1570 Grant Street, Denver, CO 80203-1818 • (303) 866-2993 • (303) 866-4411 Fax

John W. Hickenlooper, Governor • Susan E. Birch MBA, BSN, RN, Executive Director

January 31, 2014

The Honorable Dianne Primavera, Chair  
Public Health Care and Human Services Committee  
200 E. Colfax Avenue, Room 271  
Denver, CO 80203

Dear Representative Primavera:

Enclosed please find a legislative report to the House Public Health Care and Human Services Committee from the Department of Health Care Policy and Financing on the Medically Indigent and Colorado Indigent Care Program (CICP).

Section 25.5-3-107, C.R.S. (2013) requires the Department to "...prepare an annual report concerning the status of the medically indigent program to be submitted to the health and human services committees of the senate, the house of representatives, or any successor committees, no later than February 1 of each year."

In FY 2012-13 more than 208,000 low-income Coloradoans received discounted health care services through the CICP. Payments to CICP providers totaled more than \$306 million, with more than \$299 million paid to hospital providers and more than \$6 million to clinics.

If you require further information or have additional questions, please contact the Department's Legislative Liaison, MaryKathryn Hurd, at [MK.Hurd@state.co.us](mailto:MK.Hurd@state.co.us) or 303-547-8494.

Sincerely,

A handwritten signature in black ink, appearing to read 'Susan E. Birch', written over a white background.

Susan E. Birch, MBA, BSN, RN  
Executive Director

# EXECUTIVE SUMMARY

The Department of Health Care Policy and Financing (the Department) has prepared this annual report concerning the structure, policy, statistics and payments related to the Colorado Indigent Care Program (CICP). The CICP is a financing mechanism to provide a partial solution to the health care needs of Colorado's medically indigent citizens. In FY 2012-13 total payments made to providers serving the medically indigent equaled \$305,235,184 and were distributed as follows:

## Hospital Payments

▶ CICP Supplemental Medicaid Payments	\$146,242,218
▶ CICP Disproportionate Share Hospital Payments	\$152,933,206
<b>Total CICP Hospital Payments</b>	<b>\$299,175,424</b>

## Clinic Payments

▶ The Children's Hospital Payments	\$6,059,760
<b>Total CICP Clinic Payments</b>	<b>\$6,059,760</b>

In FY 2012-13, there were 22 CICP Clinic providers and 49 CICP Hospital providers. CICP Clinics were reimbursed at 13.9% of indigent care costs, while all CICP Hospitals were reimbursed at 56.9% of indigent care costs. Denver Health Medical Center received 60.1% reimbursement relative to indigent care costs, and University of Colorado Hospital was reimbursed 47.3% of indigent care costs.

In FY 2012-13 the number of individuals served under the CICP was 208,449, a 5.9% decrease from the previous year. The decrease in the number served occurred in part because many became eligible for Medicaid through the coverage expansions funded by hospital provider fees under the Colorado Health Care Affordability Act, House Bill 09-1293. The January 2014 expansion of Medicaid coverage for all adults in Colorado to 133% of the federal poverty level (FPL) pursuant to Senate Bill (SB) 13-200 and the federal Affordable Care Act (ACA) will further reduce the number of uninsured Coloradans but will not eliminate the need for the CICP. As the expansion of Medicaid coverage and the Connect for Health Colorado insurance marketplace are implemented, the Department will work with its stakeholders to understand patient needs and gaps in coverage before any changes to CICP are proposed.

# INTRODUCTION

The Department of Health Care Policy and Financing (the Department) prepares this report pursuant to Section 25.5-3-107, C.R.S. (2013). This annual report concerning the status of the medically indigent program is delivered each February 1st to the Senate Health and Human Services Committee and the House Public Health Care and Human Services Committee of the Colorado General Assembly. The report is prepared following consultation with providers in the program, organizations, individuals and State agencies deemed appropriate by the executive director in order to obtain comprehensive and objective information about the program.

This report includes:

- ▶ Eligibility requirements and utilization data;
- ▶ Provider participation requirements and utilization data<sup>1</sup>;
- ▶ A standardized ability-to-pay schedule and copayment requirements;
- ▶ Methods for allocation and disbursement of funds;
- ▶ Sources of funding;
- ▶ Medical services provided to medically indigent clients during FY 2012-13;
- ▶ Plans for future years; and
- ▶ Program definitions.

---

1. In the FY 2011-12 Annual Report, only one quarter's worth of data was used for Children's Hospital Colorado, which caused some statistics to be understated. For the FY 2012-13 Annual Report, the correct data was used in order to provide accurate comparisons between fiscal years. Revised FY 2011-12 Annual Report data for Children's Hospital Colorado is available on the Department's website.

# CICP PROGRAM ADMINISTRATION

## PROGRAM OVERVIEW

The Colorado General Assembly enacted the “Reform Act for the Provision of Health Care for the Medically Indigent” in 1983. This law made it possible to use state funds to partially reimburse providers for services provided to the State’s medically indigent residents. This article was amended in 2006 and now stands as the enactment of the “Colorado Indigent Care Program.” Part 1 of Article 3 in Title 25.5 is where the program’s enabling legislation resides. The following segment of the legislative declaration at Section 25.5-3-102, C.R.S. (2013) helps to illustrate the program’s purpose.

The general assembly hereby determines, finds, and declares that:

(a) The state has insufficient resources to pay for all medical services for persons who are indigent and must therefore allocate available resources in a manner that will provide treatment of those conditions constituting the most serious threats to the health of such medically indigent persons, as well as increase access to primary medical care to prevent deterioration of the health conditions among medically indigent people...

...The general assembly also recognizes that the program for the medically indigent is a partial solution to the health care needs of Colorado’s medically indigent citizens. Therefore, medically indigent persons accepting medical services from this program shall be subject to the limitations and requirements imposed in this article.

The [Colorado Indigent Care Program \(CICP\)](#) provides a partial solution to the health care needs of the state’s medically indigent citizens and does not provide a comprehensive benefits package. The program is not an insurance program, but rather a financial vehicle for providers to recoup some of their costs for providing medical services to the medically indigent who are not eligible for Medicaid or the [Child Health Plan Plus \(CHP+\)](#). The benefits offered under this program vary from provider to provider. By statute, providers participating in the CICP are required to prioritize care in the following order

1. Emergency care for the full year;
2. Additional medical care for those conditions determined to be the most serious threat to the health of indigent persons; and
3. Any other medical care.

The CICP includes these requirements in its agreements with providers to ensure that indigent clients have access to emergency care throughout the year.

# FUTURE DIRECTION

## HEALTH CARE COVERAGE EXPANSION IMPACT ON CICP

The January 2014 expansion of Medicaid coverage for adults in Colorado to 133% of the federal poverty level (FPL) pursuant to Senate Bill (SB) 13-200 and the federal [Affordable Care Act \(ACA\)](#) will reduce the number of uninsured Coloradans but will not eliminate the need for the CICP.

CICP allows low-income Coloradans with incomes up to 250% of the FPL who are not eligible for Medicaid or the CHP+ to obtain discounted health care services at participating providers. CICP provides some reimbursement for the uncompensated costs incurred by CICP providers in serving low-income Coloradans, including those who are uninsured and those who have private health coverage or Medicare but cannot meet their out-of-pocket expenses.

After January 2014, approximately 75% of current CICP clients will be eligible for Medicaid, with the remaining CICP clients eligible for discounted health insurance through the Connect for Health Colorado marketplace. While the implementation of the ACA will provide health care coverage to many clients who would otherwise be eligible for CICP, not all will be covered. Those who are between 133% and 250% of the FPL will still be eligible for CICP. Also, with some exceptions, legal immigrants who have been in the United States less than five (5) years cannot be eligible for Medicaid or CHP+ but can be eligible for CICP. Finally, while many low-income Coloradans may be eligible for a federal subsidy to purchase health care coverage, there will continue to be clients under 250% of the FPL who cannot meet their out-of-pocket expenses.

Therefore, the Department is not proposing changes to CICP at this time and will continue to actively engage stakeholders to explore possibilities for CICP in the future. As the expansion of Medicaid coverage and the Connect for Health Colorado insurance marketplace are implemented, the Department will work with its stakeholders to understand patient needs and gaps in coverage for lower income Coloradans such as oral health, behavioral health, specialty care and underinsurance before any changes to CICP are proposed.

# STAKEHOLDER COLLABORATION

## NEW ANNUAL CICIP EXECUTIVE FORUM

The Department established the Annual CICIP Executive Forum, which replaced the traditional CICIP annual meeting in April 2013. The CICIP Executive Forum provides the Department a venue to update senior executives in charge of administering the CICIP with the Department's plans and goals for the program. The forum will also provide senior executives the opportunity to have a voice in how the Department maintains and improves the program. The goal of this new executive forum is to engage executive staff in discussions regarding CICIP. In particular, this forum focuses on high-level topics such as:

- o Vision and goals of the Department and CICIP;
- o Policy, budget, and legislative updates; and
- o The future of health care nationally and in Colorado

While budget and legislative updates were presented, discussion centered on how the January 2014 expansion of Medicaid up to 133% of the FPL for all adults would affect the CICIP going forward. With the expansion of Medicaid, 75% of CICIP clients are expected to become Medicaid eligible. Most of the remaining will qualify for federal subsidies through Connect for Health Colorado, Colorado's health insurance marketplace. Various scenarios for the future of CICIP were discussed regarding the possibilities for new policies, changes in funding, and enhanced services. The exchange of ideas will guide the Department in transforming the program in the years to come. The CICIP will continue to remain a safety net for low income individuals and families.

## CICIP STAKEHOLDER FORUM

The CICIP Stakeholder Forum was created in October 2007 and meets quarterly. The Department initiated this forum to provide an informal environment for CICIP client advocates, participating providers, and other stakeholders to exchange ideas, review policies, and make recommendations to the Department that address the CICIP eligibility process, provider relations, client relations, and other pertinent issues. Notes from forum meetings and other information are communicated via the CICIP newsletter and the Department's website.

With input from stakeholders, during FY 2012-13 the Department completed a rule change to convert the client's copayment cap to a full year from the date of application. Previously, all caps expired on December 31, regardless of the date of application.

The Stakeholder Forum was also instrumental in solidifying policy in conformance with Senate Bill (SB) 13-011, the Colorado Civil Union Act, which went into effect in May 2013. Eligibility policies and CICIP copayment rates for households headed by couples in a civil union are identical to those headed by married couples.

The Department worked with the forum in establishing policies and guidelines to steer the program through the initial stages of health care reform. Beginning in October 2013, new applicants and reapplying clients for the CICIP are now instructed to apply for Medicaid if their income is up to 133% of the FPL. Those with resources and incomes over that threshold remain eligible for CICIP and are encouraged to enroll for subsidized health insurance plans through Connect for Health Colorado. CICIP clients with private insurance will be responsible for the lesser of the CICIP copayment or their private insurance plan's copayment or deductible.

## **CICIP COMMUNICATION**

The Department publishes a quarterly [newsletter](#) that provides CICIP providers and stakeholders with updates on CICIP policies and other Department news. The Department also publishes an annual [CICIP Provider Manual](#) that details program requirements including determining an applicant's eligibility for CICIP and is a comprehensive program resource for providers. The quarterly newsletter and Provider Manual are also published on the [Department's website](#).

# CLIENTS

## ELIGIBILITY REQUIREMENTS AND ABILITY-TO-PAY

Participating hospitals and clinics administer enrollment into the CICIP. Eligibility technicians at the CICIP provider locations complete the client applications and determine eligibility for the program using criteria developed by the Department. Clients must not be eligible for Medicaid or CHP+. Clients can have other third-party insurance that must be billed prior to applying the CICIP copayment to medical services. To be eligible for services discounted under the CICIP, an individual must meet lawful presence, Colorado residency, income/asset requirements, and be aged 18 and older or an emancipated minor.

Under regulations concerning lawful presence, promulgated pursuant to House Bills (HBs) 06S-1023 and 07-1314, all new applicants and clients reapplying for CICIP aged 18 years and older must sign an affidavit indicating their citizenship status and provide acceptable documentation demonstrating that they are either a U.S. citizen or otherwise lawfully residing in the country. Applicants who do not provide a permissible document from the acceptable list may apply for a “Request for Waiver-Restrictions on Public Benefits” from the [Department of Revenue](#). Applicants without acceptable documentation who are U.S. citizens or U.S. nationals may sign a self-declaration statement to satisfy the evidence of lawful presence requirement.

In order to qualify to receive discounted services under the CICIP, a person must have income and assets combined at or below 250% of the FPL. Providers assign a “rate” to the applicant based on their total income and assets (see [Table 1](#)). Ratings are based on “snapshot” of an applicant’s financial resources as of the date of the rating.

A client’s rating determines their copayment amount (see [Table 2](#)). Client eligibility ratings are valid for one year. However, initial ratings may change. A re-rating may occur when:

- ▶ Family income has changed significantly;
- ▶ Number of dependents has changed;
- ▶ Calculation errors are identified; or
- ▶ Information provided was not accurate.

The CICP client must pay the lower of the copayment listed or actual charges. Clients are notified of their copayment obligation at or before the time that services are rendered. For all client ratings except the N-rating, annual copayments for CICP clients cannot exceed 10% of the family’s income. Annual copayments for clients with N-ratings cannot exceed \$120.

The following explains the types of medical care associated with each copayment category:

- ▶ Hospital inpatient facility charges are for all non-physician (facility) services received by a client while receiving care in the hospital setting for a continuous stay of 24 hours or longer. The client is responsible for the corresponding Hospital Inpatient Copayment.
- ▶ Ambulatory Surgery charges are for all operative procedures received by a client who is admitted to and discharged from the hospital setting on the same day. The client is responsible for the corresponding Inpatient Hospital Copayment for the non-physician (facility) services and the corresponding Physician Copayment for the physician services.
- ▶ The Inpatient and Emergency Room Physician charges are for services provided to a client by a physician in the hospital setting, including inpatient and emergency room care. The client is responsible for the corresponding Physician Copayment.
- ▶ Outpatient Clinic charges are for all non-physician (facility) and physician services received by a client while receiving care in the outpatient clinic setting, but do not include charges from outpatient services provided in the hospital (i.e. emergency room care, ambulatory surgery, radiology). Outpatient charges include primary and preventive medical care. The client is responsible for the corresponding Outpatient Clinic Copayment.

- ▶ Hospital Emergency Room charges are for all non-physician (facility) services received by a client while receiving care in the hospital setting for a continuous stay less than 24 hours (i.e., emergency room care). The client is responsible for the corresponding Hospital Emergency Room Copayment.
- ▶ Specialty Outpatient charges are for all non-physician (facility) and physician services received by a client while receiving care in the specialty outpatient clinic setting, but do not include charges from outpatient services provided in the hospital setting (i.e., emergency room care, ambulatory surgery). Specialty Outpatient charges include distinctive medical care (i.e., oncology, orthopedics, hematology, pulmonary) that is not normally available as primary and preventive medical care. The client is responsible for the corresponding Specialty Outpatient Clinic Copayment. A qualified health care provider must receive written approval from the Department to charge the Specialty Outpatient Clinic Copayment.
- ▶ Emergency Transportation charges are for transportation provided by an ambulance. The client is responsible for the corresponding Emergency Transportation Copayment.
- ▶ Laboratory Service charges are for all laboratory tests received by a client not associated with an inpatient facility or hospital outpatient charge during the same period. The client is responsible for the corresponding Laboratory Services Copayment.
- ▶ Radiology and Imaging Service charges are for all radiology and imaging services received by a client while receiving care in the outpatient clinic setting, but do not include charges from outpatient or inpatient services provided in the hospital setting. The client is responsible for the corresponding Radiology and Imaging Copayment.
- ▶ Prescription charges are for prescription drugs received by a client at a qualified health care provider's pharmacy as an outpatient service. The client is responsible for the corresponding Prescription Copayment. To encourage the availability of discounted prescription drugs, providers are allowed to modify (increase or decrease) the Prescription Copayment with the written approval of the Department.
- ▶ Clients receiving a Magnetic Resonance Imaging (MRI), Computed Tomography (CT), Positron Emission Tomography (PET) or other Nuclear Medicine services, Sleep Studies, or Catheterization Laboratory (cath lab) in an Outpatient setting are responsible for the Hospital Inpatient Facility copayment in addition to the Outpatient Specialty Clinic copayment.

# CLIENT UTILIZATION

## CLIENTS SERVED

During FY 2012-13, there were 208,449 unduplicated clients who received services through the CICIP. This represents a 5.9 % decrease from the 221,632 unduplicated clients assisted in FY 2011-12. Overall, the program provided 13,959 unduplicated clients with inpatient care, while 202,419 received outpatient services in FY 2012-13<sup>2</sup>.

Tables 38 and 39 provide a detailed overview by provider of the total number of unduplicated clients served. The provider group which served the greatest number of unique clients was CICIP Clinics (40.4%), while Denver Health Medical Center was the largest individual provider. Denver Health Medical Center provided care to 30,833, or 14.79%, of all unduplicated individuals receiving discounted medical care under the CICIP.

Figure 1 — Total Unduplicated Client Count by Provider and Age Group

Children represented 4.5% of the total unique population receiving services. The total unduplicated count of children receiving care under the CICIP decreased by 13.3% in FY 2012-13, relative to the FY 2011-12 total. With the exception of FY 2007-08, past years have demonstrated a decline in children enrolled in the CICIP, primarily due to the transition to other programs such as Medicaid and CHP+. The Department believes that the continued decrease for FY 2012-13 stems partially from the elimination of the three-month waiting period for CHP+ in 2013.

2. Since this count is done at the provider level, a client who receives care at multiple CICIP providers is counted multiple times in this figure. These conditions create an unduplicated count that overstates the number of actual clients receiving care under the CICIP.

## INPATIENT CARE

Providers reported that 13,959 unique individuals received inpatient care through the CICIP in FY 2012-13. This represented a 7.2% decrease from the previous fiscal year figure of 15,047.

Denver Health and Medical Center provided care to 20.7% of the individuals who received inpatient services, and the University Hospital provided care to 16.5%.

Figure 2 — CICIP Hospitals  
Percent of Inpatient Unduplicated Client Count by Age Group

## INPATIENT ADMISSIONS

In FY 2012-13, there were 18,127 admissions reported by CICIP providers, representing a decrease of 13.6% from the 20,975 admissions recorded in the previous year.

- ▶ During FY 2012-13, persons aged 18 or older accounted for 97.6% of all inpatient services.
- ▶ Total inpatient days totaled 78,224 in FY 2012-13, a 15.7% decrease from the FY 2011-12 count of 92,829.
- ▶ Inpatient charges accounted for 47.4% of total charges in FY 2012-13.
- ▶ Inpatient services were distributed in the following manner:
  - Denver Health Medical Center: 20.5%
  - University of Colorado Hospital: 16.9%
  - All other CICIP Hospitals: 62.6%

Table 3 illustrates the number of inpatient admissions over the past three (3) years. Overall inpatient admissions for all CICIP providers decreased by 17.0% since FY 2010-11, with a 13.6% decrease from the previous fiscal year.

Table 3 — Comparison of Inpatient Admissions

CICIP Provider	FY 2010-11 Inpatient Admissions	Percent Change	FY 2011-12 Inpatient Admissions	Percent Change	FY 2012-13 Inpatient Admissions	Percent Change
CICIP Hospitals*	13,684	-1.1%	12,921	-5.6%	11,358	-12.1%
Denver Health	5,484	3.3%	4,982	-9.2%	3,711	-25.5%
University Hospital	2,663	8.2%	3,072	15.4%	3,058	-0.5%

\*Includes CICIP specialty hospital providers

As shown in Table 4, the number of inpatient days decreased from 92,829 in FY 2011-12 to 78,224 in FY 2012-13. This represents a decrease of 15.7%, following a 3.7% decrease in the previous fiscal year. Overall, the total number of inpatient days has decreased by 18.8% since FY 2010-11. Denver Health Medical Center had a decrease in inpatient days in FY 2012-13 of 17.0%, following a 7.4% decrease in FY 2011-12. University of Colorado Hospital had an increase of 5.1% in FY 2012-13, following an increase of 5.0% in the prior fiscal year.

Table 4 — Comparison of Inpatient Days

CICP Provider	FY 2010-11 Inpatient Days	Percent Change	FY 2011-12 Inpatient Days	Percent Change	FY 2012-13 Inpatient Days	Percent Change

\*Includes CICP specialty hospital providers

The following two tables identify the top ten admitting diagnoses at the Denver Health Medical Center and University of Colorado Hospital for FY 2012-13. “Other Psychoses” accounted for 17.6% of the top ten diagnoses and was the most prevalent inpatient diagnosis at Denver Health Medical Center in FY 2012-13. Denver Health Medical Center is one of few hospital providers that accept patients with acute mental disorders and a significant number of these patients qualify for the CICP. Typically, these patients are admitted with complex physical health problems and the mental health disorder is noted at the time of the visit. The mental health disorder often contributes to the deterioration of their physical health. The top ten diagnoses at Denver Health Medical Center accounted for 49.3% of all inpatient admissions at the facility.

Table 5 — Top 10 Inpatient Diagnoses At Denver Health Medical Center

	Diagnosis Description	Claim Count
1	<b>Other Psychoses (Includes: Schizophrenic Disorders, Manic Depressive, Bipolar Affective Disorder, Paranoid States, Depression)</b>	323
2	<b>Intestinal Infectious diseases (Includes : E. Coli, Shigellosis, Staphylococcus, Salmonella Infections, Food Poisoning)</b>	299
3	<b>Other Diseases of Digestive System (Includes: Chronic Liver Disease, Acute Gallbladder Disorders, Diseases of the Pancreas, Gastrointestinal Hemorrhage)</b>	279
4	<b>Organic Psychotic Conditions (Includes: Senile and Presenile Organic Psychotic Conditions, Dementia, Alcoholic and Drug Psychoses)</b>	172
5	<b>Other Forms of Heart Disease (Includes: Acute Pericarditis, Acute Myocarditis, Heart Failure)</b>	166
6	<b>Diseases of Other Endocrine Glands (Includes: Diabetes Mellitus, Disorders of Parathyroid Gland, Disorders of Pituitary Gland, Disorders of Thymus Gland, Ovarian Dysfunction)</b>	148
7	<b>Symptoms (Includes: Symptoms in Alteration of Consciousness, Nervous System, Skin, Metabolism, Head and Neck, Cardiovascular System, Respiratory System, Digestive System, Urinary System)</b>	128
8	<b>Other Diseases of Intestines and Peritoneum (Includes: Intestinal Obstruction without mention of hernia, Intussusceptions, Impaction of Intestine)</b>	111
9	<b>Infections of Skin and Subcutaneous Tissue (Includes: Carbuncle and Furuncle, Cellulitis and Abscess, Impetigo, Local Infections of the Skin)</b>	106
10	<b>Persons Encountering Health Services for Specific Procedures and Aftercare (Includes: Fitting Prosthetic Device, Implant or Other Device, Other Orthopedic Aftercare, Attention to Artificial Openings, Encounter for Dialysis, Donors)</b>	99
<b>Total Top Ten Inpatient Diagnoses Admission Count</b>		<b>1,831</b>
<b>Percent of All Denver Health Medical Center Inpatient Admissions</b>		<b>49.3%</b>

In FY 2010-11 and in FY 2011-12, “Other Diseases of Digestive System” was the number one reported admitting diagnosis at University of Colorado Hospital. For FY 2012-13, the number one admitting diagnosis at University of Colorado Hospital was “Other Forms of Heart Disease”, representing 17.6% of the top ten (10) diagnoses in FY 2012-13. Overall, the following top ten (10) diagnoses accounted for 43.6% of all inpatient admissions at University of Colorado Hospital. Denver Health Medical Center and University of Colorado Hospital shared four (4) similar top ten (10) inpatient diagnoses.

Table 6 — Top 10 Inpatient Diagnoses At University of Colorado Hospital

	Diagnosis Description	Claim Count
1	<b>Other Forms of Heart Disease (Includes: Acute Pericarditis, Acute Myocarditis, Heart Failure)</b>	235
2	<b>Other Diseases of Digestive System (Includes: Chronic Liver Disease, Acute Gallbladder Disorders, Diseases of the Pancreas, Gastrointestinal Hemorrhage)</b>	201
3	<b>Other Bacterial Diseases (Includes: Streptococcal Sore Throat and Scarlet Fever, Whooping Cough, Meningococcal Infection, Tetanus)</b>	159
4	<b>Symptoms (Includes: Symptoms in Alteration of Consciousness, Nervous System, Skin, Metabolism, Head and Neck, Cardiovascular System, Respiratory System, Digestive System, Urinary System)</b>	152
5	<b>Complications of Surgical and Medical Care, Not Elsewhere Classified (Includes: Mechanical Complication of Cardiac Device, Genitourinary Device or Orthopedic Device; Infection Due to Internal Prosthetic Device; Complication of Transplanted Organ)</b>	146
6	<b>Diseases of Other Endocrine Glands (Includes: Diabetes Mellitus, Disorders of Parathyroid Gland, Disorders of Pituitary Gland, Disorders of Thymus Gland, Ovarian Dysfunction)</b>	100

8	<b>Other Metabolic and Immunity Disorders (Includes: Cholesterol Metabolism, Gout and Obesity/Hyperlipidation)</b>	86
9	<b>Cerebrovascular Disease (Includes: Arterial Stenosis, Carotid Stenosis, Vertebral Stenosis, Aneurysms, Arteriovenous Malformations)</b>	80
10	<b>Chronic Obstructive Pulmonary Disease and Allied Conditions ( Includes: Bronchitis, Emphysema, Asthma)</b>	78
Total Top Ten Inpatient Diagnoses Admission Count		1,333
Percent of All University of Colorado Hospital Inpatient Admissions		43.6%

Figure 3 shows the total inpatient admissions by CICP rating and FPL percentage for FY 2012-13. Of the total inpatient admissions, 59.3% were made for individuals living at or below 100% FPL (CICP ratings Z, N, A, B, or C). The CICP N and Z ratings accounted for 42.8% of inpatient admissions, followed by the CICP F-rating (9.3%), CICP I-rating (8.2%), and the CICP D-rating (7.2%). Since FY 2004-05, the distribution of inpatient admissions for individuals living at or under 100% FPL has remained relatively constant.

Figure 3 — Inpatient Admissions by CICP Rating

## OUTPATIENT CARE

Providers reported that 202,419 unique clients received outpatient care through the CICIP in FY 2012-13. This represented a 5.6% decrease from the previous fiscal year figure of 214,537 individuals.

CICP Clinics provided care to 41.6% of the total unduplicated client count for outpatient visits. Denver Health Medical Center provided care to 14.9% of the total unduplicated client count for outpatient visits with University of Colorado Hospital providing care to 9.5%. All other CICP Hospitals accounted for 34.0% of the total unduplicated client count for outpatient visits.

Figure 4 — CICIP Providers  
Percent of Outpatient Unduplicated Client Count by Age Group

## OUTPATIENT VISITS

The 202,419 clients who received outpatient services in FY 2012-13 resulted in 666,797 visits to CICIP providers. Additional details about outpatient visits in FY 2012-13 include:

- ▶ Total outpatient activity decreased 5.9% from the 708,919 visits in FY 2011-12;
- ▶ Outpatient visits accounted for 52.6% of all charges for FY 2012- 13;
- ▶ Persons age 18 or older accounted for 655,507 or 98.3% of all outpatient visits; and
- ▶ Outpatient services were distributed in the following manner:
  - CICIP Clinics: 45.0%
  - Denver Health Medical Center: 20.2%
  - University of Colorado Hospital: 7.7%
  - All other CICIP Hospitals: 27.1%

As shown in Table 7, the overall number of outpatient visits decreased 5.9% from FY 2011-12 to FY 2012-13. Denver Health Medical Center showed a 5.1% decline in outpatient visits, and University of Colorado Hospital showed an increase of 1.2% during the same time period. All other CICIP Hospitals showed a decrease of 8.3% and CICIP Clinics had a decrease in visits of 6.0%.

Table 7 — Comparison of Outpatient Visits

CICIP Provider	FY 2010-11 Outpatient Visits	Percent Change	FY 2011-12 Outpatient Visits	Percent Change	FY 2012-13 Outpatient Visits	Percent Change

10	<b>Other Diseases of Urinary System</b> (Including: Infections of Kidney, Calculus of Kidney and Ureter, Other Disorders of Kidney and Ureter, Cystitis, Other Disorders of Bladder, Urethritis, Other Disorders of Urethra and Urinary Tract)	1,031
Total Top Ten Outpatient Diagnoses Visit Count		22,480
Percent of All Denver Health Medical Center Outpatient Visits		43.8%

In FY 2012-13, clients with ratings at or below 100% of the FPL (CICP Z, N, A, B, or C ratings) accounted for 61.4% of outpatient visits, with the number of visits from those with these ratings increasing 13.0% from the total in FY 2011-12. The following figure shows outpatient utilization by CICP rating for FY 2012-13. Clients with CICP N and Z-ratings, covering clients with income and assets from 0% to 40% of the FPL, accounted for 42.1% of outpatient visits, followed by clients with a CICP F-rating (8.6%), clients with a CICP D-rating (7.9%) and C-rating (7.6%), respectively

Figure 5 — Outpatient Visits by CICP Rating

# PROVIDERS

## PROVIDER REQUIREMENTS

The CICIP allows participation from any interested provider that meets the following criteria:

1. Licensed or certified as a general hospital, community health clinic or maternity hospital (birth center) by the [Department of Public Health and Environment \(DPHE\)](#), or
2. A federally qualified health center, as defined in section 1861 (aa) (4) of the federal “Social Security Act”, 42 U.S.C sec. 1395x (aa)(4), or
3. A rural health clinic, as defined in section 1861 (aa) (2) of the federal “Social Security Act”, 42 U.S.C sec. 1395x (aa) (2).
4. Assure that emergency care is available to all CICIP clients throughout the contract year.
5. If the provider is a hospital, the hospital must have at least two (2) obstetricians with staff privileges at the hospital who agree to provide obstetric services to individuals entitled to such services as Medicaid clients. In the case where a hospital is located in a rural area, the term “obstetrician” includes any physician with staff privileges at the hospital to perform non-emergency obstetric procedures. This obstetrics requirement does not apply to a hospital in which the patients are predominantly under 18 years of age; or which does not offer non-emergency obstetric services as of December 21, 1987.

For the purposes of this FY 2012-13 Annual Report, the CICIP providers are identified in the following categories by funding appropriation:

- ▶ CICIP Clinics – clinics outside the geographic area of the City and County of Denver, except for the Colorado Coalition for the Homeless, which is a Specialty Clinic operating within the City and County of Denver. For the purpose of this report, Colorado Coalition for the Homeless is identified as a CICIP Clinic.
- ▶ CICIP Hospitals – hospitals located throughout the state.
- ▶ CICIP Specialty Hospitals – this includes Children’s Hospital Colorado and National Jewish Health. Specialty providers must either offer unique services or serve a unique population. Additionally, at least 50% of the medical care rendered through the CICIP must be provided to individuals who reside outside the City and County of Denver.
- ▶ Denver Health Medical Center – Denver Health Medical Center, including neighborhood outpatient clinics.
- ▶ University of Colorado Hospital – University of Colorado Hospital and associated specialty clinics.

## PROVIDER PARTICIPATION

A total of 71 providers participated in the CICP. This included 49 hospitals and 22 clinics. Most of the participating clinic providers and several of the hospital providers have multiple sites. Any site other than the main facility is considered a satellite facility. There were 148 satellite CICP facilities throughout the state

# **PROGRAM ADMINISTRATION**

## **REPORTING REQUIREMENTS AND PREVENTION OF FRAUD BY PROVIDERS**

The [CICP Provider Compliance Audit Guidelines](#) for FY 2012-13 require providers to submit an annual audit compliance statement. The purpose of the audit requirement is to furnish the Department with a separate audit statement along with a Corrective Action Plan (CAP), when required, that attests to provider compliance with specified provisions of the CICP program. The three (3) separate components of the CICP Compliance Audit are eligibility, billing, and programmatic. Providers that are found to be out of compliance with any of the CICP guidelines must complete a CAP. Failure to submit an audit statement that is acceptable to the Department for any year in which a provider participates in the CICP will result in the Department billing the provider for a full refund of monies received for the period in question or withholding payments until the audit has been submitted. In FY 2012-13 there were 69 audits submitted for FY 2011-12 with 22 of those audits requiring a CAP. The majority of the findings were in the eligibility portion of the audit. These findings were used to determine areas to emphasize in the CICP provider trainings held in spring and summer 2013.

## **PREVENTION OF FRAUD BY APPLICANTS**

At the time of application, each CICP applicant is required to sign the CICP application, which includes a statement that the information given to the provider is accurate and that false statements could result in prosecution by local authorities. The applicant is notified of his or her rights at the time of application.

The application also includes a penalty clause, confirmation statement, and authorization for release of information. Part of the statement reads, "I authorize the Provider to use any information contained in the application to verify my eligibility for this program, and to obtain records pertaining to eligibility from a financial institution as defined in Section 15-15-201(4), C.R.S., or from any insurance company." The applicant is required to sign this statement.

Any applicant reporting false information on a CICP application should be reported to the local county District Attorney's office or the local police by the provider.

## **PRIORITIES AMONG MEDICAL SERVICES RENDERED**

The legislation authorizing the CICP at Section 25.5-3-108(8)(a) - (8)(b)(I)-(III), C.R.S. (2013), requires that every provider receiving reimbursement through the CICP must prioritize, for each fiscal year, the medical services which it will be able to render within the limits of its funds. Each provider's CICP application to participate must specify the extent of the provider's physical, staff, and financial capabilities. The statute prioritizes the following services:

- ▶ Emergency care for the full year;
- ▶ Any additional medical care for those conditions the Department determines to be the most serious threat to the health of medically indigent persons; and,
- ▶ Any other medical care.

## **COLLECTION OF THIRD-PARTY PAYMENTS**

The CICIP guidelines require providers to collect all available payments from third-party resources. Providers are required to seek third-party reimbursement before the account is charged to the CICIP.

## **INCENTIVES FOR UTILIZATION CONTROL**

Incentives for efficient utilization of resources are built into the CICIP by the very nature of the reimbursement level as providers are contracted to prioritize their services of emergency and urgent care to CICIP patients. Most CICIP hospital providers have limited services and provide only emergency and urgent care.

# REIMBURSEMENT

## REIMBURSEMENT FOR CLINICS AND HOSPITALS

In the FY 2012-13 Long Bill, appropriations included the following line items:

Department of Health Care Policy and Financing  
Section Four - Indigent Care Program

- ▶ Safety Net Provider Payments
- ▶ The Children's Hospital, Clinic Based Indigent Care

In the FY 2012-13 Long Bill (HB 12-1335), the Colorado General Assembly appropriated \$287,055,532 through the Safety Net Provider Payments line item to reimburse CICIP Hospital providers. An additional \$12,119,892 was appropriated to this line item through a Long Bill Add-on in SB 13-230 resulting in a total appropriation of \$299,175,424. The CICIP Disproportionate Share Hospital (DSH) Payment and CICIP Supplemental Medicaid Payment are made from this line item.

The appropriation for CICIP Clinics was \$6,119,760 in total funds appropriated through the FY 2012-13 Long Bill to the Children's Hospital, Clinic Based Indigent Care line item. The appropriation included funds to reimburse Children's Hospital Colorado (\$60,000 total funds) for the administration of CICIP clinic based care.

The total payment to the CICIP providers in FY 2012-13 from both State and federal funds is shown in [Table 12](#).

Table 12 — FY 2012-13 CICIP Payments

	State Funds <sup>1</sup>	Provider Fees <sup>2</sup>	Federal Funds	Total Funds	Payments to Providers <sup>3</sup>
CICIP Clinics <sup>4</sup>	\$3,029,880	\$0	\$3,029,880	\$6,059,760	\$6,059,760
Children's Hospital Clinic Payment	\$3,029,880	\$0	\$3,029,880	\$6,059,760	\$6,059,760

<b>Total Payments</b>	<b>\$3,029,880</b>	<b>\$149,587,712</b>	<b>\$152,617,592</b>	<b>\$305,235,184</b>	<b>\$305,235,184</b>
Clinic Payment <sup>4,5</sup>	\$3,029,880	\$0	\$3,029,880	\$6,059,760	\$6,059,760
CICIP DSH <sup>6</sup>	\$0	\$76,466,603	\$76,466,603	\$152,933,206	\$152,933,206
CICIP UPL <sup>5</sup>	\$0	\$73,121,109	\$73,121,109	\$146,242,218	\$146,242,218

(1) State Funds include State General Fund appropriations and Supplemental Tobacco Litigation Settlement Moneys Account funds.

(2) This amount represents the portion of the entire payment received by the provider that is comprised of fee. It does not represent the amount of fee paid by the provider.

(3) Payments to Providers represents the actual cash payment and is the sum of State Funds, Provider Fees, and Federal Funds.

(4) \$6,119,760 was paid to The Children's Hospital, which administers payments to CICIP Clinics. The Children's Hospital retained \$60,000 of the total funds for the administration of this payment, which are not reported in any other statistics or diagrams in this annual report.

(5) Payments classified under CICIP Clinic Payment and UPL are accounted for under the Medicare Upper Payment Limit for inpatient hospital services.

(6) Payments classified under DSH are accounted for under the Disproportionate Share Hospital Allotment.

The reimbursement rate relative to write-off costs for all CICIP provider groups is displayed in Table 13. For FY 2012-13, the average reimbursement relative to costs for all CICIP providers was 52.7%. The CICIP Clinic providers were reimbursed at 13.9% of write-off costs. Denver Health Medical Center received a 60.1% reimbursement rate, and University of Colorado Hospital received 47.3%. All other CICIP Hospital providers were reimbursed at 56.9% of write-off costs.

Table 13 — FY 2012-13 Percentage of Write-Off Cost Reimbursed

	Payment	Write-Off Costs	Percent Reimbursed
CICIP Clinics	\$6,059,760	\$43,470,828	13.94%
CICIP Hospitals*	\$161,061,898	\$282,981,963	56.92%
Sub-Total CICIP Providers	\$167,121,658	\$326,452,791	51.19%
Denver Health Medical Center	\$86,629,160	\$144,144,522	60.10%
University of Colorado Hospital	\$51,484,366	\$108,760,592	47.34%
All CICIP Hospital Providers	\$299,175,424	\$535,887,077	55.83%
Total CICIP Providers	\$305,235,184	\$579,357,905	52.69%

Source: Table 12, Financial Tables

\*Includes CICIP Specialty Hospital providers.

Table 14 shows the average reimbursement as a percentage of costs for CICIP providers over the past six (6) fiscal years. The reimbursement rate for CICIP Clinics remains decreased due to the discontinuance of the Health Care Services Fund. The increase in overall reimbursement percentage for CICIP Hospitals beginning in FY 2009-10 was due to the implementation of HB 09-1293, the Colorado Health Care Affordability Act (CHCAA).

Table 14 — Historical Percentage of Write-Off Cost Reimbursed

	FY 2007-08	FY 2008-09	FY 2009-10	FY 2010-11	FY 2011-12	FY 2012-13

Average CICIP Providers	54.67%	55.46%	46.46%	61.78%	53.87%	52.69%

Source: Analysis of CICIP Annual Reports.

\*Includes CICIP Specialty Hospital providers and Medicaid DSH providers listed in previous CICIP Annual Reports.

In FY 2012-13, reimbursements to all CICIP providers decreased 4.1% compared to FY 2011-12, and were 6.2% below FY 2010-11 levels. Based on the amounts reported in Table 15, the reimbursement to all CICIP Hospital providers has increased 1.1% from the FY 2010-11 level, while write-off costs have increased by 7.1%. Write-off costs for CICIP Clinics have decreased 1.8% since FY 2010-11, while reimbursement has decreased 79.6% over the same period. Since FY 2010-11, write-off costs at Denver Health Medical Center have decreased by 4.1% compared to a 15.7% increase at University of Colorado Hospital

Table 15 — Historical CICIP Charges, Costs and Payments

	Write-Off Costs			Net Payments

## REIMBURSEMENT PER INPATIENT DAY

The reimbursement per inpatient day by provider group for FY 2012-13 is reported in Table 16. The reimbursement per inpatient day at Denver Health Medical Center was \$2,208.87 and \$1,844.12 for University of Colorado Hospital. For all other CICIP Hospitals, the reimbursement per inpatient day was \$1,707.02.

Table 16 — FY 2012-13 Payment per Inpatient Day

CICP Provider	Inpatient Days	Total CICP Inpatient Payment	CICP Payment Per Inpatient Day*
CICP Clinics	N/A	N/A	N/A
CICP Hospitals**	44,503	\$75,967,714	\$1,707.02
Denver Health	18,640	\$41,173,366	\$2,208.87
University Hospital	15,081	\$27,811,207	\$1,844.12

\*Percentage of inpatient charges times estimated inpatient Payment divided by the number of inpatient days.

\*\*Includes CICP Specialty Hospital providers and Medicaid DSH providers listed in previous CICP Annual Reports.

Historical reimbursement per inpatient day is shown in Table 17. From FY 2010-11 to FY 2012-13, the number of inpatient days decreased by 23.2% at Denver Health Medical Center and increased by 10.4% at University of Colorado Hospital. Over the same period, reimbursements per inpatient day at Denver Health Medical Center increased by 15.6% and increased by 19.0% at University of Colorado Hospital.

For all other CICP Hospitals, the number of inpatient days has decreased 23.9% from FY 2010-11 to FY 2012-13, while net CICP reimbursement per inpatient day has increased 29.3% from \$744.41 to \$1,707.02.

Table 17 — Historical Payment per Inpatient Day

CICP Provider	FY 2010-11 CICP Payment Per Inpatient Day*	FY 2011-12 CICP Payment Per Inpatient Day*	FY 2012-13 CICP Payment Per Inpatient Day*

## REIMBURSEMENT PER OUTPATIENT VISIT

Outpatient visits and reimbursement payments by CICIP provider group during FY 2012-13 are reported in Table 18. The reimbursement per outpatient visit at CICIP Clinics was \$20.18. The reimbursement for Denver Health Medical Center was \$337.91 per outpatient visit, and \$461.69 for University of Colorado Hospital. All other CICIP Hospitals were reimbursed \$471.06 per visit.

Table 18 — FY 2012-13 Payment per Outpatient Visit

CICIP Provider	Outpatient Visits	Total CICIP Outpatient Payment	CICIP Payment Per Outpatient Visit*
CICIP Clinics	300,358	\$6,059,760	\$20.18
CICIP Hospitals**	180,643	\$85,094,184	\$471.06
Denver Health	134,521	\$45,455,794	\$337.91
University Hospital	51,275	\$23,673,159	\$461.69

\*Percentage of outpatient charges times estimated outpatient Payment divided by the number of outpatient visits.

\*\*Includes CICIP Specialty Hospital providers and Medicaid DSH providers listed in previous CICIP Annual Reports.

From FY 2010-11 through FY 2012-13 the number of outpatient visits at CICIP Clinics decreased by 3.9%, while the reimbursement per visit has decreased by 78.8%, as demonstrated in Table 19. The number of outpatient visits at Denver Health Medical Center decreased by 20.8%, while at University of Colorado Hospital outpatient visits decreased by 2.5%. Since FY 2010-11, the average reimbursement per visit has increased 27.5% at Denver Health Medical Center and has increased by 21.8% at University of Colorado Hospital. For all other CICIP Hospitals, the number of visits increased by 4.5% and the reimbursement per visit was down 74.1% over the prior year.

Table 19 — Historical Payment per Outpatient Visit

CICIP Provider	FY 2010-11 CICIP Payment Per Outpatient Visit	FY 2011-12 CICIP Payment Per Outpatient Visit	FY 2012-13 CICIP Payment Per Outpatient Visit
CICIP Clinics	\$95.24	\$77.83	\$20.18
CICIP Hospitals**	\$222.49	\$421.80	\$471.06
Denver Health	\$265.02	\$285.24	\$337.91

\*\*Includes CICIP Specialty Hospital providers and Medicaid DSH providers listed in previous CICIP Annual Reports.

# REIMBURSEMENT METHODOLOGY FOR HOSPITALS

Under the CHCAA, hospital provider fees with approved federal matching funds, finance hospital payments for the CICIP. In FY 2012-13, the hospital provider fee and federal matching funds resulted in payments to hospitals of more than \$299 million for hospitals participating in the CICIP. (For information on all payments under CHCAA, please see the [Colorado Health Care Affordability Act Annual Reports](#) available on the Department's website.)

Total CICIP hospital reimbursement is composed of two (2) separate payments: the CICIP DSH Payment and the CICIP Supplemental Medicaid Payment. The CICIP DSH Payment distributes funds under the DSH Allotment and the CICIP Supplemental Medicaid Payment distributes funds under the Inpatient UPL. The CICIP Supplemental Medicaid Payment and CICIP DSH Payments are financed with hospital provider fees and federal matching funds. There is no increase in General Fund required to sustain these payments

## FY 2012-13 CICIP Hospital Reimbursement

▶ CICIP Supplemental Medicaid Payments	\$146,242,218
▶ CICIP Disproportionate Share Hospital Payments	\$152,933,206
<b>Total CICIP Hospital Payments</b>	<b>\$299,175,424</b>

The CICIP Supplemental Medicaid Payment and CICIP DSH Payments are calculated such that the sum equals CICIP write-off costs multiplied by 70% for rural and Critical Access Hospitals, by 53% for High Volume Medicaid and CICIP Hospitals<sup>3</sup>, and by 54% for all other participating CICIP hospitals.

CICIP write-off costs equal CICIP write-off charges as published in the most recent CICIP Annual Report, multiplied by the cost-to-charge ratio calculated from the most recently filed CMS 2552-96 Cost Report, adjusted for inflation.

## CICIP DISPROPORTIONATE SHARE HOSPITAL PAYMENT

In FY 2012-13, hospital provider fees with federal matching funds financed DSH payments to CICIP hospitals and other Colorado Medicaid hospitals under two (2) separate DSH payments: the CICIP DSH Payment and the Uninsured DSH Payment.

As shown in Table 20 below, Colorado's FY 2012-13 DSH payments totaled \$192,612,996, which were 50% hospital provider fees and 50% federal funds. Of that total, \$152,933,206 was paid under the CICIP DSH Payment and \$39,679,790 under the Uninsured DSH Payment. The CICIP DSH Payment is allocated to each CICIP hospital based on its proportion of CICIP write-off costs compared to all CICIP hospitals.

3. High Volume Medicaid and CICIP Hospitals are those providers with at least 35,000 Medicaid days per year that provide over 30% of their total days to Medicaid and CICIP clients. Denver Health Medical Center, Memorial Hospital in Colorado Springs, Children's Hospital Colorado, and University Hospital meet this definition.

Table 20 — Colorado DSH Payments

Fiscal Year 2012-13 Disproportionate Share Hospital Payments	
CICP DSH Payments	\$152,933,206
Uninsured DSH Payments*	\$39,679,790
Total FY 2011-12 DSH Payments	\$192,612,996

\*Uninsured DSH payments are made to reimburse a percentage of uncompensated uninsured costs for acute care hospital providers that do not participate in the CICP to reduce uncompensated uninsured costs and increase access for uninsured patients.

### UNINSURED DISPROPORTIONATE SHARE HOSPITAL PAYMENT

Colorado Medicaid hospitals that are licensed as general, acute care hospitals and that do not participate in the CICP are eligible for the Uninsured DSH Payment.

The Uninsured DSH Payment is allocated to each qualified hospital based on its proportion of uncompensated charity care costs compared to all qualified hospitals. Uncompensated charity care costs equal charity care charges as reported on the annual hospital survey, multiplied by the most recently audited cost-to-charge ratio from the CMS 2552-96 Cost Report. In FY 2012-13, qualified hospitals were reimbursed approximately 38.5% of their uncompensated charity care costs through this payment.

FY 2012-13 Uninsured DSH Payments are listed by hospital in [Table 21](#), on the following page.

Table 21 — FY 2012-13 Uninsured DSH Payments by Hospital

Provider Name	FY 2012-13 Uninsured DSH Payment
Animas Surgical Center	\$23,982
Centura Health - Avista Adventist Hospital	\$759,542
Centura Health - Littleton Adventist Hospital	\$2,789,600
Centura Health - Parker Adventist Hospital	\$712,144
Centura Health - Porter Adventist Hospital	\$3,285,442
Centura Health - Saint Anthony Central Hospital	\$8,240,982
Centura Health - Saint Anthony North Hospital	\$1,462,540
Centura Health - Saint Anthony Summit Hospital	\$690,288
Exempla Good Samaritan Medical Center	\$713,786
Exempla Lutheran Medical Center	\$4,432,798
Exempla Saint Joseph Hospital	\$6,352,226
Haxtun Hospital	\$5,688
HealthOne Medical Center of Aurora	\$2,770,764
HealthOne North Suburban Medical Center	\$1,691,890
HealthOne Presbyterian/St. Luke's Medical Center	\$825,352
HealthOne Rose Medical Center	\$923,556
HealthOne Sky Ridge Medical Center	\$564,400
HealthOne Swedish Medical Center	\$2,837,262
Keefe Memorial Hospital	\$10,406
Kit Carson County Memorial Hospital	\$35,814
Pagosa Hospital	\$8,664
Pioneers Hospital	\$61,570
Rangely District Hospital	\$17,684
Vail Valley Medical Center	\$463,410
<b>Total Uninsured DSH</b>	<b>\$39,679,790</b>

## **COLORADO INDIGENT CARE PROGRAM SUPPLEMENTAL MEDICAID PAYMENT**

In FY 2012-13, the CICIP Supplemental Medicaid Payment and the CICIP DSH Payment are calculated such that the sum of both payments equals 70% of estimated CICIP write-off costs for rural and Critical Access Hospitals, 53% of estimated CICIP write-off costs for High Volume Medicaid and CICIP Hospitals, and 54% of estimated CICIP write-off costs for all other participating CICIP hospitals.

In addition, hospitals with high relative Medicaid and CICIP utilization receive enhanced CICIP payments. Hospitals are separated into rural and urban categories for determining eligibility for enhanced payments. The first enhancement increases the inflated CICIP cost of a hospital by 2% if the hospital's ratio of CICIP costs to total costs is greater than one standard deviation over the mean of its peer group. The second bonus provide a cumulative, 5% increase to inflated CICIP costs if a hospital's ratio of Medicaid and CICIP days to total days is greater than two standard deviations over the mean of the hospital's peer group.

The CICIP Supplemental Medicaid Payment is calculated as the difference between the percentage of CICIP write-off costs compensated by the CICIP DSH Payment and the target percentage of CICIP write-off costs to be compensated for that hospital. As noted in the previous section, the CICIP DSH Payment is allocated to each CICIP hospital based on its proportion of CICIP write-off costs compared to all CICIP hospitals. (The FY 2012-13 CICIP Supplemental Medicaid Payments by hospital are listed in [Table 26](#).)

# REIMBURSEMENT METHODOLOGY FOR CLINICS

## Clinic Payments

▶ Children's Hospital Colorado Payments	\$6,059,759
<b>Total Clinic Payments</b>	<b>\$6,059,759</b>

### CHILDREN'S HOSPITAL COLORADO CLINIC PAYMENT

Effective July 1, 2002, Children's Hospital Colorado became eligible to receive a Major Teaching Hospital Payment. This payment under the Inpatient UPL for FY 2012-13 was \$6,119,760 and is called a Pediatric Major Teaching Hospital Payment. Since Children's Hospital Colorado is a private-owned facility, General Fund is required as the State's share of the payment to receive the matching federal funds.

An agreement was reached with Children's Hospital Colorado and the Department such that the hospital would administer the CICP payments to the CICP Clinics. Of the \$6,119,760 paid to Children's Hospital Colorado, \$6,059,759 was paid by the facility to the CICP Clinics as payment for services provided under the CICP. The remaining \$60,000 was retained by Children's Hospital Colorado to administer the payments to the CICP Clinics. The amount of funding to Children's Hospital Colorado and the CICP Clinics has remained constant since the FY 2002-03 payments.

# PRIMARY CARE FUND PROGRAM

In accordance with Section 21 of Article X (Tobacco Taxes for Health Related Purposes) of the State Constitution, an increase in Colorado's tax on cigarettes and tobacco products became effective January 1, 2005 and created a cash fund that was designated for health related purposes. HB 05-1262 divided the tobacco tax cash fund into separate funds, assigning 19% of the moneys to establish the Primary Care Fund.

The [Primary Care Fund](#) provides an allocation of moneys to health care providers that make basic health care services available in an outpatient setting to residents of Colorado who are considered medically indigent. Awards are allocated based on the number of medically indigent patients who received services from a provider in an amount proportionate to the total number of medically indigent patients served by all health care providers who qualify for an award from this fund.

To be a qualified provider, an entity must:

- ▶ Accept all patients regardless of their ability to pay, using either a sliding fee schedule or providing benefits at no charge;
- ▶ Serve a population that lacks adequate health care services;
- ▶ Provide cost-effective care;
- ▶ Provide comprehensive primary care for all ages;
- ▶ Screen and report eligibility for the Medical Assistance Program, Children's Basic Health Plan, and the Indigent Care Program; and,
- ▶ Be a federally qualified health center per Section 330 of the federal Public Health Services Act or have a patient base that is at least 50% uninsured, medically indigent, a participant in the CHP+, a participant in Medicaid, or any combination thereof.

In FY 2012-13 \$27,202,137 was allocated to 38 Primary Care Fund providers, including two new awardees. These providers served 211,876 unique medically indigent clients in the 2011 calendar year.

Table 22 — FY 2012-13 Primary Care Grant Program Payments

Provider	Primary Care Fund
Chaffee People's Clinic	\$95,207
Clinica Campesina Family Services-Denver Metro	\$2,119,046
Clinica Colorado/Adams County	\$378,110
Clínica Tepeyac	\$690,934
Colorado Coalition For The Homeless/Denver Metro	\$859,586
Community Health Services	\$106,089
Denver Health/Denver/Denver County	\$5,524,750
Doctors Care	\$155,054
Dolores County Clinic/Dolores County	\$57,124
Fort Collins Family Medicine Residency Program	\$209,458
Grace Health Clinic/Aurora-Arapahoe County	\$204,016
Health Plains Community Center/Prowers County	\$301,943

Summit Community Care Clinic/Summit County	\$489,638
Sunrise Community Health/Weld County	\$1,580,443
The Pediatric Associates	\$13,601
The Rocky Mountain Youth Clinics	\$416,194
Uncompahgre Combined Clinics/San Miguel County	\$62,566
University of Colorado Denver (Sheridan Health Services)	\$68,005
Valley-Wide Health Systems/Conejos County	\$1,202,335
VVMC Diversified Services	\$108,808
Total Payment	\$27,202,137

# FEDERAL MATCH RATES

Payments for medical services covered under Title XIX of the Social Security Act (the Medicaid Program) are matched with federal funds at the state's Federal Medical Assistance Percentage (FMAP) rate. The FMAP rate is the percentage of the total payments that consists of federal funds. For example, if the FMAP is 50%, then for every qualified payment of \$100, \$50 is federal funds while the remaining \$50 is General Fund or other state dollars. The FMAP is based on the state's median income level relative to the national average. States with a larger proportion of their population at low-income levels will get a higher federal match than states with a smaller proportion of low-income individuals. The FMAP rate varies from state to state but is never less than 50%.

For DSH payments, the federal government matches state payments using the FMAP, but the total DSH payments in a state are subject to an annual allotment or cap.

In May 2003, legislation (P.L. 108-27, subsection 401(a)), through the Jobs and Growth Tax Relief Reconciliation Act, temporarily increased the states' federal match rate. The legislation allowed an additional 2.95% federal match rate to be distributed to the states for the last two quarters of Federal Fiscal Year 2003 and the first three quarters of Federal Fiscal Year 2004 (April 1, 2003 – June 30, 2004). These amounts are shown on Table 23. These additional federal funds were specified to offset the State's General Fund and not directed to increase provider payments.

Section 5001 of Public Law 111-5, the American Recovery and Reinvestment Act of 2009 (ARRA), provided for a temporary increase in the FMAP to assist states in meeting the costs of increasing Medicaid caseloads at a time when their revenues fell due to rising unemployment. Three types of temporary assistance applied to the costs of Medicaid items and services during the period October 1, 2008, through December 31, 2010:

- (1) States that would otherwise experience a drop in their federal matching rate under the regular FMAP formula during FY 2009 or FY 2010 or the first quarter of FY 2011 were held harmless against any decline.
- (2) Every state received an increase in its FMAP by 4.9 percentage points for the entire nine quarter period.
- (3) States experiencing an increase in their unemployment rate received an additional percentage point increase in their FMAP based on a specific formula.

In August 2010, Congress extended the FMAP increase through June 2011 under H.R. 1586, the Education Jobs and Medicaid Assistance Act, with a phase down of the FMAP increase. For Colorado, the enhanced FMAP stepped down from 61.59% to 58.77% for January through March 2011, and then to 56.88% for April through June 2011. The FMAP returned to 50% on July 1, 2011. Again these additional federal funds were specified to offset the state's General Fund and not directed to increase provider payments.

The FMAP increase under ARRA did not apply to DSH payments. The FMAP for DSH payments remained at the state's effective FMAP rate without ARRA. So, for Colorado the FMAP for DSH payments remained 50%.

The FMAP rates for Colorado from FFY 1993-94 through FFY 2012-13 are listed in Table 23.

Table 23 — Colorado's Federal Match Rates

Federal Fiscal Year (October – September)	Match Rate
1993-94	54.30%
1994-95	53.10%
1995-96	52.44%
1996-97	52.32%
1997-98	51.97%
1998-99	50.59%
1999-00	50.00%
2000-01	50.00%
2001-02	50.00%
2002-2003 (Oct. 1, 2002 – March 31, 2003)	50.00%
2002-2003 (April 1, 2003 – Sept. 30, 2003)	52.95%
2003-2004 (Oct. 1, 2003 – June 30, 2004)	52.95%
2003-2004 (July 1, 2004 – Sept. 30, 2004)	50.00%
2004-05	50.00%
2005-06	50.00%
2006-07	50.00%
2007-08	50.00%
2008-2009 (Oct. 1, 2008 - March. 31, 2009)	58.78%
2008-2009 (April 1, 2009 - Sept. 30, 2009)	61.59%
2009-10	61.59%
2010-11 (Oct. 1, 2010 - Dec. 31, 2010)	61.59%
2010-11 (Jan. 1, 2011 - March 31, 2011)	58.77%
2010-11 (April 1, 2011 - June 30, 2011)	56.88%
2010-11 (July 1, 2011 - Sept. 30, 2011)	50.00%
2011-12 (Oct. 1, 2011 - June 30, 2011)	50.00%
2011-12	50.00%
2012-13	50.00%

# DISPROPORTIONATE SHARE HOSPITAL PAYMENT

## LAW AND REGULATIONS

In 1987 Congress amended Title XIX of the Social Security Act (the Medicaid Program) to require states to make enhanced payments for those “safety net” hospitals which provide services to a disproportionate share of Medicaid and low-income patients. DSH payments are intended to offset the uncompensated costs of providing services to uninsured and underinsured patients. The payments assist in securing the hospitals’ financial viability and preserving access to care for the Medicaid and low-income clients, while reducing a shift in costs to private payers. In subsequent legislation, Congress gave states a great deal of flexibility in the design and implementation of their DSH plans.

As states exercised this flexibility to finance the state share of the Medicaid Program, the federal government became alarmed at the corresponding impact on the federal budget. Regulations were put into effect to limit states’ discretion in using provider taxes and contributions for this purpose. These regulations placed caps on the amount of DSH payments states can utilize. Since January 1991, the Colorado Medicaid Program has developed and implemented several measures using DSH payments to finance Medicaid program expansions and to cover the escalating costs of ongoing Medicaid programs and costs associated with the CICP. Effective FY 2009-10, with the implementation of the CHCAA, DSH payments are financed with hospital provider fees and federal matching funds.

## DSH AUDIT

Each year, the Department submits an independent [audit of DSH Payments \(DSH Audit\)](#) to the Centers for Medicare and Medicaid Services (CMS) as directed by Title 42 of the Code of Federal Regulations (CFR) Section 447 (Payments for Services, Reporting Requirements) and 42 CFR Section 455 (Subpart D—Independent Certified Audit of State Disproportionate Share Hospital Payment Adjustments). In accordance with the federal schedule, the most recent DSH Audit was submitted December 2013 for DSH payments made in FY 2009-10. The Audit Reports are located on the Department’s website.

The regulations require that the auditor verify six (6) items. The auditor found the Department to be in compliance with two (2) of the verifications. Due to restrictions on the scope of examination and lack of documentation from the hospitals’ financial accounting records supplied by the Department, the auditor was unable to express and did not express an opinion on the Department’s compliance with four (4) of the verifications, resulting in a finding of significant deficiencies in internal control.

In response to these findings, the Department has procured a contractor to develop a [Uniform Inpatient and Outpatient Medicaid and Uninsured Care Cost and Charge Report specifically for Colorado \(Uniform Cost Report or UCR\)](#) and maintain this documentation for use by the DSH auditor. The UCR will allocate costs according to Medicare cost principles and determine the costs eligible for DSH reimbursement and the hospital-specific DSH limit. Specifically, the UCR will correctly calculate the costs for these clients necessary for the DSH Audit: Medicaid Fee-for-Service, Medicaid Managed Care, Medicaid Out-of-State and the Uninsured.

There are no financial implications of the findings for FY 2009-10. However, beginning with the audits for FY 2010-11, those hospitals that exceed their specific DSH payment limit must redistribute the overage to those hospitals under their specific DSH payment limit as prescribed by the Medicaid State Plan.

## **PAYMENT ALLOTMENT**

The federal Balanced Budget Act of 1997 (BBA97) established declining limits on the amount of federal funds available to states for DSH payments. These limits were established as allotments (or caps) for each state starting in FFY 1997-98. The allotment for Colorado in FFY 2000-01 was to be \$74 million. However, federal legislation was enacted in December 2000 that provided temporary relief from the BBA97 allotments by maintaining the FFY 1999-00 allotment of \$79 million for

FFYs 2000-01 and 2001-02, plus increases tied to the Consumer Price Index for All Urban Consumers (CPI-U) for those years.

For FFY 2002-03, the DSH Allotment reverted to the BBA97 allotment of \$74 million plus an inflationary increase for Colorado. Using an inflationary increase (based on the CPI-U) of 1.5%, the FFY 2002-03 allotment for Colorado was \$75,110,000. Due to the \$8,780,890 decrease in the allotment, DSH provider payments in FY 2002-03 were substantially lower than the previous state fiscal year.

Then, due to a provision in the Medicare Prescription Drug, Improvement and Modernization Act of 2003, the DSH Allotment for Colorado in FFY 2003-04 increased to \$87,127,600, and remained so through FFY 2007-08. In FFY 2008-09, Colorado's DSH Allotment was increased by 4.4% to \$90,961,214. Colorado's DSH Allotment was increased another 2.5% on February 17, 2009 for FFY 2008-09 under ARRA. The FFY 2009-10 DSH Allotment results from a 2.5% ARRA increase over the total FFY 2008-09 allotment.

The FFY 2010-11 and 2011-12 DSH Allotments are the same as was applied prior to the application of the provisions of ARRA, which provided for certain increases in states' DSH Allotments only for FFY 2008-09 and FFY 2009-10. Therefore, the FFY 2010-11 and 2011-12 DSH Allotments are based on the FFY 2008-09 and FFY 2009-10 DSH Allotments as they would have been determined prior to the increases under ARRA. Based on the assumption of declining uninsured and uncompensated care, the ACA prescribed aggregate reductions to the DSH payments beginning in 2014, and scheduled through 2020. However, under the Bipartisan Budget Act of 2013 (H.J.Res. 59), the federal budget for FFYs 2013-14 and 2014-2015, the reductions for FFY 2013-14 are eliminated entirely, and the reductions set for FFY 2014-15 are to be delayed one year.

Colorado's federal fund DSH Allotments are shown in [Table 24](#).

Table 24 — Colorado DSH Allotments

Federal Fiscal Year	Disproportionate Share Hospital Allotments (Federal Funds)
2000-01	\$81,765,000
2001-02	\$83,890,890
2002-03	\$75,110,000
2003-04	\$87,127,600
2004-05	\$87,127,600
2005-06	\$87,127,600
2006-07	\$87,127,600
2007-08	\$87,127,600
2008-09	\$93,235,244
2009-10	\$95,566,125
2010-11	\$92,507,555
2011-12	\$94,727,736
2012-13	\$97,190,657
2013-14*	\$98,648,517

\*Preliminary allotment

# DEFINITIONS

**Affordable Care Act (ACA)** – The comprehensive federal health care reform law enacted in March 2010. The law was enacted in two parts: The Patient Protection and Affordable Care Act was signed into law on March 23, 2010 and was amended by the Health Care and Education Reconciliation Act on March 30, 2010. The name “Affordable Care Act” is used to refer to the final, amended version of the law.

**Bad Debt** – Amounts, including deductibles and copayment amounts, which are acquired by a CICP Hospital provider in providing medical services and considered uncollectible from low-income clients.

**Centers for Medicare and Medicaid Services (CMS)** – The federal agency that runs the Medicare, Medicaid, and Children’s Health Insurance Programs, and the federally facilitated health insurance marketplace.

**Certified Public Expenditure** – An uncompensated cost by a public (State or local government) entity incurred in association with providing a qualified medical service to an eligible Medicaid or indigent client.

**Child Health Plan Plus (CHP+)**. Colorado’s Children’s Health Insurance Program, which is jointly funded by the state and federal government. CHP+ is low cost health and dental insurance for Colorado’s uninsured children and pregnant women. CHP+ is public health insurance for children and pregnant women who earn too much to qualify for Medicaid, but not enough to afford private health insurance.

**Colorado Indigent Care Program (CICP)** – A State program that reimburses participating providers for a portion of the costs incurred in treating eligible individuals. In turn, providers must adhere to State-established limits for amounts charged to eligible individuals. The program promotes access to health care services for low-income individuals by helping to defray the provider costs of furnishing uncompensated care and by limiting the amount that low-income patients must pay. The CICP is not an insurance plan under State law, because it does not provide individuals with a policy that defines a list of benefits to which they are entitled. Colorado statute limits the program’s expenditures to available appropriations and the individual provider’s physical, financial, and staff resources.

**Connect for Health Colorado** – Colorado’s health insurance marketplace for small employers with two to fifty (2 to 50) employees, Coloradans who buy their own health insurance or are uninsured or do not have access to affordable coverage through an employer. Connect for Health Colorado is a non-profit entity established by a state law, Senate Bill 11-200, that was passed in 2011. The organization, legally known as the Colorado Health Benefit Exchange, is governed by a Board of Directors with additional direction from a committee of state legislators, known as the Legislative Health Benefit Exchange Implementation Review Committee.

**CICP Clinic** – A community health clinic licensed by the Department of Public Health and Environment or certified by the U.S. Department of Health and Human Services as a federally qualified health center or rural health clinic.

**CICP Hospital** – Any “General Provider” that is a general hospital licensed or certified by the Department of Public Health and Environment pursuant to 25-1.5-103 C.R.S., which operates inpatient facilities and participates in the Colorado Indigent Care Program.

**CICP Income and Asset Test** – The income and equity in assets, combined, must be at or below 250% of the FPL for client eligibility in the program.

**CICP Rating** – An alphabetic assigned code that designates a family’s copayment and annual copayment cap and correlates to a specific ability to pay. Income, resources and the family household size are used to determine what percentage of the federal poverty level the family meets. The CICP Ability-to-Pay Scale, based on federal poverty levels, is divided into eleven ratings.

**Colorado Health Care Affordability Act or CHCAA** – (HB 09-1293 or Hospital Provider Fee Program) – pursuant to Section 25.5-4-402.3, C.R.S., authorizes the Department, with federal approval, to collect a fee from hospital providers to increase Medicaid and CICP payments to hospitals and expand coverage under public health care programs.

**Comprehensive Primary Care** – The basic, entry-level health care provided by health care practitioners or non-physician health care practitioners that is generally provided in an outpatient setting. Comprehensive primary care, at a minimum, includes providing or arranging for the provision of the following services on a year-round basis: Primary health care; maternity care, including prenatal care; preventive, developmental, and diagnostic services for infants and children; adult preventive services, diagnostic laboratory and radiology services; emergency care for minor trauma; pharmaceutical services; and coordination and follow-up for hospital care.” 25.5-3-203 (1), C.R.S.

**Covered Services** – All medically necessary services that a provider customarily furnishes to and can lawfully offer to patients. These covered services include medical services furnished by participating physicians. The responsible physician must deem that the covered services are medically necessary. The CICP does not reimburse providers for outpatient mental health benefits as a primary diagnosis, but does cover limited inpatient mental health services for a period of 30 days within a calendar year, per client.

**Denver Health Medical Center (“Denver Health” in tables)** – Under the CICP, Denver Health Medical Center primarily serves eligible patients who reside in the City and County of Denver. These facilities include Denver Health Medical Center and eight (8) neighborhood health clinics, all in Denver.

**Disproportionate Share Hospitals (DSH)** – Available DSH funds are distributed to hospitals that participate in the CICP and to other Colorado Medicaid hospitals under two separate DSH payments: the CICP Disproportionate Share Hospital Payment and the Uninsured Disproportionate Share Hospital Payment. The payments help defray the cost of treating uninsured and low-income patients. DSH payments assist in securing the hospitals’ financial viability, preserving access to care for the Medicaid and low-income clients, while reducing cost shifting onto private payers.

**Emergency Care** – Treatment for conditions of an acute, severe nature which are life, limb, or disability threats requiring immediate attention, where any delay in treatment would, in the judgment of the responsible physician, threaten life or loss of function of a patient or viable fetus, Section 25.5-3-103 (1), C.R.S.

**Federal Medical Assistance Percentage (FMAP) or Federal Match Rate or Federal Financial Participation (FFP)** – The portion of the eligible medical and administrative payments that consist of federal funds. For example, if the federal match rate is 50%, then for every qualified payment of \$100, \$50 is federal funds while the remaining \$50 is State General Fund or other state dollars.

**General Provider** – Licensed or certified as a general hospital, community health clinic, or maternity hospital (birth center) by the Department of Public Health and Environment, or certified by the U.S. Department of Health and Human Services as a federally qualified health center or rural health clinic.

**Health Sciences Center** – The schools of medicine, dentistry, nursing, and pharmacy established by the regents of the University of Colorado under Section 5 of Article VIII of the Colorado Constitution, Section 25.5-3-103 (4), C.R.S.

**High Volume Medicaid and CICP Hospitals** – CICP hospital providers with at least 35,000 Medicaid days per year that provide over 30% of their total days to Medicaid and CICP clients. Denver Health Medical Center, Memorial Hospital in Colorado Springs, The Children’s Hospital, and University of Colorado Hospital meet this definition.

**Indigent Client** – A person whose application to receive discounted health services is approved based on the guidelines outlined in the CICP Manual, which stipulates that the individual must have income and assets combined at or below 250% of the Federal Poverty Level (FPL).

**Non-Emergency Care** – Treatment for any conditions not included in the emergency care definition and any additional medical care for those conditions the Department determines to be the most serious threat to the health of medically indigent persons.

**Residency** – The residence of a person is the principal or primary home or place of abode of a person. A principal or primary home or place of abode is that home or place in which a person’s habitation is fixed and to which they, whenever absent, have the present intention of returning after a departure or absence there from, regardless of the duration of such absence, pursuant to Section 1-2-102, C.R.S.

**Specialty Care Program** – Specialty providers must either offer unique services or serve a unique population. Additionally, at least 50% of the medical care rendered through the CICP must be provided to individuals who reside outside the City and County of Denver.

**Subsequent Insurance Payments** – Other insurance payments for services or settlements subsequently received by patients receiving coverage under the CICP. The CICP provider is due reimbursement for amounts paid by the CICP for services rendered to the patient. The provider is then responsible to notify the CICP Administration of subsequent insurance payments it received for care so reimbursed.

**Supplemental Medicaid Payment** –Any payment to a health care provider which is outside the regular Medicaid fee-for-service claim based payment. These are lump-sum payments and not linked to any specific client. All Medicaid payments, including the regular Medicaid fee-for-services rates and Supplemental Medicaid Payments, must be made under the Upper Payment Limit.

**Third-Party Coverage** – Any payment for health services including, but not limited to, private health insurance, medical payments under any other private insurance plan, Workers’ Compensation, Medicare, CHAMPUS, The Health Care Program for Children with Special Needs, and other insurance coverage responsible for payment of medical expenses incurred by individuals. Responsibility for payment may be established by contract, by statute, or by legal liability. Third-party payment does not include: 1) payment from voluntary sources or 2) payment under the Colorado Crime Victim Compensation Act, Section 24-4.1-100.1, C.R.S.

**University of Colorado Hospital (“University Hospital” in tables)** – Under the CICP, University of Colorado Hospital serves primarily the residents of the Denver metropolitan area who are not residents of the City and County of Denver. University of Colorado Hospital also serves as a referral center to provide such complex care that is not available nor contracted for in Denver and the remaining areas of the state.

**Upper Payment Limit (UPL)** – The UPL is the maximum amount Medicaid can reimburse a provider and still receive the federal match rate (or federal financial participation). The UPL is calculated for three (3) distinct service categories: Inpatient Hospital, Outpatient Hospital, and Nursing Facilities. The three (3) unique UPL are calculated by the Department such that each must be a reasonable estimate of the amount Medicare would reimburse providers for providing Medicaid services.

Unduplicated client count is a count of unique social security numbers by provider. Providers are requested to report a unique count for inpatient, outpatient and total clients served. Several providers could not produce a separate count for total clients, so inpatient and outpatient totals were added to create total clients. Since this count is done at the provider level, a client who receives care at multiple CICP providers is counted multiple times in this figure. These conditions create an unduplicated count that overstates the number of actual clients receiving care under the CICP.
