Pursuant to the authority vested in the Governor of the State of Colorado and, in particular, pursuant to Article IV, Section 2 of the Colorado Constitution and the relevant portions of the Colorado Disaster Emergency Act, C.R.S. § 24-33.5-701 *et seq.*, I, Jared Polis, Governor of the State of Colorado, issue this coronavirus disease 2019 (COVID-19) Executive Order amending and extending Executive Order D 2021 122, as amended and extended by D 2021 124, D 2021 125, D 2021 129, D 2021 132, D 2021 136, D 2021 139, D 2021 141, D 2022 003, D 2022 010, D 2022 013, D 2022 017, D 2022 020, D 2022 028, D 2022 035, and D 2022 037, which refocuses the State's efforts on recovery to maximize federal benefits.

#### **I. Background and Purpose**

The Governor is responsible for meeting the dangers to the State and people presented by disasters. C.R.S. § 24-33.5-704(1). The Colorado Disaster Emergency Act (Act) defines a disaster as “the occurrence or imminent threat of widespread or severe damage, injury, or loss of life or property resulting from any natural cause or cause of human origin, including but not limited to . . . epidemic.” C.R.S. § 24-33.5-703(3). The threat posed by COVID-19, a respiratory illness that can spread from person to person, constitutes a disaster for purposes of the Act. The Governor has authority to take any action “in prevention of, preparation for, response to, and recovery from disasters.” C.R.S. § 24-33.5-702(1)(d). For purposes of the Act, recovery is “the short, intermediate, and long-term actions taken to restore community functions, services, vital resources, facilities, programs, continuity of local government services and functions, and infrastructure to the affected area.” C.R.S. § 24-33.5-703(7.3).

We have lost more than 13,900 Coloradans to COVID-19. Hundreds of thousands of Coloradans have become ill, and our healthcare professionals continue to work tirelessly to ensure that COVID-19 patients are treated with the best medical care we can offer. This pandemic has required extraordinary sacrifices from each and every resident of our State. I thank all Coloradans for rising to meet this moment in world history. Every aspect of our lives has changed, but despite the enormous challenges, we undertook these actions to protect ourselves, our friends, our families, and our community.

The State has made tremendous progress in terms of containing and treating infection and distributing the COVID-19 vaccine. More than seventy-nine percent of all Coloradans have now received at least one dose of the lifesaving COVID-19 vaccine.

On July 8, 2021, I rescinded all previous Executive Orders issued due to COVID-19 and amended Executive Order D 2021 122 to focus only on those measures related to the State's recovery from the COVID-19 pandemic emergency. Executive Order D 2021 122, as amended and extended, serves to reduce paperwork, further refocus our efforts on recovery, facilitate administration of the lifesaving COVID-19 vaccine, ensure that our healthcare facilities have sufficient resources to treat COVID-19 patients, improve our economic recovery, maintain access to additional federal funding, and continue the State's disaster declaration and essential directives for response and continuity of State government. Together, these directives ensure agency access to State and federal funding, enable the State to continue COVID-19 response and recovery activities, and ensure the State can execute rapid procurement processes when needed to respond to the changing COVID-19 environment due to variants and stressors on our health care system.

This Executive Order amends and extends Executive Orders D 2021 122, D 2021 124, D 2021 125, D 2021 129, D 2021 132, D 2021 136, D 2021 139, D 2021 141, D 2022 003, D 2022 010, D 2022 013, D 2022 017, D 2022 020, D 2022 028, D 2022 035, and D 2022 037. The amendments remove provisions relating to collection of annual enrollment fees for Children's Basic Health Plan enrollees, statutory definitions of direct and indirect health care services costs, and vaccine administration, which are no longer needed.

The remaining provisions in this Executive Order relate to the scope of practice for licensed healthcare professionals with the goal of helping healthcare facilities have adequate staffing, Medicaid provisions that are necessary for the State to access supplemental Medicaid funding from the federal government, funding provisions that allocate emergency funds to state agencies to continue responding to COVID-19, and the memorialization of the original disaster declaration relating to COVID-19.
