### Top 5 Medicaid Claim Types in Gilpin County

### Medicaid Population in Gilpin County

Members living in Gilpin County are attributed to the Behavioral Health Organization (BHO):  
Foothills Behavioral Health Partners\*\*

\*The ACC is Colorado's delivery system for improving health outcomes and containing costs. The program provides incentive payments to providers and RCCO's who meet benchmarks known as key performance indicators. These payments encourage high value services, like well child visits, and aim to decrease lower value services, like hospital readmissions and ER utilization.

\*\*The community behavioral health services program provides mental health and substance abuse disorder services to all Colorado Medicaid members. BHO's arrange for clients to receive medically necessary behavioral health services.

\*\*\*All data is from Medicaid MMIS for Fiscal Year 2015-2016. Client counts may be hidden to protect PHI
