<b>Footnotes</b>					
(1) The Department's Figure Setting Document (March 8, 2007) was not the final action. To the extent that the actual figures from the Long Bill are reflected in Figure Setting, they have been noted. Where figures have differed, or calculations were not presented in the Figure Setting Document, the Department has confirmed the totals with Joint Budget Committee staff.					
(2) Under Department Source, all references with the prefix "E" (e.g., EB-1) refer to pages in this Budget Request.					
(3) The Department Request is the sum of all the pieces in this document and comprises the summation of this Budget Request for Medical Services Premiums. This total matches the totals presented on the Schedule 13 and Exhibit A of this Request.					
(4) The totals shown in the Figure Setting document do not add up to the final amounts presented due to hidden decimals. The Department has used the exact totals listed on pages in Figure Setting, to the extent possible. Therefore, a slight adjustment for rounding error is included to ensure the totals match the Department's appropriation.

<p>(1) In FY 05-06, the Department experienced a higher rebate percentage (33.37%) on prescription drugs than in prior years. This is due to the Medicare Modernization Act; although the Department no longer pays for drugs covered under the Part D benefit, the Department was still receiving rebates for claims incurred prior to the Medicare Modernization Act taking effect.</p> <p>(2) For OAP-A, OAP-B, and AND/AB, FY 06-07 Pre-Rebate Expenditures are calculated utilizing FY 06-07 pre-rebate actuals, increased by the average percentage change in pre-rebate expenditures between FY 03-04 and FY 04-05. FY 05-06 trends are excluded due to the implementation of the Medicare Modernization Act. For Low Income Adults, Eligible Children, and Foster Care, FY 06-07 pre-rebate actuals are trended using the percent change between FY 05-06 and FY 06-07. For Baby Care Program Adults, the percent change from FY 03-04 and FY 04-05 was used. The Breast and Cervical Cancer Program is assumed to decrease to zero as clients in this aid category should not reflect any expenditure here.</p> <p>(3) Estimated Rebate for FY 07-08 and FY 08-09 is assumed to be 29.6707% based on FY 06-07 actual drug rebate collection.</p> <p><b>This is a ROUGH projection of expenditures for Antipsychotic Drugs.</b></p> <p><b>The estimated totals for FY 07-08 and FY 08-09 are included as part of the total Acute Care Services request in Exhibit F beginning on page EF-1.</b></p>

<p>To trend FY 06-07 expenditure, the Department has selected a factor of 4.26%. This factor is calculated based on the 6-month rolling average of expenditures for the periods ending October 2006 through June 2007. This method was selected because of declines in expenditure in the previous two years which have begun a relatively steady upward trend, reflected in the rolling averages in late 2006.</p> <p>Totals for prenatal care (that is provided to non-Medicaid clients) are included in the Non-Citizens aid category.</p>

This is a rough projection utilizing year-to-date expenditure patterns as a guide to future expenditures. The Half-Year Expenditure Pattern is one forecasting tool used to estimate final expenditures on a monthly basis. It is not meant to replace the extensive forecasting used in the official Budget Request and is not always a predictor of future expenditures.												
(1) For lines in Community Based Long Term Care where the COLD reports do not report an expenditure breakdown by eligibility type, year-to-date totals are spread by using the same methods as in Exhibit M, Cash-Based Actuals.

**Exhibit H - Long Term Care - Class I Nursing Facilities Request  
Footnotes and Assumptions**

**Class I Nursing Home Calculations for FY 07-08 and FY 08-09 Footnotes:**

- (1) The Department has estimated the FY 07-08 per diem rate based on the unaudited interim cost-based rates effective July 1, 2007. The July 1, 2007 rate will change as cost reports are audited; therefore, the Department does not use the exact rate but adjusts the rate using historical data to reflect the expected average per diem that will be paid to providers in FY 07-08. The calculation of the estimated FY 07-08 per diem does not include any impact from HB 07-1183 (see footnote 10) or the effect of the rate floor established for FY 06-07 in SB 06-131. For FY 08-09, the Department has increased the estimated per diem by 4.05%, the average of the percent change from FY 03-04 to FY 05-06. This ensures that changes from SB 06-131 are not included in the estimated trend. Figures presented in this table have been updated from prior Budget Requests to reflect the average per diem across the entire fiscal year. See the Budget Narrative for further details.

<b>Year</b>	<b>Per Diem Rate</b>	<b>Percent Change</b>
FY 02-03	\$131.06	
FY 03-04	\$143.49	9.49%
FY 04-05	\$149.98	4.52%
FY 05-06	\$157.16	4.79%
FY 06-07	\$165.91	5.57%
Estimated FY 07-08	\$171.39	3.30%
Estimated FY 08-09	\$179.37	4.65%

- (2) The patient payment estimate is a trended value using incurred but not reported (IBNR) adjusted data. The average percent increase from FY 04-05 through FY 06-07, 5.0%, was used to estimate the FY 07-08 and FY 08-09 patient payment. Values for prior years differ slightly from the Department's prior Budget Requests due to the inclusion of claims paid after those Budget Requests. Hospital backup claims are removed from this calculation.

<b>Fiscal Year</b>	<b>Patient Payment Per Day</b>	<b>Percent Difference</b>
FY 99-00	\$21.56	
FY 00-01	\$22.85	5.98%
FY 01-02	\$23.76	3.97%
FY 02-03	\$24.75	4.17%
FY 03-04	\$24.93	0.74%
FY 04-05	\$25.88	3.80%
FY 05-06	\$27.29	5.43%
FY 06-07	\$28.85	5.75%
Estimated FY 07-08	\$30.29	4.99%
Estimated FY 08-09	\$31.80	4.99%

- (3) The estimate of patient days is based on the assumption that patient days will be flat in FY 07-08. The FY 08-09 estimate is one-half the average percent change of all years for FY 00-01 through the estimated FY 07-08. Values for prior years differ slightly from prior Budget Requests due to the inclusion of claims paid between those Requests and this Request. Hospital backup days are removed from this

<b>Fiscal Year</b>	<b>Patient Days</b>	<b>Percent Difference</b>
FY 99-00	3,791,805	
FY 00-01	3,712,731	-2.09%
FY 01-02	3,618,218	-2.55%
FY 02-03	3,588,003	-0.84%
FY 03-04	3,502,943	-2.37%
FY 04-05	3,519,435	0.47%
FY 05-06	3,532,119	0.36%
FY 06-07	3,533,475	0.04%
Estimated FY 07-08	3,533,475	0.00%
Estimated FY 08-09	3,518,088	-0.44%

- (4) Estimated costs for current year dates of service is the amount the Department expects to pay for services rendered in the current fiscal year regardless of which fiscal year the payment is made.

**Exhibit H - Long Term Care - Class I Nursing Facilities Request  
Footnotes and Assumptions**

- (5) Of the estimated costs for the current year dates of service, a portion of those claims will be paid during the same fiscal year in which they were incurred while the rest of the claims will be paid in a future period. In order to estimate how much of the total expenditure incurred in the current year will be paid in the current year, expenditure patterns must be analyzed by month. This is because a claim incurred in July 2006 has 11 more months to pay during FY 06-07 (namely, August through June 2007) while a claim incurred in May 2007 only has one additional month to pay during FY 06-07 (June 2007). Thus, more claims from May 2007 will pay in FY 07-08 than claims from July 2006. Based on the Department's estimate of incurred but not reported (IBNR) claims, the Department estimates in the table below the portion of claims outstanding for any given fiscal year by analyzing estimated IBNR (based on 4 years of data) and averaging the total to provide an estimate of the total percentage of claims that will pay in the same fiscal year that the claim was incurred.

**Estimate of Claims Incurred and Paid in the Same Fiscal Year**

Month of Incurral	Additional Months Until End of Fiscal Year	Estimated Percent Complete at End of Fiscal Year (IBNR Factor)
July	11	99.87%
August	10	99.80%
September	9	99.71%
October	8	99.56%
November	7	99.33%
December	6	99.00%
January	5	98.47%
February	4	97.69%
March	3	96.27%
April	2	94.00%
May	1	90.06%
June	0	27.65%
<b>Average</b>		<b>91.78%</b>

- (6) Estimated expenditures for prior dates of service is the amount from the prior year budget that was not paid in the prior year. The Department uses an IBNR model based on the most recent four years of expenditure history to estimate the amount which has been incurred in FY 06-07 but will be paid in FY 07-08. For FY 08-09, the Department uses the estimated total incurred but not reported from the FY 07-08 calculation.

- (7) Hospital backup and out of state placements are programs where the Department pays a much higher per diem for specialized clients which can be several times the statewide average Nursing Facilities Medicaid reimbursement rate. This is an intermediate level of care in between the hospital and a skilled nursing facility. Types of clients treated under this program include ventilator, wound care, medically complex and traumatic brain injury with severe behaviors. This group is difficult to budget for due to the fluctuation in client base. The FY 07-08 estimate is the FY 06-07 total inflated by the percent change from FY 05-06 to FY 06-07. For FY 08-09, the total is inflated by the same percentage.

Fiscal Year	Hospital Backup	Percent Difference
FY 04-05	\$5,731,404	
FY 05-06	\$5,297,011	-7.6%
FY 06-07	\$5,615,794	6.0%

**Exhibit H - Long Term Care - Class I Nursing Facilities Request  
Footnotes and Assumptions**

- (8) Estate and income trust recoveries are amounts that the Department's third party liability group recovers from previous Medicaid clients after they have died. Recoveries in FY 05-06 were much higher than in FY 04-05, and the Department did not achieve as high recovery rate in FY 06-07. The high recovery total was due in part to a larger than expected number of high-value recoveries. This phenomenon has occurred previously, particularly in FY 01-02, when recovery levels fell back from a high level. For this reason, the Department uses the average of the recovery amounts from FY 04-05 through FY 06-07, a total of \$6,830,532. For FY 08-09, the total is inflated by the estimated percentage increase in recoveries from FY 06-07 to FY 07-08.

Effective with the November 1, 2007 Budget Request, the Department has restated totals for Estate Recovery to exclude payments made to contingency based contractors who perform recoveries. For the purpose of projecting the impact on total expenditure, payments to contingency contracts are not an offset to expenditure.

- (9) Overpayment review recoveries are amounts that the Department recovers from nursing homes. The Department contracted with a contingency based contractor to do a five year historical audit of all the facilities, and the contract expired at the end of FY 05-06. The Department continues to do internal audits of nursing facilities, and estimates that, on average, each audit recovers approximately \$35,000. During the second half of FY 06-07, the Department experienced several unusually high recoveries that are not expected to be typical for FY 07-08. Thus, the estimated \$35,000 is a rough estimate based on historical recovery information inflated slightly for future trend.

<b>FY 07-08</b>

<b>Total Estimated Recoveries From Department Overpayments</b>	<b>\$1,260,000</b>

- (10) During the 2006 legislative session, the General Assembly passed SB 06-131, which established a rate floor for providers at the lower of either: 85% of the statewide average average; or 110% of the provider's prior year rate. The provisions of SB 06-131 expired at the end of FY 06-07. During the 2007 legislative session, the General Assembly passed HB 07-1183, which established the Nursing Facility Grant Rate Program. This program was appropriated \$397,000 total funds to increase the per diem rates of providers who would experience a rate decrease due to the expiration of the provisions of SB 06-131.

Because this total is not reflected in the estimated per diem payment from footnote (1), the Department adds the appropriated grant funds as a bottom line adjustment.

(1) The Average Monthly Paid Enrollment is not the actual enrollment in the Department's PACE program. This figure reflects the number of capitations paid in each month, not the distinct number of clients enrolled. For further information, please see the Budget Narrative.												
(2) Percent change selected to trend average monthly enrollment: <b>OAP-A:</b> Average percent change from FY 04-05 to FY 05-06; <b>OAP-B and AND/AB:</b> percent change in combined enrollment from FY 05-06 to FY 06-07.												
(3) Percent change selected to trend cost per enrollee: <b>OAP-A:</b> Percent change of FY 04-05 to FY 05-06; <b>OAP-B and AND/AB:</b> Average percent change in combined cost per enrollee from FY 03-04 to FY 05-06.												
(4) In FY 05-06, the Department reached a settlement agreement with its PACE provider to correct for instances where the incorrect rate was paid for clients. During FY 05-06, the Department recouped \$1,462,091. In FY 06-07, recouped the outstanding amount of \$350,902. Because of the nature of this recoupment, these are one-time payments to the Department. The Department has adjusted the FY 07-08 estimates as bottom-line adjustments by adding a bottom line adjustment reversing the impact of the estimated FY 06-07 collection.												
(5) Because of delays imposed by the Centers for Medicare and Medicaid Services during the 2007 rate process, the rate increases provided in HB 06-1369 and HB 06-1385 did not affect the PACE rates until July 1, 2007.

(1) The estimated increase in the Medicare Part B Premium is calculated as the average percent increase from calendar year 2005 to calendar year 2007. The official premium will not be released by the Centers for Medicare and Medicaid Services in time to be incorporated in this Budget Request.												
(2) Total Expenditure is calculated as the estimated first half expenditure plus the estimated second half expenditure. See the Budget Narrative for further information.

(1) Home and Community Based Services (HCBS) utilization is not the only factor which influences Single Entry Point expenditure. However, the Department believes that utilization trends are a good proxy for other Single Entry Point functions. Please see the Budget Narrative for further information.

(2) The Average Monthly Paid Enrollment is not the actual enrollment in the Department's HCBS programs. This figure reflects the number of clients for who claims were paid in each month, not the distinct number of clients enrolled. For further information, please see the Budget Narrative.

(3) For OAP-A, OAP-B, and AND/AB, the Department selected the three-year average of the percent changes from FY 03-04 through FY 06-07 for each aid category. For all other aid categories, the Department selected the aggregate three-year average of the percent change from FY 03-04 through FY 06-07.

(1) The FY 07-08 base expenditure estimate for Disease Management is based on the maximum total value of disease management contracts the Department has in FY 07-08, not including any Tobacco Tax-related programs.

(2) The FY 08-09 expenditure estimate for Disease Management holds constant the base amount of disease management contracts. Contracts funded via SB 06-165 are considered as a bottom line adjustment.

(1) Amounts include totals from SB 07-239 plus special bills that passed during the 2007 legislative session.

(2) Adjustments to cash flow patterns: For the purposes of this exhibit, the Department assumes an even distribution of expenditure for: Non-Emergency Medical Transportation, the Breast and Cervical Cancer Program, and Presumptive Eligibility. The Department utilizes the FY 04-05 cash flow pattern for Prescription Drugs. For Administrative Service Organization - Administrative Fees, the Department uses the July - September cash flow as funds are administratively moved into this service category on a quarterly basis, and the transfer for the second quarter was not completed until after December had ended.

Because of complex policy changes regarding managed care in FY 06-07, cash flow percentages for Health Maintenance Organizations and Acute Care fee-for-service service categories are likely skewed. Therefore, only for the purpose of this exhibit, the Department estimates that all service categories are 25% complete after the first quarter.

This is a rough projection utilizing past expenditure patterns as a guide to future expenditures. The Cash Flow Pattern is one forecasting tool used to estimate final expenditures on a monthly basis. It is not meant to replace the extensive forecasting used in the official Budget Request and is not always a predictor of future expenditures.

(1) A portion of claims are not billed through the Medicaid Management Information System; rather, the Department makes lump-sum payments to the Prepaid Inpatient Health Plan. Because the provider is not billing for claims outside the scope of services (such as HCBS wa Care.												
As of November 1, 2006, the Department has restated actual expenditure by moving all expenditure for the Prenatal State-Only program to the Non-Citizens aid category.
