

January 1, 2020

The Honorable Daneya Esgar, Chair Joint Budget Committee 200 East 14th Avenue, Third Floor Denver, CO 80203

Dear Representative Esgar:

Enclosed please find a legislative report to the Joint Budget Committee from the Department of Health Care Policy and Financing on In-Home Support Services (IHSS).

Section 25.5-6-1206, C.R.S. requires the Department to submit a report annually to the Joint Budget Committee of the General Assembly, the Health and Human Services Committee of the Senate, and the Public Health and Human Services Committee of the House of Representatives on the implementation of IHSS.

The report provides information on IHSS, a participant-directed service delivery option available under three Home and Community Based Services (HCBS) waivers. The report includes data on the cost and utilization of IHSS and the Department's efforts to conduct further data analysis. Finally, the report includes the strategies the Department is implementing to improve this service delivery option both programmatically and financially.

If you require further information or have additional questions, please contact the Department's Legislative Liaison, Nina Schwartz at Nina. Schwartz@state.co.us or 303-866-6912.

Sincerely,

Kim Bimestefer Executive Director

REPORT TO THE SENATE HEALTH AND HUMAN SERVICES COMMITTEE, HOUSE HEALTH AND INSURANCE COMMITTEE, HOUSE PUBLIC HEALTH CARE AND HUMAN SERVICES

COMMITTEE, AND THE

JOINT BUDGET COMMITTEE ON

IN-HOME SUPPORT SERVICES (IHSS)

FOR STATE FISCAL YEAR (FY) 2018-19

January 1, 2020

The Colorado Department of Health Care Policy & Financing (the Department) is pleased to submit this report pursuant to section 25.5-6-1206, C.R.S., regarding In-Home Support Services (IHSS) provided in the state of Colorado. Per the statutory requirement, this report addresses:

- The cost-effectiveness of providing IHSS to the elderly, blind, and disabled, to persons with spinal cord injury, and to eligible disabled children;
- The number of persons receiving such services; and
- Any strategies and resources that are available or that are essential to assist more persons in staying in their homes through the utilization of IHSS.

Introduction

IHSS was authorized in Home- and Community-Based Services (HCBS) waivers by SB 02-027 in 2002. IHSS is a participant-directed service-delivery option that allows participants to direct services accessible through the HCBS – Elderly, Blind, and Disabled (HCBS-EBD), Children's HCBS (CHCBS), and Spinal Cord Injury (HCBS-SCI) waivers.

IHSS implementation is a collaborative effort between the participant, their IHSS agency, and their case manager. The case manager is responsible for initiating a referral to the IHSS agency and authorizing appropriate services. The participant or their Authorized Representative (AR) has flexibility and control over their services and is encouraged to select, train, and manage attendants. The IHSS agency is the employer of record for attendants and is responsible for providing back-up care, nursing oversight and supervision, and the financial management of services. IHSS is similar to Consumer-Directed Attendant Support Services (CDASS), where a participant or their AR manages the financial allocation, selects and trains the attendant, and is the employer of record. The primary differences between the three service delivery options are detailed below:

Table 1 - Service Delivery Options							
Traditional Agency-based Care	IHSS	CDASS					
 Agency selects, employs, and trains attendants Agency manages financial aspects of service delivery 	 Participant or AR selects and trains attendants IHSS agency employs attendants and manages financial aspects of service delivery 	 Participant or AR selects, employs, and trains attendants Participant or AR manages annual allocation 					

Participant Eligibility

As set forth at 10 C.C.R. 2505-10 section 8.552.2, a participant is eligible for IHSS when the following three criteria are met:

- The participant is enrolled in an HCBS waiver approved to offer IHSS (currently the EBD, SCI, and CHCBS waivers);
- The participant's physician documents that the member has sound judgment and the ability to direct their own care or they have elected an Authorized Representative to assist in directing care; and
- The participant demonstrates a current need for covered attendant support services.

Available Services

Services are determined by the participant's case manager and are based on a functional assessment. Adults enrolled in the HCBS-EBD or HCBS-SCI waivers may be eligible to receive health maintenance activities, homemaker services, and personal care services. A child enrolled in the CHCBS waiver may be eligible to receive health maintenance activities. Personal Care includes assistance with activities such as bathing, dressing, or eating. Homemaker Services include assistance with general household activities needed to maintain a healthy and safe living environment, such as housekeeping, meal preparation, and laundry. Health Maintenance Activities (HMA) are defined as routine and repetitive skilled health-related tasks, which are necessary for health and normal bodily functioning, that an individual with a disability would carry out if they were physically able, or that would be carried out by family members or friends if they were available. HMA includes services such as wound care, ventilator care, and tracheostomy care. Tasks that require the clinical assessment and judgement of a licensed nurse are not performed in IHSS.

IHSS participants also have access to other services available through the Medicaid State Plan benefit and their HCBS waiver. State plan services include all other Medicaid benefits that are not provided by the HCBS waivers, which may include physician visits, medications, hospitalizations, and durable medical equipment. HCBS waivers offering IHSS include the below services:

	Table 2 – Other HCBS Services by Waiver							
Waiver	EBD / SCI	CHCBS						
Other HCBS Benefits	Adult Day Services Alternative Care Facility (ACF) (EBD ONLY) Consumer Directed Attendant Support Services (CDASS) Complementary and Integrative Health Services (SCI ONLY) Home Delivered Meals Home Modification Homemaker Services Life Skills Training Medication Reminder Systems Non-Medical Transportation Peer Mentorship Personal Care Personal Emergency Response Systems (PERS) Respite Personal Emergency Response Systems (PERS) Transition Set Up	Case Management						

In accordance with section 25.5-6-1203(3), C.R.S., the following sections of the Nurse Practice Act and Nurse Aide Legislation do not apply to IHSS:

- 12-38-103(8) Definition of Practical Nurse;
- 12-38-103(11) Definition of Registered Nurse;
- 12-38-123 Penalties for practicing without a license;
- 12-38.1-102(5) Definition of Nurse Aide; and
- 12-38.1-117(b) Limitation of duties of Nurse Aide.

By not requiring licensed or certified health professionals, an IHSS participant has more flexibility and control over their services and supports. The participant may choose to hire a neighbor, friend, or family member to provide both skilled and unskilled care. Attendants are employed by an IHSS agency that provides twenty-four-hour backup services and supervision by a Registered Nurse (RN). This is particularly valuable to participants with complex medical needs who reside in rural areas of Colorado, where access to care and services is a concern.

IHSS Agencies

IHSS agencies must be a licensed home care agency, certified by the Colorado Department of Public Health & Environment (CPDHE), and enrolled as a Medicaid provider with the Department. There are enrolled IHSS agencies serving the entire state of Colorado.

IHSS agencies are required to provide the following in accordance with 10 C.C.R. 2505-10 section 8.552.6.A:

- Independent Living Core Services (information and referral services, independent living skills training, peer and cross-disability peer counseling, individual and systems advocacy, transition services or diversion from nursing homes and institutions to home and community-based living, and transition services upon leaving secondary education);
- Attendant training, oversight, and supervision by a state-licensed Registered Nurse (RN); and
- Twenty-four-hour back-up services for scheduled visits.

Table 3 — Number of IHSS Agencies								
FY 2013-14 FY 2014-15 FY 2015-16 FY 2016-17 FY 2017-18 FY 2018-19								
28 34 48 78 130 157								

Cost Effectiveness of IHSS

As the table below demonstrates, IHSS generates cost savings compared to providing services in an institutional setting. Serving an adult in an institution costs more than double what it costs to serve them in the community with IHSS and other waiver and state plan services. However, IHSS continues to be more expensive than traditional agency-based care. The savings for children are also significant when reviewing costs for institutionalization.

Table 4 – IHSS Per-Participant Cost versus Institutional Per-Participant Cost FY 2018-19								
Waiver	IHSS Cost per Participant	Other HCBS Cost per Participant ¹	State Plan Cost per Participant ²	Total Cost per Participant - HCBS	Adjusted Institutional Cost per Participant ³	Adjusted State Plan Costs per Participant ²	Total Cost per Participant Institution- alization	
EBD/SCI ⁴	\$28,555.65	\$1,853.51	\$10,343.19	\$40,752.34	\$64,185.56	\$5,817.25	\$70,002.81	
CHCBS	\$47,757.02	\$818.06	\$22,435.71	\$71,010.79	\$72,847.02	\$6,602.26	\$79,449.28	

- 1. Other HCBS Costs are the costs for the services described in Table 2 Other HBCS Services by Waiver.
- 2. State Plan Costs include all other Medicaid benefits that are not provided by the HCBS waivers, which may include physician visits, medications, hospitalizations, and durable medical equipment.
- Adjusted Institutional Costs are the average costs of services provided in an institutional setting.
- Due to a small population size for participants on the HCBS-SCI waiver, HCBS-EBD and HCBS-SCI data has been combined to protect HCBS-SCI participants' private health information (<u>Safe Harbor Regulations - Office</u> of the Inspector General).

IHSS per-participant costs significantly decreased in the last state fiscal year (FY) for adults:

Table 5 — IHSS Per-Participant Cost Percentage Change									
FY 2013-14 FY 2014-15 FY 2015-16 FY 2016-17 FY 2017-18 FY 2018-19									
EBD/SCI	-2.43%	+3.53%	-6.41%	-0.19%	+9.08%	+9.49%			
CHCBS	+14.27%	+7.65%	-3.81%	-3.66%	+3.76%	+15.60%			

IHSS per-participant costs for adults under the EBD/SCI waivers have decreased as lower-acuity members transition to IHSS. The increase in the per-participant costs for children on the CHCBS waiver is related to increased enrollment of pediatric IHSS agencies who are actively marketing the service in their communities. Many families with children on the CHCBS waiver have transitioned some or all of their care from state plan Long-Term Home Health (LTHH) and/or Private Duty Nursing (PDN) to IHSS. During the 2018-2019 fiscal year, children who switched to IHSS services had an 85% decrease in LTHH costs after switching.

The inherent flexibility of IHSS is extremely beneficial for participants with medically complex needs; several members have transitioned out of institutional settings to their homes with the support of IHSS agencies. The spectrum of participants on IHSS varies from participants receiving homemaker services a few times per week to technology-dependent adults and children receiving life-sustaining health maintenance activities.

Increased Participation in IHSS

Pursuant to a legislative change made in 2014 by HB 14-1357, family members, including spouses, may provide up to forty hours per week of personal care services if there is a documented and demonstrated need. This change, along with the departmental strategies and resources described on page 7, led to significant growth in the number of members accessing IHSS. As a result, there has been an increase in total IHSS expenditures (Tables 6 through 9). There has also been a corresponding increase in the number of IHSS agencies throughout the state, allowing participants more choice when selecting service-delivery options for their services (Table 5). The Department has instituted mandatory provider training covering the principles of self-direction; initial and ongoing provider training helps improve agency administration and service provision for participants.

Table 6 – IHSS Participant Count									
	FY 2013-14	FY 2014-15	FY 2015-16	FY 2016-17	FY 2017-18	FY 2018-19			
EBD/SCI	696	988	1415	2359	3491	4201

Percent Change	Percent +42 64% +28 80% +20 25% +42 46% +42 36% +32 01%								

Programmatic Changes

In 2018 and 2019, the Department worked with stakeholders to clarify roles and responsibilities in IHSS and developed rule changes that would ensure the proper implementation and delivery of services. The Medical Services Board enacted these rule changes effective April 30, 2018 and August 1, 2019. Along with the rule changes, the Department modified existing materials and developed new resources for IHSS stakeholders.

In late 2018, EQHealth began reviewing service authorizations for CHCBS participants as well as those members whose services exceed the daily threshold for Cost Containment (\$285/day). A request to expand the scope of Utilization Management for IHSS has been proposed.

A Sunset Review of IHSS was conducted by the Colorado Office of Policy, Research & Regulatory Reform (COPRRR) in 2018. The Department worked collaboratively with COPRRR and stakeholders throughout the Sunset Review process. Senate Bill 19-164 was passed by the General Assembly and signed by Governor Polis in May 2019. The following changes resulted from the 2019 legislative session:

- IHSS was extended until 2028;
- The definition of "eligible person" was revised to include anyone who is eligible to receive services under any HCBS waiver for which the Department has federal waiver authority; and
- Technical changes were made to the statute.

The Department initiated a contract renewal with the Training & Operations Vendor, Consumer Direct of Colorado, effective July 1, 2019. Consumer Direct of Colorado completed the following deliverables related to IHSS in FY 2018-19:

- Mandatory Case Management Training
 - o 13 trainings conducted with 318 case managers participating;
- Case mediation services
 - Four case mediations facilitated;
- Resources and support for new and existing IHSS participants
 - o 1205 IHSS Participant Guides distributed;
 - o Two IHSS Q&A Sessions held with 83 participants attending; and
- Mandatory Provider training for new and existing IHSS agencies
 - o Ten trainings conducted with 228 agency administrators in attendance.

Strategies and Resources

The Department works proactively with stakeholders to develop strategies and resources which improve implementation, support the growth of and interest in IHSS, and ensure sound stewardship of public funds. Specifically, the Department:

- Engages in regular stakeholder meetings, including the Participant-Directed Programs Policy Collaborative (PDPPC), the IHSS Subcommittee, and workgroups to increase awareness about IHSS and to solicit IHSS stakeholder feedback in policy development;
- Works proactively with new and existing IHSS agencies, providing resources and support for billing, training, and dispute resolution;
- Ensures sound stewardship of public funds through case reviews, audits, and training initiatives;
- Promotes the principles of self-direction in developing training and information for members, case managers, and agencies;
- Monitors provider reimbursement and cost-controls while promoting the participant's choice of attendants and services;
- Maintains a list of current IHSS agencies for the use of participants, families, and case management agencies;
- Provides resources for IHSS through Department communications, web-based training and resources, reference documents, and fact sheets; and
- Revises and submits waiver amendments to the federal Centers for Medicare & Medicaid Services (CMS) to allow greater participant-directed options.

In addition, the following partnerships and resources are crucial to ensuring consistent implementation of IHSS:

- The Department of Public Health & Environment licenses home care agencies, conducts surveys required for IHSS certification, and investigates complaints related to safety and quality of care for home care agencies.
- The Training & Operations Vendor provides support to stakeholders, including participants, case managers, and IHSS agencies.

Conclusion

IHSS continues to experience rapid growth in enrollment and utilization. While the Department has enacted significant policy amendments, stakeholder resources and process improvements, the trajectory

of IHSS expenditures is concerning. There is strong stakeholder interest in the expansion of IHSS, which is not actionable at the present time because of expenditure growth. One of the strategies the Department has proposed to ensure appropriate utilization of services is use of a Utilization Management vendor to review skilled services in IHSS. If approved, all of the Department's skilled services will receive a clinical approval. The Department will continue to collaborate with stakeholders to review trends and ensure appropriate service utilization in IHSS.

While the expenditure growth of the program is a key area for the General Assembly to consider, another factor is the impact IHSS has to empower participants to direct and manage their care. One of the more impactful outcomes in IHSS occurs when a member is able to transition home from an institutional setting. In the last year, the Department has worked collaboratively with interdisciplinary teams to transition three individuals home from Hospital Back-Up facilities. All three members had been previously unable to transition home due to nursing and staffing shortages; with IHSS all of their care needs have been met. This is one example that demonstrates how IHSS empowers participants to direct and manage their care with the support of an IHSS agency. IHSS continues to be an important part of the service-delivery continuum; the Department is dedicated to ensuring that participants' needs are met while assuring services are appropriately authorized.
