January 15, 2021

Governor Jared Polis
136 State Capitol
Denver, CO 80203

Dear Governor Polis:

Enclosed, please find the Department of Health Care Policy and Financing's legislative report, Hospital Expenditure Report.

Section 25.5-4-402.8, C.R.S. requires the Department, on or before January 15, 2020, and on or before January 15 each year thereafter, the state department shall submit the annual hospital expenditure report to: the public health care and human services committee of the house of representatives, or any successor committee; the health and human services committee of the senate, or any successor committee; the joint budget committee of the general assembly; the governor; and the state board.

In addition, Section 25.5-1-703, C.R.S., enacted with the adoption of HB 19-1320, requires the Department to include a summary of the hospital community benefit implementation reports submitted by hospitals to the Department.

This report details the activities the Department has undertaken to implement HBs 19- 1001 and 19-1320 to date.

In addition to providing these reports as directed through legislation, the Department is analyzing the rise in Colorado hospital prices, costs, and profits in the state and its impact on the cost of health care coverage for consumers and businesses. The Department is undertaking this analysis as directed by the General Assembly. In the coming months, the Department will publish additional reports and analytical tools examining this topic. The additional reporting and tools will be posted on the Department's website at [Colorado.gov/pacific/hcpf/hospital-reports-hub](https://colorado.gov/pacific/hcpf/hospital-reports-hub).

If you require further information or have additional questions, please contact the Department's Legislative Liaison, Jo Donlin at Jo.Donlin@state.co.us or 720-610-7795.

Sincerely,

Kim Bimestefer
Executive Director

Hospital Expenditure Report & Hospital Community Benefit Accountability

Annual Report

January 15, 2021

COLORADO
Department of Health Care
Policy & Financing

Contents

- I. Overview**
- II. Hospital Expenditure Report**
 - Executive Summary
 - Annual Report
- III. Hospital Community Benefit Accountability Annual Report**
 - Executive Summary
 - Annual Report
- IV. Hospital Expenditure Report Detailed Dataset by Hospital**

I. Overview

The purpose of the Hospital Expenditure Report is to fulfill the directive in House Bill (HB) 19-1001 to “annually prepare a written hospital expenditure report detailing uncompensated hospital costs and the different categories of expenditures”.¹ To serve this directive, this report provides data summaries and analysis of Colorado hospitals that have submitted financial and utilization data to the Department of Health Care Policy and Financing (the Department).

HB 19-1320 requires nonprofit tax-exempt general hospitals, Denver Health Medical Center and University of Colorado Hospital to complete a community health needs assessment every three years and an annual community benefit implementation plan every year. Critical access hospitals are not required to participate, but are encouraged to do so. Each reporting hospital is required to convene a public meeting at least once per year to seek feedback on the hospital’s community benefit activities and implementation plans. These hospitals are required to submit a report each July 1 to the Department that includes, but is not limited to the following:

- Information on the public meeting held within the last year.
- The most recent Community Health Needs Assessment.
- The most recent Community Benefit Implementation Plan.
- The most recent submitted Internal Revenue Service (IRS) form 990 including Schedule H.
- A description of investments included in Schedule H.
- Expenses included on form 990.

A. Legislative Background

Under [§ 25.5-4-402.8, C.R.S.](#), the Department shall annually prepare a written hospital expenditure report detailing the uncompensated hospital costs and the different categories of expenditures made by hospitals in the state. The Department shall consult with the Colorado Healthcare Affordability and Sustainability Enterprise Board (CHASE Board) in the development of the report.

¹ Hospital Transparency Measures to Analyze Efficacy, HB19-1001. 2019 Regular Session. (2019). Available from www.leg.colorado.gov/bills/hb19-1001.

In compiling the Hospital Expenditure Report, the Department shall use publicly available data sources whenever possible. Each hospital in the state shall make information available to the Department for the compilation of the data set for and the completion of the Hospital Expenditure Report.

Under [§ 25.5-1-700, C.R.S.](#), the Department is required to submit a report that includes a summary of the reports submitted from reporting hospitals that includes the following.

1. The amount that each reporting hospital invested in:
 - a. Free or reduced-cost health care services addressing community identified health needs.
 - b. Programs addressing health behaviors or risks.
 - c. Programs addressing social determinants of health.
 - d. All services and programs addressing community identified health needs.
2. A summary of the reporting hospitals' investments that have been effective in improving community health outcomes.
3. Any legislative recommendations the Department has for the General Assembly.

Additionally, under § 25.5-1-700, C.R.S., the Department is instructed to provide the summary of those reports within the report authorized under § 25.5-4-402.8, C.R.S., the Hospital Expenditure Report.

In April 2019, Gov. Jared Polis released the [“Polis-Primavera Roadmap to Saving Coloradans Money on Health Care”](#). The roadmap outlines the Polis administration's plan to lower health care costs. Since the roadmap's publication, many cost control efforts have been achieved, including the passage of legislation that provides hospital transparency or improves health care affordability. These two pieces of legislation are part of those affordability efforts. It is impossible to understand what is driving health care costs in the state if we do not have access to timely data for analysis. With data required through this legislation, analysis can begin to get to the root cause of increasing costs. Ultimately, we hope to identify savings within the costliest components of

health care and work with hospitals to become more cost-efficient and accountable for costs.

Executive Summary

II. Hospital Expenditure Report

This annual report is prepared by the Department of Health Care Policy & Financing (the Department) pursuant to Section 25.5-4-402.8, C.R.S.. Since the passage of House Bill (HB) 19-1001 in 2019, the Department has worked with Colorado hospitals to compile a dataset of hospital financial and utilization metrics to present a full picture of the hospital industry in Colorado. The Hospital Expenditure Report represents the compilation of historic dataset to date and includes some basic analysis of the dataset.

For the completion of the report, the bill requires hospitals to submit three forms of financial and utilization information: Medicare Cost Reports, audited financial statements and the completion of a data submission template. The Department believes hospitals have made a good-faith effort to satisfy the bill requirements, although some hospitals did not make a statement and/or submit data.

The Hospital Expenditure Report presents aggregated information on Colorado hospitals, with hospital-specific information in **Hospital Expenditure Report Detailed Dataset by Hospital** in this report.

Key Findings

- Overall, net patient revenue increased by 35.8% from 2014 to 2019, or \$4.3 billion, averaging 6.3% growth per year. From 2018 to 2019 net patient revenue increased by 2.3% or \$368 million.
- While hospitals with more than 91 beds had the largest increase in net patient revenue in dollars, it increased the lowest in terms of percent change (34.2%). Over the period, net patient revenue for hospitals with between 26 and 90 beds increased the most with 50.3% percent change. Net patient revenue for the hospitals with 25 or fewer beds increased by 47.6%.
- While uncompensated care charges decreased after the expansion of health care coverage following the implementation of the Affordable Care Act (ACA), there was an uptick in 2019. Between 2018 and 2019, charity care charges increased by 25.7% or \$189.6 million. Bad debt charges increased by 12.4% or \$81.3 million. From 2014 to 2019, charity care decreased by 9.9%. Bad debt has increased over the period by 7.4%.
- Uncompensated care charges did not decrease to the same extent for all hospital peer groups. Hospitals with 25 or fewer beds saw the largest decline in uncompensated care (8.6%). Hospitals with more than 91 beds decreased by 3.4%. Hospital with 26 to 90 beds saw an increase in uncompensated care charges by 7.7%.

- ✓ The decline in uncompensated care was driven by a decline in charity care. Charity care declined 9.9% between 2014 and 2019, while bad debt increased 7.4%.
- ✓ Hospitals with 25 or fewer beds, unlike their counterparts, saw a decrease in bad debt of \$633,000 from 2014 to 2019, or 2.0%. Between 2018 and 2019, uncompensated care for the large peer group increased by 19.7% or \$251.4 million; the medium peer group increased by 27.7% or \$19.8 million; and the small peer group decreased by 0.7% or \$299.3 thousand.
- In 2019, there was \$452.4 million in total uncompensated care costs with charity care making up \$247.7 million, or 54.6%, and bad debt costs making up \$206.3 million, or 45.4%.
- Self-pay was the largest portion of uncompensated costs in 2019 with \$242.7 million, or 53.6%, and it was the largest in both components of charity care and bad debt: \$131.3 million and \$111.4 million, respectively.
- Total operating expenses increased on average \$736.0 million per year or 5.6%. Between 2018 and 2019 total operating expense increased by 2.7% or \$409.4 million.
- Patient expenses make up 66.8% of operating expenses with 57.0% for patient services and 9.8% for other patient related expenses.
- When added on to operating expenses, uncompensated care costs represent 2.6% of operating expenses.
- Hospital expenses can be for both inpatient services and outpatient services. Small hospitals reported that more of their expenses are for outpatient services (68.1%).
- In 2019, more people were insured through public programs (60.3% Medicaid/Medicare payer mix) than in 2014 (55.2%).

I. Overview

The purpose of the Hospital Expenditure Report is to fulfill the directive in House Bill (HB) 19-1001 to “annually prepare a written hospital expenditure report detailing uncompensated hospital costs and the different categories of expenditures”.¹ To serve this directive, this report provides data summaries and analysis of Colorado hospitals that have submitted financial and utilization data to the Department of Health Care Policy & Financing.

Also included in this report is a map of Colorado hospitals as well as the Department of Regulatory Agencies’ Division of Insurance (DOI) regions. A list of definitions is available as well.

A. Legislative Background

Under § 25.5-4-402.8, C.R.S., the Department shall annually prepare a written hospital expenditure report detailing the uncompensated hospital costs and the different categories of expenditures made by hospitals in the state. The Department shall consult with the Colorado Healthcare Affordability and Sustainability Enterprise Board (CHASE Board) in the development of the report. In compiling the Hospital Expenditure Report, the Department shall use publicly available data sources whenever possible. Each hospital in the state shall make information available to the Department for the compilation of the data set for and the completion of the Hospital Expenditure Report.

B. Background to this Report

HB 19-1001 requires hospitals make a good-faith effort to submit Medicare Cost Reports and audited financial statements and other utilization and financial data. The Department began gathering Audited Financial Statements and the Department-provided template of financial and utilization metrics in mid-2020. The Center for Medicare and Medicaid Services granted providers with fiscal years (FY) ending on Dec. 31 extensions for the submission for FY 2019 Medicare Cost Reports. In turn

¹ Hospital Transparency Measures to Analyze Efficacy, HB19-1001. 2019 Regular Session. (2019). Available from www.leg.colorado.gov/bills/hb19-1001.

the Department chose not to request Medicare Cost Reports at the time of Audited Financial Statements.

Data submitted represent most Colorado hospitals. For 2019, hospitals submissions account for 98.6% of all licensed hospital beds. The **Hospital Expenditure Report Detailed Dataset by Hospital** displays the status of hospital data submissions and data for all hospital data submissions for 2014 through 2019 with notes when applicable.

C. Methodology and Limitations

The data within this report represents the cumulation of both historic and current financial and utilization data reported to the Department. After consultation with the CHASE Board and the Colorado Hospital Association (CHA), the Department developed rules to help with the administrative task of the data collection process. The Department collected data from general hospitals and critical access hospitals. Given the rules developed for the Hospital Expenditure Report, data from psychiatric, long term care and rehabilitation hospitals was not requested. For the historical data submission process, hospitals had the option to submit reports from the CHA's DATABANK Program² or to complete the Department's Acquisition, Financial and Utilization Reporting Tool. Most health systems or hospitals submitted a DATABANK report. For the current data submission process, hospitals only utilized the Department's reporting tool.

The Department presents the data by peer grouping based on the number of licensed beds. The three hospital peer groups are as follow: small with 25 or fewer beds, medium with 26 to 90 beds and large with 91 or more beds. The Department also presents the data by the Department of Regulatory Agencies' DOI geographic regional rating areas.

The **Hospital Expenditure Report Detailed Dataset by Hospital** is a representation of the dataset compilation, with both the historic data submissions and the current data submissions. As discussed in the previous

² CHA DATABANK is an online program available to Colorado Hospital Association members and serves as a centralized location for the collection of hospital utilization and financial data.

section, not all hospitals submitted data. While all Colorado hospitals are listed in these tables, blank fields indicate hospitals that did not submit data for that year. In some cases, the hospital was not open at that time.

There are limitations in the dataset, including the following:

- Historic dataset does not have bad debt and charity care by payer type. Because of this limitation, uncompensated care and net patient revenue are not available by payer type for the dataset.
- Historic dataset is not fully complete:
 - Some hospitals did not report for all years that the hospital was open. For example, if a hospital was acquired by a health system, the health system submission only included data for the years that hospital was part of a health system.
 - Reported data is not complete for all years and/or for all categories even if a hospital has reported some data. This report looks at 2014 through 2018 because this was the most complete section of data collected.

To address the limitations of the dataset, the Department is analyzing trends for the most comprehensive period of the dataset (2014 through 2019). The aggregate and hospital peer group analysis within the report includes hospitals that submitted data for all years. This analytical approach is referred to as a same-store analysis.

- For the trend analyses, of the 77 hospitals open for the period, 57 hospitals are part of the same-store analysis within the body of the report, representing 93.8% of licensed beds.
- For the 2019 analyses, of the 84 hospitals open, 77 hospitals are part of the analysis within the body of the report, representing 98.6% of licensed beds.

Other limitations include the analysis of hospital volume or the number of hospital patients. There is a challenge in using a volume metric when

hospitals have different volume metrics for inpatient services, like discharges or patient days, and outpatient services like outpatient visits. Currently, the Department is not including an analysis that adjusts to a “per patient” or “per bed” basis. The Department has provided two volume metrics within the **Hospital Expenditure Report Detailed Dataset by Hospital**: discharges and outpatient visits.

1. A Note on Submissions

For the completion of the report, the bill requires hospitals to submit three forms of financial and utilizations information: Medicare Cost Reports, audited financial statements and the completion of a data submission template. The Department believes hospitals have made a good-faith effort to satisfy the bill requirements, although some hospitals did not make a statement and/or data submission. The hospitals that did not make a data submission and are not included within the analysis of this report:

- Haxtun Hospital District
- Kit Carson County Health Service District
- The Memorial Regional Health
- Middle Park Medical Center
- Yuma District Hospital

The Department will continue to work with hospitals to gather missing data points where possible and improve upon the report.

The Hospital Expenditure Report presents aggregated information on Colorado hospitals, with hospital-specific information in the **Hospital Expenditure Report Detailed Dataset by Hospital** of this report.

II. Financial Analysis

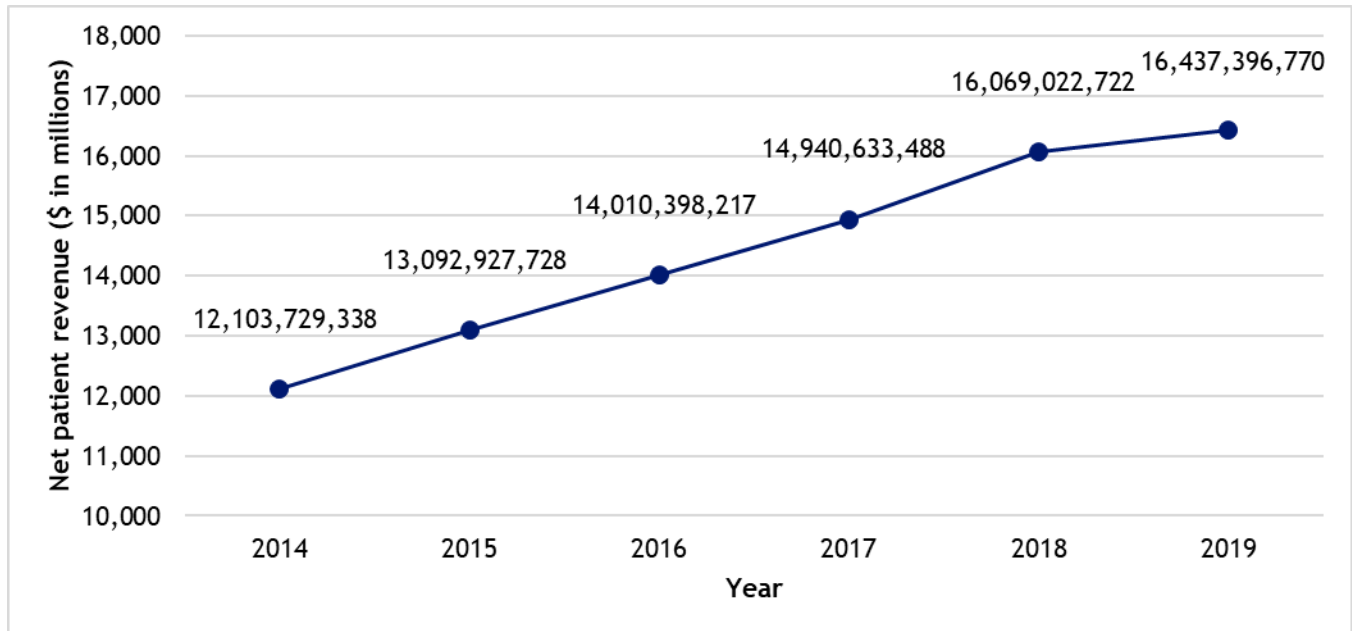

A. Net Patient Revenue in Total

Net patient revenue approximates the payments a hospital receives for patient services. Net patient revenue is calculated by totaling all charges the hospital billed to patients, subtracting the total of all contractual

allowances for each major payer, such as Medicare, Medicaid, commercial, etc., then subtracting uncompensated care.

Graph 1: Total Net Patient Revenue

The above graph (**Graph 1**) presents net patient revenue in total for each year in the period. From 2014 to 2019, net patient revenue grew by 35.8% or approximately \$4.3 billion. Net patient revenue grew by an average of 6.3% a year.

In the analysis that follows (**Table 1**), the Department reports the breakdown of net patient revenue by hospital peer groups, which groups hospitals by the number of licensed beds. The three (3) groups are small: 25 beds or fewer, medium: 26 to 90 beds, and large: 91 beds and more.

Table 1: Net Patient Revenue by Hospital Peer Groups (in millions)

Peer Group	2014	2015	2016	2017	2018	2019
Large	\$10,815.8	\$11,657.3	\$12,432.9	\$13,259.4	\$14,222.1	\$14,512.7
Medium	\$884.9	\$991.1	\$1,111.3	\$1,188.3	\$1,299.0	\$1,329.9
Small	\$403.0	\$444.5	\$466.2	\$492.9	\$547.9	\$594.8
Total	\$12,103.7	\$13,092.9	\$14,010.4	\$14,940.6	\$16,069.0	\$16,437.4

Each hospital peer group had growth for net patient revenue from 2014 to 2019. Overall, net patient revenue increased by \$4.3 billion, as stated above. The large peer group primarily made up the bulk of the overall increase with \$3.6 billion whereas the medium and small peer groups increased by \$445.0 million and \$191.8 million, respectively.

Table 2: Net Patient Revenue Percent Change by Hospital Peer Groups

Peer Group	Net Patient Revenue % Change (2014- 2019)
Large	34.2%
Medium	50.3%
Small	47.6%
Total	35.8%

In Table 2 above, the percent change of net patient revenue for each hospital peer group is displayed. While the large peer group had the largest dollar amount, it increased the lowest in terms of percent change (34.2%). The medium peer group increased the most with 50.3% percent change and the small peer group increased by 47.6% percent change over the period. Overall, net patient revenue increased by 35.8% from 2014 to 2019.

B. Net Patient Revenue by Payer Type

Net patient revenue by payer type approximates the payments a hospital receives for a particular payer type. For the analysis of this section all numbers are representative of all hospitals that reported for FY 2019. Due to this, one may see discrepancies between the trended analysis above. In addition to the peer groups for FY 2019 statewide totals are presented by payer type for the DOI regions.

Table 3: 2019 Net Patient Revenue by Payer Type (in millions)

Major Payer Type	Net Patient Revenue
Medicare	\$ 4,574.8
Medicaid	\$ 2,633.4
Commercial	\$ 9,677.0
Self-Pay	\$ 145.8
Colorado Indigent Care Program (CICP)/Other	\$ 536.6
Total	\$ 17,567.6

In Table 3, totals for net patient revenue by payer type is represented in millions. In 2019, total net patient revenue was \$ 17.3 billion. The commercial payer category made up approximately half (55.1%) of total net patient revenue with \$9.6 billion. The next largest payer category was Medicare, which roughly 26.0% of total net patient revenue with \$4.5 billion. Medicaid net patient revenue was \$2.6 billion, or 15.0% of total. The two remaining categories make up a little under 5% with CICP/Other

net patient revenue totaling \$536.6 million and self-pay totaling \$145.8 million, or 3.1% and 0.8%, respectively.

Table 4: 2019 Net Patient Revenue by Payer Type by Hospital Peer Group (in millions)

Payer Type	Large	Medium	Small
Medicare	\$ 3,746.6	\$ 501.5	\$ 326.7
Medicaid	\$ 2,278.5	\$ 209.9	\$ 144.9
Commercial	\$ 8,149.7	\$ 1,122.4	\$ 404.9
Self-Pay	\$ 87.4	\$ 31.7	\$ 26.6
CICP/Other	\$ 472.7	\$ 35.6	\$ 28.4
Total	\$ 14,735.0	\$ 1,901.1	\$ 931.5

In **Table 4**, 2019 net patient revenue by payer type is broken down by hospital peer groups. For the large peer group, net patient revenue came to a total of \$14.7 billion, which was approximately 83.9% of total net patient revenue. The commercial payer category makes up approximately half (55.3%) of the large peer group's total with \$8.1 billion. For the medium peer group, a total net patient revenue came to \$1.9 billion, 10.8% of the total net patient revenue for 2019. The split of net patient revenue by payer category was fairly similar for the large and the medium peer groups; the medium peer group was approximately half commercial payer category with \$1.1 billion, 59.0% and Medicare with \$501.5 million, or 26.4%. For the small peer group, the total net patient revenue came to \$931.5 million, which was approximately 5.3% of total net patient revenue for 2019. While commercial net patient revenue is the largest portion of the small peer group's total net patient revenue with \$404.9 million, or 43.5%; the Medicare category, \$326.7 million or 35.1%, made up a larger portion of the small peer groups net patient revenue compared to the large and medium peer groups, 25.4% and 26.4%, respectively.

Table 5: 2019 Net Patient Revenue by Payer by DOI region (in millions)

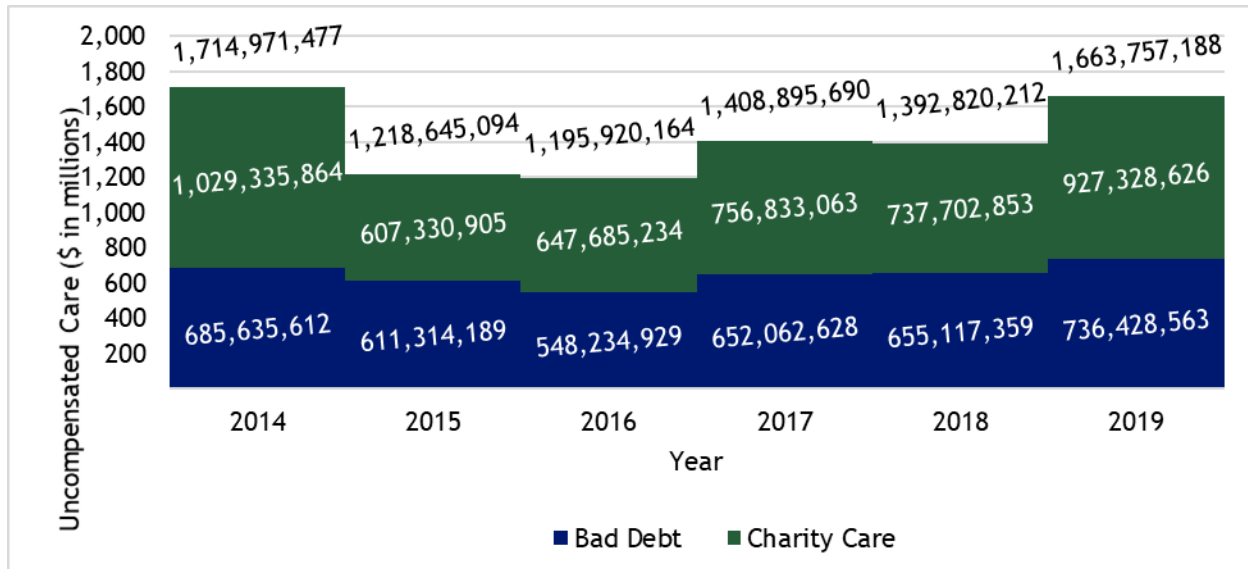

Payer Type	Medicare	Medicaid	Commercial	Self-pay	CICP/ Other	Total
Boulder	\$ 288.4	\$ 76.8	\$ 535.8	\$ 19.1	\$ 17.9	\$ 937.9
Colorado Springs	\$ 511.1	\$ 254.0	\$ 879.0	\$ 25.5	\$ 97.4	\$ 1,767.1
Denver	\$ 2,248.1	\$ 1,658.3	\$ 5,589.7	\$ 1.0	\$ 300.1	\$ 9,797.2
East	\$ 222.8	\$ 136.1	\$ 214.9	\$ 18.5	\$ 28.9	\$ 621.1
Ft. Collins	\$ 403.2	\$ 158.1	\$ 877.3	\$ 16.0	\$ 28.0	\$ 1,482.6
Grand Junction	\$ 204.0	\$ 61.4	\$ 291.2	\$ 6.5	\$ 79.2	\$ 642.3
Greeley	\$ 123.3	\$ 85.6	\$ 228.5	\$ 15.0	\$ 47.4	\$ 461.8
Pueblo	\$ 201.2	\$ 67.2	\$ 190.6	\$ 11.2	-\$ 4.1	\$ 466.2
West	\$ 372.7	\$ 135.9	\$ 870.1	\$ 32.9	-\$ 20.2	\$ 1,391.4
Total	\$ 4,574.8	\$ 2,316.6	\$ 9,677.6	\$ 145.8	\$ 604.4	\$ 17,318.6

In **Table 5**, 2019 net patient revenue by payer type is broken down by the nine DOI regions. The Denver region made up total net patient revenue with \$9.7 billion, or 55.8% of total net patient revenue. Overall, the Denver region made up most of the net patient revenue in each of the payer categories, except for the self-pay category, which was more evenly distributed across all regions, with the highest being in the West region with \$32.9 million, or 22.6%. In the majority of regions, commercial net patient revenue made up the highest proportion of total net patient revenue; on average, the percentage of total net patient each region had for commercial is 50.7%. Medicare was the second largest in terms of net patient revenue for each DOI region; when averaged Medicare net patient revenue approximated 30.5% for all regions.

C. Uncompensated Care Charges in Total

Uncompensated care is the total amount of care a hospital provides that does not expect to, or will not, receive compensation for providing the service. There are two main components that make up uncompensated care, bad debt and charity care, both are expressed within this report in terms of charges written-off.

Graph 2: Uncompensated Care Charges by Type

The data in **Graph 2** shows total uncompensated care has declined since 2014, but that there was a noticeable uptick from 2018 to 2019, that brought total uncompensated care almost to 2014 levels. This graph indicates charity care is where the most variation takes place, with a range of \$422.0 million over the period. From 2014 to 2019, charity care decreased by 9.9%, or \$102.0 million. Bad debt has had less variation over the period with a range of \$188.2 million. Bad debt has increased over the period, with an uptick in 2019, saw an increase over the period of 7.4% or \$50.8 million.

Table 6: Uncompensated Care Charges by Hospital Peer Groups (in millions)

Peer Group	2014	2015	2016	2017	2018	2019
Large	\$1,582.1	\$1,120.0	\$1,092.8	\$1,273.3	\$1,277.1	\$1,528.4
Medium	\$84.6	\$61.7	\$64.4	\$89.8	\$71.3	\$91.1
Small	\$48.2	\$36.9	\$38.8	\$45.8	\$44.4	\$44.1
Total	\$1,715.0	\$1,218.6	\$1,195.9	\$1,408.9	\$1,392.8	\$1,663.8

Table 7: Uncompensated Care Charges Percent Change by Hospital Peer Groups

Peer Group	Uncompensated Care Charges % Change (2014 -2019)
Large	-3.4%
Medium	7.7%
Small	-8.6%
Total	-3.0%

In the table above (**Table 6**) uncompensated care is broken down by the hospital peer groups, with whole dollar amounts for each year and hospital peer group and in total presented. **Table 7** shows uncompensated growth care from 2014 to 2019 for each of the hospital peer groups. The majority of uncompensated care can be found in the large peer group, \$1.5 billion of the total \$1.6 billion in 2019. Overall, uncompensated care for the large peer group decreased by 3.8% from 2014 to 2019. The small peer groups decreased overall but less than the large peer group, by 1.3%. The Medium peer group increased in uncompensated care costs by \$13.2 million, or 7.7%. Uncompensated care decreased by 3.8% over the same period.

2. Charity Care Charges

One main component of uncompensated care is charity care. It is defined as health services for which hospitals do not expect to receive, in full or in part, payment because the hospital had determined, with the assistance of the patient, the patient's inability to pay.³

Table 8: Charity Care Charges by Hospital Peer Group

Peer Group	2014	2015	2016	2017	2018	2019
Large	\$980.7	\$573.2	\$615.9	\$712.8	\$703.3	\$882.9
Medium	\$32.7	\$24.2	\$24.8	\$33.0	\$23.7	\$32.0
Small	\$16.0	\$9.9	\$7.0	\$11.0	\$10.6	\$12.5
Total	\$1,029.3	\$607.3	\$647.7	\$756.8	\$737.7	\$927.3

Table 9: Charity Care Charges Percent Change by Hospital Peer Group

Peer Group	Charity Care Charges % Change (2014 -2019)
Large	-10.0%
Medium	-2.3%
Small	-22.0%
Total	-9.9%

The data in **Table 8** shows how charity care was distributed amongst the hospital peer groups and in total. **Table 9** shows the

³ Definition of Uncompensated Care. Retrieved from <https://www.aha.org/system/files/2019-01/uncompensated-care-fact-sheet-jan-2019.pdf>.

percent change for each hospital peer group. Overall, charity care decreased by \$102.0 million, or as mentioned above, 9.9% from 2014 to 2019. The large peer group composed most of the overall decrease with a reduction of \$97.8 million over the period, or a decrease 10.0%. The medium and small peer groups by roughly \$0.7 million and \$3.5 million, respectively. The medium peer groups decreased by 2.3% and the small peer group decreased by 22.0%.

3. Bad Debt Charges

The other portion of uncompensated care is bad debt. Bad debt is a record of lost revenue for health services for which a hospital determined the patient had a financial responsibility to pay, but that patient did not pay.¹⁰ This is in contrast to charity care, in which hospitals have determined before the billing process begins that partial or full non-payments would occur for patients.

Table 10: Bad Debt Charges by Hospital Peer Group (in millions)

Peer Group	2014	2015	2016	2017	2018	2019
Large	\$601.5	\$546.8	\$476.9	\$560.5	\$573.7	\$645.6
Medium	\$51.9	\$37.5	\$39.5	\$56.8	\$47.6	\$59.2
Small	\$32.2	\$27.0	\$31.8	\$34.8	\$33.8	\$31.6
Total	\$685.6	\$611.3	\$548.2	\$652.1	\$655.1	\$736.4

Table 11: Bad Debt Charges Percent Change by Hospital Peer Group

Peer Group	Bad Debt Charges % Change (2014 -2019)
Large	7.3%
Medium	13.9%
Small	-2.0%
Grand Total	7.4%

In **Table 10**, bad debt is displayed in total by year and by each of the hospital peer groups. In **Table 11**, the percent change for each category in **Table 10** is presented. On the aggregate level, bad debt increased by \$50.7 million between 2014 and 2019, or 7.4%. Like charity care the large peer group made up the bulk of the decrease in overall bad debt for the period. Bad debt for the

large peer group increased by \$44.2 million, or 7.3%. The medium peer group saw an increase in bad debt of \$7.2 million, or 13.9%, while the small peer group, saw a decrease in bad debt over the period of \$633.1 thousand, or 2.0%.

D. Uncompensated Care Costs by Payer Type

Uncompensated care costs are calculated by adding charity care and bad debt charges together and multiplying by a cost-to-charge ratio. Each individual hospital has a cost-to-charge ratio and it is calculated by total expenses (exclusive of bad debt) and dividing that figure by the sum of total charges and other operating revenue. The table below represents uncompensated care costs by payer types.

Table 12: 2019 Uncompensated Care Costs by Payer Type (in millions)

Major Payer	Bad Debt Costs	Charity Care Costs	Uncompensated Care Costs
Medicare	\$ 19.3	\$ 5.2	\$ 24.5
Medicaid	\$ 4.1	\$ 6.6	\$ 10.6
Commercial	\$ 60.7	\$ 14.5	\$ 75.1
Self-pay	\$ 111.4	\$ 131.3	\$ 242.7
CICP/ Other	\$ 9.2	\$ 90.2	\$ 99.4
Total	\$ 204.7	\$ 247.7	\$ 452.4

In **Table 12**, uncompensated care costs are represented in total and for bad debt and charity care by payer type. In 2019, uncompensated care costs totaled \$452.4 million, and was primarily made up of the self-pay category with \$242.7 million, or 53.6%. The second highest payer type to contribute to uncompensated care costs was the CICP/other payer type with \$99.4 million in uncompensated care costs. The lowest proportion of uncompensated care costs came from the Medicaid payer type category with \$10.7 million in compensated care costs, or 2.4%.

Charity care costs came to a total of \$247.7 million, which is approximately 53.6% of total uncompensated care. The self-pay payer category made up most of charity care in 2019, 53.0% of the costs, or \$131.3 million. The second largest category for charity care uncompensated care costs was the CICP/Other category, which was \$90.2 million, or 36.4% of total uncompensated care costs.

Bad debt costs were \$204.7 million, representing approximately 45.2% of total uncompensated care costs. The self-pay category made up approximately half of the costs for bad debt with 54.4%, followed by commercial payers making up 29.6%, or \$ 111.4 million and \$60.7 million, respectively.

1. Charity Care Costs

Table 13: 2019 Charity Care Costs by Payer by Peer Group (in million)

Payer Type	Large	Medium	Small	Total
Medicare	\$ 3.6	\$ 1.0	\$ 0.5	\$ 5.2
Medicaid	\$ 5.7	\$ 0.8	\$ 0.1	\$ 6.6
Commercial	\$ 8.7	\$ 3.9	\$ 1.9	\$ 14.5
Self-pay	\$ 119.5	\$ 6.4	\$ 5.4	\$ 131.3
CICP/ Other	\$ 71.7	\$ 14.7	\$ 3.9	\$ 90.2
Total	\$ 209.2	\$ 26.8	\$ 11.8	\$ 247.7

In **Table 13**, charity care costs are broken down by hospital peer groups and by major payer types. In 2019, the large peer group made up the majority of charity care costs which totaled \$209.2 million, or 84.5% of the total charity care costs. Self-pay payer made up 57.1% of charity care costs, or \$119.5 million. The medium peer group made up approximately 10.8% of total charity care costs, or \$26.8 million. Unlike the large or the small peer groups, the CICP/Other category made up the majority of charity care costs for the medium peer group with \$14.7 million, or 54.9% of total. The small peer group made up approximately 4.7% of total charity care costs with \$11.8 million. Like the large peer group, the self-pay payer category made up the majority of the small peer group's charity care costs with \$5.4 million. Overall the large peer group made up the majority of charity care costs for each payer type.

Table 14: 2019 Charity Care Costs by Payer Type by DOI Region (in millions)

DOI Region	Medicare	Medicaid	Commercial	Self-pay	CICP/ Other	Total
Boulder	\$ 1.5	\$ 0.3	\$ 1.3	\$ 0.8	\$ 4.1	\$ 8.1

DOI Region	Medicare	Medicaid	Commercial	Self-pay	CICP/ Other	Total
Colorado Springs	\$ 0.3	\$ 0.3	\$ 1.5	\$ 3.5	\$ 15.2	\$ 20.7
Denver	\$ 1.4	\$ 4.7	\$ 6.0	\$ 97.5	\$ 46.2	\$ 155.8
East	\$ 0.8	\$ 0.4	\$ 0.4	\$ 2.3	\$ 1.9	\$ 5.8
Ft. Collins	\$ 0.2	\$ 0.1	\$ 1.2	\$ 9.5	\$ 5.9	\$ 16.9
Grand Junction	\$ 0.3	\$ 0.3	\$ 1.8	\$ 5.6	\$ 0.7	\$ 8.8
Greeley	\$ 0.1	\$ 0.0	\$ 0.4	\$ 8.4	\$ 1.5	\$ 10.4
Pueblo	\$ 0.0	\$ 0.0	\$ 0.0	\$ 0.0	\$ 2.8	\$ 2.8
West	\$ 0.6	\$ 0.5	\$ 1.8	\$ 3.7	\$ 11.9	\$ 18.4
Total	\$ 5.2	\$ 6.6	\$ 14.4	\$ 131.3	\$ 90.2	\$ 247.7

In **Table 14**, charity care costs are represented in total for each payer type broken down by DOI regions. In 2019, total charity care costs were \$245.0 million. The majority of charity care costs were in the Denver region with \$155.8 million, or 62.9%. The second largest region in total for charity care costs was the Colorado Springs region with \$20.7 million, or 8.3%. The Denver region was the driver of charity care costs in 2019, making up the largest portion of each payer type except for the Medicare payer, which was slightly more in the Boulder region.

2. Bad Debt Costs

Table 15: 2019 Bad Debt Costs by Payer by Peer Group (in millions)

Payer Type	Large	Medium	Small	Total
Medicare	\$ 13.0	\$ 4.3	\$ 2.1	\$ 19.3
Medicaid	\$ 2.1	\$ 1.1	\$ 0.9	\$ 4.1
Commercial	\$ 42.1	\$ 11.7	\$ 6.9	\$ 60.7
Self-pay	\$ 84.8	\$ 15.8	\$ 10.7	\$ 111.4
CICP/ Other	\$ 6.2	\$ 0.7	\$ 2.3	\$ 9.2
Total	\$ 148.2	\$ 33.6	\$ 22.9	\$ 204.7

In **Table 15**, bad debt costs are broken down by hospital peer groups and by major payer types. In 2019, the large peer group made up the majority of bad debt costs which totaled \$148.2 million, or 72.4% of the total bad debt costs. Self-pay made up 57.3% of bad debt costs for the large peer group, or \$84.8 million. The second largest payer category was the commercial payer,

with \$42.1 million, or 28.4% of the total large peer group. The medium peer group made up approximately 16.4% of total bad debt costs, or \$33.6 million. Like the large peer groups the self-pay category made up the majority of bad debt costs for the medium peer group with \$15.8 million, or 47.2% of total bad debt costs for the medium peer group. The small peer group made up approximately 11.2% of total bad debt costs with \$22.9 million. Like the large and medium peer group, the self-pay payer category made up the majority of the small peer group's bad debt costs with \$11.3 million. Overall the large peer group made up the majority of bad debt costs for each payer type. The self-pay category made up the majority of total bad debt costs with \$111.4 million, or 54.4%; followed by the Commercial payer group with \$60.7 million, or 29.6%.

Table 16: 2019 Bad Debt Costs by Payer Type by DOI Region (in millions)

DOI Region	Medicare	Medicaid	Commercial	Self-Pay	CICP/ Other	Total
Boulder	\$ 1.6	\$ 0.2	\$ 3.3	\$ 2.1	\$ 0.2	\$ 7.4
Colorado Springs	\$ 2.0	\$ 0.8	\$ 4.0	\$ 10.9	\$ 0.8	\$ 18.6
Denver	\$ 7.5	\$ 0.0	\$ 26.8	\$ 61.7	\$ 4.3	\$ 100.2
East	\$ 2.6	\$ 1.4	\$ 5.2	\$ 5.6	\$ 0.6	\$ 15.4
Ft. Collins	\$ 1.0	\$ 0.5	\$ 4.8	\$ 7.0	\$ 0.2	\$ 13.6
Grand Junction	\$ 1.4	\$ 0.1	\$ 3.0	\$ 3.2	\$ 0.6	\$ 8.4
Greeley	\$ 1.0	\$ 0.3	\$ 3.6	\$ 2.2	\$ 0.1	\$ 7.2
Pueblo	\$ 0.5	\$ 0.0	\$ 1.7	\$ 1.8	\$ 0.1	\$ 4.1
West	\$ 1.7	\$ 0.5	\$ 8.3	\$ 16.9	\$ 2.3	\$ 29.7
Total	\$ 19.3	\$ 4.1	\$ 60.7	\$ 111.4	\$ 9.2	\$ 204.7

In **Table 16**, bad debt costs are represented in total for each payer type and broken down by DOI regions. In 2019, total bad debt costs were \$204.7 million. The majority of bad debt costs were in the Denver region with \$100.0 million, or 48.9%. The second largest region in total for bad debt costs was the West region with \$29.7 million, or 14.5%. The Denver region was the driver of bad debt costs in 2019 and made up the largest portion

of each payer type except for the Medicaid payer, which was spread out over several regions, with the largest being the East region with 35.2% of total Medicaid bad debt costs, or \$1.4 million. While they appear as zero in million, both Denver and Pueblo regions reported bad debt Medicaid costs of \$28 thousand and \$18 thousand, respectively.

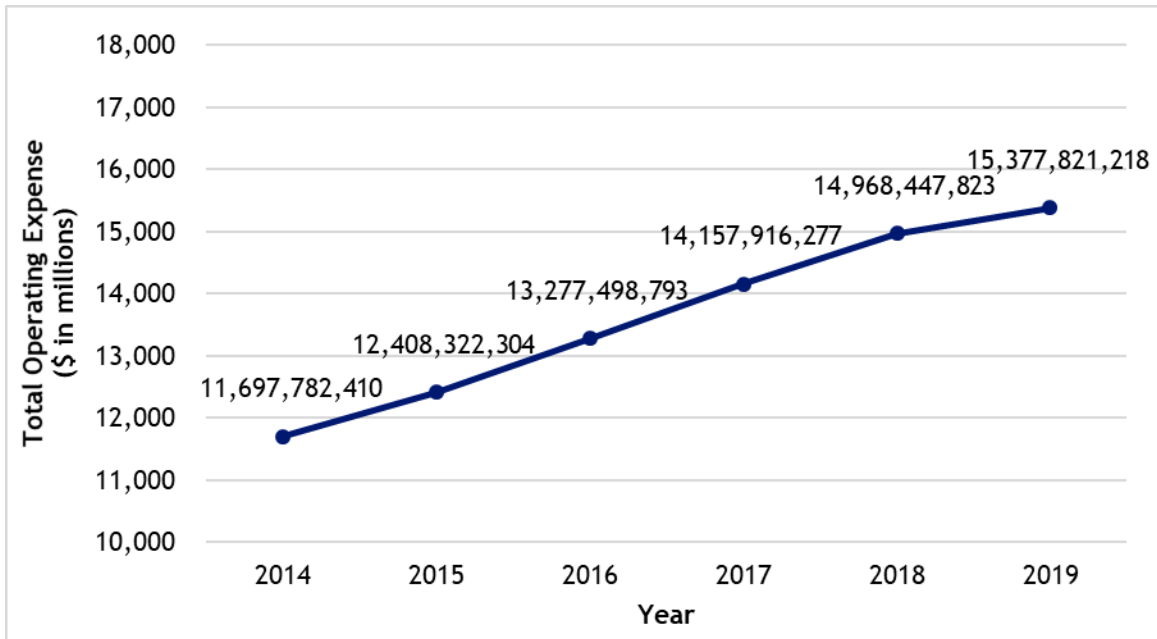

E. Operating Expenses

Operating expenses for hospitals are the expenses incurred from the normal business operations of running and operating a hospital. For a hospital, some of these expenses could include salaries, rent, management fees, purchase of supplies and utilities. In this section, the Department will break down total operating expenses by expense type and review total operating expense over the period.

1. Total Operating Expense Growth

In **Graph 3**, total operating expense for all reporting hospitals is displayed for the period of 2014 to 2019. Between this period, the total operating expenses increased by roughly \$3.7 billion, or 31.5%. This analysis is only looking at hospitals open for the full period of the dataset (from 2014 to 2019) and reported data for all year.

Graph 3: Total Operating Expense

Each year, total operating expenses grew between \$409.4 million and \$880.4 million, or between 2.7% and 7.0% percent change, with an average growth of \$736.0 million each year, or 5.6%.

When split up by hospital peer group, total operating expenses growth is greatest for the medium peer group (Tables 17 and 18).

Table 17: Total Operating Expense by Total and by Hospital Peer Group (in millions)

Peer Group	2014	2015	2016	2017	2018	2019
Large	\$10,296.1	\$10,874.1	\$11,628.3	\$12,406.9	\$13,091.9	\$13,372.7
Medium	\$978.4	\$1,083.1	\$1,166.5	\$1,235.4	\$1,319.7	\$1,408.6
Small	\$423.3	\$451.1	\$482.7	\$515.6	\$556.8	\$596.5
Total	\$11,697.8	\$12,408.3	\$13,277.5	\$14,157.9	\$14,968.4	\$15,377.8

Table 18: Total Operating Expense Percent Change by Hospital Peer Group

Peer Group	Total Operating Expense % Change (2014 -2019)
Large	29.9%
Medium	44.0%
Small	40.9%
Total	31.5%

2. Operating Expense Mix

Hospitals submitted around 30 different types of expenses. Expense types ranged from the highest expense category (salaries, benefits, and wages) to small fill-in categories for expenses like bank fees and debt issuance.

To better understand operating expenses, in addition to reporting the total for each expense type, the Department also asked hospitals to allocate expenses into categories: general and administrative, patient and other. Some hospitals did not allocate their expenses to these categories, so an unallocated category is presented as well.

The pie chart in **Graph 4** displays a high-level mix of aggregate operating expenses by type for 2019, showing most Colorado hospital expenses are for patient services. **Table 19** below provides a more detailed breakdown of operating expenses and uses color to indicate how the expenses are included in the operating expense pie chart of **Graph 4**.

Patient expenses (service and other) represent 66.8% of Colorado hospital operating expenses. Patient service expenses make up 57.0% of operating expenses and patient other expenses make up 9.8% of operating expenses.⁴

General and administrative expenses represent 14.1% of operating expenses and building and major equipment expenses make up 9.1% of operating expenses.

⁴ For expenses that hospitals allocated as being for patients, the Department chose expense lines that clearly relate to patient services to be classified as patient services, while the remainder are classified as patient other. Examples of expenses that hospitals reported as being for patients that fall in the patient other category include: contracted services, general other, insurance expense, management fees, provider fees, and purchased services.

Graph 4: 2019 Mix of Operating Expenses by Type

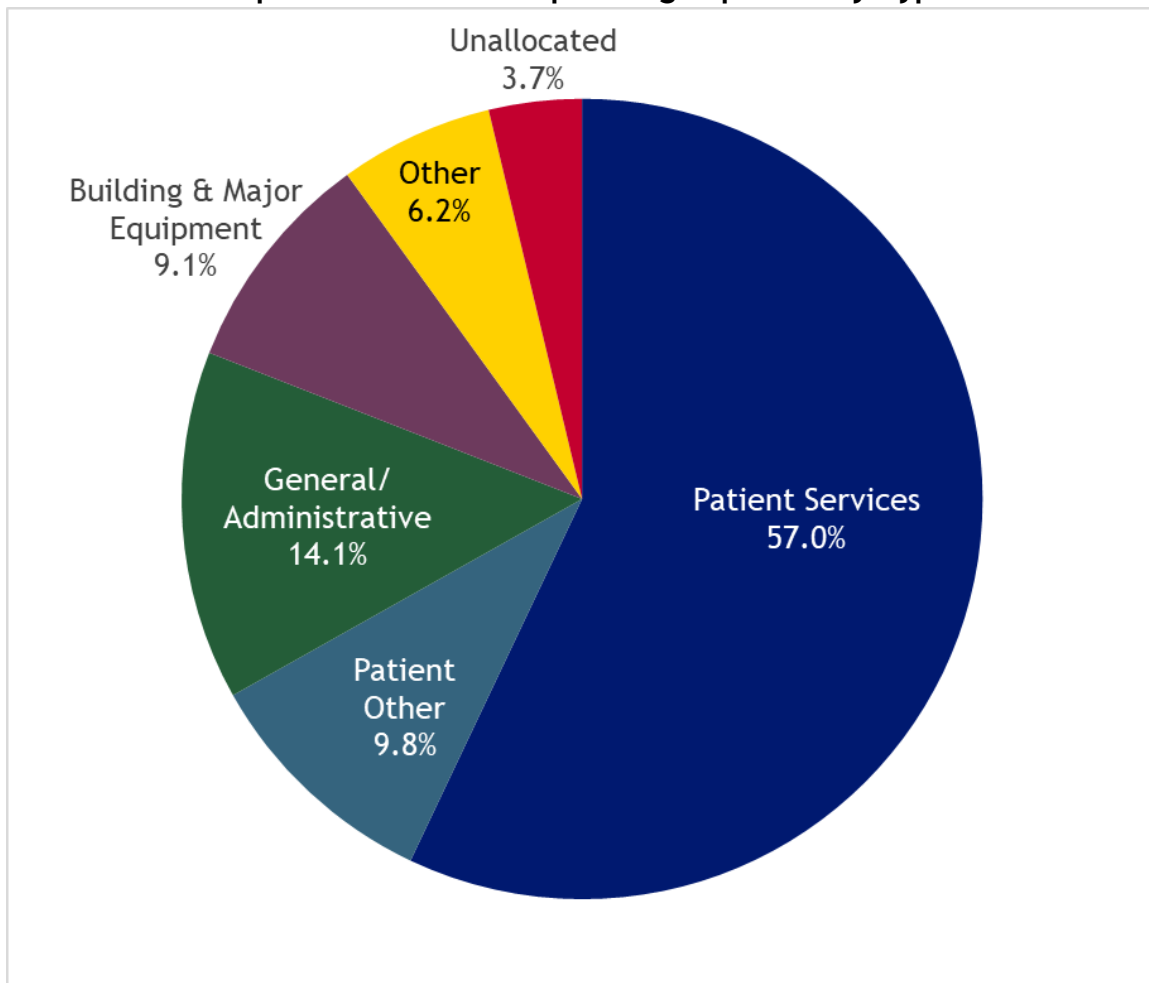

Table 19: 2019 Mix of Operating Expenses by Type (in millions)

Expense Type	Expense	Patient	General/ Admin	Other	Unallocated ⁵	Total
Services	Salaries, Wages, & Benefits	\$5,734.2	\$980.3	\$344.1	\$455.0	\$7,513.9
Services	Physician Remuneration	\$860.0	\$6.3	\$27.6	\$10.3	\$904.3
Services	Medical Drugs	\$877.4	\$84.6	\$16.9	\$27.2	\$1,006.1
Services	Medical Supplies	\$1,613.6	\$7.2	\$30.5	\$58.0	\$1,709.3
Services	Minor Equipment & Other Supplies	\$421.1	\$39.8	\$20.1	\$15.9	\$496.6
Other	Interest	\$120.1	\$65.0	\$14.6	\$13.8	\$213.4

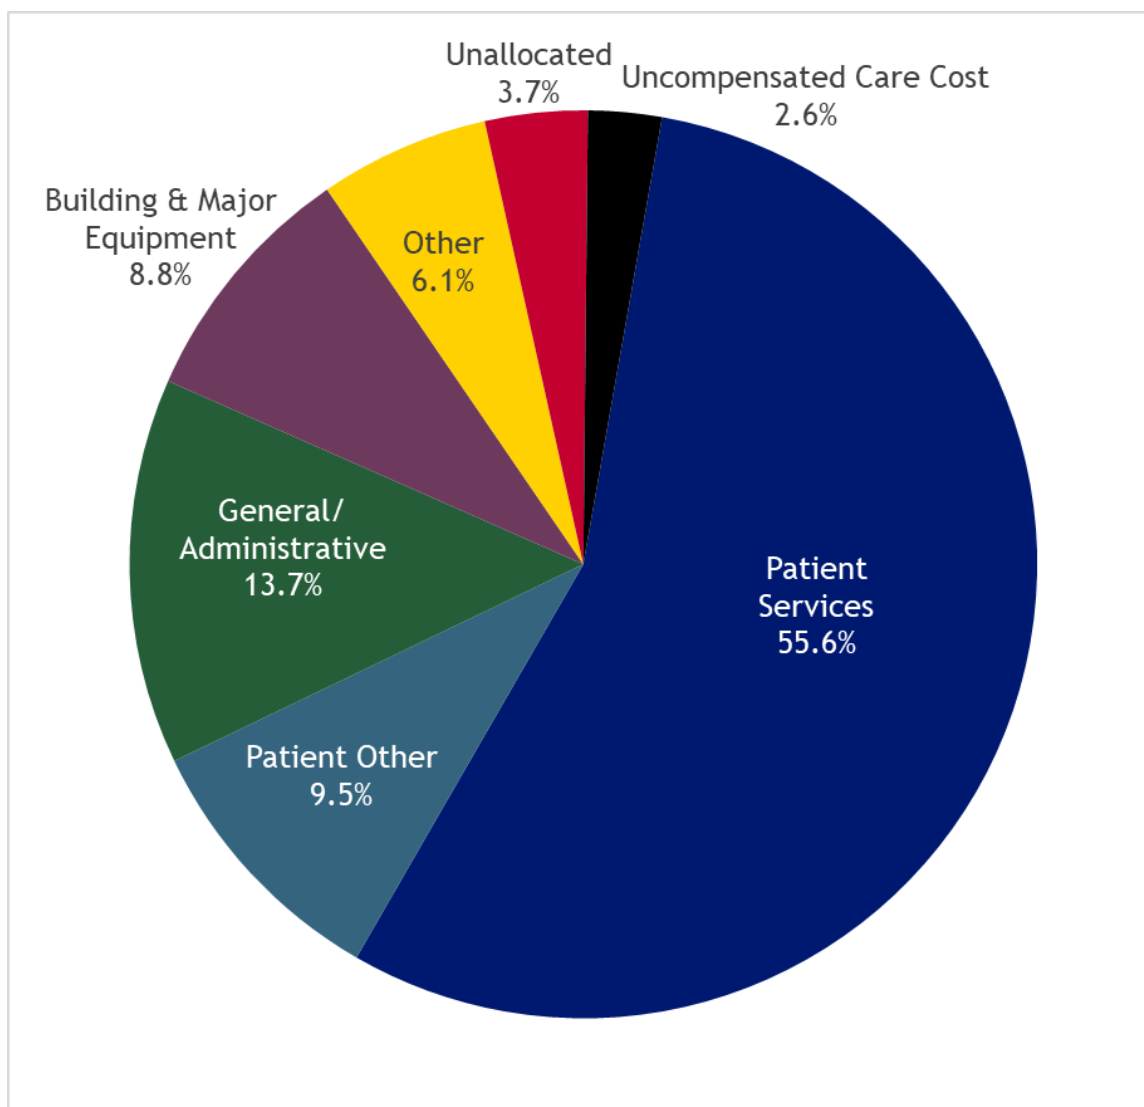

⁵ Unallocated costs that were other expenses were put into the Other category.

Expense Type	Expense	Patient	General/ Admin	Other	Unallocated ⁵	Total
Other	Other	\$1,512.4	\$1,168.0	\$547.7	\$79.8	\$3,308.0
Building & Major Equipment	Depreciation	\$680.3	\$166.6	\$58.6	\$36.6	\$942.1
Building & Major Equipment	Leases & Rental	\$138.8	\$35.2	\$33.6	\$10.9	\$218.5
Building & Major Equipment	Maintenance & Utilities	\$195.9	\$84.6	\$46.1	\$25.2	\$351.8
Total	Total	\$12,153.8	\$2,637.6	\$1,140.0	\$732.8	\$16,664.2

Another assessment of expense mix is the addition of uncompensated care costs as an additional operating expense. Uncompensated care is typically reported as write-offs to gross charges, but as discussed in the Uncompensated Care Costs section above, a cost-to-charge ratio can be applied to the write-offs to estimate the cost of uncompensated care.

As depicted in **Graph 5**, uncompensated care costs represent 2.6% of costs when included as an operating expense. When included as a patient expense, patient expenses represent 67.7% of operating expenses.

Graph 5: 2019 Mix of Operating Expenses with Uncompensated Care Costs by Type

Below (Graph 6 and Table 20) represents the mix of operating expense types by hospital peer group. Unallocated costs are excluded from the graph.⁶ With the exclusion, the medium and small peer groups do not represent all operating expenses reported, but those that hospitals allocated to these expense types. In order to improve the dataset for future reports, the

⁶ Half of smaller hospitals did not allocate or are unable to allocate expense lines as being for patients or for administration.

Department will work with smaller hospitals to improve the allocation of expenses in the expense type categories.

Graph 6: 2019 Operating Expense Mix by Hospital Peer Group Excluding Unallocated Costs

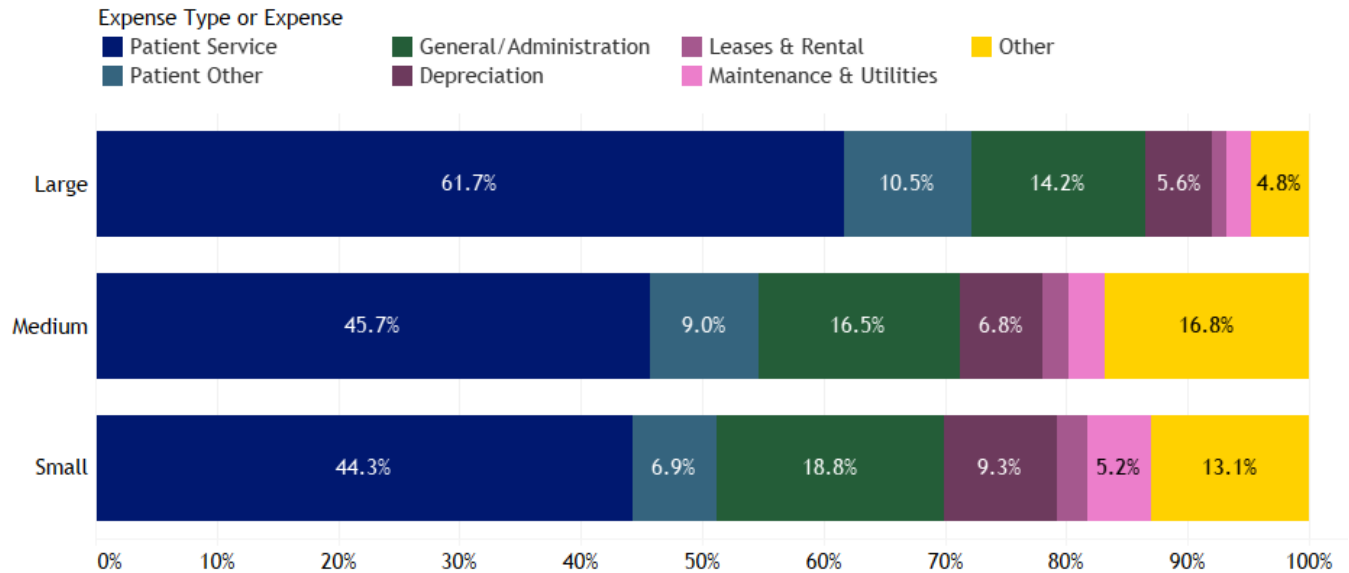

Table 20: 2019 Operating Expense Mix by Hospital Peer Group Excluding Unallocated Costs

Expense Type or Expense	Large	Medium	Small
Patient	72.2%	54.7%	51.1%
Patient Service	61.7%	45.7%	44.3%
Patient Other	10.5%	9.0%	6.9%
General/Administration	14.2%	16.5%	18.8%
Building & Major Equipment	8.7%	12.0%	17.0%
Depreciation	5.6%	6.8%	9.3%
Leases & Rental	1.2%	2.2%	2.6%
Maintenance & Utilities	1.9%	3.0%	5.2%
Other	4.8%	16.8%	13.1%
Grand Total	100.0%	100.0%	100.0%

Although not an all-inclusive dataset, mix of remaining costs by peer groups has the following findings:

- Larger hospitals were able to fully allocate costs and have the smallest category of other expenses. This may indicate this group has a more advanced expense tracking system or were able to dedicate more resources for the submission process for this report.
- A greater proportion of the large hospital peer group's operating expenses were allocated for patients (72.2%), while the small hospital peer group's proportion of expenses allocated as for patients was the lowest (51.1%).
- The small hospital peer group has the largest proportion of expenses for buildings and major equipment (17.0%) and general and administration (18.8%). This is an indication of economies of scale.

When operating expenses are reviewed by DOI region (**Graph 7** and **Table 21**), there is regional variation in expense mix when allocated to patient, and general and administration categories. Unallocated costs are excluded from this graph to make the regions more comparable. Three regions (East, Grand Junction, and West) are less comparable to the others as these are regions where hospitals did not allocate their expenses as being for patients or for administration.

Graph 7: 2019 Operating Expense Mix by DOI Region, Excluding Unallocated Costs

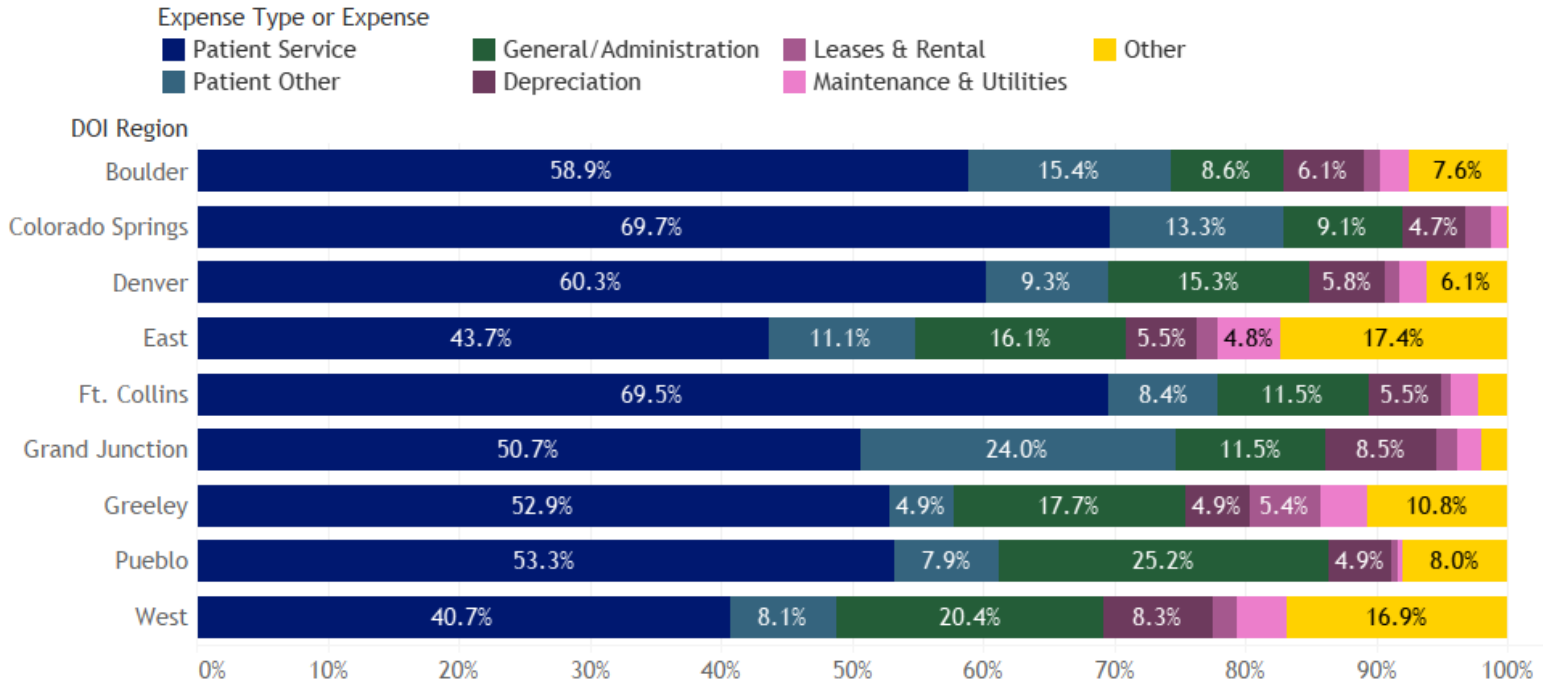

Table 21: 2019 Operating Expense Mix by DOI Region, Excluding Unallocated Costs

DOI Region	Boulder	CO Springs	Denver	East	Ft Collins	Grand Junction	Greeley	Pueblo	West
Patient	74.3%	83.0%	69.5%	54.8%	77.9%	74.7%	57.8%	61.2%	48.8%
Patient Service	58.9%	69.7%	60.3%	43.7%	69.5%	50.7%	52.9%	53.3%	40.7%
Patient Other	15.4%	13.3%	9.3%	11.1%	8.4%	24.0%	4.9%	7.9%	8.1%
General/ Administration	8.6%	9.1%	15.3%	16.1%	11.5%	11.5%	17.7%	25.2%	20.4%
Building & Major Equipment	9.5%	8.0%	9.0%	11.8%	8.4%	11.9%	13.8%	5.7%	13.9%
Depreciation	6.1%	4.7%	5.8%	5.5%	5.5%	8.5%	4.9%	4.9%	8.3%
Leases & Rental	1.2%	1.9%	1.1%	1.5%	0.8%	1.6%	5.4%	0.5%	1.9%
Maintenance & Utilities	2.1%	1.3%	2.1%	4.8%	2.0%	1.8%	3.5%	0.3%	3.7%
Other	7.6%	0.0%	6.1%	17.4%	2.3%	2.0%	10.8%	8.0%	16.9%
Grand Total	100.0%	100.0%	100.0%	100.0%	100.0%	100.0%	100.0%	100.0%	100.0%

Several of the findings from comparing operating expense mix by DOI region when split up into these expense types are as follows:

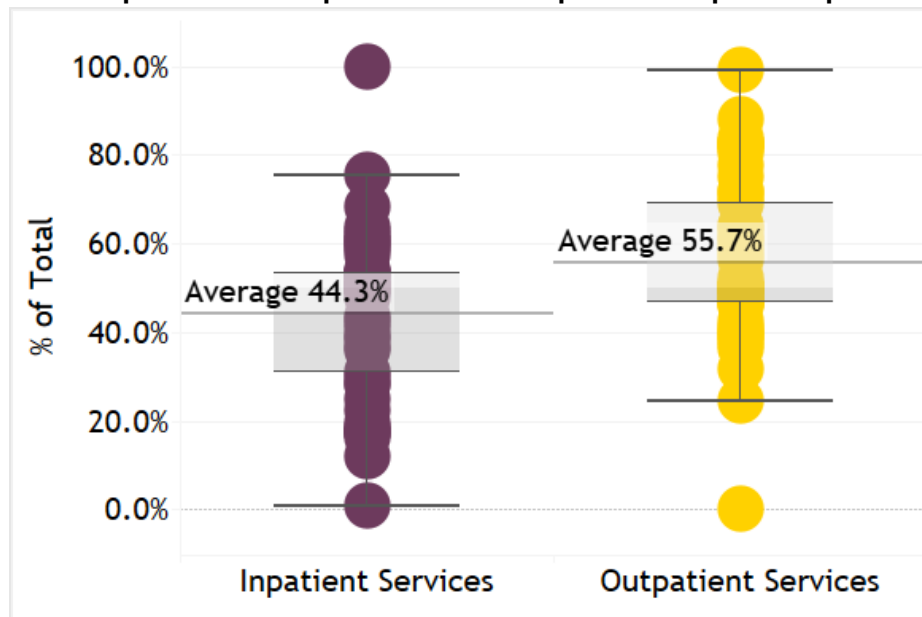

- Colorado Springs has the greatest proportion of expenses allocated to patients (83.0%) followed by Ft. Collins (77.9%).
- Boulder's proportion of operating expenses for general and administration cost are the lowest amongst the regions (8.6%), followed by Colorado Springs (9.1%). Pueblo's are the highest (25.2%).
- Pueblo's proportion of building and major equipment costs is the lowest (5.7%) while the West is the highest (13.8%).

3. Inpatient and Outpatient Service Split

The Department asked hospitals to review what proportion of their expenses were for inpatient and outpatient services. The Department received feedback that this was not a straightforward split. Hospitals have staff who admit and treat both inpatient and outpatient patients, and hospital equipment is used for both inpatient and outpatient services. Many hospitals used gross charges in their allocation.

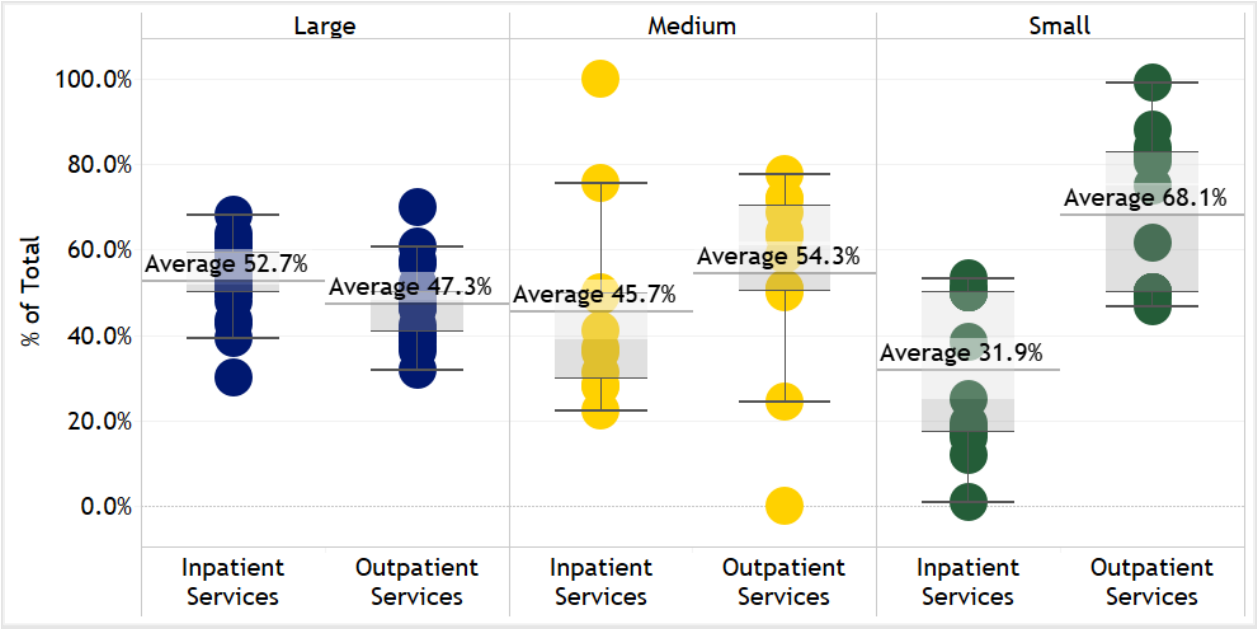

Graph 8 represents hospital estimates of what proportion of delivery of service expenses are for inpatient and outpatient services for all hospitals who reported a split. Hospitals reported their operating expenses are, on average, 44.7% for inpatient services and, on average, 55.3% for outpatient services.

Graph 8: 2019 Inpatient and Outpatient Expense Split

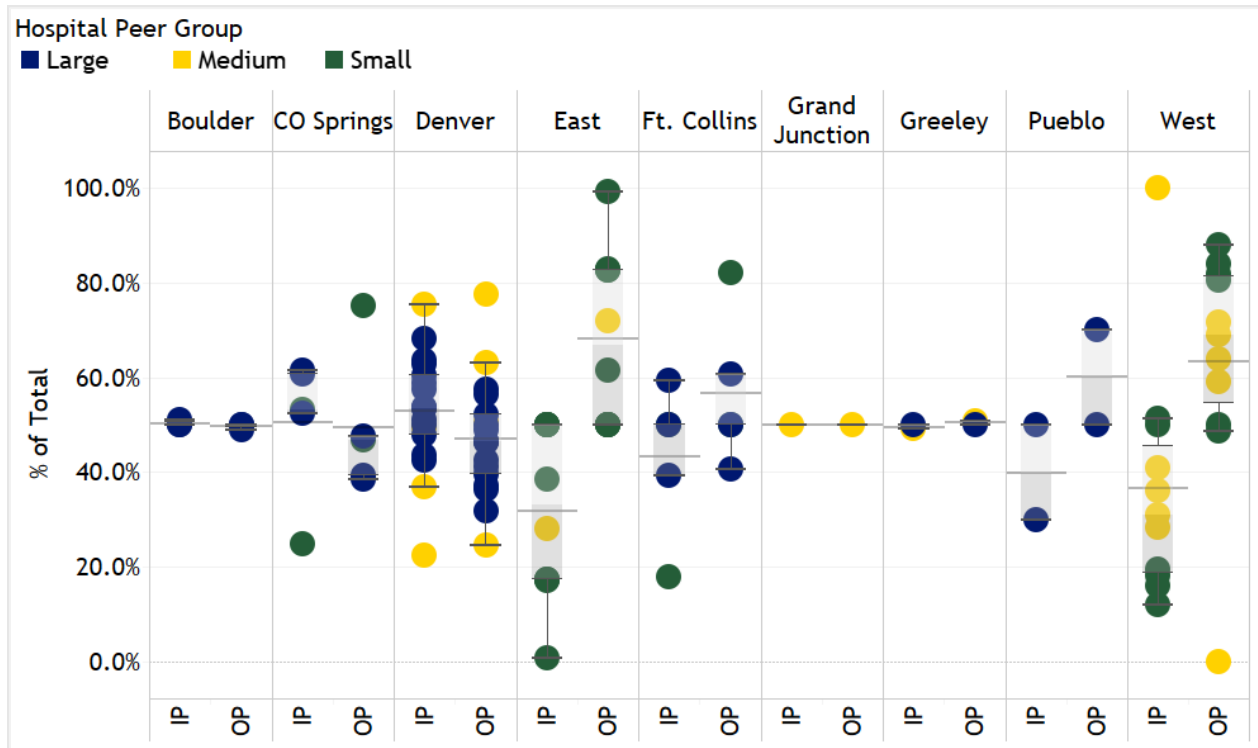

The variation amongst the hospital peer groups is revealed by looking at the inpatient and outpatient service split. The large group does not reflect the statewide values. More of the large group's service expenses are for inpatient services (on average 52.7%). As a result of the quantity of hospitals in the peer groups, the medium and small peer groups drive the statewide results. The medium peer group's inpatient and outpatient service split reflects the statewide values, with inpatient services representing 45.7% of expenses while outpatient services represent an average of 54.3%. The small peer group's expenses are the most heavily weighted towards outpatient services as hospitals in that peer group reported 68.1% of their service expenses for outpatient services.

Graph 9: 2019 Inpatient and Outpatient Expense Split by Hospital Peer Group

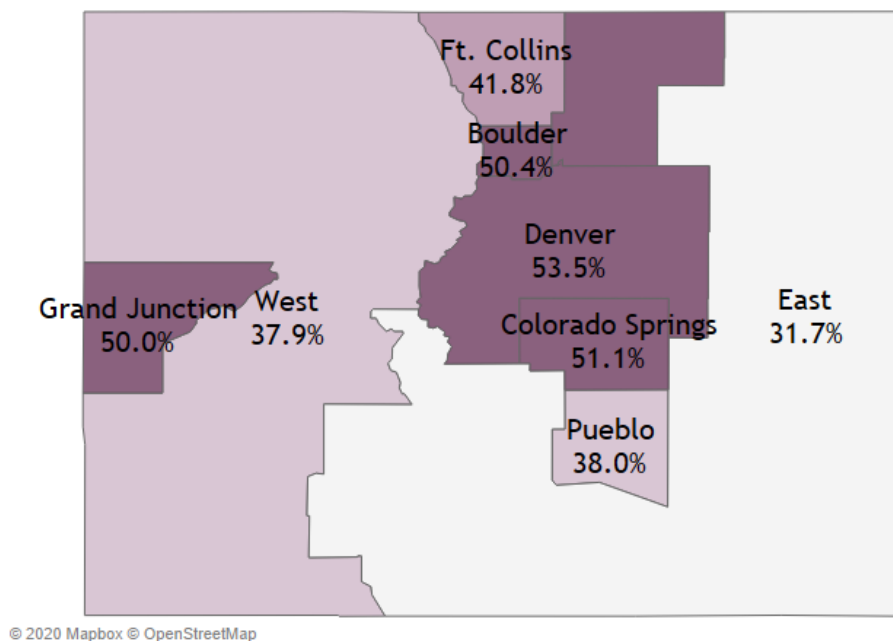

As seen in **Graph 10 and 11**, regions with more small and medium hospitals have more outpatient service expenses than inpatient service expenses. Along with size, distance from the state’s most populous metropolitan region, Denver, seems to correspond with the proportion of expenses allocated between inpatient and outpatient services.

Graph 10: 2019 Inpatient (IP) and Outpatient (OP) Expense Split by DOI Region

Graph 11: 2019 Inpatient Expense Split by DOI Region

F. Payer Mix

Payer mix is the percentage composition of all the payer types that make up hospital services. The Department assesses payer mix by looking at the proportion of payer types that make up total charges.⁷ To assess payer mix, proportions of charges are calculated. The dataset has four payer types: Medicare, Medicaid, commercial and self-pay. The difference between total charges and the sum of these payer types has been labeled as “Other.”

Graph 12 and **Table 22** shows payer mix has not changed significantly between 2014 and 2019, but there has been some shift between payer types. In 2019, more people were insured through public programs (60.3% Medicaid/Medicare payer mix) than in 2014 (55.1% Medicaid/Medicare payer mix). While Medicaid payer mix increased from 2014 to 2017 (from 19.3% to 22.3%), Medicaid payer mix has dropped since 2017 (from 22.3% to 21.4%).

⁷ A hospital’s chargemaster is a layer of financial values tied to services rendered that applies to all patients. Two patients who receive the same services will be “charged” the same amount. What the patients and their insurance coverage will end up paying varies based on their insurance’s negotiated rate with the hospital. As the top layer of the charge system is universal amongst patients, charges are a good indication of the proportion of services associated with a payer type.

Graph 12: Payer Mix

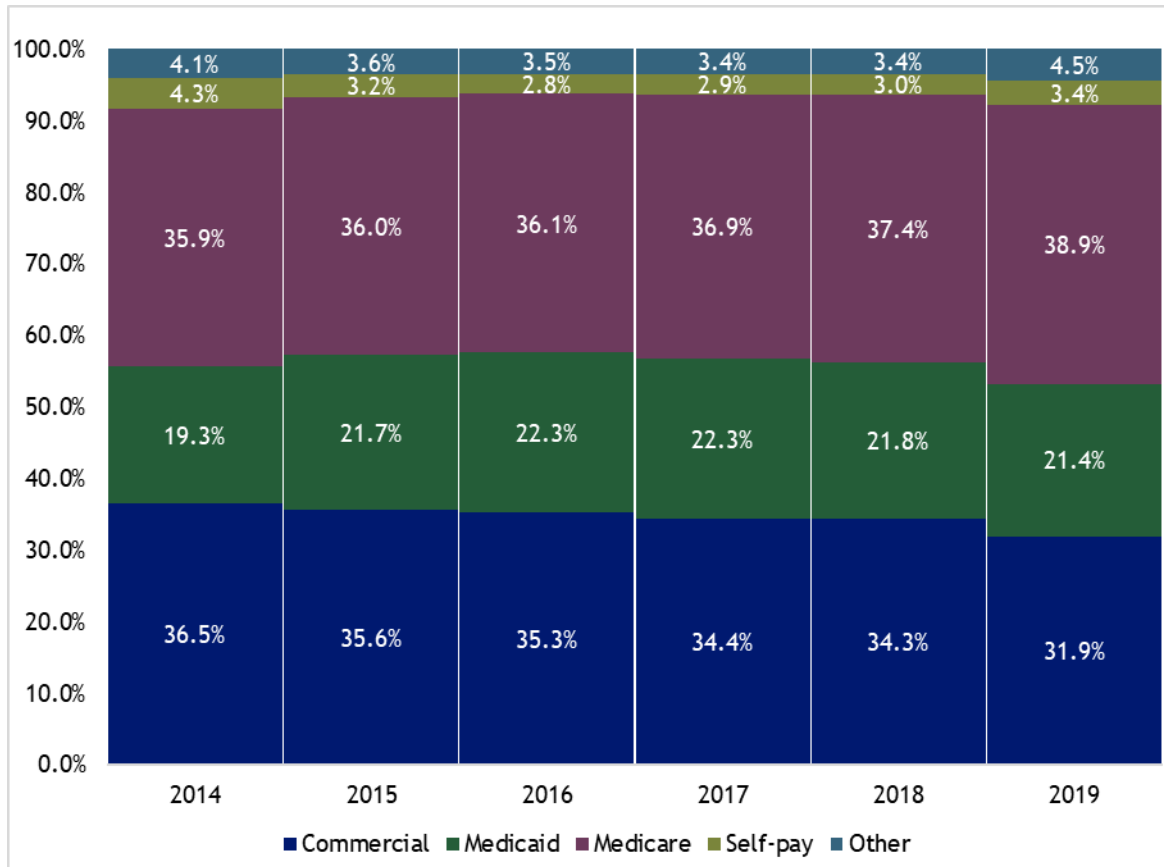

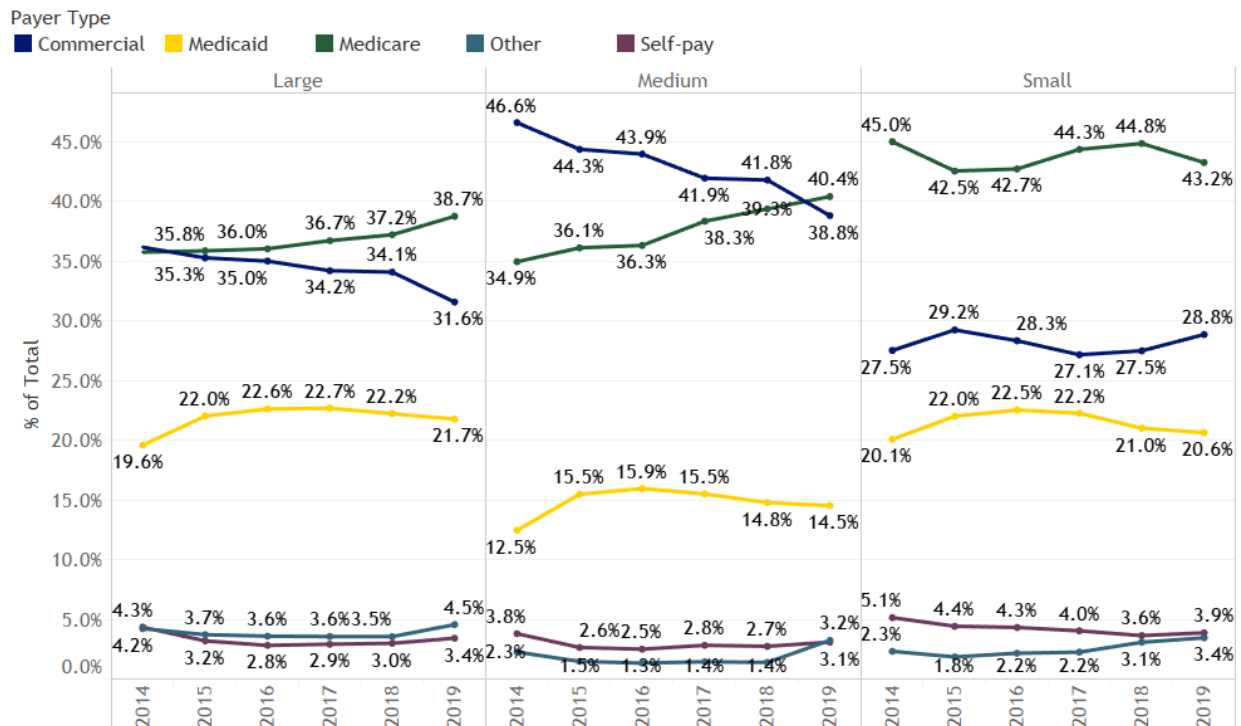

Table 22: Payer Mix

Year	Commercial	Medicaid	Medicare	Self-pay	Other	Total
2014	36.5%	19.3%	35.9%	4.3%	4.1%	100.0%
2015	35.6%	21.7%	36.0%	3.2%	3.6%	100.0%
2016	35.3%	22.3%	36.1%	2.8%	3.5%	100.0%
2017	34.4%	22.3%	36.9%	2.9%	3.4%	100.0%
2018	34.3%	21.8%	37.4%	3.0%	3.4%	100.0%
2019	31.9%	21.4%	38.9%	3.4%	4.5%	100.0%

The Department also looked at payer mix by the hospital peer groups, displayed in **Graph 13**. Some interesting findings from this view of the data are that the small peer group has the lowest commercial payer mix for all years (28.8% in 2019) and this hospital peer group also has the highest proportion of self-pay payer types (3.9% in 2019). Most patients seen at small peer group hospitals are insured through Medicare. Medicare is now the largest payer mix of the large and medium peer group's payer mix as

well. For all hospital peer groups, there was an increase in the proportion of Medicaid payer mix between 2014 and 2017, which has since dropped.

Graph 13: Payer Type by Hospital Peer Groups

III. Conclusion

Satisfying requirements from HB 19-1001, this report provides information on hospital uncompensated care and operating expenses. While not all hospitals reported, the Department is satisfied all hospitals made a good faith effort to report the required data. The same-store analysis within the report represents a significant portion of licensed beds for the period under review.

Net patient revenue grew from \$11.9 billion to roughly \$16.4 billion between 2014 to 2019, an increase of 35.8% from 2014. The increase in net patient revenue was primarily driven by the large peer group which grew \$3.6 billion, whereas medium and small grew by \$445 million and \$191.8 million, respectively. The medium peer group, however, grew the most over the period in terms of percent change with 50.3%. The large and small peer groups increased by 34.2% and 47.6%, respectively. From 2018 to 2019 net patient revenue increased by 2.3% or \$368 million.

Uncompensated care charges decreased overall by 3.0% from 2014, or approximately \$322.1 million. The small peer group decreased total uncompensated care by 8.6%, the medium peer group increased its total uncompensated care by 7.7% from 2014, and finally the large peer group, decreased by 3.4%. Between 2018 and 2019 uncompensated care for the small peer group decreased by 0.7% or \$299.3 thousand; the medium peer group increased by 27.7% or \$19.8 million; and the large peer group increased by 19.7% or \$251.4 million. In reviewing the two components of uncompensated care (bad debt and charity care) the data show from 2014 to 2019 bad debt increased by 7.4% overall, or approximately \$50.9 million, whereas charity care decreased significantly by 9.9%, or approximately \$108.1 million. Between 2018 and 2019, charity care charges increased by 25.7% or \$189.6 million; and bad debt charges increased by 12.4% or \$81.3 million.

In terms uncompensated care costs, in 2019 there was \$452.4 million in total uncompensated care costs, with charity care making up \$247.7 million, or 54.8%, and bad debt costs making up \$204.7 million, or 45.2%. Self-pay was the largest portion of uncompensated costs in 2019 with \$242.7 million, or 53.6% and the largest in both components charity care and bad debt, \$132.0 million and \$110.5 million, respectively.

Total operating expenses increased overall by approximately \$3.7 billion from \$11.6 billion in 2014 to \$15.4 billion in 2019 or increased an average growth of \$736.0 million each year or 5.6% a year. Between 2018 and 2019 total operating expense increased by 2.7% or \$409.4 million. Additionally, with the breakdown of allocation type, a majority of expense types were allocated to the patient category.

With the Department's payer mix analysis, the conclusion is there were shifts in payer mix from commercial and self-pay categories to Medicare and Medicaid over the period. Additionally, the payer mix for the small hospital peer group had the lowest percentage of commercial when compared to the large and medium hospital peer groups.

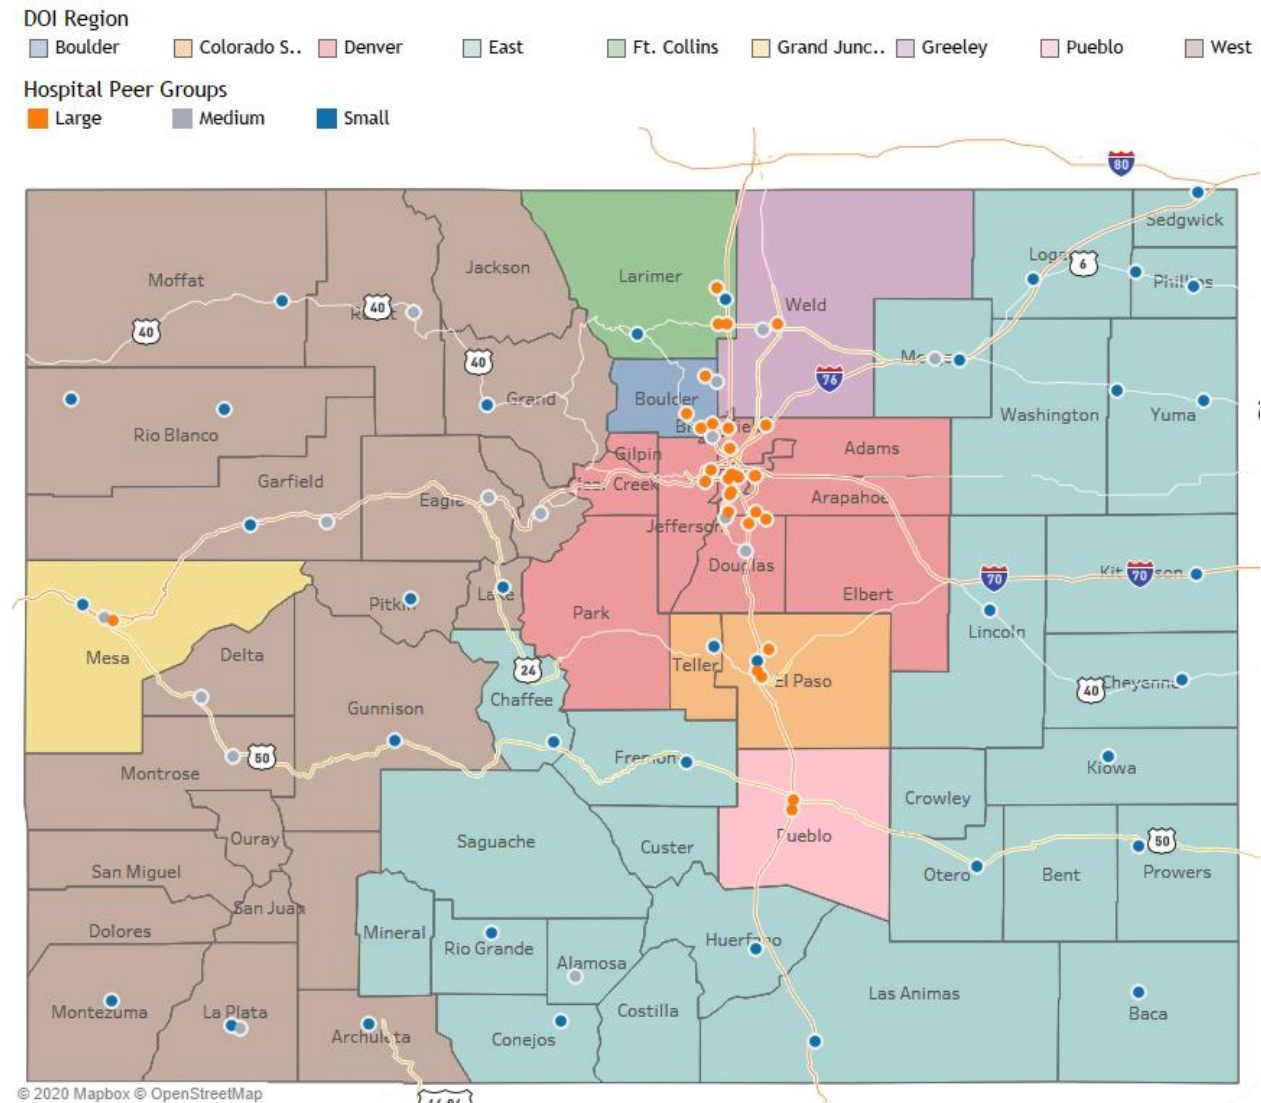

The Department will continue to work with hospitals to obtain the missing data and work to improve and enhance the report and its collection process for the

future annual reports. See the **Hospital Expenditure Report Detailed Dataset by Hospital** for a full report of each hospital's data.

IV. Map & Definitions

A. Map of Colorado Hospitals Identified by Hospital Peer Group and DOI Regions

B. Definitions

Affordable Care Act (ACA): The comprehensive federal health care reform law enacted in March 2010. The law was enacted in two parts: The Patient Protection and Affordable Care Act was signed into law on March 23, 2010 and was amended by the Health Care and Education Reconciliation Act on March 30, 2010. The name “Affordable Care Act” is used to refer to the final, amended version of the law.

Bad debt: The sum of all charged amounts a provider billed but did not receive payment for the service.

Charity care: The sum of all charged amounts determined by the health care provider to be charity care and thus unreceived revenue.

Colorado Healthcare Affordability and Sustainability Enterprise Board (CHASE Board): The CHASE Board makes recommendations to the Medical Services Board regarding the implementation of the health care affordability and sustainability fee. The CHASE Board also directs the implementation of delivery system reform incentive payments program and monitors the impact of the fee on the health care market.

Contractual allowances: Also known as adjustments, contractual allowances are the difference between what a health care provider charges for the care provided to the patient and what the provider will be contractually paid by a third-party (commercial insurer and/or government program such as Medicare, Medicaid, etc.).

Critical access hospitals: A hospital qualified as a critical access hospital under 42 U.S.C. § 1395i4(c)(2) and certified as a critical access hospital by the Colorado Department of Public Health and Environment

Department of Health Care Policy & Financing (Department): A department of the government of the State of Colorado.

DATABANK Program: An online program available to Colorado Hospital Association members and serves as a centralized location for the collection of hospital utilization and financial data.

Depreciation expense: The decrease in the fair value of a tangible asset, reported as an expense for the reporting period.

Discharge: A record of a formal release of a patient. This excludes newborns leaving with mothers, death on arrivals and includes death.

General hospital: A hospital licensed as a general hospital by the Colorado Department of Public Health and Environment. Sometimes referred to as a “short-stay, acute care hospital”.

Health system: Also known as hospital system. A multi-hospital system is two or more hospital owned, leased, sponsored or contract managed by a central organization.

Hospital peer groups: For the purposes of this report hospital peer groups are determined by grouping together number of licensed beds (for a definition of licensed beds please see below). The three (3) peer groups are as follow: the small peer group with 25 or fewer beds, the medium peer group with 26 to 90 beds, and the large peer group with 91 or more beds.

House Bill 19-1001: The [Hospital Transparency Measures to Analyze Efficacy Bill](#) signed into law on March 28, 2019.

Interest expense: Expenses for mortgages, bonds, notes, lines-of-credit, convertible debt and any other short-term or long-term borrowings.

Licensed beds: The maximum number of beds a licensure agency, such as the state or other governing body, allows a hospital or health facility to operate at any given time. Provide the number of beds at the end of the fiscal year.

Long-term care hospital: A general hospital that is certified as a long-term care hospital by the Colorado Department of Public Health and Environment. Sometimes referred to as a sub-acute care hospital or long-term acute care hospital.

Major payer groups: A major payer in health care is the entity or individual paying the medical bill or claim. The major payers for the purposes of this report are Medicare, Medicaid, commercial and self-pay. Others can

include compensation programs, like workman's compensation, and other government programs, like TRICARE/CHAMPUS.

Medicare Cost Reports: Medicare hospital cost report, form Center for Medicare and Medicaid Services (CMS) 2552-96 or CMS 2552-10, or any successor form created by CMS, and the annual required submission of worksheets and schedules by Medicare certified providers used for Medicare reimbursement

Net patient revenue: Net patient revenue approximates the payments a hospital receives for patient services. Net patient revenue is calculated by totaling all charges the hospital billed to patients, subtracting contractual allowances and then subtracting bad debt and charity care.

Table 14: Net Patient Revenue Calculation

Calculation	Variable
	Total charges
-	Total contractual allowance
-	Total charity care
-	Total bad debt
=	Net patient revenue

Other expense: The difference between total operating expense and specified categories of expenses (salaries, wages, and benefits, supply, interest, and depreciation). These expenses might be for taxes, utilization, contract services, fees, insurance, marketing expenses, etc.

Outpatient visit: Determined by counting only one visit day for each calendar day a patient visits an outpatient department or multiple outpatient departments.

Psychiatric Hospital: A hospital licensed as a psychiatric hospital by the Colorado Department of Public Health and Environment.

Rehabilitation hospital: An inpatient rehabilitation facility.

Salaries, Wages and Benefit Expense: Salaries and wages paid to hospital employees and employee benefits paid and provided by the hospital. These

include employee expenses for physicians, interns, residents, other trainees, facility employees and home office wages.

Supply expense: The sum of all expenses related to medical supplies, food, housekeeping, maintenance, general facility upkeep, minor equipment, administration and medical drugs.

Total operating expense: The sum of all operating expenses to run the hospital. This include expenses like materials, supplies, contract services, management fees and home office allocations, depreciation, interest, taxes, consultants' services, utilities, pharmaceuticals and insurance.

Table 15: Total Operating Expense Calculation

Calculation	Variable
	Depreciation
+	Interest
+	Salaries, wages, and benefits
+	Supplies
+	All other expenses
=	Total operating expenses

Uncompensated care: Health care or services provided by hospitals or health care providers that are not reimbursed.

Executive Summary

III. Hospital Community Benefit Accountability Report

This annual report is prepared by the Department of Health Care Policy & Financing (the Department) pursuant to Section 25.5-1-700, C.R.S. (2019). The purpose of this report is to inform stakeholders and policy makers about investments made to improve community health outcomes.

In Fiscal Year (FY) 2019-20, the Department worked with the Colorado Hospital Association to develop rules and additional guidance related to House Bill (HB) 19-1320. The first report from the hospitals was due in FY 2020-21 for activities in the previous fiscal year. Reporting hospitals were required to report on certain community benefit investments and activities.

HB19-1320 requires non-profit tax-exempt general hospitals, Denver Health Medical Center, and University of Colorado Hospital to complete a community health needs assessment every three years and an annual community benefit implementation plan every year¹. Each reporting hospital is required to convene a public meeting at least once per year to seek feedback on the hospital's community benefit activities and implementation plans. These hospitals are required to submit a report to the Department that includes:

- Information on the public meeting held.
- The most recent Community Health Needs Assessment.
- The most recent Community Benefit Implementation Plan.
- The most recent submitted IRS form 990 including Schedule H.
- A description of investments included in Schedule H.
- Expenses included on form 990.

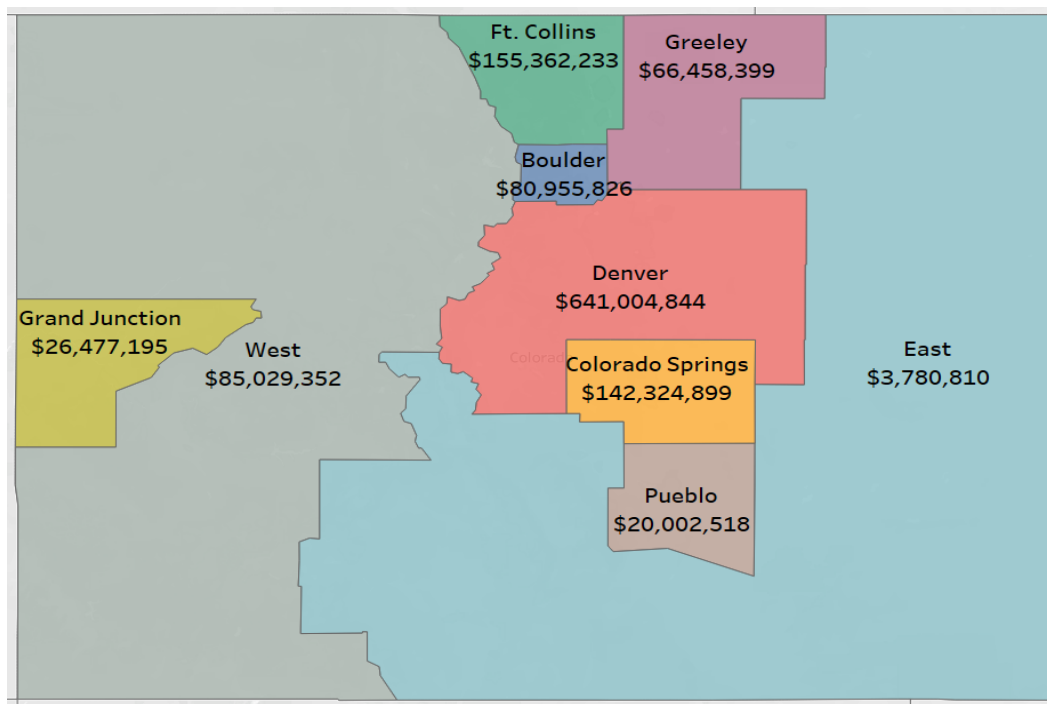

The overall investments across all categories reported totaled \$1,221,396,076. Free or reduced-cost health care services totaled \$695,804,096. Programs addressing health behaviors or risks and social determinants of health totaled \$525,591,980.

The following are maps showing the investments broken out by Division of Insurance region.

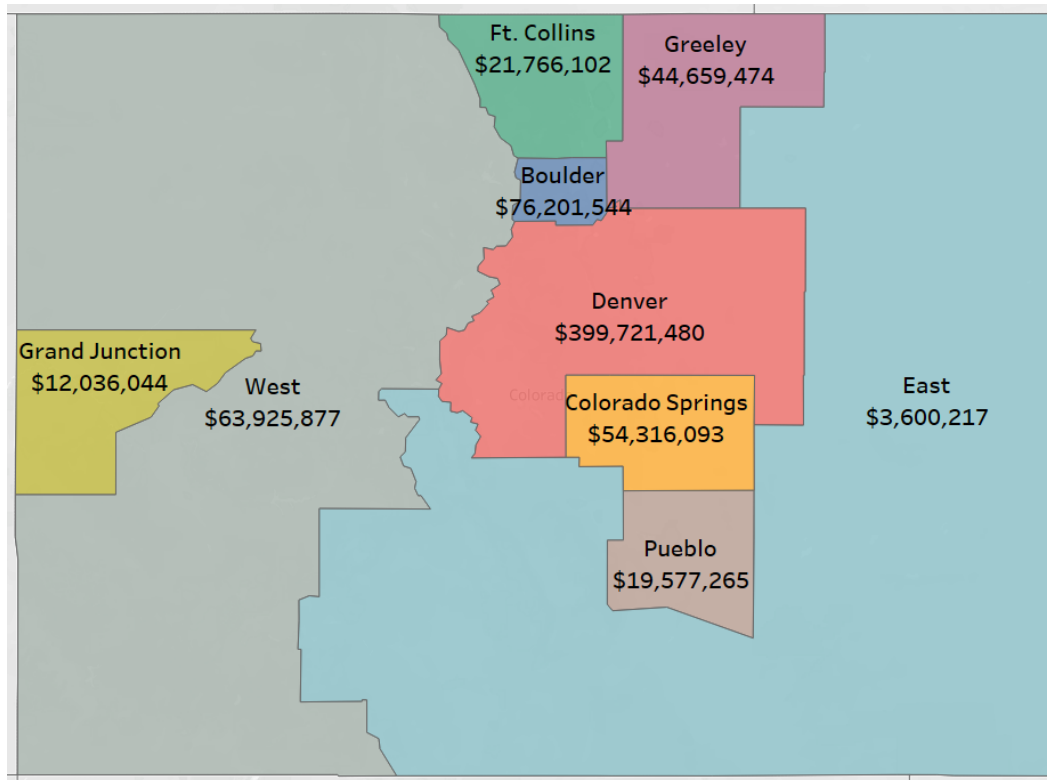

¹ Long Term Care and Critical Access hospitals are not required to report.

I. Overview	3
II. Reporting	4
III. Investments	6
IV. Recommendations	22
V. Definitions.....	23

I. Overview

House Bill (HB) 19-1320 requires nonprofit tax-exempt general hospitals, Denver Health Medical Center and University of Colorado Hospital to complete a community health needs assessment every three years and an annual community benefit implementation plan every year. Critical access hospitals are not required to participate, but are encouraged to do so. Each reporting hospital is required to convene a public meeting at least once per year to seek feedback on the hospital's community benefit activities and implementation plans. These hospitals are required to submit a report to the Department of Health Care Policy & Financing (the Department) that includes, but is not limited to the following:

- Information on the public meeting held.
- The most recent Community Health Needs Assessment.
- The most recent Community Benefit Implementation Plan.
- The most recent submitted Internal Revenue Service (IRS) form 990 including Schedule H.
- A description of investments included in Schedule H.
- Expenses included on form 990.

More information can be found on the [Hospital Community Benefit Accountability webpage](#).

All submitted reports can be found at [Hospital Transparency Webpage](#).

II. Reporting

Under [§ 25.5-1-700, C.R.S.](#), the Department is required to submit a report that includes a summary of the reports submitted from reporting hospitals that includes the following.

1. The amount that each reporting hospital invested in:
 - a. Free or reduced-cost health care services addressing community identified health needs.
 - b. Programs addressing health behaviors or risks.
 - c. Programs addressing social determinants of health.
 - d. All services and programs addressing community identified health needs.
2. A summary of the reporting hospitals' investments that have been effective in improving community health outcomes.
3. Any legislative recommendations the Department has for the General Assembly.

The reports from hospitals were due on July 1, 2020; however, the Department delayed the due date of the first report to Sept. 1, 2020 due to the novel coronavirus (COVID-19) emergency. Along with the change in due date, the Department modified the reporting requirements for the first report in an effort to minimize the administrative burden on reporting hospitals. Reporting hospitals were still encouraged to include all the reporting requirements laid out in the rule under [section 8.5002.B](#) to the extent possible.

The Department received 47 submissions, of those, five (5) were critical access hospitals and one (1) was a new facility with limited information available to report. The overall investments across all categories reported totaled \$1,221,396,076. Free or reduced-cost health care services totaled \$695,804,096. Programs addressing health behaviors or risks and social determinants of health totaled \$525,591,980. During the submission process, several reporting hospitals expressed concerns with how the investment categories were requested to be reported. For the purposes of this report, the Department has combined the amounts for programs addressing health behaviors or risks and programs addressing social determinants of health.

III. Investments

Avista Adventist Hospital

- Engage with community to understand community health needs and how to best address them in partnership with community organizations.
- Increase access to care through care coordination system.
- Provide transportation services for patients leaving the hospital.
- Childbirth training and education classes for pregnant women.

Boulder Community Health

- Provide athletic trainers to school district.
- Grants to individuals for prescription medication, food, housing, etc.
- Community health education lectures and program series to directly address health conditions, behaviors and risks.
- Provide educational programs for new parents.
- Provide support to local partner nonprofit organizations that directly address social determinants of health.

Castle Rock Adventist Hospital

- Engage with community to understand community health needs and how to best address them in partnership.
- Screening for social needs and referral to community-based resources.
- Campaign to decrease mental health stigma.
- Engage individuals in weight loss through healthy eating and active living.

Children's Hospital Colorado

- Provide asthma home visits.
- Provide education and outreach coordinators work with children and families to provide asthma education.
- Initiative to address the social isolation and toxic stress stemming from institutional racism.
- Provide opportunity for oral health promotion and improved access to oral health services for children in the community.
- Provide patient families with community-based services to meet non-medical health needs such as housing, benefits and food.

- Increase access to timely, quality, and affordable food for kids and their families.

Community Hospital

- Recruit additional primary care providers to the area.
- Educate residents on when and how to utilize appropriate healthcare services.
- Promote lifestyle-modification initiatives to improve the health of teens and young adults.
- Add a cardiac catheterization lab to the lines of services offered.

Delta County Memorial Hospital

- All Points Transit helps meet the transportation needs of Montrose, Delta and San Miguel counties.
- Dial-a-Ride provides much needed transportation to seniors and other higher risk populations for medical visits and shopping

Denver Health and Hospital Authority

- Provide safe detoxification for public inebriates.
- Provide assessment, education, motivational counseling and residential treatment.
- Daily tobacco cessation clinics.
- Guide customers through a health care program screening process.
- Health promotion and obesity prevention.
- Program that serves underrepresented youth that are challenged with academic achievement or have other significant risk factors.
- 24-hour nurse line.
- Substance treatment program that specializes in working with adolescents.

East Morgan County Hospital

- Community blood drives.
- Provide education to residents which allow for early intervention and health management.
- Educate young people by taking the fear out of hospitals and exposure to the myriad of healthcare careers and opportunities.

- Provide community food and nutrition education classes.
- Provide chronic illness support groups.
- Provide enrollment assistance to the vulnerable and underserved.
- Investments that support activities that encourage citizens to be community-mined, engaged and healthy.

Estes Park Medical Center

- Rural Estes Alliance for Community Health provides and supports community wide initiatives and education designed to improve the overall health and well-being of those in the Estes Valley.

Fort Collins Medical Center

- Provide education to residents which allow for early intervention and health management.
- Provide enrollment assistance to the vulnerable and underserved.
- Contribution to local breast cancer organization that supports quality of life initiatives.
- Provide post-discharge services to the vulnerable and underserved.
- Elderly day care.

Good Samaritan Medical Center

- Participation in community coalitions and other collaborative efforts.
- Provide health and wellness education classes, stroke support group, health fairs, and trauma injury prevention outreach and workshops.
- Support of community-based organizations that address areas such as access to health services, medical education, free clinic services or social supports.

Littleton Adventist Hospital

- Screening of people with social needs and referral to community-based resources.
- Use evidence-based messaging to decrease stigma associated with mental health.
- Provide of Mental Health First Aid classes to community.

Longmont United Hospital

- Support health care services within the community through local Community Health Center.
- Provide health education to the community regarding obesity prevention.
- Partner with coalition providing mental health services and stigma reduction activities.
- Provide a location for a community farmer's market.

Lutheran Medical Center

- Provide community health and wellness education, maternal addiction services, falls prevention, trauma education and tobacco cessation.
- Support community-based organizations that address areas such as access to health services, medical education, free clinic services or social supports.
- Services supporting cardiac rehab, dialysis, pulmonary rehab, obstetric/newborn, neonatal intensive care unit, infusion center and West Pines Psychiatric.

McKee Medical Center

- Provide education to residents which allow for early intervention and health management.
- Provide chronic illness support groups.
- Elderly day care.
- Assist patients, families and caregivers with end-of-life issues and advanced care planning.
- Provide post-discharge services to the vulnerable and underserved.

Mercy Regional Medical Center

- Increase the capacity of food pantry to offer healthy foods.
- Provide healthy eating and active living education at community events and through classes available to community.
- Support of Community Health Center to provide health care to uninsured/underinsured.
- Provide no-cost physical exams to survivors of sexual assault and connects them to follow-up community resources.

Montrose Memorial Hospital

- Provide education for women's health and family planning, healthy lifestyles and prevention of heart disease, diabetes and stroke.
- Provide transportation to and from hospital and physician appointments for elderly and low income.
- Physician recruitment to bring jobs and necessary medical support to the community.

National Jewish Health

- Provide education programs, classes, and support groups for specialty care illnesses and diseases.
- Provide free K-8 school for chronically ill children; participation in community coalition.
- Provide free lung testing programs.
- Provide inner city asthma program.
- Provide free asthma care and teaching program in lower income communities.
- Conduct a study to collect and interpret air quality data.

North Colorado Medical Center

- Provide enrollment assistance to the vulnerable and underserved.
- Provide post-discharge services to the vulnerable and underserved.
- Provide donations to community building organizations.
- Provide education to residents which allow for early intervention and health management.

Parker Adventist Hospital

- Use evidence-based messaging to decrease stigma associated with mental health.
- Provide Mental Health First Aid to community members through community-based organizations.
- Weigh and Win program provided at no cost to community to support evidence-based healthy weight management.

Parkview Medical Center

- Hiring a Community Risk Reduction Behavioral Health Specialist.

- Mobile Nurse program providing community-based health education, health screenings and immunizations.
- Software investment, Pieces Technology, to identify patients with adverse social determinants of health and to connect patients with the appropriate resources/support.

Penrose-St Francis Health Services

- Provide cancer screening and health education to Latino populations.
- Hold events to promote healthy eating and active living to prevent and reduce obesity.
- Engage with community partners to provide mental health support for youth in the community.
- Provide healthy meals for seniors to support weight management and obesity prevention/reduction.
- Provide free health screenings for community members.

Platte Valley Medical Center

- Provide nutritional classes, diabetes management classes, wound care classes, and mental health first aid trainings.
- Activities that strengthen prevention, self-help, language translation, health literacy and social supports for low-income and vulnerable population segments.
- Participate in community coalitions and other collaborative efforts.
- Nutrition Department Community Outreach and education.
- Support community organizations serving a broad spectrum of needs.

Porter Adventist Hospital

- Provide prescriptions to patients with income barriers to treatment of their health diagnoses.
- Provide mental health support groups to community members.
- Provide free transportation to patients without transportation.
- Increase access to healthy foods and physical activity through gardening within community.
- Increase access to oral health care for children.

- Use evidence-based messaging to decrease stigma associated with mental health.

Saint Joseph Hospital

- Provide health education classes.
- Activities that strengthen prevention, self-help, language translation, health literacy and social supports for low-income and vulnerable population segments.
- Participate in community coalitions and other collaborative efforts with the community.
- Support other community-based organizations that address areas such as - access to health services, medical education, free clinic services or social supports.
- Housing stabilization project.
- Conduct a monthly forum for nonprofit health and human service community agencies and partners to share information.

San Luis Valley Health

- Hold various community services such as food banks, VA support, adopt a family, health fairs and support groups that address wellness, child development and substance abuse.

St Anthony Hospital

- Partner with Senior Resource Center for fall prevention and appropriate medical care among seniors.
- Provide a Diabetes Prevention Program.
- Use evidence-based messaging to decrease stigma associated with mental health.
- Weigh and Win program provided at no cost to community to support evidence-based healthy weight management.
- Provide Nurse Family Partnership program for first time, low income mothers.

St Anthony Hospital North Health Campus

- Provide free integrative healing services to community members and patients.
- Provide transportation to patients without transportation.
- Use evidence-based messaging to decrease stigma associated with mental health.
- Weigh and Win program provided at no cost to community to support evidence-based healthy weight management.
- Support for community mental health center providing mental health and drug treatment services to the community.

St Anthony Summit Medical Campus

- Engage with community to understand community health needs and how to best address them in partnership.
- Evidence-based injury prevention approaches.
- Support local nonprofit organizations providing evidence-based programs to reduce stigma associated with mental health.
- Provide no-cost physical exams to survivors of sexual assault and connects them to follow-up community resources.

St Mary Corwin Hospital

- Engage with organization to understand community needs.
- Provide free health screenings for community.
- Increase capacity of food pantry.
- Drug take back program.

St Mary's Regional Medical Center

- Provide various support groups.
- Provide Mental Health First Aid.
- Injury Prevention & Outreach.
- Activities that strengthen prevention, self-help, language translation, health literacy and social supports for low-income and vulnerable population segments.
- Participation in community coalitions and other collaborative efforts with the community.

- Support community-based organizations that address areas such as - access to health services, medical education, free clinic services or social supports.

St Thomas More Hospital

- Provide free screenings to all students.
- Provide grief support.

St Vincent General Hospital District

- Increase the counties access to qualified health care through the Emergency Department.
- Engage with visiting physicians and physician's assistant to provide cardiac care and orthopedic services.
- Contract with a Health Insurance Navigator to help residents apply for commercial insurance and state Medicaid benefits.

Sterling Regional Medical Center

- Conduct community blood drives and screenings.
- Provide access to education and assistance on wellness topic/issues which allow for early prevention and diagnosis and improve the overall health.
- Provide chronic illness support groups.
- Palliative care program provides compassionate, comprehensive and interdisciplinary care that reduces suffering and optimizes quality of life.

UCHealth Broomfield Hospital

- Support for the development of new programs and recruitment of primary care and specialty care providers.
- Support new program that conducts research into the genetic differences among people that influence health, disease and treatments.
- Financial contributions to support other non-profit and community-based organizations that promote the health and well-being of the community.

UCHealth Grandview Hospital

- Support for the development of new programs and recruitment of primary care and specialty care providers.

- Support new program that conducts research into the genetic differences among people that influence health, disease and treatments.
- Financial contributions to support other non-profit and community-based organizations.

UCHealth Highlands Ranch Hospital

- Support for the development of new programs and recruitment of primary care and specialty care providers.
- Support new program that conducts research into the genetic differences among people that influence health, disease and treatments.
- Financial contributions to support other non-profit and community-based organizations that promote the health and well-being of the community.

UCHealth Longs Peak Hospital

- Support for the development of new programs and recruitment of primary care and specialty care providers.
- Support new program that conducts research into the genetic differences among people that influence health, disease and treatments.
- Financial contributions to support other non-profit and community-based organizations that promote the health and well-being of the community.
- No-cost service providing mothers the opportunity to meet with a certified lactation consultant.
- Community health program that serves people ages 50 and above offering no-cost Medicare counseling, advance care planning, fall prevention.

UCHealth Medical Center of the Rockies

- Support for the development of new programs and recruitment of primary care and specialty care providers.
- Support new program that conducts research into the genetic differences among people that influence health, disease and treatments.
- Financial contributions to support other non-profit and community-based organizations.
- School and community-based program educating on how to live heart healthy lifestyles.

- Program that provides care, counseling, and referral services to assault victims.
- Support community organizations dedicated to prevention and treatment of specific health needs.

UCHealth Memorial Hospital

- Support for the development of new programs and recruitment of primary care and specialty care providers.
- Support new program that conducts research into the genetic differences among people that influence health, disease and treatments.
- HealthLink nurse advice line is free to all community members throughout the state of Colorado.
- Financial contributions to support other non-profit and community-based organizations.
- Provide education and training programs for healthcare professionals.
- Partner with various organization to provide access to inpatient and behavioral health services.
- Financial contributions to support community organizations dedicated to the prevention and treatment of specific health needs.

UCHealth Poudre Valley Hospital

- Support for the development of new programs and recruitment of primary care and specialty care providers.
- Provide education and training programs for healthcare professionals.
- Program that provides visits for newborn infants and postpartum mothers.
- Partner with elementary schools to provide health education.
- Support new program that conducts research into the genetic differences among people that influence health, disease and treatments.
- Support the Special Operation Response Team.
- Injury prevention programs for older adults.
- Support community organizations dedicated to prevention and treatment of specific health needs.
- Financial contributions to support other non-profit and community-based organizations.

- Provide educational programs to increase awareness and education around health needs.

UCHealth University of Colorado Hospital

- Support for the development of new programs and recruitment of primary care and specialty care providers.
- Support new program that conducts research into the genetic differences among people that influence health, disease and treatments.
- Financial contributions to support other nonprofit and community-based organizations.
- Provide education and training programs for healthcare professionals.
- Financial contributions to support community organizations dedicated to the prevention and treatment of specific health needs.
- Provide a series of educational programs designed to increase awareness and education around health needs in our communities.

UCHealth Yampa Valley Medical Center

- Support for the development of new programs and recruitment of primary care and specialty care providers.
- Support new program that conducts research into the genetic differences among people that influence health, disease and treatments.
- Financial contributions to support other non-profit and community-based organizations.
- Support agency operations providing post discharge care coordination.
- Provide education programs to increase awareness and education around health needs.
- Provide nurse consultations at no cost to assess symptoms and provide advice.

Vail Health

- Provide support group for new moms.
- Hold a community cooking class.
- Eat-Chat-Parent series, with topics including Building Resiliency and Self Esteem in our Kids, Addressing Technology Misuse, Teen Substance Abuse and the Role of Toxic Stress.

- Collaboration with multiple community partners to improve inter-agency patient care.
- Various cancer related support groups, health programs, classes, and counseling.
- Foster the retention of new graduate nurses by creating a support system for success.
- Participate in high school internship program.
- Provide medical care at community events.

Valley View Hospital

- Partner with local non-profit to support the nutritional needs of patients in the community.
- Invest in the Roaring Fork School District by providing a majority of the staff salaries for the athletic trainers.
- Health promotion and information provided through media to educate the public about health issues.
- Support local nonprofits that specialize in mental health, education, and community wellness.
- Member of the Valley Health Alliance focused on improving access to quality care, population health management and reduce waste in the healthcare system.

IV. Recommendations

The Department is making the following recommendations to the General Assembly:

1. Hospitals experienced challenges to report their community benefit expenditures in the state's categories as those do not crosswalk to the federal categories exactly. While the Department will continue to provide guidance to hospitals, the General Assembly may wish to re-evaluate the categories that are being reported to align with federal definitions.
2. The current law does not require a minimum expenditure in any category or set priorities. The General Assembly may wish to establish community benefit priorities in future legislation.
3. Because there is currently no consistent national standard on what community benefit entails, the General Assembly may wish to include information on what other States have done or are doing as part of their community benefit process and oversight.
4. With no consistent national standard and no requirement on a minimum expenditure for community benefit, the General Assembly may wish to include additional information from the Schedule H as well as an audit on the tax benefit in order to have a better understanding of the hospitals tax exemption benefit and community benefit spending.

V. Definitions

Community - the community that a hospital has defined as the community that it serves pursuant to 26 CFR § 1.501(r)-(b)(3).

Community Benefit Implementation Plan - a plan that satisfies the requirements of an implementation strategy as described in 26 CFR § 1.501(r)-3(c).

Community Health Center - a federally qualified health center as defined in 42 U.S.C. sec. 1395x(aa)(4) or a rural health clinic as defined in 42 U.S.C. sec. 1395x (aa)(2).

Community Health Needs Assessment - a community health needs assessment that satisfies the requirements of 26 CFR § 1.501(r)-3(b).

Community Identified Health Need - a health need of a Community that is identified in a Community Health Needs Assessment.

Financial assistance policy (FAP) - a written policy that meets the requirements described in § 1.501(r)- 4(b).

Free or Discounted Health Care Services - health care services provided by the hospital to persons who meet the hospital's criteria for financial assistance and are unable to pay for all or a portion of the services, or physical or behavioral health care services funded by the hospital but provided without charge to patients by other organizations in the Community. Free or Discounted Health Care Services does not include the following:

1. Services reimbursed through the Colorado Indigent Care Program (CICP),
2. Bad debt or uncollectable amounts owed that the hospital recorded as revenue but wrote off due to a patient's failure to pay, or the cost of providing care to such patients,
3. The difference between the cost of care provided under Medicaid or other means-tested government programs or under Medicare and the revenue derived therefrom,
4. Self-pay or prompt pay discounts, or

5. Contractual adjustments with any third-party payers.

Health System - a larger corporation or organizational structure that owns, contains, or operates more than one hospital.

Programs that Address Health Behaviors or Risk - programs funded by the hospital and provided by the hospital or other Community organizations that provide education, mentorship, or other supports that help people make or maintain healthy life choices or manage chronic disease, including addiction prevention and treatment programs, suicide prevention programs and mental health treatment, programs to prevent tobacco use, disease management programs, nutrition education programs, programs that support maternal health, including screening, referral and treatment for perinatal and postpartum depression and anxiety, and healthy birth outcomes, and programs that help seniors and people with disabilities live as independently as possible in the Community.

Programs that Address the Social Determinants of Health - funding or in-kind programs or services that improve social, economic, and environmental conditions that impact health in the Community. Social and economic conditions that impact health include education; employment; income; family and social support; and Community safety. Environmental conditions that impact health include air and water quality, housing, and transit. Programs that Address the Social Determinants of Health include but are not limited to the following:

1. Job training programs,
2. Support for early childhood and elementary, middle, junior-high, and high school education,
3. Programs that increase access to nutritious food and safe housing,
4. Medical Legal Partnerships, and
5. Community-building activities that could be included in Part II of Schedule H of the Form 990.

Reporting Hospital

1. A hospital licensed as a general hospital pursuant to Part 1 of Article 3 of Title 25 of the Colorado Revised Statutes and exempt from Federal

taxation pursuant to Section 501(c)(3) of the Federal Internal Revenue code, but not including a general hospital that is federally certified or undergoing federal certification as a long-term care hospital pursuant to 42 CFR § 412.23(e) or that is federally certified or undergoing federal certification as a critical access hospital pursuant to 42 CFR § 485 Subpart F,

2. A hospital established pursuant to § 25-29-103 C.R.S., or
3. A hospital established pursuant to § 23-21-503 C.R.S.

Safety Net Clinic - a Community clinic licensed or certified by the Department of Public Health and Environment pursuant to Section § 25-1.5-103 (1)(a)(I) or (1)(a)(II), C.R.S.
