<sup>1</sup>The Payment Error Rate Measurement Program is a federal requirement, occurring every three years. The last required audit occurred in FY 2007-08 with contract costs split between FY 2006-07 and FY 2007-08 for a total amount of \$588,501. The Department assumes the full contract amount will be executed in FY 2010-11 for a total of \$588,501. As this will require a new RFP process, the Department would request any additional funds needed through the normal budget request process.

<sup>2</sup>Nursing Facility Appraisals are statutorily required pursuant to 25.5-6-201, C.R.S. (2008) and occur every four years. The Department last received funding for these appraisals in FY 2006-07 for a total of \$279,746. As this will require a new RFP process, the Department would request any additional funds needed through the normal budget request process.

<sup>3</sup>The Department received additional funding for the quarter ending 6/30/2009 for enhanced federal funding from the American Recovery and Reinvestment Act (ARRA). The change was due to unemployment data published by the Bureau of Labor Statistics (BLS) on June 22, 2009 which caused Colorado to move from a tier 2 state to a tier 3 state. The additional funding was not received until after the close of the state fiscal year. As a result, the Department assumed that the funding would need to be reflected in FY 2009-10. In subsequent meetings with the state controller, it was decided to take special action to move the additional federal funds back into FY 2008-09.

<sup>4</sup>Technical corrections are necessary on several lines to ensure agreement with the Department of Human Services. The Department will determine whether these items should be addressed in FY 2009-10 or in FY 2010-11 through discussions with OSPB and JBC staff.

<sup>5</sup>Technical corrections are necessary to (4) Indigent Care Program; Comprehensive Primary and Preventive Care Rural and Public Hospital to remove all base funding for FY 2010-11. Several actions were taken impacting this appropriation during the budget cuts, which in net, reflect unintended base funding.

<sup>6</sup>Technical corrections are necessary to align the University of Colorado Hospital Authority to the 10% cut to the Graduate Medical Education funding appropriated to the Commission on Family Medicine Residency Treatment Programs.
