

## Discussion of General Fund Overview Tables

Table 4 in the Appendix of the Colorado Outlook presents the General Fund Overview, providing details on forecasts for available General Fund money, expenditures, and end-of-year-reserves under the Governor’s November budget request. The following discusses the information presented in Table 4 based on the most recent forecast. A discussion of the General Fund overview incorporating information on the State Education Fund follows this section.

### Revenue

The top portion of the overview, shown in Figure 1, indicates the amount of General Fund money available for spending. In addition to General Fund revenue, the General Fund receives money transferred from other State funds each fiscal year.

Line 4 of the table includes proposed transfers of money both into and out of the General Fund in the Governor’s November budget request. The FY 2017-18 amount is the transfer of \$2.1 million cash funds from the Marijuana Tax Cash Fund to the General Fund. For FY 2018-19, there are four requested transfers that reduce a combined \$13.2 million General Fund. These General Fund transfers include the following: a reduction of \$12.5 million for a General Fund transfer into the Disaster Emergency Fund, a transfer of \$305,000 General Fund to the Pay for Success Contract Fund created in HB15-1317, a transfer of \$250,000 General Fund for Cyber Security Grants, and a transfer of \$175,000 General Fund to the OEDIT Advanced Industries Export Acceleration Cash Fund.

### Expenditures

**Spending subject to the appropriations limit** – The middle portion of the General Fund overview in Table 4 shows General Fund spending. Each year, by statute, total General Fund spending, with certain exceptions, cannot exceed 5 percent of the aggregate level of personal income received by Coloradans. The amount of General Fund appropriations, shown in line 6 of Figure 2, must be below this limit. In FY 2017-18, General Fund appropriations are \$10.5 billion, or about \$3.6 billion below the \$14.1 billion limit. The General Fund appropriation amounts for FY 2017-18 and FY 2018-19 reflect the Governor’s November Budget Request.

**Line 10:** Spending not subject to the limit includes any TABOR refunds funded by the General Fund, which occur when State revenue exceeds its cap as defined in Article X, Section 20 (7) of the Colorado Constitution (“TABOR”) and Section 24-77-103.6, C.R.S. (“Referendum C”). If a TABOR refund is expected during the forecast period, this amount will be shown in line 10.

**Line 11:** “Rebates and Expenditures” account for a large portion of General Fund spending not subject to the appropriations limit. The primary programs under rebates and expenditures are: (1) the Cigarette Rebate, which distributes money from a portion of State cigarette tax collections to local governments that do not impose their own taxes or fees on cigarettes; (2) the Marijuana Rebate, which distributed 15 percent of the retail marijuana sales tax through FY 2016-17 and 10 percent thereafter to local governments based on the percentage of retail marijuana sales in local areas; (3) the Old-Age Pension program, which provides assistance to low-income elderly individuals who meet certain eligibility requirements; (4) the Aged Property Tax, Heat, and Rent

Credit, which provides property tax, heating bill, and rent assistance to qualifying low-income, disabled, or elderly individuals; and (5) the Homestead Property Tax Exemption, which reduces property-tax liabilities for qualifying seniors and disabled veterans.

**Lines 12 and 13:** Transfers to transportation (Highway Users Tax Fund) and a portion of the transfers to capital construction (Capital Construction Fund) are shown in lines 12 and 13. Historically, these were known as “228” transfers because they were put into law by SB 09-228. However, SB 17-267 eliminated the scheduled transfers to the HUTF starting with FY 2018-19. In addition to the 228 transfers, the capital construction transfer amounts shown in line 12 include other transfers of General Fund money.

The FY 2017-18 capital construction transfer represents the amount under current law, plus \$3.5 million for additional funding for projects set aside in the Governor’s budget request. The \$117.0 million transfer for FY 2018-19 represents the Governor’s November Budget General Fund request for capital construction projects.

**Line 14:** Senate Bill 13-234 requires annual General Fund transfers to the State Education Fund from FY 2013-14 through FY 2018-19. The transfer is \$25.3 million for FY 2017-18 and \$25.0 million for FY 2018-19.

**Line 15:** State law requires transfers of General Fund money to various other State cash funds. Generally, the largest transfer in this line is money from the special sales tax on retail marijuana that is credited to the General Fund. SB 17-267 modified the distribution of the revenue from the special sales tax on retail marijuana. Starting with FY 2017-18, in addition to being distributed to the Marijuana Tax Cash Fund and local governments, a portion will go to the State Public School Fund and a portion will remain in the General Fund.

**Line 19:** This line includes any General Fund money that was not expended out of appropriations each fiscal year that was “reverted” back to the General Fund. It also includes various accounting adjustments made by the State Controller’s office each year. The FY 2016-17 amount in this line is an atypically large amount, mostly due to a large reversion of Medicaid-related dollars that is expected to be partly reversed in FY 2017-18.

## **Reserves**

The final section of the General Fund Overview Table (“Reserves”) shows the amount of General Fund money remaining at the end of each fiscal year — the “Year-End General Fund Balance.” This amount reflects the difference between total funds available and total expenditures. The section shows the statutorily determined reserve requirement and whether the amount of funds is above or below the requirement, titled, “Money Above/Below Statutory Reserve.”

The required reserve was 6.0 percent of appropriations for FY 2016-17 and is 6.5 percent for FY 2017-18. The Governor’s November budget request raises the reserve to 7.0 for FY 2018-19 and subsequent years. If the ending balance is projected to be less than half of the required reserve, then the Governor is required to take budget-balancing actions.

**Figure 4. General Fund Reserves under the Governor’s November Budget Request, \$ in Millions**

Table 4 Line No.		FY 2016-17	FY 2017-18	FY 2018-19
20	Year-End General Fund Balance	\$614.4	\$784.5	\$1,046.7
21	Balance as a % of Appropriations	6.3%	7.5%	9.6%

23	Money Above/Below Statutory Reserve	\$30.1	\$104.2	\$289.0

**State Education Fund Overview**

Figure 5 summarizes State Education Fund annual revenue and spending. It also includes projected beginning and ending fund balances. The State Education Fund plays an important role in the State’s General Fund budget. Under the state constitution, the State Education Fund helps fund preschool through 12th-grade education, the largest General Fund program. Therefore, higher or lower spending from the State Education Fund affects General Fund appropriations in order to support the targeted level of school funding. Decisions in one year affect the range of choices in the next year because they impact the available balance in the State Education Fund for future spending and General Fund availability for other programs.

*\*FY 2017-18 appropriations reflect current law and FY 2018-19 appropriations represent the Governor’s November 2017 budget request. The request will be updated in January to reflect new information on local school property tax revenue and student enrollment. Actual expenditures for FY 2016-17 were less than the appropriated amount shown above.*

Table 5 in the Appendix of the Colorado Outlook incorporates all of the same information from the General Fund overview (Table 4), but also includes spending, revenue, and fund-balance information for the State Education Fund under the Governor’s November budget request. Given the budget implications of the balance of funding between the State Education Fund and General Fund, a unified and multi-year view provides important insight into the sustainability of budgeting decisions.
