

Regional Accountable Entity

Behavioral Health Incentive Specification Document
SFY 2022-2023

This document includes the details for calculations of the Regional Accountable Entity Behavioral Health Incentive Measures for the seven Regional Accountable Entities. All measures are calculated using paid claims/encounters data.

PARTICIPATION MEASURES

To qualify for participation in the BHIP Program, RAEs must meet the following:

- 1) The Contractor must manage the program such that the weighted average per-member-per-month trend is 4% or less from FY 2021-2022 to FY 2022-23. The Department may, at its discretion, and with contractor consent, modify the target trend to account for underlying changes in the program's risk structure or population.

To qualify for incentive payments, RAEs must meet the following minimum performance requirements during the contract year:

- 1) Timely submission and completion of a corrective action plan submissions and activities
- 2) Timely and accurate submission of quarterly encounter data

Qualifier 1: Quarterly Data Submission

Description: The number of successful quarters of quarterly data submissions to the Department.

Successful quarterly data submission is defined as:

Submission of flat files that are submitted on time in accordance with the contract and meets the following flat file specifications:

- The flat file contains no lines that duplicate other lines within the submission, nor lines that duplicate lines from previous submissions
- The flat file has no missing key fields or incorrect formats.

Each quarterly submission that contains only files meeting the above criteria will count towards this qualifying measure. Quarterly submissions containing additional files to correct for the errors listed above, or containing additional supplemental files, will not count towards the qualifying measure.

Data Source: Encounter Submission through RAE flat files, using dates of service of July 2022 through June 2023, as adjudicated by the RAEs through September 2023.

There are five flat file submissions (four quarterly submissions and one annual submission). To receive 100% of the qualifying measure, the plan must have at least four successful flat file submissions. For each submission below four successful submissions, the plan will lose 20% of the qualifying measure. Thus, the schedule for this measure is as follows:

- Five successful data submissions – 100%
- Four successful data submissions – 100%
- Three successful data submissions – 80%
- Two successful data submissions – 60%
- One successful data submission – 40%
- Zero successful data submissions – 20%

Qualifier 2: Corrective Action Plan Compliance

Description: All corrective action plan submissions and activities shall be in accordance with the provisions of the Contract, for the duration of the Contract term.

To qualify for the portion of the overall incentive funds allocated for this participation measure, the Contractor shall demonstrate 100% compliance.

According to the corrective action plan (CAP) process, there are specific steps to ensure plans are a 100% compliant that are coordinated by the Departments EQRO, they are:

- The plan must submit the CAP within the timeframe given (30 days)
- The CAP must be approved by the Department -
- The CAP must be completed within the allowed timeframe outlined in the CAP

*The baseline for establishing goals is now based on performance from 2 years back. Goals for FY2022-2023 are set using FY2020-2021 as the baseline.

HCPF Goals were developed using the top performer (identified in green in the table above) using this equation:

$$(\text{Top Performer}) + (10\% \text{ of Top Performer}) = \text{HCPF Goal}$$

*Each RAE will be responsible for closing their performance gap (between SFY 20-21 performance and the identified HCPF Goal) by 10% during the performance year (SFY 22-23). Please see the example below.

Indicator 1: Engagement in Outpatient Substance Use Disorder (SUD) Treatment

Measure Description

The percentage of members who had two or more outpatient services for a primary diagnosis of SUD on or within 30 days of their first episode of substance use disorder treatment.

Measurement Period

Triggering event: July 1, 2022 to June 1, 2023

Full measurement period: July 1, 2022 to June 30, 2023

Denominator

Members will be included in the denominator if they are enrolled in the ACC and received an intake service for a primary covered SUD diagnosis (see Appendix A). For an outpatient visit, or intensive outpatient visit use the first date of service to determine the intake date. For an episode of detoxification use the last date of the first detox episode to determine the intake date.

Population Exclusions

Members are excluded if there is previous substance use treatment history in the past 60 days.

Numerator

Members in the denominator who have had at least two or more outpatient visits or intensive outpatient encounters with any primary SUD diagnosis (see Appendix A) on or within 30 days after the date of the initiation encounter (inclusive). Multiple engagement visits may occur on the same day.

Notes:

1. Do not count events that include inpatient detoxification or detoxification codes (see table below) when identifying engagement of SUD treatment.
2. Billing provider type is only used on FFS data for the calculation of this metric.

Calculation of Measure

This measure will be calculated by the Department.

Indicator 2: Follow-up appointment within 7 days of an Inpatient Hospital discharge for a mental health condition

Measure Description

The percentage of member discharges from an inpatient hospital episode for treatment of a primary covered mental health diagnosis to the community or a non-24-hour treatment facility who were seen on an outpatient basis by a mental health provider on or within 7 days of discharge.

Measurement Period

Triggering event: July 1, 2022 to June 24, 2023

Full measurement period: July 1, 2022 to June 30, 2023

Denominator

Members will be included in the denominator if they are enrolled in the ACC and received a discharge from an inpatient hospital episode for treatment of a primary covered mental health diagnosis (See Appendix A) to the community or a non-24-hour treatment facility.

Notes:

1. The Department will not exclude state hospital stays not paid under Medicaid due to lack of data.
2. Billing provider type is only used on FFS data for the calculation of this metric.

		100-219 or 0100-0219		

Population Exclusions

Members with a non-acute care discharge will be excluded from the denominator based on the chart below.

Comprehensive inpatient rehabilitation facility					61
Other non-acute care facilities that do not use the UB Revenue or type of bill codes for billing (e.g. ICF, SNF)					

The following are exclusions from the denominator:

- If the discharge is followed by readmission or direct transfer to an emergency department for a primary diagnosis of mental health- within the 7-day follow-up period, count only the readmission discharge or the discharge from the emergency department to which the patient was transferred.
- Exclude discharges followed by admission or direct transfer to an acute or nonacute facility within the 7-day follow-up period, regardless of primary diagnosis for the admission.

These discharges are excluded from the measure because hospitalization or transfer may prevent an outpatient follow-up visit from taking place.

Numerator

Members in the denominator who were seen on an outpatient basis (this excludes case management) with a mental health provider on or within 7 days of discharge.

Notes:

1. Billing provider type is only used on FFS data for the calculation of this metric.

Calculation of Measure

This measure will be calculated by the Department.

Indicator 3: Follow-up Appointment within 7 days of an Emergency Department (ED) visit for a Substance Use Disorder

Measure Description

The percentage of member discharges from an emergency department episode for treatment of a covered substance use disorder (SUD) to the community or a non-24-hour treatment facility who were seen on an outpatient basis by a behavioral health provider on or within 7 days of discharge.

Measurement Period

Triggering event: July 1, 2022 to June 24, 2023

Full measurement period: July 1, 2022 to June 30, 2023

Denominator

Members will be included in the denominator if they are enrolled in the ACC and received a discharge from an emergency department episode for treatment of a primary covered substance use disorder diagnosis (see Appendix A) to the community or a non-24-hour treatment facility.

Notes:

1. The Department will not exclude state hospital stays not paid under Medicaid due to lack of data.
2. Billing provider type is only used on FFS data for the calculation of this metric.

The following are exclusions from the denominator:

- If the discharge is followed by readmission or direct transfer to an emergency department for a primary diagnosis of substance use disorder (SUD) within the 7-day follow-up

period, count only the readmission discharge or the discharge from the emergency department to which the patient was transferred.

- Exclude discharges followed by admission or direct transfer to an acute or nonacute facility within the 7-day follow-up period, regardless of primary diagnosis for the admission.

These discharges are excluded from the measure because hospitalization or transfer may prevent an outpatient follow-up visit from taking place.

Calculation of Measure

This measure will be calculated by the Department.

Indicator 4: Follow-up after a Positive Depression Screen

Measure Description

Percentage of members engaged in mental health service on or within 30 days of screening positive for depression within a Primary Care Setting (Primary Care Visit as defined by the RAE ACC Well Visit KPI [Specification](#) and [Value Set](#)).

*In order to qualify for payment, depression screening rates must increase by a 10% Gap closure between RAE performance and the Department Goal, as identified by the number of members with an outpatient primary care visit in the evaluation period who received a depression screening (G8431, G8510)

Measurement Period

Triggering event: July 1, 2022 to June 1, 2023

Full measurement period: July 1, 2022 to June 30, 2023

Denominator

All members with a positive depression screening as identified by procedure code G8431 in a primary care setting.

Notes:

- Billing provider type is only used on FFS data for the calculation of this metric.

Exclusions from the Denominator:

- Exclude members under 11 years old

Numerator

All members with a positive depression screen who also received one of the following services the same day or within 30 days:
