Biennial Report

OF

MICHAEL A. LEDDY AUDITOR OF STATE

OF

COLORADO

Denver, Colorado, December 20, 1912.

To His Excellency,
John F. Shafroth,
Governor of Colorado.

Dear Sir: I submit herewith my biennial report covering the period from December 1, 1910, to November 30, 1912, inclusive. In this report complete financial statements appear relative to revenue matters, pertinent to the state government, etc., as follows:

Receipts and disbursements from the General Revenue Funds, 1911-1912. Receipts and distribution of the interest on delinquent taxes.

Ledger balances, debits and credits at the beginning and end of the biennial period.

Appropriations 1911-1912, together with the revenue collected or collectible to satisfy same.

Estimated General Revenue Fund income for the fiscal years 1913-1914.

Estimated necessary expenditures from the General Revenue for the fiscal years 1913-1914.

Estimated net floating debt of the state on November 30, 1912.

Inheritance Tax collected and application of same.

Uncancelled warrants and certificates of indebtedness.

Disbursements by departments from the General Incidental Fund.

State Treasurer's receipts and disbursements and cash balances,

State taxes charged each county, years 1911 and 1912.

Delinquent taxes due State November 30, 1912.

Additional assessments and increases on tax levies, 1911-1912.

Rebate decreases and amounts declared unavailable-tax levies, 1911-1912. Abstract of assessment by counties.

2

Financial reports of Building & Loan Saving Associations.

Appropriations, either statutory, or those made by the Eighteenth General Assembly from the General Revenue Fund, aggregated \$3,850,583.34.

Warrants have been issued in satisfying the above to the extent of \$2,822,151.60.

As regards the Revenue of 1911, will state that warrants have been drawn against this fund to an amount of \$1,345,844.25, of which \$1,292,492.41 have been paid, leaving as outstanding \$52,343.33. There was standing to the credit of this fund on November 30, \$35,306.33, which, together with the 1911 revenue still to be collected, will more than cover the outstanding warrants drawn against the same.

Up to the 30th of November warrants have been issued against the Revenue of 1912, amounting to \$1.476,307.35, which, after the taxes and miscellaneous items due for this year are collected and the surplus of \$35,306.33 of 1911 is transferred to 1912, will be well within the limit of the revenue which I have estimated closely at \$1,483,000.00.

This does not include the appropriations made for the maintenance of the Capitol Building, Internal Improvement Fund, etc.

There follows a statement of court cases, decided and pending, in which M. A. Leddy, as State Auditor for the years 1911 and 1912, was defendant.

Respectfully submitted,

M. A. LEDDY, Auditor of State of Colorado.

RECOMMENDATIONS

OF

THE STATE AUDITOR

M. A. LEDDY

ТО

His Excellency, Governor John F. Shafroth and the Members of the Nineteenth General Assembly

The following matters have come under my observation within the last year on which some action should be taken, and recommendations for the improvement of these unsatisfactory conditions are made, as follows:

GENERAL—STATE DEPARTMENTS.

APPROPRIATIONS IN EXCESS OF PROBABLE REVENUE.

The present state officers and legislature have been severely criticised during the past two years for the great volume of moneys appropriated by the Eighteenth General Assembly in excess of any possible income or revenue, and many severe disappointments have been suffered by individuals, as well as by the state departments and state institutions. This is not only true of the last two years, but is the usual custom, and has been so for many years past.

It would seem that this embarrassing condition might be remedied if the committees on finance and appropriations from the Senate and House of Representatives were to confer more with the Governor, State Auditor and Treasurer, and less with the lobbyists, many of whom are only interested to the extent of the salary or compensation they are personally to receive for their services in securing the passage of their bills.

The interest, in many cases, in so far as the lobbyists are concerned, ceases with the passage of the bill carrying the desired appropriation, and they do not know, nor care, what embarrassing situations may later arise. Owing to the laws governing the classification as to what bills shall take precedence over others in the matter of payment, many worthy measures, and such as the legislature as a whole would endorse, are killed by being thrown into the fourth or fifth class, where frequently no funds are available to satisfy such appropriations.

On the other hand, the Governor of the state, with the information at his command from such sources as the Treasurer's department and the Auditor's office, can estimate the incoming revenue for the biennial period at a very close figure. An estimate of this revenue for a period of ten years will not

vary over \$100,000, as an average, from the actual revenue collected annually, and such variation is due largely to the indefiniteness of the inheritance tax to be collected.

The legislature should adopt some sane method of limiting appropriations, that all may be treated with fairness, thereby saving the state administration and the public at large the trouble and annoyance that these excessive appropriations have caused. If no other plan seems feasible, I would suggest that the Governor of the state inform the House and Senate committees on appropriations that all bills carrying appropriations will be gone over, and a sufficient number of the less meritorious ones vetoed, in order that the total appropriations to be satisfied may be within the limit of the revenue of the state.

THE PUBLISHED REPORT OF THE PUBLIC EXAMINER.

It is recommended that the legislature amend section 4, on page 457 of the Session Laws of 1909, Public Accounting Act, relating to the Published Annual Report, striking out the word "annual" in the ninth and tenth lines, and inserting the word "biennial" in lieu thereof.

I would also recommend that such report be limited to 400 pages instead of 300.

This report is intended to cover in detail the financial statements of all state boards, state institutions, penal, educational and charitable, as well as reports from the different departments of county government; and unless sufficient space is allowed, the reports to the legislature and to the Governor are submitted only in part, which is unsatisfactory, and sometimes misleading.

The saving in dollars and cents effected by publishing the report biennially instead of yearly would far exceed the additional cost of an increase of 100 pages in the biennial report.

FINANCING.

SOLDIERS' AND SAILORS' HOME—WORKSHOP FOR THE BLIND—MUTE AND BLIND SCHOOL.

The present system as regards the order of payment of appropriations operates in such a way that a great hardship is worked on certain institutions, namely, the Soldiers' and Sailors' Home, the Workshop for the Blind, and the Mute and Blind School, owing to the fact of their being placed in the third class.

All general expense of the State, including the maintenance of the penal institutions, has precedence in the matter of payment of appropriations over the educational institutions of which these are a part, and while the Mute and Blind School has a one-fifth of a mill tax levy specifically set aside for its support, as have also the other educational institutions, the Workshop for the Blind and the Soldiers' and Sailors' Home have no such levy to fall back on. In cases where the Legislature appropriates in excess of the revenue, the third class appropriations are very likely to be paid only in part, and possibly not at all, in which case these schools would be badly crippled, more especially the Workshop for the Blind, which would be forced to close.

Some legislative provision should be made taking these three institutions from the third class, and putting them on the same basis as the penal institutions in the second class.

CONTINGENT FUNDS FOR AUDITOR AND TREASURER OF STATE.

The duties of the State Auditor and State Treasurer frequently require trips to the State institutions and points in the State outside of Denver. No

provision for the expense of such trips has heretofore been made. This expense should properly be stood by the State, and it is recommended that the Legislature provide contingent funds for these two officers out of which their traveling expense may be drawn. Such an appropriation should not exceed \$500.00 yearly for each officer.

DAIRY COMMISSION.

Section 8, on page 288, of the Session Laws of 1911, and relating to an act creating the State Dairy Commission, includes the following paragraph:

"All persons, companies, and corporations, selling, or offering for sale, milk, cream or dairy products, shall each year, and on or before January 10th, or thereafter, before making any such sale or sales, pay to the State Treasurer, a fee of one dollar for a permit, which shall be issued by the Dairy Commissioner. Such permit shall not be granted, without inspection as herein provided."

It was anticipated that from this department there would be an increase to the General State Revenue of from \$30,000.00 to \$50,000.00 derived from the \$1.00 fee. The actual collections for the two years 1911 and 1912 will not exceed \$2,500.00, and this falling off from the anticipated amount is due largely to the fact of placing the collection of this fee in the hands of the State Treasurer instead of the Dairy Commission.

The Commissioner or his deputies should be empowered to collect this fee at the time investigations are made, and to accomplish this the act in question should be amended.

For the State Treasurer to collect these fees, a great deal of extra work is entailed for the expense of which no provision has been made.

SCALP BOUNTY CERTIFICATES.

The amount of scalp bounty certificates on file in this office now aggregates \$50,000.00. As has been repeatedly urged, provision should be made to pay these claims; and as the certificates continue to be filed with the Auditor of State, the Legislature should either repeal the present law or make provision for their payment.

THE SHORT APPROPRIATION BILL.

The General Assembly passes a short appropriation bill, covering the months of December, January, February and March, providing for the payment of the salaries of the several departments.

As this short bill is not usually passed until the last of February, all of the clerks and employes of the departments, whose employment is not provided for by law except by appropriation in the general appropriation bills, are left without their salaries during a period of from two to three months in each biennial period.

The absolute necessity for continuing the employment of clerks and employes during this period is generally recognized, and it has been the practice to continue the employment of such clerks without any authority of law. trusting to the Legislature to make provision in the short appropriation bill.

I would recommend, therefore, that such legislation be enacted as will provide for the employment of necessary clerks and employes in the several departments of State, and fix their salaries in such manner as to make them continuing appropriations. This would do away with the short appropriation bill.

OIL INSPECTOR.

It was supposed that in the passage of House Bill 351 on page 533 of the Session Laws of 1911, that this act would effect a change in this department, through which the Inspector and Deputies would be paid a straight salary and the fee system abolished.

Due to the fact that the Legislature did not confirm Mr. Street's appointment by the Governor, the Inspector held over until his successor should qualify, and retained as his compensation the fees collected.

The Legislature should not fail to confirm the appointment to this office at the next session, thereby saving in the neighborhood of \$5,000.00 a year to the State. The Attorney General's opinion regarding this matter will be found on page 140 of the Public Examiner's Report of 1911.

REVISED STATUTES.

Immediately after the session of the Nineteenth General Assembly, there should be compiled a volume entitled "The Revised Statutes of 1913" and legislation should be enacted naming the proper board to supervise this work, and providing for the expense attached thereto. In this connection will state that the utmost precaution should be taken in eliminating laws that have been repealed. In printing "The Session Laws of 1908" many acts were included, which long before the compilation of that volume, had been killed. As far as possible this should be avoided.

RECOMMENDATIONS.

BOND OF STATE OFFICERS AND APPOINTEES.

It is required by law that many of the state officers and their appointees furnish indemnity bonds to the state, as a guarantee for the faithful performance of their duties, or, in the case of those handling state moneys, against defalcations, etc. In most cases surety company bonds are required, and with few exceptions the premiums on such bonds are paid from the pockets of the individuals, no provision of law having been made whereby the state may bear this expense.

A few of these bonds required run over the hundred-thousand mark and necessitate the payment of large premiums.

The bond of State Treasurer is \$1,000,000, and, if furnished by a surety company, would require the payment of a premium of \$2,500 yearly—approximately 40 per cent of that officer's salary.

I regard the giving of personal bonds in many instances as inimical and detrimental to the public service, in that many officers are frequently compelled to place themselves under obligations to the persons becoming sureties upon the bonds, and sometimes the obligations are of such a character as to give to third parties undue influence and control over the disposition and custody of the moneys indemnified.

Another advantage derived from the bonds of surety companies is that, in case of defalcations, indemnity is generally made with promptness; whereas individual sureties sometimes resist payment as long as possible, hoping thereby to escape it altogether or to force some beneficial compromise.

In view of the foregoing, I recommend that an act be passed by the General Assembly providing that surety bonds be given by all persons from whom bonds are required under the law, and that a sufficient appropriation be made in each instance to pay the premium upon such bonds.

Such a law, when enacted, would enable the state and its officers to exercise full control and direction over the deposit and custody of public moneys—which, under present conditions, is sometimes impossible—and would, I believe, result in the securing of higher rates of interest on deposits.

In my opinion, such an increase on interest earnings would more than cover the entire cost of the premiums, which in the aggregate is estimated closely at \$5,561.50 per annum, or \$11,123.00 for the biennial period.

There follows a statement showing the state officers and their appointees from whom bonds are required by law, the amount of such bonds, and the cost of premiums thereon.

To carry out this provision, there should be included in the long appropriation bill an amount of \$12,000, or so much thereof as may be necessary, to provide for the premiums for the years 1913 and 1914 on the bonds required by law, of such state officers, their deputies and employes, as shall give bond with corporate surety.

EXPLANITORY NOTE—This income includes only such part of the 4 mill state tax levy as may properly apply in defraying the salary and expense of the Executive, Judicial and Legislative Departments, penal institutions, miscellaneous appropriations, etc. It does not include that part of the tax levy specifically set aside for the maintenance of the Educational Institutions, Insane Asylum, Capitol Building, Stock Inspection, Interest on Funding Bonds,

Total

the income of this General Fund is the revenue from all sources which can be appropriated by the Legislature.

The attention of members of the Legislature is called to the total estimated income in the fund, as appropriations in excess of this figure will in all probability not be satisfied. This is mentioned, to avoid, if possible, the dissatisfaction arising through overappropriating.

ESTIMATED NECESSARY EXPENDITURES

MAINTENANCE ONLY

FROM THE GENERAL REVENUE FOR THE YEARS 1913 AND 1914.

Long Appropriation Bill, salaries and expenses, etc., 1911 and 1912—

Report of the

Bureau of Building and Loan Associations

of the State of Colorado

Report of the

Bureau of Building and Loan Associations

of the State of Colorado

To His Excellency

JOHN F. SHAFROTH,

Governor of the State of Colorado.

Sir: It is particularly important that legislation be enacted at the session of the Nineteenth General Assembly to better protect the interest of the investing public with respect to building and loan associations, and other concerns doing business along this line.

While legitimate building and loan associations are a good thing, and offer relief to many home-seekers of small means, there have operated in this state contract loan companies, contract investment companies, home companies, etc.—largely foreign corporations, which impose an unfair competition on the legitimate building and loan concerns, and injure the general tone of business.

Such concerns as the Standard Home Company, the Standard Home Realty Company, the Equitable Loan and Investment Company, the National Loan and Realty Company, and the United States Guaranty Contract Company at the beginning of this administration were all doing business in this state as building and loan associations, but took the position with this department that they did not come under the laws governing, in this state, building and loan associations. The laws should be reconstructed so as either to exclude concerns operating in this way from doing business in the state, or else to compel them to comply with the building and loan laws.

Certain of these companies take advantage of the popularity of building and loan associations, and draw their contracts, applications, and agreements in such form as to mislead the public into the belief that they are in reality building and loan associations, at the same time claiming to the various state departments throughout the United States that they are not building and loan associations. As a consequence, we find that in a great many states of the Union they are operating in the same unsatisfactory manner as in Colorado. Many of the more conservative states have passed very stringent, and in many cases prohibitory, laws to govern these institutions.

While, as heretofore indicated, the building and loan associations proper have quite generally come within the law governing such institutions, we recognize many defects in the law itself, especially in respect to withdrawals, management, and expenses permitted to associations generally. We would recommend that all laws on this subject receive the careful attention of the incoming administration, and that the same be modernized and brought down to present-day requirements in every detail.

We would recommend that in such law greater authority be given to the inspector, prescribing rules governing the management of associations generally, as well as directing the manner and mode of keeping books, etc., and that the cumbersome method at present provided for reaching insolvent or other associations violating the law should be amended in such way as to place the authority directly into the hands of the Bureau of Building and Loan Associations.

This department made certain recommendations along these lines at the last session of the legislature, and a bill was also introduced covering to a considerable extent these questions. However, the bill did not pass, and we would suggest that the matter be taken up thoroughly at the next session of the General Assembly. There are many defects in the present law, the correction of which would not only benefit the legitimate building and loan associations themselves, but also protect the members from absolute hardships.

Immediately following this letter will be found a list of suggestions for changes in the present laws governing building and loan associations, which, in the interest of the public, should be made a basis for legislative action at

the next session of the legislature.

Upon the recommendation of this department, the Attorney General caused one concern, the Continental Building and Loan Savings Association, to be placed in the hands of a receiver, on the grounds of insolvency and misconduct in the administration of the company's affairs. There follow in the succeeding pages, in respect to this concern, the financial statement of the building and loan inspector, the report of the receiver, T. J. Lyons, to the court, and a transcript of the court order making a final disposition of the case. The following concerns within the last two years were forced to discontinue business in this state:

Equitable Loan Investment Company; National Loan and Realty Company; Standard Home and Realty Company;

and litigation is now pending against the Standard Home Company.

There are now forty-two building and loan associations coming within the jurisdiction of this department. An extract from the reports of these associations to this department, covering the six-months' period immediately preceding June 30, 1912, is embraced in this report.

This department has collected and turned into the state treasury \$3,167.25

in fees during the biennial period ending November 30, 1912.

The specal laws governing building and loan associations are embraced in sections 950-974, inclusive, of the Revised Statutes of Colorado, 1908.

Respectfully submitted,

M. A. LEDDY, Auditor of State;

Ex-officio Inspector of Building and Loan Associations.

E. G. CORAY, Deputy.

STATE TEACHERS
COLLEGE OF COLORADO
Greeley, Colo.

SUGGESTIONS FOR CHANGES IN THE LAW RELATIVE TO BUILDING AND LOAN ASSOCIATIONS

First—Section 963 of the Revised Statutes of Colorado, 1908, relative to the appointment of a receiver for building and loan associations upon the application of the Attorney General, should be amended to authorize the Attorney General to act upon information furnished by the inspector of building and loan associations, as well as upon complaints by stockholders or contract-holders.

This section also should be amended to authorize the Attorney General to secure the appointment of a receiver, without notice to the defendant company, upon the affidavit of anyone acquainted with the facts, and when it is shown that an emergency exists necessitating such action.

Second—Section 973 of the Revised Statutes of Colorado, 1908, should be amended to eliminate the thirty (30) day notice to the directors of the association before the building and loan inspector can apply to the Attorney General for investigation and action against any association acting in an illegal manner.

The section should further be amended to give the inspector greater and more definite powers of investigation, and to make the section in harmony with section 963 as amended, according to the foregoing suggestion No. 1.

Third—Section 965 of the Revised Statutes of Colorado, 1908, should be amended to require foreign building and loan associations to deposit with the State Auditor a certain amount of securities, in order to protect Colorado investors in case of the mismanagement or wrongdoing on the part of the officers of these companies.

Fourth—The laws relative to building and loan associations should be so amended, or additional laws passed, to the effect that all companies selling bonds and contracts, and doing a business similar to that of building and loan associations, shall be placed under the supervision and control of the building and loan inspector, the same as is provided for regular building and loan associations.

A law which would be of much greater benefit to the people of Colorado would be one absolutely prohibiting foreign corporations from selling bonds and contracts in this state of the character of those sold by the Standard Real Estate and Loan Company, which company went into bankruptcy in the summer of 1912.

This company carried on a business practically identical with that done by building and loan associations.

As the law now stands, there is very little or no protection for investors against the mismanagement of the officials, or their wilful wrecking of the company.

Fifth—Section 971 of the Revised Statutes of Colorado, 1908, should be amended, particularly as to the sixth (6th) paragraph of that section, to the effect that the words "net dues" should be stricken out, and the report be required to show the total payments received by the company or its agents on outstanding stock; and, further, that the report be required to show all insurance premiums, membership fees, and withdrawal fees paid.

Sixth—The law relative to building and loan associations should be so amended as to require that every agent of such association must first obtain a license from the building and loan inspector before soliciting any business, and authorizing the cancellation of such license by the building and loan inspector upon information showing that any agent is making misrepresentations to prospective investors relative to the character of the business of the company, the character of its contracts, or its methods of doing business. The law should also provide a penalty, making it a criminal offense for any agent to make any such misrepresentations.

Seventh—Section 952 of the Revised Statutes of Colorado, 1908, should be amended to specifically authorize the right of withdrawal to members of building and loan associations after a certain number of monthly payments and upon a certain number of days' notice, to be specified in the statute.

Eighth—Officers and directors of building and loan associations should be prohibited from being compensated for their services through commissions on the sale of shares of stock, or contracts of the association. Their compensation should come only by way of a definite, fixed salary.

Ninth—The law should be amended so as to prohibit the same person from acting both as an officer and a director of any one association during

the same period of time.

Tenth—As the law now stands, building and loan associations doing a state-wide business require all applicants for shares of stock to anthorize one or more of the officers of the association to vote their proxies at all stockholders' meetings at which the stockholder himself is absent. As most stockholders are persons of small means and live considerable distances from the home office of the association, they very seldom, if ever, attend a stockholders' meeting, and the officers of certain companies have used this condition to their own financial benefit and to the disadvantage of the interest of the stockholders.

The law should be amended in some way to prevent the abuse of the use of proxies by the officers of these companies.

Several methods for this purpose might be devised, any one of which

would be satisfactory to stockholders and greatly to their benefit.

Eleventh—The laws should be so amended as to prohibit building and loan associations from deducting more than six (6) monthly payments on each certificate or contract, for the purpose of paying commissions to agents, and the number of monthly payments to be deducted for this purpose should appear plainly upon every certificate of stock, or contract issued, in order that the investor may understand perfectly the situation.

Heretofore some companies have deducted ten (10), twelve (12), and even fifteen (15) monthly payments before any money from the investor went into the funds of the company for the purpose of making any earnings for the investor, and generally these payments are deducted without any knowledge thereof on the part of the investor, and apparently in contradiction of the cleverly worded advertisements, by-laws, and general literature of the company.

REPORT OF EXAMINATION MADE BY THE INSPECTOR OF BUILDING AND LOAN ASSOCIATIONS OF THE STATE OF COLORADO. OF THE CONTINENTAL BUILDING AND LOAN SAVINGS ASSOCIATION, FOR THE PERIOD FROM JULY, 1904, TO DECEMBER 31, 1911.

STATEMENT OF RECEIPTS AND DISBURSEMENTS, RECEIPTS.

members, transfers from general fund, transfer fees, fines, etc.)	23, 941.17	
Total		\$262, 866.59

By direction of the court, in which I was appointed receiver of the abovenamed company, I send you this statement, and request that you will carefully examine the same and write me whether you prefer that the said corporation be closed and its assets distributed to its stockholders, or that the company be reorganized and continue in business. The question to be determined is whether it is better for the stockholders to take each his portion of the assets, or to go on and endeavor to make good the deficit, which, by the above report, appears to be \$104,226.79, and such profits as might thereafter be made. It will be understood, of course, that as the funds of the company are to a considerable extent loaned on mortgages, the liquidation of the stock will take considerable time.

It is desired that the stockholders answer this question personally, and not by proxy. The fact that a proxy has been given need not be considered in determining this question. Please answer on inclosed card. All answers, to be considered, must be received by July 22, 1912.

Yours truly,

T. M. LYONS, Receiver.

DISTRICT COURT, CITY AND COUNTY OF DENVER.

SECOND JUDICIAL DISTRICT.

State of Colorado, City and County of Denver, ss.

Pleas in the District Court of the City and County of Denver, State of Colorado, in the Fourth Division thereof, before the Hon. James H. Teller, one of the Judges of the Second Judicial District of the said State, at a term thereof begun and held at the Court House in Denver, in said County, on the second Tuesday (it being the 9th day) of April, A. D. One Thousand Nine Hundred and Twelve.

Present:

Hon. James H. Teller, one of the Judges of the District Court.

Willis V. Elliott, Esq., District Attorney of said District.

D. M. Sullivan, Esq., Sheriff of said County.

Perry A. Clay, Esq., Clerk of said Court.

Be it remembered, that heretofore and on to-wit the 4th day of September, A. D. 1912, the same being one of the regular juridical days of the April Term, 1912, of said court, the following proceedings, *inter alia*, were had and entered of record in said court, to-wit:

No. 53094.

The People of the State of Colorado, ex rel. Benjamin Griffith, Attorney General.

vs.

The Continental Building & Loan Savings Association, a Corporation, and M. Crabbe, P. A. Westrope and Henry Howard, Jr., as Directors of the Said Corporation.

FOR RECEIVER.

Now on this day comes the plaintiff herein, by Benjamin Griffith, Attorney General, their attorney, and the defendant Company, and the defendants M. Crabbe and P. A. Westrope, by their attorneys, N. Walter Dixon and C. F. Clay, and, it appearing to the Court that no relief is asked for in the complaint herein against the individuals M. Crabbe and P. A. Westrope, upon motion of their attorneys, the cause is dsmissed as to each of them, and the cause coming on further to be heard upon a report of the Receiver heretofore appointed herein, and the Court having examined and considered the affairs of the defendant Company, the manner of conducting its business, and its financial condition, and being fully advised in the premises, and the attorneys for the defendant Company consenting thereto, the Court finds that the defendant, the Continental Building & Loan Savings Association, during the time of its operations from its incorporation to and until the appointment of the Receiver herein, and did conduct its business in an unsafe and unauthorized manner, and was jeopardizing, and did jeopardize, its members, and that it was, and is, unsafe for such Association to transact business.

Therefore, it is ordered and decreed that the appointment of the Receiver, Thomas M. Lyons, be, and the same is hereby confirmed and made permanent, and he is hereby ordered and directed to at once proceed with all reasonable dispatch, to collect all the assets of the said Association, of whatever kind and nature, and, after paying all costs of this proceeding, distribute the pro-

ceeds thereof to the Stockholders entitled thereto, in such proportion, and upon such basis as may be ordered by this Court, upon report of the Receiver that he has collected the assets of said Association, and is ready to make distribution thereof, and, it is further Ordered and Decreed that upon the distribution of the assets of said Association, that the franchise thereof be forfeited and the Company dissolved.

JAMES H. TELLER,

Judge.

State of Colorado, City and County of Denver, ss.

I. Perry A. Clay, Clerk of the District Court of the City and County of Denver, State aforesaid, do hereby certify the above and foregoing to be a true, complete and perfect transcript and copy of Order of Court had and entered of record in a certain cause in said Court lately depending, wherein The People of the State of Colorado, ex rel. Benjamin Griffith, Attorney General, was Plaintiff, and The Continental Building Loan Savings Association, et al., were Defendants, as the same now remains on file and of record in this office.

Witness my hand and seal of said Court, at the Court House in Denver,

County and State aforesaid, this 6th day of September, A. D. 1912.

PERRY A. CLAY,

Clerk.

H. W. PROUTY,
Deputy Clerk.

[Seal]
