male students (78.0 percent). However, the graduation rate for male students increased by 1.2 percentage points compared to 0.7 for female students.
- Seventy-two school districts, or 41 percent of all Colorado school districts, had a graduation rate at, or above 90 percent. Thirty-five percent of Colorado's public high schools had a graduation rate of 90 percent or higher.
- During the 1991-92 school year, Colorado public high schools reported 2,111 students dropping out of twelfth grade. If all 2,111 twelfth grade dropouts had completed their graduation requirements, the graduation rate for the Class of 1992 would have been 85.4 percent.

COMPLETER RATES

- The completer rate for the Class of 1992 is 81.0 percent. Completers include graduates and students receiving other certificates or designations of completion from a Colorado public high school.

GED COMPLETERS

- According to information collected by the Adult Basic Education/GED Office from GED testing centers for July 1991 through June 1992, 7,427 students (72 percent of the test takers) received a GED.
- Of the 7,427 students receiving a GED, 3,482 (47 percent) were under 21 years of age and 2,145 of the students under age 21 indicated they had previously attended a Colorado public high school.

DROPOUT RATES

- Colorado's dropout rate for the 1991-92 school year was 3.9 percent. The total membership base for grades 7-12 was 285,175 and 11,019 students dropped out resulting in the rate of 3.9 percent.
- The 1991-92 dropout rate increased from the 1990-91 rate of 3.6 percent, but remained below the 1989-90 rate of 4.1 percent.
- The total number of students who dropped out during the 1991-92 school year increased by 1,041 (10.4 percent) from 1990-91.
- Of the 9,978 students reported as dropouts during the 1990-91 school year, 3,055 were reported as retrievals during the 1991-92 school year. This represents approximately one-third (30 percent) of the 1990-91 dropouts returning to school the following year.

- The Completer Rate (81.0 percent) includes graduates and students who receive other certificates or designations of high school completion.
- Completer rates are 2.3 percentage points higher than the graduation rates for Black students, 1.8 for Hispanic students, 0.8 for American Indian and White students, and 0.2 for Asian students.
- The completer rate is also a cumulative or longitudinal rate which calculates the number of students who graduate and students who receive certificates or other designations of high school completion. The completer rate is calculated as a percent of those students under age 21 who were in membership in a Colorado school district program and could have graduated or completed.
- School districts have developed various alternative programs to assist students in completing their high school education. Descriptions of alternative programs offered by some Colorado school districts are included in a separate section of this publication.

- Districts whose total membership is less than 300 students have the highest average graduation rate, 95.0 percent, of any of the size groupings. Small attendance districts had the highest average graduation rate, 95.6 percent, of all the setting categories.
- The 20 districts whose total membership exceeds 6,000 students account for 74.9 percent of the state's graduates and have a graduation rate of 79.5 percent. Thirteen of the 20 districts showed improvements in their graduation rate over 1991, from 0.3 percentage points for Widefield to 6.4 for Adams City.
- Districts in the Outlying City category reflect the highest percentage point increase (3.3) in the graduation rate from 1991.

Figure 1:

- Graduation rates for the Class of 1992, excluding the alternative schools, show Asian students with the highest graduation rate at 87.3 percent, followed by White students, 85.7 percent; Black students, 73.5 percent; Hispanic students, 68.5 percent and American Indian students, 67.4 percent.
- However, the 1992 graduation rate for American Indian students showed the biggest change from 1991 with 10.2 percentage points increase, while the graduation rate for Hispanic students decreased by 0.3 percentage points.

Figure 2:

- During recent years, more and more school districts have initiated alternative educational programs for students who have dropped out or are at risk of dropping out. Alternative schools were instrumental in graduating 980 students in 1992. Descriptions of these programs are provided on page 87.
- Graduation rates for alternative high school programs were higher for White students (45.3 percent) and Hispanic students (40.5 percent) than other ethnic/racial groups.

Figure 3:

DROPOUT RATES BY GRADE 1988-89, 1989-90, 1990-91 and 1991-92

- The 1991-92 dropout rate increased to 3.9 percent after showing a significant decline during the previous school year. The 1990-91 dropout rate of 3.6 percent had declined from 4.1 percent in the 1989-90 school year. The dropout rate increased for students in grades 9-12, but no change occurred for grades 7 and 8.
- The 1991-92 dropout rate for both male and female students increased in almost all grades from the 1990-91 rates (See Table 4).
- In grades 7-12 male students have higher dropout rates in the eleventh grade, while female students have higher dropout rates in the tenth grade (for 1989-90, 1990-91) and eleventh grade (1988-89). (See Table 4).

- The dropout rate for all students for each ethnic/racial group in grades 10 through 12 increased during the 1991-92 school year. Of the total number of dropouts reported for grades 7 through 12, 83 percent were from grades 10 through 12.
- The dropout rate reported on Table 6 for grades 10-12 includes data from alternative schools. Therefore the rate is different from the state total rate for grades 10-12 reported on page 66, Table 10, which excludes alternative schools.

SURVEY OF ALTERNATIVE HIGH SCHOOLS AND SECOND CHANCE PROGRAMS

The Colorado Department of Education collects and reports dropout and graduation rates for alternative high school programs. These programs are established to give students, who are dropouts or who are at risk of dropping out, an alternative to the traditional high school program. During 1991-92 alternative schools were responsible for graduating 980 students. Following are descriptions of some alternative programs offered by Colorado school districts. This information was collected during October 1992 from 28 of 38 schools surveyed.

ADAMS COUNTY MAPLETON 1 - ALTERNATIVE #1 HIGH SCHOOL

Program Description: This program is an optional method of obtaining an education and was initiated in 1976. It is made available to students who are not progressing in the traditional secondary school. The program includes all academic study areas, a work study program, art, crafts, typing, business and physical education. Instructional hours are: 7:45 a.m. to 2 p.m., Monday through Thursday and 7:45 a.m. to 12 noon on Friday.

Program Goals: Provide an opportunity for potential drop-outs to receive a high school diploma. All diplomas are issued through Skyview High School.

Number of Pupils Served During 1991-92: 237

ADAMS COUNTY 12 NORTHGLENN-THORNTON - EASTLAKE CAMPUS ALTERNATIVE SCHOOL

Program Description: Eastlake Campus is a junior/senior high school program which serves 7th-12th grade students with an individualized, student-centered, and success oriented program. Required basic skill classes, electives, and a variety of support offerings are included in a curriculum that is delivered in a class size of approximately 15 to 20 students to one teacher. Most classes are multi-grade level and reflect a 2/3 to 1/3 high school to junior high ratio. The program was initiated in 1974. Instructional hours are 8 a.m. to 1 p.m.

Program Goals:

1. Success for all students;
2. Basic skill development;
3. Cultivation of strengths and talents;
4. Respect for individual differences and rights of others; and,
5. Create a positive environment that initiates and nurtures responsibility, confidence and competence by promoting sound emotional, moral and intellectual foundations in all individuals.

Number of Pupils Served During 1991-92: 386

Other Comments: Our school/program will be relocating, expanding and will be "re-named" for the 1993-94 school year. We will become part of the Thornton Educational Plaza and plan to serve additional students at different time slots with a variety of instructional deliveries. A "Diagnostic Center" will be included in the scope of the program.

ADAMS COUNTY NORTHGLENN-THORNTON 12 - HIGH PLAINS HIGH SCHOOL (ADULT DIPLOMA PROGRAM)

Program Description High Plains High School is an adult high school diploma program for adults 18 years of age and older and provides an opportunity to complete graduation requirements by attending evening high school credit classes. This program was initiated in 1986. Students may also earn credits by successfully completing GED tests and earning credits for life experiences. Life experiences include: work experience; homemaking and child care experience; military service; community volunteer service; and multi-language proficiency. Students earn a high school diploma.

Students may enroll in classes during three enrollment periods (fall session in September, winter session in January and the spring session in April). Classes are held Monday through Thursday evenings. We have a strict attendance policy.

Program Goals:

1. Help students establish positive life-long attitudes toward learning;
2. Provide a supportive, comfortable and stimulating learning environment;
3. Provide each student with opportunities for success in academic learning and interpersonal relationships to promote self-esteem.

Number of Pupils Served During 1991-92: 68 (31 students were non resident)

Other Comments:

Our school serves students 18 years of age and older. Approximately two-thirds of our students are over the age of 21. State reports allow only statistical information on graduates and student enrollment up to the age of 21. These reports do not portray an accurate picture of adult high school programs. For example, in June of 1992, we graduated 79 students. Only 29 graduates are reported on state reports because they are under 21 years of age.

ADAMS COUNTY ADAMS COUNTY 14 - LESTER ARNOLD HIGH SCHOOL

Program Description: Lester Arnold High School initiated this program in 1988 and serves students ages 14 to 21. The school operates from 8 a.m. to 10 p.m., Monday through Thursday and 8 a.m. to 3 p.m. on Friday. Students receive individualized or small group instruction while working towards a high school diploma or GED.

Program Goals: To assist students in acquiring skills and abilities to be successful in an adult world by providing opportunities to develop their intellectual, social, emotional and physical selves.

Number of Pupils Served During 1991-92: 547 (28 pupils were non resident)

ALAMOSA COUNTY ALAMOSA RE-11J - ALAMOSA OPEN SCHOOL

Program Description The program was initiated in 1985. Students pursue a diploma through the successful completion of a minimum of 24 credits. Individual programs of study are designed by the student, his/her advisor and family members, if possible. These programs are coordinated and facilitated into the student's learning program. The program can consist of group and individual classes on required subjects, computer assisted learning programs, Adams State College classes, vocational programs, community improvement experiences, work experiences and other educational activities and experiences. Requirements parallel those of the traditional high school, but are completed in alternative ways to the traditional lock step methods. The school schedule is 8 a.m. to 5 p.m. daily.

Program Goals: To create educational learning programs that are designed to develop self-directed graduates who possess both the skills and desires to continue learning throughout life. Graduation expectations also include personal and social aspects (character development outcomes as well as intellectual development).

Number of Pupils Served During 1991-92: 104

ARAPAHOE COUNTY ENGLEWOOD 1 - COLORADO'S FINEST ALTERNATIVE HIGH SCHOOL

Program Description: Colorado's Finest Alternative High School is part of Arapahoe County School District #1 in Englewood and was initiated in 1980. We are a public school of choice. Our October count showed us with an enrollment of 536. Students are free to attend classes from 7 a.m. to 9:30 p.m. Graduation requirements include minimum reading, writing, and math levels at 11th grade and successful completion of an oral examination.

Program Goals: To prepare every graduate for a post-secondary experience.

Number of Pupils Served During 1990-91: 774 (400 students were non resident)

BOULDER COUNTY ST. VRAIN VALLEY RE-1J - ST. VRAIN ADULT HIGH SCHOOL

Program Description: This program was initiated in 1968. Our program is open four days per week from 12:30 p.m. until 8:30 p.m. This allows for working students to attend classes. Our program requires 17 credits for completion of diploma requirements as a three-year high school. We use a combination of structured classes and independent completion of student contracts for course completion.

Program Goals: To serve those students least educated and most in need who are above the age of 16 and not enrolled in a traditional school. The goal with these students is to improve basic skills for functional living and complete district high school diploma requirements. There is no upper age limit.

Number of Pupils Served During 1991-92: 284

BOULDER COUNTY ST. VRAIN VALLEY RE-1J - OLD COLUMBINE HIGH SCHOOL

Program Description: Old Columbine High School serves approximately 85 students in grades 9-12 whose needs are not being met in the traditional high school. The program was initiated in 1977, and students attend a minimum of 22 hours Monday through Friday (8 a.m. - 4:30 p.m.). The flexible curriculum combines self paced and structured components.

Program Goals: The goals of Olde Columbine are to help individuals acquire skills that lead to responsible choices in an atmosphere where human dignity is balanced with an academic environment.

Number of Pupils Served During 1991-92: 193

CHAFFEE COUNTY BUENA VISTA R-31 - CHAFFEE COUNTY ALTERNATIVE HIGH SCHOOL

Program Description: The educational program consists of academic courses, community service, competency and writing tests. The program was initiated in 1990 and classes meet from 7 a.m. to 3:15 p.m. daily.

Program Goals: High school diploma and citizenship responsibility.

Number of Pupils Served During 1991-92: 52

CONEJOS COUNTY NORTH CONEJOS RE-1J - NEW HORIZONS (SECOND CHANCE) HIGH SCHOOL

Program Description: The New Horizons Program was initiated in 1986 and serves students who are not attending a traditional high school. The curriculum includes classes required for high school completion or a GED certificate. Students are required to take health and career education for graduation. Individual study courses and continuing education courses are also available for students.

Program Goals: To assist students in obtaining a high school diploma or GED certificate, learn basic skills and prepare them to enter the job market, or enter college or vocational training.

Number of Pupils Served During 1991-92: 50

DENVER COUNTY EMILY GRIFFITH OPPORTUNITY SCHOOL

Program Description: Emily Griffith Opportunity School Second Chance program was initiated in 1985 and is open-entry, open-exit individualized instruction. Classes are held from 8 a.m. to 9 p.m. in 50 minute instructional periods. Students may enroll for only one class or as many as their schedule permits. Curriculum is competency based and student rate of progress is determined by the individual's level of motivation/ability. One-hundred ninety hours are required to complete the program.

Program Goals: Provide the opportunity for youth between the ages of 17 and 21 to obtain a high school diploma (Denver Public Schools), obtain a General Education Development certificate or combine their academic pursuits with vocational programs for elective credit. Primary goal is for students to not only acquire a diploma or GED certificate but also be more marketable by gaining vocational skills in one of some 36 programs offered at Opportunity School.

Number of Pupils Served During 1991-92: 1,576

Other Comments: Second Chance has been an excellent program for youth who, for one reason or another, have left traditional education programs. We graduate approximately 135 students per year. These are youth who would probably never have had the opportunity to return to school and be successful without programs like Second Chance.

DOUGLAS COUNTY DOUGLAS COUNTY RE-1 - OAKES ACADEMY

Program Description: Douglas County Oakes Academy program was initiated in 1988 and follows the Douglas County School District curriculum and graduation requirements.

Program Goals: To provide an opportunity for students who have difficulty in the regular classroom setting to receive a high school diploma.

Number of Pupils Served During 1991-92: 64

EL PASO COUNTY HARRISON 2 - SECOND CHANCE HIGH SCHOOL

Program Description: Second Chance program was initiated in 1987 and offers the following curriculum: English, social studies, math, science, child development, music theory, ACE, and reading skills. Each subject is written and delivered to students on a mastery learning/packet basis. Students work at their own pace and receive individualized attention from certificated teachers. The schools hours are from 4 p.m. to 7 p.m, Monday-Thursday evenings.

Program Goals: The goal of this program is to help students who have discontinued their education. The program helps students establish a good attendance record, gain confidence in academics and earn credit toward a high school diploma. Successful students can transfer back to a traditional program or graduate.

Number of Pupils Served During 1991-92: 549

EL PASO COUNTY COLORADO SPRINGS 11 - ADULT EDUCATION CENTER

Program Description: Colorado Springs School District Eleven Adult Education was initiated in 1966. Its purpose is to facilitate the development of knowledge, skills and attitudes necessary for adults to succeed as contributing members of our changing society.

Adult Education Center Instruction in literacy, basic skills, GED and English as a second language. Instruction offered through individualized learning labs, small and large groups and one-on-one.

Colorado Springs School District Eleven graduates students of all ages through the Adult Education Program which celebrates its 26th year in Colorado Springs by continuing to increase its service to the community. The program gives services to more than 1,300 students, speaking 16 languages from 35 countries who work with teachers and 150 volunteers.

Correctional Education Program Instruction in literacy, basic skills, GED and computers. Colorado Springs School District Eleven Adult Education began an educational program at the Criminal Justice Center and at the Metro facility in 1989. The program is voluntary to the inmates. Participants engage in a study lab that assists them in preparing for the GED and in basic skill instruction. Some educational computer programs are available at both facilities and a number of volunteers assist a teacher and an aide. The program is well received within the correctional institution as staff report that the recidivism rate is down for those attending and completing the program.

Family Education Assisting parents and acknowledging them as their children's first and most important teacher was the impetus for starting the Family Education Program in September of 1990. The Family Education Program offers basic skills instruction, GED preparation and English as a second language while simultaneously offering a child enrichment and study center for children of parents attending school. The concept of family education are related to student achievement.

Visually Impaired The basic skill class for the visually impaired is designed to teach orientation and mobility skills, cooking techniques, braille and daily living skills. The class also includes support counseling.

MONTROSE COUNTY MONTROSE RE-1J - VISTA ADULT HIGH SCHOOL

Program Description: The Vista Adult High School Second Chance Program was instituted in 1986 because of an increasing concern about the number of young people who drop out of school prior to graduation. The program establishes procedures whereby young people ages 16-21, who have not completed high school, can have the opportunity to do so. One group served is students who have dropped out of a traditional high school and are seeking to earn a diploma in an individualized and alternative program. Secondly, students who are at risk in a traditional high school program may sign up for individualized courses for credit that is transferred back to their respective high schools. Another group of students is adults who are 21 or older. They may enroll in the program for high school diplomas on a tuition basis. The last group consists of students who have already graduated from high school, but are seeking to improve their basic skills. There is no tuition for them.

Twenty-one credits are required for completion. Specific credit requirements include math, language arts, social studies, science and health. Elective credits can be earned for work experience, art or music demonstrations/portfolios, successfully completing a second language test, or other school credits (e.g. correspondence, vocational, previous high school).

Program Goals: To offer an educational program leading to a diploma for returning high school students.

Number of Pupils Served During 1991-92: 86

MORGAN COUNTY FORT MORGAN RE-3 - COLLEGE HIGH SCHOOL

Program Description: Our alternative high school was initiated in 1983 and offers a cooperative learning style for at-risk students who are not successful in the traditional high school setting in Morgan County. We focus on individualized learning methods for students with diverse learning and coping styles.

Program Goals:

1. A short term improvement in attendance, behavior and dropout rates;
2. A shift from a welfare, criminal or addictive personality to one of aggressive vitality in the real competitive work day world; and,
3. A long term possibility of successful, enterprising individuals re-establishing an American middle class which is the foundation of our democracy.

Number of Pupils Served During 1991-92: 124

PUEBLO COUNTY PUEBLO CITY 60 - KEATING CONTINUING EDUCATION and KEATING K.E.E.P.

Program Description: The Keating Continuing Education program was initiated in September 1982 and offers the basic curriculum in day school Monday through Friday from 7:50 a.m. to 3:10 p.m. Teen mothers are able to attend here in a more protected environment than their own home schools.

Keating K.E.E.P. is an evening high school program initiated September 1992. Hours are from 1:30 p.m. to 9 p.m. Monday through Thursday. The basic curriculum consists of mathematics, language arts, English, social studies, science, reading, physical education and work study.

Keating is second chance program and a school of choice open to any student in the district that wants to attend.

Program Goals: To increase the number of high school graduates from School District 60 and to give high school dropouts, who for some reason cannot or do not seem to fit into a daytime program, an opportunity to attend school and graduate.

Number of Pupils Served During 1991-92: 346

SOUTHWEST BOCES SOUTHWEST OPEN HIGH SCHOOL

Program Description: The Southwest Open High School program was initiated in 1986 and provides an alternative educational environment for students 16 to 21 in the Southwest BOCES region who have dropped out of high school or who are at risk of dropping out. Students work on an individually paced program of classes and independent studies Monday through Friday from 8 a.m. to 3:15 p.m. Students must meet the graduation requirements of their home high schools; those requirements are met at Southwest Open High School in high interest classes that promote the students' connection to school and community. This is a BOCES operated school; diplomas are issued by home high schools (Montezuma-Cortez, Mancos and Dolores County high schools).

Program Goals: The Southwest Open High School's goal is to assist each student in becoming self-directed and gaining skills necessary for life-long learning. We attempt to accomplish this goal with an educational program based on the following key components:

1. A student-initiated learning program built upon a student's academic abilities and personal strengths to guide the scope and sequence of school activities;
2. An advisor-advisee relationship between school staff and students;
3. Self-paced studies that emphasize personal commitment and progress;
4. A flexible schedule of classes and field experiences; and,
5. Community-based learning projects.

Number of Pupils Served During 1991-92: 130

QUESTIONS AND ANSWERS ABOUT COLORADO DROPOUT RATES

Who Is Considered a Colorado Dropout? By Colorado law, a dropout is a "person who leaves school for any reason, except death, before completion of a high school diploma or its equivalent and who does not transfer to another public or private school or enroll in an approved home study program." A student is not a dropout if he/she transfers to an educational program recognized by the district, completes a G.E.D. or registers in a program leading to a G.E.D., is committed to an institution that maintains educational programs, or is so ill that he/she is unable to participate in a homebound or special therapy program.

Who Is a Transfer? A student is considered a transfer to another district or educational program if the receiving school or program sends for the student's records, or if the sending district can document that the parent or legal guardian has provided information regarding the school or education program into which the student is transferring. This definition of a transfer is in accordance with the Public School Finance Act of 1988, 22-53-207(3), C.R.S.

What If a Student Just Disappears? A student who disappears from school is considered a dropout unless the student transferred to another educational program.

What Is the Dropout Rate? The Colorado dropout rate is an annual rate, reflecting the percentage of all students enrolled in grades 7-12 who leave school during a single school year. It is calculated by dividing the number of dropouts by a membership base which includes all students who were in membership any time during the year.

Can the Dropout Rate Be Multiplied by Four to Find Out How Many Students Drop Out Over the Four Years of High School? No. The dropout rate is an annual rate only. It is not statistically valid to simply multiply the annual rate by four to find out how many students dropped out during high school. The graduation rate, however, provides a measure of how many students completed graduation requirements.

Can a Student Drop Out More Than Once? How Does That Affect the Annual Dropout Rate? Some students have a pattern of dropping out and returning to school several times before they either graduate or drop out and do not return. In the state reporting system, a student is counted as a dropout only once within a given reporting period (i.e., from July 1 through June 30). However, if a student drops out during one school year, then returns to school the following year and drops out again, he/she will be counted in the dropout rate two years in a row.

How Valid Are Colorado's Dropout Rates? The Colorado Department of Education provides definitions, guidelines, and training regarding the proper procedures for identifying and reporting dropout statistics. The data are edited and screened upon receipt and a turnaround document with the calculated rates is returned to the district for verification. In submitting the data to the state, each superintendent signs an assurance that the district has followed the required procedures.

How Are Dropout Data Reported? Dropout data are reported annually to the Department by Colorado school districts. Dropout data are collected for grades 7-12, by school building and by district. Data are reported separately by sex, ethnicity/race, and grade level of students.

How Does Colorado's Dropout Rate Compare to the National Average? Currently, there is no national dropout data collection. The National Center for Education Statistics is in the process of developing a national system expected to be implemented in the 1991-92 school year with results to be reported in 1993.

QUESTIONS AND ANSWERS ABOUT COLORADO GRADUATION RATES

Who Is a Graduate? In Colorado, local school boards are responsible for establishing the requirements for high school graduation. There is no statewide definition.

Do All Colorado School Districts Have the Same Requirements For Graduation? No. Each local school board defines graduation requirements for its district. These vary from district to district. The State considers a graduate to be any student who has met the graduation requirements of his or her local school district.

Are There Students Who Complete 12 Years of School and Do Not Graduate? Yes. Some districts award certificates or other designations of high school completion or attendance to students who do not complete the standard high school graduation requirements. Also, some students who do not complete the traditional high school graduation requirements do successfully achieve a general equivalency certificate (GED).

Who Will Be Included in the Calculation of Graduation Rate? Two types of rates are calculated by the Department for school districts and for the state: Graduation Rates and Completer Rates.

Graduation Rates. Graduation rates are calculated based on high school graduates only. A graduate is a student who completed locally-defined requirements for graduation. If a student is not considered a graduate by the local board of education, then he/she is not included in the graduation rate calculation.

Completer Rates. Completer rates are calculated based on all students who are graduates, plus those who are not considered graduates but receive another certificate or designation of high school completion.

What Happens to Students Who Graduate in the Summer? Summer graduates are included in the graduation rate calculation of the current graduating class or included in the following year's graduation rate calculation based on district's reporting practice.

What Happens if a Student Was Reported as a Dropout at Some Point During His or Her High School Years and the School Subsequently Receives Information that the Student Transferred into Another Educational Program? Does That Student Affect the Graduation Rate For the Class of Which He/She Was Originally a Member? No. If the high school has documentation of the student's transfer into another educational program or completion of an educational program, then an adjustment may be made to the membership base used to calculate the graduation rate. These students are not reported as completers from the district, they are taken out of the membership base of the school and treated as if they transferred from the school. However, the dropout rate for the year in which they were reported as a dropout remains unchanged.

What Is the Graduation Rate? The graduation rate is a cumulative or longitudinal rate which calculates the number of students who actually graduate as a percent of those who were in membership and could have graduated over a four-year period (i.e., from Grades 9-12).

A graduation rate will be reported for each particular graduating class (i.e., the Class of 1992). The rate is calculated by dividing the number of graduates by the membership base. The membership base is derived from the end-of-year count of eighth graders four years earlier (i.e., in the spring of 1989), and adjusting that figure for the number of students who have transferred into or out of the district during the years covering grades 9 through 12.

What Is the Completer Rate? The Completer Rate is also a cumulative or longitudinal rate which calculates the number of students who graduate, receive certificates or other designations of high school completion. It is also calculated as a percent of those who were in membership and could have graduated or completed over a four-year period (i.e., from Grades 9-12).

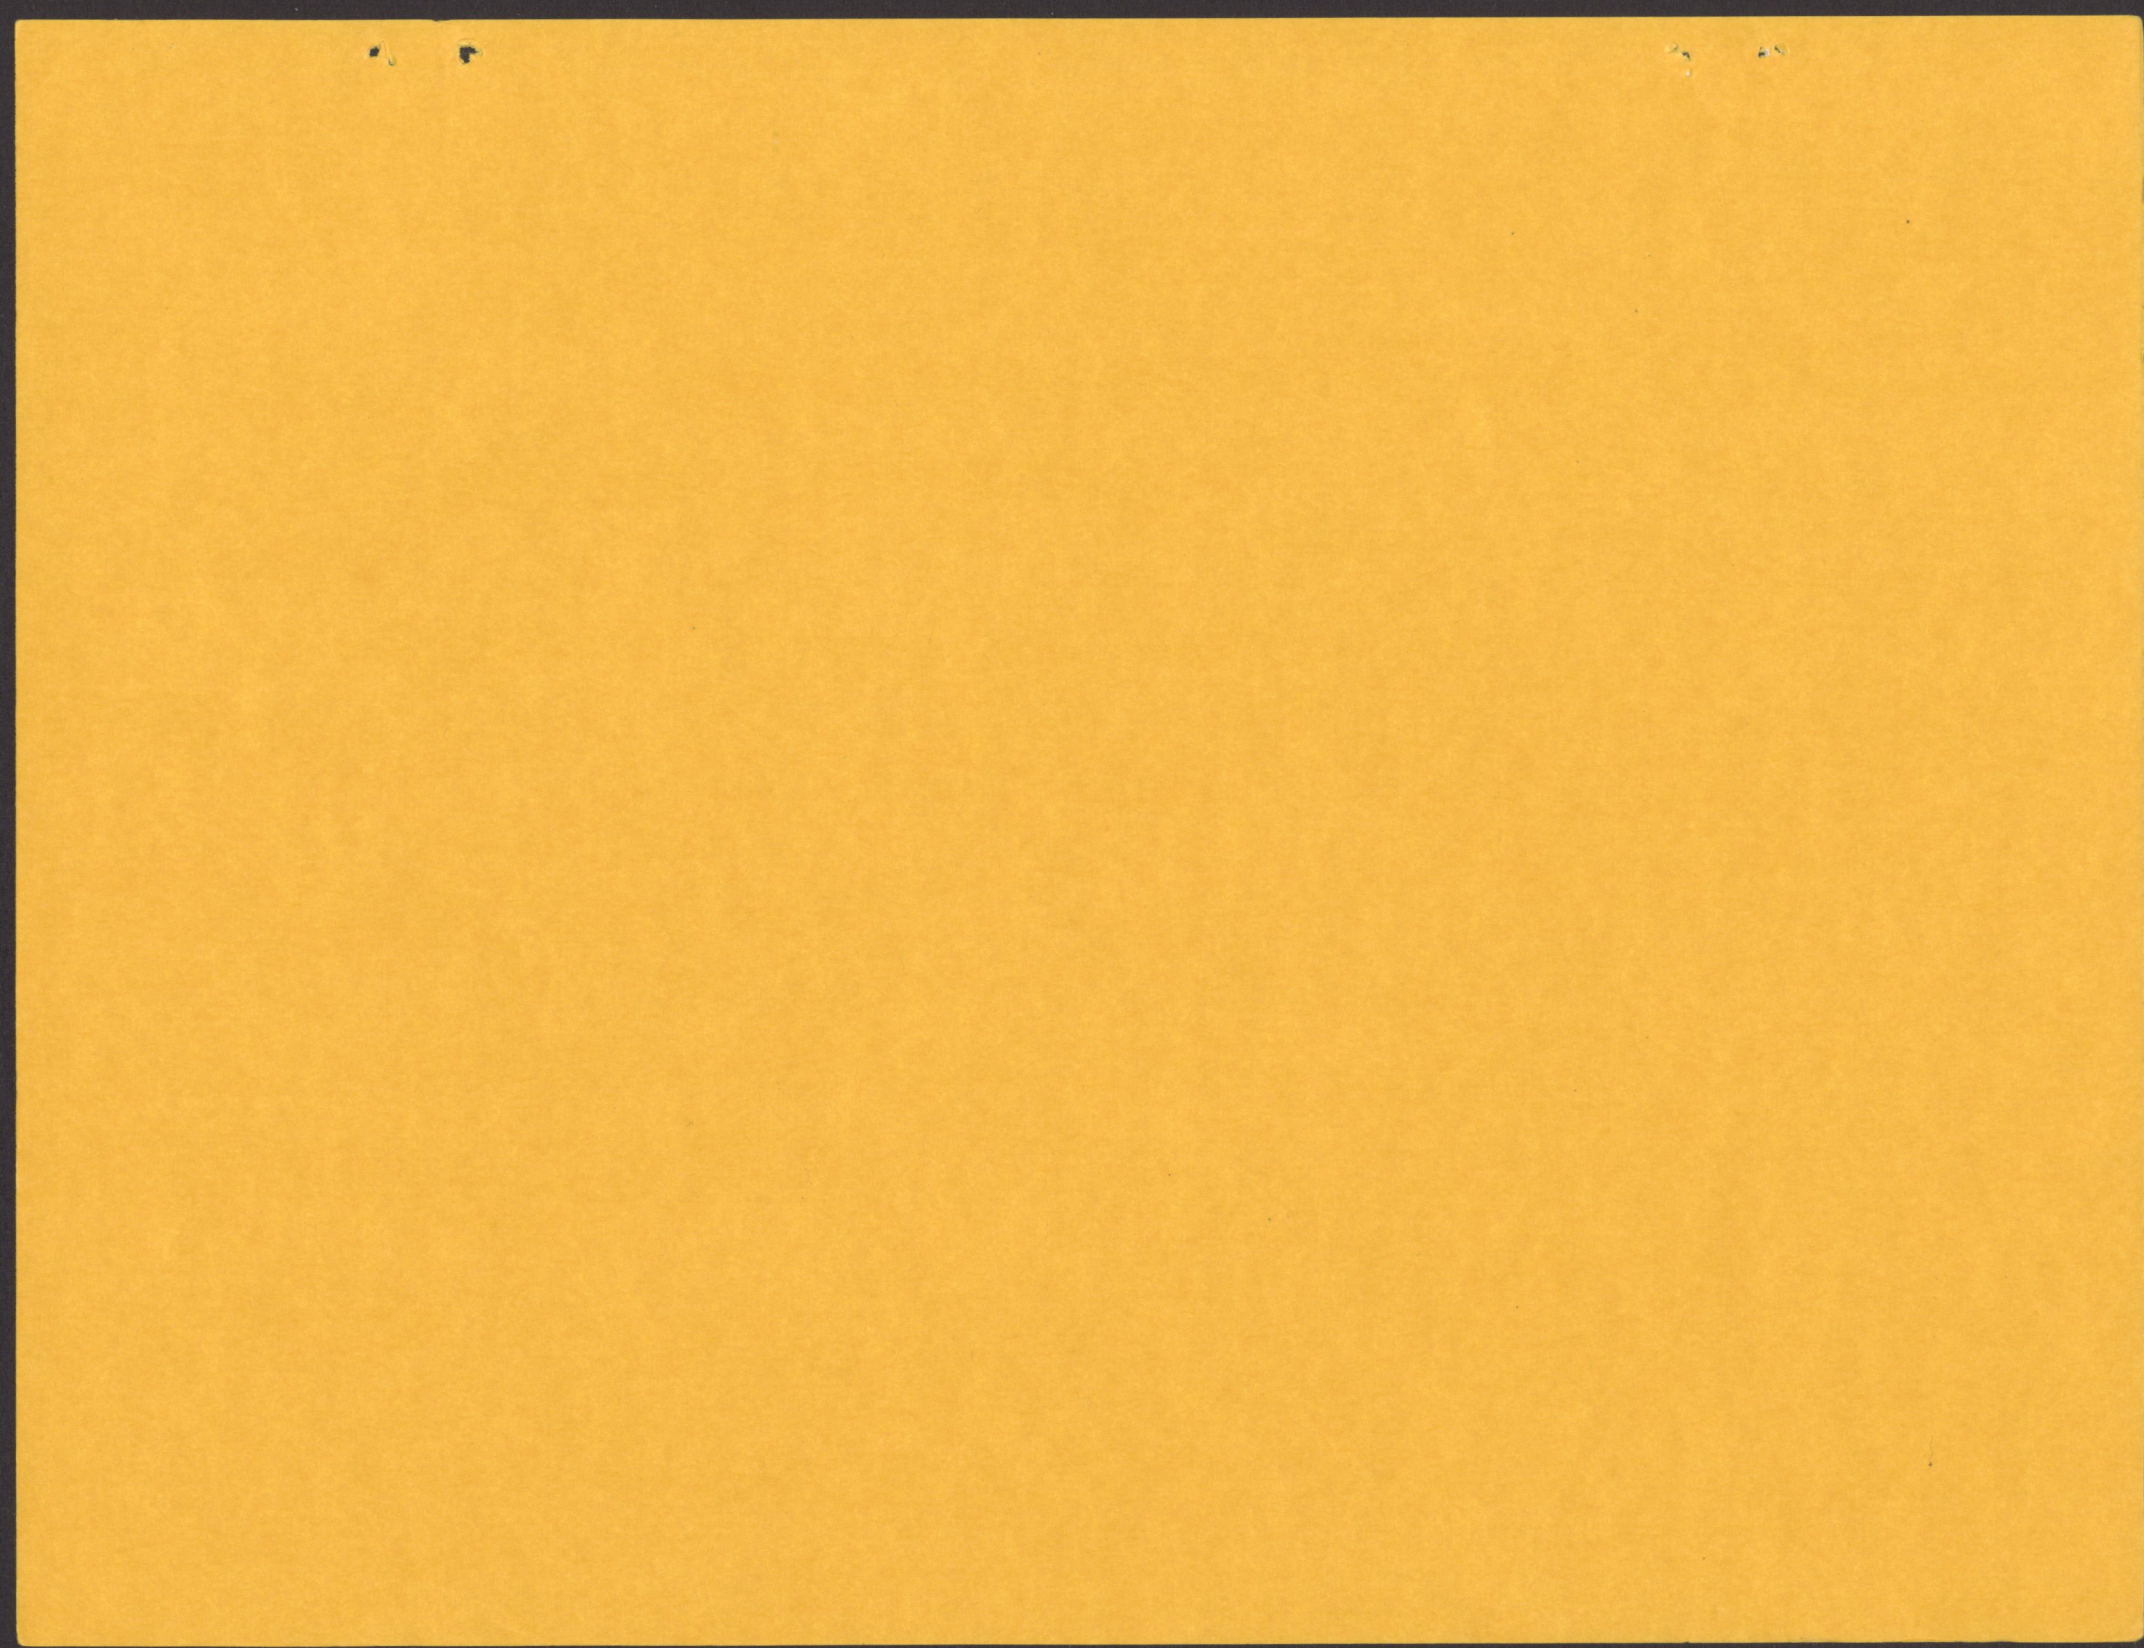

Information needed to calculate graduation and completer rates is available from the dropout data collection system initiated in the 1987-88 school year.

What Is Meant By the "Class of 1992"? Graduation rates and completer rates will be reported for a particular class. The Class of 1992 will include students who graduated in the spring of 1992 and during the summer of 1992. It may include students who completed high school in three years, four years or longer.

SOURCE OF INFORMATION

Data published in this report were obtained from all Colorado public schools having any grades 7-12 on CDE Form 2, End of Year Pupil Membership, Dropouts and Graduates Report. Data collected on these forms were then summarized for reporting in the various formats.

Data for alternative schools in some tables are reported separately. This provides additional information for those districts' schools that are established to give students who are dropouts or potential dropouts an alternative to the traditional program. The alternative schools' data also includes those Second Chance Programs operated by districts and Boards of Cooperative Services. However, it does not include any educational programs for dropouts that are incorporated as part of the traditional high school program.
