NEW INFORMATION INCLUDED IN THE FY 2011-12 BRIEFING DOCUMENTS

Comparison Graphs of FY 2000-01 and FY 2010-11 Appropriations

The Joint Budget Committee (JBC) staff is including two new graphs in each department's FY 2011-12 Budget Briefing document this year. These graphs will be a comparison of FY 2000-01 appropriations to FY 2010-11 appropriations. The new graphs will follow the department summary charts at the beginning of each briefing document.

Why the JBC staff is making this comparison: These graphs are an attampt to help the JBC members understand how appropriations at the department level by fund source have changed over the past 10 years. As such, the first graph will include a comparison of the total annual operating appropriation by fund source for FY 2000-01 (adjusted by consumer price index) as compared to the the total annual operating appropriation for FY 2010-11. The second graph will include the same comparison except both fiscal years will be further adjusted by Colorado population to reflect a per capita comparison of the two fiscal years.

Methodology JBC staff used to make the comparison: The JBC staff utilized the following methodology in preparation of these graphs:

- Funding Sources: The graphs reflect three categories of funding; General Fund, other state funds, and federal funds. In an attempt to give the JBC a better understanding of the true level of appropriations, JBC staff attempted to eliminate duplications of cash spending authority from the graphs in the comparsion of other state funds. This was done by eliminating all of the transfers from one line item of appropriation to another in FY 2000-01 and the reappropriated funds from the appropriation in FY 2010-11. These duplicative appropriations are merely used to show how services purchased from, or transferred to, one agency by another impact both agencies. Therefore, JBC staff has made an effort to eliminate the duplications from the graphs. Because of this, departments that primarily sell services to other agencies (Department of Personnel and Administration, Department of Law, etc.) and departments with large transfers of moneys from one agency to another (Department of Health Care Policy and Finance, Department of Higher Education, etc.) may reflect much lower total appropriations than JBC members are accustomed to seeing.
- Consumer Price Index (CPI) Adjustment: In an effort to help the JBC compare the numbers in a like fashion, JBC staff has adjusted the FY 2000-01 appropriation by the average Denver-Boulder-Greeley CPI from 2000 through 2010. This measure of CPI was chosen based on its inclusion as an allowable rate of growth in the provisions of the Taxpayer's Bill of Rights (TABOR). The CPI adjustment is only meant to reflect the allowable level of growth for a given year, not to imply that a given department should have grown at the rate of CPI. Each department is impacted by numerous variables that result in growth at a rate higher or lower than actual CPI over time.

10-Nov-10 1 ALL-brf

- Population Adjustment: Similar to growth for CPI, TABOR permits growth based on population change. In an effort to demonstrate each department's appropriation based on population, the total appropriations were divided by the level of the Colorado population for each of the given years that are being presented. This calculation results in a per capita level of appropriation for both fiscal years. Please note that the same caveats exist based on a per capita adjustment that were discussed for the CPI calculation in the previous paragraph. The adjustments based on both CPI and population are merely meant to help the JBC understand the actual rate of growth as compared to the allowable rate of growth, not to imply that a given department should have grown at the rate of either CPI or Colorado's population.
- > Timeframe: The ten year timeframe was chosen for two reasons. First, it is a somewhat symmetrical timeframe. Second, ten years compares just prior to the first economic downturn during the 2000s to the point where the State is today, in the midst of the second economic downturn.

Additional Common Issue to be Included in the Briefing Document

In addition to the comparison graphs at the beginning of the document, JBC staff will prepare a common issue for each department that outlines the **major** actions that the General Assembly has taken over the past three sessions to deal with the most recent economic downturn. This issue will not include the entire ten year time frame that is reflected in the graphs at the front of the briefing document. It will only focus on the most recent economic downturn.

COMPARISON OF FY 2000-01 AND FY 2010-11 APPROPRIATIONS

The following discussion of the comparison of FY 2000-01 and FY 2010-11 appropriations was done based on the amounts appropriated for each of those fiscal years *less* duplicative appropriations. Therefore, the FY 2010-11 appropriations will not match exactly the total appropriations shown in the FY 2010-11 Appropriation Report that was published last July. The difference is the removal of the reappropriated funds from the total numbers. This comparison is designed to assist the JBC in understanding the overall view of the change in appropriations, not provide specific details about department changes. The purpose of this comparison is to understand the bigger picture of State appropriations in the two years that are being compared.

Comparison of FY 2010-11 to FY 2000-01

Appropriations Not Adjusted for CPI or Population: The total state appropriations, not adjusted for CPI or population, were \$11,511.6 million in FY 2000-01 as compared to \$18,027.5 million in FY 2010-11. This is an increase in total appropriations for the ten year period of \$6,515.9 million (56.6 percent increase). All sources of appropriation grew during the ten year period. The General Fund appropriation increased by \$1,565.5 million (29.0 percent increase), the other state funds appropriation increased by \$2,359.3 million (68.7 percent increase), and the federal funds appropriation increased by \$2,591.1 million (96.7 percent increase).

FY 2000-01 Appropriations Adjusted for CPI: Total appropriations for FY 2000-01, adjusted by CPI to bring the dollar amounts to a comparable 2010 level, are equal to \$14,038.3 million as compared to \$18,027.5 million in FY 2010-11. This is an increase of \$3,989.2 million (28.4 percent increase). Adjusting the FY 2000-01 appropriations only for CPI still results in all sources of appropriations growing between FY 2000-01 and FY 2010-11. Adjusted for CPI, the General Fund appropriation increased by \$380.0 million (5.8 percent increase), the other state funds appropriation increased by \$1,606.0 million (38.4 percent increase), and the federal funds appropriation increased by \$2,003.2 million (61.3 percent increase).

FY 2000-01 Appropriations Adjusted for CPI and Both Fiscal Years Adjusted by Population: Total appropriations for FY 2000-01, adjusted by CPI and population to get a per capita amount, are equal to \$3,236 per capita as compared to \$3,493 per capita in FY 2010-11. This is an increase of \$257 per capita (7.9 percent increase). Adjusting for CPI and population result in the per capita rate for General Fund decreasing by \$168 per capita (11.1 percent decrease), other state funds increasing by \$157 per capita (16.3 percent increase), and federal funds increasing by \$268 per capita (35.6 percent increase).

Comparison of Proportional Operating Appropriations: A proportional comparison of the fund sources for FY 2000-01 appropriation to the fund sources for FY 2010-11appropriation indicates the percentage of General fund used to support the total state budget decreased from 47.0 percent of the budget in FY 2000-01 to 39.0 percent of the budget in FY 2010-11 (decrease of 8.0 percent). The percentage of other state funds used to support the total state budget increased from 30.0 percent of

10-Nov-10 3 ALL-brf

the budget in FY 2000-01 to 32.0 percent of the budget in FY 2010-11 (increase of 2.0 percent). The percentage of federal funds used to support the total state budget increased from 23.0 percent of the budget in FY 2000-01 to 29.0 percent of the budget in FY 2010-11 (increase of 6.0 percent). It is important to note that the General Fund portion is lowered and the federal fund portion is increased in FY 2010-11 due to the use of American Recovery and Reinvestment Act (ARRA) moneys to support appropriations during the economic downturn. The ARRA funds are a temporary infusion of federal moneys that will be eliminated at various points in the future. The General Assembly will make future decisions regarding the amount and type of funds, if any, that are used to support programs that are currently being supported by the ARRA moneys. The future General Assembly decisions will impact the proportion of funding sources that are used to support the State's budget.

Comparison by Departments

In order to give the JBC a sense of how the breakdown of departments changed over the ten year period, staff sorted the departments from the highest appropriation to the lowest appropriation based on total appropriations and General Fund appropriations. Once sorted by department, staff looked at the departments that comprised the majority of the total funds and the General Fund.

Total Appropriations (not adjusted for CPI or Inflation), by Department: The following table reflects the top seven departments that comprise the total funds appropriated in both fiscal years.

Total Appropriations by Department (Not Adjusted for CPI or Population)									
Department	FY 2000-01	%	FY 2010-11	%					
Education	2,534,714,162	22.0%	4,315,978,585	23.9%					
HCPF	1,964,452,694	17.1%	4,156,416,221	23.1%					
Higher Education	1,435,332,846	12.5%	2,356,031,749	13.1%					
Human Services	1,624,416,373	14.1%	2,129,941,732	11.8%					
Transportation	1,390,265,450	12.1%	1,027,431,016	5.7%					
Revenue	477,024,306	4.1%	701,501,563	3.9%					
Corrections	452,954,804	3.9%	687,903,928	3.8%					
Remaining 15 Departments	1,631,621,208	14.2%	2,651,497,744	14.7%					
Total Appropriations	11,510,781,843	100.0%	18,026,702,538	100.0%					

Proportionally, over 85.0 percent of the total funds were appropriated to the top seven departments in both fiscal years (85.8 percent in FY 2000-01 and 85.3 percent in FY 2010-11). Five departments (Education, Health Care, Policy, and Finance (HCPF), Higher Education, Human Services, and Transportation) received over 77.0 percent of the appropriations in both fiscal years.

Out of the 22 departments that received total appropriations, 21 departments gained appropriations and one department lost appropriations between FY 2000-01 and FY 2010-11 based on a comparison

of appropriations that have not been adjusted for CPI or population. The following departments had major total appropriation gains:

- ➤ Health Care Policy and Finance gained \$2.2 billion.
- ➤ Education gained \$1.8 billion.
- ➤ Higher Education gained \$920.7 million.
- ➤ Human Services gained \$505.5 million.
- > The average of the 17 remaining departments that gained was \$87.0 million per department.

The Department of Transportation declined in appropriations in this time frame (a decrease of \$362.8 million, 26.1 percent). However, the decrease to Transportation can be misleading given the way in which cash fund spending authority is appropriated to that department. The cash fund spending authority is granted at the time the Long Bill is written based on the estimates of anticipated revenues and is never adjusted to reflect actual levels of cash revenue that are ultimately received. This is done because the Transportation Commission has continuous spending authority over much of moneys received for road projects. Therefore, the Long Bill appropriation is an informational appropriation. If the Department receives more or less funding than was projected, the Transportation Commission can adjust spending accordingly without seeking additional or less spending authority from the General Assembly. In FY 2000-01, Transportation received nearly \$300 million less revenue than was reflected in the Long Bill. The decrease in Transportation spending authority is exaggerated between these two fiscal years because of the comparison of appropriations as opposed to actual revenues or expenditures. That said, the amount reflected in the FY 2010-11 Long Bill remains \$68.1 million below the actual revenue level from FY 2000-01.

Total Appropriations (Adjusted for CPI and Inflation), by Department: The following table reflects the top seven departments that comprise the total funds appropriated (as adjusted for CPI and population) in both fiscal years.

Total Appropriations per Capita by Department (Adjusted for CPI or Population)										
Department FY 2000-01 % FY 2010-11										
Education	712.39	22.0%	836.30	23.9%						
HCPF	552.11	17.1%	805.38	23.1%						
Higher Education	403.40	12.5%	456.52	13.1%						
Human Services	456.55	14.1%	412.72	11.8%						
Transportation	390.74	12.1%	199.08	5.7%						
Revenue	134.31	4.2%	136.09	3.9%						
Corrections	127.30	3.9%	133.29	3.8%						
Remaining 15 Departments	458.58	14.2%	513.79	14.7%						
Total Appropriations	3,235.38	100.0%	3,493.17	100.0%						

Once the fiscal years are adjusted for CPI (FY 2000-01) and population (FY 2000-01 and FY 2010-11), 14 departments gained appropriations and 8 department lost appropriations between FY 2000-01 and FY 2010-11. The following departments had major total appropriation gains:

- ➤ Health Care Policy and Finance gained \$253.27 per capita.
- ➤ Education gained \$123.27 per capita.
- ➤ Higher Education gained \$53.12 per capita.
- ➤ Local Affairs gained \$22.62 per capita.
- > The average of the 10 remaining departments that gained was \$5.62 per department per capita.

The following departments had major total appropriation declines:

- > Transportation declined by \$191.65 per capita.
- ➤ Human Services declined by \$43.83 per capita.
- > Treasury declined by \$8.44 per capita.
- ➤ Labor and Employment declined by \$3.38 per capita.
- > The average of the 4 remaining departments that declined was \$1.02 per department per capita.

General Fund Appropriations (not adjusted for CPI or Inflation), by Department: The following table reflects the top six departments that comprise the General Fund appropriated in both fiscal years.

General Fund Appropriations by Department (Not Adjusted for CPI or Population)									
Department FY 2000-01 % FY 2010-11									
Education	2,161,277,714	40.0%	3,176,663,441	45.6%					
НСРБ	849,347,572	15.7%	1,074,780,176	15.4%					
Human Services	663,729,054	12.3%	797,219,689	11.4%					
Corrections	423,802,942	7.8%	647,180,811	9.3%					
Higher Education	727,632,741	13.5%	644,870,589	9.3%					
Judicial	206,485,128	3.8%	332,423,582	4.8%					
Remaining 15 Departments	368,767,028	6.8%	293,407,157	4.2%					
Total Appropriations	5,401,042,179	100.0%	6,966,545,445	100.0%					

Proportionally, over 93.0 percent of the General Fund was appropriated to the top six departments in both fiscal years (93.2 percent in FY 2000-01 and 95.8 percent in FY 2010-11).

Out of the 19 departments that received General Fund appropriations, 9 departments gained appropriations and 10 department declined in appropriations between FY 2000-01 and FY 2010-11 based on a comparison of General Fund appropriations that have not been adjusted for CPI or population. The following departments had major General Fund appropriation gains:

- ➤ Education gained \$1.0 billion.
- ➤ HCPF gained \$225.4 million.
- ➤ Corrections gained \$223.4 million.
- ➤ Human Services gained \$133.5 million.
- ➤ Judicial gained \$125.9 million.
- > The average of the 4 remaining departments that gained was \$8.1 million per department.

The following departments had major General Fund appropriation declines:

- ➤ Higher Education declined by \$82.8 million.
- ➤ Revenue declined by \$43.4 million.
- > Treasury declined by \$28.6 million.
- ➤ The Governor's Office declined by \$19.4 million.
- > The average of the 6 remaining departments that declined was \$2.7 million per department.

General Fund Appropriations (adjusted for CPI and Inflation), by Department: The following table reflects the top six departments that comprise the General Fund appropriated (as adjusted for CPI and population) in both fiscal years.

General Fund Appropriations per Capita by Department (Adjusted for CPI or Population)									
Department FY 2000-01 % FY 2010-11 %									
Education	607.43	40.0%	615.54	45.6%					
НСРБ	238.71	15.7%	208.26	15.4%					
Human Services	186.54	12.3%	154.48	11.4%					
Corrections	119.11	7.8%	125.40	9.3%					
Higher Education	204.50	13.5%	124.96	9.3%					
Judicial	58.03	3.8%	64.41	4.8%					
Remaining 13 Departments	103.66	6.8%	56.85	4.2%					
Total Appropriations	1,517.98	100.0%	1,349.90	100.0%					

Once the fiscal years are adjusted for CPI (FY 2000-01) and population (FY 2000-01 and FY 2010-11), 3 departments gained appropriations and 16 department declined in General Fund appropriations between FY 2000-01 and FY 2010-11. The following three departments gained in General Fund appropriation per capita:

- ➤ Education gained \$8.11 per capita.
- ➤ Judicial gained \$6.38 per capita.
- ➤ Corrections gained \$6.29 per capita.

The following departments had major appropriation declines in General Fund appropriation per

capita:

- ➤ Higher Education declined by \$79.55 per capita.
- > Human Services declined by \$32.07 per capita.
- > HCPF declined by \$30.45 per capita.
- > Revenue declined by \$18.36 per capita.
- > The average of the 12 remaining departments that declined was \$2.37 per department per capita.

OVERVIEW OF FY 2011-12 REQUEST

Discussion of the FY 2010-11 General Fund Appropriations

The General Assembly appropriated a total of \$6,966.7 million General Fund in FY 2010-11. Within the Long Bill (HB 10-1376), the General Assembly appropriated \$7,533.5 million General Fund. The Long Bill contained General Fund appropriations equal to \$566.8 million (108.1 percent) more than the total General Fund appropriated for FY 2010-11. Other bills passed by the General Assembly reduced the amount of funding in the Long Bill. This was necessary because some of the changes the General Assembly wished to make required changes to existing law that could not be accomplished through the Long Bill. The following is a list of the major actions the General Assembly took that impacted General Fund appropriations:

- ➤ Reduction of \$363.5 million General Fund in the School Finance Act (HB 10-1369) due to changes in the school finance formula.
- A net reduction of \$110.0 million General Fund in the Medicaid program (primarily financing changes in various bills to use cash funds rather than General Fund).
- ➤ Reduction of \$91.7 million General Fund as a result of the temporary suspension of the Senior Property Tax Exemption (SB 10-190).
- ➤ Reduction of \$20.0 million General Fund used to support drivers' license offices in the Department of Revenue (HB 10-1387). The General Fund was refinanced with cash funds on a temporary basis.
- ➤ Reduction of 15.4 million General Fund as a result of the refinance of General Fund for need based aid in Higher Education with cash funds from the CollegeInvest program *HB 10-1383).
- > \$32.2 million General Fund appropriation to the General Assembly in the legislative appropriation bill (HB 10-1367).
- > \$1.6 million General Fund appropriated in various other bills impacting the General Fund.

Distribution of FY 2010-11 General Fund Appropriation in the 2010 Long Bill (HB 10-1376): Given that the Long Bill contains the vast majority of General Fund appropriations, JBC staff reviewed the appropriations in the Long Bill to determine where the majority of General Fund is appropriated. When the line items of the Long Bill are sorted by General Fund, from largest to smallest General Fund appropriation, seven line items contain **70.8** percent of the General Fund appropriated in the Long Bill. These lines are as follows:

> \$3,377.1 million (44.8 percent) of the total General Fund in the Long Bill was appropriated for State Share of Total Funding in the Department of Education. The appropriation for state share

was reduced by \$363.5 million through a change to the factors in the School Finance Act.

- ➤ \$976.1 million (13.0 percent) of the total General Fund in the Long Bill was appropriated for Medical Services Premiums in the Department of Health Care Policy and Finance. Various bills impacted the level of General Fund appropriated to the Department of Health, Care, Policy and Finance resulting in a net reduction in General Fund of \$110.0 million. Also, this Department's General Fund was held artificially low as a result of the enhanced match rate for the Federal Medical Assist Program (FMAP) that was contained in the federal American Reinvestment and Recovery Act (ARRA).
- > \$267.5 million (3.6 percent) of the total General Fund in the Long Bill was appropriated for College Opportunity Fund Stipends in the Department of Higher Education. This amount is lower than historically appropriated due to the use of ARRA funds for this purpose.
- > \$267.8 million (3.6 percent) of the total General Fund in the Long Bill was appropriated for College Opportunity Fund Fee-for-Service in the Department of Higher Education. This amount is lower than historically appropriated due to the use of ARRA funds for this purpose.
- > \$156.9 million (2.1 percent) of the total General Fund in the Long Bill was appropriated for Child Welfare Services in the Department of Human Services.
- > \$155.6 million (2.1 percent) of the total General Fund in the Long Bill was appropriated for Housing and Security Personal Services in the Department of Corrections.
- > \$117.5 million (1.6 percent) of the total General Fund in the Long Bill was appropriated for Medicaid Services for People with Developmental Disabilities in the Department of Health Care, Policy, and Finance.
- > \$2,214.9 million (29.4 percent) of the total General Fund in the Long Bill was appropriated for the remaining **761** General Fund line items in the Long Bill.

Discussion of the FY 2010-11 Cash Funds Appropriations

The General Assembly appropriated a total of \$5,791.5 million cash funds in FY 2010-11. Within the Long Bill (HB 10-1376), the General Assembly appropriated \$5,693.5 million cash funds. The Long Bill contained cash funds appropriations equal to 98.3 percent of the total General Fund appropriated for FY 2010-11.

Distribution of FY 2010-11 Cash Funds Appropriations in the 2010 Long Bill (HB 10-1376): Given that the Long Bill contains the vast majority of cash funds appropriations, JBC staff reviewed the appropriations in the Long Bill to determine where the majority of cash funds are appropriated. When the line items of the Long Bill are sorted by cash funds, from largest to smallest cash funds appropriations, nine line items contain **65.2** percent of the cash funds appropriated in the Long Bill.

These lines are as follows:

- > \$1,533.8 million (26.9 percent) of the total cash funds in the Long Bill were appropriated for the Governing Boards in the Department of Higher Education.
- > \$561.3 million (9.9 percent) of the total cash funds in the Long Bill were appropriated for Transportation Construction, Maintenance, and Operation in the Department of Transportation
- > \$400.3 million (7.0 percent) of the total cash funds in the Long Bill were appropriated for Lottery Prizes in the Department of Revenue.
- > \$386.1 million (6.8 percent) of the total cash funds in the Long Bill were appropriated for Total Program Funding in the Department of Education.
- > \$250.6 million (4.4 percent) of the total cash funds in the Long Bill were appropriated for Medicaid Medical Services Premiums in the Department of Health Care, Policy, and Finance.
- > \$186.8 million (3.3 percent) of the total cash funds in the Long Bill were appropriated for Highway Users Tax Fund (HUTF) Payments to Counties in the Department of Treasury.
- > \$137.9 million (2.4 percent) of the total cash funds in the Long Bill were appropriated for Local Government Mineral and Energy Impact Grants in the Department of Local Affairs.
- > \$130.7 million (2.3 percent) of the total cash funds in the Long Bill were appropriated for HUTF Municipality Payments in the Department of Treasury.
- > \$124.4 million (2.2 percent) of the total cash funds in the Long Bill were appropriated for Safety Net Provider Payments in the Department of Health Care, Policy and Finance.
- > \$1,981.6 million (34.8 percent) of the total cash funds in the Long Bill were appropriated for the remaining **944** General Fund line items in the Long Bill.

Discussion of the FY 2010-11 Federal Funds Appropriations

The General Assembly appropriated a total of \$5,269.5 million federal funds in FY 2010-11. Within the Long Bill (HB 10-1376), the General Assembly appropriated \$5,278.0 million federal funds. The Long Bill contained federal fund appropriations equal to 100.2 percent of the total federal funds appropriated for FY 2010-11. Various other bills in the 2010 session resulted in a net reduction to federal funds of \$8.5 million. Many federal fund appropriations are made by the General Assembly for informational purposes. The following is a list of the major actions the General Assembly took that impacted federal fund appropriations:

> Increase of \$1.7 million federal funds in various bills that impacted the Department of Human

Services.

- ➤ Increase of approximately \$500 thousand federal funds in various bills that impacted the Department of Law and the Office of the Governor.
- A net reduction of \$10.7 million federal funds in various bills that impacted the Department of Health Care, Policy and Finance.

Distribution of FY 2010-11 Federal Fund Appropriations in the 2010 Long Bill (HB 10-1376): Given that the Long Bill contains the vast majority of federal fund appropriations, JBC staff reviewed the appropriations in the Long Bill to determine where the majority of federal funds are appropriated. When the line items of the Long Bill are sorted by federal funds, from largest to smallest federal fund appropriations, eight line items contain **65.1** percent of the federal funds appropriated in the Long Bill. These lines are as follows:

- > \$1,928.5 million (36.5 percent) of the total federal funds in the Long Bill were appropriated for Medicaid Medical Services Premiums in the Department of Health Care, Policy, and Finance.
- > \$369.1 million (7.0 percent) of the total federal funds in the Long Bill were appropriated for Transportation Construction, Maintenance, and Operation in the Department of Transportation.
- > \$277.7 million (5.3 percent) of the total federal funds in the Long Bill were appropriated for Categorical Appropriated Sponsored Programs in the Department of Education.
- > \$205.7 million (3.9 percent) of the total federal funds in the Long Bill were appropriated for Federal Funded Program Operations in the Department of Military Affairs.
- > \$188.1 million (3.6 percent) of the total federal funds in the Long Bill were appropriated for Community Services for People with Developmental Disabilities, Program Costs in the Department of Health Care, Policy, and Finance.
- > \$158.8 million (3.0 percent) of the total federal funds in the Long Bill were appropriated for Special Education for Children with Disabilities in the Department of Education.
- > \$153.4 million (2.9 percent) of the total federal funds in the Long Bill were appropriated for Safety Net Provider Premiums in the Department of Health Care, Policy, and Finance.
- > \$152.1 million (2.9 percent) of the total federal funds in the Long Bill were appropriated for Mental Health Capitation Payments in the Department of Health Care, Policy and Finance.
- > \$1,844.6 million (34.9 percent) of the total federal funds in the Long Bill were appropriated for the remaining **529** federal fund line items in the Long Bill.

Discussion of the FY 2011-12 Budget Request

These budget requests reflect the priorities of the Governor with the exception of the Legislative Branch, Judicial Branch, and the other elected officials. In preparing the budget request, OSPB assumed a 3.0 percent General Fund increase for Judicial; a 6.7 percent General Fund increase for Law; a 3.7 percent increase for Treasury; a 0.8 percent decrease for the Legislature; and no General Fund for State.

Table 1 on page 24 reflects the actual requests submitted by Judicial, Law, State, and Treasury. Since the request for the Legislature is not submitted to the JBC, Table 1 reflects a continuation level of General Fund for the Legislature that is meant to merely be a place holder until the Executive Committee provides direction on the percent increase/decrease to be requested by the Legislature. It is also important to note that, based on the original amount appropriated for FY 2010-11 during the 2010 Session, \$3.7 billion remains under the FY 2010-11 General Fund statutory appropriation limit. The Joint Budget Committee approved supplemental requests equaling a \$3.4 million General Fund increase submitted through the 1331 supplemental process during the 2010 interim. The Governor also submitted a plan (a portion on August 23, a portion on October 22, and a portion on November 1) to balance the state budget based on available revenues as forecasted in the various revenue forecasts published during the summer. If all the elements of this plan were to be adopted as presented by the Governor, \$3.8 billion would remain under the FY 2010-11 General Fund statutory appropriation limit for FY 2010-11.

Overall the department budget requests for FY 2011-12 (including the requests as submitted by Judicial, Law, State, and Treasury) reflect a General Fund increase of \$536.7 million (7.7 percent) as compared to the current level of FY 2010-11 appropriations subject to the statutory limit. If all the elements of the Governor's budget balancing package are adopted, the FY 2011-12 request would reflect an increase of \$680.7 million (10.0 percent) subject to the statutory General Fund limit as compared to FY 2010-11 appropriations as adjusted for the Governor's budget balancing plan.

The budget requests reflect these common assumptions:

- The request does not include any funding for performance based pay awards or salary survey increases for state employees.
- Currently, there is no additional funding for changes to the Health/Life/Dental policy. Funding changes are included for changes in enrollment and staffing levels. However, the request does include a proposed reduction for coverage based on the part-time status of state employees.
- > No common policy was submitted for inflationary increases in food, utilities, and medical costs.
- No common policy was submitted for community provider rates. However, individual departments may have submitted requests that impact community providers.

Table 1 also provides an overview of the General Fund request by department. It should be noted that:

- > Table 1 reflects the November 1 submission including the actual requests for Judicial, Law, State, and Treasury, but assumes a continuing level of funding for the Legislature. The total amount will not exactly coincide with the total amount reflected in the Governor's November 1, 2010 letter to Representative Ferrandino because OSPB assumed different amounts for the elected officials and other branches of state government than were actually requested by these entities.
- The request includes the following state-wide impacts that are not broken down by department in the November 6 request:
 - \$210.1 million in revenue augmentations (see Table 7, page 32 for a list of augmentations). These augmentations require legislation to implement.
 - □ \$147.3 million reduction based on the Governor's request to lower the statutory reserve from 4.0 percent to 2.0 percent in FY 2011-12 (see Table 2, page 25 and Table 7, page 32). This request requires legislation to implement.
 - \$25.3 million reduction for the proposal to extend the suspension of the State's contributions to the Fire and Police Pension Association (FPPA) fund through FY 2012-13. This proposal requires legislation to implement. This is reflected on Table 2 and Table 7, pages 26 and 32.
- A General Fund increase of \$445.6 million (36.2 percent) is included for the Department of Health Care Policy and Financing. The Department's request includes the following significant General Fund increases: (1) \$423.8 million to backfill the loss of enhanced federal match provided by the American Recovery and Reinvestment Act (ARRA); (2) \$43.2 million to restore one-time cost savings that resulted mainly from refinancing General Fund with other cash funds; and (3) \$37.6 million related to caseload and cost increases for the Medicaid and Children's Basic Health Plan programs.

These increases are offset by: (1) \$28.8 million in various Medicaid and Indigent Care Program reductions; (2) \$21.0 million to refinance a portion of General Fund with tobacco taxes appropriated usually appropriated to the Department of Public Health and Environment; (3) \$7.9 million to annualize payment delays proposed in FY 2010-11; and (4) \$1.3 million various other technical adjustments.

A General Fund increase of \$51.3 million (1.6 percent) compared to the current year appropriation is included for K-12 Education (i.e., excluding 1331 supplemental requests approved over the Interim). Of this increase, \$51.1 million relates to school finance. Specifically, the Department requests a \$91.2 million (2.7 percent) increase in funding for the

State Share of Districts' Total Program Funding (including \$51.1 million General Fund and \$40.1 million cash funds).

Please note, however, the requested amount will be insufficient to cover the costs of:

- > a projected 1.4 percent increase in the funded pupil count;
- > increasing base per pupil funding by 1.0 percent (OSPB projected inflation rate for CY 2010); and
- backfilling a projected decrease in local tax revenues (costs totaling \$183.4 million).

Thus, the proposal includes an adjustment to the State Budget Stabilization Factor (established through H.B. 10-1369), which reduces the state funding need by \$92.2 million. While the proposal would increase total program funding by 0.8 percent, it would decrease average per pupil funding by 0.6 percent.

- A General Fund increase of \$15.7 million (2.4 percent) is included for the Department of Higher Education. Of the \$15.7 million General Fund increase for Higher Education, \$15.4 million is attributable to replacing one-time funds in FY 2010-11 that were appropriated for need based aid from a cash balance held by CollegeInvest. The remaining \$0.3 million increase is due to changes in assumptions about indirect cost recoveries.
- A General Fund increase of \$15.0 million (4.5 percent) is reflected in the Judicial Department requests. More than half of the requested increase relates to the implementation of two bills:
 - a \$4.7 million increase in the General Fund appropriation to the Drug Offender Surcharge Fund based on estimated savings in DOC pursuant to H.B. 10-1352 (Waller/Steadman bill concerning crimes involving controlled substances); and
 - \$3.0 million General Fund to fund Public Defender staff associated with the third year of adding judgeships pursuant to H.B. 07-1054 (a T. Carroll/Shaffer bill that created 43 new judgeships over three years).

The remainder of the General Fund increase is due to: 1) \$4.7 million General Fund is due to the expiration of the 2.5% PERA adjustment (the Public Defender's request also includes an offsetting reduction of \$0.9 million, based on OSPB's plan to continue this adjustment in FY 2011-12; the remainder of the Branch did not include this offset in their request); 2) \$3.1 million General Fund relates to common policies related to employee benefits (e.g., HLD, STD, AED, SAED, and worker's compensation; and 3) multiple decision items, some requiring General Fund increases and others proposing General Fund decreases (these net out to less than \$300,000).

- A General Fund increase of \$6.2 million (1.0 percent) is included for the Department of Human Services. The largest components of this increase include the following: A net increase of \$4.8 million for common-policy adjustments in the Executive Director's Office. This primarily reflects the following increases: \$1.3 million for Worker's Compensation, \$1.2 million for Health, Life, Dental benefits, \$1.0 million for PERA AED/SAED funding, \$0.9 million for Risk Management, and \$0.3 million for shift differential. A net increase of \$4.1 million for Child Welfare Services. This primarily reflects eliminating the enhanced federal reimbursement available for child welfare Services under the American Recovery and Reinvestment Act of 2009 and restoring General Fund to the level required without the enhanced federal reimbursement. A net reduction of \$2.6 million for Services for People with Disabilities. This is the net impact of two changes: (1) a requested transfer to the Department of Health Care Policy and Financing of \$6.2 million General Fund to draw down additional Medicaid funds (Decision Item #3). This decision item does not generate statewide General fund savings. (2) a requested increase of \$3.6 million for early intervention Services for infants and toddlers with developmental delays (Decision Item #4).
- A General Fund increase of \$5.4 million (1.6 percent) is included for the Department of Corrections. The increase in the Department of Corrections' budget is primarily due to the following: (1) inmate caseload; (2) parole caseload; (3) bills passed during the 2010 legislative session; and (4) annualization of budget items from the previous year, particularly related to the opening of an additional tower at Centennial Correctional Facility. These increases are partially offset by a 2.0 percent personal services reduction and a continuation of the 2.5 percent PERA adjustment from the previous year.

GENERAL FUND OVERVIEWS BASED ON SEPTEMBER 2010 REVENUE ESTIMATES

The overviews on pages 25 and 27 provide the outlook for the General Fund over the next several years based on the following assumptions:

\triangleright	Table 2 (page 25) is based on Legislative Council Staff September 2010 revenue estimates
	of Gross General Fund revenues, the amount of Rebates and Expenditures, TABOR refunds, and
	Amendment 23 Transfer to the Education Fund. Table 3 (page 27) is based on OSPB's
	September 2010 revenue estimates of Gross General Fund revenues, the amount of Rebates
	and Expenditures, TABOR refunds, and Amendment 23 Transfer to the Education Fund,.

	r
>	sed on their respective revenue assumptions, the two scenarios reflect the following with ard to FY 2010-11:
	The LCS forecast indicates, in the <i>Moneys in (Deficit)/Excess of the Statutory GF Reserves</i> line item, that \$117.8 million could be increased due to sufficient revenues. However, should more moneys be appropriated in FY 2010-11, it would have a negative impact on the balancing of FY 2011-12.
	The OSPB forecast indicates, in the <i>Moneys in (Deficit)/Excess of the Statutory GF Reserves</i> line item, that a \$90.9 million deficit would exist as compared to the 4.0 percent statutory reserve at the end of FY 2010-11. The estimated reserve of \$181.0 million is .07 percent above the 2.0 percent reserve that the Governor is required to maintain in the General Fund when the General Assembly is not in session.
	th of the scenarios assume the level of General Fund appropriations for FY 2011-12 as uested on November 1. With regard to each scenario:
	The LCS scenario reflects, in the <i>Moneys in (Deficit)/Excess of the Statutory GF Reserves</i> line item, an ending deficit of \$99.1 million at the end of FY 2011-12 based on a 2.03 percent reserve as requested by the Governor. If the reserve is not lowered as requested by the Governor, the deficit would be \$246.4 million below the required statutory reserve of 4.0 percent. Lowering the statutory reserve to 2.03 percent requires legislation.
	The OSPB scenario reflects, in the <i>Moneys in (Deficit)/Excess of the Statutory GF Reserves</i> line item, an ending deficit of \$5.0 million at the end of FY 2011-12 based on a 2.03 percent reserve as requested by the Governor (the Governor's request is in deficit because JBC staff reflected the actual requests for the Judicial Brand and elected officials, and a continuation level of funding for the Legislative Branch). If the reserve is not lowered as requested by the Governor, the deficit would be \$152.3 million below the required statutory reserve of 4.0 percent. Lowering the statutory reserve to 2.03 percent requires legislation.

> A capital construction transfer has been included in both scenarios for FY 2010-11 at a level that would be sufficient to fund the Governor's November 1st request for capital construction projects and all the required statutory transfers (primarily for certificates of participation and the Correction Expansion Reserve Fund). This amount (\$49.2 million) is based on the OSPB calculation of the amount that is needed for the requested projects. > Both of the scenarios reflect both a statutory reserve of 2.03 percent as requested by the Governor and a statutory reserve of 4.0 percent as required by current law for FY 2011-12. > The General Fund Expenditure Outlook portion of the General Fund Overview is based on caseloads as estimated by JBC staff for the next two fiscal years for the major areas within state government. These components include: K-12 Education: For FY 2011-12, represents the General Fund anticipated to be needed to maintain a reasonable cushion of \$50 million in the State Education Fund to account for income tax forecast error. For FY 2012-13, represents the General Fund anticipated to be needed to fund the School Finance Act formula in light of the expiration of the "budget stabilization factor". This amount thus restores reductions taken in FY 2010-11 and FY 2011-12, as well as inflation and enrollment increase in FY 2012-13. ☐ Medicaid: Based on historical caseloads and growth rate model as calculated from current FY 2010-11 base appropriation and statutory requirements. Human Services: Based on funding: a) projected caseload for child welfare, mental health, developmental disabilities, and youth corrections; and b) annual inflationary increases for service providers for those areas. ☐ Performance Based Pay/Salary Survey/HLD: Based on average historical percentage increases for salary survey, performance based pay, and Health/Life/Dental. Higher Education: Based on prior calendar year inflation and estimated enrollment growth. The amount shown also reflects the General Fund increase necessary to backfill one-time federal ARRA moneys and one-time cash fund moneys (CollegeInvest) for financial aid. Corrections: Based on current prison population projections and authorized state facilities. Remainder of prison overflow is assumed to be handled by private prison operators. Does not include caseload or inflationary increases for community supervision. Judicial: Based on weighted caseload models: one for district and county courts, and another for probation officers and staff. The figures represent the funding needed to

included in the statewide assumptions.

continue staffing the courts and probation at the existing levels. The estimate includes growth for performance based pay/salary survey/HLD increases for Judicial staff are

Table 4 on page 29 reflects the actions taken on 1331 supplementals during the 2010 interim by the JBC. Tables 5 through 7 on pages 31 through 32 provide summaries of the budget balancing actions, by department, requested by the Governor on August 23, October 22, and as part of the November Budget Request. These amounts are reflected in the General Fund Overviews.

Observations about Assumptions Used:

It is important to note that any General Fund overview is based on certain assumptions that if changed could provide a very different outlook. Almost every category in every year, except the most recent actual year, is either an estimate or based on certain assumptions. As can be seen, the overview using Legislative Council's September 2010 revenue forecast looks very different from the overview using OSPB's September 2010 revenue forecast. The December revenue estimates will provide a different outlook even if no other variable or assumption is changed.

POTENTIAL GENERAL FUND ADJUSTMENTS

The amount of the future General Fund shortfall is a frequently asked question that is very difficult to answer. The size of the General Fund shortfall is dependent on numerous factors. The JBC staff has attempted to provide a list of items that could be included in a future shortfall (please see Attachment A, *Potential General Fund Appropriation Adjustments in FY 2011-12 and Beyond*). It is important to note, however, that the size of the shortfall is dependent on the person who is creating the list. Many of the items on the JBC staff list are items that others would not include. Many items that the JBC staff did not include on this list may be included on a list created by others. The basis for items included on the list created by the JBC staff include:

- Items that are statutorily required. During the downturn, many of the actions the General Assembly took to balance the budget had provisions that required the funding be replenished at some point in the future. The JBC staff attempted to include these items.
- ➤ Items for which ARRA money was used as a substitute to General Fund. Some of these items the General Assembly will be required under state or federal law to replenish, some are not required to be replenished.
- Accounting actions that were taken that JBC staff believe should be reversed in the future if funding from the General Fund becomes available.

The total of all items identified on the shortfall list is \$2,297.1 million (\$2.3 billion) across all fiscal years shown on the list. *This list is not meant to be all inclusive. Please remember this list is meant to give the reader some idea of the size of the potential shortfall that exists.* Others that generate lists may include items other than these items. Others that generate a list may not include all these items. The actual amount that eventually may be required will be less or more than the amount reflected on the list depending on the actions of the General Assembly.

It is also important to note some of the types of things JBC staff did *not* include on the shortfall list. JBC staff did not include the following:

- > Funds to replenish the cash funds that were transferred to the General Fund.
- Reversal of the permanent suspensions of the tax credits or exemptions that the General Assembly passed during the 2010 Session.
- ➤ Inflationary increases or caseload adjustments.
- > Items that the JBC staff may have unintentionally overlooked.

Summary of major shortfall items in FY 2011-12. The JBC staff list for potential shortfall items in FY 2011-12 equals \$1,064.3 million (\$1.0 billion). Some of the items included for FY 2011-12 may

be included in the Governor's request. Readers of this document should be careful to compare the Governor's request to the JBC list so as not to double count items. In order to assist with this, JBC staff has included a line entitled "Additional Amounts from Shortfall Sheets (Eliminates Double Counts)" on the "GF Expenditure Outlook" section of the General Fund Overview (Table 2, page 26). This line item removes amounts from the shortfall list which are also captured in the GF Expenditure Outlook section in attempt to limit double counting items. The following is a list of the major items included on the shortfall list for FY 2011-12:

- > \$430.7 million to discontinue the enhanced federal match for the FMAP in Medicaid and replace with General Fund.
- > \$264.7 million to fully fund the TABOR reserve with General Fund and discontinue using cash funds and state properties.
- > \$89.6 million to reverse the paydate shift that was implemented during the last economic downturn.
- > \$89.2 million to replenish the federal ARRA funds in Higher Education with General Fund.
- > \$41.5 million to reinstate salary survey and performance based pay for state employees.
- > \$38.5 million to backfill Tobacco Tax moneys that have been used as a substitute for General Fund as a result of the General Assembly declaring a fiscal emergency through a resolution.
- > \$30.0 million to reinstate the school finance and categoricals.
- > \$25.3 million to reinstate the State contribution to FPPA.
- > \$19.0 million to reverse the change to the PERA contribution rates as required by the provisions of S.B. 10-146.
- > \$35.8 million of other miscellaneous adjustments.

Summary of major shortfall items in FY 2012-13. The JBC staff list for potential shortfall items in FY 2012-13 equals \$867.4 million. The following is a list of the major items included on the shortfall list for FY 2012-13:

- > \$705.7 million to reinstate the school finance and categoricals.
- > \$103.3 million to reinstate the Senior Citizen Property Tax exemption.
- > \$19.9 million to reverse the temporary funding of drivers' license offices with cash funds.

- > \$12.5 million backfill moneys for Temporary Assistance for Needy Families (TANF) that was utilized during the downturn to decrease the need for General Fund in the Department of Human Services.
- > \$7.2 million to upgrade software for the digital trunk radio system.
- > \$18.8 million of other miscellaneous adjustments.

Summary of major shortfall items in FY 2013-14. The JBC staff list for potential shortfall items in FY 2013-14 equals \$250.3 million. The following is a list of the major items included on the shortfall list for FY 2012-13:

- > \$151.0 million to make the required transfer to the Highway Usurers' Tax Fund (HUTF) as required by S.B. 09-228.
- > \$38.0 million to make the required transfer to the Capital Construction Fund (CCF) as required by S.B. 09-228.
- > \$35.0 million to increase the General Fund reserve as required by S.B. 09-228.
- > \$25.9 million to upgrade the digital trunk radio repeater.
- > \$0.4 million of other miscellaneous adjustments.

Summary of major shortfall items in FY 2014-15. The JBC staff list for potential shortfall items in FY 2013-14 and beyond equals \$115.1 million. The following is a list of the major items included on the shortfall list for FY 2014-15 and beyond:

- > \$58.6 million for the final "balloon" payment on the State contribution of FPPA.
- > \$35.0 million to increase the General Fund reserve as required by S.B. 09-228.
- > \$21.5 million to upgrade the digital trunk radio repeater.

Program/Division Affected. If none for department, insert "NONE"	Amount of General Fund Increase	Fiscal Year General Fund Increase will Occur	Is the Increase Required by State or Federal Law	ARRA Dollars	Could the Increase be prevented by a change in state legislation other than the Long Bill	Comments - Include a description of the increase, any statutory or constitutional requirements, and additional important information.
Agriculture Refinance Inspection and Consumer Services	1,386,155	FY 2012-13	Yes	No	Yes	Pursuant to H.B. 10-1377, the Inspection and Consumer Services Programs were refinanced with cash funds. This refinance could be continued past FY 2012-13 with legislation.
5% Operating Reduction	20,682	FY 2012-13	No	No	No	This reduction was done in the Long Bill via a budget amendment. The reduction could be continued in the FY 2012-13 Long Bill by not restoring the reduction taken in FY 2010-11.
Refinance of Agricultural Markets PERA	452,513 115,916	FY 2011-12 FY 2011-12	No Yes	No No	Yes Yes	This refinance was done in the Long Bill and could be continued through the FY 2011-12 Long Bill. S.B. 10-146 required a reduction to the state's contribution to the Public Employees' Retirement Association equal to 2.5 percent of employees' salaries for FY 2010-11. This increase would reinstate that reduction beginning in FY 2011-12.
All Years Subtotal - Agriculture	1,975,266					ocgming in 1 1 2011 12.
Corrections 5% Operating Reduction PERA	303,980 7,956,493	FY 2012-13 FY 2011-12	No Yes	No No	No Yes	This reduction was done in the Long Bill via a budget amendment. The reduction could be continued in the FY 2012-13 Long Bill by not restoring the reduction taken in FY 2010-11. S.B. 10-146 required a reduction to the state's contribution to the Public Employees' Retirement Association equal to 2.5 percent of employees' salaries for FY 2010-11. This increase would reinstate that reduction
All Years Subtotal - Corrections	8,260,473					beginning in FY 2011-12.
Education School Finance and Categorical Programs	30,000,000	FY 2011-12	No	No	No	This is the minimum estimated General Fund projected to be needed to: (1) provide the constitutionally required inflationary increase in funding for categorical programs; (2) increase base per pupil funding by inflation as constitutionally required; (3) adjust the School Finance Act "budget stabilization factor" so that districts' total program funding remains at the same level as in FY 2010-11 (\$5,441.4M); and (4) keep the SEF balance above \$50M (to account for revenue projection errors and avoid selling off long-term assets). This change could be accomplished through a supplemental to the FY 2011-12 Long Bill. If GF is not increased by \$30M in FY 2011-12 and \$30M SEF is used instead, the GF increase in FY 2012-13 would be
School Finance and Categorical Programs	705,700,000	FY 2012-13	Yes	No	Yes	\$768M instead of \$708M (see next row). If neither GF or SEF is increased in FY 2011-12 (and districts' funding is thus reduced by \$30M in FY 2011-12), the GF increase in FY 2012-13 would be \$738M instead of \$708M. This is the minimum estimated General Fund projected to be needed to: (1) provide the constitutionally required inflationary increase in funding for categorical programs; (2) increase base per pupil funding by inflation as constitutionally required; (3) eliminate the School Finance Act "budget stabilization factor" from the school finance formula as required under current law; and (4) keep the SEF balance above \$50M.

Health Care Policy and Financing						

		1	Potential General	ion Adjustments in F	Y 2011-12 and Beyond	
Department	General Fu	nd Increase	Type of Genera	al Fund Increase -	Select all that apply	
Program/Division Affected. If none for department, insert "NONE"	Amount of General Fund Increase	Fiscal Year General Fund Increase will Occur	Is the Increase Required by State or Federal Law		Could the Increase be prevented by a change in state legislation other than the Long Bill	Comments - Include a description of the increase, any statutory or constitutional requirements, and additional important information.
ARRA Additional FMAP Assistance	430,681,013	FY 2011-12	Yes	Yes	No	This is the full amount of the ARRA enhanced FMAP originally appropriated in FY 2010-11. The amount actually approved by the US Congress was \$67.1 million less than the amount appropriated for FY 2010-11. Federal law currently eliminates the remainder of the enhanced FMAP in FY 2012-13. The Governor submitted a plan to cover the \$67.1 million shortfall for FY 2010-11. However, the FY 2010-11 plan mainly relies on one-time cash fund transfers. Because a permanent solution to the problem has not been decided on, staff has included the full amount of ARRA contained in the current appropriation for the purposes of this spreadsheet.
Tobacco Tax Education Fund Transfer	15,521,625	FY 2011-12	Yes	No	Yes	This is the amount of the Tobacco Education Program Fund being used to offset General Fund. An emergency resolution would need to be passed to prevent this backfill.
Primary Care Fund Transfer	12,800,000	FY 2011-12	Yes	No	Yes	This is the amount of the Primary Care Fund being used to offset General Fund. An emergency resolution would need to be passed to prevent this backfill.
Prevention, Early Detection, and Treatment Fund Transfer	5,679,358	FY 2011-12	Yes	No	Yes	This is the amount of the Prevention, Early Detection, and Treatment Fund being used to offset General Fund. An emergency resolution would need to be passed to prevent this backfill.
Health Disparities Grant Program Fund	4,490,435	FY 2011-12	Yes	No	Yes	This is the amount of the Health Disparities Grant Program being used to offset General Fund. An emergency resolution would need to be passed to prevent this backfill.
OAP Supplemental Fund Offset	1,850,000	FY 2011-12	Yes	No	Yes	This is the difference between the \$4,850,000 in FY 2010-11 and the \$3,000,000 in FY 2011-12 from the OAP Supplemental Fund that is authorized to offset General Fund pursuant to HB 10-1380. This adjustment was a refinance of General Fund with cash reserves from the OAP Supplemental Fund. At the time of the refinance, it was assumed that additional reserves would not be available to continue the refinance beyond FY 2011-12. However, extension of the refinance may be possible based on future assumptions regarding the program.
OAP Supplemental Fund Offset	3,000,000	FY 2012-13	Yes	No	Yes	This is the \$3,000,000 from the OAP Supplemental Fund that is authorized to offset General Fund pursuant to HB 10-1380 in FY 2011-12. There is a possibility that this fund could be used in the future to offset General Fund if a positive balance is maintained in the fund. This adjustment was a refinance of General Fund with cash reserves from the OAP Supplemental Fund. At the time of the refinance, it was assumed that additional reserves would not be available to continue the refinance beyond FY 2011-12. However, extension of the refinance may be possible based on future assumptions regarding the program.
Supplemental Tobacco Litigation Settlement Money Account of the CPPC Fund	2,245,000	FY 2011-12	Yes	No	Yes	This funding was put into the CBHP Trust Fund in order to avoid a GF appropriation for the CBHP program. There is a possibility that legislation could be passed to continue this practice in the future.
PERA	180,162	FY 2011-12	Yes	No	Yes	S.B. 10-146 required a reduction to the state's contribution to the Public Employees' Retirement Association equal to 2.5 percent of employees' salaries for FY 2010-11. This increase would reinstate that reduction beginning in FY 2011-12.
DHS Medicaid PERA	586,239	FY 2011-12	Yes	No	Yes	
All Years Subtotal - HCPF	477,033,832					

]	Potential General	Fund Appropriat	ion Adjustments in F	Y 2011-12 and Beyond
Department	General Fu	nd Increase	Type of Genera	al Fund Increase -	Select all that apply	
Program/Division Affected. If none for department, insert "NONE"	Amount of General Fund Increase	Fiscal Year General Fund Increase will Occur	Is the Increase Required by State or Federal Law		Could the Increase be prevented by a change in state legislation other than the Long Bill	Comments - Include a description of the increase, any statutory or constitutional requirements, and additional important information.
Higher Education Governing Boards, Local District Junior Colleges, and Area Vocational Schools	89,194,099	FY 2011-12	No	Yes	No	Along with the expiration of ARRA funds, maintenance of effort requirements associated with ARRA expire in FY 2011-12. The General Assembly could decide not to provide additional General Fund to restore the ARRA moneys through the Long Bill process. If the General Assembly took such an action this
Need Based Aid	15,400,000	FY 2011-12	No	No	No	increase would not be required. One-time money from CollegeInvest, available because CollegeInvest discontinued a scholarship program, was used in H.B. 10-1383 to refinance General Fund appropriations for need based scholarships. The General Assembly could decide not to provide additional General Fund to restore the refinance through the Long Bill process. If the General Assembly took such an action this increase would not be required.
PERA	39,849	FY 2011-12	Yes	No	Yes	S.B. 10-146 required a reduction to the state's contribution to the Public Employees' Retirement Association equal to 2.5 percent of employees' salaries for FY 2010-11. This increase would reinstate that reduction beginning in FY 2011-12. This amount is for the Department's Administration only. Higher education institution expenditures were reduced in FY 2010-11 due to the PERA reduction, but appropriations were not reduced, because the General Fund for the institutions was already at the minimum necessary to meet the maintenance of effort requirements of ARRA.
All Years Subtotal - Higher Ed	104,633,948					
Human Services TANF backfill for child welfare	12,500,000	FY 2012-13	No	No	No	Temporary Assistance to Needy Families (TANF) reserves were used to backfill child welfare funding in FY FY 2009-10 and FY 2010-11. The Executive requests identified these adjustments as a short-term savings and indicated that these refinances would end and GF would be restored in FY 2012-13. Based on the status of TANF reserves, it may be possible to delay the GF restoration until FY 2013-14. However, ultimately, GF will either need to be restored, or funding for child welfare or the Colorado Works program (basic cash assistance and related services) will need to be reduced.
ARRA for child welfare	3,911,137	FY 2011-12	No	Yes	No	Based on an increased federal FMAP rate for the Title IV-E Foster Care program, Colorado reduced General Fund for county Child Welfare allocations by \$3.9 million and backfilled with additional federal Title IV-E revenue in FY 2009-10. For FY 2010-11, the \$3.9 million refinance was continued. The assumption reflected in the staff write-ups was that the \$3.9 million General Fund would be backfilled at the end of the FMAP adjustment. In the absence of such backfill, capped allocations to counties for child welfare services would be reduced. (Note: the FY 2010-11 appropriation added \$1.6 million federal funds beyond the \$3.9 million, based on an increased FMAP projection; however, this was not associated with a GF reduction and no related GF backfill was anticipated for future years. Further, this "extra" is now unlikely to be received in FY 2010-11 due to final federal action on the FMAP adjustment.)

]	Potential General	Fund Appropriat	ion Adjustments in F	Y 2011-12 and Beyond
Department	General Fu	nd Increase	Type of Genera	al Fund Increase -	Select all that apply	
Program/Division Affected. Public Health and Environment 5% Operating Reduction PERA	98,638 144,700	FY 2012-13 FY 2011-12	No Yes	No No	No Yes	The FY 2010-11 long bill includes a \$98,638 GF operating reduction for the Immunizations program and the Children with Special Needs program. The cuts took advantage of temporary opportunities to reduce spending, with the expectation that funding would be restored two years later in the FY 2012-13 Long Bill. S.B. 10-146 required a reduction to the state's contribution to the Public Employees' Retirement Association
LIM	144,700	1 1 2011-12	103	110	Tes	equal to 2.5 percent of employees' salaries for FY 2010-11. This increase would reinstate that reduction beginning in FY 2011-12.
All Years Subtotal - Public Health and Environment	243,338					ocgiming in 1 1 2011-12.
Public Safety						
5% Operating Reduction	202,884	FY 2011-12	No	No	No	This reduction was done in the Long Bill via a budget amendment. The reduction could be continued in the FY 2012-13 Long Bill by not restoring the reduction taken in FY 2010-11.
PERA	378,582	FY 2011-12	Yes	No	Yes	S.B. 10-146 required a reduction to the state's contribution to the Public Employees' Retirement Association equal to 2.5 percent of employees' salaries for FY 2010-11. This increase would reinstate that reduction beginning in FY 2011-12.
All Years Subtotal - Public Safety	581,466					
Regulatory Agencies 5% Operating Reduction	3,081	FY 2012-13	No	No	Yes	This reduction was done in the Long Bill via a budget amendment. The reduction could be continued in the FY 2012-13 Long Bill by not restoring the reduction taken in FY 2010-11.
PERA	27,315	FY 2011-12	Yes	No		S.B. 10-146 required a reduction to the state's contribution to the Public Employees' Retirement Association equal to 2.5 percent of employees' salaries for FY 2010-11. This increase would reinstate that reduction beginning in FY 2011-12.
All Years Subtotal - Regulatory Agencies	30,396					
Revenue Division of Motor Vehicles/Driver and Vehicle Services	19,961,127	FY 2012-13	Yes	No		H.B. 10-1387 temporarily refinanced GF with CF in Driver and Vehicle Services (drivers' license offices), but that refinance ends in FY 2011-12. Cash funds sources are the Licensing Services Cash Fund and the Highway Users Tax Fund "off-the-top" moneys.
PERA	622,501	FY 2011-12	Yes	No	Yes	S.B. 10-146 required a reduction to the state's contribution to the Public Employees' Retirement Association equal to 2.5 percent of employees' salaries for FY 2010-11. This increase would reinstate that reduction beginning in FY 2011-12.

State PERA	0	FY 2011-12	Yes	No	Yes	S.B. 10-146 required a reduction to the state's contribution to the Public Employees' Retirement Association equal to 2.5 percent of employees' salaries for FY 2010-11. This increase would reinstate that reduction beginning in FY 2011-12. The Department of State requires an appropriation of \$323,069 cash funds to backfill the PERA reduction. The Department is entirely cash-funded, so it does not require General Fund backfill to restore the PERA adjustment.
All Years Subtotal - State	0					
Transportation PERA	0	FY 2011-12	Yes	No		S.B. 10-146 required a reduction to the state's contribution to the Public Employees' Retirement Association equal to 2.5 percent of employees' salaries for FY 2010-11. This increase would reinstate that reduction beginning in FY 2011-12. CDOT does not receive any direct General Fund appropriations, therefore, no General Fund backfill is required to restore the PERA adjustment

Statewide Increase General Fund Reserve - Year 1 (Reserve from 4.0 percent to 4.5 percent)	35,000,000	FY 2013-14	Yes	No		Section 24-75-201.1 (1) (d) (XI through XVI) and (e) (I and II), C.R.S., require that the statutory General Fund reserve begin increasing from 4.0 percent by 0.5 percent per year in FY 2012-13 until the reserve equals a total of 6.0 percent of total appropriations. If Colorado personal income does not grow by at least 5.0 percent from CY 2011 to CY 2012, this trigger in growth of the reserve is delayed until the fiscal year in which a 5.0 percent growth in personal income occurs. Current projections indicate the trigger will not be met in FY 2012-13 so the increase is shown beginning in FY 2013-14. The estimated amount is based on total appropriations of \$6,940.3 million. Appropriations may be higher or lower in FY 2013-14 and would impact the level shown accordingly.	
Increase General Fund Reserve - Year 2 (Reserve from 4.5 percent to 5.0 percent)	35,000,000	FY 2014-15 or later	Yes	No		Section 24-75-201.1 (1) (d) (XI through XVI) and (e) (I and II), C.R.S., require that the statutory General Fund reserve begin increasing from 4.0 percent by 0.5 percent per year in FY 2012-13 until the reserve equals a total of 6.0 percent of total appropriations. If Colorado personal income does not grow by at least 5.0 percent from CY 2011 to CY 2012, this trigger in growth of the reserve is delayed until the fiscal year in which a 5.0 percent growth in personal income occurs. Current projections indicate the trigger will not be met in FY 2012-13 so the increase is shown beginning in FY 2013-14. It may be further delayed if the trigger is not met in FY 2013-14. The estimated amount is based on total appropriations of \$6,940.3 million. Appropriations may be higher or lower in FY 2014-15 and would impact the level shown accordingly.	
Transfer to the Highway Users Tax Fund	151,000,000	FY 2013-14	Yes	No		Section 24-75-219, C.R.S., requires that a transfer of 2.0 percent of total revenues be made from the GF to the HUTF beginning in FY 2012-13. If Colorado personal income does not grow by at least 5.0 percent from CY 2011 to CY 2012, this transfer to the HUTF is delayed until the fiscal year in which a 5.0 percent growth in personal income occurs. Current projections indicate the trigger will not be met in FY 2012-13 so the increase is shown beginning in FY 2013-14. It may be further delayed if the trigger is not met in FY 2013-14. The amount shown is an approximation based on the FY 2012-13 estimate revenues as shown in the LCS September 2010 revenue forecast as no estimate is made beyond this year. The amount is likely to be higher if the trigger is met in FY 2013-14.	

Potential General Fund Appropriation Adjustments in FY 2011-12 and Beyond							
Department	General Fund Increase		Type of General Fund Increase - Select all that apply				
Program/Division Affected. Transfer to the Capital Construction Fund	38,000,000	FY 2013-14	Yes	No	Yes	Section 24-75-219, C.R.S., requires that a transfer of 0.5 percent of total revenues be made from the GF to the Capital Construction Fund (CCF) beginning in FY 2012-13. If Colorado personal income does not grow by at least 5.0 percent from CY 2011 to CY 2012, this transfer to the CCF is delayed until the fiscal year in which a 5.0 percent growth in personal income occurs. Current projections indicate the trigger will not be met in FY 2012-13 so the increase is shown beginning in FY 2013-14. It may be further delayed if the trigger is not met in FY 2013-14. The amount shown is an approximation based on the FY 2012-13 estimate revenues as shown in the LCS September 2010 revenue forecast as no estimate is made beyond this year. The amount is likely to be higher if the trigger is met in FY 2013-14. In FY 2015-16 the transfer to the CCF will increase by 0.5 percent to a total of 1.0 percent of General Fund revenues.	
TABOR Reserve - Eliminate State Properties	70,700,000	FY 2011-12	No	No	No	The General Assembly has currently designated \$70.7 million of state properties as part of the TABOR reserve. The General Assembly could instead designate General Fund dollars. This amount represents such a designation of General Fund. This redesignation can be accomplished in the Long Bill.	
TABOR Reserve - Eliminate Cash Funds	194,000,000	FY 2011-12	No	No	No	The General Assembly has currently designated \$194.0 million of cash funds as part of the TABOR reserve. The General Assembly could instead designate General Fund dollars. This amount represents such a designation of General Fund. This redesignation can be accomplished in the Long Bill.	
Reverse paydate shift	89,623,000	FY 2011-12	No	No	No	During FY 2002-03, the General Assembly shifted the paydate for state employees whose salaries are funded by General Fund from June 30 to July 1, which transferred the fiscal obligation to the following fiscal year. All state employees are paid July 1 for work performed during June, but the actual fiscal impact applies only to the General Fund portion of the payroll. This prior budget-balancing action results in several accounting issues. The State is actually not required to shift the paydate back to June 30, and legislation is required to do so.	
One-time funds for employee health, life, and dental benefits	9,700,000	FY 2011-12	No	No	No	The General Assembly approved several one-time actions that reduced the State contribution amount for health, life, and dental benefits by \$3.5 million, and also reduced the employee's contribution amount by \$8.1 million. In order to continue theis level of total state funding, the General Assembly must appropriate an additional \$11.6 million, including \$9.7 million General Fund.	
Reinstate salary survey for State employees	29,200,000	FY 2011-12	No	No	No	The General Assembly did not appropriate funds for salary survey for FY 2009-10 or FY 2010-11. This amount is an estimate based on the average salary survey rates for the past ten years in which salary survey was given (years in which salary survey were not given are not included in the calculation). Please note that this amount is an estimate and would need to be refined if salary survey was actually reinstated.

Key

General Fund backfill - includes any constitutional increases, refinances for a limited number of years, or other temporary measures taken to reduce General Fund by using CF or FF instead.

Short-term General Fund Revenue Increases - includes any cash fund transfers, tax exemptions, or other measures to increase General Fund revenue - do not include any items which require a General Fund backfill.

Category:

Is the Increase Required by State or Federal Law = Current state or federal law requires that short-term savings in FY 2010-11 be backfilled with General Fund

 $ARRA\ Dollars = FY\ 2010-11\ savings\ were\ the\ result\ of\ provisions\ of\ the\ federal\ American\ Recovery\ and\ Reinvestment\ Act\ of\ 2009$

Could the Increase be prevented by a change in state legislation other than the Long Bill = State statuory change could allow the General Assembly to maintain the General Fund savings and/or continue the use of other funds in place of General Fund General Fund is shown in the Department of Health Care Policy and Financing)
