S. J. R. No. 7, by Senators Kettering, Hillman, Fairfield, Warren, Knous:

Whereas, all experienced persons know that in each State, legislative problems continually increase, both in number and in complexity.

Whereas, it is obvious that in order to solve such problems most effectively, each legislature must give systematic, scientific and business-like consideration to the actual *facts* which have a bearing upon each question—to the extent that such facts have been determined by reliable research.

Whereas, each legislature must give similar consideration to the methods and experience of other jurisdictions in dealing with problems similar to its own.

Whereas, no such problems can be dealt with adequately until facilities are established to assist every inquiring legislator to secure the most accurate information and the most expert advice which are available.

Whereas, experience indicates the necessity for an interstate legislative reference bureau to serve as a clearing house of information between all of the legislative reference services which are now being conducted by numerous States, and also to serve as

a clearing house of information between the legislatures and all other agencies which are engaged in the study and analysis of legislative problems, such as governmental departments, political science departments of universities, competent reputable associations, and all other sources of information.

Whereas, experience also indicates that in certain States which do not maintain substantial legislative reference services, there is an imperative need for such an interstate legislature reference bureau, which will assist the legislators of those States to secure whatever information they desire in analyzing the legislative problems which they must determine, and to make more readily accessible for them, without cost, the valuable material which is at all times available from the legislative reference libraries and bureaus of various other States, and from many other reliable sources.

Whereas, every individual legislator in the United States shares the responsibility for improving the present inadequate and unsatisfactory condition of the legislative processes, but neither any individual legislator, nor any group of legislators from one State, can bring about such improvement without the co-operation of legislators of other States.

Whereas, such an interstate legislative reference bureau can not be maintained by any one State alone, without the cooperation of the legislatures of other States.

Whereas, in order to set the machinery in motion to secure the necessary cooperation of the forty-eight legislatures, members of each legislature are working together in the development of the project of the American Legislators' Association.

Whereas, the said American Legislators' Association has now established in the vicinity of the University of Chicago, the Interstate Legislative Reference Bureau, which by explicit pledge is without color of politics, partisanship or propaganda, is conducted without profit, and is engaged upon three principal purposes:

First: To procure promptly for all inquiring State legislators, and their agents, whatever information or advice they desire in connection with any legislative problem, primarily by assisting them to secure, without cost, the benefit of all researches conducted by governmental departments, universities, associations, legislative reference bureaus, and other agencies throughout the United States.

Second: To conduct a systematic study of the legislative processes of each of the States, in order to ascertain the practices which contribute most to efficient and economical organization and procedure; and to render all possi-

ble assistance to each legislature—and to each legislative reference bureau—which is endeavoring to improve its organization.

Third: To publish for the benefit of all State legislators the monthly magazine, State Government, as well as special Bulletins, and thus to disseminate information which will be helpful to all conscientious students of legislation.

Whereas, the American Legislators' Association is promoting acquaintance and mutual understanding among all individuals and organizations officially concerned with the impartial and scientific functioning of the legislatures of the various States, by the organization of Standing Committees and Advisory Boards, and otherwise.

Whereas, the character and project of the American Legislators' Association have the endorsement, and its organization has the active cooperation, not only of its membership, which consists entirely of members and ex-members of State Legislatures, but also of numbers of other responsible citizens, many of whom, having specialized knowledge, are serving on the Associations' Advisory Boards. Now, therefore,

It is Hereby Resolved, That the organization of the American Legislators' Association and of the Interstate Legislative Reference Bureau are hereby commended as legitimate and constructive efforts to assist the legislatures of the various States in the efficient performance of their work.

Whereas, The Militia Bureau of the United States War Department had cancelled the above mentioned order and was about to transfer the said planes to another state when the fact was discovered by Senator Charles W. Appointments and employments in and promotions to offices and places of trust and employment in the classified civil service of the State shall be made according to merit and fitness, to be ascertained by competitive tests of competence, the person ascertained to be the most fit and of the highest excellence to be first appointed. All appointees shall be qualified electors of the State of Colorado, except as to those offices or positions held by the civil service commission to require special training and technical qualifications, in which cases competitive tests need not be limited to qualified electors and may be held without the State.

The classified civil service of the State shall comprise all appointive public officers and employes and the places which they hold, except the following: Judges of courts of record and one stenographer of each judge, one clerk for each court of record, persons appointed to perform judicial functions, receivers, jurors, members of boards or commissions appointed by the Governor and serving without pay, members of the State Industrial Commission, of the Public Utilities Commission and of the State Civil Service Commission, the Governor's private secretary and three confidential employes of his office, the wardens of the State Penitentiary and the State Reformatory, appointees to fill vacancies in elective offices, one deputy of each elective officer, the position involving the duties incident at present to the position of that deputy of the Secretary of State, known as Deputy Commissioner of Labor and the incumbent thereof, officers and teachers in educational institutions not reformatory or charitable in character, all attorneys at law serving as such, and the officers and employes of the General Assembly.

Persons in the classified service shall hold their respective positions during efficient service and shall be graded and compensated according to standards of efficient service which shall be the same for all persons having like duties. They shall be removed or disciplined only upon written charges, which may be filed by the head of a department or by any citizen of the State, for failure to comply with such standards, or for the good of the service, to be finally and promptly determined by the Commission upon inquiry and after an opportunity to be heard. No person shall be discharged for a political or a religious reason. In cases of emergency or for employment of an essentially temporary character, the Commission may authorize temporary employment without a competitive test.

Laws shall be made to enforce the provisions of this section and to establish a State Civil Service Commission to consist of three members who shall be appointed for overlapping terms by the Governor alone and who shall be persons of known devotion to the merit system. The first three commissioners appointed hereunder shall hold for two, four, and six years respectively. Thereafter the term of a commissioner shall be six years, except where an appointment is made to fill an unexpired term. A salary of not less than \$2,500 per annum shall be paid to each commissioner. The making and enforcement of rules to carry out the purposes of this amendment and of the laws enacted in pursuance hereof, the alteration and rescission of such rules, the conduct of all competitive tests, the determination of all removal or disciplinary cases, the standardization of all positions, the determination of standards of efficient service and the determination of the grades of all positions in the classified service shall be vested in the Commission. No person in the classified service

shall be paid until a certificate is furnished by the Commission that the appointment has been made pursuant to law.

Adequate appropriations shall be made to carry out the purposes of this section and in the absence of such adequate appropriations the salaries and expenses of the Commission shall be paid as are the salaries and expenses of the executive officers of the State government.

All persons holding positions in the classified service as herein defined when this section takes effect shall retain their positions until removed under the provisions of the laws enacted in pursuance hereof.

Section 2. Each elector voting at said election and desirous of voting for or against said amendment shall deposit in the ballot box a ticket whereon shall be printed the words:

and shall indicate his choice by placing a cross (X) opposite one or the other of said group of words.

Section 3. The votes cast for the adoption or the rejection of said amendment shall be canvassed and the results determined in the manner provided by the laws of the State of Colorado for the canvass of votes of Representatives in Congress.

Senate Joint Memorial

S. J. M. No. 1, by Senators Headlee, Rumbaugh, Shawcroft and Pingrey.

To the Honorable Senate and House of Representatives of the United States of America in Congress Assembled:

Your Memorialists, the General Assembly of the State of Colorado, respectfully represents to your Honorable Body, that what is known as the Sand Dunes, located in Townships Forty (40) and Forty-one (41), North Range Twelve (12), East of the New Mexico Principal Meridian, in the Counties of Saguache and Alamosa, in the State of Colorado, constitute an attraction to the people of this State and to the people of the Nation, unsurpassed by any other and should be set apart, protected and dedicated as a National monument, park and playground.

We therefore urge the Congress of the United States of America, to take action to set apart and dedicate all of the territory now occupied by the Sand Dunes in the area above described, which now remains unoccupied public domain, as a National park, monument or playground, in order that this monument of unsurpassed scenic attraction may be preserved for the future enjoyment of the people of this State and the people of the Nation.

S. J. M. No. 2, by Senators Ammons and Quiat.

Whereas, The United States Government is obligated to pay in 1945 to the veterans of the late World War as adjusted compensation, the sum of approximately three billion four hundred million dollars, and when this money is paid an average of seven hundred dollars will be distributed among approximately four million seven hundred thousand World War Veterans living throughout the United States; and

Whereas, Many of these men are now in serious financial trouble and in need of the necessities of life, because of lack of employment, and the immediate unlocking and distribution of three billion four hundred million dollars to so many men over such a wide area, will do more than anything else that has yet been suggested to bring about the return of prosperity; and

Whereas, There are now pending before the Congress of the United States of America a number of bills to provide for the immediate payment to veterans of their adjusted compensation certificates instead of postponing such payment until 1945, now, therefore,

Be It Resolved by the Senate of the Twenty-eighth General Assembly of the State of Colorado, the House of Representatives concurring therein, That it ratifies and approves the principle of providing for the immediate payment to veterans of their adjusted compensation certificates, and that this body respectfully requests the Congress of these United States to take such action as is or shall be necessary to enact into a law a bill embodying a provision for the immediate payment to such World War Veterans of their adjusted compensation certificates, and be it further

Resolved, That the Senators and Representatives of the State of Colorado to United States Congress be requested to work for the passage of such a measure; and be it further

Resolved, That a copy of this Memorial be transmitted to the Senators and Representatives of the State of Colorado to the United States Congress.

House Joint Resolutions

H. J. R. No. 1, by Representative Phelps, Henry, Holman, LaFollette and Johnson:

Whereas, All experienced persons know that in each State, legislative problems continually increase, both in number and in complexity.

Whereas, It is obvious that in order to solve such problems most effectively, each legislatures must give systematic, scientific and business-like consideration to the actual *facts* which have a bearing upon each question—to the extent that such facts have been determined by reliable research.

Whereas, Each legislature must give similar consideration to the methods and experience of other jurisdictions in dealing with problems similar to its own.

Whereas, no such problems can be dealt with adequately until facilities are established to assist every inquiring legislator to secure the most accurate information and the most expert advice which are available.

Whereas, Experience indicates the necessity for an interstate legislative reference bureau to serve as a clearing house of information between all of the legislative reference services which are now being conducted by numerous states, and also to serve as a clearing house of information between the legislatures and all other agencies which are engaged in the study and analysis of legislative problems, such as governmental departments, political science departments of universities, competent reputable associations, and all other sources of information.

Whereas, Experience also indicates that in certain States which do not maintain substantial legislative reference services, there is an imperative need for such an interstate legislative reference bureau, which will assist the legislators of those States to secure whatever information they desire in analyzing the legislative problems which they must determine, and to make more readily accessible for them, without cost, the valuable material which is at all times available from the legislative reference libraries and bureaus of various other States, and from many other reliable sources.

Whereas, Every individual legislator in the United States shares the responsibility for improving the present inadequate and unsatisfactory condition of the legislative processes, but neither any individual legislator, nor any group of legislators from one State, can bring about such improvement without the cooperation of legislators of other States.

Whereas, Such an interstate legislative reference bureau cannot be maintained by any one State alone, without the cooperation of the legislatures of other States.

Whereas, In order to set the machinery in motion to secure the necessary cooperation of the forty-eight legislatures, members of each legislature are working together in the development of the project of the American Legislators' Association.

Whereas, The said American Legislators' Association has now established in the vicinity of the University of Chicago, the Interstate Legislative Reference Bureau, which by explicit pledge is without color of politics, partisanship or propaganda, is conducted without profit, and is engaged upon three principal purposes:

First: To procure promptly for all inquiring State legislators, and their agents, whatever information or advice they desire in connection with any legislative problem, primarily by assisting them to secure, without cost, the benefit of all researches conducted by governmental departments, universities, associations, legislative reference bureaus, and other agencies throughout the United States.

Second: To conduct a systematic study of the legislative processes of each of the States, in order to ascertain the practices which contribute most to efficient and economical organization and procedure; and to render all possible assistance to each legislature—and to each legislative reference bureau—which is endeavoring to improve its organization.

Third: To publish for the benefit of all State legislators the monthly magazine, *State Government*, as well as special Bulletins, and thus to disseminate information which will be helpful to all conscientious students of legislation.

Whereas, The American Legislators' Association is promoting acquaintance and mutual understanding among all individuals and organizations officially concerned with the impartial and scientific functioning of the legislatures of the various States, by the organization of Standing Committees and Advisory Boards, and otherwise.

Whereas, The character and project of the American Legislators' Association have the endorsement, and its organization has the active cooperation, not only of its membership, which consists entirely of members and ex-members of State legislatures, but also of numbers of other responsible citizens, many of whom, having specialized knowledge, are serving on the Association's Advisory Boards. Now, Therefore

It Is Hereby Resolved: That the organization of the American Legislators' Association and of the Interstate Legislative Reference Bureau are hereby commended as legitimate and constructive efforts to assist the legislatures of the various States in the efficient performance of their work.

House Joint Memorials

H. J. M. No. 1, by Representative Twining—Concerning the silver mining industry and the use of silver as money.

Whereas, The state of Colorado has been throughout its history one of the most important silver producing states in the Union, and its growth and prosperity have been so intimately connected with the production of silver; and

Whereas, The present chaotic conditions of the silver mining industry in this State and throughout the world are in such a depressed state as to make the mining of silver entirely unproductive; and

Whereas, The demonetization of silver and its discontinuance as a standard of value in parity with gold was the beginning of the decline of the silver mining industry in this State and elsewhere in this country, and it has become increasingly evident that the present depressing economic condition throughout the world is occasioned in a large measure thereby; now, therefore,

Be it Resolved, By the House of Representatives of the Twenty-eighth General Assembly of the State of Colorado, the Senate concurring:

That the Congress of the United States take the necessary steps to investigate the present condition of the silver mining industry in this country and throughout the world and the causes thereof, and to endeavor to enact the necessary legislation to restore the parity of gold in some equitable ratio to be determined by it or to continue the purchase of silver bullion, at a price that would enable all silver properties to mine at a profit, as now prescribed by law, and to increase such purchases and to enact the necessary tariff legislation to stimulate silver mining, or any other measure which, in its opinion, may relieve the present distress in this State and elsewhere, and by so doing hasten the economic recovery of this State and of the United States, and,

Be it Further Resolved, That the Senators and Representatives of the State of Colorado to the Congress of the United States be requested to work for the passage of such measures, and that copies of this memorial be forwarded to them forthwith.

Introduced January 16.

H. J. M. No. 2, by Representatives Fisher, Twining, Waters, Barrick, Holman, Hoefnagels and Mowatt.

Whereas, The depression affecting the business and economic life of the United States is not alone confined to this country, but extends into all parts of the world, and in the minds of all the

great economists of this generation, it is attributable, directly or indirectly, to a greater or less extent, to the lack of flexibility in the monetary systems of the various nations; and,

Whereas, For many years there has been a pronounced effort on the part of England, Germany, France and other nations of the world who heretofore controlled the gold and necessarily the credit of the world, to do everything possible to bring about a world-wide single gold standard, and demonetize silver in many countries where silver was and still is practically the only circulating medium of exchange, all of which has seriously impaired the buying power of a vast majority of the population of the entire world, and has, as a result, destroyed the market for many of the products manufactured in this and other countries; and

Whereas, A large part of the available gold of the world is now controlled by the United States, France and England, and is wholly insufficient to meet the demands of commerce, and unless and until a monetary value is restored in silver, international commerce will continue to be seriously impaired; and

Whereas, Practice has shown that there is no disparity of value between gold and silver coins where they have been heretofore used as the circulating medium of a country, and such disparity will not occur in the use of gold and silver coins of any country, until such country shall coin silver dollars to an extent where they will supply the total metallic money required by such country; and right now the United States of America is the greatest creditor nation of the world, and the debtor nations constituting the great powers of the world are unable to make payments in gold, and the United States would be in a far better position in reviving commercial relations with other countries and stimulating the commerce of the world to accept payment of such indebtedness in silver as well as gold; and

Whereas, The International payments as between the nations of the world have for a long time been fluctuating erratically, due to the constant change in the value of silver, and it would be to the advantage of the commerce of all nations of the world to have definitely established an international exchange ratio between gold and silver, which can readily be done by establishing a fixed value for silver as compared with that of gold, and the time is opportune for any great creditor nation to adopt, or be instrumental in adopting internationally some form of bi-metallic standard under which the gold and silver can be coined at the mints upon some practicable ratio; now therefore,

Be it Resolved, That the Twenty-eighth General Assembly of the State of Colorado respectfully memorializes and petitions the Congress of the United States of America to enact, as speedily

as possible, proper legislation, re-establishing some monetary value to silver in this country, and thereby restore silver to a use as money, or as a basis for the issuance of silver certificates to pass as money, and admit the silver of the world, or at least what is produced in the United States, to coinage in the mints of the United States on the basis of twenty to one as compared with gold.

Be it Further Resolved, That copies of this memorial be sent to the President of the Senate and the Speaker of the House of Representatives, and to the Senators and Representatives of Colorado in Congress.

Introduced January 20.
