## Vision eyewear CMS and local codes

The Colorado Medicaid Program uses the Center for Medicare and Medicaid Services (CMS) Healthcare Common Procedural Coding System (HCPCS) to identify Medicaid services. HCPCS includes codes in the *Physicians' Current Procedural Terminology* (CPT), codes developed by CMS and Medicare, and "local" codes developed specifically for the Colorado Medicaid Program.

This is the CMS and local code bulletin for vision eyewear services. CPT codes and the codes in this bulletin are **effective for services provided on and after January 1, 2003**. This document is a replacement of Medicaid Bulletin B9900026 (08/99). Insert this bulletin into the Medicaid Provider Manual for reference. Coding updates and revisions will also be published in Medicaid bulletins.

Medicaid bulletins contain important policy and billing information and should be shared promptly with billing staff.

Bulletins supplement information in the Medicaid Provider Manual and should be retained with the provider manual for reference. Retain all bulletins until published notification advises that the information is obsolete or reproduced in subsequent bulletins or provider manual updates.

Please direct questions about bulletins and billing information to Medicaid Provider Services.

---

## Using the HCPCS listing

### Please read the following information carefully:

With few exceptions, Colorado Medicaid claims must be submitted electronically through the Automated Medical Payments (*AMP*) system.

- Providers consistently submitting fewer than five claims per month may submit paper claims using the information and instructions in the Medicaid Provider Manual.
- Claims that, by federal or state policy or regulation, require the submission of supporting claim documentation must be submitted on paper with appropriate attachments.

**AMP claims:** All AMP interactive submissions for Ophthalmologist, Optometrist, and Optician services are submitted on the electronic Colorado 1500 practitioner format.

**Paper claims:** If paper claim submission is required, providers must submit charges on the Colorado 1500 claim form. **Code Column:** CMS and local codes consist of a letter followed by four numbers. Codes authorized for the Medicaid program may not correspond to codes approved for Medicare billing. This list identifies the CMS and local codes approved for billing the Colorado Medicaid Program. CMS codes that are not identified in this listing are not benefits of the Colorado Medicaid Program.

When billing vision eyewear services, use CPT codes **only** if there is no HCPCS code that appropriately describes the service performed.

**Narrative column:** When appropriate, the procedural description defines the billing unit.

**Benefit column:** The notation “yes” indicates this service is a benefit of the Colorado Medicaid Program.

**Comments Column:** Expands on the description, identifies special billing instructions and procedures requiring prior authorization.

**Modifiers:** Use modifier –XV with each vision correction procedure code to identify eyewear services provided to a client with a history of eye surgery. Benefits are related to procedures only affecting vision correction. Such procedures would include surgeries on the eyeball and supporting musculature and nerve tissue.

## Billing & benefit information

**Please review this information carefully before referencing CPT. Use CPT codes only if there is no CMS or local code to appropriately describe the service performed.**

**Benefits for clients age 21 and over:** Medically necessary eye examinations are benefits for Medicaid clients age 21 and over. Use CPT codes to submit claims for eye exams. Medically necessary glasses & contact lenses are benefits for clients over age 20 **following eye surgery only** & do not require prior authorization. Each procedure code must be billed with modifier -XV to identify surgery related eyewear.

**Benefits for clients age 20 and under:** The EPSDT Program provides the following vision benefits for clients age 20 and under:

- Standard eyeglasses (one or two single or multi-focal clear glass lenses with one standard frame). Medicaid provides payment for a standard frame.
- Glasses dispensed by an optician are a benefit when ordered by an ophthalmologist or optometrist.
- Replacement or repair of frames or lenses (standard eye glasses), not to exceed the cost of replacement.
- Contact lenses are a benefit if medically necessary & prior authorized, or when billed with modifier –XV to identify surgery-related services.
- Contact lens supplies & contact lens insurance are not benefits.
- Ocular prosthetics are a benefit if services are prior authorized. A statement of medical necessity must accompany the prior authorization request.
- There is no yearly maximum for eye exams or glasses.

**Lens materials:** Materials must be billed using CMS codes from this bulletin. CPT codes 92390-92396 will be denied. One unit of service represents one lens. If two lenses of the same strength are provided, complete one billing line; enter units of service as 2 & charges as the total charge for both lenses. Lenses of different strengths are billed on separate claim lines.

**Lens Dispensing:** A dispensing fee is allowed for each lens. Use CPT codes in the range 92340-92355. For two lenses, complete one claim line with two units of service & charges for both lenses. Frame dispensing is not a separate benefit.

Code	Narrative	Benefit	Comments
<b>Frames</b>			
V2020	Frames, purchase	Yes	Includes cost of frame or replacement & dispensing fee. One unit of service represents one frame. Payment includes materials cost & dispensing fee. Also use to report frame repairs. One unit of service represents one repair. Payment includes materials & dispensing & will not exceed the allowable benefit for frame replacement. If a client requests a deluxe frame, the provider must discuss the need for additional charges to the client, and must obtain a written agreement from the client to pay the non-covered costs. Allowable non-covered costs that may be charged to the client are those representing the difference between the providers retail usual and customary charges for the Medicaid allowable frames and the retail amount for the upgraded frames requested by the client. This also applies to the repair or replacement of eyeglasses.  Provider must bill S1001, Deluxe item, (list in addition to code for basic item).
V2025	Deluxe Optical Frame	No	See V2020

#### Single vision lens

Vision correction may be provided utilizing a variety of materials, including glass, plastic or polycarbonate lenses, as ordered by the provider. When submitting a claim for polycarbonate lenses, the provider must bill the codes for polycarbonates, and not those for glass or plastic. The allowable for polycarbonate lenses is not to be an additional charge, but must be billed alone.
