Foothills Behavioral Health Partners**

All data is from Medicaid MMIS for Calendar Year 2016, member counts may be hidden to protect Personal Health Information (PHI).

*The ACC is Colorado's delivery system for improving health outcomes and containing costs. The program provides incentive payments to providers and RCCO's who meet benchmarks known as key performance indicators. These payments encourage high value services, like well child visits, and aim to decrease lower value services, like hospital readmissions and ER utilization.

**The community behavioral health services program provides mental health and substance abuse disorder services to all Colorado Medicaid members. BHO's arrange for members to receive medically necessary behavioral health services.

***Capitation payments are not included in the Top 5 Claim Types.
