

1570 Grant Street Denver, CO 80203

January 17, 2023

Governor Jared Polis 136 State Capitol Denver, CO 80203

Dear Governor Polis:

Enclosed please find the Hospital Expenditure legislative report from the Department of Health Care Policy and Financing.

Section 25.5-4-402.8, C.R.S. requires the Department, on or before January 15, 2020, and on or before January 15 each year thereafter, the state department shall submit the annual hospital expenditure report to: the public health care and human services committee of the house of representatives, or any successor committee; the health and human services committee of the senate, or any successor committee; the joint budget committee of the general assembly; the governor; and the state board.

In addition, Section 25.5-1-703, C.R.S., enacted with the adoption of HB 19-1320, requires the Department to include a summary of the hospital community benefit implementation reports submitted by hospitals to the Department.

This report details the activities the Department has undertaken to implement HB 19-1001 and HB 19-1320 to date.

In addition to providing these reports as directed through legislation, the Department is analyzing the rise in Colorado hospital prices, costs, and profits in the state and its impact on the cost of health care coverage for consumers and businesses. The Department is undertaking this analysis as directed by the General Assembly. The reporting and tools will be posted on the Department's website at Colorado.gov/pacific/hcpf/hospital-reports-hub.

If you require further information or have additional questions, please contact the Department's Legislative Liaison, Jo Donlin, at <u>Jo.Donlin@state.co.us</u> or 720-610-7796.

Sincerely,

Page 2

Executive Summary

II. Hospital Expenditure Report

This annual report is prepared by the Department of Health Care Policy & Financing (the Department) pursuant to Section 25.5-4-402.8, C.R.S. Since the passage of House Bill (HB) 19-1001 in 2019, the Department has worked with Colorado hospitals to compile a dataset of hospital financial and utilization metrics to present a full picture of the hospital industry in Colorado. The Hospital Expenditure Report represents the compilation of historic dataset to date and includes some basic analysis of the dataset.

For the completion of the report, the bill requires hospitals to submit three forms of financial and utilization information: Medicare Cost Reports, audited financial statements and the completion of a data submission template. The Department believes hospitals have made a good-faith effort to satisfy the bill requirements, although some hospitals did not make a statement and/or submit data.

The Hospital Expenditure Report presents aggregated information on Colorado hospitals, with hospital-specific information in Hospital Expenditure Report Detailed Dataset by Hospital in this report.

Key Findings

For the comparison period of 2014 to 2021, hospital patient revenues have grown faster than operating expenses leading to growing profits and margins. In this timeframe, overall net patient revenue, total operating expenses, and uncompensated care have all increased. Looking specifically at uncompensated care, the hospitals' data show that charity care was the primary driver of increases in uncompensated care, while bad debt leveled off or decreased for some peer groups.

Hospital data also show that Colorado hospitals are providing more services through outpatient than inpatient settings. This is most notable in smaller and rural hospitals.

• Overall, hospital patient revenues have grown faster than operating expenses leading to growing profits and margins. This profit growth has occurred even with the recent growth in charity care and the growing number of patients covered by public health insurance. Specifically, Medicaid and Medicare payer mix grew 1.5% points from 2020 to 2021 whereas Commercial payer mix decreased by 0.9% points.

- ✓ Net patient revenue grew from \$12.1 billion to roughly \$19.8 billion between 2014 to 2021, an increase of 63.8% and an average annual increase of 7.3%. Between 2020 and 2021, net patient revenue increased by \$1.83 billion, an increase of 10.2%.
- ✓ Total operating expenses grew from \$11.7 billion to \$19.1 billion between 2014 and 2021, an increase of 63.3% and an average annual increase of 7.2%. Between 2020 and 2021, total operating expense increased by \$1.12 billion, increasing 6.2% from \$17.8 billion in 2020 to \$19.1 billion in 2021.
- ✓ Comparatively, the Colorado population grew by 8.7% during the same period 2014 to 2021, according to the Colorado State Demographer.
- ✓ These increases to patient revenues from 2014 to 2021 occurred even with the limitation on elective services and general underutilization of hospitals due to the COVID-19 pandemic. Between 2020 and 2021, hospital patient revenues saw historic growth while operating expenses grew less than they have in any year since 2015.
- ✓ In 2021, contracted labor expenses grew by 115.3%, or \$286.1 million. The Department will continue to monitor and conduct further analysis of the impacts of the COVID-19 pandemic, along with supply chain and inflation challenges that may be impacting the hospital workforce.
- As a whole, uncompensated care saw a decrease starting in 2015 through 2018 but started to rise again between 2019 and 2021. The rise in uncompensated care was primarily driven by increases in charity care, while bad debt has leveled off since 2019.
 - ✓ Uncompensated care charges increased overall by 6.7% from 2020 to 2021, or approximately \$122.1 million. Of the two components of uncompensated care (bad debt and charity care), the data shows that from 2020 to 2021, bad debt decreased by 1.6% overall, or approximately \$12.1 million, whereas charity care increased by 12.2%, or approximately \$134.2 million.
 - ✓ In 2021, there was \$481.8 million in total uncompensated care costs¹, a decrease of 2.4% from 2020. Charity care made up \$292.7 million, or 60.8%, and bad debt costs made up \$189.0 million, or 39.2%. Self-pay represented the largest portion of uncompensated costs in 2021, with \$306.9 million, or 63.7%.

¹ Costs are calculated using a cost to charge ratio that is applied to the respective charges. Charges are the billed amounts from hospitals. For more information, please see the appendix to the report for a full list of definitions.

- ✓ In 2021, total bad debt costs were \$189.0 million. The majority of bad debt costs were in the Denver region at \$91.9 million, or 48.6%, which is served by the state's largest safety net hospital, Denver Health Medical Center, where 51% of Coloradans reside.²
- Total operating expenses, or costs, which includes all expenses related to the operations of the hospitals, have continued to grow consistently over the 2014 to 2021 period.
- Total operating expenses increased on average \$1.057 billion per year or 7.2% between 2014 and 2021. During the same period, on average net patient revenue grew \$1.105 billion each year or 7.3% a year.
 - ✓ In 2021 patient expenses were 72.9% of operating expenses, with 66.5% for patient services and 6.4% for other patient related expenses. Between 2020 and 2021, patient services increased 9.1%. Building and major equipment expenses increased \$130.9 million, or an increase of 8.1% from 2020 to 2021.
 - ✓ When added to operating expenses, uncompensated care costs represent 2.5% of operating expenses in 2021.
- Between 2020 and 2021, hospital peer groups had the following findings:
 - ✓ The breakdown of expenses for large hospitals remained about the same between 2020 and 2021.
 - ✓ A greater proportion of the large hospital peer group's operating expenses were allocated for patients at 73.8%, while the small hospital peer group's proportion of expenses allocated as for patients was the lowest at 61.5%.
 - ✓ The small hospital peer group has the largest proportion of other expenses at 18.9% and general and administration with 9.0%.
- On average, in 2021, inpatient care represented 29.6% and outpatient care represented 67.5%; however, larger hospitals are, on average, providing far more inpatient services than their smaller peers.
 - ✓ The disparity between inpatient utilization for small (14.4%) and large hospitals (47.5%) highlights the importance of differing sustainability strategies for rural hospitals, such as investing in rural hospital clinics and outpatient capabilities and divesting in rural hospital inpatient services

² Denver DOI region includes Adams, Arapahoe, Broomfield, Clear Creek, Denver, Douglas, Elbert, Gilpin, Jefferson, and Park counties. Source: 2021 county population data from the Colorado State Demography Office.

where appropriate. Future transparency analysis could review specific rural hospital utilization patterns to highlight where such opportunities are most evident.

- The payer mix analysis illustrates shifts in payer mix from commercial to Medicare and Medicaid public programs, but that shift was not equal between hospital groups.
 - ✓ Over the period 2014 through 2021, commercial dropped from 36.5% to 30.7%, while public payers represented by Medicare and Medicaid grew from 55.1% to 60.9%.
 - ✓ Over the period 2014 through 2021, the payer mix for the pubic program Medicare and Medicaid decreased from about 65% to 60.6% while their commercial payer mix increased from about 28% to 29%. Conversely, the medium and large hospital groups have seen a more significant drop in commercial, from 46.6% to 36.3% and from 35.7% to 30.3%, respectively while their public payer Medicaid and Medicare mix increased from 47.4% to 57% and 55.7% to 61.2%, respectively.

Recommendations

The Department makes the following recommendations to the General Assembly:

- Hospitals are not fully compliant with the reporting requirements including reporting inconsistently or failing to report some or all required data elements required. The Department will revise rules, guidance, and data collection forms to the extent possible under current statute to improve reporting consistency and clarify requirements. The General Assembly should consider establishing corrective action and financial penalties for non-compliance.
- The purpose of this report is to provide comprehensive and insightful information for communities, health care payers, and policy makers to drive affordability. Not all information is included in this report because current legislation is interpreted by some parties to limit the Department's ability to include specific elements without the hospital associations sign-off, including profits and reserves or the specific impact of federal stimulus, factors that most would consider paramount to this report. The General Assembly should consider policy that ensures the Department can provide complete transparency insights, which was the intent of HB19-1001.
- Additional information is needed to provide comprehensive transparency insights.
 The General Assembly should require hospitals to report such additional information, as requested by the Department, such as historic provider group acquisitions, all provider affiliation agreements rather than just new acquisitions, executives' total compensation, planned or new construction, capital outlays, and changes in service offerings and the like.

Overview

The purpose of the Hospital Expenditure Report is to fulfill the statutory requirements enacted through the passage of House Bill (HB) 19-1001 to "annually prepare a written hospital expenditure report detailing uncompensated hospital costs and the different categories of expenditures". To serve this directive, this report provides data summaries and analysis of Colorado hospitals that have submitted financial and utilization data to the Department of Health Care Policy & Financing.

Also included in this report is a map of Colorado hospitals as well as the Department of Regulatory Agencies' Division of Insurance (DOI) regions. A list of definitions is available as well.

Legislative Background

Under § 25.5-4-402.8, C.R.S., the Department shall annually prepare a written hospital expenditure report detailing the uncompensated hospital costs and the different categories of expenditures made by hospitals in the state. The Department shall consult with the Colorado Healthcare Affordability and Sustainability Enterprise Board (CHASE Board) in the development of the report. In compiling the Hospital Expenditure Report, the Department shall use publicly available data sources whenever possible. Each hospital in the state shall make information available to the Department for the compilation of the data set for and the completion of the Hospital Expenditure Report.

Background to this Report

HB 19-1001 requires hospitals to make a good-faith effort to submit Medicare Cost Reports and audited financial statements and other utilization and financial data. The Department began gathering Audited Financial Statements, Medicare Cost Reports, and the Department-provided template of financial and utilization metrics in mid-2021.

Data submitted through the Hospital Expenditure Report template represent most Colorado hospitals. For 2021, hospitals submissions accounted for 99.3% of all licensed hospital beds. The Department receives high level staffing information; utilization

¹ Hospital Transparency Measures to Analyze Efficacy, HB19-1001. 2019 Regular Session. (2019). Available from www.leg.colorado.gov/bills/hb19-1001.

metrics such as discharges, inpatient days, and outpatient visits; patient revenue information such as charges, contractual allowances, and uncompensated care charges; non-patient revenue information; and expense information both at an operating and nonoperating level. The appendix Hospital Expenditure Report Detailed Dataset by Hospital displays the status of hospital data submissions and data for all hospital data submissions for hospital fiscal years 2014 through 2021 with notes when applicable.

Methodology and Limitations

The data within this report represents the cumulation of both historic and current financial and utilization data reported to the Department. After consultation with the CHASE Board and the Colorado Hospital Association (CHA), the Department developed rules to help with the administrative task of the data collection process such that the Department collected data from general hospitals and critical access hospitals. Given the rules developed for the Hospital Expenditure Report, data from psychiatric, long term care and rehabilitation hospitals was not requested. For the historical data submission process, hospitals had the option to submit reports from the CHA's DATABANK Program² or to complete the Department's Acquisition, Financial and Utilization Reporting Tool. Most health systems or hospitals submitted a DATABANK report. However, since hospital fiscal year 2019 submissions, hospitals have only utilized the Department's reporting tool for a more accurate comparable report. Data is collected and reported on a hospital fiscal year basis.

The Department presents the data by peer grouping based on the number of licensed beds. The three hospital peer groups are as follow: small, with 25 or fewer beds; medium, with 26 to 90 beds; and large, with 91 or more beds. The Department also presents the data by the Department of Regulatory Agencies' DOI geographic regional rating areas.

The Hospital Expenditure Report Detailed Dataset by Hospital is a representation of the dataset compilation, with both the historic data submissions and the current data submissions. As discussed in the previous section, not all hospitals have submitted data. While all Colorado hospitals are listed in these tables, blank fields indicate

² CHA DATABANK is an online program available to Colorado Hospital Association members and serves as a centralized location for the collection of hospital utilization and financial data.

hospitals that did not submit data for that year. In some cases, the hospital was not open at that time.

There are limitations in the dataset, including the following: Historic dataset does not have bad debt and charity care by payer type. Because of this limitation, uncompensated care and net patient revenue by payer type is not available by payer type for hospital fiscal year 2014 to 2018.

Historic dataset is not fully complete: Some hospitals did not report for all years that the hospital was open. For example, if a hospital was acquired by a health system, the health system submission only included data for the years that hospital was part of a health system. Reported data is not complete for all years and for all categories even if a hospital has reported some data. This report uses data from hospital fiscal year 2014 through 2021 because this was the most complete section of data collected. To address the limitations of the dataset, the Department is analyzing trends for the most comprehensive period of the dataset, hospital fiscal year 2014 through 2021.

Other limitations include the analysis of hospital volume or the number of hospital patients such that there is a challenge in using volume metrics when hospitals have different ways in which they measure volume (example: metrics for inpatient services, discharges or patient days, and outpatient visits for outpatient services). Currently, the Department is not including an analysis that adjusts to a "per patient" or "per bed" basis. The Department has provided two volume metrics within the Hospital Expenditure Report Detailed Dataset by Hospital: discharges and outpatient visits.

A Note on Submissions

For the completion of the report, the legislation enacted through the passage of HB 19-1001 requires hospitals to submit three forms of financial and utilizations information: Medicare Cost Reports, audited financial statements and a completed data submission template. The Department believes hospitals have made a good-faith effort to satisfy the bill requirements, although some hospitals did not make a statement and/or data submission. The hospitals that did not make a data submission and are not included within the analysis of this report for hospital fiscal year 2021 are Colorado Plains Medical Center (now Centura St. Elizabeth Hospital) and St. Vincent Hospital. Additionally, due to a flaw in the submission process, Community Hospital, is also not present in the analysis for hospital fiscal year 2021. The Department will

continue to work with hospitals to gather missing data points where possible and improve upon the report.

The Hospital Expenditure Report presents aggregated information on Colorado hospitals, with hospital-specific information in the Hospital Expenditure Report Detailed Dataset by Hospital of this report.

Continuing Impact of the COVID-19 Pandemic

The COVID-19 pandemic started affecting hospital expenses in 2020, such as increases to supply expenses beyond typical inflation, increases to salaries and wages to keep up with workforce demands and reductions in services. Federal stimulus paid to Colorado hospitals, which totaled \$1.2 billion, offset reductions in hospital revenue and increases in hospital expenses due to the COVID-19 pandemic. The impact of the COVID-19 pandemic has clearly continued into 2023; the full extent of its impact - to Coloradans, employers, the state and to providers - will not be completely understood for many years to come. While the most recent year of hospital data does show trends of hospital financial metrics returning to pre-pandemic values, the Department will continue to report on hospital financials to observe and document trends and insights.

The Department recognizes that the impact of COVID-induced workforce shortages, COVID-19-induced supply chain and inflationary challenges on hospital financials are not fully reflected in this report, as they have continued through 2022 and into 2023 - periods not covered by this report. Future Department reports will continue to provide clarity into the impacts of COVID on hospital financials.

Financial Analysis

Historic Financial Analysis

Despite the historic impacts of COVID-19 on hospitals, one thing is clear: net Patient revenues have continued to rise, as noted in Graph 1 below. The following section analyzes major hospital financial metrics starting with net patient revenue and including uncompensated care and operating expenses over the historic period of fiscal year 2014 through 2021.

Graph 1 Net Patient Revenue (in millions)

Net Patient Revenue in Total

Net patient revenue approximates the payments a hospital receives for patient services. Net patient revenue is calculated by totaling all charges the hospital billed to patients, subtracting the total of all contractual allowances for each major payer, such as Medicare, Medicaid, commercial, etc., then subtracting uncompensated care.

Graph 1 illustrates net patient revenue in total for each year presented in the graph. Between 2014 and 2021, net patient revenue increased by \$7.7 billion, or an increase

of 63.8%, an average annual growth of 7.3% for total net patient revenue.³ Comparatively, the Colorado population grew by 8.7% during the same period 2014 to 2021, according to the Colorado State Demographer.⁴

There was reduced growth between 2019 and 2020 due to the pandemic - an increase of only 2.5%. Notably, this does not include the estimated \$1.2 billion of stimulus hospitals received during 2020 and recognized throughout 2020 and 2021. While stimulus helped hospitals cover slower growth of patient revenues during 2020, attributing all stimulus to hospitals revenue's is unrealistic as some was distributed to non-hospital business components, covered non-operating costs, or was returned. That said, between 2020 and 2021 net revenue increased by 10.2%, which is in line with pre-pandemic rates of growth (in 2019 there was an increase of 9.3% from 2018). Overall net patient revenue has grown consistently since 2014. While there was a decrease in the rate of growth between 2019 and 2020, net patient revenue continues to grow similarly to years before the COVID-19 pandemic.

Table 1 illustrates the breakdown of net patient revenue by hospital peer groups. The three groups are small: 25 beds or fewer; medium: 26 to 90 beds; large: 91 beds and more. Each hospital peer group had growth for net patient revenue from 2014 to 2021.

Peer Group	2014	2015	2016	2017	2018	2019	2020	2021
Large	\$10,815.8	\$11,657.3	\$12,432.9	\$13,259.4	\$14,222.1	\$14,735.0	\$14,758.8	\$16,288.8
Medium	\$884.9	\$991.1	\$1,111.3	\$1,188.3	\$1,299.0	\$1,846.2	\$2,100.0	\$2,190.7
Small	\$412.6	\$454.5	\$476.8	\$502.0	\$556.1	\$994.4	\$1,156.4	\$1,366.5
Total	\$12,113.3	\$13,102.9	\$14,021.0	\$14,949.7	\$16,069.0	\$17,575.6	\$18,015.2	\$19,846.0

Table 1 Net Patient Revenue by Hospital Peer Groups (in millions)

Uncompensated Care Charges in Total

Uncompensated care is the total amount of care a hospital provides that it does not expect or will not receive compensation for. There are two main components that

⁴ Information retrieved from: https://coloradodemography.github.io/population/data/regional-data-lookup/.

³ This calculation is done with a compound annual growth formula to account for compounding over the time period.

make up uncompensated care, bad debt and charity care. Both bad debt and charity care are presented within this section of the report as written off charges. Uncompensated care charges are the billed amounts from hospitals to their patients that are not received, either through charity care or bad debt. In contrast, uncompensated care costs are the costs associated with providing care that is not reimbursed. Costs are described in more detail in a subsequent section. The data in Graph 2 and Table 2 indicate overall uncompensated care has declined between 2014 and 2018, but has seen an increase of \$511.0 million, or an increase of 35.4%, from 2018 to 2021

Graph 2 Uncompensated Care Charges by Type

From 2019 to 2021, charity care increased by 25.9%, or an increase of \$253.6 million. For a breakdown of charity care charges see Table 3. Bad debt has decreased over the same period by 7.4% or \$58.2 million. For a breakdown of bad debt charges see Table 4. Combined bad debt and charity care increased by 11.1%, or \$195.4 million between 2019 and 2021. More insights into change between hospital fiscal years 2020 and 2021 can be found in the next section of the report.

Table 2 Uncompensated Care Charges by Hospital Peer Groups (in millions)

Peer Group	2014	2015	2016	2017	2018	2019	2020	2021
Large	\$1,582.1	\$1,120.0	\$1,112.3	\$1,286.0	\$1,298.7	\$1,554.4	\$1,573.5	\$1,715.2
Medium	\$84.6	\$61.7	\$64.4	\$89.8	\$89.9	\$135.1	\$185.1	\$159.3
Small	\$47.8	\$37.1	\$45.4	\$204.6	\$56.3	\$71.0	\$20.2	\$81.4
Total	\$1,715.0	\$1,218.9	\$1,222.1	\$1,580.5	\$1,444.9	\$1,760.5	\$1,833.8	\$1,955.9

Charity Care Charges

Charity care is a main component of uncompensated care. It is defined as health services that hospitals do not expect to receive payments in full, or in part, because a hospital has determined, with the assistance of the patient, the patient's inability to pay. ⁵

Table 3 Charity Care Charges by Hospital Peer Group

Peer Group	2014	2015	2016	2017	2018	2019	2020	2021
Large	\$980.7	\$573.2	\$620.3	\$718.5	\$716.0	\$894.3	\$1,017.0	\$1,135.6
Medium	\$32.7	\$24.2	\$24.8	\$33.0	\$23.7	\$32.0	\$61.1	\$73.0
Small	\$16.0	\$9.8	\$8.5	\$11.0	\$10.6	\$12.5	\$20.2	\$24.0
Total	\$1,029.3	\$607.3	\$653.6	\$756.8	\$737.7	\$927.3	\$1,098.3	\$1,232.5

Bad Debt Charges

Bad debt is the other portion of uncompensated care. Bad debt is a record of lost revenue for health services for which a hospital determined the patient had a financial responsibility to pay, but that patient did not pay. This is in contrast to charity care, in which hospitals have determined before the billing process begins that partial or full non-payments would occur for patients.

⁵Definition of Uncompensated Care. Retrieved from https://www.aha.org/system/files/2019-01/uncompensated-care-fact-sheet-jan-2019.pdf.

Table 4 Bad Debt Charges by Hospital Peer Group (in millions)

Peer Group	2014	2015	2016	2017	2018	2019	2020	2021
Large	\$601.5	\$546.8	\$492.0	\$567.5	\$582.7	\$660.1	\$556.5	\$579.6
Medium	\$51.9	\$37.5	\$39.5	\$56.8	\$63.1	\$76.4	\$124.0	\$86.4
Small	\$32.0	\$27.3	\$37.0	\$37.7	\$42.7	\$45.1	\$55.1	\$57.5
Total	\$685.4	\$611.6	\$568.5	\$661.9	\$688.6	\$781.6	\$735.5	\$723.4

Total Operating Expense Growth

Operating expenses for hospitals are the expenses incurred from the normal business operations of running and operating a hospital. For a hospital, some of these expenses could include salaries, rent, management fees, purchase of supplies and utilities.

In Graph 3 and Table 5, total operating expenses for all reporting hospitals is displayed for the period of 2014 to 2021. Between this period, the total operating expenses increased by roughly \$7.4 billion, or 63.1%. Each year, total operating expenses grew between \$1.237 billion and \$748.7 million, or between 7.4% and 6.2%, with an average growth of \$1.05 billion each year, or 7.2%. Comparatively, the Colorado population grew by 8.7% for the same period 2014 to 2021, according to the Colorado State Demographer.⁶ As total operating expenses represent the amount that a hospital spends on the operations, or providing services to patients, changes from unexpected events like the COVID-19 pandemic affect hospitals total operating expenses. The change in total operating expense from 2019 to 2020 is not significantly high compared to the previous year, nor the following year.

⁶ Information retrieved from: https://coloradodemography.github.io/population/data/regional-data-lookup/.

Graph 3 Total Operating Expense (in millions)

Table 5 Total Operating Expense by Total and by Hospital Peer Group (in millions)

Peer Group	2014	2015	2016	2017	2018	2019	2020	2021
Large	\$10,296.1	\$10,874.1	\$11,813.6	\$12,600.5	\$13,254.8	\$13,621.6	\$14,238.8	\$15,387.4

Total	\$11,720.7	\$12,408.3	\$13,277.5	\$14,157.9	\$15,506.6	\$16,650.9	\$17,888.3	\$19,121.3

Current and Previous Year Financial Analysis

This section of the report focuses on the most recent year of the reporting period and analyzes shifts between 2020 and 2021. Specifically, it provides a breakdown of financial metrics by peer groups and DOI regions. As mentioned previously, due to the limitation of historic data, payer types have not been presented above. However, this section of the report focuses on years in which payer types were more accurately reported.

Table 6 Net Patient Revenue Percent Change by Hospital Peer Groups

Peer Group	Net Patient Revenue % Change (2020- 2021)
Large	10.4%
Medium	4.3%
Small	18.2%
Total	10.2%

In Table 6, the percent change in net patient revenue between 2020 and 2021 for each hospital peer group is displayed. The large peer group increased by \$1.53 billion, or 10.4%. The medium peer group increased \$90.7 million, or 4.3%. The small peer group increased by \$210.1 million, or 18.2%. Please note, COVID stimulus funds are not classified as or represented in net patient revenue for either year.

Net Patient Revenue by Payer Type - 2020 to 2021

Net patient revenue by payer type approximates the payments a hospital receives for a particular payer type.

Table 7 Net Patient Revenue by Payer Type (in millions)

Major Payer Type	Net Patient Revenue
Medicare	\$ 5,398.4
Medicaid	\$ 3,286.0
Commercial	\$ 9,961.9
Self-Pay	\$ 200.3
Colorado Indigent Care Program (CICP)/Other	\$ 999.4
Total	\$ 19,846.0

In Table 7, totals for net patient revenue by payer type is represented in millions. In 2021, total net patient revenue was \$19.85 billion. The commercial payer category made up approximately half (50.2%) of total net patient revenue at \$9.22 billion. The

next largest payer category was Medicare, representing 27.2% of total net patient revenue or \$5.398.4 billion. Medicaid net patient revenue was \$3.286 billion, or 16.6% of the total net patient revenue. The two remaining categories representing 6.0% were CICP/Other net patient revenue totaling \$999.4 million and self-pay totaling \$200.3 million, or 5.0% and 1.0%, respectively.

Table 8 2021 Net Patient Revenue by Payer Type by Hospital Peer Group (in millions and as % of Payer Total)

Payer Type	Large	Large	Medium	Medium	Small	Small
		(%)		(%)		(%)
Medicare	\$ 4,296.5	26.4%	\$ 624.8	28.5%	\$ 477.1	34.9%
Medicaid	\$ 2,824.8	17.3%	\$ 237.7	10.9%	\$ 223.5	16.4%
Commercial	\$ 8,201.8	50.4%	\$ 1,234.1	56.3%	\$ 525.9	38.5%
Self-Pay	\$ 133.3	0.8%	\$ 30.1	1.4%	\$ 36.9	2.7%
CICP/Other	\$ 832.4	5.1%	\$ 64.0	2.9%	\$ 103.0	7.5%
Total	\$ 16,288.8	100%	\$ 2,190.7	100%	\$ 1,366.5	100%

In Table 8, 2021 net patient revenue by payer type is broken down by hospital peer groups. For the large peer group, net patient revenue totaled \$16.289 billion or 82.1% of total net patient revenue. The commercial payer category represents about half, or 50.4%, of the large peer group's total at \$8.202 billion. For the medium peer group, net patient revenue totaled \$2.191 billion, 11.0% of the total for 2021.

The split of net patient revenue by payer category was similar for the large and the medium peer groups. The medium peer group was approximately half commercial payer category with \$1.234 billion, or 56.3% and Medicare with \$624.8 million, or 28.5%. For the small peer group, net patient revenue totaled \$1.367 billion, which was 6.9% of total net patient revenue for 2021. While commercial net patient revenue is the largest portion of the small peer group's total at \$525.9 million, or 38.5%, the Medicare category, \$477.1 million or 34.9%, represented a larger portion of the small peer groups net patient revenue compared to the large and medium peer groups, 26.4% and 28.5%, respectively.

Table 9 2021 Net Patient Revenue by Payer by DOI region (in millions) 7

Payer Type	Medicare	Medicaid	Commercial	Self-pay	CICP/ Other	Total
Boulder	\$ 302.3	\$ 111.6	\$523.6	\$ 10.1	\$ 45.8	\$ 993.3
Colorado Springs	\$ 625.9	\$ 364.1	\$ 932.9	\$ 6.2	\$ 176.2	\$ 2,105.3
Denver	\$ 2,595.5	\$ 1,995.0	\$ 5,870.7	\$ 92.9	\$ 511.2	\$ 11,065.3

Total	27.2%	16.6%	50.2%	1.0%	5.0%	100.0%

In Table 9 and Table 10, 2020 net patient revenue by payer type is broken down by the nine DOI regions. The Denver region represents the majority of net patient revenue at \$11.06 billion, or 55.8%. Overall, the Denver region represented most for each of the payer's total net patient revenue. In the majority of regions, commercial net patient revenue represented the highest proportion of total net patient revenue; on average, the commercial percentage of total net patient revenue for each region is 46.1%. Medicare represented the second highest percent of net patient revenue at 31.2% for all DOI regions. In 2021, the Pueblo region saw the highest net patient

⁷ In the Pueblo region, CICP/Other appears as a negative number, this is due to hospitals within that region reporting all of their uncompensated care to the Other category which over shadows revenues in from those payers.

revenue proportion for Medicaid, 27.6%, followed by the East region at 21.4%. Across all regions in 2021, Medicaid total net patient revenue averaged 16.0%.

Uncompensated Care Charges in Total- 2020 to 2021

Uncompensated care is the total amount of care a hospital provides that it does not expect to, or will not, receive compensation for providing a service. There are two main components that make up uncompensated care: bad debt and charity care. Both are expressed within this section of the report in terms of charges written-off. As a reminder, uncompensated care charges are the billed amount from hospitals to its patients that are not received, whereas uncompensated care costs, which will be discussed in a section later in the report, are the costs associated with providing care that is not reimbursed. Overall, uncompensated care charges in total have increased from 2020 to 2021, driven by increases in charity care. However, bad debt for some payer groups has significantly dropped from the previous year.

Table 11 Uncompensated Care Charges Percent Change by Hospital Peer Groups

Peer Group	Uncompensated Care Charges % Change (2020 -2021)
Large	9.0%
Medium	-13.9%
Small	8.2%
Total	6.7%

Table 11 depicts total uncompensated care growth from 2020 to 2021 for each of the hospital peer groups. The majority of uncompensated care can be found in the large peer group, \$1.715 billion of the total \$1.956 billion in 2021. Overall, uncompensated care for the large peer group increased by 9.0%, or \$141.7 million from 2020 to 2021. The Medium peer group uncompensated care decreased by \$25.7 million, or 13.9%. The small peer group uncompensated care increased overall by 8.2%, or \$6.2 million.

Charity Care Charges - 2020 to 2021

One main component of uncompensated care is charity care. It is defined as health services for which hospitals do not expect to receive, in full or in part, payment because the hospital had determined, with the assistance of the patient, the patient's inability to pay.

Table 12 Charity Care Charges Percent Change by Hospital Peer Group

Peer Group	Charity Care Charges % Change (2020 -2021)
Large	11.7%
Medium	19.4%
Small	18.8%
Total	12.2%

Table 12 shows the percent change for each hospital peer group from 2020 to 2021. Overall, charity care increased by \$134.2 million, or 12.2%, from 2020 to 2021. The large peer group represented most of the overall increase with an addition of \$118.6 million over the period, or an increase of 11.7%. The medium and small peer groups increased by \$11.8 million and \$3.8 million, respectively. The medium peer group increased the most, by 19.4%, and the small peer group increased by 18.8%.

Bad Debt Charges - 2020 to 2021

The other portion of uncompensated care is bad debt. Bad debt is a record of lost revenue for health services for which a hospital determined the patient had a financial responsibility to pay, but that patient did not pay. ¹⁰ This is in contrast to charity care, in which hospitals have determined before the billing process begins that partial or full non-payments would occur for patients.

Table 13 Bad Debt Charges Percent Change by Hospital Peer Group

Peer Group	Bad Debt Charges % Change (2020 -2021)
Large	4.2%
Medium	-30.3%
Small	4.4%
Grand Total	-1.6%

In Table 13, the percent change of bad debt for each peer group is presented. On the aggregate level, bad debt decreased by \$12.1 million between 2020 and 2021, or 1.6%. Bad debt for the large peer group increased by \$23.1 million, or 4.2%. The medium peer group saw a decrease in bad debt of \$37.6 million, or 30.3%, while the small peer group saw an increase in bad debt over the period of \$2.4 million, or 4.4%. The reduction in total uncompensated care charges for the medium peer group was primarily driven by a decrease in bad debt.

Uncompensated Care Costs - 2020 to 2021

Uncompensated care costs are calculated by adding charity care and bad debt charges together and multiplying by a cost-to-charge ratio. Each individual hospital has a cost-to-charge ratio and it is calculated by total expenses (exclusive of bad debt) and dividing that figure by the sum of total charges and other operating revenue. Overall, uncompensated care costs have increased from 2020 to 2021, driven by increases in charity care. However, bad debt for some payer groups has significantly decreased from the previous year. The table below represents uncompensated care costs by payer types.

Table 14 2021 Uncompensated Care Costs by Payer Type (in millions)

Major Payer	Bad Debt Costs	Charity Care Costs	Uncompensated Care Costs
Medicare	\$ 11.6	\$ 3.3	\$ 14.9
Medicaid	\$ 3.1	\$ 5.6	\$ 8.7
Commercial	\$ 48.8	\$ 24.4	\$ 73.1
Self-pay	\$ 104.6	\$ 202.3	\$ 306.9
CICP/ Other	\$ 20.9	\$ 57.2	\$ 78.1
Total	\$ 189.0	\$ 292.7	\$ 481.8

In Table 14, uncompensated care costs are represented in total and for bad debt and charity care by payer type. In 2021, uncompensated care costs totaled \$481.8 million, and was primarily made up of the self-pay category with \$306.9 million, or 63.7%. The second highest payer type to contribute to uncompensated care costs was the CICP/Other payer type with \$78.1 million in uncompensated care costs. The lowest proportion of uncompensated care costs came from the Medicaid payer type category with \$8.7 million in uncompensated care costs, or 1.8%, followed by Medicare with \$14.9 million in uncompensated care costs, or 3.1%. Between 2020 and 2021, total uncompensated care costs decreased by 2.4%, a decrease of \$12.1 million.

Charity care costs totaled \$292.7 million, or 60.8% of total uncompensated care. The self-pay payer category made up most of charity care in 2021, representing 69.1% of total costs, or \$202.3 million. The second largest category for charity care costs was the CICP/Other category, at \$57.2 million, or 19.5% of total charity care costs. Between 2020 and 2021, total charity care costs increased by 5.9%, or \$16.2 million.

Bad debt costs were \$189.0 million, representing approximately 39.2% of total uncompensated care costs. The self-pay category made up over half of the costs for bad debt or 55.3%, representing \$104.6 million. The next highest category was the commercial payers at 25.8%, or \$48.8 million. Between 2020 and 2021, total bad debt costs decreased by 13.0%, or \$28.3 million.

Charity Care Costs - 2020 to 2021

Table 15 2021 Charity Care Costs by Payer by Peer Group (in millions)

Payer Type	Large	Medium	Small	Total
Medicare	\$ 2.4	\$ 0.2	\$ 0.8	\$ 3.3
Medicaid	\$ 5.1	\$ 0.2	\$ 0.3	\$ 5.6
Commercial	\$ 19.8	\$ 3.0	\$ 1.5	\$ 24.4
Self-pay	\$ 180.0	\$ 16.2	\$ 6.0	\$ 202.3
CICP/ Other	\$ 51.7	\$ 3.7	\$ 1.8	\$ 57.2
Total	\$ 259.0	\$ 23.3	\$ 10.4	\$ 292.7

In Table 15, charity care costs are broken down by hospital peer groups and by major payer types. In 2021, the large peer group made up the majority of charity care costs, which totaled \$259.0 million, or 88.5% of the total charity care costs. Self-pay payer made up 69.5% of charity care costs for the large peer group, or \$180.0 million. The medium peer group made up approximately 8.0% of total charity care costs, or \$23.3 million. The small peer group made up 3.6% of total charity care costs with \$10.4 million. The self-pay payer category made up the majority of the small peer group's charity care costs at \$6.0 million. Overall, the large peer group represented the majority of charity care costs for each payer type, ranging from 72.2% (Medicare) and 90.6% (Medicaid).

Table 16 2021 Charity Care Costs by Payer Type by DOI Region (in millions)

DOI Region	Medicare	Medicaid	Commercial	Self- pay	CICP/ Other	Total
Boulder	\$ 0.2	\$ 0.1	\$ 1.7	\$ 8.7	\$ 0.3	\$ 11.0
Colorado Springs	\$ 0.4	\$ 0.04	\$ 2.9	\$ 13.5	\$ 3.6	\$ 20.4
Denver	\$ 1.3	\$ 4.5	\$ 13.6	\$ 134.9	\$ 41.3	\$ 195.7
East	\$ 0.3	\$ 0.1	\$ 0.7	\$ 3.2	\$ 0.4	\$ 4.7
Ft. Collins	\$ 0.1	-\$ 0.02	\$ 0.7	\$ 8.6	\$ 3.0	\$ 12.3
Grand Junction	\$ 0.2	\$ 0.8	\$ 0.7	\$ 5.1	\$ 2.1	\$ 8.9
Greeley	\$ 0.1	-\$0.5	\$ 0.8	\$ 12.4	\$ 0.8	\$ 13.7
Pueblo	\$ 0.1	-\$ 0.01	\$ 0.6	\$ 2.1	\$ 2.0	\$ 4.8
West	\$ 0.5	\$ 0.4	\$ 2.6	\$ 13.8	\$ 3.7	\$ 21.1
Total	\$ 3.3	\$ 5.6	\$ 24.4	\$ 202.3	\$ 57.2	\$ 292.7

In Table 16, charity care costs are represented in total for each payer type broken down by DOI regions. In 2021, total charity care costs were \$292.7 million. The majority of charity care costs were in the Denver region at \$195.7 million, or 66.9%. The second largest region in total for charity care costs was the West region with \$21.1 million, or 7.2%.

Bad Debt Costs - 2020 to 2021

Table 17 2021 Bad Debt Costs by Payer by Peer Group (in millions)

Payer Type	Large	Medium	Small	Total
Medicare	\$ 7.5	\$ 1.4	\$ 2.6	\$ 11.6
Medicaid	\$ 2.3	\$ 0.1	\$ 0.7	\$ 3.1
Commercial	\$ 36.0	\$ 8.4	\$ 4.5	\$ 48.8
Self-pay	\$ 72.5	\$ 19.5	\$ 12.5	\$ 104.6
CICP/ Other	\$ 10.6	\$ 0.9	\$ 9.4	\$ 20.9
Total	\$ 129.0	\$ 30.3	\$ 29.8	\$ 189.0

In Table 17, bad debt costs are broken down by hospital peer groups and by major payer types. In 2021, the large peer group made up the majority of bad debt costs which totaled \$129.0 million, or 68.2% of the total bad debt costs. Self-pay made up 56.2% of bad debt costs for the large peer group, or \$72.5 million. The second largest payer category was the commercial payer, with \$36.0 million, or 27.9% of the total large peer group. The medium peer group made up approximately 16.0% of total bad debt costs, or \$30.3 million. The self-pay category made up the majority of bad debt

costs for the medium peer group with \$19.5 million, or 64.5% of total bad debt costs for the medium peer group. The small peer group made up approximately 15.8% of total bad debt costs with \$29.8 million. Similar to the large and medium peer group, the self-pay category made up the majority of the small peer group's bad debt costs with \$12.5 million, or 42.1% of total bad debt costs for the payer. Overall, the large peer group made up the majority of bad debt costs for each payer type, ranging from 50.9% (CICP/Other) to 73.7% (Commercial). The self-pay category made up the majority of total bad debt costs with \$104.6 million, or 55.3%; followed by the Commercial payer group with \$48.8 million, or 25.8%.

Table 18 2020 Bad Debt Costs by Payer Type by DOI Region (in millions)⁸

DOI Region	Medicare	Medicaid	Commercial	Self-Pay	CICP/ Other	Total
Boulder	\$ 0.1	\$ 0.1	\$ 1.1	\$ 1.7	\$ 0.2	\$ 3.2
Colorado Springs	\$ 1.3	\$ 0.2	\$ 4.9	\$ 10.8	\$ 0.6	\$ 17.8
Denver	\$ 5.5	\$ 2.3	\$ 28.0	\$ 52.6	\$ 3.5	\$ 91.9
East	\$ 0.5	\$ 0.2	\$ 2.0	\$ 6.4	\$ 4.8	\$ 13.8
Ft. Collins	\$ 1.0	\$ 0.2	\$ 4.6	\$ 8.8	\$ 0.2	\$ 14.8
Grand Junction	\$ 0.4	-\$ 0.1	\$ 0.3	\$ 1.6	\$ 0.5	\$ 2.7
Greeley	\$ 0.7	-\$ 0.4	\$ 2.4	\$ 4.1	\$ 0.1	\$ 6.8
Pueblo	\$0.0	\$0.0	\$0.0	\$ 0.0	\$ 5.9	\$ 5.9
West	\$ 2.1	\$ 0.6	\$ 5.4	\$ 18.5	\$ 5.3	\$ 32.0
Total	\$ 11.6	\$ 3.1	\$ 48.8	\$ 104.6	\$ 20.9	\$ 189.0

In Table 18, bad debt costs are represented in total for each payer type and broken down by DOI regions. In 2021, total bad debt costs were \$189.0 million. The majority of bad debt costs were in the Denver region with \$91.9 million, or 48.6%. This is the area where our state's largest safety net hospital, Denver Health Medical Center, is located and where 51% of Coloradans reside. The second largest region in total for bad debt costs was the West region with \$32.0 million, or 16.9%. The Denver region was the driver of bad debt costs in 2021 and made up the largest portion of each

⁹ Denver DOI region includes Adams, Arapahoe, Broomfield, Clear Creek, Denver, Douglas, Elbert, Gilpin, Jefferson, and Park counties. Source: 2021 county population data from the Colorado State Demography Office.

⁸ In the Pueblo region, bad debt costs may appear to be zero as the figures either were allocated wholly to Other or do not round up to 0.1 million.

payer type, except for the CICP/Other category, which had higher proportion (28.2% and 25.4%, respectively).

Operating Expenses - 2020 to 2021

In this section, the Department provides total operating expenses by peer group, DOI region, expense type. This section also reviews total operating expenses over the 2020 to 2021 period.

Total Operating Expense Growth - 2020 to 2021

Table 19 Total Operating Expense Percent Change by Hospital Peer Group

Peer Group	Total Operating Expense % Change (2020 -2021)
Large	8.1%
Medium	-3.2%
Small	13.1%
Total	6.9%

Table 19 shows the percent change of total operating expenses for each peer group. Between 2020 and 2021, overall operating expenses grew by 6.9%, or an increase of \$1.2 billion. This is a reduction in the rate of growth from the previous year, which saw an increase of 7.4% between 2019 and 2020. The bulk of the overall increase was driven by the large peer group with an increase of \$1.148 billion, or 8.1% between 2020 and 2021. The small peer group also increased its total operating expenses with \$161.7 million, or 13.1% from 2020 to 2021. Unlike the other two peer groups, there was a decrease in total operating expenses for the medium peer group of \$77.3 million, a decrease of 3.2%.

Operating Expense Mix

Hospitals submitted about 30 different types of expenses. These expense types ranged from the highest expense category (salaries, benefits, and wages) to small fill-in categories for expenses like bank fees and debt issuance. To better understand operating expenses, the Department asked hospitals to allocate expenses into four categories: direct patient, patient other, general & administrative, and other, in addition to reporting the total for each expense type.

The pie chart in Graph 4 displays a statewide mix of aggregate operating expenses by type for 2021 and illustrates that most Colorado hospital expenses are for patient

services. Table 20 provides a more detailed breakdown of operating expenses and uses color to indicate how the expenses are included in the operating expense pie chart of Graph 4. As noted in the graphic, patient expenses (service and other) represent approximately 72.4% of Colorado hospital operating expenses. Patient service expenses make up 66.1% of operating expenses and patient other expenses make up 6.3% of operating expenses. Between 2020 and 2021, total patient expenses increased 9.1%.

General and administrative expenses represent 15.2%, while building and major equipment expenses generate 9.1% of operating expenses. Between 2020 and 2021, general and administrative expenses increased by 11.6%, and building and major equipment expenses increased by 8.1%. Other expenses represent approximately 3.3% of all operating expenses, a decrease of 17.3% from 2020. This decrease was primarily due to the provider fee allocation being more appropriately allocated from the Other to Patient category from 2020 to 2021.

¹⁰ For expenses that hospitals allocated as being for patients, the Department chose expense lines that clearly relate to patient services to be classified as patient services, while the remainder are classified as patient other. Examples of expenses that hospitals reported as being for patients that fall in the patient other category include: contracted services, general other, insurance expense, management fees, provider fees, and purchased services.

Graph 4 2021 Mix of Operating Expenses by Type

Table 20 2021 Mix of Operating Expenses by Type (in millions)

Expense Type	Expense	Direct Patient	Patient Other	General/ Admin	Other	Total
Services	Salaries, Wages, & Benefits	\$6,429.3	\$505.8	\$1,287.8	\$211.8	\$8,434.7
Services	Physician Renumeration	\$975.3	\$20.5	\$22.3	\$29.2	\$1,047.4
Services	Total Supplies	\$3,543.9	\$80.4	\$110.6	\$30.5	\$3,765.4
Services	All Other	\$427.4	\$190.0	\$0.0	\$0.0	\$617.4
Other	Interest	\$116.8	\$0.6	\$75.3	\$16.1	\$208.8
Other	Provider Fee	\$684.3	\$228.3	\$71.5	\$93.7	\$1,077.8
Other	All Other	\$467.5	\$182.9	\$1,338.5	\$242.0	\$2,231.0
Building & Major Equipment	Depreciation	\$942.8	\$15.1	\$197.6	\$59.5	\$1,214.9
Building & Major Equipment	Leases & Rental	\$131.2	\$7.6	\$40.8	\$3.7	\$183.3
Building & Major Equipment	Maintenance & Utilities	\$161.6	\$53.0	\$109.6	\$16.4	\$340.6
Total	Total	\$13,879.9	\$1,284.3	\$3,254.0	\$653.0	\$19,121.3

Another way to examine hospital expenses is by including uncompensated care costs as an additional operating expense. Uncompensated care is typically reported as write-offs to gross charges, but as discussed in the Uncompensated Care Costs section, a cost-to-charge ratio can be applied to the write-offs to estimate the cost of uncompensated care. As depicted in Graph 1, uncompensated care costs represent 2.5% of costs when included as an operating expense. When included as a patient expense, total patient expenses represent 73.2% of operating expenses.

Graph 5 2021 Mix of Operating Expenses with Uncompensated Care Costs by Type

Below (Graph 6) represents the mix of operating expense types by hospital peer group.

Graph 6 2021 Operating Expense Mix by Hospital Peer Groups

Table 21 2021 Operating Expense Mix by Hospital Peer Group¹¹

Expense Type or Expense	Large	Medium	Small
Patient	73.8%	70.0%	61.5%
Patient Service	64.6%	62.7%	54.7%
Patient Other	9.2%	7.3%	6.8%
General/Administration	15.1%	13.8%	18.9%
Building & Major Equipment	8.8%	10.4%	10.5%
Depreciation	6.2%	7.8%	6.5%
Leases & Rental	0.9%	1.1%	1.0%
Maintenance & Utilities	1.7%	1.5%	3.0%
Other	2.4%	5.7%	9.0%
Grand Total	100.0%	100.0%	100.0%

The breakdown of expenses for large hospitals remained roughly the same between 2020 and 2021. Patient services decreased from 65.1% to 64.6% but saw a relative similar increase in patient other (8.2% increase to 9.2%). Building and major equipment expenses increased by 0.2% between 2020 and 2021.

For the medium peer group there was an increase in patient service expense from 61.3% to 62.7% leading to an increase in total patient expense from 69.2% to 70.0% from 2020 to 2021. The Medium peer group had the second largest patient service proportion.

For the small peer group, between 2020 and 2021 there was an increase for total patient from 60.5% to 61.5%. General and Administrative expenses increased from 17.4% to 18.9% from 2020 to 2021. For all other expenses there was a decrease from 11.1% to 9.0%.

A greater proportion of the large hospital peer group's operating expenses were allocated for patients with 73.8% while the small hospital peer group's proportion of expenses allocated as for patients was the lowest at 61.5%.

¹¹ Other expenses are significantly larger for the small peer group as small hospitals have less resources to categorize expenses appropriately, and when they cannot make the determination that an expense is a patient related expense, hospitals will allocate these expenses into the Other category.

The small hospital peer group has the largest proportion of other expenses of 9.0% and general and administration at 18.9%.

When operating expenses are reviewed by DOI region (Graph 7 and Table 22), there is regional variation for expense mix when allocated to patient, and general and administration categories. For example, the Grand Junction region has the highest proportion of expenses allocated to total patient with 81.7% followed by Fort Collins with 78.7%. On average, in 2021, building and major equipment expenses were approximately 8.6%. Overall, the Greeley region was the highest at 12.7% while the lowest was the Pueblo region at 6.8%.

Additionally, on average in 2021, general and administrative expenses were approximately 18.8% between all regions. The regions with the highest proportion of general and administrative expenses were Pueblo at 44.0% and the East at 20.5%. This is likely because most hospitals within these regions are small or medium sized hospitals. This aligns with the analysis of expense by the peer groupings. The Pueblo region has had a dramatic increase in its General & Administrative expense proportion of total operating expense. This increase was primarily driven by Parkview Medical Center, which allocated more salaries and supplies expenses to its General & Administrative category than it did in previous reports. This is more noticeable as there are only two hospitals within the region, and changes to one effect the distribution of the total considerably. Note that Parkview signed a letter of intent to join UCHealth in October of 2022.

Graph 7 Operating Expense Mix by DOI Region

Table 22 2021 Operating Expense Mix by DOI Region

DOI Region	Boulder	CO Springs	Denver	East	Ft Collins	Grand Junction	Greeley	Pueblo	West
Patient	72.5%	77.6%	74.2%	59.6%	78.7%	81.7%	65.2%	42.0%	67.2%
Patient Service	66.3%	66.9%	64.6%	53.5%	69.8%	74.5%	58.6%	38.4%	60.1%
Patient Other	6.3%	10.7%	9.6%	6.2%	8.9%	7.2%	6.5%	3.6%	7.1%

Maintenance & Utilities	0.8%	1.5%	1.6%	2.3%	2.2%	0.2%	3.4%	2.0%	2.4%
Other	0.0%	0.0%	3.4%	11.6%	1.9%	0%	8.4%	7.2%	3.0%
Grand Total	100.0%	100.0%	100.0%	100.0%	100.0%	100.0%	100.0%	100.0%	100.0%

In Table 23, the percent change for comparable total expense categories are displayed. Between 2020 and 2021, total payroll expense increased by 6.1%, an increase of \$370.9 million whereas total salaries, wages, and benefits increased by 8.4%, an increase of \$651.8 million. In 2021, there was also an increase in contracted labor expenses by 115.3%, or \$286.1 million. This is a significant change from 2020 and 2019 to 2020. The Department will continue to monitor the impact of staffing agency contracted labor, recognizing the investments made by the General Assembly intended to respond to health care workforce shortages and working conditions.

Between 2020 and 2021, total supplies expenses increased by 13.4%, or \$445.1 million. There was a decrease of approximately 2.8%, or \$5.3 million, for lease and rental expenses, a decrease of 1.4%, or a decrease of \$4.8 million. For maintenance & utilities, there was a decrease of 4.5%, or \$9.9 million for interest expenses between 2020 and 2021. The Department will continue to review and monitor these trends in future years to analyze the impact of the COVID-19 pandemic on hospital expenses.

Table 23 2020 -2021 Operating Expenses Percent Change

Expense	% Change (2020 - 2021)	\$ Change (2020 - 2021)
Total payroll	6.1%	\$ 370,987,992
Employee benefits	-0.3%	(\$ 5,210,929)
Contracted labor	115.3%	\$ 286,113,100
Total salaries, wages, benefits	8.4%	\$ 651,890,163
Total supplies	13.4%	\$ 445,165,817
Depreciation	13.1%	\$ 141,005,603
Leases & Rental	-2.8%	(\$ 5,252,534)
Maintenance & Utilities	-1.4%	(\$ 4,753,119)
Interest	-4.5%	(\$ 9,931,593)

Inpatient and Outpatient Service Split

Because hospitals have staff who admit and treat both inpatient and outpatient patients, and hospital equipment is used for both inpatient and outpatient services, the Department uses a breakdown of gross charges to determine the split between inpatient and outpatient services.

Graph 8 represents hospital estimates of what proportion of delivery of service expenses are for inpatient and outpatient services for all hospitals during 2021. On average, 29.6% was for inpatient services and, on average, 67.5% for outpatient services.

Graph 8 2021 Inpatient and Outpatient Expense Split

The variation amongst the hospital peer groups is revealed by looking at the inpatient and outpatient service split (Graph 9) utilizing a straight average. It should be noted that the large group inpatient services are far higher than the medium and small group inpatient services (on average 47.5% compared to 29.6% statewide). As a result of the quantity of hospitals in the peer groups, the medium and small peer groups drive the statewide results. The medium peer group's inpatient and outpatient service split reflects the statewide values, with inpatient services representing 28.2% of expenses while outpatient services represent an average of 70.7%. The small peer group's expenses are the most heavily weighted towards outpatient services as hospitals in that peer group reported 79.6% of their service expenses for outpatient services and 14.4% for inpatient services.

Graph 9 2021 Inpatient and Outpatient Expense Split by Hospital Peer Group

As seen in Graph 10, regions with more small and medium hospitals have more outpatient service expenses than inpatient service expenses. Along with size, distance from the state's most populous metropolitan region, Denver, seems to correspond with the proportion of expenses allocated between inpatient and outpatient services. In the regions with the highest proportion of small and medium hospitals (the East and West regions), the split between inpatient and outpatient is most noticeable, with small hospitals having the highest proportion of outpatient services and lower inpatient services compared to their regional peers.

Graph 10 2021 Inpatient (IP) and Outpatient (OP) Expense Split by DOI Region

OP

0%

Payer Mix

Payer mix is the percentage composition of all the payer types that make up hospital services. The Department assesses payer mix by looking at the proportion of payer types that make up total charges. ¹² To assess payer mix, proportions of charges are calculated. The dataset has four payer types: Medicare, Medicaid, commercial and Self-pay. The difference between total charges and the sum of these payer types has been labeled as "Other". The difference between the "Other" payer category and CICP/Other shown elsewhere in the report, is that prior to 2019 not all Colorado hospitals were required to submit charge information that accurately broke out CICP and therefore the categories are not synonymous.

Graph 11 and Table 24 shows payer mix has not changed significantly between 2014 and 2021, but there has been some shift between payer types. In 2021, more people were insured through public programs (60.9% Medicaid/Medicare payer mix) than in 2014 (55.1% Medicaid/Medicare payer mix). While the Medicaid hospital payer mix increased from 2014 to 2017 (from 19.3% to 22.2%), Medicaid payer mix has remained fairly consistent since 2015 ranging between 21.2% and 22%.

¹² A hospital's chargemaster is a layer of financial values tied to services rendered that applies to all patients. Two patients who receive the same services will be "charged" the same amount. What the patients and their insurance coverage will end up paying varies based on their insurance's negotiated rate with the hospital. As the top layer of the charge system is universal amongst patients, charges are a good indication of the proportion of services associated with a payer type. Additionally, using charges to proportion payer mix assumes that the procedure mix is similar across all payer types, e.g. when one payer type receives more high charge procedures it will look as though they have a greater payer mix.

Graph 11 Payer Mix

Table 24 Payer Mix

Year	Commercial	Medicaid	Medicare	Self-pay	Other
2014	36.5%	19.3%	35.9%	4.3%	4.1%
2015	35.5%	21.7%	35.9%	3.2%	3.7%
2016	36.0%	22.0%	35.8%	2.8%	3.4%
2017	34.6%	22.2%	36.9%	2.9%	3.4%
2018	34.3%	21.9%	37.4%	3.0%	3.4%
2019	31.8%	21.3%	38.8%	3.4%	4.6%
2020	31.6%	21.2%	38.3%	3.8%	5.2%
2021	30.7%	21.7%	39.2%	3.0%	5.4%

The Department also looked at payer mix by the hospital peer groups, displayed in Graph 12, 13, and 14. Some interesting findings from this view of the data are that the small peer group has the lowest commercial payer mix for all years, and 29.1% in 2021. The small peer group has the highest proportion of other payers as well, growing from 2.3% in 2017 to 8.1% in 2020, and then declining to 6.9% in 2021. Historically most patients seen at small peer group hospitals are insured through Medicare. Medicare is now the largest payer mix of the large and medium peer group's payer mix as well. For all hospital peer groups, there was an increase in the proportion of Medicaid payer mix between 2014 and 2017, which has since dropped though has remain relatively level since 2018.

Graph 12 Large hospital peer group Payer Mix

Graph 13 Medium hospital peer group Payer Mix

Graph 14 Small hospital peer group Payer Mix

Conclusion

Overall, patient revenues have grown faster than operating expenses, which has led to growing profits and margins despite increasing contract labor, the recent growth in uncompensated care costs and a growing number of patients covered by public health insurance, which typically reimburse under costs. These increases to patient revenues still occurred despite the limitation of availability for elective services and general underutilization of hospitals to the COVID-19 pandemic.

Between 2020 and 2021, hospital patient revenues saw historic growth while operating expenses grew less than they have in any year since 2015. It is also worth noting that this patient revenue growth does not include the \$1.2 billion in stimulus hospitals received throughout the COVID-19 pandemic, as it is accounted for in non-patient revenue. While stimulus helped hospitals cover slower growth of patient revenues during 2020, attributing all stimulus to hospitals revenues is unrealistic as some was distributed to non-hospital business components, covered non-operating costs, or was returned.

Net patient revenue grew from \$12.1 billion to \$19.8 billion between 2014 to 2021, an increase of \$7.7 billion, or 63.8%. That represents an average annual increase of 7.3% a year. More recently, between 2020 and 2021, net patient revenue increased by \$1,831 billion, or 10.2%. Comparing this to the previous year's change, which was an increase of 2.5% from 2019 to 2020, it appears that hospital patient revenues are returning to trends seen previous to the pandemic. Additionally, the increase from 2020 to 2021 in patient revenues appears to be primarily driven by an increase in total charges. Furthermore, patient volumes do not indicate that hospitals are seeing a larger than expected bump in patient volume or a surge as a latent effect of the pandemic.

Uncompensated care charges increased overall by 6.7% from 2020, or approximately \$122.1 million. The small peer group increased its total uncompensated care by 8.2%, the medium peer group decreased its total uncompensated care by 13.9% from 2020, and finally the large peer group, increased by 9.0%. In reviewing the two components of uncompensated care (bad debt and charity care) the data show from 2020 to 2021 bad debt decreased by 1.6% overall, or approximately \$12.1 million, whereas charity care increased by 12.2%, or approximately \$134.2 million.

In 2021, uncompensated care costs totaled \$481.8 million, representing a decrease of 2.4% from 2020, with charity care making up \$292.7 million, or 60.8%, and bad debt costs making up \$189.0 million, or 39.2%. Self-pay was the largest portion of uncompensated costs in 2021 totaling \$306.9 million, and representing a 63.7% increase. This was the largest in both charity care and bad debt, \$202.3 million and \$104.6 million, respectively.

Total operating expenses increased overall by \$1.2 billion from 2020 to \$19.1 billion in 2021. Between 2014 and 2021, on average total operating expenses grew \$1.05 billion each year or 7.2% a year. This compares to the average net patient revenue noted above of 7.3% a year over the same period, and an 8.7% increase in the Colorado population during the same period 2014 to 2021, according to the Colorado State Demographer.

The Department's analysis indicates the mix of expenses that make up total operating expenses has remained relatively consistent since 2020. Salaries, wages and benefits were the largest operating expense for all peer groups through the years. However, the 115.3% increase in contracted staff expenses is remarkable, while the proportions of salaries, wages and benefits among the hospital peer groups varied. The smaller the hospital size peer group, the greater the proportion of salaries, wages, and benefits expense and specifically its general & administrative expenses. In a similar vein, the further away a hospital is from the most populated regions of the state, like the Front Range, the larger the proportion of other and general & administrative expenses there was in a hospital's operating expense mix.

The Department's payer mix analysis illustrates shifts in payer mix from commercial and self-pay categories to Medicare and Medicaid. Over that period 2014 through 2021, commercial dropped from 36.5% to 30.7%, while public payers represented by Medicare and Medicaid grew from 55.1% to 60.9%. The payer mix for the small hospital peer group had the lowest percentage of commercial when compared to the large and medium hospital peer groups, which should fuel future policy given the impact of public payer mix on overall margins.

See the Hospital Expenditure Report Detailed Dataset by Hospital for a full report of each hospital's data.

In conclusion, the Department will continue to work with hospitals to obtain the missing data and work to improve and enhance the report and its collection process to improve future annual transparency reports.

Map & Definitions

Graph 15 Map of Colorado Hospitals Identified by Hospital Peer Group and DOI Regions

Definitions

Affordable Care Act (ACA): The comprehensive federal health care reform law enacted in March 2010. The law was enacted in two parts: The Patient Protection and Affordable Care Act was signed into law on March 23, 2010 and was amended by the Health Care and Education Reconciliation Act on March 30, 2010. The name "Affordable Care Act" is used to refer to the final, amended version of the law.

Bad debt: The sum of all charged amounts a provider billed but did not receive payment for the service.

Charity care: The sum of all charged amounts determined by the health care provider to be charity care and thus unreceived revenue.

Colorado Healthcare Affordability and Sustainability Enterprise Board (CHASE Board): The CHASE Board makes recommendations to the Medical Services Board regarding the implementation of the health care affordability and sustainability fee. The CHASE Board also directs the implementation of delivery system reform incentive payments program and monitors the impact of the fee on the health care market.

Contractual allowances: Also known as adjustments, contractual allowances are the difference between what a health care provider charges for the care provided to the patient and what the provider will be contractually paid by a third-party (commercial insurer and/or government program such as Medicare, Medicaid, etc.).

Critical access hospitals: A hospital qualified as a critical access hospital under 42 U.S.C. § 1395i4(c)(2) and certified as a critical access hospital by the Colorado Department of Public Health and Environment

Department of Health Care Policy & Financing (Department): A department of the government of the State of Colorado which provides Medicaid, CHP+ and other safety net programs and has a mission to *improve health care equity*, access and outcomes for the people we serve while saving Coloradans money on health care and driving value for Colorado.

DATABANK Program: An online program available to Colorado Hospital Association members and serves as a centralized location for the collection of hospital utilization and financial data.

Depreciation expense: The decrease in the fair value of a tangible asset, reported as an expense for the reporting period.

Discharge: A record of a formal release of a patient. This excludes newborns leaving with mothers, death on arrivals and includes death.

General hospital: A hospital licensed as a general hospital by the Colorado Department of Public Health and Environment. Sometimes referred to as a "short-stay, acute care hospital".

Health system: Also known as hospital system. A multi-hospital system is two or more hospitals owned, leased, sponsored or contract managed by a central organization.

Hospital peer groups: For the purposes of this report hospital peer groups are determined by grouping together number of licensed beds (for a definition of licensed beds please see below). The three (3) peer groups are as follow: the small peer group with 25 or fewer beds, the medium peer group with 26 to 90 beds, and the large peer group with 91 or more beds.

House Bill 19-1001: The <u>Hospital Transparency Measures to Analyze Efficacy Bill</u> signed into law on March 28, 2019.

Interest expense: Expenses for mortgages, bonds, notes, lines-of-credit, convertible debt and any other short-term or long-term borrowings.

Licensed beds: The maximum number of beds a licensure agency, such as the state or other governing body, allows a hospital or health facility to operate at any given time. Hospitals provide the number of beds at the end of the fiscal year.

Long-term care hospital: A general hospital that is certified as a long-term care hospital by the Colorado Department of Public Health and Environment. Sometimes referred to as a sub-acute care hospital or long-term acute care hospital.

Major payer groups: A major payer in health care is the entity or individual paying the medical bill or claim. The major payers for the purposes of this report are Medicare, Medicaid, commercial and self-pay. Others can include compensation programs, like workman's compensation, and other government programs, like TRICARE/CHAMPUS.

Medicare Cost Reports: Medicare hospital cost report, from Center for Medicare and Medicaid Services (CMS) 2552-96 or CMS 2552-10, or any successor form created by CMS, and the annual required submission of worksheets and schedules by Medicare certified providers used for Medicare reimbursement

Net patient revenue: Net patient revenue approximates the payments a hospital receives for patient services. Net patient revenue is calculated by totaling all charges the hospital billed to patients, subtracting contractual allowances and then subtracting bad debt and charity care.

CalculationVariableTotal charges-Total contractual allowance-Total charity care

Total bad debt

Net patient revenue

Table 25 Net Patient Revenue Calculation

Other expense: The difference between total operating expense and specified categories of expenses (salaries, wages, and benefits, supply, interest, and depreciation). These expenses might be for taxes, utilization, contract services, fees, insurance, marketing expenses, etc.

Outpatient visit: Determined by counting only one visit day for each calendar day a patient visits an outpatient department or multiple outpatient departments.

Psychiatric Hospital: A hospital licensed as a psychiatric hospital by the Colorado Department of Public Health and Environment.

Rehabilitation hospital: An inpatient rehabilitation facility.

Salaries, Wages and Benefit Expense: Salaries and wages paid to hospital employees and employee benefits paid and provided by the hospital. These include employee expenses for physicians, interns, residents, other trainees, facility employees and home office wages.

Supply expense: The sum of all expenses related to medical supplies, food, housekeeping, maintenance, general facility upkeep, minor equipment, administration and medical drugs.

Total operating expense: The sum of all operating expenses to run the hospital. This includes expenses like materials, supplies, contract services, management fees and home office allocations, depreciation, interest, taxes, consultants' services, utilities, pharmaceuticals and insurance.

I. Overview

Since 1969, the federal government has required nonprofit hospitals to provide a community benefit to justify their tax-exemption. Community benefit is not explicitly defined by federal statutes or regulations and can include charity care, Medicaid shortfall, and other benefits not directly related to patient care, such as community health improvement activities, health professions education, research, and cash and in-kind support to community organizations. To gain better insights into the investments Colorado's nonprofit, tax-exempt hospitals make in their communities, House Bill (HB) 19-1320 requires nonprofit taxexempt general hospitals, Denver Health Medical Center, and University of Colorado Hospital to complete a community health needs assessment every three years and an annual community benefit implementation plan every year. Critical access hospitals are not required to participate but are encouraged to do so. Each reporting hospital is required to convene a public meeting at least once per year to seek feedback on the hospital's community benefit activities and implementation plans. These hospitals are required to submit a report to the Department of Health Care Policy & Financing (the Department) that includes, but is not limited to the following:

- Information on the public meeting held.
- The most recent Community Health Needs Assessment reported as required under federal regulations.
- The most recent Community Benefit Implementation Plan.
- The most recent submitted Internal Revenue Service (IRS) form 990 including Schedule H.
- A description of investments included in IRS form 990 Schedule H.
- Expenses included on IRS form 990.

Report links and additional information can be found on the <u>Hospital Community</u> Benefit Accountability webpage.

¹ Medicaid shortfall is the difference between a hospital's cost of care for services provided to Medicaid covered patients and the payments that the hospital receives for those services.

II. Reporting

Under Section 25.5-1-700, C.R.S., the Department is required to submit an aggregated report including the information below based on the submissions it has received.

- 1. The amount that each reporting hospital invested in:
 - a. Free or reduced-cost health care services addressing community identified health needs.
 - b. Programs addressing health behaviors or risks.
 - c. Programs addressing social determinants of health.
 - d. All services and programs addressing community identified health needs.
- 2. A summary of the reporting hospitals' investments that have been effective in improving community health outcomes.
- 3. Any legislative recommendations the Department has for the General Assembly.

The Department received 45 submissions,² and of those, one was a critical access hospital which was not required to report. All hospitals required to report did so.

III. Summary and Key Findings

House Bill (HB) 19-1320 created part 7 of article 1 of title 25.5, C.R.S. entitled "health care providers' accountability to communities." The legislation requires hospitals to meaningfully engage with their communities for feedback on their community benefit activities and to report their community benefit expenditures to the Department. These community engagement activities are required under state law in addition to the federally required Community Health Needs Assessment process every three years.

Opportunities remain to strengthen hospitals' accountability to their communities, which are noted in the Recommendations and Department Oversight sections below. A key insight is that hospitals' reports to the Department lacked sufficient detail to understand how community investment

² The Hospital Community Benefit Accountability Report was due from reporting hospitals on July 1, 2022; however, the Department delayed the due date of the report to August 31, 2022 due to the novel coronavirus (COVID-19) public health emergency.

dollars are being spent and to determine whether the community benefit investments match the communities' identified needs. For example, for some hospitals including UCHealth and Children's Hospital Colorado, nearly half of their community investments (excluding Medicaid shortfall and charity care) is for research and health professional education expenses. This reinforces the need for detailed reporting to provide better insights into hospital community investment spending.

In the 2019 legislative session, the General Assembly adopted HB 19-1001 to allow the collection and reporting of comprehensive information on Colorado hospitals' financial performance and drivers and cost shifting from public to private payers. The General Assembly also adopted HB 19-1320 to require reporting and evaluation of the community benefits nonprofit, tax exempt hospitals provide to their communities in lieu of taxes. Following implementation of these legislative bills, the Department has evaluated and reported how the revenue received by hospitals from commercial payers (the so-called cost shift) not only covers the Medicaid shortfall but also covers the entire costs of hospitals' community investment and leaves Colorado hospitals profitable.

Community benefit investment analysis only reveals a portion of a hospital's participation within their community. In order to provide a more comprehensive picture of hospitals' economic participation within their community, this report includes additional bottom-line information about hospital profits and reserves. This is important because, while tax-exempt hospitals are required by federal regulations to provide community benefits to maintain their tax-exemption regardless of their profitability, there is no specific minimum value of community benefits that a hospital must provide to qualify as tax-exempt. Therefore, information on Colorado hospitals' financial position provides important context to understand the value of community investments.

As a result, the Department reviewed hospital costs, price, and profits for all Colorado hospitals. Overall, in 2020, Colorado ranked top 10 nationally in all categories such that Colorado hospitals are high cost, high priced, and highly profitable. Within this report, the Department includes information about the profitability of hospitals to provide context to better understand hospitals' financial standing and how they are providing community benefit. Colorado is one of only two states (along with Alaska) that ranks in the top 10 for all four measures of hospital cost, price, and profit, making Colorado one of the most

expensive states for hospital care. It is important to note that community benefits are not paid for out of profits; rather profits are made *after* community benefit expenses are accounted for.

The Department is appreciative of the efforts and engagement of Colorado hospitals since the Department began measuring hospital costs, prices, and profits. While there remains work to be done and Colorado is in the top 10 of all states for these metrics to date, these metrics are all moving in the right direction - to the benefit of Coloradans and our employers. The Department will update Table 1 on page 16 in future reports, including 2021 and 2022, to evaluate if this trend has continued. The Department is deeply appreciative of the contributions of hospital leadership and frontline staff have made to care for their communities through the COVID-19 pandemic.

In terms of community benefit, most of the costs that nonprofit, tax-exempt hospitals consider community benefits, including Medicaid shortfall and charity care costs, are the same types of costs also incurred by for-profit, tax paying hospitals. For example, the Department's evaluation shows that the taxpaying HealthONE system hospitals incurs Medicaid shortfall and charity care (e.g., free and reduced care costs) at a similar amount to the tax exempt UCHealth system hospitals.³ Additionally the Department's analysis shows commercial insurance more than covers Colorado hospitals' Medicare and Medicaid shortfalls and charity care, resulting in a profit per patient of \$1,181 in 2021. Excluding the tax paying HealthONE hospital system, Colorado nonprofit, tax-exempt hospitals reported \$545 million in profits on patient services and reported total profits of \$2.7 billion in 2021.

Community Investments Reported

In this reporting period,⁴ hospitals invested 7% of their patient revenues in the community. Such contributions are significant, appreciated, and valued.

⁴ Hospitals report community investments related to their most recent IRS form 990 according to the hospital's fiscal year. For this report, many hospitals are reporting investments for the year ended

³ HealthONE's values for Medicaid shortfall and costs for charity care programs were evaluated from the Hospital Expenditure Report 2020 dataset and its other community benefits come from evaluation of community health improvements, community building activities, health professional education, cash and in-kind contributions, and research investment from page 31 of HealthONE's 2021 Community Impact Report retrieved from https://healthonecares.com/util/documents/annual-reports/2021-community-impact-report-REV.pdf.

Overall, Colorado hospitals invested \$965 million in community benefits in 2020-21, not including Medicaid shortfall.

- Investments by category are as follows:
 - Free or reduced-cost health care services, i.e., charity care: \$239 million, 25% of total
 - Programs addressing health behaviors or risks: \$533 million, 55% of total
 - Programs that addressed social determinants of health: \$76 million, 8% of total
 - Other investments that addressed community identified needs: \$117 million, 12% of total.

While these contributions are significant, Colorado's nonprofit, tax-exempt hospitals and hospital systems remain profitable and have built significant reserves. Payments received from commercial insurance exceed hospitals' Medicaid shortfalls, charity care, and other community investments, leading to profits on patient services of \$545 million in 2021. Through patient revenue and other investments, nonprofit, tax-exempt hospitals have realized overall profits of \$2.7 billion and urban hospitals have built up reserves of a median 245 days cash on hand. The Recommendations and Department Oversight below outline opportunities to improve oversight and require more detailed, specific reporting. These recommendations, if followed, will improve the state's understanding of where the community dollars were actually invested while increasing hospitals' transparency and accountability to their communities going forward.

December 31, 2020 while others are reporting for the year ended June 30, 2021 or their fiscal year, if different.

IV. Recommendations

The Department makes the following recommendations to the General Assembly:

- 1. Some hospital systems are not fully complying with the requirement to report pro forma IRS form 990 Schedule H information for individual hospitals that are part of a hospital system, and some are not fully complying with the important public meeting requirements of the statute. The General Assembly should establish corrective action and financial penalties for non-compliance.
- 2. In order to have a better understanding of the hospitals' tax exemption benefit compared to their community benefit spending, the General Assembly should direct the Office of the State Auditor, working in conjunction with the Colorado Department of Revenue, to the best of its ability, to estimate the value of all federal, state and local taxes for reporting hospitals as defined in Section 25.5-1-701, C.R.S. Such a report should compare the estimated value of each reporting hospital's tax exemptions to its investment in addressing community health needs as set forth in Section 25.5-1-703(3)(d)(I)(C), C.R.S.
- 3. The specific investments made by hospitals are not clear using the current reporting requirements as evidenced by *Appendix H Investments Reported by Hospital*. Because of this, the Department cannot report what was actually completed by a hospital, its value to the community, or alignment with community needs. It can only distinguish the investment category, i.e., health behaviors or risks or social determinants of health. Therefore, the General Assembly should enable the Department to establish in rule the details of the hospital community investment reporting requirements to ensure that the intent of HB 19-1320 is achieved. This will assist the Department in providing better insights into how the hospital community investment dollars are being spent, by hospital and across the state. Additionally, more detailed reporting requirements should include separate reporting for provider recruitment, education, research, and training as well as separate reporting of in-kind and direct spending.
- 4. There is no consistent national standard on what qualifies as community benefit. Further, the current law does not require a minimum expenditure in any category or into established priorities. The General Assembly should specify what services and activities it considers sufficient community benefit, establish community benefit minimum expenditures, and direct the

Department to review Community Health Needs Assessments to ensure hospitals are focusing their community benefit investments on areas the communities have identified as priorities. Examples may include behavioral health services, housing, access to nutritious food, health care disparities, investments in Colorado's safety net hospital, healthcare workforce, public health, and more.

- 5. To improve hospitals' accountability to the communities they serve, the General Assembly should establish a requirement for hospitals to directly tie community identified needs to community benefit expenditures while prioritizing those voiced needs as recommended above and reporting how they have done so to the Department.
- 6. To ensure hospital community benefit investments impact community health, the General Assembly should require hospitals to regularly and meaningfully evaluate the impact of their community benefit investments on community health.
- 7. To ensure that hospital funding that came from Colorado communities are invested to meet the needs of Colorado communities, the General Assembly should establish a requirement that profits earned by Colorado hospitals remain in Colorado and that all Colorado hospital reserves reported year ending 2021 remain in Colorado. This recommendation addresses the reality that Colorado hospital prices and profits are ranked in the top 10 nationally, that such hospitals are part of national systems which can today, without limit, siphon monies earned from costs paid directly or indirectly by Coloradans and their employers to further expansions and investments outside of Colorado.

V. Department Oversight

In addition to these recommendations to the General Assembly, the Department will continue to:

- 1. Research other states' hospital community benefit requirements and reporting to inform our analysis, reporting and recommendations. For example, New York⁵ requires hospitals to demonstrate their commitment to meeting community health care needs, providing charity care and improving underserved individuals' access to health care services through robust reporting and Oregon⁶ establishes a hospital community benefit spending floor.
- 2. Analyze and report additional information from the hospitals' IRS 990 Schedule H form, such as Medicaid shortfall, research, and staff education expenditures.
- 3. To the best of our ability with available data, analyze and report the amount of community benefit and estimated taxes that would have been collected.
- 4. Strengthen hospitals' reporting requirements to the extent possible under current law, including requirements for robust evidenced-based data.
- 5. Evaluate and report how the revenue received by hospitals from commercial payers (the so-called cost shift) not only covers the Medicaid shortfall but also covers the entire costs of hospitals' community investment and leaves Colorado hospitals profitable.

⁶ See https://www.oregon.gov/oha/HPA/ANALYTICS/HospitalReporting/FY22-23-Spending-Floor-Announcement.pdf.

⁵ See https://hilltopinstitute.org/wp-content/uploads/hcbp/hcbp_docs/HCBP_CBL_NY.pdf.

VI. Findings

A. Compliance with Public Meeting Requirements

Some hospitals did a better job of conducting their public meetings than others. Examples of best practices include:

- Centura Health hospitals held combined meetings where communities overlap, held meetings later in the day, posted meeting notices in newspapers, offered American Sign Language and other translation services.
- SCL Health (now Intermountain Healthcare) hospitals combined meetings and used breakout rooms during meetings to have discussions and questions on specific topics, held meetings after normal working hours, posted meeting notices in several newspapers and on social media.
- National Jewish held their meeting later in the day, posted the meeting announcement across various social media platforms, and sent a survey after the meeting to gather additional feedback.
- Denver Health held two meetings at different times of the day, offered American Sign Language and simultaneous Spanish interpretation services, and posted meeting announcements in English and Spanish.

On the other hand, Community Hospital and Vail Health Hospital did not invite the Department to their public meetings, which was not compliant with the legislation.

B. Compliance with Reporting Requirements

Under implementing regulations at 10 CCR 2505-10, Section 8.5002, hospitals are required to submit their most recent IRS form 990 directly to the Department. Additionally, if a hospital is a part of a health system or other corporate structure that files a consolidated form 990, a pro-forma schedule H information must be provided for each reporting hospital.

• Centura Health Adventist and Centura Health CommonSpirit⁷ hospital systems only submitted consolidated 990s and did not provide pro-forma schedule H information as required.

⁷ Formerly Centura Health Catholic Health Initiatives (CHI).

- SCL Health (now Intermountain Healthcare) did not provide pro forma schedule H information for Good Samaritan Medical Center or Lutheran Medical Center, although they did for Platte Valley Medical Center, Saint Joseph Hospital, and St. Mary's Regional Medical Center.
- Children's Hospital system did not provide pro-forma schedule H for Children's Hospital Colorado or for Children's Hospital Colorado Springs.

C. Overall Investments

The overall investments across all categories reported totaled \$965,025,722, which is 7% of hospitals' patient revenue received. Free or reduced-cost health care services represents 25% of the total, programs addressing health behaviors or risks represents 55% of the total, programs addressing social determinants of health represents 8% of the total, and other investments that addressed community identified needs represents 12% of the total. This is summarized in the bullets and in Figure 1 below.

- Free or reduced-cost health care services: \$239,116,538 (25%)
- Programs addressing health behaviors or risks: \$533,336,958 (55%)
- Programs that addressed social determinants of health: \$75,578,864 (8%)
- Other investments that addressed community identified needs: \$116,993,362 (12%)

Figure 1: 2020 Community Investments by Category

D. Community Investment Compared to Net Patient Revenue

The Department examined the community benefit as a percentage of net patient revenue to quantify what percentage of these nonprofit hospitals' payments go back into the community. Overall, hospitals' community investments⁸ represent 7% of total net patient revenue.⁹

Figure 2 below shows the proportion each category of community benefit makes up the total benefit as a percentage of net patient revenue by hospital system. Note: investments for research and health professions' education and training activities are included in these figures, and in the case of UCHealth and Children's Hospital systems, constitute a significant portion of the investments.

Figure 2: 2020 Community Benefit Percentage of Net Patient Revenue

⁹ Net patient revenue approximates the payments a hospital receives for patient services. Net patient revenue is calculated by totaling all charges the hospital billed to patients, subtracting contractual allowances and then subtracting bad debt and charity care.

⁸ As defined in the statute, i.e., free or reduced-cost health care services and investments that address community identified health needs. This excludes Medicaid shortfall.

E. Hospital Profits, Reserves, and Liquidity

As shown in Table 1, Colorado hospitals are profitable - ranking in the top 10 nationally for three consecutive years, in the aggregate. Colorado is one of only two states (along with Alaska) that ranks in the top 10 for all four measures of hospital cost, price, and profit. It is important to note that community benefits are not paid for out of profits; rather profits are made *after* community benefit expenses are accounted for.

While there is more work to do and Colorado remains in the top 10 of all states, the metrics measured below are moving in the right direction compared to national norms, to the benefit of Coloradans, their employers and the state. The Department will update Table 1 in future reports, including 2021 and 2022, to evaluate whether this trend has continued.

Table 1 Colorado's Cost, Price and Profit National Ranking

Measure	2018	2019	2020
Price/Patient	5th highest	4th highest	6th highest
Cost/Patient	8th highest	8th highest	10th highest
Profit/Patient	3rd highest	4th highest	7th highest
Total Profit	1st highest	5th highest	6th highest

¹⁰ Data extracted from the October 2021 Healthcare Cost Report Information System (HCRIS) update. Data includes data for short-stay hospitals across the nation. Other state values are adjusted for cost of living. Department adjustments are made to ensure data is error free and outliers are removed. For more a thorough detail of the Department's Medicare Cost Report analysis see Appendix A of the Hospital Cost, Price and Profit Review available at https://hcpf.colorado.gov/hospital-reports-hub.

Hospital Profits

In terms of hospital profits, Table 2 displays all Colorado hospitals' payments less costs per patient by major payer group. More specifically, Table 2 illustrates how hospital profits per patient is broken down across payer groups from 2014 through 2021 and shows how commercial insurance covers under reimbursement from public payers and results in positive patient service profits. To provide additional context Table 3 shows payment, cost, and profit per patient consolidated for all payers from 2014 through 2021. This provides insight into how payment and cost result in overall profit per patient and how these values vary annually. 11,12 For Table 2, negative numbers indicate costs exceed payments, i.e., payment shortfalls. As previously stated, commercial insurance more than covers Colorado hospitals' Medicare and Medicaid shortfalls and charity care, resulting in a profit per patient of \$1,181 in 2021. The below also illustrates that while the 2020 year had a significant drop in payments less cost per patient overall, the federal stimulus dollars more than made up for the fiscal downturn.

Table 2 Payment Less Cost per Patient by Payer Group for All Colorado Hospitals

Year	Medicare	Medicaid	Charity Care, Self Pay and Other	Commercial Insurance	Overall
2014	(\$4,706)	(\$3,665)	(\$860)	\$8,838	\$1,039
2015	(\$4,648)	(\$3,252)	\$1,286	\$8,699	\$1,243
2016	(\$5,082)	(\$3,910)	\$862	\$10,391	\$1,347
2017	(\$5,195)	(\$4,070)	(\$2,016)	\$11,060	\$1,222
2018	(\$5,659)	(\$3,574)	(\$1,937)	\$11,806	\$1,530
2019	(\$5,429)	(\$3,820)	(\$8,399)	\$13,632	\$1,173
2020	(\$7,649)	(\$3,333)	(\$9,309)	\$13,640	\$489

¹² Figures labeled "2020 w/stimulus" reflect payments, costs, and profits reflect federal stimulus monies provided to hospitals through the Coronavirus Aid, Relief, and Economic Security (CARES) Act and others. To date, Colorado hospitals have accepted approximately \$1.2 billion in financial assistance.

¹¹ Data reported by hospitals to the Department pursuant to HB 19-1001, Hospital Transparency Measures to Analyze Efficacy and reported in the 2023 CHASE Annual Report available at https://hcpf.colorado.gov/colorado-healthcare-affordability-and-sustainability-enterprise-chase-board.

Year	Medicare	Medicaid	Charity Care, Self Pay and Other	Commercial Insurance	Overall
2020 w/ stimulus	(\$6,048)	(\$2,024)	(\$8,205)	\$15,042	\$1,928
2021	(\$6,357)	(\$3,708)	(\$10,270)	\$14,366	\$1,181

Table 3 All-Payer Payment, Cost and Profit for All Colorado Hospitals

Year	Payment Per Patient	Cost Per Patient	Profit Per Patient
2014	\$15,766	\$14,727	\$1,039
2015	\$16,045	\$14,802	\$1,243
2016	\$17,126	\$15,779	\$1,347
2017	\$17,777	\$16,555	\$1,222
2018	\$18,816	\$17,286	\$1,530
2019	\$18,028	\$16,855	\$1,173
2020	\$21,628	\$21,138	\$489
2020 with stimulus	\$23,066	\$21,138	\$1,928
2021	\$22,296	\$21,115	\$1,181

Moreover, Table 4¹³ displays profits on patient services and total profits, including investment income and other income sources, by hospital system. Overall, excluding the tax paying HealthONE hospital system, Colorado nonprofit, tax exempt hospitals reported \$736 million in profits on patient services and reported total profits of \$2.8 billion in 2021. See Appendix F Profits by Hospital for patient services and total profits by hospital. Please note, both patient service profit and margin excludes Denver Health Medical Center. Patient service profits are misleading for Denver Health Medical Center as it categorizes a significant portion of total revenue into other operating revenues. These other operating revenues are not counted towards patient service revenues but do influence calculated costs for patient service profit leading to an inflation in the

¹³ Data reported by hospitals to the Department pursuant to HB 19-1001, Hospital Transparency Measures to Analyze Efficacy. In Table 4, 28 of the 38 independent hospitals reflected in the data are critical access hospitals and their patient services profits of (\$14.9 million) and total profits of \$143 million are included in the figures displayed. Neither the tax paying HealthONE system hospitals nor critical access hospitals are subject to community benefit requirements of HB 19-1320.

difference between patient service revenues and profits. Additionally, note that SCL Health's Lutheran Medical Center recorded a \$117 million impairment of its old facility, which led to a reduction for SCL Health and total figures.

Table 4 2021 Hospital Patient and Total Profits by System 14,15

Hospital System	Patient Service Net Income (Patient Profit)	Patient Services Profit Margin	Net Income (Total Profit)	Total Profit Margin
Banner Health	(\$26,835,998)	-4.4%	(\$10,450,322)	-1.6%
Centura Health Adventist	\$89,184,924	6.8%	\$130,155,607	9.5%
Centura Health CommonSpirit	\$281,517,813	11.5%	\$379,039,503	14.8%
Children's Hospital	(\$14,020,281)	-1.0%	\$105,749,674	6.6%
SCL Health ¹⁶	\$17,260,720	0.9%	\$109,064,455	5.2%
UCHealth	\$442,906,492	8.5%	\$1,694,878,340	26.1%
Independents / San Luis Valley	(\$53,315,394)	-1.9%	\$443,477,018	9.2%
Total without HealthONE	\$736,698,276	4.7%	\$2,851,914,276	14.5%
HealthONE	\$626,310,467	20.8%	\$559,169,000	18.5%
Total All Hospitals	\$1,363,008,743	7.2%	\$3,411,083,276	15.1%

¹⁶ SCL Health's Lutheran hospital also recorded a \$117 million impairment of their old facility, which is reducing these figures.

¹⁴ Data reported by hospitals to the Department pursuant to HB 19-1001, Hospital Transparency Measures to Analyze Efficacy. Methodology for profits can be found in the Appendix J Definitions.

¹⁵ Patient service net income (profit) and patient services profit margin excludes Denver Health Medical Center's figures. Denver Health Medical Center categorizes a significant portion of total revenues into other operating revenues, which are not counted towards patient service revenues. Other operating revenues influence calculated costs for patient service profit; thus, Denver Health Medical Center's patient services profit is not displayed to avoid misleading the reader. Since total profit and total profit margin are not calculated in this manner, those figures are displayed.

Reserves and Liquidity

Hospitals maintain a level of financial reserves to promote business stability, enable strategic expenditures, preserve liquidity, and more. The scale of these reserves is tied to a hospital's community benefit, both by the amount of profits the hospital earns from a community through patient services, and by the impact excess reserves can have if invested back into the community. Additionally, the amount of available reserves a hospital possesses has proven even more important through the COVID-19 pandemic, given volatile revenue streams, rising expenses, forecast challenges, etc. The following visuals show days cash on hand amounts for Colorado hospitals¹⁷ Previous analysis of days cash on hand is available in the 2021, ¹⁸ and days cash on hand data.

The following Figure 3 shows days cash on hand among Colorado Hospitals and consolidated national systems for years 2019, 2020, and 2021 and divided into urban and rural groupings along with a median for each year. The median days cash on hand amount was relatively consistent from 2020 to 2021 and remained above 2019 amounts. Table 5 that follows reports days cash on hand by hospital.

¹⁸ Department of Health Care Policy & Financing. (2022, March) *Hospital Insights Report* retrieved from https://hcpf.colorado.gov/sites/hcpf/files/HospitalInsightsReport-032822.pdf.

¹⁷ Days Cash on Hand was calculated using data gathered mostly from Financial Statements or Operating Data either submitted to the Department pursuant to HB 19-1001 or from the Electronic Municipal Market Access. (Municipal Securities Rulemaking Board. (n.d) Electronic Municipal Market Access (EMMA). Retrieved from https://emma.msrb.org.) Some 2019 values are from Medicare Cost Reports due to Financial Statements or publicly reported days cash on hand amounts being unavailable.

F. Benefit of Tax Exemption Status

Generally, for-profit corporations pay taxes while nonprofits are tax-exempt. These taxes include income tax, sales tax, property, and personal property taxes. Most hospitals in Colorado are nonprofit organizations and federally tax exempt. Colorado also exempts nonprofit hospitals from taxes.

Most nonprofit, tax-exempt hospitals' community benefit expenditures are for Medicaid shortfall and charity care costs, which for-profit, tax paying hospitals also incur. ²⁰ Evaluation of the taxpaying HealthONE system hospitals shows it incurs Medicaid shortfall and charity care (e.g., free and reduced care costs) at a similar amount to the tax exempt UCHealth system hospitals. ²¹ See Table 6 and Table 7.

²¹ HealthONE's values for Medicaid shortfall and costs for charity care programs were evaluated from the Hospital Expenditure Report 2020 dataset and its other community benefits come from evaluation of community health improvements, community building activities, Health professional education, cash and in-kind contributions, and research investment from page 31 of HealthONE's 2021 Community Impact Report retrieved from https://healthonecares.com/util/documents/annual-reports/2021-community-impact-report-REV.pdf

²⁰ See pages 38-40 of Department of Health Care Policy & Financing (August 2021) *Hospital Cost, Price & Profit Review* retrieved from

https://hcpf.colorado.gov/sites/hcpf/files/Hospital%20Cost%20Price%20and%20Profit%20Review%20Full%20Report_withAppendices-0810ac.pdf.

Table 6 2020 HealthONE Community Benefit

Hospital Name	Medicaid Shortfall	Charity Care Costs	Other Benefits	Total Community Benefit
North Suburban Medical Center	\$9,843,347	\$3,583,088		
Presbyterian/St. Luke's Medical Center	\$ 31,868,758	\$2,333,066		
Rose Medical Center	\$11,562,576	\$1,466,589		
Sky Ridge Medical Center	\$2,652,326	\$2,502,662		
Swedish Medical Center	\$17,249,197	\$5,623,720

HealthONE Total	\$88,412,737	\$21,604,979	\$13,213,000	\$123,230,717

Since for profit, tax paying hospitals also have Medicaid shortfall and charity care costs as discussed above, evaluating community benefit investments by investment categories provides more insight. As shown in Table 7, and Table 8, community benefit expenditures for major hospital systems in Colorado exceed the estimated tax exemption when Medicaid shortfall, free and reduced cost care, and other community investments (which include research and health professions education expenses) are included.

To evaluate how hospitals' tax exemption compares to their community benefit investments, the Department applied a tax rate to net income. However, since net income is used as a substitute for taxable income, there may be additions and subtractions that are not considered in this analysis. The Department's estimated value of tax exemption is the sum of a hospital's estimated federal corporate income tax, estimated state corporate income tax and estimated property taxes. It does not include exempted business fees or the value of access to tax-exempt bond markets. ²²

For a more in-depth evaluation of the value of non-profit hospitals' tax exemption, the General Assembly may wish to direct the Office of the State Auditor, working in conjunction with the Colorado Department of Revenue, to the best of its ability estimate the value of all federal, state, and local tax expenditures for reporting hospitals as defined in § 25.5-1-701, C.R.S.

²²Analysis reflects federal corporate income tax of 21% and Colorado tax rate of 4.55%, with sales and property tax rates varying by location. See Appendix G Estimated Tax Exemption Methodology for a detailed description of the Department's estimated tax exemption methodology.

Table 7 2020 Community Benefit and Medicaid Shortfall by System

Hospital System	Medicaid Shortfall	Free or Discounted Services, e.g. Charity Care	Health Behaviors or Risks	Social Determinants of Health	Other Community Identified Needs	Total Community Benefit	Total Community Benefit plus Medicaid Shortfall
Banner Health	\$40,762,838	\$31,179,740	\$1,474,992	\$32,543	\$0	\$32,687,275	\$73,450,113

UCHealth	\$504,438,101	\$886,573	\$0	\$505,324,674	\$206,110,740
Independent + San Luis Valley	\$2,481,296	\$24,279,580	\$45,632,448	\$72,393,324	\$70,048,322

An estimate of hospitals' tax exemption does not tell the full story as the community benefit expenditure information reported by hospitals lacks sufficient detail to determine the value to the community. For example, Children's Hospital Colorado's largest community benefit expenditures are for "other community investments" and Medicaid shortfall. Analysis of Children's Hospital Colorado's other community investments show those are comprised mostly of research and health professions education expenses, \$42 million out of \$60 million expended.

In another example, UCHealth reported a total of \$504 million in health behaviors or risks, \$887,000 in the social determinants of health, and zero dollars in other investments bringing UCHealth's total to \$505 million in community investments excluding charity care. According to the Department's analysis,

UCHealth's estimated tax exemption value would have been \$206 million in 2020. UCHealth hospitals significantly reported more community investment than other systems, which is a positive finding in this report. The information reported by UCHealth, however, shows 47% of their \$505 million investment is for support for the University of Colorado School of Medicine (CUSOM) and for education and training for health care professionals. There are insufficient details of UCHealth's health behaviors or risks community investments to determine the value to the community. This reinforces the need for more detailed community reporting by hospitals to assess the value to the community.

Table 9 UCHealth Education-Related Community Benefit Investments

Hospital	Community Benefit Investments	Support for CUSOM/Profession al Education	Percentage of Community Investments
University of Colorado Hospital	\$ 198,443,186	\$ 185,283,117	93%
Memorial Hospital Central	\$ 98,552,94	\$ 11,052,147	11%
Poudre Valley Hospital	\$ 54,447,072	\$ 10,809,581	20%
Medical Center of the Rockies	\$ 65,006,376	\$ 3,526,758	5%

Longs Peak Hospital	\$ 17,990,379	\$ 798,311	4%
Grandview Hospital	\$ 377,731	\$ 303,426	80%
UCHealth Greeley	\$ 20,622,961	\$ 194,181	1%
UCHealth Highlands Ranch	\$ 41,118,848	\$ 24,959,567	61%
UCHealth Total	\$ 505,324,674	\$ 238,805,895	47%

G. Community Health Needs Assessments

A nonprofit hospital's federal tax exemption depends in part²³ on a hospital conducting a Community Health Needs Assessment (CHNA) every three years and implementing a strategy to meet the community health needs identified through the CHNA.²⁴

A CHNA is a local health assessment that identifies key health needs and issues through systematic, comprehensive data collection and analysis. Health needs can include access to care, mental health/behavioral health, health education, chronic disease, and social determinants of health (housing instability, food insecurity, transportation needs, utility help needs and interpersonal safety).

As shown in the following Figure 4, an evaluation of submitted CHNAs shows that 95% of hospitals' CHNAs included behavioral health as a priority for the community. However, hospitals' community benefit expenditures reported to the Department lack sufficient detail to determine whether the community benefit investments match the communities' identified needs. This is an opportunity for more detailed, specific reporting from hospitals to tie their identified needs of the community to their community benefit investment spending.

²⁴ See <u>irs.gov/charities-non-profits/community-health-needs-assessment-for-charitable-hospital-organizations-section-501r3</u>

²³ See Appendix C Federal Requirements for an overview of nonprofit hospitals' requirements for federal tax exemption.

H. Conclusion

Colorado hospitals have invested \$965 million in community benefits in 2020-21, not including Medicaid shortfall. Specifically, this report finds that hospitals invested 7% of their patient revenues in the community. These contributions are significant, appreciated, and valued. Still, it is important to consider financial context to understand the value of hospital community investments, specifically profits and reserves. Commercial insurance more than covers Colorado hospitals' Medicare and Medicaid shortfalls and charity care, resulting in a profit per patient of \$1,181 in 2021. Excluding the tax paying HealthONE hospital system, Colorado nonprofit, tax-exempt hospitals reported \$736 million in profits on patient services and reported total profits of \$2.8 billion in 2021. As well, while all metrics are moving in the right direction to the benefit of Coloradans, the state and our employers, Colorado hospitals remain ranked in the top 10 for the highest prices, profits and costs. In sum, while Colorado hospitals have invested in community benefit, a comprehensive understanding of hospital financials is needed, especially considering the high profits of Colorado hospitals.

Overall, some hospitals have done a better job than others in reporting and addressing the needs of the communities they serve through community benefit. Additional insight into how hospitals report their community investment dollars is needed. This report highlights the lack of sufficient detailed information received from hospitals to understand how community investment dollars are being spent and to determine whether the community benefit investments match the communities' identified needs. For example, for some hospitals including UCHealth and Children's Hospital Colorado, nearly half of their community investments (excluding Medicaid shortfall and charity care) is for research and health professional education expenses. This reinforces the need for detailed reporting to provide better insights into hospital community investment spending. Therefore, the General Assembly should enable the Department to establish in rule the details of the hospital community investment reporting requirements to ensure that the intent of HB 19-1320 is achieved. This will assist the Department in providing better insights into how the hospital community investment dollars are being spent, by hospital and across the state.

There are more opportunities to strengthen hospitals' accountability to their communities and within this report the Department proposes several key recommendations to strengthen community benefit such as, recommending the

General Assembly establish corrective action and financial penalties for non-compliance. This is needed as not all hospitals are fully complying with reporting pro forma IRS form 990 Schedule H information or with the important public meeting requirements. The General Assembly should also direct the Office of the State Auditor, working in conjunction with the Colorado Department of Revenue, to the best of its ability, to estimate the value of all federal, state and local taxes for reporting hospitals.

As it stands, there is no consistent national standard on what qualifies as community benefit. To assist the hospitals as well as the communities they serve, we recommend the General Assembly specify what services and activities it considers sufficient community benefit, establish community benefit minimum expenditures, and direct the Department to review Community Health Needs Assessments to ensure hospitals are focusing their community benefit investments on areas the communities have identified as priorities. The current law does not require a minimum expenditure in any category or into established priorities. Such community investment priorities would be more effectively queried to create greater consistency and understanding across the state by standardizing hospital community engagement surveys and communications.

The Department also believes that community benefit should directly benefit communities within the state of Colorado. Therefore, to ensure that hospital funding that came from Colorado communities are invested to meet the needs of Colorado communities, the General Assembly should establish a requirement that profits earned by Colorado hospitals remain in Colorado and that all Colorado hospital reserves in place in the year ending 2021 remain in Colorado. Currently, hospitals that are part of national systems can, without limit, siphon monies earned from funds directly and indirectly paid by Coloradans and their employers (I.e.: premiums) to further expansions and investments outside of Colorado. The Department believes this dilutes the impact of community benefit within the state of Colorado.

If these recommendations are implemented there also needs to be a meaningful way to measure hospital success as it relates to community benefit. Therefore, to ensure hospital community benefit investments impact community health, the General Assembly should require hospitals to evaluate

the impact of their community benefit investments regularly and meaningfully as it relates to community health.

In closing, the Department is very appreciative of the community investment efforts and engagement of Colorado hospitals. The Department is also deeply appreciative of the contributions of hospital leadership and frontline staff have made to care for their communities through the COVID-19 pandemic.

VII. Appendix A Reporting Hospitals

Table 10 Reporting Hospitals

IX. Appendix C Community Benefits as a Percentage of Total Expenses Hospitals report information on their community benefit expenditures in their IRS form 990, Schedule H, submissions. Implementing regulations at 10 CCR 250510, Section 8.5003 describe the information the Department will report to the General Assembly at a minimum as part of its reporting on hospital community

benefit investment activities to include community benefits as defined in Part I and Part II of the Schedule H of IRS form 990 as a percentage of total expenses.

IRS form 990, Schedule H Part I, reflects hospitals' Community Benefit activities including financial assistance at cost, community health improvements, health professions education, subsidized health services, research, Medicaid shortfall, and other government means tested programs such as CICP (but excluding Medicare shortfall). Schedule H Part I also shows these Community Benefit Expenses as a percentage of total expenses.

Similarly, IRS form 990, Schedule H Part II, reflects hospitals' Community Building activities including physical improvements and housing, economic development, community support, environmental improvements, community health improvement advocacy, and workforce development and shows these expenses as a percentage of total expenses.

Table 6 below displays the Community Benefit and Community Building expenditures with their percentage of total expenses as reported on hospitals' IRS form 990, Schedule H, Parts I and II.

Note: under implementing regulations at 10 CCR 2505-10, Section 8.5002, hospitals are required to submit their most recent IRS form 990 directly to the Department. Additionally, if a hospital is a part of a health system or other corporate structure that files a consolidated form 990, a pro-forma schedule H information must be provided for each reporting hospital. For this reporting period, Centura Health Adventist and Centura Health CommonSpirit hospital systems only submitted consolidated 990s and did not provide pro-forma schedule H information. In addition, Intermountain Healthcare (formerly SCL Health), did not provide pro forma schedule H information for Good Samaritan Medical Center or Lutheran Medical Center, although they did for Platte Valley Medical Center, Saint Joseph Hospital, and St. Mary's Regional Medical Center. Children's hospital system did not provide pro-forma schedule H for Children's Hospital Colorado or for Children's Hospital Colorado Springs.

Table 12 Schedule H Investment Amounts

Hospital	Community Benefit Expense	Community Benefit Percent of Total Expense	Community Building Expense	Community Building Percent of Total Expense
Centura Health Adventist	\$114,858,773	11.0%	\$561,783	0.0%

X. Appendix D Investments by Division of Insurance Region

Figure 5: Total of All Investments Reported

Figure 6: Free or Reduced-Cost Health Care Services

Figure 8: Programs Addressing Social Determinants of Health

XI. Appendix E Days Cash on Hand Data by Hospital

The following Figure 9 displays days cash on hand among Colorado Hospitals and Consolidated National Systems for years 2019, 2020, and 2021 along with a median for each year. The median days cash on hand amount was relatively consistent from 2020 to 2021 and remained above 2019 amounts.

Figure 9: Days Cash on Hand for Colorado Hospitals and Consolidated National Systems

Figure 10 below shows the difference in days cash on hand from 2019 to 2020 and from 2019 to 2021. Almost all hospitals and consolidated systems showed a marked improvement in days cash on hand, which was maintained through 2021. Out of the 43 hospitals/systems represented in these visuals 36 showed improvements in days cash on hand from 2019.

Figure 10: Difference in Days Cash on Hand from 2019 for Colorado Hospitals and Consolidated National Systems

Gunnison Valley and St. Vincent in Figure 10 above did not report data for 2021, so no change in days cash on hand between 2019 and 2021 is displayed. Hospitals' and hospital systems' reserves have stayed stable throughout the COVID-19 pandemic largely due to federal stimulus dollars. Hospitals are responsible to keep these federal stimulus funds in the community and use them to target the benefits the community needs.

XII. Appendix F Profits by Hospital

Table 13 Patient Services and Total Profit by Hospital²⁵

Hospital Name	Hospital Type	System	Patient Service Net Income	Patient Service s Profit Margin	Net Income	Total Margin
Animas Surgical Hospital	General		\$6,821,753	16.2%	\$9,706,145	21.5%

Centura Littleton Adventist Hospital	General	Centura Health Adventist	\$21,969,196	6.9%	\$27,164,121	8.3%
Centura Longmont United Hospital	General	Centura Health CommonSpirit	(\$4,845,833)	-3.7%	\$5,738,460	4.0%
Longs Peak Hospital	General	UCHealth	(\$71,838)	0.0%	\$192,214	0.1%

²⁶ Patient service net income (profit) and margin excludes Denver Health Medical Center. Denver Health Medical Center categorizes a significant portion of total revenues into other operating revenues, which are not counted towards patient service revenues. Other operating revenues influence calculated costs for patient service profit; thus, Denver Health Medical Center's patient services profit is not displayed to avoid misleading the reader. Since total profits and margin are not calculated in this manner Denver Health Medical Center's net income and total profit margin are displayed.

Hospital Name	Hospital Type	System	Patient Service Net Income	Patient Service s Profit Margin	Net Income	Total Margin
Lutheran Medical Center ²⁷	General	SCL Health	(\$115,182,671)	-27.6%	(\$100,997,477)	-23.3%

Parkview Medical Center	General		\$16,187,150	3.2%	\$49,408,278	9.0%

²⁷ Lutheran Medical Center shows a large loss for 2021. This stems from an impairment on the old hospital facility of \$117 million recorded in depreciation. Adjusting for this, Patient Service Net Income would be \$1.6 million and Net Income would be \$16.3 million according to the methodology listed in the definition appendix.

Hospital Name	Hospital Type	System	Patient Service Net Income	Patient Service s Profit Margin	Net Income	Total Margin

XIII. Appendix G Estimated Tax Exemption Methodology Methodology

The value of tax-exempt status is the total value of taxes, business fees exempted, and access to tax-exempt bonds. Because of the constraints of publicly available information, this analysis only includes a valuation of taxes. The Department's estimated value of tax exemption is the sum of a hospital's estimated federal corporate income tax, estimated state corporate income tax, and estimated property taxes.

- Federal corporate income tax is estimated by multiplying a hospital's net income as reported through the Hospital Transparency program²⁸ by the federal corporate tax rate of 21.0%
- State corporate income tax is estimated by multiplying a hospital's net income as reported through the Hospital Transparency program by the state corporate tax rate of 4.55%
- Property tax is estimated by visiting county assessor websites and finding parcels that have known hospital facilities and finding parcels that list hospitals or health systems as owner. The Department reviewed to make sure that the parcels or values included were only those that were listed as tax exempt.²⁹ County websites include market value, assessed value, and the property's mill levies.
 - Some of the county assessor websites validated this methodology by providing a property tax liability (before exemption) that matched Department estimates.

Estimates were performed as the hospital-level then aggregated by health system.

Taxes that the Department did not attempt include an estimate of sales tax and an estimate of equipment taxes. A sales tax estimate was not attempted because there are medical supplies that are already exempt from sales tax. This added a complexity and uncertainty to the valuation. Some county assessor sites indicated that equipment was included in property values, so the Department did not attempt to estimate to ensure there wasn't double counting.

²⁹ There are office buildings owned by hospitals that are not tax exempt. Some parcels have a mix of exempt and non-exempt values.

²⁸ HB 19-1320 requires hospitals to report community benefit investments included in their most recent IRS form 990 filing, which for most hospitals was fiscal year 2020. Therefore, the net income utilized was from the 2020 Hospital Transparency dataset.

The Department used the state of Montana's audit of community benefit spending as a reference for how to estimate the value of tax exemption. ³⁰ The Department diverged from the Montana methodology in the following ways:

- Montana sourced net income from IRS form 990s while the Department source net income from the Hospital Transparency dataset.
- Montana applied a single estimated rate for mill levies to the taxable value for hospitals to determine an estimated property tax. The Department used data from all the hospital's county assessor websites per hospital owned parcel to estimate what a hospital would be liable for in taxes.
- Montana's methodology allowed for an estimate for equipment taxes, while the Department's did not because the risk of double counting.

Limitations

Income Tax

- Organizations have an incentive to lower their taxable include. Hospitals
 would likely include as many legal deductions as possible to lower their
 taxable income for income tax returns. The Department acknowledges
 that, by using net income, corporate taxes may be overstated.
- Some or part of certain expenses would not be included in income tax returns. The Department did not make any adjustments to net income to address adding back expenses for these additions. For example, entertainment expense may only be tax deductible in certain circumstances.

Property Tax

- The Department attempted to capture all properties owned by a hospital or health system but may have mistakenly included or excluded parcels.
- The Department was limited to publicly available information.
- Campuses with multiple hospitals were challenging to split up.
- There were cases were a known hospital was located, but the parcel's tax exempt status was not listed as exempt. These parcels were assumed to be tax exempt.

XIV. Appendix H Investments Reported by Hospital

Avista Adventist Hospital

- Transportation services
- Injury prevention
- Support of Family Education Centers
- Health fairs
- Education and training to community members
- Community health improvement advocacy
- Childbirth training classes
- OB post-partum classes
- Stigma reduction efforts
- SNAP/WIC outreach

Boulder Community Health

- Community education programs
- Sexual Assault Nurse Examiners
- Community outreach coordinator
- Stop the Bleed education program
- Kids Bike Helmet program
- Walk with a Doc program
- Bridge house
- Donated medical supplies

Castle Rock Adventist Hospital

- Programs that address social and community factors
- Programs that address poverty and economic stability
- Transportation services
- Support of regional EMS
- Clinical integration
- Stigma reduction efforts
- SNAP/WIC outreach
- Support for community based organizations

Children's Hospital Colorado

- Community education
- Community based dental program
- Programs to advance health equity and reduce health disparities
- EMS recertification
- Mental health services
- Rehabilitation services
- Dermatology services
- Support community based organizations that address an identified need
- Landfill diversion

Children's Hospital Colorado, Colorado Springs

- Community education
- Programs to advance health equity and reduce health disparities
- Partnerships with K-12 addressing resiliency in children
- Programs addressing social and environmental health improvements
- EMS recertification
- Mental health services
- Rehabilitation services
- Support community based organizations that address an identified need
- Activities to improve the community's health and safety

Community Hospital

- Laryngology screening
- School physicals
- Mesa County Fair first aid station
- Health coaching
- Employer health screening
- Flu shots

Delta County Memorial Hospital

- Pediatric office remodel
- ED floors and doors
- PT remodel

Denver Health and Hospital Authority

- Public Health Institute
- SANE Program
- NurseLine
- Child Life Program
- Enrollment services
- Safe Outdoor Space
- Healthcare Interest Program
- Medical Career Collaborative

East Morgan County Hospital

- Blood drives/screenings
- Prenatal education
- Community cooking classes
- Health care support and enrollment assistance
- Funded Discharge Aftercare
- American Cancer Society
- United Way
- Disaster preparedness training

Fort Collins Medical Center

- Prenatal education
- Patient and community wellness education
- Health care support and enrollment assistance
- Funded Discharge Aftercare
- United Way
- FTC Peach Festival

Good Samaritan Medical Center

- Community classes on health improvement
- Support groups
- Health education materials
- Health Professions Education
- Medical Oncology and infusion center
- Dialysis

- Cardiac and Pulmonary Rehab
- Support of health improvement efforts
- Emergency preparedness and disaster readiness activities

Littleton Adventist Hospital

- Programs that address social and community factors
- Programs that address poverty and economic stability
- Transportation services
- Support of regional EMS
- Community benefit operations

Longmont United Hospital

- Community health education
- Transportation services
- Community benefit activities

Lutheran Medical Center

- Community classes on health improvement
- Support groups
- Health education materials
- Health Professions Education
- Medical and Radiation Oncology
- Breast Center
- NICU
- Dialysis
- Cardiac and Pulmonary Rehab
- Behavioral health
- Support of health improvement efforts

McKee Medical Center

- Prenatal education
- Patient wellness
- Health care support and enrollment assistance
- Oncology research
- Elder day care

- Palliative care
- Heart clinic
- Women's services
- Funded discharge aftercare
- 40 Under 40

Mercy Regional Medical Center

- Athletic training services
- Access to healthy foods
- SANE program
- Transportation services
- Stigma reduction efforts
- SNAP/WIC outreach

Montrose Memorial Hospital

- Education and support services
- Clinic services

National Jewish Health

- COVID-19 testing and vaccines
- Morgridge Academy
- Pediatric asthma program
- Community coalitions
- Inner city asthma program
- Research

North Colorado Medical Center

- Blood drives/screenings
- Prenatal education
- Sports medicine education
- Patient and community wellness
- Health care support and enrollment assistance
- Funded discharge aftercare
- Ambulance and emergency evacuation services
- Burn care

- Palliative care
- Women's clinic
- Heart clinic
- Oncology research

Parker Adventist Hospital

- Medical education
- Injury prevention
- Community awareness of health programs
- Transportation services
- Programs that address social and community factors
- Programs that address poverty and economic stability
- EMS regional support
- Stigma reduction efforts
- SNAP/WIC outreach

Parkview Medical Center

- Immunization clinics
- Health education
- Health screenings
- Parkview Mobile Nurse program
- Child birthing classes
- Breastfeeding classes
- Job fairs
- STEP program

Penrose-St Francis Health Services

- Community events for women
- Mission and Ministry
- John Zay House
- Cancer center community education
- Transportation services
- Discounted meals for seniors

Platte Valley Medical Center

- Classes on health improvement topics
- Support groups
- Health education materials
- COVID-19 response
- Health professions education
- Medical oncology
- Obstetrics and NICU
- Wound care
- Support health improvement efforts

Porter Adventist Hospital

- Community outreach
- Medication assistance
- Programs that address social and community factors
- Programs that address poverty and economic stability
- Regional EMS support
- Stigma reduction efforts
- SNAP/WIC outreach

Saint Joseph Hospital

- Classes on health improvement topics
- Health education materials
- Transportation services
- Interpretation/translation services
- Support programs
- COVID-19 response
- Health professions education
- Medical and radiation oncology
- Antepartum care
- Cardiac and pulmonary rehab
- Dialysis
- Behavioral health services
- Support community based organizations

San Luis Valley Health

- Health fairs
- Athletic training support
- Support groups
- Orthopedic and cardiology clinics
- Physician health program
- RETAC
- Food bank
- Adopt a Family
- VA support

St Anthony Hospital

- Flight for Life
- Program to support and educate at risk first time mothers
- Home visits pregnant and parenting low income parents
- Prescription assistance
- Support groups
- Transportation services
- EMS support
- Health professions training and education
- SANE program
- Stigma reduction efforts
- SNAP/WIC outreach

St Anthony Hospital North Health Campus

- Community benefit operations
- Transportation services
- Support Community Reach
- Family Practice residency

St Anthony Summit Medical Campus

- Think First Injury program
- First Aid services
- Community health improvement strategies
- SANE program

St Mary-Corwin Hospital

- EMS outreach services
- Transportation services
- Residency program
- Provide educational materials
- COVID-19 prevention and vaccination

St Mary's Regional Medical Center

- Health education classes
- Support groups
- Health screenings
- Wellness and community based clinical services
- Community health education
- · Mental health first aid training
- Mobile Health Van
- Medical oncology and breast center
- Labor and delivery and NICU
- Cardiac and inpatient rehab
- Dialysis
- Wound care

St Thomas More Hospital

COVID-19 prevention and vaccination

Sterling Regional Medical Center

- Cancer education
- NJC health fair
- Patient and community education
- Health care support and enrollment assistance
- Disaster preparedness training

- Phase III cardiac rehab

Valley View Hospital

- Meals on Wheels
- Athletic trainers
- Community education
- Research and clinical trials
- Support local non-profits

XV. Appendix I Federal Requirements

Since 1969, the federal government has required nonprofit hospitals to provide a community benefit to justify their tax-exemption. Community benefit is not explicitly defined by federal statutes or regulations and can include charity care, Medicaid shortfall, and other benefits not directly related to patient care, such as community health improvement activities, health professions education, research, and cash and in-kind support to community organizations. Historically, hospitals fulfilled much of their community benefit requirement by providing care to people who could not afford to pay.³¹

The Affordable Care Act (ACA) added additional community benefit requirements for nonprofit hospitals but did not include a specific minimum value of community benefits that a hospital must provide to qualify as tax-exempt.³²

Currently, there are no federal community benefit requirements that ensure hospitals use the most accurate accounting standards for charity care and Medicaid shortfalls, set a minimum level of community benefit spending, require hospitals to spend on community benefit dollars on identified needs, or describe in detail the type of activities that qualify as community benefit spending.³³

Specific federal requirements are noted here:

To qualify as tax exempt under federal law,³⁴ a hospital must meet the general requirements for tax exemption under Internal Revenue Code Section 501(c)(3), the community benefit standard under Revenue Ruling 69-545, and the requirements codified under Internal Revenue Code Section 501(r) following the enactment of the Affordable Care Act (ACA).

• In general, under Section 501(c)(3), a hospital must demonstrate that it provides benefits to a class of persons that is broad enough to benefit the community and operate to serve a public rather than a private interest.

³⁴ https://www.irs.gov/charities-non-profits/charitable-hospitals-general-requirements-for-tax-exemption-under-section-501c3

 $^{^{31}\ \}underline{\text{https://www.coloradohealthinstitute.org/research/hospital-community-benefit-accounting-impact}}$

³² https://www.healthaffairs.org/do/10.1377/hpb20160225.954803/full/

³³ https://www.nashp.org/states-can-hold-hospitals-accountable-for-their-community-benefit-expenditures/

- A hospital must meet the community benefit standards under Revenue Ruling 69-545:
 - Operate an emergency room open to all, regardless of ability to pay,
 - Maintain a board of directors drawn from the community,
 - Maintain an open medical staff policy,
 - Provide hospital care for all patients able to pay, including those who have coverage through public programs such as Medicaid and Medicare,
 - Use surplus funds to improve facilities, equipment, and patient care, and
 - Use surplus funds to advance medical training, education, and research.
- Finally, a hospital must meet the four additional requirements codified under Section 501(r) following enactment of the ACA:
 - Conduct a CHNA every three years, adopt an implementation strategy to meet the identified community health needs, and make the CHNA report widely available to the public,
 - Establish written financial assistance and emergency medical care policies,
 - Limit the amounts charged for emergency or other medically necessary care to individuals eligible for assistance under the hospital's financial assistance policy, and
 - Make reasonable efforts to determine an individual's eligibility for assistance under the hospital's financial assistance policy before engaging in extraordinary collection actions against the individual.

XVI. Appendix J Definitions

Community - the community that a hospital has defined as the community that it serves pursuant to 26 CFR § 1.501(r)-(b)(3).

Community Benefit Implementation Plan - a plan that satisfies the requirements of an implementation strategy as described in 26 CFR § 1.501(r)-3(c).

Community Health Center - a federally qualified health center as defined in 42 U.S.C. sec. 1395x(aa)(4) or a rural health clinic as defined in 42 U.S.C. sec. 1395x (aa)(2).

Community Health Needs Assessment - a community health needs assessment that satisfies the requirements of 26 CFR § 1.501(r)-3(b).

Community Identified Health Need - a health need of a Community that is identified in a Community Health Needs Assessment.

Financial assistance policy (FAP) - a written policy that meets the requirements described in 26 CFR § 1.501(r)- 4(b).

Free or Discounted Health Care Services - health care services provided by the hospital to persons who meet the hospital's criteria for financial assistance and are unable to pay for all or a portion of the services, or physical or behavioral health care services funded by the hospital but provided without charge to patients by other organizations in the Community. Free or Discounted Health Care Services does not include the following:

- 1. Services reimbursed through the Colorado Indigent Care Program (CICP),
- 2. Bad debt or uncollectible amounts owed that the hospital recorded as revenue but wrote off due to a patient's failure to pay, or the cost of providing care to such patients,
- 3. The difference between the cost of care provided under Medicaid or other means-tested government programs or under Medicare and the revenue derived therefrom,
- 4. Self-pay or prompt pay discounts, or

5. Contractual adjustments with any third-party payers.

Health System - a larger corporation or organizational structure that owns, contains, or operates more than one hospital.

Medicaid Shortfall - is the difference between a hospital's cost of care for Medicaid eligible patients and the payments that the hospital receives for these services.

Net Patient Revenue - Net patient revenue approximates the payments a hospital receives for patient services. Net patient revenue is calculated by totaling all charges the hospital billed to patients, subtracting contractual allowances and then subtracting bad debt and charity care.

Patient Services Net Income - data reported by hospitals to the Department pursuant to HB 19-1001, Hospital Transparency Measures to Analyze Efficacy. Created by multiplying the cost to charge ratio for a hospital by the total gross charges and subtracting that amount from Net Patient Revenue. This metric is different from Operating Revenue, which includes other components.

Patient Services Profit Margin - data reported by hospitals to the Department pursuant to HB 19-1001, Hospital Transparency Measures to Analyze Efficacy. Created by taking the Patient Service Net Income and dividing by Net Patient Revenue. This metric is different from Operating Profit Margin, which includes other components.

Programs that Address Health Behaviors or Risk - programs funded by the hospital and provided by the hospital or other Community organizations that provide education, mentorship, or other supports that help people make or maintain healthy life choices or manage chronic disease, including addiction prevention and treatment programs, suicide prevention programs and mental health treatment, programs to prevent tobacco use, disease management programs, nutrition education programs, programs that support maternal health, including screening, referral and treatment for perinatal and postpartum depression and anxiety, and healthy birth outcomes, and programs that help seniors and people with disabilities live as independently as possible in the Community.

Programs that Address the Social Determinants of Health - funding or in-kind programs or services that improve social, economic, and environmental conditions that impact health in the Community. Social and economic conditions that impact health include education; employment; income; family and social support; and Community safety. Environmental conditions that impact health include air and water quality, housing, and transit. Programs that Address the Social Determinants of Health include but are not limited to the following:

- 1. Job training programs,
- 2. Support for early childhood and elementary, middle, junior-high, and high school education,
- 3. Programs that increase access to nutritious food and safe housing,
- 4. Medical Legal Partnerships, and
- 5. Community-building activities that could be included in Part II of Schedule H of the Form 990.

Reporting Hospital

- 1. A hospital licensed as a general hospital pursuant to Part 1 of Article 3 of Title 25 of the Colorado Revised Statutes and exempt from Federal taxation pursuant to Section 501(c)(3) of the Federal Internal Revenue code, but not including a general hospital that is federally certified or undergoing federal certification as a long-term care hospital pursuant to 42 CFR § 412.23(e) or that is federally certified or undergoing federal certification as a critical access hospital pursuant to 42 CFR § 485 Subpart F,
- 2. A hospital established pursuant to § 25-29-103 C.R.S., or
- 3. A hospital established pursuant to § 23-21-503 C.R.S.

Safety Net Clinic - a community clinic licensed or certified by the Department of Public Health and Environment pursuant to § 25-1.5-103 (1)(a)(I) or (1)(a)(II), C.R.S.

Total Profit Margin - data reported by hospitals to the Department pursuant to HB 19-1001, Hospital Transparency Measures to Analyze Efficacy. Created by taking Net Income and dividing by the sum of Total Non-Operating Revenue and Total Operating Revenue.
