

Discussion of General Fund Overview Tables

Table 4 in the Appendix of the Colorado Outlook presents the General Fund Overview, providing details on forecasts for available General Fund money, expenditures, and end-of-year-reserves. The following discusses the information presented in Table 4 based on the most recent forecast. A discussion of the General Fund overview incorporating information on the State Education Fund follows this section.

Revenue

The top portion of the overview, shown in Figure 1, indicates the amount of General Fund money available for spending. In addition to General Fund revenue, the General Fund receives money transferred from other State funds each fiscal year.

	<i>Percent Change from Prior Year</i>	1.4%	14.0%	8.0%

Expenditures

Spending subject to the appropriations limit – The middle portion of the General Fund overview in Table 4 shows General Fund spending. Each year, by statute, total General Fund spending, with certain exceptions discussed in the next section, cannot exceed 5 percent of the aggregate level of personal income received by Coloradans. The amount of General Fund appropriations, shown in line 5 of Figure 2, must be below this limit. In FY 2017-18, General Fund appropriations are \$10.4 billion, or about \$3.1 billion below the \$14.1 billion limit, while FY 2018-19 appropriations are \$11.2 billion, or \$2.9 billion below the limit.

15	Other	\$1.5	\$0.0	\$0.0	\$0.0
18	Reversions and Accounting Adjustments	-\$205.7	\$0.0	\$0.0	-\$21.3

Line 9: Spending not subject to the limit includes any TABOR refunds funded by the General Fund. These occur when State revenue exceeds its cap as defined in Article X, Section 20 (7) of the Colorado Constitution (“TABOR”) and Section 24-77-103.6, C.R.S. (“Referendum C”). If a TABOR refund is projected during the forecast period, this amount will be shown in line 9. Under the June forecast, TABOR refunds of \$32.2 million are projected for FY 2019-20. This amount includes the projected \$10.8 million exceeding the Referendum C cap in FY 2019-20, plus a net \$21.3 million outstanding from TABOR refund amounts that were obligated in prior fiscal years. The \$21.3 million has been accounted for in prior years in the General Fund overview. Therefore, because the \$21.3 million portion of the FY 2019-20 TABOR refund is not a new obligation, it is shown as an accounting adjustment on line 18 in Table 4. More information on TABOR, Referendum C, and projected refunds is found in the TABOR section in the Colorado Outlook.

Line 10: “Rebates and Expenditures” account for a large portion of General Fund obligations not subject to the appropriations limit. The primary programs under rebates and expenditures are: (1) the Cigarette Rebate, which distributes money from a portion of State cigarette tax collections to local governments that do not impose their own taxes or fees on cigarettes; (2) the Marijuana Rebate, which distributed 15 percent of the retail marijuana sales tax through FY 2016-17 and 10 percent thereafter to local governments based on the percentage of retail marijuana sales in local areas; (3) the Old-Age Pension program, which provides assistance to low-income elderly individuals who meet certain eligibility requirements; (4) the Aged Property Tax, Heat, and Rent Credit, which provides property tax, heating bill, and rent assistance to qualifying low-income, disabled, or elderly individuals; and (5) the Homestead Property Tax Exemption, which reduces property-tax liabilities for qualifying seniors and disabled veterans.

Lines 11 and 12: Transfers to transportation and capital construction are shown in lines 11 and 12. Senate Bill 18-001 resulted in \$495 million in transfers to transportation funds in FY 2018-19 and \$150 million in FY 2019-20. Additional transfers may also occur contingent on potential ballot measures that may go before the voters. HB 18-1340, meanwhile, transferred a total of \$119.2 million into the Capital Construction Fund and the Controlled Maintenance Trust Fund in FY 2018-19, in addition to a previously scheduled \$60.0 million transfer to the Capital Construction Fund in accordance with SB 17-262.

Line 13: Senate Bill 13-234 requires annual General Fund transfers to the State Education Fund from FY 2013-14 through FY 2018-19. The transfer is \$25.3 million for FY 2017-18 and \$25.0 million for FY 2018-19.

Line 14: State law requires transfers of General Fund money to various other State cash funds. Generally, the largest transfer in this line item is from the special sales tax on retail marijuana, which is credited to the General Fund. SB 17-267 modified the distribution of the revenue from the special sales tax on retail marijuana; starting with FY 2017-18, in addition to being distributed to the Marijuana Tax Cash Fund and local governments, a portion will go to the State Public School Fund and a portion will remain in the General Fund.

Line 15: This line includes any expenditures for certain programs that have exceeded their appropriated amount for a fiscal year, called “overexpenditures.”

Line 18: This line includes any General Fund money that was not expended out of appropriations each fiscal year that was “reverted” back to the General Fund. It also includes various accounting adjustments made by the State Controller’s office each year. The FY 2016-17 amount in this line is an atypically large amount, mostly due to a large reversion of Medicaid-related dollars. For FY 2019-20, the -\$21.3 million adjustment accounts for TABOR refund amounts that were already obligated in prior fiscal years as discussed above and in the TABOR section of the Colorado Outlook.

Reserves

The final section of the General Fund Overview Table (“Reserves”) shows the amount of General Fund money remaining at the end of each fiscal year — the “Year-End General Fund Balance.” This amount reflects the difference between total funds available and total expenditures. The section shows the statutorily determined reserve requirement and whether the ending balance is above or below the requirement, titled, “Money Above/Below Statutory Reserve.”

The required reserve was 6.0 percent of appropriations for FY 2016-17 and is 6.5 percent for FY 2017-18. SB 18-276 raised the reserve to 7.25 percent for FY 2018-19 and subsequent years. If the ending balance is projected to be less than half of the required reserve, then the Governor is required to take budget-balancing actions.

19	Year-End General Fund Balance	\$614.5	\$1,211.6	\$943.8
20	Balance as a % of Appropriations	6.3%	11.7%	8.4%

State Education Fund Overview

Figure 5 summarizes State Education Fund annual revenue and spending. It also includes projected beginning and ending fund balances. The State Education Fund plays an important role in the State’s General Fund budget. Under the state constitution, the State Education Fund helps fund preschool through 12th-grade education, the largest General Fund program. Therefore, higher or lower spending from the State Education Fund affects General Fund appropriations in order to support the targeted level of school funding. Decisions

in one year affect the range of choices in the next year because they impact the available balance in the State Education Fund for future spending and General Fund availability for other programs.

**Actual expenditures for FY 2016-17 were less than the appropriated amount shown above.*

Table 5 in the Appendix of the Colorado Outlook incorporates all of the same information from the General Fund overview (Table 4), but also includes spending, revenue, and fund-balance information for the State Education Fund. Given the budgetary implications of the balance of funding between the State Education Fund and the General Fund, a unified and multi-year view provides important insight into the sustainability of budgeting decisions.
