Special Purpose

Western Interstate Commission for Higher Education

The line provides funding for Colorado's dues to support WICHE. This coalition of Western States works to benefit each other through sharing research data and the development of reciprocity and student exchange programs. WICHE provides the following main services:

- coordinates the undergraduate, graduate and professional student exchange programs;
- operates conferences on national and western higher education issues;
- conducts research and develops publications on regional and national higher education issues (tuition and fee report, summary of recent legislation, student demographics, etc.); and
- provides a forum for exchanging information, such as interstate technology efforts.

Through WICHE's undergraduate exchange program, students pay 150 percent of resident tuition rates. Colorado sends more students out of state than it accepts through this program. Each state controls the circumstances under which it accept students. The graduate education exchange program allows students to attend selected uncommon, specialized, or high-quality graduate programs in other WICHE states at resident tuition rates. For the receiving institution, accepting out-of-state students at the reduced WICHE rate can help fill out low enrollment courses and programs.

In WICHE's professional exchange program, students pay resident tuition rates and the sending state pays a support fee to the receiving state. Colorado is a net importer of students through the professional exchange program.

Examples of WICHE's research publications and data sharing initiatives can be found at WICHE's web site: <http://www.wiche.edu/>

The 15 member states of WICHE all pay the same dues. Member dues represent approximately one-third of WICHE's budget, with the remainder coming primarily from grants and contracts. The source of cash funds is indirect cost recoveries.

WICHE – Optometry

This line provides funding for Colorado students to enroll in out-of-state institutions with optometry programs at resident tuition rates through an exchange set up by WICHE. The exchange offers an alternative to establishing an optometry program in Colorado. In return for the discounted tuition, the students agree to return to Colorado to practice optometry, or to repay the state for its investment. Historically 75 percent of the students return. The funding is based on enrollment and the reimbursement rates negotiated by the WICHE institutions. The source of cash funds is indirect cost recoveries.

Distribution to Higher Education Competitive Research Authority

Pursuant to S.B. 07-182, approximately \$0.10 of each \$1.50 fee on the disposal of waste tires gets deposited in the Innovative Higher Education Research Fund and is subject to annual appropriation by the General Assembly for use by the Higher Education Research Authority to provide matching funds for federal research grants.

Veterinary School Program Needs

This line represents the WICHE cash funds (currently 43 percent) and state funds (57 percent) for capital outlay associated with CSU's veterinary medicine program. These moneys appear in the CCHE budget rather than under the Board of Governors of the Colorado State University System with the rest of the veterinary medicine school money due to an agreement with WICHE that requires separate accounting. The funding split is based on the ratio of residents to out-of-state WICHE students. The FY 2008-09 appropriation includes \$122,600 from WICHE cash funds and \$162,400 from indirect cost recoveries that offset General Fund need.

Colorado Geological Survey at the Colorado School of Mines

This line item provides funding for the Colorado Geological Survey (CGS) functions that are now housed at the Colorado School of Mines. H.B. 12-1355 transferred the Geological Survey to the Colorado School of Mines. In the FY 2013-14 budget, the JBC approved the move of \$1.4 million in cash funds from Severance Tax and \$104,000 in federal funds from the Department of Natural Resources budget to the DHE budget. The JBC also added \$300,000 in General Fund support for the operations of the CGS within the Colorado School of Mines

(3) COLORADO COMMISSION ON HIGHER EDUCATION FINANCIAL AID

This section funds the CCHE-operated financial aid programs

Need Based Grants

This line provides funding for grants for full-time and part-time graduate and undergraduate students with demonstrated financial need attending eligible institutions in Colorado, which include some private institutions. The Colorado Commission on Higher Education (CCHE) allocates financial aid awards to individual institutions. Institutions are then responsible for distribution of these funds to eligible students.

Work Study

This line provides funding for the work study program. Work Study allows resident undergraduates to earn money to help pay for college. Eligibility is for students with financial need as well as students who can benefit from work experience, but statutes require that at least 70 percent of the funds be awarded based on need. Students may work at state-funded educational institutions, non-profit organizations, or government agencies.

Special Purpose

Veterans'/Law Enforcement/POW Tuition Assistance

This line pays tuition, room, and board for Colorado dependents of deceased or permanently disabled members of the national guard, law enforcement, firefighters, prisoners of war and military personnel missing in action. By statute this is the first priority of any state financial aid funds.

National Guard Tuition Assistance Fund

House Bill 04-1347 required that the first priority of any funds appropriated for financial aid in the Department of Higher Education be providing tuition assistance to National Guard members, up to \$800,000.

Native American Students/Fort Lewis College

To comply with a federal treaty and the contract that granted the Fort Lewis property to the state, Section 23-52-105, C.R.S. requires that the General Assembly appropriate funds to cover 100 percent of the cost of tuition for qualified Native Americans who wish to attend Fort Lewis College. The college waives tuition for these students up front, and then receives reimbursement in the following fiscal year.

Nursing Teacher Loan Forgiveness Pilot

This program was created S.B. 06-136 (Tapia/Butcher). It allows payments of up to \$20,000 for all or part of the principal and interest on a loan for persons who teach courses in nursing at a state institution of higher education for at least 5 consecutive academic years after receipt of an advanced nursing degree. Each year that the teacher is employed in a qualified position, the lesser of one-fifth or \$4,000 shall be paid or forgiven.

House Bill 11-1281 moved this program from the Department of Higher Education to the Department of Public Health and Environment. This line item provides funding for grants to Aims Community College and Colorado Mountain College.

(7) DIVISION OF OCCUPATIONAL EDUCATION

The Division is administratively located within the State Board for the Community Colleges and Occupational Education State System Community Colleges and has responsibility for approving programs and maintaining standards for public vocational programs (the Division of Private Occupational Schools in CCHE oversees proprietary schools). The Division also distributes state and federal funds for occupational education.

Administrative Costs

These FTE are responsible for approving the programs and distributing funds. The source of reappropriated funds is indirect cost recoveries.

Colorado Vocational Act Distributions pursuant to Section 23-8-102, CRS

The appropriation provides state support for secondary students enrolled in vocational programs in school districts across the state. These funds help the school districts offset, in part, the higher cost of vocational education. State statutes and regulations from the Division define the eligible costs for which K-12 schools may apply for reimbursement. The source of reappropriated funds is a transfer from the Department of Education. This is one of the categorical programs covered by Amendment 23.

Area Vocational School Support

This line provides state support for the four area vocational schools to provide postsecondary vocational training. In addition to the General Fund shown in the Long Bill, the AVS charge minimal tuition and fees to students. Also, the AVS provide some vocational training to secondary students with funds from their local school districts, which may include Colorado Vocational Act dollars.

Sponsored Programs

These are federally funded occupational education programs.

Administration

The FTE review educational programs to ensure compliance with federal Perkins requirements and approve courses eligible for federal funds. They also provide training and technical assistance to educators and students.

Programs

These funds are federal "Carl Perkins" funds, and are distributed to Community Colleges, Local District Junior Colleges, Area Vocational Schools, and K-12 districts.

Colorado First Customized Job Training

These are General Fund dollars transferred from the Governor's Office for community colleges to provide training to employees of new companies or expanding firms.

(8) AURARIA HIGHER EDUCATION CENTER

Administration

The Auraria Higher Education Center collects funds from the institutions with programs on the Auraria campus for operation and maintenance of the campus. While there is some impact on AHEC's budget when enrollment changes on the campus, much of the expenses are for fixed costs related to maintaining the buildings and coordinating activities of the co-tenants. The source of re-appropriated funding is payments from the Auraria participants.

(9) STATE HISTORICAL SOCIETY

The State Historical Society collects, preserves, exhibits and interprets properties and artifacts of historical significance. In addition to operating museums and historical sites throughout the state, the Society distributes gaming funds for preservation projects.

Cumbres and Toltec Railroad Commission

Gaming Revenue

The voter-approved amendment to Colorado's constitution that permitted limited gaming included a formula allocation of the tax revenues generated from gaming activities. This constitutional formula has been further modified by statute and voter initiative. Pursuant to constitutional formula, limited gaming moneys are deposited in the State Historical Fund to support activities of the State Historical Society. The total amount for the State Historical Fund is determined by the constitution and revenues, but within the amount allocated for statewide grants and society operations, the General Assembly can influence how much is allocated for grants versus operations.

Gaming Cities Distributions

A portion of the revenue generated from gaming is returned to the gaming cities as defined in Section 12-47.1-701, C.R.S.

Statewide Preservation Grant Program

The majority of the revenue generated from gaming is used for the preservation and restoration of historical sites and municipalities throughout the state. The Historical Society has statutory authority to expend some of these funds to cover the "reasonable costs" of administration. These administrative costs come off the top and the remainder is used for grants through this line item.

Society Museum and Preservation Operations

This line item funds the administrative staff for the division and the staff for the museums and associated operating expenses. The sources of cash funds include museum admission fees, user charges, and gaming revenues deposited in the State Historical Fund.
