

Analysis of Funding Per Pupil by Accreditation Categories

The table below shows the total disbursed funding for districts and the Charter School Institute within each accreditation category. BOCES are not included in the analysis below.

Variable Label	Description
Accreditation Rating	Designated district accreditation rating incorporating revisions from request to reconsideration process
Number of Districts Included in Analysis	The number of school districts that were included in the analysis that had both financial data and an accreditation rating
ELL Percentage	The percentage of enrolled students at the districts within the accreditation category who are classified as English Language Learners
FRL Percentage	The percentage of enrolled students at the districts within the accreditation category who receive free or reduced lunch
Minority Percentage	The percentage of enrolled students at the districts within the accreditation category who are classified as non-white
Percent of Students in the State	The percentage of enrolled students in an accreditation category compared to the overall state population
Funded Pupil Count	The total number of students that are counted for funding at the districts within the accreditation category
Total Funds Disbursed	Total funds that were disbursed to school districts, including total program funding (local and state shares), state categorical grants, other state grants, federal formula grants, other federal grants, and voter approved overrides. Disbursed means state and federal funding sent to the district through CDE; or local revenues generated via property or specific ownership taxes.
Funding per Pupil	The per pupil revenue calculated by Total Funds Disbursed divided by the Funded Pupil Count
Total Program Funding	Total program funding (local and state shares) that were available to school districts
Total Program Funding Per Pupil	The per pupil revenue calculated by Total Program Funds divided by the Funded Pupil Count
Federal Funding Per Pupil	The per pupil revenue calculated by sum of Federal Formula and Other Federal Grants divided by Funded Pupil Count
Mill Levy Funding Per Pupil	The per pupil revenue calculated by sum of Calculated Voter Approved Override Amount and Calculated Other Approved Educational Mills Amount divided by Funded Pupil Count

Calculation Note:

Rather than taking the simple average (averaging each district per pupil funding) to figure the per pupil funding for each accreditation rating, which is susceptible to being over or under inflated due to extreme values (outliers), CDE opted to use a weighted average (weighted by the number of students). The formula is as follows:

$$\text{Funding Per Pupil} = (\text{Total Funds Disbursed within accreditation category}) / (\text{Funded Pupil Count within accreditation category})$$
