DRG relative weight changes

Effective March 1, 2000, the Colorado Medicaid Program will implement new relative weights, Average Lengths Of Stay (ALOS), and trim points for all Diagnostic Related Groups (DRGs). The Medicaid Program has recalibrated the DRGs to allow for changes in medical technology, practice patterns, and hospital costs. The recalibrated DRG relative weights, ALOS, and trim points will be applied to claims with discharge dates on or after March 1, 2000. Regardless of the date the fiscal agent receives claims, discharge dates prior to March 1, 2000 will be paid using current relative weights.

Medicaid Bulletin B9900041 mailed in December 1999 stated that the implementation date for the new DRG relative weights would be February 1, 2000. However, the implementation date has been delayed until March 1, 2000 to allow hospitals additional time to incorporate any necessary changes into their systems. The delay applies only to the implementation of the DRG relative weights. Grouper version 17.0 will still be implemented on February 1, 2000 as stated in B9900041.

The recalibrated DRG relative weights, ALOS, and trim points are identified on the following pages of this bulletin. For reference, please retain this information with your provider manual.

Please direct questions about Medicaid or the information in this bulletin to Medicaid Provider Services at 303-534-0146 or 1-800-237-0757 (toll free Colorado).

Medicaid bulletins contain important policy and billing information and should be shared promptly with billing staff.

Bulletins supplement information in the Medicaid Provider Manual and should be retained with the provider manual for reference. Retain all bulletins until published notification advises that the information is obsolete or reproduced in subsequent bulletins or provider manual updates.

Please direct questions about bulletins and billing information to Medicaid Provider Services.
