Re: Responses to Legislative Requests for Information - Higher Education FY 2015-2016 RFI #29

The following report is in response to **Higher Education FY 2015-2016 RFI #29**.

DHE 29 - Department of Higher Education, Colorado Commission on Higher Education, Administration; and Colorado Commission on Higher Education Financial Aid, Special Purpose, Colorado Opportunity Scholarship Initiative - The Department is requested to provide a report by November 1, 2015 addressing which Colorado public high schools do and do not have access to pre-collegiate programs, concurrent enrollment programs, and other programs designed to encourage students who might not otherwise attend college to pursue postsecondary studies.

Included in this response are:

- **Attachment 1** - Report of student support programs available to public high school students. This information is determined by the proximity of a program to the local high school. The report includes:
 - Number of programs within one (1) mile from a high school;
 - Number of programs within five (5) miles from a high school; and
 - Number of students participating in concurrent enrollment during the 2013 - 2014 school year.
- **Attachment 2** - Annual report on concurrent enrollment 2013-2014 school year, prepared by the Colorado Department of Higher Education and Colorado Department of Education.

Why are Student Support Programs Important?

Student support programs better prepare students for postsecondary and career success - bridging from high school to a postsecondary option; navigating the higher education environment; providing assistance when faced with adversity. National and state evidence demonstrates that prepared students are less likely to require remediation, which can be time consuming and costly, and are more likely to complete their programs.

Due to overall decreased State investment, the cost burden for higher education has shifted to students and their families. For many, debt financing has become the only option. For some, the prospect of taking on too much debt will discourage students from pursuing postsecondary education at all.

Students who are prepared both academically and intellectually for postsecondary education save precious resources and prevent crippling debt from mounting. In the 2012-13 school year, postsecondary remedial education cost the State \$56.1 million. If a student drops out, their personal debt increases without earning the benefits gained from completing their education.

Successful completion of a postsecondary program allows students to successfully enter the workforce better equipped and educated with a self-sustaining earning potential. See Table 1 for examples of the types of services offered through student support programs.

Student Success Program and Scholarship Database

The Colorado Opportunity Scholarship Initiative (COSI) is launching a new database intended to help students and families identify available scholarship funds and quality student success programs throughout Colorado.

Developed in concert with the CDHE research and data team and College In Colorado, the ***Student Success Program and Scholarship Database*** will provide (1) a public-facing platform housing a directory of student success programs and scholarship programs across the State and (2) a mechanism for ongoing measurements of the Scholarship Initiative Network's success over time.

Through this dynamic database, partners and stakeholders will be able to contribute information on, and assess areas of need in, Colorado's scholarship, student success and career pathway networks.

PHASE 1: SCHOLARSHIP AND PROGRAM DIRECTORY

The first phase of the project is expected to be completed by Fall 2015 and will launch a web-based directory mechanism of scholarships and student success programs.

- Partners and stakeholders will enter information about their programs directly into the directory. Each program will have their own profile and ability to list services offered as listed in Table 1.
- A searchable public-facing website will provide end-users easy access to identify student success programs and scholarships based on service type and geographic information. This directory will house information of student success programs across the state - coordinating with College in Colorado's Pre-collegiate Directory - and will empower scholarship programs in Colorado to provide information directly into the Scholarship Initiative directory for listing.
- New state scholarship information will be shared with College In Colorado's scholarship directory, providing students and families who already use College In Colorado, immediate access to this information.

Table 1: Types of services offered

Pre-collegiate	Bridge	Postsecondary
Financial Aid Services	Enrollment Support	Co-requisite Remediation
Parent Education	Financial Aid Services	Descriptive Analysis
Scholarship Support	Career/Vocational Exploration Education	Early Alert Protocol
ICAP Support	Social Skills Groups	First Year Experience
Peer Mentoring	Academic Success Skills Course(s)	First Year Orientation
Mentoring	Academic Evaluations	Incentives for Full Time Study
Individual Counseling	College Orientation	Individualized Degree Maps
Concurrent Enrollment/Dual Enrollment/ASCENT	Budgeting Basics	Intrusive Advising
College Readiness Curriculum	College Visits	Learning Communities
Career/Vocational Exploration Education	Mentoring	Meta-majors
CLEP Testing	Peer Mentoring	Peer Tutoring
College Visits	Book Assistance	Predictable Study Schedules
College/Career Fair	Health Services	Predictive Analysis
SAT/ACT prep	Tutoring/Academic Support	Structured Pathways
Enrollment Support	Mandatory Programming	Study Skills Course(s)
College Transition Workshops	College Transition Workshops	Undergrad Research
	Individual Counseling	Retention Incentives

Included Attachments

1 - Report of all Colorado public high schools, number of students enrolled in concurrent enrollment at 2-year and 4-year institutions, and the number of student support programs within a one (1) mile radius and five (5) mile radius from each high school.

2 - CDHE and CDE Concurrent Enrollment report prepared May 2015.

This report was prepared by Brenda Bautsch through the Colorado Department of Higher Education (DHE) and the Colorado Department of Education (CDE) and was submitted to the Education Committees of the Senate and House of Representatives pursuant to 22-35-112 C.R.S. For more information contact:

Beth Bean, Chief Research Officer at the Colorado Department of Higher Education, at beth.bean@dhe.state.co.us

Michelle Camacho Liu, Office of Postsecondary Readiness at the Colorado Department of Education, at 303-866-6596 or by email at liu_m@cde.state.co.us.

Introduction

Creating more and better pathways from high school to higher education is essential for Colorado to reach its state goals of increasing college completion rates and decreasing high school dropout rates. Dual enrollment is one strategy states across the country are using to cultivate seamless P-20 pathways. Dual enrollment programs provide high school students the opportunity to enroll in college-level courses and earn credit at no cost to them for tuition. These programs help students develop the knowledge, skills and abilities necessary to be postsecondary and workforce ready. Research indicates that dual enrollment students are more likely to enroll in college than their peers and are less likely to need remedial education once in college.¹

Data and Definitions

Pursuant to statute (C.R.S. §22-35-112), the Colorado Department of Higher Education (DHE) and the Colorado Department of Education (CDE) have prepared this report.² The data in this report provide a descriptive summary of students in Colorado’s public education system who participated in dual enrollment programs in the 2013-2014 academic year.

This report summarizes:

1. Data on the number of local education providers and institutions of higher education that have entered into cooperative agreements;
2. Number of public school students participating in Concurrent Enrollment, ASCENT and other dual enrollment programs;
3. Demographic information about students that participated in Concurrent Enrollment;
4. Data on the total number and percentage of students that passed Concurrent Enrollment courses during the 2013-2014 school year;
5. Outcomes analyses exploring the benefits of dual enrollment in regard to postsecondary enrollment, first-year college success and need for remedial education.

“Dual enrollment” is used in this report to refer to the broad array of programs available to high school students that allow them to take college-level courses for credit. In this report, the capitalized version of “Concurrent Enrollment” refers only to the statewide programs created by House Bill 09-1319 and detailed in the Concurrent Enrollment Programs Act (C.R.S. §22-35-101 et seq.).

¹ Colorado Department of Higher Education internal research. See the Department’s website for more details.

² See *Attachment A* for an overview of the reporting requirements.

The Concurrent Enrollment Programs Act defines Concurrent Enrollment as the “simultaneous enrollment of a qualified student in a local education provider and in one or more postsecondary courses, which may include an academic or career and technical education course, at an institution of higher education” (C.R.S. §22-35-103).

The data reported here are collected through the DHE Student Unit Record Data System (SURDS), unless otherwise noted. Other than in the first section, “Summary of Dual Enrollment Programs,” this report does not include data on Postsecondary Enrollment Options (PSEO), Fasttrack, or other dual programs not described in House Bill 09-1319 as these dual enrollment programs were phased out in July of 2012 or are institution specific.

Highlights

- Approximately 31,000 students participated in dual enrollment programs of any type in the 2013-2014 academic year. This represents 25 percent of all 11th and 12th graders in public high schools in Colorado.
- The Concurrent Enrollment and ASCENT programs continue to see sustained increases in participation (up 15 percent and 43 percent, respectively). Nearly 20,500 students participated in Concurrent Enrollment in 2013-2014, up from 17,900 the previous year.
- Overall participation in dual enrollment programs increased by 15 percent between 2012-2013 and 2013-2014.
- Crowley County School District had the highest percentage of students participating in Concurrent Enrollment out of all Colorado school districts, while Denver Public Schools had the most students participating in Concurrent Enrollment by headcount.
- Statewide, 94 percent of districts and 80 percent of high schools offer Concurrent Enrollment programs.
- Nearly half of students who participated in ASCENT in 2013-14 were Hispanic, a minority group that is historically underrepresented in postsecondary education. One of the goals of the ASCENT program is to increase the percentage of traditionally underserved students who participate in postsecondary education.
- Since the beginning of Concurrent Enrollment in 2009, the program has seen significant diversification, and the composition of the Concurrent Enrollment program now closely resembles the overall composition of public high schools.
- In 2013-14, high school students attempted a total of 167,050 Concurrent Enrollment credit hours. The average number of credit hours attempted per student was 8.
- A large majority of students—89 percent—passed all of their Concurrent Enrollment courses in 2013-14.
- Participation in remedial Concurrent Enrollment courses is approximately 6 percent of the Concurrent Enrollment total.
- Over 950 students in Concurrent Enrollment or ASCENT programs earned some type of postsecondary credential in 2013-14.
- Students who participated in dual enrollment programs in high school had higher first-year credit hour accumulation, grade point averages, and retention rates in college.
- A previous DHE study found that participation in dual enrollment is associated with a 23 percent increase in the likelihood of enrolling in college and a 10 percent decrease in the need for remediation, holding gender, income, race/ethnicity, and ACT scores constant.

Summary of Dual Enrollment Programs

Table 1 provides a summary of the different dual enrollment programs in the state during the past three academic years. The phasing out of Fasttrack and PSEO in 2012 is reflected in the small numbers in 2011-12. There have been no students participating in those programs since the 2011-12 school year due to the fact that these programs were discontinued as of July 2012.

During the academic year 2013-14, 31,092 high school students participated in Concurrent Enrollment, ASCENT or other dual enrollment programs, representing 25 percent of all 11th and 12th graders. This number was an increase of about 4,200 students from 2012-13, or a 15 percent increase in dual enrollment participation overall. The highest area of participation growth in 2013-14 was in the ASCENT program, which saw an increase of over 40 percent. The largest number of students is in the Concurrent Enrollment program—as defined in House Bill 09-1319—with 66 percent of dual enrollment students participating in the program (see Figure 1). The "Other High School Dual Enrollment Programs" category includes individually, institutionally designed dual enrollment programs. This category saw a 16 percent increase in the number of students enrolled (Table 1).

One in four 11th and 12th graders in public high schools participates in dual enrollment programs.

Table 1: High School Dual Enrollment Summary³

Program Type	Unduplicated Student Count Academic Year 2011-2012	Unduplicated Student Count Academic Year 2012-2013	Unduplicated Student Count Academic Year 2013-2014	Change from 2012-13 to 2013-14
Concurrent Enrollment	13,928	17,873	20,488	+15%
ASCENT Program	208	291	415	+43%
PSEO	1,935	0*	0*	*
Fasttrack	10	0*	0*	*
Other High School Dual Enrollment Programs	7,998	8,771	10,189	+16%
Total	24,079	26,935	31,092	+15%

Note: Concurrent Enrollment program numbers include students at early college high schools. ASCENT program data are from CDE's October Count data. *PSEO and Fasttrack are now phased out.

Table 2 displays participation in dual enrollment programs by institution of higher education. The two-year institutions that served the most students in the 2013-14 academic year were Arapahoe Community College, with 3,591 students followed by the Community College of

³ Data throughout the report are from the Department of Higher Education's Student Unit Record Data (SURDS), unless otherwise noted.

Aurora, with 3,262 students. Of the four-year institutions offering dual enrollment programs, the University of Colorado Denver served 4,378 students primarily through their institutionally-developed dual enrollment program.

University of Colorado Boulder	32	0	15	47
University of Colorado Colorado Springs	54	0	1,127	1,181
University of Colorado Denver	2	0	4,376	4,378
University of Northern Colorado	24	0	412	436
Western State Colorado University	172	0	0	172
Four-Year Total	2,345	24	8,900	11,269
Grand Total	21,041	333	10,416	31,790

Note: All data in Table 2, including ASCENT data, are from DHE's SURDS. Total counts may be duplicated if students participated in courses through multiple institutions. Also, as Colorado Mesa University does include a two-year college as part of its system, some of the concurrent enrollment students counted here may be enrolled in the two-year program, not the four-year program.

The balance of this report will summarize Concurrent Enrollment and ASCENT programs as described in House Bill 09-1319. That is, PSEO, Fasttrack, and "other" dual enrollment programs will not be hereafter reported.

Partnership Summary

A local education provider (LEP) that seeks to allow students to participate in Concurrent Enrollment must enter into a cooperative agreement with an institution of higher education per C.R.S. §22-25-104. The Concurrent Enrollment Programs Act defines a local education provider as a school district, a board of cooperative services (BOCES), a district charter school, or an institute charter school. In 2013-14, 25 institutions of higher education and 194 LEPs had cooperative agreements in place using the Concurrent Enrollment model per C.R.S. §22-25-104. Numbers of institutions and LEPs with cooperative agreements may vary from data on participation as institutions are asked to submit agreements to the DHE and may not have yet been received.

Participation Growth

The Concurrent Enrollment program continues to see sustained increases in participation. During the 2013-14 school year, 2,810 more students participated in the Concurrent Enrollment program than in the previous year. As reported last year, the increase from 2011-12 to 2012-13 was 4,246 students, which indicates that while participation continues to increase, the rate of growth has slowed.

Table 3 displays the unduplicated student count for Concurrent Enrollment participation by institutions of higher education for the last two years. Arapahoe Community College had the largest increase of students enrolled (+639), with a total of 3,386 students participating. Colorado Mountain College had the largest participation increase of four-year institutions, with 204 more students participating in 2013-14 than in the previous school year. A total of 26 public institutions of higher education served Concurrent Enrollment students in 2013-14. See Appendix A for an unduplicated count of students by institution and high school.

University of Colorado Boulder	30	32	+2
University of Colorado Colorado Springs	32	54	+22
University of Colorado Denver	5	2	-3
University of Northern Colorado	12	24	+12
Western State Colorado University	117	172	+55
Total	18,231	21,041	+2,810

Note: Counts throughout the report may differ based upon multiple enrollments and descriptive reporting. As Colorado Mesa University does include a two-year college as a part of its system, some of the concurrent enrollment students counted here may be enrolled in the two-year program, not the four-year program.

Participation by Districts and High Schools

A total of 2 BOCES and 168 school districts participated in Concurrent Enrollment in 2013-14, which represents about 94 percent of districts in Colorado. See Figure 2 for a visual display of participating districts and Appendix B for a complete list of Concurrent Enrollment headcount and participation rates by school district. Additionally, 382 high schools had at least one student participating in Concurrent Enrollment, representing about 80 percent of all Colorado high schools.

Table 4a lists the top 10 school districts with the highest percentage of high school students participating in Concurrent Enrollment. Crowley County School District, a small rural district, tops the list with 79 percent of its students taking Concurrent Enrollment courses. All districts in Table 4a are classified by CDE as small rural districts.⁴

Table 4a: Top 10 Participating Districts in Concurrent Enrollment, by Percentage of High School Students in Concurrent Enrollment, 2013-2014

District	Number of Students in Concurrent Enrollment (Unduplicated Headcount)	Percent of 9th-12th Graders in Concurrent Enrollment
Crowley County School District	120	79%
Plateau School District RE-5	36	58%
Meeker School District	100	56%
Fowler School District R-4J	63	56%
Lone Star School District	11	55%
Walsh School District RE-1	25	54%
Swink School District	51	51%
Cheraw School District	34	49%
Moffat 2	23	45%
Liberty J-4	8	44%

Note: Percentage of 9th-12th grade students is based on CDE's October Count data.

Tables 4b and 4c highlight the top 10 schools and school districts with the highest number of students participating in Concurrent Enrollment by headcount. When looking at Concurrent Enrollment participation by student headcount, the state's larger schools and districts will invariably have the highest participation numbers. Cherokee Trail High School tops the high school list for the fourth year in a row. Four of the high schools in Table 4b are new this year to the top 10 list for high school participation: Chatfield High School, Grandview High School, Legend High School, and Colorado Early College Fort Collins. In Table 4c, Denver Public Schools remains at the top spot on the list of the top 10 school districts participating in Concurrent Enrollment by headcount. The Colorado Charter School Institute was new on the top 10 list for the 2013-14 school year.

⁴ CDE's definition of rural schools: "A Colorado school district is determined to be rural giving consideration to the size of the district, the distance from the nearest large urban/urbanized area, and having a student enrollment of approximately 6,500 students or less. Small rural districts are those districts meeting these same criteria and having a student population of less than 1,000 students." www.cde.state.co.us

Table 4a: Top 10 Schools Participating in Concurrent Enrollment, by Student Headcount 2013-2014

District/Institute	School	Unduplicated Headcount
Cherry Creek Schools	Cherokee Trail High School	521

 Shaded districts have at least one student in Concurrent Enrollment.

Colorado Concurrent Enrollment Map 2013-14

*Shaded districts = at least one student participating in CE

Produced by the Colorado Department of Education Web Management Team - August 2014

Accelerating Students through Concurrent Enrollment (ASCENT)

The ASCENT program provides an opportunity for students to continue to participate in Concurrent Enrollment in the year directly following the student’s twelfth grade year. ASCENT was in its fourth year during the 2013-14 academic year. Twenty-eight districts, an additional six from the 2012-13 year, participated in this program with a total enrollment of 415 students. Table 5 provides a list of the districts and the unduplicated headcount of students who participated in the ASCENT program using data that was obtained through the Colorado Department of Education’s October Count.

**Table 5: Enrollment Headcount for the ASCENT Program, by District
2013-2014**

District	ASCENT Participants
Aurora Public Schools	139
Boulder Valley School District	3
Branson Reorganized 82	3
Buena Vista School District	3
Cherry Creek Schools	13
Colorado Springs School District11	12
Delta County School District	4
Denver Public Schools	78
Dolores County School District	1
Eagle County Schools	7
Edison 54JT	9
Elizabeth C-1	7
Falcon 49	15
Granada Re-1	4
Greeley 6	2
Harrison School District	3
Jeffco Public Schools	38
Lamar Re-2	4
Mapleton Public Schools	6
Mesa County Valley 51	15
Platte Canyon 1	4
Poudre School District	18
Strasburg 31J	4
Thompson School District	17
Weld County Re-1	1
Westminster, Adams County 50	1
Widefield 3	1
Wiley Re-13 JT	3
Total	415

Note: Data for Table 6 were obtained through CDE’s October Count.

CDE October Count data was used in this section of the report in order to align with the amount of funding received by districts/LEPs for ASCENT participation. As students can participate part-time, the unduplicated headcount may be larger than the total FTE funded by the legislature.

ASCENT Demographics

Per C.R.S. §22-35-108, students eligible to participate in ASCENT must have completed twelve postsecondary credit hours prior to the completion of the twelfth-grade year, and not be in need of basic skills coursework in their selected pathway. ASCENT students must also be selected for participation by the principal and accepted into a postsecondary degree program.

One of the objectives of the ASCENT program is to increase the percentage of students who participate in postsecondary education, especially among low-income and traditionally underserved populations (C.R.S. §22-35-108). Tables 6a and 6b provide information on ASCENT participation by race/ethnicity and gender. Nearly half of students who participated in ASCENT in 2013-14 were Hispanic, a minority group that is historically underrepresented in postsecondary education. Similar to Concurrent Enrollment participation, more females participated in ASCENT than males.

Table 6a: ASCENT Participation, by Race/Ethnicity, 2013-2014

Race/Ethnicity	2013-2014 Percent of Students
Asian	1-2%
African American	3.8%
Hawaiian or Pacific Islander	< 1%
Hispanic	48.7%
Native American/Alaskan Native	< 1%
White	44.2%
More than one race/ethnicity	< 1%

Table 6b: ASCENT Participation, by Gender, 2013-2014

Gender	2013-2014 Percent of Students
Female	57.4%
Male	42.6%

Table 6c outlines ASCENT participation by students' eligibility for free or reduced priced lunch (FRL). Over one-quarter of ASCENT students were eligible for free or reduced priced lunch, with the majority of these students qualifying for free lunch.

Table 6c: ASCENT Participation, by FRL Status, 2013-2014

FRL Eligibility Status	2013-2014 Percent of Students
Free Lunch	22.9%
Reduced Lunch	4.6%
Not Eligible	72.5%

Concurrent Enrollment Demographics

Table 7a provides information on Concurrent Enrollment participation by race/ethnicity. The number of Hispanics students—Colorado’s largest minority group—participating in Concurrent Enrollment increased by 12 percent from 2012-13 to 2013-14. Overall, since the beginning of Concurrent Enrollment in 2009, the program has seen significant diversification, and the composition of the Concurrent Enrollment program now closely resembles the composition of public high schools in Colorado. Table 7b displays Concurrent Enrollment participation by gender. Over the last two school years more females have participated in Concurrent Enrollment than males, although males had a slightly higher participation growth rate than females (an increase of 16 percent compared to 13 percent).

Table 7a: Concurrent Enrollment Participation, by Race/Ethnicity, 2013-2014

Race/Ethnicity	2012-2013 Academic Year Number/Percent		2013-2014 Academic Year Number/Percent		Percent Change in Number of Students
	Number	Percent	Number	Percent	
Asian	471	3%	587	3%	+25%
African American	641	4%	671	3%	+5%
Hawaiian or Pacific Islander	42	0.2%	47	0.2%	+12%
Hispanic	3,767	21%	4,235	21%	+12%
Native American/Alaskan Native	98	1%	126	1%	+29%
Unknown/Did not wish to Answer	1,969	11%	2,338	11%	+19%
White	10,072	56%	11,513	56%	+14%
More than one race/ethnicity	549	3%	739	4%	+35%
Nonresident Alien	425	2%	394	2%	-7%

Note: Includes Concurrent Enrollment and does not include ASCENT. Counts may differ based upon multiple enrollments and descriptive reporting. A nonresident alien is a person who is not a citizen or national of the United States and who is in this country on a visa or temporary basis and does not have the right to remain indefinitely.

Table 7b: Concurrent Enrollment Participation, by Gender, 2013-2014

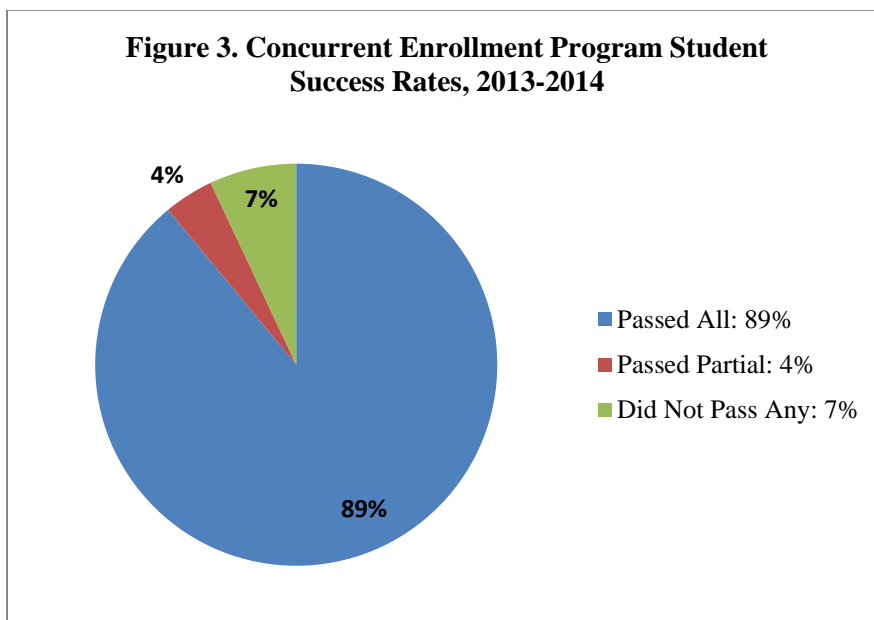

Gender	2012-2013 Academic Year Number/Percent		2013-2014 Academic Year Number/Percent		Percent Change in Number of Students
	Number	Percent	Number	Percent	
Female	9,697	54.1%	10,985	54%	+13%
Male	8,133	45.4%	9,452	46%	+16%
No Gender Data	90	0.5%	71	0.3%	-21%

Note: Includes Concurrent Enrollment and does not include ASCENT. Counts may differ based upon multiple enrollments and descriptive reporting. Headcount enrollments, by ethnicity and gender, for each participating higher education institution are available in Appendices C and D.

Academic Success

Table 8 details the number of credit hours attempted and the number of credit hours passed for Concurrent Enrollment students by institution of higher education. In 2013-14, high school students attempted a total of 167,050 Concurrent Enrollment credit hours, up from 143,939 hours in the previous year. The average number of credit hours attempted by Concurrent Enrollment students was 8, with an average of 7 hours passed.

As displayed in Figure 3, a large majority of students—89 percent—passed all of their Concurrent Enrollment courses in 2013-14. This is an improvement from the previous year’s complete pass rate of 84 percent. Only 7 percent of students did not pass any of their Concurrent Enrollment courses.

Remedial Courses

Table 9 details student participation in basic skills, or remedial, Concurrent Enrollment courses. Per C.R.S. §22-25-104, a student may concurrently enroll in basic skills courses only if the student is enrolled in the 12th grade.

Out of all Concurrent Enrollment students, 1,155 students, or 6 percent, enrolled in remedial courses. Between 2012-13 and 2013-14, enrollment in remedial Concurrent Enrollment courses saw a small, 8 percent, increase. Community College of Denver enrolls almost half (45%) of all remedial Concurrent Enrollment students. Utilizing dual enrollment for remedial courses is a recognized strategy to help students successfully complete developmental education prior to college enrollment. This helps ensure students are able to immediately enter college-level, credit-bearing courses and be on their way to earning a postsecondary credential.

**Table 8: Concurrent Enrollment Credit Hours Attempted and Passed

Career and Technical Education Courses

Per C.R.S. §22-35-103, Concurrent Enrollment students have the opportunity to take postsecondary career and technical education (CTE) courses and earn credit that can be applied toward a technical certificate or degree. In 2013-14, approximately 8,200 students participated in CTE Concurrent Enrollment courses, which represents 40% of all Concurrent Enrollment students. Table 10, below, displays the number of students by institution of higher education. Arapahoe Community College served the most students with CTE Concurrent Enrollment programs—nearly 1,900 students—in 2013-14.

Providing opportunities for CTE courses as part of dual enrollment offerings is a recognized strategy to help improve outcomes for traditionally underserved students. The CTE pathways in Colorado provide additional options for students to earn postsecondary credentials, and offering CTE through Concurrent Enrollment allows students to get a head start on those pathways.

**Table 10: Career and Technical Education (CTE) Concurrent Enrollment Participation
2013-2014**

Public Institutions of Higher Education	Number of Students in CTE Concurrent Enrollment Courses
Aims Community College	462
Arapahoe Community College	1,886
Colorado Mountain College	185
Colorado Northwestern Community College	113
Community College of Aurora	1,181
Community College of Denver	535
Front Range Community College	912
Lamar Community College	125
Morgan Community College	213
Northeastern Junior College	79
Otero Junior College	326
Pikes Peak Community College	426
Pueblo Community College	599
Red Rocks Community College	913
Trinidad State Junior College	254
Total	8,209

**Area Technical Colleges may also offer CTE Concurrent Enrollment courses, but that data is currently unavailable to include in this report.*

Postsecondary Credentials

Table 11 shows how many Concurrent Enrollment and ASCENT students are seeking a postsecondary credential while in high school. Overall, 10,420 students registered for their courses in a specific credential program. Most students are seeking an Associate of Arts or Associate of Science degree.

Table 11: Concurrent Enrollment and ASCENT Postsecondary Credential-Seeking Students 2013-2014

Credential Type	Concurrent Enrollment Students	ASCENT Students	Total Students
Certificate (less than 1 year)	584	8	592
Certificate (at least 1 year, less than 2)	266	7	273
Associates Applied Science	1,321	50	1,371
Associates of General Studies	1,169	29	1,198
Associate Degree (AA or AS)	6,782	187	6,969
Bachelor of Arts Degree	1	16	17
Total credential-seeking	10,123	297	10,420
Not credential-seeking	10,892	73	10,965

Note: ASCENT numbers are from DHE's SURDS.

Table 12 displays the number and type of credentials actually earned by high school students participating in the Concurrent Enrollment or ASCENT programs during the 2013-14 academic year. 956 students in Concurrent Enrollment or ASCENT programs earned some type of postsecondary credential in 2013-14. This is a 23 percent increase over last year's total credential completion number (775). Most of the credentials are certificates as associate degrees require students to be enrolled for longer periods of time.

Table 12: Concurrent Enrollment and ASCENT Postsecondary Credential Completion 2013-2014

Credential Type	Concurrent Enrollment Students	ASCENT Students	Total Students
Certificate (less than 1 year)	719	15	734
Certificate (at least 1 year, less than 2)	25	4	29
Associates Applied Science	7	3	10
Associates of General Studies	24	5	29
Associate Degree (AA or AS)	130	24	154
Total	905	51	956

Note: ASCENT numbers are from DHE's SURDS.

Outcomes of Dual Enrollment Programs

The purpose of this section is to investigate the effect participation in dual enrollment programs has on student matriculation to, and performance in, college. In order to test the relationship between dual enrollment and matriculation, credit hour accumulation, GPA and retention, basic inferential tests of differences were used. Participation in dual enrollment includes participation in any program offered in the state (including Concurrent Enrollment, ASCENT, PSEO, Fasttrack, and any other dual enrollment programs).

This year's report repeats last year's analyses with newer data that includes the 2011, 2012, and 2013 high school graduating cohorts. The findings here reflect the previous year's findings, which show better outcomes on all indicators for dual enrollment students as compared to students who did not take dual enrollment courses.

In addition, in 2014 DHE conducted a robust multivariate analyses that better isolated and estimated the effect of dual enrollment participation on college-going rates and remedial rates. The study found that participation in dual enrollment is associated with a 23 percent increase in the likelihood of enrolling in college and a 10 percent decrease in the need for remediation, holding gender, income, race/ethnicity, and ACT scores constant. The full report can be found on the Colorado Department of Higher Education's website.

Matriculation

Of the high school students participating in a dual enrollment program, on average more than 78 percent enrolled in college in the fall immediately following graduation. Among students who were not enrolled in a dual enrollment program, on average only 51 percent enrolled in college the following fall ($p < .001$). These data suggest that students participating in a dual enrollment program are more likely to matriculate to college than high school students not dually enrolled.

Credit Hour Accumulation

College students who participated in a dual enrollment program had higher earned cumulative credit hours, on average 36 credit hours, by the end of their first year of college compared to approximately 27 credit hours earned for students who were not dually enrolled in high school ($p < .001$). Although this finding may not be surprising since students begin earning college credits in high school, the accumulation of higher credit hours has been linked to retention and successful degree attainment.⁵

First-Year Grade Point Average

Matriculated college students who had participated in a dual enrollment program in high school have, on average, higher first-year GPAs (2.79) compared to students who were not dually

⁵ Adelman, C. (2006). *The toolbox revisited: Paths to degree completion from high school through college*. Washington, DC: U.S. Department of Education.

enrolled (2.64). This difference is statistically significant ($p < .001$). Higher GPAs have also been shown to be a positive predictor of postsecondary success and degree attainment.

First-Year Retention

Examining the 2011 and 2012 high school graduates who have enrolled in college, those students who participated in a dual enrollment program have a higher first-year retention rate at 82 percent, on average, compared to a retention rate of 79 percent for students who did not take dual enrollment courses in high school ($p < .001$). First-year persistence has been shown to be a positive predictor of degree attainment.

These promising findings indicate that dual enrollment programs play an important role in advancing Colorado's goal to create a seamless P-20 education system that provides the foundational knowledge, skills and ability for all students to succeed.

Next Steps

As CDE and CDHE strive to support districts and higher education institutions in expanding and enhancing Concurrent Enrollment and ASCENT programs, continued effort is required on the following activities.

Highlight best practices for providing student support services.

Concurrent Enrollment programs are intended to improve college access and success. As more first-generation and at-risk students participate in higher education, high schools and colleges will need to provide the appropriate student support services to help these students be successful. Concurrent Enrollment programs foster K-12 and higher education partnerships, which can be a starting point to work collaboratively in providing academic and social supports to students. CDE and DHE, in conjunction with the Concurrent Enrollment Advisory Board, have convened a best practices committee to collect and highlight these practices, as well as providing an opportunity to publically recognize successful partnerships for student support.

Support establishing and strengthening partnerships between districts and postsecondary institutions.

Pursuant to statute § 22-35-107 (6)(c), CDE and DHE are working to provide guidance so that all school districts have adequate resources to enter into at least one cooperative agreement. Targeted support can be provided to the twelve remaining districts not currently participating in Concurrent Enrollment to determine and support interest in beginning to offer this opportunity. This could include site visits to discuss alignment of Concurrent Enrollment with district postsecondary readiness goals, provide implementation resources, and examine potential barriers to participation, as well as convening districts with their local institutions of higher education to explore partnership opportunities.

Additionally, with the high number of partnerships already in place, there is increased need for technical assistance to support opportunities for expanding and strengthening existing

partnerships. Areas that have been identified as priorities for improving partnerships include streamlining processes to better align enrollment and rosters between partners, increasing number of high school teachers approved as adjunct to teach Concurrent Enrollment courses, outlining roles and responsibilities, and exploring financial options.

Attachment A: Reporting Requirements and Data Availability

Reporting Requirement	Source	Data Availability from 2013-2014 Academic Year (AY)
The number and names of local education providers and institutions of higher education that have entered into cooperative agreements	Institutions of Higher Education through Department of Higher Education	Used institutional data for 2013-14 AY.
The number of qualified students who participated in a dual enrollment program in the previous school year, including subtotals for each local education provider and each institution of higher education	Department of Higher Education	Used SURDS data for 2013-14 AY.
Demographic information about qualified students who participated in a dual enrollment program in the previous school year	Department of Higher Education	Used SURDS data for 2013-14 AY.
The total number of credit hours completed at each institution of higher education by qualified students who participated in a dual enrollment program in the previous school year	Department of Higher Education	Used SURDS data for 2013-14 AY.
The total number of basic skills courses completed at each institution of higher education in the previous school year by qualified students participating in a dual enrollment program	Department of Higher Education	Used SURDS data for 2013-14 AY.
The total tuition costs paid by local education providers to institutions of higher education in the previous school year on behalf of qualified students who participated in dual enrollment programs in the previous school year, including subtotals for each local education provider and each institution of higher education	Local Education Provider Request or Institution of Higher Education Request.	Data currently not available based on higher education tuition breakdowns and structures.
The total number of qualified students designated by the department as ASCENT program participants in the previous school year	Colorado Department of Education / Department of Higher Education	Used CDE & SURDS data for 2013-14 AY.
The postsecondary degree and certificate programs in which ASCENT program participants were concurrently enrolled in the previous school year, including subtotals indicating how many ASCENT program participants concurrently enrolled in each postsecondary degree and certificate program	Department of Higher Education	Used SURDS data for 2013-14 AY.
Data indicating the total number and percentages of qualified students who failed to complete at least one course in which they concurrently enrolled	Department of Higher Education	Used SURDS data for 2013-14 AY.
To the extent possible, data indicating the total number and percentage of qualified students who concurrently enrolled in college courses who have completed a postsecondary degree	Department of Higher Education	Used SURDS data for 2013-14 AY.
