Practitioner HCFA and Local Codes

The Colorado Medicaid Program uses the Health Care Financing Administration's (HCFA) Common Procedural Coding System (HCPCS) to identify Medicaid services. HCPCS include codes in the *Physicians' Current Procedural Terminology* (CPT), codes developed by HCFA and the local Medicare carrier, and "local" codes developed specifically for the Colorado Medicaid Program.

This is the HCFA and local code bulletin for practitioner services. 1999 CPT codes and the codes in this bulletin are **effective for services provided on and after January 1, 1999**. This document is a replacement of Medicaid Bulletin B9802311 (03/98). Insert this bulletin into the Medicaid Provider Manual for reference. Coding updates and revisions will also be published in Medicaid bulletins.

Introduction

Please read the following information carefully:

With few exceptions, Colorado Medicaid claims must be submitted electronically through the Automated Medical Payments (AMP) system.

- Providers consistently submitting less than 10 claims per month may submit paper claims using the information and instructions in the Medicaid Provider Manual.
- Claims that, by federal or state policy or regulation, require the submission of supporting claim documentation must be submitted on paper with appropriate attachments.

AMP claims: Practitioner services are submitted on the electronic Colorado 1500 format. EPSDT Medical Screening services are submitted on the electronic EPSDT format.

Paper claims: Practitioner services are submitted on the Colorado 1500 claim form. EPSDT Medical Screening services are submitted on the EPSDT claim form.

HCPCS codes include codes in the current CPT edition, supplemental codes developed by HCFA, codes developed by the local Medicare carrier, and codes developed specifically for the Medicaid program. The Medicaid program adds and deletes codes as they are published in the current CPT and annual HCFA coding bulletins. Unless otherwise noted, use HCFA codes only when CPT codes are not available.

Code Column: HCFA and local codes consist of a letter followed by four numbers. Read the entire entry to determine the benefit status of the item. Medicaid authorized codes may not correspond to codes approved for Medicare billing. This list contains Medicaid approved HCFA and local codes. Codes that do not appear in CPT or this listing are not benefits of the Colorado Medicaid Program.

Modifiers: Procedure code modifiers describe circumstances which may alter payment. The following modifiers are valid for use with HCPCS codes in this coding bulletin and must be used when applicable. Modifiers which affect the way the claim payment is calculated **must be entered in the first modifier position**. The following reference information identifies the pricing modifiers. Please review the information carefully.

The notation ** indicates that when the modifier is used, it must be entered into the first modifier position on the electronic claim record. If two modifiers are used and both modifiers have the ** notation, either modifier may be placed in the first position.

-24	Unrelated evaluation and management service by the same physician during a postoperative period	The physician may need to indicate that an evaluation and management service was performed during a postoperative period for a reason(s) unrelated to the original procedure. This circumstance may be reported by adding the modifier -24 to the appropriate level of E/M service.
-26**	Professional component	Use when the professional component is performed separately.
-TC**	Technical component	Use when the technical component is performed separately.
-47**	Anesthesia by surgeon	Use to identify general or regional anesthesia by the operating surgeon. Allowance for local anesthesia is included in the surgical payment and is not billable separately.
-50**	Bilateral procedure	Unless otherwise identified in CPT, bilateral procedures requiring a separate incision performed at the same operative session are billed by listing the CPT surgical code describing the first procedure on one claim line. The second (bilateral) procedure is identified on a separate claim line by adding modifier -50 to the procedure code.
-51	Multiple procedures	When multiple procedures, other than evaluation and management services, are performed on the same day or at the same session by the same provider, the primary procedure or service may be reported as listed. The additional procedure(s) or service(s) may be identified by appending the modifier -51 to the additional procedure or service code(s).
-62	Two surgeons	The skills of two surgeons may be required in the management of a specific surgical procedure. Under such circumstances, the separate services may be identified by adding the modifier -62 to the procedure number used by each surgeon for reporting his services. NOTE: No reimbursement for assistant surgeon during operative session by either provider.
-76	Repeat procedure by same physician	When a service is rendered more than once per day by the same provider and billed on separate billing lines, use modifier -76 to identify <u>subsequent</u> occurrences of the same service.
-77	Repeat Procedure by another physician/provider	If a service is provided more than once per day by different rendering providers, use modifier -77 to identify subsequent occurrences of the same service on the same date.
-79	Unrelated procedure or service by the same physician during postop period	Use to identify unrelated procedures and services provided by the operating surgeon during the postoperative period.

-80**	Assistant surgeon	Use to identify assistant surgeon services.
-81	Minimum assistant surgeon	Minimum assistant surgeon services are identified by adding modifier -81 to the procedure code.
-QR	Repeat clinical diagnostic test	Repeat clinical diagnostic laboratory test performed on the same day to obtain subsequent reportable test value(s) (separate specimens taken in separate encounters).
-XE	Medicare non-benefit routine footcare	Use to identify routine podiatric footcare services that are not covered by Medicare.
-XL	Specimen handling & conveyance from one laboratory to another	Use to certify that the necessary laboratory equipment was not functioning or that the lab is not certified to perform the test.
-XN	Inpatient newborn services billed using mother's state ID & birth date	Use to identify inpatient physician services rendered to newborn infants while mother remains in the hospital.
-XV	Surgery related eyewear	Use with eyewear codes to certify eyewear is being provided following eye surgery. Eye surgery may have been performed at any time during the patient's life. Use with each applicable code.

Narrative column: A description of the service. When appropriate, the description defines the billing unit. Example: J0120 Injection, Tetracycline, up to 250 mg. One unit represents an injection of 250 mg or less. When billing for a higher dosage than listed, increase the number of units to correspond to the dosage administered. Bill using whole numbers only, no fractions and no decimals.

Benefit column: The current benefit status of the item. The notation "Deleted" means that the code is invalid effective the day following the date shown in the "Comments" column. Example: Codes that are deleted effective 12/31/98 are invalid for billing services provided on or after 01/01/99. Newly added codes become effective on the date shown. Example: Codes showing an effective date of 01/01/99 may be submitted for services provided on or after 01/01/99.

Comments Column: Expands on the description, identifies required special billing instruction and procedures requiring prior authorization.

Prior Authorization Requests (PARs) must be approved before claims are submitted. PAR approval does not guarantee Medicaid payment and does not serve as a timely filing waiver. PAR approval only assures that the service has been identified as medically necessary. All billing and eligibility requirements must be met before reimbursement is made. Prior authorization does not apply to Medicare crossover claims. If Medicare approves benefits, Medicaid will consider Medicare coinsurance and deductible. If Medicare does not provide benefit for an item, all applicable Medicaid billing requirements (including prior authorization if indicated) must be met.

This listing is divided into sections to assist providers who bill for specific types of service. If you have questions about billing or the use of the listing, please contact Medicaid Provider Services.

Supplies provided by the practitioner

Nonbillable routine supplies and materials - Included in related medical/surgical fees - Do not bill for these supplies

The cost of these supplies is included in the payment for related medical or surgical services

Absorbent pads or sponges	Gauze pads	Saline for irrigation
Alcohol swabs	Gloves (Sterile or nonsterile)	Suppository medications
Anesthetics (topical or local)	Liquid nitrogen	Suture supplies
Band-aids	Non-adhering dressings (Telfa, etc.)	Swabs
Betadine	Oral medication	Syringes & needles (Except Trocar needles)
Cotton balls	Oxygen	Tape
Eye patches	Peroxide	Tongue blades

Billable non-routine supplies - Use individual HCPCS codes

The following supplies must be billed as individual claim lines. The billed amount should reflect the provider's usual and customary charge.

A4212 - Non coring needle (Huber)	A4614 – Peak Expiratory Flow rate meter, hand held (effective 01/01/99)
A4220 - Refill kit for implantable infusion pump	E0100 - Cane, all materials
A4221 - Supplies for maintenance of drug infusion, catheter, per week (list drug separately)	E0112 - Crutches, underarm, adjustable or fixed, wood, pair
A4222 - Supplies for external drug infusion pump, per cassette or bag (list drug separately)	E0114 - Crutches, underarm, adjustable or fixed, aluminum, pair
A4262 - Temporary, absorbable lacrimal duct implant, each	E0785 - Implantable intraspinal (epidural/intrathecal) catheter used with implantable infusion pump, replacement (effective 01/01/99)
A4261 - Cervical cap for contraceptive use (effective 01/01/99)	J7300 - Intrauterine copper IUD (Para Gard)
A4263 - Permanent, long term, non-dissolvable lacrimal duct implant, each	X2305 - Intrauterine progesterone IUD (Progestasert)
A4270 - Disposable endoscope sheath, each	K0417 - External infusion pump, mechanical, reusable for short term drug infusion. Requires prior authorization.
A4460 - Ace bandages	L0120 - Cervical Collar, flexible, non-adjusting
A4465 - Non-elastic binder for extremity	L4350 - Pneumatic ankle control splint (aircast)
A4550 - Surgical trays	L4360 - Pneumatic walking splint (aircast)
A4560 – Pessary (invoice required)	L4370 - Pneumatic full leg splint (aircast)
A4565 - Slings	L4380 - Pneumatic knee splint (aircast)
A4570 - Splints/immobilizer	X2265 - Home IV pump rental, per day
A4580 - Cast supplies (e.g., plaster)	
A4590 - Special casting material (e.g., fiberglass)	

Billable non-routine supplies - Use 99070 procedure code

Submit claims for these items and any other supplies not listed above using procedure code 99070. Claims must be submitted on paper. Describe the item(s) and enter the cost of the item(s) provided. If the cost is over \$25.00, attach a copy of the vendor's invoice.

Cast shoe	Collagen plugs	Gastrostomy buttons	Meter chambers	Plastic haggard dilators
Catheters, urinary	Corneal bandage lens	G&S disposable dilators	Nasogastric tubes	Porcine dressing
Chemotherapy supplies	Diaphragm	Grosshans catheter	Nebulizer	Surgical shoes
Clavicle strap	Duoderm	Inhalation therapy mask	Patellar stabilizer	Trocar needles

Nonbenefit supplies, materials & equipment - Not a benefit when provided by a physician/practitioner

The following items are not benefits of the Medicaid Program when provided by a physician:

Braces	Heel cups	Self-help devices
Exercise equipment	Prosthetics	

Biologicals, drugs & solutions administered other than orally

Billing information

With the exception of oral immunizations, the cost of oral medication provided by a physician is included in the medical service payment. Except for chemotherapy agents and immunizations distributed at no cost by the Department of Public Health and Environment for Children, the benefit for injections & immunizations covers the cost of medication, associated supplies & administration. Chemotherapy administration is billed separately from chemotherapy drugs & agents. When billing for injections & immunizations, please observe the following:

1. Injections are usually provided in conjunction with an evaluation/management (E/M) service. If an injection is the ONLY service performed, charges for a minimal medical service visit (CPT code 99211) may also be billed. If higher level E/M services are rendered, the provider should document the reason for care (diagnosis) & appropriate level of service (E/M code) on the claim. Reminder: Level of service identification is the responsibility of the medical professional. Providers are responsible for maintaining records documenting the full nature & extent of the services rendered to Medicaid clients.
2. Claims submitted using CPT therapeutic or diagnostic injection codes 90782-90799 are denied. Injections/immunizations must be billed using HCPCS codes which identify the drug or medication. If a drug or therapeutic agent is not identified by a specific HCPCS code, the claim must be submitted on paper using code J3490 & identifying the exact medication, strength, & dosage in field 30 (Remarks). Claims without complete medication identification are denied.
3. Bill immunizations using CPT codes in the ranges 90281-90399 and 90476-90749. **Note:** 90471-90472 Administration Codes are not a benefit of Medicaid and should not be billed.
4. Immunizations provided as part of the EPSDT medical screening service (initial, periodic, partial or interperiodic) should be billed in addition to the EPSDT medical screening code on the EPSDT claim form.
5. Bill for chemotherapy administration using CPT codes in the range 96400-96549. Chemotherapy drugs/agents must be billed using HCFA code(s) from this listing.
6. Medication codes identify a specific dosage or definition of the billing unit. Any dosage up to & including the amount specified represents one billing unit. If the dosage is greater than the dosage listed, increase the number of units accordingly by whole numbers. Example: J0120 Injection, Tetracycline, up to 250 mg. One unit represents an injection of 250 mg or less; more than 250 mg up to 500 mg equals 2 units, etc.

Pricing information for injectible drugs

1. Injectible drugs are reimbursed using average wholesale price + 10 percent + \$2.00 administration fee.

Pricing information for immunizations

Immunization reimbursement

Medically necessary vaccines that are not provided to practitioners at no cost by the VFC or Infant Immunization program, as well as immunizations provided to adults, are reimbursed using the following formula: Average wholesale price (cost) of vaccine + 10 percent + \$2.00 for administration.

Medicare crossover claims

For Medicare crossover claims, Medicaid pays the Medicare deductible and coinsurance OR, the Medicaid-allowed benefit minus the Medicare payment, whichever amount is less. If Medicare's payment for immunization services is the same or greater than the Medicaid allowable benefit, no additional payment is available. If Medicare pays 100 percent of the Medicare allowable, no additional Medicaid payment is available.

Public health clinics – Administration, Recordkeeping, and Tracking (ART) fees

Public health clinics are eligible to receive vaccines at no cost from the Colorado Department of Public Health and Environment (CDPHE), for administration to eligible children from birth through age 20 years. The clinic may bill and be reimbursed \$2.00 for the ART fee for each immunization. Claims must be submitted using locally assigned X-codes to identify the immunization.

Private practitioners – Administration, Recordkeeping, and Tracking (ART) fees

Practitioners billing for immunizations to EPSDT-eligible children (newborn through age 20) where vaccine is available at no cost from the CDPHE are paid an ART fee of \$6.50 for each immunization.

Facility-based clinics

Facility-based clinics bill on the UB-92 or electronic institutional claim format. Facilities billing for immunizations given to EPSDT-eligible children using a vaccine that is available through the CDPHE receive an encounter rate and may not seek claim reimbursement for vaccine costs or the ART fee.

Medical screening - Early & Periodic Screening, Diagnosis & Treatment (EPSDT) program billing information

The EPSDT Program provides preventive medical services to Medicaid clients age 20 and under. Please refer to the EPSDT Medicaid Provider Manual for a full EPSDT program description. The Colorado Medical Screening Periodicity schedule is located on pages 1-6 through 1-7 of the EPSDT manual. Additional services may be provided in accordance with the medical needs & circumstances of the child. A complete EPSDT Medical Screening examination includes the following components:

- 1) Comprehensive health & developmental history;
- 2) Comprehensive unclothed physical examination;
- 3) Immunizations appropriate to age & health history;
- 4) Laboratory tests (including lead blood level assessment appropriate to age & risk)
- 5) Health education (including anticipatory guidance)

The codes below identify interperiodic & partial EPSDT medical screening services.

X1400	Interperiodic screening - Ages 0-11	Yes	A screening exam that includes all of the required components provided to a child whose age does not match the age parameters of the Screening Periodicity schedule.
X1405	Interperiodic screening - Ages 12-20	Yes	A screening exam that includes all of the required components provided to a youth whose age does not match the age parameters of the Screening Periodicity schedule.
X1410	Partial medical screening - Ages 0-20	Yes	A screening exam that does not include all of the required components. Immunizations, laboratory tests by the physician, & health education counseling may, when appropriate, be billed in addition to the partial screen.

Psychiatry			
<p>Note: Providers of psychiatric services are instructed to continue using the 1997 HCPCS until further notice. 1999 HCPCS for psychiatric services will be implemented at a later date. Please see Medicaid Bulletin B9802303 for details regarding proper coding.</p> <p>Billing & benefit information</p> <p>Benefit is available for face to face patient contact psychiatric services only. One unit of service is defined as 15 minutes of face to face patient contact time. Fractional units may be rounded up to the next 15 minute increment. Do not increase units to account for or include non-face-to-face services such as report preparation, telephone consultation, case presentations, or staff conferences, etc.</p> <p>New 1996 CPT codes 96100-96117 should be billed utilizing time units in accordance with CPT 96 narrative guidelines.</p> <p>CPT codes 90842 and 90844, individual medical psychotherapy by a physician... with specific time reference, are not valid for Colorado Medicaid billing. Use CPT 90843 & bill time units as described previously.</p> <p>With the exception of enrolled licensed psychologists, non-physician mental health practitioners are not authorized to provide services in an inpatient hospital setting.</p> <p>Please refer to the Medicaid Medical/Surgical Specialty Provider Manual, pages 11 & 12, for psychiatric benefit limitations.</p> <p>With the exception of licensed psychologists & services provided in a certified community mental health center setting, all services provided by non-physicians must be ordered by a licensed physician & provided under the direct & personal supervision of a physician who is on the premises at the time services are rendered. Licensed psychologists may not serve as supervisors of treatment services provided by other non-physician providers.</p> <p>Procedural Coding: The Medicaid program uses locally developed HCPCS codes to identify mental health services by non-physician providers. Claims for services provided by non-physician mental health practitioners must be submitted using HCPCS codes that correctly correspond to the educational level of the individual actually rendering the service. With the exception of licensed psychologists & the authorized use of CPT code 96100 for psychological testing by Ph.D. level psychologists as noted below, Non-physician mental health practitioners cannot submit claims using CPT procedure codes.</p> <p>Certified Community Mental Health Centers: Psychiatric benefit services are also available through a state certified community mental health center. The following coding information does not apply to services provided by employees of certified Community Mental Health Centers. Services provided in a certified community mental health center must be billed by the mental health center using specially designated HCPCS codes. Payment is made to the mental health center.</p> <p>Licensed Psychologists: Licensed clinical psychologists receive direct Medicaid payment. Licensed psychologists may not serve as supervisors of treatment services provided by other non-physician providers. Licensed psychologists may provide & bill for the following services:</p> <ul style="list-style-type: none"> • Psychological testing - Use CPT code 96100. • Inpatient hospital care - Use CPT code 90841. • Psychological testing by less than Ph.D. level non-physician providers - Use HCPCS code X0500. Licensed psychologists may supervise & submit claims for psychological testing by less than Ph.D. level non-physician providers. Identification of the individual who actually performs the testing must be recorded in the medical record. • Summary conference with family members - Use HCPCS code X0501. Unlike family therapy, the summary conference generally involves interpretation of diagnostic testing or consultation with family & patient related to unusual events. The patient must be in attendance during the conference. • Ambulatory/outpatient individual psychotherapy - Use HCPCS code X0504. • Ambulatory/outpatient group psychotherapy - Use HCPCS code X0512.

Laboratory

Billing information

The provider who actually performs the laboratory test is the only one who is eligible to bill & receive payment. Physicians may only bill for tests actually performed in their office or clinic. Testing performed by independent laboratories or hospital outpatient laboratories must be billed by the laboratory. To receive Medicaid payment, all providers of laboratory services must be CLIA certified & Medicaid enrolled.

CPT lists tests that can be & frequently are done as groups & combinations (profiles) on automated multichannel equipment. Multichannel clinical laboratory test codes 80002-80019 and G0058-G0060 were deleted effective 12/31/97. For organ or disease oriented panels (check CPT narrative), use the appropriate code in the range 80049-80092. These tests are not to be performed or billed separately when ordered in a group/combination. Procedures must be billed with one unit of service.

In accordance with Section 1903(i)(7) of the Social Security Act, Medicaid shall not expend funds for clinical diagnostic laboratory services in excess of the amount that would be recognized under Medicare. Providers therefore may not bill the Medicaid Program for specific tests for which a claim for the same test, inclusive in a panel or multichannel test, has been or will be submitted. Reimbursement received as a result of incorrect billing is subject to recovery.

When modifier –XV is used with one of the procedures listed below, it indicates that the service is related to a prior eye surgery. The use of modifier –XV with the following procedures removes all prior authorization requirements for clients age 20 and under and allows surgery-related vision services for clients age 21 and over.

Prosthetics & Orthotics

Effective for service dates on or after July 1, 1998, prostheses and orthoses are a covered Medicaid benefit for the adult Medicaid population. The benefit includes such items as braces, artificial limbs, augmentative communication devices, and orthopedic shoes for diabetic clients. These items must be prescribed by the client's physician and prior authorized before services are rendered.

Vision eyewear

Billing & benefit information. Please review this information carefully before referencing CPT. Use CPT codes only if there is no HCFA or local code to appropriately describe the service performed.

The Colorado Medicaid Program provides benefit for medically necessary ophthalmological refractions as a component of general ophthalmological services (CPT codes 92002 - 92014). There is no additional or separate benefit for procedure code 92015 when billing a general ophthalmological examination for adults or children.

For children and adolescents, through the age of 20, determination of the refractive state only, using code 92015, is allowable as a partial vision screening. The code may not be billed with general ophthalmological examinations or other evaluation and management codes. Separate or "stand-alone" charges for refractions are not billable to Medicaid clients as non-benefit services.

Benefits for clients age 21 and over: Medically necessary eye examinations are benefits for Medicaid clients age 21 and over. Use CPT codes to submit claims for eye exams. Medically necessary glasses & contact lenses are benefits for clients over age 20 **following eye surgery only** & do not require prior authorization. Each procedure code must be billed with modifier -XV to identify surgery related eyewear.

Benefits for clients age 20 and under: The EPSDT Program provides the following vision benefits for clients age 20 and under:

- Standard eye glasses (one or two single or multifocal clear glass lenses with one standard frame). Medicaid provides payment for one standard frame.
- Glasses dispensed by an optician are a benefit when ordered by an ophthalmologist or optometrist.
- Replacement or repair of frames or lenses (standard eye glasses), not to exceed the cost of replacement.
- Contact lenses are a benefit if medically necessary & prior authorized, or when billed with modifier –XU to identify surgery-related services.
- Contact lens supplies & contact lens insurance are not benefits.
- Ocular prosthetics are a benefit if services are prior authorized. A statement of medical necessity must accompany the prior authorization request.
- There is no yearly maximum for eye exams or glasses.

Claims: Ophthalmologists, optometrists, and opticians bill on the Colorado 1500 practitioner claim format.

Code	Narrative	Benefit	Comments
	<p>Lens materials: Materials must be billed using HCFA codes from this bulletin. CPT codes 92390-92396 will be denied. One unit of service represents one lens. If two lenses of the same strength are provided, complete one billing line, enter units of service as 2 & charges as the total charge for both lenses. Lenses of different strengths are billed on separate claim lines.</p> <p>Lens Dispensing: A dispensing fee is allowed for each lens. Use CPT codes in the range 92340-92353. For two lenses, complete one claim line with two units of service & charges for both lenses. Frame dispensing is NOT a separate benefit.</p>		
Frames			
V2020	Frames, purchase	Yes	Includes cost of frame or replacement & dispensing fee. One unit of service represents one frame. Payment includes materials cost & dispensing fee. Also use to report frame repairs. One unit of service represents one repair. Payment includes materials & dispensing & will not exceed the allowable benefit for frame replacement. If client requests deluxe frame, costs above the Medicaid allowance may be billed to the client. Provider should discuss charges & get written agreement for payment of non-covered costs before providing additional or deluxe items. This also applies to the repair or replacement of eyeglasses.

X0309	Polycarbonate, single vision, plus or minus 7.25 to plus or minus 12.00d sphere, 2.25d to 4.00d cylinder, per lens	Yes	
X0310	Polycarbonate, single vision, plus or minus 7.25 to plus or minus 12.00d sphere, 4.25 to 6.00d cylinder, per lens	Yes	
X0311	Polycarbonate, single vision, sphere over plus or minus 12.00d per lens	Yes	Bill on paper. Requires optical lab invoice.

Variable asphericity lens

V2410	Variable asphericity lens, single vision, full field, glass or plastic, per lens	Yes	
V2430	Variable asphericity lens, bifocal, full field, glass or plastic, per lens	Yes	
V2499	Variable sphericity lens, other type	Yes	Bill on paper. Requires report of other type of lens and optical lab invoice.

Contact lens

For clients age 21 and over, medically necessary contact lenses only are a benefit following eye surgery. Providers must identify claims for vision correction services provided after surgery by entering modifier -XV with each eyewear procedure code to certify that eyewear (glasses & contact lens) materials and dispensing fees are being provided after eye surgery. Contact lenses must be prior authorized for clients age 20 and under unless provided for vision correction after surgery. Contact lens supplies are not a benefit of the Medicaid program.

V2500	Contact lens, PMMA, spherical, per lens	Yes	Requires prior authorization for client age 20 and under.
V2501	Contact lens, PMMA, toric or prism ballast, per lens	Yes	Requires prior authorization for client age 20 and under.
V2502	Contact lens, PMMA, bifocal, per lens	Yes	Requires prior authorization for client age 20 and under. Bill on paper. Requires optical lab invoice.

Code	Narrative	Benefit	Comments
V2503	Contact lens, PMMA, color vision deficiency, per lens	Yes	Requires prior authorization for client age 20 and under. Bill on paper. Requires optical lab invoice.
V2510	Contact lens, gas permeable, spherical, per lens	Yes	Requires prior authorization for client age 20 and under.
V2511	Contact lens, gas permeable, toric, prism ballast, per lens	Yes	Requires prior authorization for client age 20 and under.
V2512	Contact lens, gas permeable, bifocal, per lens	Yes	Requires prior authorization for client age 20 and under.
V2513	Contact lens, gas permeable, extended wear, per lens	Yes	Requires prior authorization for client age 20 and under.
V2520	Contact lens, hydrophilic, spherical, per lens	Yes	Requires prior authorization for client age 20 and under.
V2521	Contact lens, hydrophilic, toric or prism ballast, per lens	Yes	Requires prior authorization for client age 20 and under.
V2522	Contact lens, hydrophilic, bifocal, per lens	Yes	Requires prior authorization for client age 20 and under.
V2523	Contact lens, hydrophilic, extended wear, per lens	Yes	Requires prior authorization for client age 20 and under.
V2530	Contact lens, scleral, per lens	Yes	Requires prior authorization for client age 20 and under.
V2531	Contact lens, scleral, gas permeable, per lens (for contact lens modification, see 92325)	Yes	Requires prior authorization for client age 20 and under. Bill on paper. Requires optical lab invoice.
V2599	Contact lens, other type	Yes	Requires prior authorization. Bill on paper. Requires report of other type of contact lens and optical invoice.

Low vision aids

V2600	Hand held low vision & other non-spectacle mounted aids	Yes	Requires prior authorization.
V2610	Single lens spectacle mounted low vision aids	Yes	Requires prior authorization.
V2615	Telescopic & other compound lens system, including distance vision telescopic, near vision telescopes & compound microscopic lens system	Yes	Requires prior authorization. Bill on paper. Requires optical lab invoice.

Ocular prosthetic

Statement of medical necessity and report of the type of prosthetic eye must accompany prior authorization request.

V2623	Prosthetic, eye, plastic, custom	Yes	Requires prior authorization. Bill on paper. Requires optical lab invoice.
V2624	Polishing/resurfacing of ocular prosthesis	Yes	Requires prior authorization. Bill on paper. Requires optical lab invoice.
V2625	Enlargement of ocular prosthesis	Yes	Requires prior authorization. Bill on paper. Requires optical lab invoice.
V2626	Reduction of ocular prosthesis	Yes	Requires prior authorization. Bill on paper. Requires optical lab invoice.
V2627	Scleral cover shell	Yes	Requires prior authorization. Bill on paper. Requires optical lab invoice.
V2628	Fabrication & fitting of ocular conformer	Yes	Requires prior authorization. Bill on paper. Requires optical lab invoice.
V2629	Prosthetic eye, other type	Yes	Requires prior authorization. Bill on paper. Requires optical lab invoice.

Intraocular lens

V2630	Anterior chamber intraocular lens	Yes
