Be it enacted by the General Assembly of the State of Colorado:

**SECTION 1. Definitions - general provisions.** As used in this act, the following definitions and general provisions shall apply:

- (1) (a) "Capital outlay" means:
- (I) Equipment, meaning motor trucks designated over three-quarters of one ton, tractors, trailers, snowmobiles, boats, machinery, reference books, office furniture, file cabinets, typewriters, adding and calculating machines, and other business machines, having a useful lifetime of one year or more, or other items, including, but not limited to, tools, implements, and instruments, which may be used continuously without material change in physical condition, costing more than one hundred dollars and less than fifty thousand dollars;

Capital letters indicate new material added to existing statutes; dashes through words indicate deletions from existing statutes and such material not part of act.

- (II) Alterations and replacements, meaning major and extensive repair, remodeling, or alteration of buildings, the replacement thereof, or the replacement and renewal of the plumbing, wiring, heating, and air conditioning systems therein, costing less than fifteen thousand dollars;

- (b) "Capital outlay" does not include those things defined as capital construction by section 24-75-301, Colorado Revised Statutes.
- (2) "Centralized appropriation" means the appropriation of funds to a department's executive director's office or central administrative program intended for subsequent allocation and expenditure at and among a department's divisions, programs, agencies, or long bill groups in order to reflect the amount of such resources actually used in each program or division. Such centralized appropriations may include salary survey, anniversary increases, shift differential, group health and life insurance, capital outlay, ADP capital outlay, legal services, purchase of services from computer center, vehicle lease payments, leased space, lease purchase, payment to risk management and property funds, short-term disability insurance, utilities, administrative law judge services, and centralized ADP. As provided in subsection (10) of this section, capital outlay is included within the appropriation for "operating expenses". Capital outlay may be reallocated to divisions or programs within the department solely for capital outlay expenditure.

the budgetary equentire fiscal years combination of maximum FTE to higher education and p

(3) "FTE", except for certain positions in higher education, means the budgetary equivalent of one position continuously filled full time for the entire fiscal year, and the total FTE positions may comprise any combination of part time positions or full time positions provided the maximum FTE position limitation is not exceeded. "FTE", when applied to higher education professional personnel and assistants in resident instruction and professional personnel in organized research and activities relating to instruction, means the equivalent of one position continuously filled for a nine-month or ten-month academic year. The maximum

limitation on the number of FTE which shall be allowed for the fiscal year to which this act pertains is indicated by a number in parentheses following the appropriate line items or subtotals or under the figures in the "appropriation from" columns where the maximums for FTE are limited for each fund source. The FTE limitation so indicated is the maximum number of FTE positions which may be established at any time without additional legislative approval. Actions taken by the state personnel board, the state department of personnel, and agency management and budgetary constraints may result in the utilization of an FTE level less than the specified maximum. When a full-time position is created for less than one year, the department, agency, or institution shall indicate the termination date of the position, and the total time period between the date designated for filling the position and termination shall be counted and applied against the total FTE position limitation.

- (4) "Health, life, and dental" means the state contribution to employee health, life, and dental insurance pursuant to section 24-50-609, Colorado Revised Statutes. No funds appropriated for health, life, and dental shall be expended for any other purpose.
- (5) "Indirect cost recoveries" means reimbursements made to an agency of the state from federal funds, other nonstate funds, cash funds, or cash funds exempt for the indirect expenses which have been incurred by the state in operating such programs. These recoveries are made by the departments using the approved indirect cost rate, as required by the state fiscal rules.
- (6) "Lease purchase" means the use and acquisition of equipment under an agreement to purchase, pursuant to which payments are made for a period of longer than one year and are subject to annual appropriation. "Lease purchase" may also include payments made under the agreement for the maintenance of the equipment. No funds shall be expended for lease purchases except those specifically appropriated for such purpose. The provisions of this subsection (6) shall not apply to the board of regents of the university of Colorado; the state board of agriculture; the board of trustees of the Colorado school of mines; the board of trustees of the university of northern Colorado; the trustees of the state colleges in Colorado; the state board for community colleges and occupational education (except for administration and the division of occupational education); the board for the Auraria higher education center; the state historical society: the Colorado council on the arts: the Colorado advanced technology institute; the division of wildlife; the water conservation board; the county departments of social services; the Colorado financial reporting

system project; and the low income energy assistance block grant.

(7) "Leased space" means the use and acquisition of office facilities and office and parking space pursuant to a rental agreement. No funds shall be expended for leased space except pursuant to a specific appropriation for such purpose. The provisions of this subsection (7) shall not apply to the board of regents of the university of Colorado; the state board of agriculture; the board of trustees of the Colorado school of mines; the board of trustees of the university of northern Colorado; the trustees of the state colleges in Colorado; the state board for community colleges and occupational education (except for administration and the division of occupational education); the board for the Auraria higher education center; the state historical society; the Colorado council on the arts; the Colorado advanced technology institute; the division of wildlife; the water conservation board; the county departments of social services; the Colorado financial reporting system project; and the low income energy assistance block grant.

- (8) "Legal services" means the purchase of legal services from the department of law; however, up to ten percent of the amount appropriated for legal services may instead be expended for operating expenses, contractual services, and tuition for employee training. No funds shall be expended for legal services except those specifically appropriated for such purpose. The provision of this subsection (8) shall not apply to the departments of education, higher education, transportation, and the risk management fund in the department of personnel.
- (9) "Motor vehicle" means a motor truck designated three-quarters of one ton or less, automobile, or other self-propelled vehicle costing less than fifty thousand dollars.
  - (10) "Operating expenses" means:
- (a) Supplies and materials, meaning products which by their nature are consumable and which have a useful lifetime of less than one year or which, after usage, undergo an impairment of, or a material change in, physical condition or which cost less than one hundred dollars;
- (b) Current charges, meaning charges for rental of property and equipment, insurance premiums, dues, subscriptions, and other fixed charges; except that no funds appropriated for operating expenses may be expended for vehicle lease payments, leased space, or lease purchase;

- (c) Capital outlay, as defined in subsection (1) of this section.

- (16) Where no purpose is specified or where a special program is specified, the appropriation shall be for contractual services, tuition, and operating expenses and, only if the appropriation includes a specified FTE limitation, for personal services other than contractual services. However, the requirement that such appropriation include a specified FTE limitation in order to be expended for noncontractual personal services shall not apply to appropriations made to the office of the governor; the office of the lieutenant governor for administration of the office; the board of regents of the university of Colorado; the state board of agriculture; the board of trustees of the Colorado school of mines; the board of trustees of the university of northern Colorado; the trustees of the state colleges in Colorado; the state board for community colleges and occupational education (except those made for administration and for the division of occupational education); the Auraria higher education center for -administration; the Colorado advanced technology institute; and the department of education for administration.
  - (17) Expenditures of funds appropriated for the purchase of goods and services shall be in accord with section 17-24-111, Colorado Revised Statutes, which requires institutions, agencies, and departments to purchase such goods and services as are produced by the division of correctional industries from said division.

(18) When it is not feasible, due to the format of this act, to set forth fully in the line item description the purpose of an item of appropriation or a condition or limitation on the item of appropriation, the footnotes at the end of each section of this act refer to provisions which set forth such purposes, conditions, or limitations, and such provisions are therefore intended to be binding portions of the items of appropriation to which they relate. In other cases, where clearly expressed, footnotes refer to statements which are not intended by the general assembly to be binding portions of appropriations but which are related to the indicated item or items of appropriation. Such nonbinding statements include explanations of the assumptions used in making appropriations, the general assembly's intent with respect to future appropriations, and requests on the part of the general assembly for particular administrative action in connection with items of appropriation.

- (19) For purposes of complying with the provisions of section 20 (5) of article X in the state constitution, the balance of funds in the controlled maintenance trust fund, created in section 24-75-302.5(2) Colorado Revised Statutes, is hereby designated to constitute the state emergency reserve for the 1997-98 fiscal year.
- SECTION 2. Appropriation. (1) The sums in this section hereinafter specified, or so much thereof as may be necessary for the purpose, are hereby appropriated out of any moneys in the general fund, the indicated cash funds, and federal funds, for the payment of the ordinary operating costs of the executive, legislative, and judicial departments of the state, and of its agencies and institutions, for and during the fiscal year beginning July 1, 1997, and:
- (a) The figures in the column headed "item & subtotal" are the amounts made available by appropriation for expenditure within each line item, except for the figure beneath the line, which is the subtotal of the figures preceding. The figures in the "total" column are the amounts made available by appropriation for expenditure by the department, division, institution, or program to which the totals relate.
- (b) The figures in the "general fund", "general fund exempt", "cash funds", "cash funds exempt", and "federal funds" columns indicate the source of funds for the amounts authorized in the expenditure columns. The figures in the "general fund exempt" and "cash funds exempt" columns are amounts not included in the term "fiscal year spending" as such term is defined in section 20 (2) (e) of article X of the state constitution.
- (c) The figures in the "general fund" and "general fund exempt" columns indicate the maximum amount that may be expended from the general fund for the purposes shown.
- (d) Where the letter "(M)" appears directly to the right of the general fund or general fund exempt figure, that general fund or general fund exempt appropriation, when combined with the related general fund or general fund exempt transfers from the centralized appropriations to the office of the executive director, is used to support a federally supported program and is the maximum amount of general fund or general fund exempt moneys that may be expended in that program, except where otherwise provided. In the event that additional federal funds are available for the program, the combined general fund or general fund exempt amount noted as "(M)" shall be reduced by the amount of federal funds earned or received in excess of the figure shown in the "federal funds" column for that

program. In the event that the federal funds earned or received are less than the amount shown in the "federal funds" column, the combined general fund or general fund exempt amount noted as "(M)" shall be reduced proportionately. Where general fund or general fund exempt support is required as a condition for the acceptance of federal funds and the state matching requirements are reduced, the combined general fund or general fund exempt amount noted as "(M)" shall be reduced proportionately. These provisions shall apply only to the general fund or general fund exempt amount which remains unexpended at the time of the change in federal requirements or funding. It is intended that the general fund or general fund exempt amount and the federal funds amount shall be expended in equally proportioned amounts throughout the year.

- (e) (I) The figures in the "cash funds" or "cash funds exempt" columns, including the figures in any related lettered notes, indicate all non-general fund and non-general fund exempt sources and all nondirect federal fund sources and may be cash funds established by statute, nonstatutory cash accounts, tuitions, overhead reimbursements, certain fees, governmental and nongovernmental "third-party" payments, payments for services, and interagency transfers. Such figures indicate the maximum amount that may be expended from cash funds or the specified cash fund sources for the purposes shown. The amount of each cash funds or cash funds exempt appropriation is expressly declared to be nonseverable from the agency, source, and purpose of such appropriation, and such amount shall not be used for any other agency, source, or purpose.
- (II) The provisions of this paragraph (e) shall not apply where this act specifically provides otherwise or where a cash funds or cash funds exempt amount is marked with an "(L)". The "(L)" designation refers to the funds of local governments or to the funds of service organizations from which the state purchases services, the amounts of which are not appropriated in this act and the inclusion of which is informational only.
- (III) Whenever a state agency receives cash funds or exempt cash funds from a centralized appropriation made to the office of the executive director of such agency's department and this act does not set forth such funds as a duplicate appropriation to said receiving agency, the provisions of this paragraph (e) shall not apply to the receipt of such funds.
- (IV) Whenever the controller creates an account solely for the purpose of establishing the obligation of a state agency to generate cash funds or exempt cash funds for distribution to another state agency to which such funds are appropriated by this act, the provisions of this paragraph (e)

shall not apply to the account created or to such distribution.

- (f) Where the letter "(H)" appears directly to the right of a cash funds or cash funds exempt figure, that appropriation, when combined with the related cash funds or cash funds exempt transfers from the centralized appropriations to the office of the executive director, is used to support a federally supported program and is the maximum amount of cash funds or cash funds exempt moneys that may be expended in that program, except where otherwise provided. In the event that additional federal funds are available for the program, the combined cash funds or cash funds exempt amount noted as "(H)" shall be reduced by the amount of federal funds earned or received in excess of the figure shown in the "federal funds" column for that program. In the event that the federal funds earned or received are less than the amount shown in the "federal funds" column, the combined cash funds or cash funds exempt amount noted as "(H)" shall be reduced proportionately. Where cash funds or cash funds exempt support is required as a condition for the acceptance of federal funds and the state matching requirements are reduced, the combined cash funds or cash funds exempt amount noted as "(H)" shall be reduced proportionately. These provisions shall apply only to the cash funds or cash funds exempt amount which remains unexpended at the time of the change in federal requirements or funding. It is intended that the cash funds or cash funds exempt amount and the federal funds amount shall be expended in equally proportioned amounts throughout the year.
- (g) Where a "(T)" appears directly to the right of a cash funds exempt figure, that figure is a transfer of funds anticipated to be made from one state agency to another and may be a combination of various funding sources. A "(T)" is a duplicated appropriation, appearing both in the distributing agency's appropriation where the funding details are indicated and in the receiving agency's appropriation where the amount transferred is categorized as a cash funds exempt receipt.
- (h) (I) The figures in the "federal funds" column earned or received under the following federal programs which are subject to a state match or which are subject to transfer to other block grants shall be limits on the amount of expenditures of such funds, and such funds shall be expended in accordance with applicable state and federal statutes, including all provisions of this act:

Social Services (Title XX) Block Grant Preventive Health Block Grant Maternal and Child Health Block Grant

- (II) The figures in the "federal funds" column for all other programs are anticipated federal funds, and, although these funds are not appropriated in this act, they are noted for the purpose of indicating the assumption used relative to those funds in developing the basic appropriations amounts.
- (i) The general assembly accepts no obligation directly or indirectly for support or continuation of non-state-funded programs or grants where no direct or indirect state contribution is required. Furthermore, the general assembly accepts no obligation for costs incurred by or claimed against nonappropriated federally funded programs.
- (j) No moneys appropriated by this act shall knowingly be paid to any organization, business firm, person, agency, or club which places restrictions on employment or membership based on sex, race, age, marital status, creed, color, religion, national origin, ancestry, or physical handicap.
- (k) Pursuant to section 24-30-202 (2), Colorado Revised Statutes, the controller shall examine all state contracts entered into during the fiscal year commencing July 1, 1997, to determine whether such contracts are authorized by an appropriation within this act, and, pursuant to section 24-30-202 (3), Colorado Revised Statutes, no agency shall incur obligations by contract in excess of the amounts appropriated by this act.

5/21/20

Department of Corrections, Management, Executive Director's Office Subprogram; Department of Human Services, Division of Youth Corrections, and Health and Rehabilitation Services, Alcohol and Drug Abuse Division; Judicial Department, Probation and Related Services; and Department of Public Safety, Division of Criminal Justice -- It is the intent of the General Assembly that state criminal justice agencies involved in multi-agency programs requiring separate appropriations to each agency designate one lead agency to be responsible for submitting a comprehensive annual budget request for such programs to the Joint Budget Committee. Each agency must still submit its portion of such request with its own budget document.

63

- Department of Public Health and Environment, Local Health Services -- The Department is requested to complete a detailed report on local health services. The Department should coordinate this effort with local public health providers, and, at a minimum, the report should accomplish the following: identify all state dollars (as well as federal dollars passed through the state to the locals) supporting public health services; propose a level of state support, as well as alternatives for annually adjusting the appropriation based on a quantitative analysis of the data; examine the need for a performance driven funding formula; and determine if a consolidation of local health funding streams would enable a more efficient public health delivery system and provide a more coordinated state approach to public health. The Department is requested to submit a status report to the Joint Budget Committee by August 1, 1997 which details progress made in each of the above areas, with the final report due November 1, 1997.
- Department of Public Health and Environment, Air Quality Control Division, Stationary Sources, Permits and Compliance Assurance, Construction Permit Backlog -- It is the intent of the General Assembly that this be a temporary appropriation expected to last no more than two years. Funding in this line item is to be used only for the elimination of the construction permit backlog. The Department is requested to submit quarterly updates to the Joint Budget Committee beginning January 1, 1998, to be received within 30 days of the end of the quarter, which provide the following information: actual initial and final permits received during the last twelve months; actual initial and final permits processed by regular division staff during the last twelve months, and number of FTE processing those permits; actual initial and final permits processed by the staff in this Construction Permit Backlog line item during the last twelve months, and number of FTE processing those permits; and the monthly backlog. The Department is further requested to provide a report to the Joint Budget Committee by November 1, 1997 which outlines the Department's long-term plan for preventing future construction or operating permit backlogs.
- Department of Public Health and Environment, Hazardous Materials and Waste Management Division, Contaminated Site Cleanups, Contaminated Sites Operation and Maintenance -- The Department is requested to include in its annual budget submission detailed information on the projects included in this line item for the prior year's actual expenditures, the current year estimate, and the request year. This information should include for each project a description, the cost, funding sources, and estimated duration of long-term operations and maintenance. The Department is requested to include any other data it deems pertinent to these projects.
- Department of Public Health and Environment, Disease Control and Epidemiology Division, Administration, General Disease Control, Surveillance and Administration; and Family and Community Health Services Division, Family Planning, Purchase of Services -- It is the intent of the General Assembly that these divisions cooperate to promote abstinence programs based on federal guidelines. The Department is requested to provide to the Joint Budget Committee, on or before January 1, 1998 a detailed plan explaining how federal Maternal Child Health Block Grant abstinence funds are to be used for state FY 1997-98 and state FY 1998-99. This information is to include, but is not limited to: the amount and duration of anticipated funding, list of grantees, intent and objectives of associated program(s); targeted program population, including a breakout by age group, anticipated performance measures; and how the divisions are working in consultation and coordination with one another to ensure effectiveness of both family planning and abstinence efforts.
- Department of Public Health and Environment, Disease Control and Epidemiology Division, Special Purpose, Federal Grants; and Family and Community Health Services Division, Special Purpose, Federal Grants -- The Department is requested to provide to the Joint Budget Committee a chart of federal grants for each of these divisions by November 15, 1997. - Department of Public Health and Environment, Family and Community Health Services Division, Family Planning, Purchase of Services -- It is the intent of the General Assembly that continued state support of family planning efforts is contingent upon the evaluation of the program's success. The Department is requested to include the following information in its annual budget submission, beginning with FY 1998-99: the number of unintended births prevented which are attributable to the family planning program, and an explanation of how prevented births was calculated. This data is to be compared to the total number of program participants, and the overall birth rate in Colorado. Data is to be broken out by age group. Department of Public Health and Environment, Family and Community Health Services Division, Family Planning, Purchase of Services—It is the intent of the General Assembly that a portion of the funds for this program be used for peer intervention efforts. The Department is requested to include the following information in its annual budget submission, beginning with FY 1998-99; a listing of peer intervention programs which have been awarded family planning dollars and the amount of funds given to each; the number of teens participating in listed peer intervention programs; and the estimated number of pregnancies prevented attributable to peer intervention efforts. This information is to be provided for FY 1997-98 estimates.

Department of Public Health and Environment, Emergency Medical Services and Prevention Division, Special Purpose, Cancer Prevention Grants -- The General Assembly accepts no obligation to continue funding for these programs when federal funds are no longer available. Any match requirements for these federal grants are to be provided by non-state sources. The Department is responsible for documenting the sources of matching funds, which should be submitted to the Joint Budget Committee annually with the budget request, and which will serve as proof of the required state match for these federal dollars.

- Department of Human Services, Office of Information Technology Services, Year 2000 Date Change; Department of Labor and Employment, Executive Director's Office, Year 2000 Date Change; Department of Law, Administration, Year 2000 Project; Department of Public Health and Environment, Information Technology Services, Year 2000 Projects; and Department of Revenue, Information Technology Division, Year 2000 Programming -- It is the intent of the General Assembly that moneys in this line be restricted by the State Controller until the Commission on Information Management has reviewed and approved the Department's Year 2000 implementation plan.
- Department of Revenue, Executive Director's Office -- It is the intent of the General Assembly that the Department of Revenue submit a report to the Joint Budget Committee by November 1, 1997, detailing vacancy savings and POTS being utilized to provide funding in the Reinvestment Reserve.
- Department of Revenue, All Sections -- The Department's line item appropriations have been based upon and are subject to the Memorandum of Understanding between the Department of Revenue and the Joint Budget Committee of the General Assembly, which memorandum was signed by the Executive Director of the Department and the Chairman of the Joint Budget Committee. The Memorandum of Understanding is on file at the office of the Joint Budget Committee. The intent of the Memorandum is to make the Department more cost-effective through new and continued line item consolidation in order to maximize productivity by using existing and reduced staff and funding levels to prioritize assignments and responsibly perform statutorily required functions. The Department will maintain accounting records which will delineate actual expenditures for the consolidated line items based on the FY 1988-89 appropriation line items.
- Department of Revenue, Taxpayers Service Division -- The General Assembly and the Department of Revenue recognize that there is a need to improve taxpayer telephone service delivery. To this end the Department of Revenue will reallocate an equivalent of 5.0 FTE to improve telephone service delivery during FY 1997-98 and especially during income tax season in calendar year 1998. The Taxpayer Service Division has 3.0 FTE not funded through its vacancy savings rate and an additional 1.4 FTE held vacant to fund other operating costs. Through internal reallocation of resources in FY 97-98, the Department will fully fill all of these authorized FTE and will utilize temporary and contractual services to maximize telephone service delivery during peak workload periods. This reallocation will not diminish current service levels in other areas of the Taxpayer Service Division. The Department of Revenue will report its reallocation plan to the Joint Budget Committee by November 1, 1997. In addition, the Department of Revenue will submit a report to the Joint Budget Committee by November 1, 1997 outlining long-term recommendations to achieve optimum levels of telephone service delivery. The report will address the issues of number of trunk lines carrying incoming traffic, number of additional agents needed, estimated queue wait times, and system configuration.
- Department of Revenue, Division of Racing Events, Program Costs -- The travel expense and dues appropriation line items allocated to the Colorado Racing Commission within the Division of Racing Events has been reduced by \$19,080.
- Department of Revenue, Executive Director's Office, System Design -- It is the intent of the General Assembly that the Department utilize contract labor and that no new FTE be hired for this project.
- Department of Revenue, Information Technology Division -- It is the intent of the General Assembly that the Department submit a decision item to the Joint

- Department of Revenue, Special Purpose, Reinvestment Reserve -- It is the intent of the General Assembly that the Department be allowed to reduce other line item appropriations in order to fund the Reinvestment Reserve line item. To this end, and in accordance with the Memorandum of Understanding between the Department and the Joint Budget Committee, the Department shall submit a Reinvestment Reserve plan to the Committee, in conjunction with its report as required under paragraph 6(b)(1) of the Memorandum of Understanding. The plan shall identify the sources of funds proposed for transfer to the Reinvestment Reserve. It is the intent of the General Assembly that the Joint Budget Committee be briefed by the Department on past, current, and future uses of the Reinvestment Reserve and lump sum flexibility on a quarterly basis. Based on its agreement with the plan submitted by the Department, the Joint Budget Committee shall support a supplemental appropriation to implement the proposal. Any funds thus appropriated to the Reinvestment Reserve in FY 1997-98 shall remain available for expenditure through the fiscal year ending June 30, 1999.
- Department of Revenue, Division of Racing Events, Fair Circuit Race Days -- These funds are appropriated to support the Fair Circuit Race program. - SECTION 3. Capital construction appropriation. (1) (a) The sums in this section, or so much thereof as may be necessary for the purposes specified, are hereby appropriated out of any funds accrued or accruing to the capital construction fund not otherwise appropriated and out of the cash funds and federal funds specified for construction projects at the respective institutions and agencies enumerated in this section. Except as otherwise provided in particular line items of appropriation, the appropriations made in this section shall become available upon passage and approval of this act and, if any appropriated project is initiated within the fiscal year, the appropriation therefor shall remain available until completion of the project or for a period of three years, whichever comes first, at which time unexpended and unencumbered balances shall revert to the funds from which they were appropriated.
- (b) For purposes of section 20 of article X of the state constitution and pursuant to section 24-75-302 (1) (b), Colorado Revised Statutes, the unrestricted year-end balance of the capital construction fund for the 1991-92 fiscal year shall constitute a reserve. Consequently, any moneys credited to the capital construction fund constitutes a reserve increase and therefore constitutes state fiscal year spending, as defined in section 24-77-102 (17) (a), Colorado Revised Statutes, and any moneys transferred or expended from the capital construction fund constitutes a reserve transfer or expenditure which is excluded from state fiscal year spending, as defined in section 24-77-102 (17) (b), Colorado Revised Statutes.
- (c) Moneys appropriated in this section from the capital construction fund include the sum of twenty-nine million eight hundred fourteen thousand seven hundred eighty-one dollars (\$29,814,781), which sum represents the portion of net lottery proceeds distributed quarterly to the capital construction fund during the 1997-98 fiscal year for payment of debt service in accordance with section 3 (1) (a) (II) and section 3 (1) (c) of article XXVII of the state constitution, and which sum constitutes state fiscal year spending as defined in section 24-77-102 (17) (a), Colorado Revised Statutes.
- (d) Moneys appropriated in this section from the capital construction fund include the sum of fifty million dollars (\$50,000,000) transferred from the general fund to the capital construction fund pursuant to section 24-75-302, Colorado Revised Statutes, which sum constitutes state fiscal year spending as defined in section 24-77-102 (17) (a), Colorado Revised Statutes, and thirty-two million four hundred forty-nine

thousand three hundred forty-seven dollars (\$32,449,347) in interest earnings for the 1996-97 fiscal year in the capital construction fund pursuant to section 24-75-302 (1), Colorado Revised Statutes, which sums do not constitute state fiscal year spending as defined in section 24-77-102 (17) (b), Colorado Revised Statutes.

- (e) Moneys appropriated in this section from cash funds shall constitute state fiscal year spending as defined in section 24-77-102 (17) (a), Colorado Revised Statutes. Moneys appropriated in this section from cash funds exempt do not constitute state fiscal year spending as defined in section 24-77-102 (17) (b), Colorado Revised Statutes.
- (f) Moneys appropriated in this section from cash funds exempt from the controlled maintenance trust fund shall be from ten million six hundred thousand dollars (\$10,600,000) in actual interest earnings for the period January 1, 1996, through December 31, 1996.
- (2) Except as otherwise specifically noted, appropriations from state funds shall be reduced by the amount of any funds received from federal, local, private, or other state sources and not appropriated in this act.
- (3) Operating and maintenance costs shall be a major consideration in the design and construction of any project involving renovation.
- (4) A construction project for which the lowest bid is in excess of the appropriation shall be redesigned to conform to the appropriation and may be commenced if approved under the procedures set forth in this subsection (4). The agency shall submit the redesigned project to the state buildings division of the department of administration or, for higher education projects, to the Colorado commission on higher education, which shall assure that the redesigned project meets the program needs of the agency and the necessary quality of the building. The state buildings division and the Colorado commission on higher education shall report all such analyses to the joint budget committee and to the capital development committee on a regular basis. If the redesigned project is approved by the state buildings division or the Colorado commission on higher education, the project may commence. If the redesigned project is not approved, it shall not be commenced until further action is taken by the general assembly to reauthorize the project.

(5) Expenditures of funds appropriated for capital construction shall be in accord with section 17-24-111, Colorado Revised Statutes, which requires institutions, agencies, and departments to purchase such goods and services as are produced by the division of correctional industries from said division.

#### (6) **Definitions.** As used in this section:

- (a) "Physical planning" includes all fees for survey and site investigation and architectural and engineering services, but no contract for architectural/engineering services shall commit the state to physical planning expenses greater than those which are provided in the appropriation. No funds appropriated for any other purpose shall be expended for physical planning.
- (b) "Program plan" or "program planning" relates to a specific project or facility and shall include, but is not limited to, an inventory of amounts and types of space currently available; an analysis of amounts, types, and relative locations of space required for current programs as determined by use of accepted state space standards; an analysis of projected programs and space required; and, if a change in facilities is justified based on analysis, recommendations for demolition, remodeling, or construction, including a detailed budget which relates to a realistic timetable for implementation.
