<b>Appendix F. Focus Topic Discussion.....</b>	<b>F-1</b>

### Introduction

In accordance with its authority under Colorado Revised Statute 25.5-1-101 et seq. and pursuant to Request for Proposals 2017000265, the Department of Healthcare Policy and Financing (the Department) executed contracts with the Regional Accountable Entities for the Accountable Care Collaborative (ACC) program, effective July 1, 2018. The Regional Accountable Entities (RAEs) are responsible for integrating the administration of physical and behavioral healthcare and will manage networks of fee-for-service primary care providers and capitated behavioral health (BH) providers to ensure access to care for Medicaid members. Per the Code of Federal Regulations, Title 42 (42 CFR)—federal Medicaid managed care regulations published May 6, 2016—RAEs qualify as both Primary Care Case Management (PCCM) entities and Prepaid Inpatient Health Plans (PIHPs). 42 CFR requires PCCM entities and PIHPs to comply with specified provisions of 42 CFR 438—managed care regulations—and requires that states conduct a periodic evaluation of their PCCM entities and PIHPs to determine compliance with federal Medicaid managed care regulations published May 6, 2016. The Department has elected to complete this requirement for the RAEs by contracting with an external quality review organization (EQRO), Health Services Advisory Group, Inc. (HSAG).

This report documents results of the fiscal year (FY) 2019–2020 site review activities for **Colorado Access Region 3 (COA R3)**. For each of the three standard areas reviewed this year, this section contains summaries of strengths and findings as evidence of compliance, findings resulting in opportunities for improvement, and required actions. Section 2 describes the background and methodology used for the FY 2019–2020 compliance monitoring site review. Section 3 describes follow-up on the corrective actions required as a result of the FY 2018–2019 site review activities. Appendix A contains the compliance monitoring tool for the review of the standards. Appendix B contains details of the findings for the denials of authorization of services (denials), grievances, and appeals record reviews. Appendix C lists HSAG, RAE, and Department personnel who participated in some way in the site review process. Appendix D describes the corrective action plan process that the health plan will be required to complete for FY 2019–2020 and the required template for doing so. Appendix E contains a detailed description of HSAG’s site review activities consistent with the Centers for Medicare & Medicaid Services (CMS) final protocol. Appendix F includes the summary of the focus topic interviews with RAE staff members used to gather information for assessment of statewide trends related to the FY 2019–2020 focus topic selected by the Department.

## Summary of Compliance Results

Based on conclusions drawn from the review activities, HSAG assigned each requirement in the compliance monitoring tool a score of *Met*, *Partially Met*, *Not Met*, or *Not Applicable*. HSAG assigned required actions to any requirement receiving a score of *Partially Met* or *Not Met*. HSAG also identified opportunities for improvement with associated recommendations for some elements, regardless of the score.

Table 1-1 presents the scores for **COA R3** for each of the standards. Findings for all requirements are summarized in this section. Details of the findings for each requirement receiving a score of *Partially Met* or *Not Met* follow in Appendix A—Compliance Monitoring Tool.

**Table 1-1—Summary of Scores for Standards**

Standard	# of Elements	# of Applicable Elements	# Met	# Partially Met	# Not Met	# Not Applicable	Score* (% of Met Elements)
I. Coverage and Authorization of Services	34	30	24	6	0	4	80%
II. Access and Availability	16	16	16	0	0	0	100%
VI. Grievances and Appeals	35	35	28	7	0	0	80%
<b>Totals</b>	<b>85</b>	<b>81</b>	<b>68</b>	<b>13</b>	<b>0</b>	<b>4</b>	<b>84%</b>

\*The overall score is calculated by adding the total number of *Met* elements and dividing by the total number of applicable elements from the standards in the compliance monitoring tool.

Table 1-2 presents the scores for **COA R3** for the denials, grievances, and appeals record reviews. Details of the findings for the record reviews are in Appendix B—Record Review Tools.

**Table 1-2—Summary of Scores for the Record Reviews**

Record Reviews	# of Elements	# of Applicable Elements	# Met	# Not Met	# Not Applicable	Score* (% of Met Elements)
Denials	90	56	28	28	34	50%
Grievances	60	45	25	20	15	56%
Appeals	54	50	38	12	4	76%
<b>Totals</b>	<b>204</b>	<b>151</b>	<b>91</b>	<b>60</b>	<b>53</b>	<b>60%</b>

\*The overall score is calculated by adding the total number of *Met* elements and dividing by the total number of applicable elements from the record review tools.

## Standard I—Coverage and Authorization of Services

NOTE: Federal managed care requirements associated with this standard apply only to RAE capitated BH services.

### *Summary of Strengths and Findings as Evidence of Compliance*

**COA's Utilization Management (UM) Program Description and Utilization Review (UR) Determinations** policy outlined a thorough and comprehensive approach for review and authorization of covered services using medical necessity and Interqual criteria and operational processes in compliance with regulatory guidelines. **COA** conducted annual interrater reliability testing to ensure that UM staff members applied criteria consistently. **COA's** UM staff reviewers were licensed BH clinicians. **COA** had established a panel of regularly scheduled psychiatrists to make RAE authorization determinations and had further access to a specialist panel of reviewers through a contract with National Medical Review. **COA's Peer Review Process** policy and on-site denial record reviews documented that BH medical reviewers routinely offered a peer review consultation to the requesting provider prior to making a final adverse benefit determination. Denial record reviews demonstrated 100 percent compliance with requirements for application of criteria, decisions made by a qualified reviewer, and outreach to the requesting provider to obtain additional information when necessary. Policies and procedures addressed the required content of the notice of adverse benefit determination (NABD) and regulatory timelines for making authorization decisions. Per internal policy, **COA's** required timelines for making authorization decisions also included 30 days for claims and other retrospective requests, as well as 24 hours for concurrent inpatient decisions. **COA** time- and date-stamped all authorization requests and notice of authorization decisions, ensuring that the required 72-hour time frame for expedited decisions was met. **COA** maintained a 24 hours a day, 7 days a week (24/7) hotline and UM review process for the RAEs, enabling inpatient authorizations to be completed within 24 hours of request. While UM policies and procedures accurately addressed all requirements related to termination of previously authorized services, including information related to requests for continuation of benefits during an appeal, staff members stated that **COA** does not ever reduce or terminate previously authorized services. The RAE NABDs to members and providers included all required content and were written in a format and language easy for the member to understand. Whereas on-site record reviews of claims revealed that **COA** overlooked sending a written NABD to members for claims denials, record reviews conversely demonstrated that all UM denials of new requests were fully compliant with: sending notice to the member within required time frames, required content of the letter, and written in easy-to-understand language. **COA** properly extended the authorization decision as necessary to obtain additional information and extension letters sent to members included all required content. Although anticipated mental health parity requirements were included on the HSAG monitoring tool for information only and were not reviewed or scored in this standard, HSAG observed that **COA** has already incorporated applicable mental health parity requirements into its UM policies.

**COA's** policies and procedures accurately defined “emergency condition,” “emergency services,” and “post-stabilization services” consistent with regulatory definitions. **COA** did not require authorization for emergency services in or out of network. During on-site interviews, staff members stated that all

emergency services claims are auto-paid by the claims system, and that emergency services claims are never reviewed for medical necessity or denied for any reason (except inaccurate billing processes). COA's *Emergency and Post-Stabilization Care* policy addressed verbatim the requirements pertaining to determining financial responsibilities for post-stabilization care. COA's *Post Stabilization Care Services* desktop procedure outlined some of the procedures for implementing review of post-stabilization services and communicating the results of UM determinations through the claims management system. COA's 24/7 UM process for RAE members ensures that COA may be contacted and, within one hour, respond to a request for authorization of a post-stabilization inpatient stay, and that a plan physician is available for consultation with the treating provider, as needed. For post-stabilization services a member receives out of network that are not pre-approved, staff members stated that COA does not bill Medicaid members for any charges incurred and that the State prohibits providers from balance billing Medicaid members.

### **Summary of Findings Resulting in Opportunities for Improvement**

While COA's *UR Determinations* policy included all required information related to the member's right to request continued benefits during an appeal of a reduction or termination of previously authorized services, the policy also stated and staff members confirmed that COA does not reduce or terminate any previously authorized services. In addition, the RAE NABDs included extensive information regarding the member's right to continue benefits during an appeal and how to request continued benefits. Whereas continued benefit requirements are generally confusing to members and staff members and if, in fact, COA never reduces or terminates previously authorized services, HSAG recommends that COA consider whether or not continued benefit information should be retained in its policies and procedures or template NABDs. HSAG cautions, however, that if COA considers eliminating or clarifying continued benefit information, that its policies clearly state that it is COA's policy to never reduce or terminate previously authorized services and that, therefore, requests for continued benefits during an appeal or State fair hearing do not apply.

While COA's *Emergency and Post-Stabilization Care* policy addressed all requirements related to review of or payment for emergency services in or out of network, staff members stated that COA never reviews or denies emergency services claims and that the claims system auto-pays every emergency service claim. Whereas, auto-pay of all emergency service claims accounts for and supersedes specific regulatory requirements (#28 through #31 in the compliance monitoring tool) related to payment for emergency services, HSAG recommends that COA's policies and related procedures clearly state that no emergency service claim is reviewed for authorization or denied for payment. COA might also consider whether or not to retain in its policy the specific criteria for review and payment of emergency services, which may conflictingly imply that emergency service claims are subject to retrospective review. HSAG also recommends that COA specify that the *Emergency and Post-Stabilization Care* policy, as well as the *Post Stabilization Care Services* desktop procedure, apply to both the UM Department and the Claims Management Department. Furthermore, if COA determines that it will retain all criteria for payment of emergency services in its policy, COA did not include the criterion "a representative of the organization instructed the member to seek emergency services" and should do so.

While **COA** clearly documented that **COA** does not bill members for out-of-network post-stabilization services, and staff members explained that the State prohibits Medicaid providers from balance billing members, the intent of the federal requirement extends to the Contractor also making best efforts to ensure that an out-of-network provider does not balance bill members for denied out-of-network post-stabilization services. HSAG recommends that **COA** consider communicating to the out-of-network provider that they may not bill RAE members for unauthorized services and communicating to the member through the NABD that the provider cannot charge the member for services not paid by **COA**.

HSAG's review of sample member NABDs noted that, while the text description of the reason for the denial was generally written in easy-to-understand language, the RAE letters concerning denial of requested BH services appeared to report the specific BH clinical conditions—i.e., “suicide, danger to self or others, gravely disabled”—that would justify hospitalization, rather than simply stating that the member could be cared for at a lower level of care. HSAG finds that using such BH clinical information to describe the reason for denial could potentially be inflammatory or inappropriate for members, and suggests that the RAE consider limiting BH information in the text of the NABD, simplifying the description of the reason for denial, and offering the member access to the specific criteria upon request.

### Summary of Required Actions

While **COA**'s *UR Determinations* policy specified that written notice would be sent to the member and provider and denial record reviews demonstrated that members and providers were notified in writing of adverse benefit determinations made by UM, NABDs for claims denials were sent only to the provider. Therefore, seven of 10 RAE Region 3 denial record reviews (related to claims) were scored *Not Met* for “notice sent to provider and member.” **COA** must ensure that RAE members receive written notification of any decision to deny a service, including denial or partial denial of a claim.

**COA** demonstrated that the RAE NABDs I used for UM denials were written in language easy to understand and informed the member of the availability of the letter in other languages and alternative formats. However, **COA** sent no notice to members regarding denial of a claim; therefore, seven of 10 RAE Region 3 denial record reviews (related to claims) were scored *Not Met* for “correspondence with the member was easy to understand.” **COA** must ensure that RAE members receive written notification of any decision to deny a service, including denial or partial denial of a claim. **COA** must ensure that the NABD regarding a claim is written in language that is easy for the member to understand.

**COA** demonstrated that the RAE NABD letters used for UM denials included all required content. However, **COA** sent no notice to members regarding denial of a claim; therefore, seven of 10 RAE Region 3 denial record reviews (related to claims) were scored *Not Met* for “notice includes required content.” **COA** must ensure that RAE members receive written notification of any decision to deny a service, including denial or partial denial of a claim. **COA** must ensure that the NABD regarding a claim includes all required content.

While **COA**'s *UR Determinations* policy addressed all required time frames for mailing the NABD to the member, the formatting of the information in the policy resulted in inaccurate information regarding required time frames. Specifically, several of the time frames applicable to all NABDs were listed as

*exceptions* to the time frame for notice of reduction or termination of previously authorized services. In addition, **COA** sent no notice to members regarding denial of a claim; therefore, seven of 10 RAE Region 3 denial record reviews (related to claims) were scored *Not Met* for “notice sent within required time frame.” **COA** must:

- Correct the formatting in its *UR Determinations* policy to accurately address all required time frames for the mailing the NABD to the member.
- Ensure that RAE members receive written notification of any decision to deny a service, including denial or partial denial of a claim, and that the NABD regarding denial of payment is sent at the time of any denial affecting the claim.

While **COA**'s *UR Determinations* policy addressed all required time frames for mailing the NABD to the member, the formatting of the information in the policy resulted in inaccurate information regarding required time frames. Specifically, the circumstances related to exceptions to the 10-day time frame for notifying the member regarding the reduced or terminated previously authorized services were not listed in the policy as only associated with the reduction, suspension, or termination of previously authorized services. **COA** must correct information in its *UR Determinations* policy to accurately address the exceptions to the time frames for mailing the NABD related to reduction or termination of previously authorized services, as stated in 42 CFR 431.211, 431.213, and 431.214.

**COA**'s *Emergency and Post-Stabilization Care* policy stated verbatim the requirements related to when financial responsibility ends for post-stabilization care that was not pre-approved by **COA**; however, the policy included no procedures for implementation. **COA**'s *Post Stabilization Care Services* desktop procedure outlined procedures related to UM processes applied to Child Health Plan Plus (CHP+) post-stabilization care but did not clearly address how the application of the criteria specified in 42 CFR 422.113(c)(3)—i.e., a plan physician assumes responsibility for the member's care; **COA** and the treating provider reach an agreement; the member is discharged—are applied in determining when financial responsibility (i.e., payment of a claim) ends for post-stabilization services that were not pre-approved. **COA** must develop or enhance its UM and claims payment procedures applicable to post-stabilization care to clarify processes for applying the criteria outlined in 42 CFR 422.113(c)(3) to determine when financial responsibility ends for payment of post-stabilization services that were not pre-approved.

## Standard II—Access and Availability

### *Summary of Strengths and Findings as Evidence of Compliance*

**COA** effectively demonstrated that it monitors and maintains its network of providers to ensure the timely provision of covered services. Monitoring methods included use of GeoAccess reports that use time and driving distance calculations, and calculation of caseload ratios. **COA** provided descriptions of creative programs such as telehealth programs and contracts with providers who provide physical health and BH services at the same site. The provider manual, provider newsletters, and periodic ad hoc provider communications informed providers of the timely appointment standards. **COA**'s quarterly quality reporting included results of secret shopper calls designed to assess compliance with timely appointment standards.

**COA**'s policies, procedures, and processes adequately addressed second opinions and entering into single case agreements (SCAs) with out-of-network providers when needed to ensure timely provision of services. Through on-site review of documents and administrative records, HSAG found evidence that SCAs are employed when needed. On site, **COA** staff members described analysis of gaps in provider availability identified through the GeoAccess reports and subsequent recruitment efforts within rural counties. **COA** staff members described the provider network as stable given **COA**'s 25 years in business; however, they also described processes in place to report provider availability gaps, Healthcare Effectiveness Data and Information Set (HEDIS<sup>®</sup>)<sup>1-1</sup> and Consumer Assessment of Healthcare Providers and Systems (CAHPS<sup>®</sup>)<sup>1-2</sup> scores, and network recruiting activities to committees—i.e., the BH network management committee or the quality improvement committee—to determine if additional initiatives may be needed. **COA** staff members described a new initiative planned for CY 2020: A two question survey asked of members during an incoming phone contact to the customer service line. The purpose of the project will be to assess members' perception of having received access to care needed.

**COA** had policies, procedures, and processes to address cultural competency. **COA** used in-person and language line translation and offered written materials in alternative languages. **COA**'s website had a button to allow the member to choose the website to be presented in nearly 100 languages. Grievance and appeal member-specific communications included the required tag lines in the required alternate languages. Cultural competency training was required for **COA** staff members and available on the website for providers. **COA** staff members reported that in CY 2020, **COA** will develop the capability to track providers' access to on-line training.

<sup>1-2</sup> CAHPS<sup>®</sup> is a registered trademark of the Agency for Healthcare Research and Quality (AHRQ).

## ***Summary of Findings Resulting in Opportunities for Improvement***

Although requests for second opinions are rare, **COA**'s communication with providers regarding second opinions could be improved. The provider manual informed providers that they may not charge members for helping to arrange for a second opinion. HSAG recommends that this language be revised to let providers know that members also may not be charged for provision of second opinions. This may be an important distinction given that BH services are capitated under the RAE contract. Even though there are no co-pays for BH services, best practice would be to ensure providers understand that billing may not occur under the unique circumstance to a second opinion. **COA** may also want to consider adding "at no cost" to the right to a second opinion on the rights list on the member rights section of its website (<https://www.coaccess.com/members/services/rights/>).

## ***Summary of Required Actions***

HSAG identified no required corrective actions related to the Access and Availability standard.

## **Standard VI—Grievances and Appeals**

NOTE: Federal requirements related to appeals apply only to RAE BH capitated services. The Department contract requires that regulations related to grievances apply to all RAE members.

## ***Summary of Strengths and Findings as Evidence of Compliance***

**COA** had a well-defined process in place to respond to Medicaid member grievances and appeals and assist members with accessing the State fair hearing process. Policies and procedures addressed all required regulations, contained accurate time frames, and generally were clear and concise. The software system used by **COA** included fields to capture the required reporting elements and date and time stamped the receipt and notification of grievances and appeals. During the on-site interview, **COA** reported a recent training initiative to ensure that the organization captures all expressions of dissatisfaction as grievances.

**COA** had an expedited review process in place and extended resolution time frames when needed to obtain additional information for resolving a grievance or appeal. On-site record reviews demonstrated that **COA** included as parties to the appeal the member and the member's authorized representatives and allowed providers, with written permission, to represent members in filing grievances and appeals. On-site record reviews also demonstrated that individuals who made decisions on grievances and appeals had not been involved in any previous level of review, and that individuals who made appeal decisions had the requisite clinical expertise in treating the member's condition. All appeals reviewed on-site were resolved, with notice provided to the members within the required time frames, whether expedited or standard resolutions. **COA** provided information about the Medicaid member grievance and appeal system to contracted providers via the provider manual and the **COA** website.

## *Summary of Findings Resulting in Opportunities for Improvement*

HSAG found that, in one appeal case, an acknowledgement letter was not sent due to a delay in the clinical appeals staff members receiving the appeal from the organization's mail room. HSAG recommends that **COA** develop a mechanism to effectively track appeals received throughout the organization.

During the on-site record review, HSAG found that appeal resolution letters were not consistently written at a reading level that would be easily understood by the member due to the medical opinion rendered by the physician being copied into the reason portion of the letter. Examples of words found in the appeal resolution letters included “hypothesized” and “elopement.” HSAG recommends that, if **COA** chooses to use the physician text in the letter, it follow with an explanation that may be more easily understood by the member.

## *Summary of Required Actions*

During the on-site grievance record review, HSAG found four cases that involved clinical issues—i.e., the member complained about the quality, type, or duration of care provided or that he/she did not receive the care he/she felt was needed—in which the individual who made the decision on the grievance was not an individual with clinical expertise in treating the member's condition. **COA** must develop a mechanism to ensure that grievances that involve clinical issues are sent, for resolution, to individuals with appropriate clinical expertise.

During the on-site record review, HSAG found that, in four cases, the grievance acknowledgement letter was not sent within the two-working day time frame (the number of days ranged from three to seven working days in these cases). **COA** must develop a mechanism to ensure that letters acknowledging grievances and appeals are sent to the member within the required two-working day time frame.

In one grievance record reviewed on-site, HSAG found that there was no grievance resolution letter in the file. **COA** must develop a mechanism to ensure that grievance resolution letters are sent to members within the required time frame.

While **COA** had a process to extend both grievances and appeals when needed, the grievance extension template letter did not include the member's right to file a grievance related to an extension of the time frame. **COA** must ensure that its grievance extension letter to the member includes the member's right to file a grievance if he or she disagrees with the extension.

For appeal resolutions not in favor of the members, **COA** used an attachment to the letter that explained both appeal and State fair hearing rights. As the member has at the point of appeal resolution exhausted **COA** internal appeal rights, it is inaccurate to include information in the appeal resolution letter that refers to the member's appeal rights. **COA** must revise its appeal resolution letter to ensure that only information pertaining to the member's right to a State fair hearing is included.

During the on-site record reviews, HSAG found that grievance and appeal resolution letters were not consistently written at a readability level easy for members to understand. COA must develop a mechanism to ensure that grievance and appeal resolution letters are written in language that may be easily understood by the average Medicaid member.

COA's *Member Appeal Process* policy depicted the process for members to request continuation of services following the appeal resolution; however, it did not include the process for initially requesting the continuation of services following the adverse benefit determination. COA must clarify the *Member Appeal Process* policy and any other applicable policies, procedures, and documents to accurately depict the member's right to request the continuations of benefits (services) during the appeal within 10 days following the adverse benefit determination—or before the intended effective date of the action—and again request continuation of the disputed services during the State fair hearing within 10 days following the notice of appeal resolution that is adverse to the member.

## 2. Overview and Background

### Overview of FY 2019–2020 Compliance Monitoring Activities

For the FY 2019–2020 site review process, the Department requested a review of three areas of performance. HSAG developed a review strategy and monitoring tools consisting of three standards for reviewing the performance areas chosen. The standards chosen were Standard I—Coverage and Authorization of Services; Standard II—Access and Availability; and Standard VI—Grievances and Appeals. Compliance with applicable federal managed care regulations and managed care contract requirements was evaluated through review of all three standards. In addition, the Department requested that HSAG conduct on-site group interviews with key RAE staff members to explore individual RAE experiences related to one focus topic. The focus topic chosen by the Department for 2019–2020 was *Region-specific Initiatives Related to the Health Neighborhood*.

### Compliance Monitoring Site Review Methodology

In developing the data collection tools and in reviewing documentation related to the three standards, HSAG used the RAE contract requirements and regulations specified by the federal Medicaid managed care regulations published May 6, 2016. HSAG assigned each requirement in the compliance monitoring tool a score of *Met*, *Partially Met*, *Not Met*, or *Not Applicable*. The Department determined that the review period was January 1, 2019, through December 31, 2019. HSAG conducted a desk review of materials submitted prior to the on-site review activities; a review of records, documents, and materials provided on-site; and on-site interviews of key RAE personnel to determine compliance with applicable federal managed care regulations and contract requirements. Documents submitted for the desk review and on-site review consisted of policies and procedures, staff training materials, reports, minutes of key committee meetings, member and provider informational materials, and administrative records related to each of denials of authorization, grievances, and appeals.

HSAG reviewed a sample of the RAE’s administrative records related to RAE denials of authorization, grievances, and appeals to evaluate implementation of applicable federal and State healthcare regulations. Reviewers used standardized monitoring tools to review records and document findings. HSAG used a sample of 10 records with an oversample of five records (to the extent that a sufficient number existed) for each of denials, grievances, and appeals. Using a random sampling technique, HSAG selected the samples from all RAE denial records, all grievance records, and all appeal records that occurred between January 1, 2019, and December 31, 2019. For the record review, the health plan received a score of M (*Met*), NM (*Not Met*), or NA (*Not Applicable*) for each required element. HSAG separately calculated a record review score for each record and an overall record review score. Results of record reviews were considered in the review of applicable requirements in Standard I—Coverage and Authorization of Services and Standard VI—Grievances and Appeals.

To facilitate the focus topic interviews, HSAG used a semi-structured qualitative interview methodology to explore with RAE staff members information pertaining to the Department's interests related to the focus topic selected. The qualitative interview process encourages interviewees to describe experiences, processes, and perceptions through open-ended discussions and is useful in analyzing system issues and associated outcomes. Focus topic discussions were not scored. HSAG and the Department collaborated to develop the *Focus Topic Interview Guide*. Appendix F contains the summarized results of the on-site focus topic interviews.

The site review processes were consistent with *EQR Protocol 1: Assessment of Compliance with Medicaid Managed Care Regulations: A Mandatory Protocol for External Quality Review (EQR)*, Version 2.0, September 2012.<sup>2-3</sup> Appendix E contains a detailed description of HSAG's site review activities consistent with those outlined in the CMS final protocol. The three standards chosen for the FY 2019–2020 site reviews represent a portion of the managed care requirements. The following standards will be reviewed in subsequent years: Standard III—Coordination and Continuity of Care, Standard IV—Member Rights and Protections, Standard V—Member Information, Standard VII—Provider Participation and Program Integrity, Standard VIII—Credentialing and Recredentialing, Standard IX—Subcontracts and Delegation, Standard X—Quality Assessment and Performance Improvement, and Standard XI—Early and Periodic Screening, Diagnostic, and Treatment.

## Objective of the Site Review

The objective of the site review was to provide meaningful information to the Department and the RAE regarding:

- The RAE's compliance with federal healthcare regulations and managed care contract requirements in the three areas selected for review.
- Strengths, opportunities for improvement, and actions required to bring the RAE into compliance with federal healthcare regulations and contract requirements in the standard areas reviewed.
- The quality and timeliness of, and access to, services furnished by the RAE, as assessed by the specific areas reviewed.
- Possible interventions recommended to improve the quality of the RAE's services related to the standard areas reviewed.
- Information related to the specific focus topic area to provide insight into statewide trends, progress, and challenges in implementing the RAE and ACC programs.

## 3. Follow-Up on Prior Year's Corrective Action Plan

### FY 2018–2019 Corrective Action Methodology

As a follow-up to the FY 2018–2019 site review, each RAE that received one or more *Partially Met* or *Not Met* scores was required to submit a corrective action plan (CAP) to the Department addressing those requirements found not to be fully compliant. If applicable, the RAE was required to describe planned interventions designed to achieve compliance with these requirements, anticipated training and follow-up activities, the timelines associated with the activities, and documents to be sent following completion of the planned interventions. HSAG reviewed the CAP and associated documents submitted by the RAE and determined whether it successfully completed each of the required actions. HSAG and the Department continued to work with **COA R3** until it completed each of the required actions from the FY 2018–2019 compliance monitoring site review.

### Summary of FY 2018–2019 Required Actions

For FY 2018–2019, HSAG reviewed Standard III—Coordination and Continuity of Care, Standard IV—Member Rights and Protections, Standard V—Member Information, and Standard XI—Early and Periodic Screening, Diagnostic, and Treatment (EPSDT) Services.

Related to member information, **COA R3** was required to ensure that information on its website includes updated and correct information regarding appeals procedures.

Related to EPSDT services, **COA R3** was required to expedite the planning and implementation process with the Tri-County Healthy Communities contractor to create an annual plan for onboarding of Medicaid children and families.

### Summary of Corrective Action/Document Review

**COA R3** submitted a proposed CAP in June 2019. HSAG and the Department reviewed and approved the proposed plan and responded to **COA R3**. **COA R3** submitted initial documents as evidence of completion in September 2019. HSAG and the Department reviewed and approved **COA R3**'s documents submitted as evidence of completion and responded to **COA R3** in October 2019.

### Summary of Continued Required Actions

**COA R3** successfully completed the FY 2018–2019 CAP, resulting in no continued corrective actions.

<p align="right"><i>42 CFR 438.404(c)</i></p> <p>Contract: Exhibit B-2—8.6.3.1, 8.6.5–8.6.8 10 CCR 2505-10 8.209.4.A.3</p>		
<p><b>Findings:</b> COA’s <i>UR Determinations</i> policy addressed all required time frames for mailing the NABD to the member. However, the formatting of the information in the policy (section 7.A) resulted in inaccurate information regarding required time frames. Specifically, several of the above time frames (bullets 2 through 5 of the requirement) were listed as <i>exceptions</i> to the time frame for notice of reduction or termination of previously authorized services. These required time frames are independent requirements applicable to all NABDs, not related to previously authorized services. In addition, COA sent no notice to members regarding denial of a claim; therefore, seven of 10 RAE Region 3 denial record reviews (related to claims) were scored <i>Not Met</i> for “notice sent within required time frame.”</p>		
<p><b>Required Actions:</b> COA must correct information in its <i>UR Determinations</i> policy to accurately address all required time frames for mailing the NABD to the member. COA must also ensure that RAE members receive written notification of any decision to deny a service, including denial or partial denial of a claim, and that the NABD regarding denial of payment is sent at the time of any denial affecting the claim.</p>		
<p>19. For reduction, suspension, or termination of a previously authorized Medicaid-covered service, the Contractor gives notice at least ten (10) days before the intended effective date of the proposed adverse benefit determination except:</p> <ul style="list-style-type: none"> <li>• The Contractor gives notice on or before the intended effective date of the proposed adverse benefit determination if: <ul style="list-style-type: none"> <li>– The Agency has factual information confirming the death of a member.</li> <li>– The Agency receives a clear written statement signed by the member that he/she no longer wishes services or gives information that requires termination or reduction of services and indicates that he/she understands that this must be the result of supplying that information.</li> </ul> </li> </ul>	<p><b>Both R3 and R5:</b></p> <ul style="list-style-type: none"> <li>• CCS307 Utilization Review Determination <ul style="list-style-type: none"> <li>○ Section 7.A.c 1-8</li> </ul> </li> </ul> <p><b>R3-specific:</b></p> <ul style="list-style-type: none"> <li>• NA</li> </ul> <p><b>R5-specific:</b></p> <ul style="list-style-type: none"> <li>• NA</li> </ul>	<input type="checkbox"/> Met <input checked="" type="checkbox"/> Partially Met <input type="checkbox"/> Not Met <input type="checkbox"/> N/A

## Appendix B. Colorado Department of Health Care Policy and Financing FY 2019–2020 Denials Record Review Tool for Colorado Access (Region 3)

### Comments:

**File 1:** This was a claims denial. Per internal policy, all claims are processed within 30 days. For all claims denials, COA sent notice only to the provider in the weekly remittance report. No NABD was sent to the member; therefore, all requirements related to the member NABD—i.e. notice sent to member, sent in required time frame, included required content, and correspondence easy to understand—were scored *Not Met*. Claim was denied due to no prior authorization for inpatient medical stay and should have been billed to the Department (fee-for-service).

**File 2:** This new service request was submitted with no clinical information included and by an out-of-network provider. COA contacted the provider to request required clinical information and extended the decision. However, no additional information was ever received and the request was denied. The notice was sent in 10 days plus 11 extension days.

**File 3:** This was a claims denial. Per internal policy, all claims are processed within 30 days. For all claims denials, COA sent notice only to the provider in the weekly remittance report. No NABD was sent to the member; therefore, all requirements related to the member NABD—i.e., notice sent to member, sent in required time frame, included required content, and correspondence easy to understand—were scored *Not Met*. Claim was denied because provider was not a validated Medicaid provider.

**File 4:** OMIT—This member was hospitalized for an approved three-day inpatient stay. The request for continued inpatient stay was submitted, then rescinded by the provider because the member was discharged the same day. No denial was processed; therefore, the file was omitted.

**File 5:** This was a claims denial. Per internal policy, all claims are processed within 30 days. For all claims denials, COA sent notice only to the provider in the weekly remittance report. No NABD was sent to the member; therefore, all requirements related to the member NABD—i.e. notice sent to member, sent in required time frame, included required content, and correspondence easy to understand—were scored *Not Met*. Claim was denied because provider was not a validated Medicaid provider.

## Appendix B. Colorado Department of Health Care Policy and Financing FY 2019–2020 Denials Record Review Tool for Colorado Access (Region 3)

### Comments:

**File 6:** The initial request was approved for a three-day inpatient stay, but additional days were subsequently denied based on additional information received. Initial requests and NABDs are date- and time-stamped in the utilization review database.

**Files 7 through 10:** These were claims denials. Per internal policy, all claims are processed within 30 days. For all claims denials, COA sent notice only to the provider in the weekly remittance report. No NABD was sent to the member; therefore, all requirements related to the member NABD—i.e., notice sent to member, sent in required time frame, included required content, and correspondence easy to understand—were scored *Not Met*.

**Appendix B. Colorado Department of Health Care Policy and Financing  
FY 2019–2020 Denials Record Review Tool  
for Colorado Access (Region 3)**

**Comments:**

**File OS 1: OMIT**—This member was hospitalized for an approved inpatient stay. The request for continued inpatient stay was not processed because the member was discharged before the denial. No denial was processed; therefore, the file was omitted.

**File OS 2:** This was a concurrent review of inpatient stay. Per internal policy, concurrent review decisions are made within 24 hours of request. The member was initially approved for inpatient service through March 14, 2019. Request for one additional day was submitted on March 15, 2019, and denied on March 15, 2019. The member was discharged on March 16, 2019.

<b>Total Record Review Score*</b>	<b>Total Applicable Elements: 56</b>	<b>Total Met Elements: 28</b>	<b>Total Record Review Score: 50%</b>
-----------------------------------	--	-----------------------------------	---

\* Only requirements with an “\*” in the tool were used to calculate the score. The total record review score is calculated by adding the total number of *Met* elements and dividing by the total number of applicable elements.

## Appendix B. Colorado Department of Health Care Policy and Financing FY 2019–2020 Grievance Record Review Tool for Colorado Access (Region 3)

File #	Member ID #	Date Grievance Received	Acknowledgement Sent Within 2 Working Days	Date of Written Disposition	# of Days to Notice	Resolved and Notice Sent in Time Frame*	Decision Maker Not Previous Level	Appropriate Level of Expertise (If Clinical)	Resolution Letter Includes Required Content**	Resolution Letter Easy to Understand
1	****	1/11/19	M <input checked="" type="checkbox"/> N <input type="checkbox"/> N/A <input type="checkbox"/>	1/21/19	6w	M <input checked="" type="checkbox"/> N <input type="checkbox"/>	M <input type="checkbox"/> N <input type="checkbox"/> N/A <input checked="" type="checkbox"/>	M <input type="checkbox"/> N <input type="checkbox"/> N/A <input checked="" type="checkbox"/>	M <input checked="" type="checkbox"/> N <input type="checkbox"/> N/A <input type="checkbox"/>	M <input type="checkbox"/> N <input checked="" type="checkbox"/> N/A <input type="checkbox"/>
<b>Comments:</b> The member grieved about poor customer service and being put on hold four times. The resolution letter was written at a reading level well above sixth grade.										
2	****	2/6/19	M <input checked="" type="checkbox"/> N <input type="checkbox"/> N/A <input type="checkbox"/>	2/18/19	8w	M <input checked="" type="checkbox"/> N <input type="checkbox"/>	M <input type="checkbox"/> N <input type="checkbox"/> N/A <input checked="" type="checkbox"/>	M <input type="checkbox"/> N <input checked="" type="checkbox"/> N/A <input type="checkbox"/>	M <input checked="" type="checkbox"/> N <input type="checkbox"/> N/A <input type="checkbox"/>	M <input type="checkbox"/> N <input checked="" type="checkbox"/> N/A <input type="checkbox"/>
<b>Comments:</b> The member's parent grieved about bad treatment, medical bias, and the refusal of a residential mental health center to treat their child. The customer service manager at COA made the resolution decision. Since this grievance involved clinical issues, the grievance should have been reviewed by an individual with clinical expertise. The resolution letter was written at a reading level well above sixth grade.										
3	****	3/21/19	M <input type="checkbox"/> N <input checked="" type="checkbox"/> N/A <input type="checkbox"/>	4/23/19	13w + 14c	M <input checked="" type="checkbox"/> N <input type="checkbox"/>	M <input type="checkbox"/> N <input type="checkbox"/> N/A <input checked="" type="checkbox"/>	M <input checked="" type="checkbox"/> N <input type="checkbox"/> N/A <input type="checkbox"/>	M <input checked="" type="checkbox"/> N <input type="checkbox"/> N/A <input type="checkbox"/>	M <input type="checkbox"/> N <input checked="" type="checkbox"/> N/A <input type="checkbox"/>
<b>Comments:</b> COA acknowledged the grievance in three working days. The member grieved about being denied a genioplasty by their provider (which was a prior insurer—not COA). The grievance resolution was extended. The resolution letter was written at a reading level well above sixth grade.										
4	****	5/31/19	M <input type="checkbox"/> N <input checked="" type="checkbox"/> N/A <input type="checkbox"/>	6/18/19	12w	M <input checked="" type="checkbox"/> N <input type="checkbox"/>	M <input type="checkbox"/> N <input type="checkbox"/> N/A <input checked="" type="checkbox"/>	M <input type="checkbox"/> N <input checked="" type="checkbox"/> N/A <input type="checkbox"/>	M <input checked="" type="checkbox"/> N <input type="checkbox"/> N/A <input type="checkbox"/>	M <input type="checkbox"/> N <input checked="" type="checkbox"/> N/A <input type="checkbox"/>
<b>Comments:</b> COA acknowledged the grievance in seven working days. The member's parent grieved about their child being given medications that caused seizures while in inpatient. The care manager at COA made the resolution decision. Since this was a grievance regarding a clinical issue, it should have been reviewed by an individual with clinical expertise in treating the member's condition. The resolution letter was written at a reading level well above sixth grade.										
5	****	6/7/19	M <input checked="" type="checkbox"/> N <input type="checkbox"/> N/A <input type="checkbox"/>	6/27/19	14w	M <input checked="" type="checkbox"/> N <input type="checkbox"/>	M <input type="checkbox"/> N <input type="checkbox"/> N/A <input checked="" type="checkbox"/>	M <input type="checkbox"/> N <input checked="" type="checkbox"/> N/A <input type="checkbox"/>	M <input checked="" type="checkbox"/> N <input type="checkbox"/> N/A <input type="checkbox"/>	M <input type="checkbox"/> N <input checked="" type="checkbox"/> N/A <input type="checkbox"/>
<b>Comments:</b> The member grieved about not receiving prescribed medications from a pain management provider. The grievance coordinator made the resolution decision. Since this grievance was a clinical issue, it should have been reviewed by an individual with clinical expertise in treating the member's condition. The resolution letter was written at a reading level well above sixth grade.										
6	****	6/28/19	M <input checked="" type="checkbox"/> N <input type="checkbox"/> N/A <input type="checkbox"/>	7/17/19	13w	M <input checked="" type="checkbox"/> N <input type="checkbox"/>	M <input type="checkbox"/> N <input type="checkbox"/> N/A <input checked="" type="checkbox"/>	M <input type="checkbox"/> N <input type="checkbox"/> N/A <input checked="" type="checkbox"/>	M <input checked="" type="checkbox"/> N <input type="checkbox"/> N/A <input type="checkbox"/>	M <input type="checkbox"/> N <input checked="" type="checkbox"/> N/A <input type="checkbox"/>
<b>Comments:</b> The member's parent grieved about protected health information (PHI) disclosure when their medications were announced aloud in the waiting room. The resolution letter was written at a reading level well above sixth grade.

## Appendix B. Colorado Department of Health Care Policy and Financing FY 2019–2020 Appeals Record Review Tool for Colorado Access (Region 3)

<b>Review Period:</b>	January 1, 2019–December 31, 2019
<b>Date of Review:</b>	February 4, 2020
<b>Reviewer:</b>	Barbara McConnell
<b>Participating Health Plan Staff Member(s):</b>	Christine Gillaspie

1	2	3	4	5	6	7	8	9	10	11	12
File #	Member ID #	Date Appeal Received	Acknowledgment Sent Within 2 Working Days	Decision Maker Not Previous Level	Decision Maker Has Clinical Expertise	Expedited	Time Frame Extended	Date Resolution Letter Sent	Notice Sent Within Time Frame*	Resolution Letter Includes Required Content**	Resolution Letter Easy to Understand
1	****		M <input type="checkbox"/> N <input type="checkbox"/> N/A <input type="checkbox"/>	M <input type="checkbox"/> N <input type="checkbox"/>	M <input type="checkbox"/> N <input type="checkbox"/>	Yes <input type="checkbox"/> No <input type="checkbox"/>	Yes <input type="checkbox"/> No <input type="checkbox"/>		M <input type="checkbox"/> N <input type="checkbox"/>	M <input type="checkbox"/> N <input type="checkbox"/>	M <input type="checkbox"/> N <input type="checkbox"/>
<b>Comments:</b> This was an administrative denial of a claim due to the member not showing as eligible during the date of service. As this member received retroactive eligibility, the provider later resubmitted the claim. This case was not reviewed and replaced by an oversample case.											
2	****	1/23/19	M <input checked="" type="checkbox"/> N <input type="checkbox"/> N/A <input type="checkbox"/>	M <input checked="" type="checkbox"/> N <input type="checkbox"/>	M <input checked="" type="checkbox"/> N <input type="checkbox"/>	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>	2/5/20	M <input checked="" type="checkbox"/> N <input type="checkbox"/>	M <input type="checkbox"/> N <input checked="" type="checkbox"/>	M <input checked="" type="checkbox"/> N <input type="checkbox"/>
<b>Comments:</b> The provider filed the appeal of a denial of a request for psychological testing related to a diagnosis of developmental disability. The appeal was overturned. The attachment to the appeal resolution letter inaccurately informed members that they may file an “appeal, a quick appeal, or a State fair hearing.” At the point the member is receiving an appeal resolution letter, the member’s appeal rights are exhausted and the only option at that point is a State fair hearing (SFH).											
3	****	2/26/19	M <input type="checkbox"/> N <input type="checkbox"/> N/A <input checked="" type="checkbox"/>	M <input checked="" type="checkbox"/> N <input type="checkbox"/>	M <input checked="" type="checkbox"/> N <input type="checkbox"/>	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/>	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>	2/27/19	M <input checked="" type="checkbox"/> N <input type="checkbox"/>	M <input type="checkbox"/> N <input checked="" type="checkbox"/>	M <input checked="" type="checkbox"/> N <input type="checkbox"/>
<b>Comments:</b> This was an expedited appeal. No acknowledgment letter was required. The system used time stamps to ensure expedited decisions were made and notice was provided within the 72-hour time frame. This was a request for behavioral health day treatment. The denial was overturned. The attachment to the appeal resolution letter inaccurately informed members that they may file an “appeal, a quick appeal, or a State fair hearing.” At the point the member is receiving an appeal resolution letter, the member’s appeal rights are exhausted and the only option at that point is an SFH.											
4	****	3/28/19	M <input checked="" type="checkbox"/> N <input type="checkbox"/> N/A <input type="checkbox"/>	M <input checked="" type="checkbox"/> N <input type="checkbox"/>	M <input checked="" type="checkbox"/> N <input type="checkbox"/>	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/>	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>	3/31/19	M <input checked="" type="checkbox"/> N <input type="checkbox"/>	M <input type="checkbox"/> N <input checked="" type="checkbox"/>	M <input checked="" type="checkbox"/> N <input type="checkbox"/>
<b>Comments:</b> This was an expedited request for continued inpatient stay. An acknowledgement letter was sent although not required. The system used time stamps to ensure the decision was made with notice provided within the 72-hour time frame. The attachment to the appeal resolution letter inaccurately informed members that they may file an “appeal, a quick appeal, or a State fair hearing.” At the point the member is receiving an appeal resolution letter, the member’s appeal rights are exhausted and the only option at that point is an SFH.											
5	****	4/26/19	M <input type="checkbox"/> N <input type="checkbox"/> N/A <input checked="" type="checkbox"/>	M <input checked="" type="checkbox"/> N <input type="checkbox"/>	M <input checked="" type="checkbox"/> N <input type="checkbox"/>	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/>	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>	4/29/19	M <input checked="" type="checkbox"/> N <input type="checkbox"/>	M <input type="checkbox"/> N <input checked="" type="checkbox"/>	M <input type="checkbox"/> N <input checked="" type="checkbox"/>
<b>Comments:</b> This was an expedited appeal. No acknowledgement letter was required. The system used time stamps to ensure the expedited decision and notice were provided within the 72-hour time frame. The resolution letter was above a sixth-grade reading level as it contained words such as “hypothesized” and “elopement.” The attachment to the appeal resolution letter inaccurately informed members that they may file an “appeal, a quick appeal, or a State fair hearing.” At the point the member is receiving an appeal resolution letter, the member’s appeal rights are exhausted and the only option at that point is an SFH.											
6	****	6/28/19	M <input type="checkbox"/> N <input type="checkbox"/> N/A <input checked="" type="checkbox"/>	M <input checked="" type="checkbox"/> N <input type="checkbox"/>	M <input checked="" type="checkbox"/> N <input type="checkbox"/>	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/>	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>	7/2/19	M <input checked="" type="checkbox"/> N <input type="checkbox"/>	M <input type="checkbox"/> N <input checked="" type="checkbox"/>	M <input checked="" type="checkbox"/> N <input type="checkbox"/>
<b>Comments:</b> This was an expedited appeal. No acknowledgement letter was required. The system used time stamps to ensure the expedited decision and notice were provided within the 72-hour time frame. The attachment to the appeal resolution letter inaccurately informed members that they may file an “appeal, a quick appeal, or a State fair hearing.” At the point the member is receiving an appeal resolution letter, the member’s appeal rights are exhausted and the only option at that point is an SFH.											

## Appendix B. Colorado Department of Health Care Policy and Financing FY 2019–2020 Appeals Record Review Tool for Colorado Access (Region 3)

1	2	3	4	5	6	7	8	9	10	11	12

7	****	7/22/19	M <input type="checkbox"/> N <input type="checkbox"/> N/A <input checked="" type="checkbox"/>	M <input checked="" type="checkbox"/> N <input type="checkbox"/>	M <input checked="" type="checkbox"/> N <input type="checkbox"/>	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/>	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>	7/23/19	M <input checked="" type="checkbox"/> N <input type="checkbox"/>	M <input type="checkbox"/> N <input checked="" type="checkbox"/>	M <input type="checkbox"/> N <input checked="" type="checkbox"/>
<p><b>Comments:</b> This was an expedited appeal. No acknowledgement letter was required. This was a denial for intensive outpatient treatment for substance use disorder (SUD). The letter was not easy to understand and may have been difficult information for a member to receive. The letter stated that an additional treatment team was not recommended due to the potential for “splitting behavior” and “regression.” The attachment to the appeal resolution letter inaccurately informed members that they may file an “appeal, a quick appeal, or a State fair hearing.” At the point the member is receiving an appeal resolution letter, the member’s appeal rights are exhausted and the only option at that point is an SFH.</p>											
8	****		M <input type="checkbox"/> N <input type="checkbox"/> N/A <input type="checkbox"/>	M <input type="checkbox"/> N <input type="checkbox"/>	M <input type="checkbox"/> N <input type="checkbox"/>	Yes <input type="checkbox"/> No <input type="checkbox"/>	Yes <input type="checkbox"/> No <input type="checkbox"/>		M <input type="checkbox"/> N <input type="checkbox"/>	M <input type="checkbox"/> N <input type="checkbox"/>	M <input type="checkbox"/> N <input type="checkbox"/>
<p><b>Comments:</b> This case was removed from the sample. The appeal was not filed within the review period.</p>											
9	****		M <input type="checkbox"/> N <input type="checkbox"/> N/A <input type="checkbox"/>	M <input type="checkbox"/> N <input type="checkbox"/>	M <input type="checkbox"/> N <input type="checkbox"/>	Yes <input type="checkbox"/> No <input type="checkbox"/>	Yes <input type="checkbox"/> No <input type="checkbox"/>		M <input type="checkbox"/> N <input type="checkbox"/>	M <input type="checkbox"/> N <input type="checkbox"/>	M <input type="checkbox"/> N <input type="checkbox"/>
<p><b>Comments:</b> This was not a clinical appeal and was removed from the sample.</p>											
10	****		M <input type="checkbox"/> N <input type="checkbox"/> N/A <input type="checkbox"/>	M <input type="checkbox"/> N <input type="checkbox"/>	M <input type="checkbox"/> N <input type="checkbox"/>	Yes <input type="checkbox"/> No <input type="checkbox"/>	Yes <input type="checkbox"/> No <input type="checkbox"/>		M <input type="checkbox"/> N <input type="checkbox"/>	M <input type="checkbox"/> N <input type="checkbox"/>	M <input type="checkbox"/> N <input type="checkbox"/>
<p><b>Comments:</b> This was not a clinical appeal and was removed from the sample.</p>											
OS1	****	3/22/19	M <input checked="" type="checkbox"/> N <input type="checkbox"/> N/A <input type="checkbox"/>	M <input checked="" type="checkbox"/> N <input type="checkbox"/>	M <input checked="" type="checkbox"/> N <input type="checkbox"/>	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>	4/1/19	M <input checked="" type="checkbox"/> N <input type="checkbox"/>	M <input type="checkbox"/> N <input checked="" type="checkbox"/>	M <input checked="" type="checkbox"/> N <input type="checkbox"/>
<p><b>Comments:</b> This was an appeal of a denied request for long-term residential treatment. The appeal was upheld; however, the case was sent to the Office of Behavioral Health (OBH) for review. The OBH consultant recommended the treatment. COA then opened a new request and approved the treatment. The attachment to the appeal resolution letter inaccurately informed members that they may file an “appeal, a quick appeal, or a State fair hearing.” At the point the member is receiving an appeal resolution letter, the member’s appeal rights are exhausted and the only option at that point is an SFH.</p>											
OS2	****	5/8/19	M <input type="checkbox"/> N <input checked="" type="checkbox"/> N/A <input type="checkbox"/>	M <input checked="" type="checkbox"/> N <input type="checkbox"/>	M <input checked="" type="checkbox"/> N <input type="checkbox"/>	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>	5/18/19	M <input checked="" type="checkbox"/> N <input type="checkbox"/>	M <input type="checkbox"/> N <input checked="" type="checkbox"/>	M <input checked="" type="checkbox"/> N <input type="checkbox"/>
<p><b>Comments:</b> This appeal was received by the mail room of COA and date stamped May 8, 2019. The clinical appeal department did not receive it until May 18, 2019. At that point, the appeals staff member expedited review to ensure a decision and notice within the 10-working day time frame for standard appeals. No acknowledgement letter was sent. The attachment to the appeal resolution letter inaccurately informed members that they may file an “appeal, a quick appeal, or a State fair hearing.” At the point the member is receiving an appeal resolution letter, the member’s appeal rights are exhausted and the only option at that point is an SFH.</p>

## Appendix C. Site Review Participants

Table C-1 lists the participants in the FY 2019–2020 site review of COA.

**Table C-1—HSAG Reviewers and COA and Department Participants**

HSAG Review Team	Title
Barbara McConnell	Executive Director
Katherine Bartilotta	Associate Director
COA Participants	Title
Aaron Brotherson	Director of Provider Relations
Amanda Fitzsimons	Senior Privacy Analyst
Bethany Himes	Vice President of Provider Engagement
Christine E. Gillaspie	Manager of Physical Health Utilization Management
Eileen Barker	Senior Director of Behavioral Health
Elise Cooper	Senior Practice Facilitator
Elizabeth Strammio	Chief Compliance Officer
George Roupas	Manager of Telehealth Programs
Janet Milliman	Director of CHP+ Payment Reform
Jason Smith	Senior Provider Contract Manager
Joseph Anderson	Director of Care Management
Josette Hizon	Behavioral Health Utilization Management Supervisor
Kelly Marshall	Director of Community and External Relations
Kevin Lawrence	Claims Operations Supervisor
Krista Beckwith	Senior Director of Population Health and Quality
Lindsay Cowee	Director of Utilization Management and Pharmacy
Lisa Steller	Behavioral Health Utilization Management Supervisor
Marty Janssen	Senior Program Director
Michelle Tomsche	Director of Claims Operations
Mika Gans	Senior Manager of Quality
Reyna Garcia	Senior Director of Customer Service
Sarah Knause	Program Manager, CHP+
Shelby Kiernan	Director of Practice Support and Integration
Thomas Freunt	Supervisor of Utilization Management
Department Observers	Title
Elizabeth Mattes	Program Coordinator—HCPF
Jeff Appleman	Program Specialist—HCPF

## Appendix D. Corrective Action Plan Template for FY 2019–2020

If applicable, the RAE is required to submit a CAP to the Department for all elements within each standard scored as *Partially Met* or *Not Met*. The CAP must be submitted within 30 days of receipt of the final report. For each required action, the RAE should identify the planned interventions and complete the attached CAP template. Supporting documents should not be submitted and will not be considered until the CAP has been approved by the Department. Following Department approval, the RAE must submit documents based on the approved timeline.

**Table D-1—Corrective Action Plan Process**

Step	Action
<b>Step 1</b>	<b>Corrective action plans are submitted</b>
	<p>If applicable, the RAE will submit a CAP to HSAG and the Department within 30 calendar days of receipt of the final compliance site review report via email or through the file transfer protocol (FTP) site, with an email notification to HSAG and the Department. The RAE must submit the CAP using the template provided.</p> <p>For each element receiving a score of <i>Partially Met</i> or <i>Not Met</i>, the CAP must describe interventions designed to achieve compliance with the specified requirements, the timelines associated with these activities, anticipated training and follow-up activities, and documents to be sent following the completion of the planned interventions.</p>
<b>Step 2</b>	<b>Prior approval for timelines exceeding 30 days</b>
	If the RAE is unable to submit the CAP (plan only) within 30 calendar days following receipt of the final report, it must obtain prior approval from the Department in writing.
<b>Step 3</b>	<b>Department approval</b>
	<p>Following review of the CAP, the Department and HSAG will:</p> <ul style="list-style-type: none"> <li>• Approve the planned interventions and instruct the RAE to proceed with implementation, or</li> <li>• Instruct the RAE to revise specific planned interventions and/or documents to be submitted as evidence of completion and <u>also</u> to proceed with implementation.</li> </ul>
<b>Step 4</b>	<b>Documentation substantiating implementation</b>
	Once the RAE has received Department approval of the CAP, the RAE will have a time frame of 90 days (three months) to complete proposed actions and submit documents. The RAE will submit documents as evidence of completion one time only on or before the three-month deadline for all required actions in the CAP. (If necessary, the RAE will describe in the CAP document any revisions to the planned interventions that were required in the initial CAP approval document or determined by the RAE within the intervening time frame.) If the RAE is unable to submit documents of completion for any required action on or before the three-month deadline, it must obtain approval in writing from the Department to extend the deadline.

Step	Action
<b>Step 5</b>	<b>Technical Assistance</b>
	At the RAE’s request, HSAG will schedule an interactive, verbal consultation and technical assistance session during the three-month time frame. The session may be scheduled at the RAE’s discretion at any time the RAE determines would be most beneficial. HSAG will not document results of the verbal consultation in the CAP document.
<b>Step 6</b>	<b>Review and completion</b>
	Following a review of the CAP and all supporting documentation, the Department or HSAG will inform the RAE as to whether or not the documentation is sufficient to demonstrate completion of all required actions and compliance with the related contract requirements. Any documentation that is considered unsatisfactory to complete the CAP requirements at the three-month deadline will result in a continued corrective action with a new date for completion established by the Department. HSAG will continue to work with the RAE until all required actions are satisfactorily completed.

The CAP template follows.

**Table D-2—FY 2019–2020 Corrective Action Plan for COA R3**

Standard I—Coverage and Authorization of Services		
Requirement	Findings	Required Action
<p>12. The Contractor notifies the requesting provider and gives the member written notice of any decision by the Contractor to deny a service authorization request, or to authorize a service in an amount, duration, or scope that is less than requested.</p> <p style="text-align: right;"><i>42 CFR 438.210(c)</i></p> <p>Contract: Exhibit B-2—8.6.1 10 CCR 2505-10 8.209.4.A.1</p>	<p>COA’s <i>UR Determinations</i> policy specified that written notice would be sent to the member and provider. Denial record reviews demonstrated that members and providers were notified in writing of adverse benefit determinations made by UM. However, NABDs for claims denials were sent only to the provider. No NABD was sent to the member regarding a claims denial; therefore, seven of 10 RAE Region 3 denial record reviews (related to claims) were scored <i>Not Met</i> for “notice sent to provider and member.”</p>	<p>COA must ensure that RAE members receive written notification of any decision to deny a service, including denial or partial denial of a claim.</p>
<b>Planned Interventions:</b>		
<b>Person(s)/Committee(s) Responsible and Anticipated Completion Date:</b>		
<b>Training Required:</b>		
<b>Monitoring and Follow-Up Planned:</b>		
<b>Documents to be Submitted as Evidence of Completion:</b>		

Standard I—Coverage and Authorization of Services		
Requirement	Findings	Required Action
<p>15. The notice of adverse benefit determination must be written in language easy to understand, available in prevalent non-English languages in the region, and available in alternative formats for persons with special needs.</p> <p style="text-align: right;"><i>42 CFR 438.404(a)</i> <i>42 CFR 438.10 (c)</i></p> <p>Contract: Exhibit B-2—8.6.1–8.6.1.4 10 CCR 2505-10 8.209.4.A.1</p>	<p>COA demonstrated that the RAE NABDs used for UM denials were written in language easy to understand and informed the member of the availability of the notice in other languages and alternative formats. However, COA sent no notice to members regarding denial of a claim; therefore, seven of 10 RAE Region 3 denial record reviews (related to claims) were scored <i>Not Met</i> for “correspondence with the member was easy to understand.”</p>	<p>COA must ensure that RAE members receive written notification of any decision to deny a service, including denial or partial denial of a claim. COA must ensure that the NABD regarding a claim is written in language that is easy for the member to understand.</p>
<b>Planned Interventions:</b>		
<b>Person(s)/Committee(s) Responsible and Anticipated Completion Date:</b>		
<b>Training Required:</b>		
<b>Monitoring and Follow-Up Planned:</b>		
<b>Documents to be Submitted as Evidence of Completion:</b>		

Standard I—Coverage and Authorization of Services		
Requirement	Findings	Required Action
<p>16. The notice of adverse benefit determination must explain the following:</p> <ul style="list-style-type: none"> <li>• The adverse benefit determination the Contractor has made or intends to make.</li> <li>• The reasons for the adverse benefit determination, including the right of the member to be provided upon request (and free of charge), reasonable access to and copies of all documents and records relevant to the adverse benefit determination (includes medical necessity criteria and strategies, evidentiary standards, or processes used in setting coverage limits).</li> <li>• The member’s right to request one level of appeal with the Contractor and the procedures for doing so.</li> <li>• The date the appeal is due.</li> <li>• The member’s right to request a State fair hearing after receiving an appeal resolution notice from the Contractor that the adverse benefit determination is upheld.</li> <li>• The procedures for exercising the right to request a State fair hearing.</li> </ul>	<p>COA demonstrated that the RAE NABDs used for UM denials included all required content. However, COA sent no notice to members regarding denial of a claim; therefore, seven of 10 RAE Region 3 denial record reviews (related to claims) were scored <i>Not Met</i> for “notice includes required content.”</p>	<p>COA must ensure that RAE members receive written notification of any decision to deny a service, including denial or partial denial of a claim. COA must ensure that the NABD regarding a claim includes all required content.</p>

Standard I—Coverage and Authorization of Services		
Requirement	Findings	Required Action
<ul style="list-style-type: none"> <li>The circumstances under which an appeal process can be expedited and how to make this request.</li> <li>The member’s rights to have benefits/services continue (if applicable) pending the resolution of the appeal, how to request that benefits continue, and the circumstances (consistent with State policy) under which the member may be required to pay the cost of these services.</li> </ul> <p style="text-align: right;"><i>42 CFR 438.404(b)(1–6)</i></p> <p>Contract: Exhibit B-2—8.6.1.5–8.6.1.12 10 CCR 2505-10 8.209.4.A.2</p>		
<b>Planned Interventions:</b>		
<b>Person(s)/Committee(s) Responsible and Anticipated Completion Date:</b>		
<b>Training Required:</b>		
<b>Monitoring and Follow-Up Planned:</b>		
<b>Documents to be Submitted as Evidence of Completion:</b>		

Standard I—Coverage and Authorization of Services		
Requirement	Findings	Required Action
<p>18. The Contractor mails the notice of adverse benefit determination within the following time frames:</p> <ul style="list-style-type: none"> <li>• For termination, suspension, or reduction of previously authorized Medicaid-covered services, as defined in 42 CFR 431.211, 431.213 and 431.214 (see below).</li> <li>• For denial of payment, at the time of any denial affecting the claim.</li> <li>• For standard service authorization decisions that deny or limit services, within 10 calendar days following the receipt of the request for service.</li> <li>• For expedited service authorization decisions, within 72 hours after receipt of the request for service.</li> <li>• For extended service authorization decisions, no later than the date the extension expires.</li> <li>• For service authorization decisions not reached within the required time frames, on the date the time frames expire.</li> </ul> <p style="text-align: right;"><i>42 CFR 438.404(c)</i></p> <p>Contract: Exhibit B-2—8.6.3.1, 8.6.5–8.6.8 10 CCR 2505-10 8.209.4.A.3</p>	<p>COA’s <i>UR Determinations</i> policy addressed all required time frames for mailing the NABD to the member. However, the formatting of the information in the policy resulted in inaccurate information regarding required time frames. Specifically, several of the time frames (bullets 2 through 5 of the requirement) were listed as <i>exceptions</i> to the time frame for notice of reduction or termination of previously authorized services. In addition, COA sent no notice to members regarding denial of a claim; therefore, seven of 10 RAE Region 3 denial record reviews (related to claims) were scored <i>Not Met</i> for “notice sent within required time frame.”</p>	<p>COA must correct information in its <i>UR Determinations</i> policy to accurately address all required time frames for mailing the NABD to the member. COA must also ensure that RAE members receive written notification of any decision to deny a service, including denial or partial denial of a claim, and that the NABD regarding denial of payment is sent at the time of any denial affecting the claim.</p>

## Appendix E. Compliance Monitoring Review Protocol Activities

The following table describes the activities performed throughout the compliance monitoring process. The activities listed below are consistent with CMS’ *EQR Protocol 1: Assessment of Compliance with Medicaid Managed Care Regulations: A Mandatory Protocol for External Quality Review (EQR)*, Version 2.0, September 2012.

**Table E-1—Compliance Monitoring Review Activities Performed**

For this step,	HSAG completed the following activities:
<b>Activity 1:</b>	<b>Establish Compliance Thresholds</b>
	<p>Before the site review to assess compliance with federal managed care regulations and contract requirements:</p> <ul style="list-style-type: none"> <li>HSAG and the Department participated in meetings and held teleconferences to determine the timing and scope of the reviews, as well as scoring strategies.</li> <li>HSAG collaborated with the Department to develop monitoring tools, record review tools, report templates, on-site agendas; and set review dates.</li> <li>HSAG submitted all materials to the Department for review and approval.</li> <li>HSAG conducted training for all site reviewers to ensure consistency in scoring across plans.</li> </ul>
<b>Activity 2:</b>	<b>Perform Preliminary Review</b>
	<ul style="list-style-type: none"> <li>HSAG attended the Department’s Integrated Quality Improvement Committee (IQuIC) meetings and provided group technical assistance and training, as needed.</li> <li>Sixty days prior to the scheduled date of the on-site portion of the review, HSAG notified the RAE in writing of the request for desk review documents via email delivery of the desk review form, the compliance monitoring tool, and an on-site agenda. The desk review request included instructions for organizing and preparing the documents related to the review of the three standards and on-site activities. Thirty days prior to the review, the RAE provided documentation for the desk review, as requested.</li> <li>Documents submitted for the desk review and on-site review consisted of the completed desk review form, the compliance monitoring tool with the RAE’s section completed, policies and procedures, staff training materials, administrative records, reports, minutes of key committee meetings, and member and provider informational materials. The RAEs also submitted lists of denials of authorization of services (denials), grievances, and appeals that occurred between January 1, 2019, and December 31, 2019 (to the extent available at the time of the site visit). HSAG used a random sampling technique to select records for review during the site visit.</li> <li>The HSAG review team reviewed all documentation submitted prior to the on-site portion of the review and prepared a request for further documentation and an interview guide to use during the on-site portion of the review.</li> </ul>

For this step,	HSAG completed the following activities:
<b>Activity 3:</b>	<b>Conduct Site Visit</b>
	<ul style="list-style-type: none"> <li>• During the on-site portion of the review, HSAG met with the RAE’s key staff members to obtain a complete picture of the RAE’s compliance with contract requirements, explore any issues not fully addressed in the documents, and increase overall understanding of the RAE’s performance.</li> <li>• HSAG reviewed a sample of administrative records to evaluate denials, grievances, and appeals.</li> <li>• While on-site, HSAG collected and reviewed additional documents as needed.</li> <li>• At the close of the on-site portion of the site review, HSAG met with RAE staff and Department personnel to provide an overview of preliminary findings.</li> </ul>
<b>Activity 4:</b>	<b>Compile and Analyze Findings</b>
	<ul style="list-style-type: none"> <li>• HSAG used the FY 2019–2020 Site Review Report Template to compile the findings and incorporate information from the pre-on-site and on-site review activities.</li> <li>• HSAG analyzed the findings.</li> <li>• HSAG determined opportunities for improvement, recommendations, and required actions based on the review findings.</li> </ul>
<b>Activity 5:</b>	<b>Report Results to the Department</b>
	<ul style="list-style-type: none"> <li>• HSAG populated the report template.</li> <li>• HSAG submitted the draft site review report to the RAE and the Department for review and comment.</li> <li>• HSAG incorporated the RAE’s and Department’s comments, as applicable, and finalized the report.</li> <li>• HSAG distributed the final report to the RAE and the Department.</li> </ul>

### Overview of FY 2019–2020 Focus Topic Discussion

For the FY 2019–2020 site review process, the Department requested that HSAG conduct open-ended on-site interviews with RAE staff members to gather information on each RAE’s experience regarding *Region-Specific Initiatives Related to the Health Neighborhood*. Focus topic interviews were designed to provide the Department with a better understand of the infrastructure and strategies the RAEs are implementing to actively build, support, and monitor Health Neighborhood providers, particularly those serving members with complex health needs. HSAG collaborated with the Department to develop an interview guide to facilitate discussions and gather similar information from each RAE. Information gathered during the interviews will be analyzed in the FY 2019–2020 RAE Aggregate Report to determine and document statewide trends related to RAE region-specific activities to integrate with community partners and build Health Neighborhoods. This section of the report contains a summary of the focus topic discussion for **COA R3**.

### Infrastructure and Strategies

As Region 3 and Region 5 combined encompass most of the Denver metropolitan area, most of **COA**’s Health Neighborhood initiatives engage providers and other partners from both Region 3 and Region 5. **COA** described their concept of the Health Neighborhood as concentric circles or multiple layers of the continuum of healthcare providers surrounding the member at the core and interfacing with one another at the points of common intersection impacting the health of members. Using a linear (rather than concentric circle) perspective from member to community, the continuum might be illustrated as follows: member>>primary care providers>>specialists>>hospital-type facilities>>health agencies>>social determinant community providers. **COA**’s Health Neighborhood definition encompasses the full continuum of providers.

Staff members described that **COA** both initiates and convenes Health Neighborhood collaboratives as well as responds to many invitations to participate in other organizations’ initiatives. **COA** provided examples of ongoing involvement in the leadership (Board of Directors or Steering Committees) of established health alliances, such as the Mile High Health Alliance, or participation in specific issue alliances. In addition, staff members stated that **COA** responds to requests for speaking engagements or to share access to Medicaid member data. **COA**-organized initiatives were often associated with achieving performance incentive measures, deliverables of RAE contact, or other Department priorities. In either case, staff members stated that there are far more collaborative Health Neighborhood opportunities than **COA** has available resources. Therefore, **COA** has established a thoughtful approach to screening and prioritizing its involvement in Health Neighborhood initiatives, which considers multiple criteria, including: (A) alignment with health strategy priorities—i.e., linked to existing work or priorities, opportunity to reach further into the community to build collective impact, benefits from saying “yes”; or (B) political or relationship management—i.e., specific state agency(s) involved,

political ramifications, impact of saying “no,” effect on overall good standing with partners, opportunity for **COA** recognition; and (C) resource implications—i.e., talent/skill set in organization, time and availability to meet the demand, financial resources required.

To manage and oversee **COA**'s Health Neighborhood initiatives, **COA** has developed a robust internal infrastructure for engaging Health Neighborhood partners through the **COA** Health Strategy Steering Committee (HSSC), Governing Councils (Councils) of Region 3 and Region 5, and initiative-specific subcommittees. The HSSC considers and establishes the priority Health Neighborhood strategies and activities of **COA**. The regional RAE Councils consider the structural approaches for implementing the strategies. The Councils meet monthly and have membership consisting of the major medical neighborhood providers. Region 3 Council participants include organizations such as Children's Hospital of Colorado (Children's Hospital), UCHealth, Kaiser Permanente of Colorado (Kaiser), AllHealth Network, Aurora Mental Health Center, Community Reach Center, and major primary care medical providers (PCMPs)—Every Child Pediatrics, Clinica Campesina Family Health Services (Clinica), Doctor's Care, Stride, Peak Vista Community Health Centers (Peak Vista), and Salud Family Health Centers (Salud). The RAE is an equal and facilitating participant. These organizations share in serving the majority of the RAE membership. Staff members reported that the primary Council objectives and activities to date have consisted of relationship building, forming a shared vision regarding the potential of ongoing Health Neighborhood collaboration, and discovering how to work together in a meaningful way. Council representatives must be leaders in their organizations with the authority to make decisions. Recognizing the complexity of health system relationships and potential political or competitive issues among organizations, the Councils have adopted the principals of the “Collective Impact Model” (Civic Canopy), which address how communities can work together to solve major social issues. A central theme of this model is the need to identify a common self-interest among the partners in order to be successful—i.e., outcomes have to benefit all. In addition, financial incentives—i.e., resources available to accomplish objectives—and outcomes must align with a positive business model for the participants. The RAE Councils are currently examining and creating value-based payment models to pay for performance. **COA** is simultaneously evaluating the establishment of an innovation pool, which would commit some of the RAE's key performance indicator (KPI) payments to support Health Neighborhood initiatives. Staff members reported that other forms of stimulus for Health Neighborhood participation or identifying shared goals include the chronicity of an issue and the intrigue of finding new collective problem-solving approaches for long standing “pain points” in the system. While measurable outcomes of the Councils' activities are premature, staff members reported that the Councils are experiencing an 85 percent participation rate at every meeting and perceived that the organizational and development processes among the Health Neighborhood partners are building a sustainable operational foundation for ongoing RAE Health Neighborhood initiatives. Supporting the HSSC and Councils, **COA** has organized numerous health strategy task forces that engage Health Neighborhood partners in examining and implementing strategies to impact the RAE KPIs. Six of 12 RAE KPI measures are currently being addressed through these task forces, which include: Dental Wellness, Health Neighborhood, 7-day follow-up of BH inpatient care, foster care, potentially avoidable costs (PACs) (adults and pediatrics), and management of members with complex needs (see “Other Health Neighborhood Initiatives” section).

## Improving Access to Specialist Providers

**COA** has identified a “Behavioral Health in Primary Care” initiative to expand access to BH specialists. The initiative includes two primary components:

- **COA** implemented an encounter rate model for its high-volume Medicaid PCMPs, which provides enhanced reimbursement for BH services delivered in the primary care setting. Staff members explained that the limitation on BH codes reimbursed by the Department do not allow enough volume or flexibility for PCMPs to be able to engage an on-site BH clinician and, therefore, allowable BH services are often not implemented by the PCMPs. **COA** is aware that many members who are referred to external BH providers do not follow-through with seeking services and are much more inclined to receive services offered through the PCMP. Enhanced reimbursement for additional BH services provided in primary care offices in turn allows PCMPs to affordably hire and pay BH clinicians to provide services in their offices. There are 12 PCMP sites in which this model has been implemented. **COA** worked collaboratively with its RAE Community Mental Health Centers (CMHCs) to identify and train appropriate practitioners to successfully operate in a PCMP environment. **COA**’s provider contracting team ensures that BH providers are contracted expeditiously. **COA** uses its BH data for member-level tracking and to evaluate costs of services. **COA** reported that the encounter rate model program has affordably expanded member access to BH services beyond those services that could have been delivered through the Department’s BH expansion strategy.
- In addition, through its telehealth subsidiary AccessCare Services (ACS), **COA** has developed a “Virtual Care Collaboration and Integration” (VCCI) program, which provides both psychiatric consultations and BH telehealth services to 34 PCMP sites. VCCI offers PCMPs access to three ACS-employed BH clinicians, including two psychiatrists. The VCCI was described by staff members as a “work-force multiplier” for psychiatric consultations and medication management for Medicaid members being treated in PCMP offices. Similar to the enhanced reimbursement model, the VCCI objectives are to maintain patient engagement in the BH services they need by offering services through the PCMP. VCCI also provides continuity of care for BH members when BH practitioners leave or rotate out of a PCMP practice. Staff members stated that implementation of VCCI requires extensive office staff training and work-flow modifications and is, therefore, not appropriate for all PCMPs. Initiated in July 2017 through a Rose Community Foundation grant, ACS has been learning through the grant how to collect available data points—such as data on changes in prescribed medications—that will allow for evaluation of the outcomes of the project later in 2020. Staff members reported that feedback obtained from providers has been very positive. Staff members also reported that there has been increasing interest expressed by the Department of Corrections (DOC) and school-based healthcare programs regarding potential application of VCCI in those settings.

In addition, **COA**’s care coordination programs continue to work with members to improve access to specialist services. At the most basic level, **COA** attempts to connect members to a PCMP as quickly as possible to manage their healthcare needs, including referrals to needed specialists. Members receiving **COA** care coordination are facilitated in obtaining transportation and provided instructions on

preparation for a specialist appointment; similar services are provided by **COA**'s Enhanced Clinical Partners (ECPs), who are advanced practice PCMPs that perform all care coordination services for members of their practices. **COA** continues to explore mechanisms to reduce Medicaid member "no-shows" for appointments, whether related to primary care, specialty care, or behavioral health care. **COA** has been meeting with PCMPs, members, and BH providers to determine reasons for no-shows. Care coordinators and ECPs provide appointment reminders and **COA** is exploring technology designed to reduce no-shows. While these care coordination processes have been in place for some time, **COA** lacks access to data to determine referrals to specific specialists, track specialist no-show rates, or target specific member offenders.

**COA** described several circumstances that present challenges for individual RAEs to be able to improve access to medical specialty providers:

- The RAE does not contract with medical specialist providers for Medicaid members. Contracting with specialists is performed by the Department.
- The Department sets the payment rates for specialist care and pays claims for services provided by specialists. As such, RAEs have no financial influence or access to data regarding members' access to specialists.
- In the Denver metro area, most medical specialists are either owned by or financially affiliated with hospital systems. Any negotiations related to improving Medicaid member access to specialists would need to be conducted through hospitals rather than with individual specialist practices.
- Specialists are in demand to serve patients of the entire payor population. Specialists typically limit access to a number of "slots" available for Medicaid members due to lower Medicaid reimbursement rates and other administrative issues. In addition, Medicaid members from all RAEs across the state access specialists in the Denver area, competing for the limited slots available.
- Since the RAE does not contract with specialists and only has access to claims for its members, the RAE is unable to determine statewide patterns of accessing specific specialists and understanding full system limitations.
- PCMPs manage access to specialists for their patients (of all payor types) through referrals. Referral patterns of PCMPs are influenced by long-standing interpersonal relationships with specific specialist providers. Due to the competition among providers for access to specific specialists, PCMPs are unwilling to share information regarding their preferred specialists or how they are able to successfully obtain access.
- PCMPs and specialists alike are unwilling to sign or abide by a written "compact" agreement that outlines predefined parameters of the referral relationship. Staff members stated that referrals between providers are often based on long-term interprofessional and qualitative relationships and that PCMPs are generally unwilling to risk disruption from Medicaid agencies in their interpersonal referral relationships with specialists.
- Through its care coordinators' involvement with complex members or through its ECPs, **COA** has identified that there is a shortage of nephrologists (most of whom are associated with and in demand from dialysis centers), neurologists, and orthopedists available to serve Medicaid members. However, specialist contracting is performed by the Department.

- Staff members reported that anecdotal feedback indicates that the Department’s prior issues with untimely payments to providers have continued to negatively impact specialists’ perceptions regarding expansion of access to Medicaid members.

All of these factors combined result in major barriers for an individual RAE to be able to improve access to medical specialists. COA reported that it has no measurable or perceived positive outcomes related to improving access to specialists and that COA has little or no leverage to impact overall improvements in access to specialist care. As such, the Department’s Health Neighborhood KPI (related to specialty services) cannot be proactively addressed or measured by the RAEs. COA offered recommendations to the Department regarding possible solutions (see “What the Department Can Do” section).

## Collaborative Initiatives with Hospitals

In addition to the major hospital systems’ ongoing participation in COA’s Councils, COA has collaborated with all major hospital systems in Region 3 and Region 5 to initiate a Hospital Transformation Program (HTP) committee. Committee participants include six major hospital systems—Centura Health, Children’s Hospital, Denver Health, Health One, SCL Health, and UHealth—representing 19 individual hospitals in the RAE regions. Staff members explained that the Department’s HTP puts 30 percent of hospitals’ Medicaid reimbursement dollars “at risk” and has issued to hospitals a menu of performance measure metrics. The objective of the committee to date has been to assess common areas of concern and identify priority areas for improvement, as well as to establish a common set of hospital metrics for measurement and reporting of results. Staff members reported that HTP metrics may or may not impact the RAEs; however, the RAE’s primary interest has been to provide and receive hospital data in a consistent manner. Hospitals will direct any mutually-defined initiatives of the committee, supported by the RAEs as applicable. Staff members stated that challenges in collaborative initiatives among multiple hospital systems involve competitive or political issues of hospitals, as well as defining a common framework for data collection and sharing of data. Staff members reported that the HTP collaboration was only recently initiated and is currently engaged in the pre-implementation planning process, including establishing common goals and priorities.

Hospital systems and the RAEs are engaged in the collaborative efforts of the Metro Denver Partnership for Health, led by six local public health departments, and addressing community-wide priorities for improving the overall health of the community, including significant efforts related to social determinants of health. Staff members stated that this has also been a forum for discussing the HTP project.

Three hospital systems that serve the majority of the RAEs’ members—Children’s Hospital, UHealth, and Denver Health—are also engaged in issue-specific task forces, such as those addressing PACs, complex high-cost members, and ECPs (see below for examples of specific initiatives).

## Other Health Neighborhood Initiatives

In order to define “impactable populations,” COA has examined stratified member cost and care coordination data and determined that approximately one-third of members have high-cost acute needs that will return to baseline without interventions, one-third of members experience no or low cost, and one-third of members have complex needs that can be managed—i.e., impactable populations. COA also uses the high-cost utilizer list provided by the Department to identify members of impactable populations and assigns those members to specialized nurse care coordinators. Staff members stated that an important factor in determining “impactable” members is a member’s willingness to engage in care coordination, enroll in registries, or enroll in special clinical management programs—e.g., high-risk pregnancy care or diabetes management. COA has identified that its ECPs—eight PCMPs and four CMHCs—serve 50 percent of the RAE members and 49 percent of impactable population members. COA works with its ECPs and CMHCs in the “members with complex needs” task force to identify subpopulations of impactable members and develop programs to address those specific subpopulations. COA has identified and targeted members with asthma, members with chronic obstructive pulmonary disease, and members with diabetes as three impactable populations. COA is working with its ECPs, hospitals, and other applicable outpatient providers in defined subcommittees to address coordination of the systems in which these subpopulations are receiving care. For example, Children’s Hospital and its affiliated pediatric practices, ECPs, and the RAE specialty care coordinators are examining mechanisms to overcome barriers in transitioning members with asthma among different providers. COA has also implemented initiatives to identify and address PACs—e.g., unnecessary emergency room use, unnecessary imaging. COA uses any available utilization date to identify over-, under-, or inappropriate utilization and works with provider partners to develop enhanced care coordination systems to impact such costs. At the time of on-site review, PAC Health Neighborhood partners included: Children’s Hospital, Denver Health, UHealth, Clinica, Every Child Pediatrics, Doctor’s Care, Kaiser, Pediatric Care Network, Salud, Stride, and Colorado Coalition for the Homeless.

Staff members described a recently implemented school-based clinic initiative to embed ACS behavioral health providers into two Kids First Health Care school-based clinics serving two high schools and two middle schools. Challenges identified included: provision of non-English speaker translation services, initiating parental involvement in consent for BH services (when necessary), and training of school staff members regarding access to services. Initiated in January 2020, staff members reported that the clinics had experienced six behavioral health encounters to date.

COA was leading a community-based Colorado justice reform initiative to provide COA specialized care coordination services on-site at county parole offices for members recently released from DOC. The purpose of the initiative is to meet with parolees during their visits to the parole offices; enroll individuals in Medicaid; and coordinate referrals to any behavioral, medical, and community resources needed by the member. Health Neighborhood participants included COA specialized criminal justice care coordinators, COA “Access Medical” enrollment services, county parole offices, and the Families First program (parenting services). At the time of on-site review, the program had just been implemented with the Englewood, Denver, and Douglas counties’ parole offices with four visits experienced to date.

COA's Foster Care task force, 7-Day Follow-Up (BH inpatient care) task force, and Dental Wellness task force were each initiated by COA to engage Health Neighborhood partners in developing programs to address the RAEs' Department-defined performance improvement metrics or KPIs.

- Activities of the Foster Care task force were initiated by the RAEs meeting individually with each county Department of Human Services (DHS) Child Welfare Division, and with Denver Health's clinic targeted for foster care children, to discuss issues and challenges of coordinating care for foster children. The task force additionally identified a disconnect between clinical and core services being provided and coding for reimbursement, such that the Department's KPI does not fully represent what is really happening with the members. The task force has determined that this initiative is a long-term, multifaceted challenge and that all partners, including the Department, county DHSs (both within and outside the RAE regions), providers, and schools will need to be engaged in this collaborative initiative.
- The Dental Wellness task force has engaged Colorado Children's Healthcare Assistance Program (CCHAP), pediatric primary care providers—Every Child Pediatrics, Kids First Health Care, and Salud—Community Reach Center, Denver Health, and two dental providers (one from each RAE region) to develop mechanisms to increase dental wellness of children by introducing limited early preventive services in pediatric primary care practices and subsequently referring children to DentaQuest for needed services. The task force will use “increasing dental visits every 12 months” as a measure of results.
- To improve COA's “7-day follow-up of BH inpatient care” performance measure, the RAEs engaged AllHealth Network, Aurora Mental Health Center, Colorado Coalition for the Homeless, Jefferson Center for Mental Health, and Mental Health Center of Denver to identify barriers and develop interventions. Barriers included inability to contact or engage the member. Interventions included enhanced care coordination mechanisms. Interventions were implemented July 2019 and were being tracked through the defined performance measure.

Other examples of specific care coordination initiatives with Health Neighborhood partners included:

- Working with the Women, Infants, and Children (WIC) programs in local public health entities to determine how care coordinators of both programs interface to identify women and children and with special healthcare needs and make interagency referrals.
- Working with the Healthy Communities family health coordinators to outreach to members and coordinate service referrals for members.
- Beginning to develop a process with the Thornton fire department to connect members with BH needs to a COA BH care coordinator.

While many of the task force activities initiated by COA were driven by desired improvements in the RAE's KPIs, staff members acknowledged that ongoing use of KPIs to instigate Health Neighborhood activities may conflict with COA's Council principles that Health Neighborhood initiatives should be strategically chosen based on the common concerns and shared motivations of all parties involved. COA also recognized that outcome measures of any project should be tied to the objectives of the collaborative initiative. As referenced in the description of projects above, COA discovered during

several Health Neighborhood projects that the RAE's specific performance measures may or may not be appropriate for measuring the intended outcomes of the initiative or that reliable outcome data are complex or difficult to obtain.

While staff members were enthused about perceived results of all Health Neighborhood processes and initiatives, in most cases it was clearly premature to have measurable results, either due to: recent implementation of collaborative interventions, lack of accessible data sources for tracking and measurement, or recognition that outcomes of multifaceted complex initiatives would require long-term implementation to produce measurable results.

## What the Department Can Do

**COA** believes that solutions regarding access to medical specialists need to be pursued at a higher level than the individual RAEs. **COA** recommends that the Department initiate and lead a statewide initiative at the Department level, involving participation of the RAEs, to comprehensively and thoughtfully evaluate the multifaceted and intertwined issues regarding Medicaid member access to medical specialists. Such an initiative might address:

- Improving Medicaid payment rates for specialist services.
- The Department contracting with additional specialists as needed.
- Working with hospital systems to increase access to specialists with whom they are affiliated.
- Working with hospital systems to determine the potential for attracting new and additional specialists to Colorado or specific regions of Colorado.
- Working with hospital systems to gain access to specialist input regarding real concerns of specialists on the subject of provision of services to Medicaid members and whether those issues are targeted to specific types of specialists.
- Developing tools and survey instruments for widespread specialists to provide direct input to the State regarding concerns of serving more Medicaid members.
- Extracting data from the Department's claims database to identify most frequently used specialists by Medicaid members, assess where each RAE's members seek specialty care, and determine how many specialists are independent practices versus those specialists linked to a larger provider system.
- Determining mechanisms to incent providers to achieve desired outcomes. For example, perhaps the Department's HTP initiative could be a vehicle for addressing specialist access.
- Examining and avoiding potentially conflicting objectives and incentives in executing the Department's objectives at the RAE level. For example:
  - If a singular RAE attempts to improve access to select specialists for only its members, the number of slots available for other RAEs' members may be further diminished.
  - Increasing Medicaid's access to specialists may reasonably be expected to increase the near-term cost of care for Medicaid, thereby conflicting with the Department's objective to show

measurable short-term decreases in costs for the Medicaid program. This underscores why it is important to identify which specialty services are most needed.

- Based on statewide collaborative efforts, determining which activities can best be supported or operationalized at the RAE level, and determining whether reasonable, implementable mechanisms for measuring RAE outcomes exist, and when they should be applied.

**COA** has identified that the Department’s definition and expectations surrounding the “Health Neighborhood” seem to be applied inconsistently in Health Neighborhood KPIs and deliverables. For example, both in the contract and previous Health Neighborhood report deliverables, Health Neighborhood is defined to include a broad spectrum of providers and **COA** has implemented a robust structure and process to engage Health Neighborhood partners in multifaceted initiatives to improve the delivery system for Medicaid members. However, more recently, the Health Neighborhood KPI and report deliverables have shifted to a focus on specialty referral and access and appropriate utilization as an apparent “pseudonym” for Health Neighborhood. Furthermore, it seems the Department considers the current Health Neighborhood KPI measure (focused on specialist access) as representative of what the RAEs are doing in the area of overall community engagement and addressing social determinants of health, which require very different approaches. Communications regarding the Health Neighborhood seem to fluctuate and be subject to multiple interpretations by both **COA** and the Department staff members. The inconsistent application of the term “Health Neighborhood” results in significant confusion among staff members, constant changes in direction to respond to expectations from the Department, lack of efficiency in work, and incomplete achievement of goals with Health Neighborhood partners. **COA** recommends that:

- At a minimum, the Department be more clear and consistent over time in its definition of “Health Neighborhood,” as well as the guidance and expectations applied, to allow for RAE implementation of work with partner organizations and achievement of results.
- The Department’s expectations of results, whether through KPIs or other deliverables, be focused on aspects of the delivery system that are achievable and controllable within the world of the RAE.
- The Department consider that development of the Health Neighborhood should allow for the shared priorities and goals of the regional partners to be identified and operationalized.

As noted above in the reported Health Neighborhood initiatives and experiences, the strategies of the Health Neighborhood partners in the RAE region may be related to multifaceted complex issues that are meaningful to all engaged partners but do not lend themselves to short-term measurement of results. In addition, appropriate outcome measures do not necessarily coincide with the established performance measures of the Department. To that end, **COA** recommends that the Department discontinue attempts to measure short-term outcomes of long-term multifaceted issues, as these measures may penalize or distract RAEs from achieving meaningful success in developing the Health Neighborhood.
