

ASSESSMENT DATA

The Colorado State Assessment Program (CSAP)

The Colorado School for the Deaf and the Blind (CSDB) participated in the 2007 administration of the CSAP with 95 students in grades 3-10 taking the CSAP or the CSAP-A in one or more of the areas of reading, writing, math, and science. CSDB scores in partially proficient and above increased by 3% in reading, 7% in writing, and 8% in math. CSDB reduced the “no scores” in reading by 12%, in writing by 14%, and in math by 10%. Forty-one students took the CSAP Alternate (CSAP-A) assessment. CSDB does not receive a CSAP state report card since the total number of students tested in each content area is less than the number required for valid statistical comparison. CSDB has adopted a standards-based curriculum and is striving to create meaningful, longitudinal data collection systems to show the continued progress of students over time.

CSDB CSAP Trend Data 2004-2005, 2005-2006 and 2006-2007 in percentages

This graph shows the proficiency levels of CSDB students on the CSAP over a three-year period by grade level and subject area.

A zero (0) indicates no student scores within that proficiency level.
