Medical Assistance Program bulletins contain important policy and billing information and should be shared promptly with billing staff.

Bulletins supplement information in the Medical Assistance Program Provider Manual and should be retained with the provider manual for reference. Retain all bulletins until published notification advises that the information is obsolete or reproduced in subsequent bulletins or provider manual updates.

Please direct questions about bulletins and billing information to Medical Assistance Program Provider Services.

This bulletin replaces Medical Assistance Program Bulletin B0500205 (12/05).

B0500205 (12/05) should be discarded.

Vision Eyewear HCPCS Codes

The Colorado Medical Assistance Program uses the Center for Medicare and Medicaid Services (CMS) Healthcare Common Procedural Coding System (HCPCS) to identify Medical Assistance Program services. HCPCS includes codes in the *Physicians' Current Procedural Terminology* (CPT) and codes developed by CMS.

This is the Colorado Medical Assistance Program Vision Eyewear bulletin which contains updated HCPCS codes for vision services. CPT codes and the codes in this bulletin are **effective for services provided on and after January 1, 2007**. Keep this bulletin with the Medical Assistance Program Provider Manual for reference. Coding updates and revisions are also published in Medical Assistance Program bulletins.

Using the HCPCS listing

Please read the following information carefully:

With few exceptions, Colorado Medical Assistance Program claims must be submitted electronically.

Exceptions to electronic filing include:

- Claims from providers who consistently submit fewer than five claims per month.
- Claims with service dates more than 365 days old.
- Claims that, by federal or state policy or regulation, require attachments.
- Reconsideration claims.

Electronic claims: All electronic submissions for Ophthalmologist, Optometrist, and Optician services are submitted on the electronic Colorado 1500 or 837 format.

Paper claims: If paper claim submission is required, providers must submit charges on the Colorado 1500 claim form.

Code Column: HCPC Level II codes consist of a letter followed by four numbers. Codes authorized for the Medical Assistance program may not correspond to codes approved for Medicare billing. This list identifies the HCPC Level II codes approved for billing the Colorado Medical Assistance Program. HCPC Level II codes that are not identified in this listing are not benefits of the Colorado Medical Assistance Program.

When billing vision eyewear services, use CPT codes **only** if there is no HCPC Level II code that appropriately describes the service performed.

Narrative column: When appropriate, the procedural description defines the billing unit.

Benefit column: The notation “yes” indicates this service is a benefit of the Colorado Medical Assistance Program.

Comments Column: Expands on the description, identifies special billing instructions and procedures requiring prior authorization.

Modifiers: Use modifier –55 with each vision correction procedure code to identify eyewear services provided to a client with a history of eye surgery. Benefits are related to procedures only affecting vision correction. Such procedures would include surgeries on the eyeball and supporting musculature and nerve tissue.

Vision eyewear

Billing & benefit information. Please review this information carefully before referencing CPT. Use CPT codes only if there is no HCPCS Level II code to appropriately describe the service performed.

The Colorado Medical Assistance Program provides benefit for medically necessary ophthalmological refractions as a component of general ophthalmological services (CPT codes 92002 - 92014). There is no additional or separate benefit for procedure code 92015 when billing a general ophthalmological examination for adults or children.

For children and adolescents under age 21, determination of the refractive state only, using code 92015, is allowable as a partial vision screening. The code may not be billed with general ophthalmological examinations or other evaluation and management codes. Separate or "stand-alone" charges for refractions are not billable to Medical Assistance Program clients as non-benefit services.

Benefits for clients age 21 and over: Medically necessary eye examinations are benefits for Medical Assistance Program clients age 21 and over. Use CPT codes to submit claims for eye exams. Medically necessary glasses & contact lenses are benefits for clients age 21 and over **following eye surgery only** & do not require prior authorization. Each procedure code must be billed with modifier -55 to identify surgery related eyewear.

Billing information

Modifier –55. Use with each vision correction procedure code to identify eyewear services provided to a client with a history of eye surgery. Benefits are related to procedures only affecting vision correction. Such procedures would include surgeries on the eyeball, and supporting musculature and nerve tissue.

Modifier –55 is used with one of the procedures listed below, if the service is related to a prior eye surgery. The use of modifier –55 with the following procedures removes all prior authorization requirements for clients under age 21 and allows surgery-related vision services for clients age 21 and over.

V2020-V2499

V2500-V2599

V2700-V2730

V2755-V2784

92340-92353

Benefits for clients under age 21: The EPSDT Program provides the following vision benefits for clients under age 21:

- Standard eye glasses (one or two single or multifocal clear glass lenses with one standard frame). The Medical Assistance Program provides payment for a standard frame.
- Glasses dispensed by an optician are a benefit when ordered by an ophthalmologist or optometrist.
- Replacement or repair of frames or lenses (standard eye glasses), not to exceed the cost of replacement.
- Contact lenses are a benefit if medically necessary & prior authorized, or when billed with modifier –55 to identify surgery-related services.
- Contact lens supplies & contact lens insurance are not benefits.
- Ocular prosthetics are a benefit if services are prior authorized. A statement of medical necessity must accompany the prior authorization request.
- There is no yearly maximum for eye exams or glasses.

Claims: Ophthalmologists, optometrists, and opticians bill on the Colorado 1500 or 837 professional claim format.

Lens materials: Materials must be billed using HCPCS Level II codes from this bulletin. One unit of service represents one lens. If two lenses of the same strength are provided, complete one billing line; enter units of service as 2 & charges as the total charge for both lenses. Lenses of different strengths are billed on separate claim lines.

Lens Dispensing: A dispensing fee is allowed for each lens. Use CPT codes in the range 92340-92355. For two lenses, complete one claim line with two units of service & charges for both lenses. Frame dispensing is NOT a separate benefit.

Code	Narrative	Benefit	Comments
Frames			
V2020	Frames, purchases	Yes	Includes cost of frame or replacement & dispensing fee. One unit of service represents one frame. Payment includes materials cost & dispensing fee. Also use to report frame repairs. One unit of service represents one repair. Payment includes materials & dispensing & will not exceed the allowable benefit for frame replacement. If a client requests a deluxe frame, the provider must discuss the need for additional charges to the client, and must obtain a written agreement from the client to pay the non-covered costs. Allowable non-covered costs that may be charged to the client are those representing the difference between the provider's <u>retail</u> usual and customary charges for the Medical Assistance Program allowable frames and the <u>retail</u> amount for the upgraded frames requested by the client. This also applies to the repair or replacement of eyeglasses. Provider must bill S1001, Deluxe item, (list in addition to code for basic item) to report charges to the client.
V2025	Deluxe Frame	No	See V2020
Single vision lens			
	Vision correction may be provided utilizing a variety of materials, including glass, plastic or polycarbonate lenses, as ordered by the provider. When submitting a claim for polycarbonate lenses, the provider must bill the code V2784 in addition to the code(s) representing the appropriate lens prescription. The allowable for polycarbonate lenses will be an additional charge.
