About the Colorado Consortium

The Colorado Consortium for Independent Study provides a number of ways in which you can overcome the boundaries of distance and time.

We offer a number of traditional print-based correspondence courses, many of which are enhanced by the addition of media, such as audiocassettes, slides, videocassettes, DVDs, CD-ROM, and computer communication of various kinds. Other courses employ media as the primary vehicle for content, and many depend entirely on computer communication for the delivery of content and interactivity between student and instructor and between student and student.

Our independent study courses provide guided instruction, available at a distance and on demand, so that you can remove educational boundaries created by geography, by the academic calendar, by professional demands, or by family responsibilities. Independent study does not mean that you are alone. Your instructor not only evaluates and comments on your assignments and examinations, but also provides answers to questions and advice on how to be more successful in your course.

In order to provide the widest range of course options for you, the Colorado Consortium no longer restricts course offerings to a single institution. What this means to you is that the same course may be offered by more than one institution. In most cases the courses vary in some significant way, often involving media or other technological differences. This change also helps accommodate the graduation requirement that may restrict enrollment to courses by the institution granting the degree.

The members of the Colorado Consortium are committed to providing access to courses, programs, and services. For the most recent look at our services to you, visit our home page at **www.coloradoindependentstudy.org**

Consortium members are affirmative action/equal opportunity employers and institutions and do not discriminate on the basis of race, sex, creed, color, age, national origin, individual disability, or veteran status in any aspect of employment or services.

For information about these provisions, or about issues of equity, discrimination, or fairness, consult the affirmative action office at the appropriate institution. This publication was printed and mailed using funds generated solely by continuing education programs. Consortium members are accredited by the North Central Association, and credit courses and instructors have been approved by departments or colleges at the institution offering the specific course. Certificate and noncredit courses have been approved by appropriate departments of the institution or by state or accrediting agencies.

No state appropriated funds were used to produce this catalog.

Welcome to Independent Study:

This Colorado Consortium for Independent Study bulletin contains a rich variety of academic courses offered in both print and electronic formats that will permit you to learn on your own schedule, at your own pace, wherever you live. When you take one of these courses you will join a rapidly growing number of people not only in Colorado, but also across the country and around the world who are engaged in independent study. Independent study courses and programs not only provide a convenient learning environment for the self-directed learner, but also offer opportunities for those individuals who are unable to come to a campus, or who have complicated life schedules.

All courses listed in this bulletin are offered as part of a coordinated program of off-campus instruction under the policies of the Colorado Commission on Higher Education. Institutions participating in the Consortium are encouraged to regularly develop new courses for independent study from their unique curricula, resulting in an ever-expanding selection of desirable courses.

Independent study is only one of several learning opportunities provided by the Colorado Statewide Extended Campus. If you are a Colorado resident you may also wish to consider attending classes in or near your hometown. To learn more about the Colorado Statewide Extended Campus and the public colleges and universities that participate, visit our web site at www.coloradoextendedcampus.org. This bulletin is also available online at this site.

We wish you success in all of your educational endeavors!

Sincerely,

Matthew T. McKee, Director
Statewide Extended Studies Program

Who We Are

Eleven Colorado institutions belong to the Colorado Consortium for Independent Study. Students work directly with the institution offering the desired courses.

All credit and noncredit independent study via correspondence courses offered by the Consortium can be found here. Simply choose a course, print and fill out the registration form, then fax, mail, or deliver it, along with payment, to the school offering the course.

All courses are offered as part of a statewide coordinated program of off-campus instruction under policies of the Colorado Commission on Higher Education.

The Details

How Independent Study by Correspondence Works

When you enroll in an independent study correspondence course, you receive or are directed to purchase a course syllabus or study guide that includes all the information for your course. Follow your guide closely; it explains exactly how to complete the course. You will complete assignments and mail, e-mail, or fax them (as instructed) for grading. Most courses also require you to take supervised exams. Successful completion of a course depends on meeting all course requirements, including assignments and exams.

Working with Instructors

Instructors are available by telephone, sometimes by fax, by e-mail, and always by correspondence. Some courses include audio conferencing with the instructor and the class. Currently, there is no additional charge for this activity; however, you are expected to pay your long distance charges if there are any.

Credit

The institution at which you complete a course awards academic semester-hour credit. If you wish to apply independent study courses toward degree requirements, certification, or licensing, contact your advisor or the certification/licensing agency before registering to make sure a course will meet your requirements.

Advising

Colorado State, CU-Boulder, CSU-Pueblo, and ASC provide the services of academic advisors to their continuing education students.

- For Colorado State courses, call 970-491-7095 to speak with an advisor.
- For CU-Boulder courses, call toll-free 800-331-2801.
- For CSU-Pueblo courses, call toll-free 800-388-6154.
- For ASC courses, call toll-free 800-548-6679.

Enrollment

Enrollment in independent study courses does not constitute admission to any of the Colorado Consortium institutions. MSCD requires an admission application at the time of enrollment (see page 129).

If you currently are enrolled in a degree program, check with the appropriate official at your degree-granting institution to make certain the course will apply to your degree program.

To Register

- Select a course. Upon request, CU-Boulder, UNC, ASC, Fort Lewis, CU-Denver, CSU-Pueblo, and Mesa State will provide detailed course information including an outline of assignments, approximate book cost, and instructor information.
- Identify which institution offers the course.
- Complete the registration form on page 127.
- Mail or fax your registration form, along with tuition and fees, to the institution offering the course. (A service charge is assessed for all returned checks.)
- To charge tuition, indicate the type of credit card, credit card number, and expiration date. All Colorado Consortium members accept VISA and MasterCard. ASC, Colorado State, CU-Boulder, MSCD, UNC, Fort Lewis, CU-Denver, CSU-Pueblo, and Mesa State also accept Discover Card. Colorado State also accepts American Express.
- You can register by phone at ASC, Colorado State, CU-Boulder, CU-Denver, UNC, Fort Lewis, and CSU-Pueblo if you are charging the tuition and fees. Phone registrations are accepted during regular business hours.
- MSCD courses require the additional admission application.

Course materials are sent via first-class mail or United Parcel Service. MSCD course materials are purchased through the Auraria Book Store.

Textbooks

Because required textbooks are subject to change during the year, they are not listed in this bulletin. The titles of required textbook(s) and ordering information are included in your syllabus/study guide. Books may be purchased at many bookstores, but to ensure getting the correct edition, we recommend that you order them from the bookstore of the institution offering the course. Contact the appropriate bookstore (listed on page 133) for textbook costs.

Occasionally textbooks become unavailable, and it becomes necessary to discontinue accepting registrations. In that event, tuition is refunded or transferred to another course with an equal number of credits.

Do not include payment for books with tuition unless specifically indicated in the course description. Specify whether you want new or used books.

To order textbooks by mail, use the book order form on page 131. Textbooks may be ordered by phone with VISA or MasterCard. Colorado State, CU-Boulder, and UNC also accept American Express; and ASC, Colorado State, UNC, Fort Lewis, CU-Denver, CSU-Pueblo, and Mesa State also accept Discover Card.

- Textbooks for CU-Boulder credit courses may be ordered (or prices checked) online at cubooks.colorado.edu. Just click on the Online Catalog, click on Course Materials, then Select a Semester (the current one will be indicated). When selecting a department, choose CORR. Colorado residents pay state sales tax on all bookstore purchases.
- Bookstores at CU-Boulder, Mesa State, and UNC send all materials UPS. UPS cannot deliver to a post office box number.
- Textbooks for CSU Pueblo may be ordered online at www.csupueblobookstore.com. Click on textbooks, select term, department, course, and then click on independent study.

Withdrawals/Refunds

Requests to withdraw from a course must be submitted in writing to the institution offering the course. Due to withdrawal periods, requests will be reviewed, and not all requests may be honored.

- UNC and CU-Boulder only accept requests for refunds or transfers within 40 days of registration.
- ASC and MSCD only accept requests for refunds or transfers within 30 days of registration.
- CSU-Pueblo only accepts requests for refunds or transfers within 14 days of registration.
- Mesa State accepts requests for refunds within 10 days of beginning of class.
- UNC accepts written, phoned, or e-mailed requests for withdrawals.

Library Services

You may use the library of the institution at which you are registered by presenting your course receipt and positive identification at the checkout desk. You are also encouraged to use local libraries and to ask librarians to order materials through interlibrary loan that are not locally available. Some materials may also be available through internet connections with public libraries.

- Colorado State students may receive assistance in identifying and obtaining library information and materials that are not available locally by contacting the Extended University Programs librarian at 970-491-6952 or 877-491-4336, ext. 16952.
- Library services such as catalog and database access, interlibrary loan, and reference service are available through CSU-Pueblo's library. Information on accessing CSU-Pueblo's catalog and electronic databases, as well as contact information for the distance education library liaison, is sent with initial course mailings. If you do not receive this information, contact continuing education or the library liaison at 719-549-2527. For library services available to you, see our web site at <http://library.colostate-pueblo.edu/distance.asp>. Feel free to contact the library liaison with any questions you may have.
- UNC students may request assistance in accessing, identifying, and obtaining library resources that are not available locally by calling 970-351-2562 or visiting www.unco.edu/library/distance.

Grades

In general, A, B, C, and D are passing; F is failure; and at some institutions, W is withdrawal. At CU-Boulder, CU-Colorado Springs, CU-Denver, CSU-Pueblo, and Colorado State, plus and minus grades are recorded and credit points are calculated accordingly.

- You may take a credit course from CU-Boulder on a pass/fail basis according to the following guidelines:
 - (1) you must exercise the option within 40 calendar days of your registration,
 - (2) if you are enrolled in a degree program at CU-Boulder, only a limited number of hours may be taken pass/fail and you may not use pass/fail to satisfy major requirements or Arts and Sciences Core Curriculum requirements, and
 - (3) you are encouraged to check with your college or school to ensure that credit earned pass/fail will be applied to your degree program.
- ASC offers MATH 095 and MATH 099 on a pass/fail basis only.
- At Mesa State, if you do not complete a class, you receive an F.
- At MSCD, if you do not complete a class, you receive an N/C.
- At UNC, if you do not complete a class, you receive a W.

Postage

Independent study is most often conducted by the exchange of material through the mail and increasingly by e-mail. Each independent study office (with the exception of MSCD, ASC, Fort Lewis, and CSU-Pueblo) pays the postage on corrected assignments returned to students, except when airmail outside the United States is requested. Students pay postage on all assignments and exams sent for grading. Students enrolling at MSCD, ASC, Fort Lewis, and CSU-Pueblo should include postage-paid, self-addressed return envelopes with each assignment. CU-Boulder, UNC, CSU-Pueblo, and Colorado State pay postage on examinations sent for grading and mailed within the United States.

As long as first-class mail remains at 37 cents an ounce and airmail at 80 cents an ounce, the following amounts will be assessed for airmail service by CU-Boulder (APO and FPO addresses not included):

Canada and Mexico \$23

Central America, South America,

West Indies \$47

Other Overseas \$53

ASC, Colorado State, UNC, Fort Lewis, and CSU-Pueblo require that all students outside the U.S. (excluding APO/FPO addresses and U.S. possessions) pay a fee of \$40 for airmail postage at the time of registration. At Colorado State, UNC, and ASC the \$40 fee is per course.

Financial Aid

Many continuing education programs are not degree granting. Therefore, federal grants, such as the BEOG, Pell, etc., may not be applied to correspondence study. You are encouraged to seek scholarship aid from organizations and local civic groups that may sponsor such study. For those degree granting institutions, financial aid may apply in some cases. You are encouraged to contact those schools directly.

To receive Veterans Administration benefits (cost of course reimbursement only), you must be accepted into an approved degree or certificate program or have submitted to the VA office a statement of professional objectives with an outline of courses to achieve those objectives. To receive full benefits, more than one-half of each term's course work must be taken in regular campus classes. Benefits are not granted for proficiency-increasing postgraduate studies. For information, contact the VA office at the institution where you plan to enroll. Colorado State, ASC, CSU-Pueblo, and UNC courses are approved for the DANTES program. Eligible military personnel should process DANTES applications through their education office.

CLEP Exams and Credit for Life Experience

You may use the College Level Exam Program (CLEP) developed by the College Entrance Examination Board. This program is especially useful for adults who have had no formal college experience, but whose work or life experience has given them enough expertise in a field to pass an examination and receive academic credit. Consortium institutions administer the CLEP examinations.

For further information, write to CLEP, Box 592, Princeton, NJ 08590, or the admissions office of the institution where you wish to take the examination(s).

Special Services for Students with Disabilities

Recording for the Blind and Dyslexic, Inc. (RFB&D) is able to provide a free service to students who are unable to read normally printed material because of visual, physical, or perceptual disabilities. Made possible by contributions, RFB&D maintains a master tape library containing over 48,000 titles. If required books are not among its holdings, and if the borrower is registered with RFB&D and submits two identical copies of the work, RFB&D will record the book. For additional information, write to Recording for the Blind and Dyslexic, Inc., 20 Roszel Road, Princeton, NJ 08540, or call 800-221-4792.

A free national library program of Braille and recorded materials for blind and physically disabled persons is administered by the National Library Service (NLS), Library of Congress. Ask your local public librarian for more information about the program and how to apply for the service.

If you are disabled and require special services or considerations, contact the institution offering the course you have chosen to see what services, if any, are available and how we can assist you.

Peterson's Guide to Distance Learning Programs 2005, 9th Edition

Peterson's Guide to Distance Learning lists courses offered through independent study by accredited colleges and universities and also lists institutions that offer degrees by correspondence. The Guide comprises more than 4,600 annually updated profiles from more than 1,100 accredited degree-granting institutions offering distance-learning programs in the U.S. and Canada. The catalog may be ordered for \$23.96 plus \$3.00 shipping and handling from Peterson's Guides, P.O. Box 2123, Princeton, NJ 08543-2123. Call 800-338-3282 or visit the Peterson's web site at www.petersons.com.

Telecourses

Telecourses utilize a method of instruction that allows the student to learn at home or work. Credit may be earned from sponsoring institutions by registering for courses broadcast on Public Broadcast System channels or on local educational/cable television stations and by successfully completing assignments and exams.

For a list of the telecourses offered by Rocky Mountain PBS, contact the Adult Education Service, 1089 Bannock Street, Denver, CO 80204, or call 303-620-5686 or 1-877-667-6727. Rocky Mountain PBS covers all of Colorado through its stations KRMA/Denver, KTSC/Pueblo and Colorado Springs, and KRMJ/Grand Junction.

Credit Courses

African Studies

AAS 1130 Metro State

Survey of African History

Surveys major developments on African continent from ancient times to the modern period. Focuses on political and cultural developments in African civilizations from ancient Egypt to contemporary period. 10 essay lessons, 2 critiques, 2 proctored exams, maps. Textbooks and study guide available at Auraria Campus Bookstore. Also offered as HIS 1940. May be taken for credit from only one department. Register through MSCD.

Print Correspondence, Self-paced

Instructor: Deborah Schmitt, PhD

Credits: 3 semester hours

Tuition: \$390

Course Delivery: 

Agriculture and Resource Economics

EA 308 865 Colorado State

Agricultural Finance

Prereq.: EA/EACC 202 (Agricultural and Resource Economics) or EC/ECCC 202 (Principles of Microeconomics) or written consent of instructor. The course will discuss financial statements, financial analysis and performance, decision making, investment analysis, and current issues in the agricultural finance field. Course materials available at Colorado State Bookstore.

Online, Semester-based

Instructor: Dawn Thilmany, PhD

Credits: 3 semester hours

Tuition: \$597 Fees: \$15

Course Delivery: 

Agriculture

A 140 865 Colorado State

Technology in Agriculture

Computer concepts and terminology—PC operating systems, web tools, e-mail, presentation technology, word processing, spreadsheets, and database. Course materials available at Colorado State Bookstore.

Online, Semester-based

Instructor: Michael Hanna

Credits: 3 semester hours

Tuition: \$597 Fees: \$15

Course Delivery: 

A 300 865 Colorado State

Issues in Agriculture

Scientific, technical, cultural, and social issues facing agriculture, and their interrelationships. Includes videotape presentations by national leaders with expertise on various issues facing agriculture. Also includes electronic discussions of issues. Course materials available at Colorado State Bookstore.

Online, Self-paced

Instructor: Glen Rask, PhD

Credits: 2 semester hours

Tuition: \$398 Fees: \$15

Course Delivery:  

A 320B 865 Colorado State

Computer Applications in Agriculture-Databases

Prereq.: A 140 (Technology in Agriculture) or BD 150 (Business Computing Concepts and Applications) or CS 110 (Personal Computing) or written consent of instructor. Intermediate course in concepts and tools of database management. Microsoft Access 2002 used to reinforce concepts. Create multitable queries, develop forms and subforms, create complex reports from tables and queries, create advanced queries, and share Access data with other Microsoft Office programs. Software and hardware requirements: Microsoft Access 2002 and Internet access. Course materials available at Colorado State Bookstore.

Online, Semester-based

Instructor: Michael Hanna

Credits: 1 semester hour

Tuition: \$199 Fees: \$15

Course Delivery: 

A 320C 865 Colorado State

Computer Applications in Agriculture-Communications (Web Page Design)

Prereq.: A 140 (Technology in Agriculture) or BD 150 (Business Computing Concepts and Applications) or CS 110 (Personal Computing) or written consent of instructor. Intermediate level course in web page/web site design. Macromedia Dreamweaver MX used to create web pages and assemble into web site. Create web pages, templates, tables, frames, and web site. Insert graphics, link to other sites and pages, and publish sites. Software and hardware requirements: Macromedia Dreamweaver MX and Internet access. Course materials available at Colorado State Bookstore.

Online, Semester-based

Course Delivery: 

*BIO 190 Fort Lewis***Effective Strategies for Dealing with the Obesity Crisis: Nutrition, Physical Activity, and Weight Management Interventions**

This online course addresses the current methods for dealing with the obesity epidemic in the U.S. and the world at large. We now know that almost two-thirds of Americans are overweight and that this trend toward obesity is spreading globally. The U.S. Centers for Disease Control reports that over 20 percent of American adults are now obese and almost one-third of American children are overweight and at risk of becoming obese. This course covers the probable causes of this epidemic, including the current environmental factors leading to obesity and the economic and health consequences of obesity. Starting with a general review of the physiology of nutrition and physical activity, this course includes a review of the current plans used to lose and manage weight and to improve general health including dieting, supplements, and exercise. The relative success/failure of these interventions is presented.

Prereq.: Introduction to Human Nutrition or instructor permission.

Online, Self-paced

Instructor: Marge Morris, M.Ed., R.D.

Study ethical standards, auditing standards, audit procedures, and evolution of internal control to learn how financial statements are examined and audit reports are prepared. Prereqs.: Introduction to Accounting I and II, Intermediate Accounting I and II, Business Statistics. 4 exams.

Print Correspondence, Self-paced

Credits: 3 semester hours

Tuition: \$315 Fees: \$10

Course Delivery: 

*BUS 414 Adams State***Commercial Banking**

Explores function and role of commercial banks, including operation, loan policies, security instruments, and socioeconomic impact. Prereqs.: Introduction to Accounting I, Business Law, Principles of Economics I. 3 quizzes, 3 exams.

Online, Self-paced

Credits: 3 semester hours

Tuition: \$330 Fees: \$35

Course Delivery: 

*BUS 416 Adams State***Business Financial Problems**

Examine financial problems faced by business firms with purpose of developing integrated theories of financial policy at firm level. Case studies used extensively. Prereq.: Managerial Finance. 3 quizzes, 3 case reports, 3 exams.

Print Correspondence, Self-paced

Credits: 3 semester hours

Tuition: \$315

Course Delivery: 

*BUS 416 Adams State***Business Financial Problems**

Examine financial problems faced by business firms with purpose of developing integrated theories of financial policy at firm level. Case studies used extensively. Prereq.: Managerial Finance. 3 quizzes, 3 case reports, 3 exams.

Online, Self-paced

Credits: 3 semester hours

Tuition: \$330 Fees: \$35

Course Delivery: 

*BUS 466 Adams State***Business Ethics**

Examine issues addressing ethical, legal, social, and environmental responsibilities of business towards government, customers, employees, and general public. Understand complex interplay of economic, political, and social forces to better comprehend impact of globalization of markets, advances in science, and changing relationships between humans and nature. Business leaders are required to think more carefully than ever about effects of their actions on company's employees, customers, suppliers, and inventors. Learn how we, the stakeholders, try to understand, influence, and shape business behavior and social change.

Print Correspondence, Self-paced

Credits: 3 semester hours

Tuition: \$315

Course Delivery: 

*BUS 480 Adams State***Business Policy**

Understand planning activities, determination of alternatives, policy formulation, execution of plans, and development of corporate company strategy currently used by business enterprises. Involves extensive case study. Prereq.: BUS 207, 208, 304, 361, 363, ECON 255.

Print Correspondence, Self-paced

Credits: 3 semester hours

Tuition: \$315

Course Delivery: 

*BUSAD 302 CSU-Pueblo***Ethical Issues and the Legal Environment of Business**

Examine issues addressing ethical, legal, social, and environmental responsibilities of business toward government, customers, employees, and general public. E-mail/interactive dialog available. Register through CSU-Pueblo.

Print Correspondence, Self-paced

Credits: 3 semester hours

Tuition: \$297

Course Delivery: 

*MANG 300 Mesa State***Small Business Management**

Aspects of management uniquely important to small business firms; the economic and social environment in which they function. Prereq.: MANG 201 or consent of instructor.

Online, self-paced

Credits: 3 Semester hours

Tuition: \$399

Course Delivery:  

*MGMT 201 CSU-Pueblo***Principles of Management**

Managerial processes related to planning, organizing, leading, decision-making, and controlling. Modern management techniques are emphasized. Prereq.: BUSAD 101 or permission of instructor for nonbusiness majors. E-mail/interactive dialog available. Register through CSU-Pueblo.

Print Correspondence, Self-paced

Credits: 3 semester hours

Tuition: \$297

Course Delivery: 

*MGMT 301 CSU-Pueblo***Organizational Behavior**

Behavior of individuals and small groups in organizational settings. Managerial style, social system analysis, motivation, and communication. Prereq.: MGMT 201. E-mail/interactive dialog available. Register through CSU-Pueblo.

Print Correspondence, Self-paced

Credits: 3 semester hours

Tuition: \$297

Course Delivery: 

*MGMT 311 CSU-Pueblo***Operations and Quality Management**

Tools, techniques, and skills used in management of production function: those activities that transform inputs such as raw materials, capital, technology into a useful bundle of goods and services for customers. Prereq.: MGMT 201, MATH 220, or BUSAD 265, or for nonbusiness majors MATH 156. E-mail/interactive dialog available. Register through CSU-Pueblo.

Print Correspondence, Self-paced

Credits: 3 semester hours

Tuition: \$297

Course Delivery: 

*MGMT 318 CSU-Pueblo***Human Resource Management**

Recruiting, testing, interviewing, training, and evaluating workers; planning for personnel needs; establishing personnel functions; employment laws; establishing pay plans. Prereq.: MGMT 201. E-mail/interactive dialog available. Register through CSU-Pueblo.

Print Correspondence, Self-paced

Credits: 3 semester hours

Tuition: \$297

Course Delivery: 

*MGMT 362 CSU-Pueblo***Purchasing and Materials Management**

Introduction to purchasing and materials management function within organizations. Topics include purchasing objectives and policies, operating procedures, organization, specifications, standardization, make-or-buy, sources of supply, pricing, cost analysis, contracts, negotiation, quality, inventory, stores, receiving, and ethical purchasing behavior. Prereq.: MGMT 311. E-mail/interactive dialog available. Register through CSU-Pueblo.

Print Correspondence, Self-paced

Credits: 3 semester hours

Tuition: \$297

Course Delivery: 

*MGMT 410 CSU-Pueblo***Labor Management Relations**

Federal and state legislation and execution and executive orders governing employer-employee relationship; legal rights of organizations and collective bargaining. Prereq.: MGMT 318. E-mail/interactive dialog available. Register through CSU-Pueblo.

Print Correspondence, Self-paced

Credits: 3 semester hours

Tuition: \$297

Course Delivery: 

MGMT 414 CSU-Pueblo**Entrepreneurship (The Study of Small Business)**

Environment, management, marketing, accounting, and legal considerations facing small business owner and manager. E-mail/interactive dialogue available. Prereqs.: BUSAD 302, FIN 330, MGMT 301, MGMT 311, MKTG 340. Register through CSU-Pueblo.

Print Correspondence, Self-paced

Credits: 3 semester hours

Tuition: \$297

Course Delivery: 

MGMT 460 CSU-Pueblo**Operations Strategy**

Tools, techniques, and skills used in development of operations plan to allow organization to gain competitive advantage in marketplace through choice of process and infrastructure. Prereq.: MGMT 311. E-mail/interactive dialog available. Register through CSU-Pueblo.

Print Correspondence, Self-paced

Credits: 3 semester hours

Tuition: \$297

Course Delivery: 

MGMT 468 CSU-Pueblo**Total Quality Management**

Concepts and techniques of quality improvement processes. Defining quality in customer satisfaction terms and improving quality of products and service through modern techniques. Prereq.: MGMT 311. E-mail/interactive dialog available. Register through CSU-Pueblo.

Print Correspondence, Self-paced

Credits: 3 semester hours

Tuition: \$297

Course Delivery: 

MGMT 485 CSU-Pueblo**Management Policy and Strategy**

Course integrates all previous business core courses into realistic and scientific approach to solution of organizational problems and evaluation of opportunities. Concentrates on long term aspects of business operations and uses case study method extensively. Prereqs.: Accounting I and II, Economics I and II, Principles of Management, Principles of Marketing, Business Statistics, Computers and Information Systems, Organizational Behavior and Production/Operations Management. E-mail/interactive dialog available. Register through CSU-Pueblo.

Print Correspondence, Self-paced

Credits: 3 semester hours

Tuition: \$297

Course Delivery: 

Chemistry**CHE 3050 Metro State****Environmental Chemistry**

Web-based course especially useful to professionals in environmental chemistry to update knowledge and stay current in careers. Focus on environmental chemistry topics dealing with: hydrosphere, atmosphere, geosphere, biosphere, ecosphere, and chemistry of hazardous materials. Prereqs.: general chemistry and one semester of organic chemistry. 27 readings and corresponding 5-question quizzes for each assignment. Textbook is available at Auraria Campus Bookstore. Register through MSCD. Section not open to Colorado residents. Colorado residents should see MSCD class schedule for appropriate semester-based section.

Online, Self-paced

Instructor: Wilton Flemon, PhD

Credits: 3 semester hours

Tuition: \$390

Course Delivery: 

CHEM 101 CSU-Pueblo**Chemistry and Society**

For nonscience majors requiring one-semester introductory course. Presented with fascinating series of videos narrated by outstanding scientist and Nobel Laureate, Dr. Ronald Hoffman. Readings from text, The World of Chemistry Essentials, accompany videos. Text was designed to accompany video series. Communication with instructor via e-mail is encouraged. Videotape fee \$75. E-mail/interactive dialog available. Register through CSU-Pueblo.

Print Correspondence, Self-paced

Credits: 3 semester hours

Tuition: \$297

Fees: \$75

Course Delivery:  

CHEM 101L CSU-Pueblo**Chemistry and Society Lab**

Lab of 10 exercises from text, World of Chemistry Essentials Study Guide, to be done at home. No special equipment or chemicals required. E-mail/interactive dialog available. Register through CSU-Pueblo.

Print Correspondence, Self-paced

Credits: 1 semester hour

Tuition: \$99

Course Delivery: 

CHEM 103 Northern Colorado**Introductory Chemistry**

Basic chemistry concepts prepare those with no chemistry background for CHEM 108 or 111 (Fundamentals of Chemistry I or Principles of Chemistry I). No credit for chemistry majors or minors. E-mail address and Internet access required. Course materials available from UNC Bookstore. Register through UNC. 5 supervised exams.

Online, Self-paced

**Instructors: Kimberly Pacheco, PhD,
and Richard Schwenz, PhD**

Credits: 3 semester hours

Tuition: \$420

Course Delivery:  

*CHEM 211 CSU-Pueblo***Introduction to Organic Chemistry**

Study of aliphatic and aromatic compounds including current theories, nomenclature, properties, synthesis, reactions, mechanisms, and spectroscopy. Emphasis on comprehension, understanding, and applications of molecular behavior and relevance to everyday life. For students requiring survey of organic chemistry in one semester. Not intended for chemistry majors or preprofessional students requiring in-depth introduction to subject. Material presented through videotapes and assigned readings from course text and study guide. Videotape fee \$75. E-mail/interactive dialog available. Register through CSU-Pueblo.

Print Correspondence, Self-paced

Credits: 3 semester hours

Tuition: \$297 Fees: \$75

Course Delivery:  

*CHEM 331 001 CU-Colorado Springs***Online Organic Chemistry I**

An online course via WebCT. Topics include structure and reactions of alkanes, alkenes, alkynes, and alkyl halides, organic nomenclature, stereochemistry, reaction mechanisms, and kinetics. Course is semester based, call for specific dates and number of weeks. Book for course, Organic Chemistry by F. Carey, and chemistry office software can be purchased at UCCS Bookstore as package. Go to www.uccs.edu/~storeboo. Register through CU-Colorado Springs, LAS Extended Studies.

Online, Semester-based

Instructors: Allen Schoffstall, PhD;

Barbara Gaddis, PhD

Credits: 3 semester hours

Tuition: \$550

Course Delivery: 

*CHEM 332 CU-Colorado Springs***Organic Chemistry II**

Online course accessed via WebCT. Topics include structure and reactions of alcohols, carboxylic acids, aldehydes, ketones, amines, aromatic compounds, heterocycles, sugars, and amino acids. Emphasis is on organic synthesis and reaction mechanisms. Textbook *Organic Chemistry* by F. Carey and Chemistry Office software may be purchased at the UCCS Bookstore as a package: www.uccs.edu/~storeboo. Course is semester-based; call for specific dates. Register through CU-Colorado Springs, LAS Extended Studies.

Online, Semester-based

Instructors: Allen Schoffstall, PhD;

Barbara Gaddis, PhD

Credits: 3 semester hours

Tuition: \$550

Course Delivery: 

*CHEM 556 Northern Colorado***Physical Chemistry of Atomic and Microscopic Systems**

Prereqs.: CHEM 451 and 452: Physical Chemistry I and II. Examines details of atomic and molecular structure, energetics, and dynamics. 7 exercise sets, 13 projects. E-mail address and Internet access required. Textbook available from UNC Bookstore. Register through UNC.

Online, Self-paced

Instructor: Richard Schwenz, PhD

Credits: 3 semester hours

Tuition: \$630

Course Delivery:  

Communication*COMM 2400 641 CU-Boulder***Communication and Society**

Examines how aspects of talk (e.g., turn taking, speech acts, narratives, dialect, and stance indicators) link with identities (e.g., ethnic and racial, age, gender, work related, and personal). Considers how communication is central to constructing who people are and examines social controversies related to talk and identities. Approved for arts and sciences core curriculum: contemporary societies. 10 lessons, 1 exam.

Online, Self-paced

Instructor: Julien Mirivel, MA

Credits: 3 semester hours

Tuition: \$555

Course Delivery: 

*COMM 3310 CU-Boulder***Principles and Practices of Argumentation**

Focuses on principles of argument, process of critical decision making, and uses and limitations of logic and evidence. Contemporary issues (personal, social, political, or philosophical) analyzed and debated. Required for majors. Prereq.: COMM 1300. Cannot receive credit for COMM 2310 and COMM 3310. Restricted to juniors and seniors. Similar to COMM 2310.

Online, Semester-based

Instructor: Alex Heintzman, MA

Credits: 3 semester hours

Tuition: \$657

Course Delivery: 

*COMM 4600 640 CU-Boulder***Senior Seminar: Organizational Communication**

Reviews current research and theory on topics such as communication and organizational decision making, organizational culture, gender relations, communication technology, and power and control in organizations. May be repeated for total of 6 credit hours.

Prereqs., COMM 1210, 1300, 1600.

Recommended Prereq.: COMM 2600. Same as COMM 5600. Approved for arts and sciences core curriculum: critical thinking.

7 lessons, 1 research paper.

Online, Self-paced

Instructor: Brenda J. Allen, PhD

Credits: 3 semester hours

Tuition: \$555

Course Delivery: 

*COMM 577 CU-Colorado Springs***Leadership Communication in a Global Environment**

Advanced exploration of contemporary leadership theory and research with an emphasis on global leadership communication issues. Strategic communication methods are investigated through case analysis with emphasis on the relationship between leadership and culture, leadership style, corporate culture, leadership challenges in dealing with diverse populations, ethical leadership and followership, and the global leadership challenges of the future. Course is semester-based; call for specific dates. Register through CU-Colorado Springs, LAS Extended Studies.

Compact Disc/Online, Semester-based

Michael Z. Hackman, PhD

Credit: 3 semester hours

Tuition: \$529

Course Delivery:  

Communication Disorders

CMDS 555 Northern Colorado **Neuroanatomy and Neurophysiology of Communication**

Neuroanatomy-physiology related to speech, language, and hearing; neuropathologies of central nervous system and results of neurological insult. 3 self-administered exams. E-mail address and Internet access required. Course materials available from UNC Bookstore. Register through UNC.

Online, Self-paced

Instructor: Donna Bottenberg, PhD

Credits: 3 semester hours

Tuition: \$630

Course Delivery:  

SPE 1500 Metro State

Introduction to Communication Disorders

Introduction to speech-language pathology, audiology, and to populations served by them. 8 lessons, 3 proctored exams, 1 book critique, 1 observation. Textbooks and study guide available at Auraria Campus Bookstore. Register through MSCD.

Print Correspondence, Self-paced

Instructor: Jean Lundy, EdD

Credits: 3 semester hours

Tuition: \$390

Fees: \$30

Course Delivery:  

SPE 2530 Metro State

Voice Science, Pathology, and Technology

Examines basic processes of voice production and disorders of vocal mechanism and is useful for speech pathologists, voice teachers, performers, and others. Prereq.: Speech 1010 or permission of instructor. 4 assignments, 4 proctored exams, 1 comprehensive final, 1 project report. Textbook and study guide available at Auraria Campus Bookstore. Register through MSCD.

Print Correspondence, Self-paced

Instructor: Diane Lowry, MA, CCC-SLP

Credits: 3 semester hours

Tuition: \$390

Fees: \$30

Course Delivery:   

SPE 3610 Metro State

Audiology II

Advanced anatomy of inner ear and central auditory nervous system. Introduces vestibular system and specialized diagnostic tests. Recommended for speech and language majors especially if considering graduate study. Prereq.: Upper-division status or permission of instructor. 11 lessons, 3 proctored exams, research paper. Textbooks and study guide available at Auraria Campus Bookstore. Register through MSCD. Offered spring only.

Print Correspondence, Self-paced

Instructor: Jean Lundy, EdD

Credits: 2 semester hours

Tuition: \$260

Course Delivery: 

Computer Information Systems

BD 150 865 Colorado State

Business Computing Concepts and Applications

Prereq.: Cannot receive credit for both BD 150 and BD 111. E-learning (on-screen interactive multimedia) course that covers seven essential IT skills of basic IT concepts, Windows, Internet and e-mail, Word, Excel, and PowerPoint. Ideal learning environment for adult students to significantly update computer skills in low stress environment. E-learning software includes on-screen assessments for every topic, which are used as "pre-assessments" for students.

Incorporates creation of a short business plan that uses all skills learned during semester. Course book, Essential IT Skills, includes CD-ROM that contains the interactive learning software necessary. Exams are proctored.

Online, Semester-based

Instructor: Candace Lewis

Credits: 3 semester hours

Tuition: \$597 Fees: \$15

Course Delivery:  

Computer Science

CS 110 CU-Colorado Springs

Problem Solving through Game Creation

An introductory course that combines problem-solving techniques with computer game design and implementation to introduce the student to basic gaming and computer science concepts. Students design, implement, and test computer games using drag-and-drop game creation tools; no programming is required.

Online

Credits: 2 Semester Hours

Tuition \$450

Course Delivery: 

CS 531 CU-Colorado Springs

Software Requirements, Analysis and Specification

Techniques and tools for requirements analysis and requirements specification. The course covers a variety of concepts, including requirements elicitation, requirements specification, requirements quality, and managing changing requirements. Students build their own requirements specification and explore a requirements topic in more depth through a short research paper.

Prereq.: CS 330, Software Engineering, or equivalent, or instructor permission.

Online

Credits: 3 semster hours

Tuition: \$1,250

Course Delivery: 

CS 532 CU-Colorado Springs

Software Design

Covers a variety of methodologies and tools for design of software systems. The course covers the nature of software design and how it fits into the software development process, issues associated with describing designs and transferring design knowledge to those who will implement and maintain those designs, and specific design practices that have been and are currently being used to express software designs. Students build their own design specification. Prereq.: CS 330, Software Engineering, or equivalent, or instructor permission.

Online

Credits: 3 semester hours

Tuition: \$1,250

Course Delivery: 

*CS 534 CU-Colorado Springs***Software Maintenance**

Discussion and application of corrective, adaptive, perfective and preventive software maintenance techniques and tools. The course begins with a discussion of the different kinds of software maintenance and the processes people use to accomplish software maintenance. The rest of the course is a combination of management concepts (maintenance planning, resource issues, maintenance organization structure, etc.) and technical concepts (reverse engineering, re-engineering, impact analysis, regression testing, and so on). For a project, student teams maintain an existing software system. Prereq.: CS 145, Data Structures and Algorithms, or equivalent, CS 330, Software Engineering, or equivalent, or instructor permission.

Online**Credits: 3 semester hours****Tuition: \$1,250****Course Delivery:** *CS 535 CU-Colorado Springs***Software Project Management**

Planning, costing, scheduling, and controlling software projects. The course covers software development processes, process improvement, the basics of starting up a project (including cost and schedule estimation), tracking and controlling progress, closing out a project, and the "umbrella" activities of Quality Assurance and Configuration Management. Prereq.: CS 330, Software Engineering, or equivalent, or instructor permission.

Online**Credits: 3 semester hours****Tuition: \$1,250****Course Delivery:** *CS 536 CU-Colorado Springs***Software Product Assurance**

Principles, techniques, and tools for producing quality software systems. The course covers how QA programs can be implemented effectively, quality models and quality evaluation, a variety of verification and validation techniques used to ensure quality software, specific software testing techniques and how they should be implemented, and how measurement relates to software quality assurance. Prereq.: CS 330, Software Engineering, or equivalent, or instructor permission.

Online**Credits: 3 semester hours****Tuition: \$1,250****Course Delivery:** *CSCI 2830 640 CU-Boulder***Special Topics in Computer Science**

Social, legal, and ethical issues in computer science. 4 lessons, no exams.

Online, Self-paced**Instructor: James P. Gately, MT****Credits: 1 semester hour****Tuition: \$185****Course Delivery:** *CSCI 2830 650 CU-Boulder***Special Topics in Computer Science**

Social, legal, and ethical issues in computer science. 4 lessons, no exams.

Print Correspondence, Self-paced**Instructor: James P. Gately, MT****Credits: 1 semester hour****Tuition: \$185****Course Delivery:** *CSIS 106 Fort Lewis***Introduction to Program Visual Basic.net**

Point-and-click methods will be combined with elementary programming concepts to develop Windows applications with a graphical user interface. Topics include input and output tools, control structures, debugging techniques, library functions, file manipulation, and graphics programming.

Online, Self-paced**Instructor: Evans Adams, PhD****Credits: 4 semester hours****Tuition: \$460****Course Delivery:** *CSIS 206 Fort Lewis***Advanced Program Visual Basic.net**

A second course in Visual Basic Programming. Topics include: VB Data Files, Accessing Databases, Active-X Controls, Collections and Classes, Dynamic Link Libraries, VB for Applications, Graphics, Data Validation and Error Trapping, and Internet Programming. Prereq.: CSIS 106

Online, Self-paced**Instructor: Evans Adams, PhD****Credits: 4 semester hours****Tuition: \$460****Course Delivery:** **Criminal Justice***CJC 1010 Metro State***Introduction to the Criminal Justice System**

A study of the American Justice System and its problems and reactions to prevailing social forces. Continuum of criminal justice from police, through courts, to corrections is surveyed to provide background for more in-depth study in later courses. 12 lessons, 3 term papers. Textbooks and study guide available at Auraria Campus Bookstore. Register through MSCD.

Print Correspondence, Self-paced**Instructor: Dean Reeves, MCJ****Credits: 3 semester hours****Tuition: \$390****Course Delivery:** *CJC 2010 Metro State***Introduction to Private Security**

Addresses history and development of private security and loss prevention in U.S. Provides basic knowledge base for those pursuing a career in private security and enhances understanding of those who interact with security forces. Overview of historical, philosophical, and legal basis of private security and its role in modern society is followed by examination of relevant state statutes concerning private security. Students become familiar with common security techniques and legalities of practicing private security in their particular state. 10 lessons, final project. Textbooks and study guide available at Auraria Campus Bookstore. Register through MSCD.

Print Correspondence, Self-paced**Instructor: Dean Reeves, MCJ****Credits: 3 semester hours****Tuition: \$390****Course Delivery:** 

*CJC 4750 Metro State***Crime Prevention and Loss Reduction**

In-depth analysis of concept, techniques, and strategies of crime prevention and loss reduction with emphasis on selection and implementation of comprehensive prevention systems and loss reduction strategies. 10 lessons, 2 proctored exams, final project. Textbooks and study guide available at Auraria Campus Bookstore. Register through MSCD.

**Best Practices for Literacy
Instruction K-12**

The No Child Left Behind Act has touched every classroom in America, from kindergarten through 12th grade, in all subject areas. Educators are now expected to help every child meet success in literacy, causing content area teachers to provide instruction in reading and writing too. Students who fail literacy assessment, like CSAP, must have literacy plans. Research shares many instructional strategies to help children succeed with literacy, but many teachers have no firsthand experience with these strategies. This independent study course focuses on learning to teach reading strategies effectively by trying them out as a learner with an adult book.

This course teaches you to recognize the signs of physical abuse, emotional abuse, sexual abuse, physical neglect, and emotional neglect in students. It also discusses the specific factors that exist in families of abused or neglected children. A major emphasis in this course is on helping the participant understand the special learning needs of the abused or neglected child and how to meet those needs in the regular classroom. Working with parents and community agencies is also emphasized.

Self-paced

Credits: 2 semester hours

Tuition \$170 Fees: \$95

Course Delivery: 

*ED 589 Adams State***Creative Journaling**

Learn to use the arts (drawing, photographs, and music) to enhance writing and communication processes. Help foster and develop positive self-esteem, expression, creativity, motivation, and appeal to different learning styles through writing, speaking, and the arts. Workbook assignments, reaction paper, review, 1 exam.

Print Correspondence, Self-paced

Credits: 3 semester hours

Tuition: \$375 Fees: \$15

Course Delivery: 

*ED 589 Adams State***Current Issues in Education**

Gives opportunity to select current issue professionally relevant to you, research it using a variety of resources, and present findings in a paper, activity, or project that demonstrates your learning. Instructor approval of topic and plan of research is required before research begins.

Print Correspondence, Self-paced

Credits: 3 semester hours

Tuition: \$375

Course Delivery: 

*ED 589 Adams State***Dealing with Change**

Practical strategies for dealing with transition through predictable stages—an ending followed by time of confusion and distress resulting in new beginning. Whether changing jobs, dealing with policy changes, retiring, or redefining relationships, learn how to use transition as time of opportunity. Workbook assignments, 1 exam.

Print Correspondence, Self-paced

Credits: 3 semester hours

Tuition: \$375

Course Delivery: 

*ED 589 Adams State***Dealing with Conflict and Confrontation**

Deal effectively with conflict, confrontation, anger, aggressiveness, verbal abuse from children and adults, boundary setting strategies, assertiveness training, negotiations, and personal empowerment skills. Course addresses preventive strategies, such as creating physically and emotionally safe environments; a review of ethical issues; dealing with conflict and confrontation in parent-teacher conferences; using communications and assertiveness skills; and recovering from trauma of inappropriate confrontation. Workbook assignments, 1 exam.

Print Correspondence, Self-paced

Instructor: Todd Pinney, PhD

Credits: 3 semester hours

Tuition: \$555

Course Delivery: 

*ENGL 3665 650 CU-Boulder***American Literature after 1860**

Chronological survey of the literature from Whitman to Faulkner. Continuation of ENGL 3655. Restricted to English, humanities, and film studies majors only. Prereq.: sophomore standing. Similar to ENGL 3664. 16 lessons, 2 exams.

Print Correspondence, Self-paced

Instructor: Todd Pinney, PhD

Credits: 3 semester hours

Tuition: \$555

Course Delivery: 

*ENGL 4100 650 CU-Boulder***The English Language**

Outlines history of the language, including brief survey of sound changes affecting modern English, history of grammatical forms, and vocabulary. Assumes elementary knowledge of English grammar. Prereq.: junior standing. 12 lessons, 2 exams.

Print Correspondence, Self-paced

Instructor: Zeldia Rouillard, PhD

Credits: 3 semester hours

Tuition: \$555

Course Delivery: 

*ENGL 4245 CU-Boulder***American Novel 2**

From 1900 to present. Prereq.: junior standing.

Online, Semester-based

Instructor: James McVey, PhD

Credits: 3 semester hours

Tuition: \$657

Course Delivery: 

*ENGL 451 Mesa State***Structure of the English Language**

Study of modern English through the use of structural techniques and linguistic principles. Prereq.: Junior or senior standing or consent of the instructor.

Online, Semester-based

Credits: 3 Semester hours

Tuition: \$399

Course Delivery:  

Environmental Design*ENVD 2001 640 CU-Boulder***Social Factors in Environmental Design**

Introductory course. Critically evaluates built environments. Considers how social and individual behavior is reflected in and influenced by the built environment. 7 lessons, 2 exams.

Online, Self-paced

Instructor: Joseph Juhasz, PhD

Credits: 3 semester hours

Tuition: \$555

Course Delivery: 

Environmental Studies*ENST 205 Northern Colorado***Environment, Politics, and Law**

Analysis of causes and proposed solutions to environmental problems and issues and their political resolution. 8 written assignments, self-administered final exam. Course materials, including study guide, available from UNC Bookstore. Register through UNC. Students residing outside USA/possessions/APO/FPO pay \$40 international airmail postage fee.

Print Correspondence, Self-paced

Instructor: Steve Mazurana, MA

Credits: 3 semester hours

Tuition: \$420

Course Delivery: 

*ENV 101 Adams State***Introduction to Environmental Science**

This course is intended to provide students having little or no scientific background with a balanced and realistic perspective of environmental issues. The course emphasizes the interdisciplinary nature of environmental problems and solutions and involves examination of various levels of organization, methodology, and issues related to each. The course will culminate with consideration of environmental ethics and quality consistent with a sustainable global future.

Print Correspondence, Self-paced

Credits: 4 semester hours

*GEOG 379 Adams State***Cultural Geography**

The contemporary world is experiencing unprecedented change. These changes, along with a deepening concern over threats to our physical environment, have heightened public awareness of the importance of geography and geographic study as a vital component in educating people for responsible global citizenship in the 21st century. This course is organized around the concepts of cultural regions, cultural diffusion, cultural ecology, cultural integration, and cultural landscape. These five themes are applied throughout various systematic studies of population, agriculture, political geography, cities, industries, and transportation.

Print Correspondence, Self-paced

Credits: 3 semester hours

Tuition: \$315

Course Delivery: 

*GEOG 379 Adams State***Economic Geography**

Are we truly globally interdependent? Geography is a matter of economics and economics is a matter of geography. Geographers try to offer explanations as to why peoples, places, commodities, and other economic forces and factors are located in a spatial context. This course will examine specific geographic factors and develop an understanding of their effect on global economic issues. Economic activities, land use, resources, and technology will be used to distinguish between the developed and developing world realms.

Print Correspondence, Self-paced**Credits: 3 semester hours****Tuition: \$315****Course Delivery:** *GEOG 379 Adams State***Political Geography**

Political Geography is concerned with a particular aspect of earth-man relationships and with a special kind of emphasis—the relationship between geographical factors and political entities. This course will focus on the following aspects: historical views of political geography, aspects of states and nations, political geography within states, geopolitics, imperialism, colonialism and decolonization, contemporary international relations (international law and trade, land-locked states, etc.), and aspects of political geography affecting everyday life.

Print Correspondence, Self-paced**Credits: 3 semester hours****Tuition: \$315****Course Delivery:** *GEOG 479 Adams State***Geography of East, South, and Southeast Asia**

This course is an introduction to three of the five subregions of Asia (East, South, and Southeast) and will focus on the Chinas, Japan, North/South Korea, and India, as well as the mainland and insular countries of Southeast Asia. Aspects of each country that will be examined are: economic levels of development, industrial and agricultural bases, cultural and ethnic traits, population distribution, and the overall physical environment of the country.

Print Correspondence, Self-paced**Credits: 3 semester hours****Tuition: \$315****Course Delivery:** *GEOG 479 Adams State***Geography of Europe**

Europe's size is certainly no measure of its global significance. For over two thousand years it has been a focus of human achievement, a hearth of innovation and invention. This course will cover the European continent systematically, examining physical, cultural, economic, and political geographic themes of the continent as a whole. From this foundation, detailed specific areas and countries stretching from Iceland to Greece and from Portugal to Finland will be discussed. This will include the regions of the British Isles and Northern, Western, Mediterranean, and the New Eastern Europe, where many Americans and nearly all our culture originated.

Print Correspondence, Self-paced**Credits: 3 semester hours****Tuition: \$315****Course Delivery:** *GEOG 479 Adams State***Geography of Latin America**

The goal of this course is to give you an understanding of Latin America and the economic, political, and social issues influenced by the region's geography and impacting the various subregions today. This course will be divided into five sections: environmental issues, historical and globalization issues, population issues, urbanization, and regional surveys. Aspects of each country that will be examined are: economic levels of development, industrial and agricultural bases, cultural and ethnic traits, population distribution, and the overall physical environment of the country.

Print Correspondence, Self-paced**Credits: 3 semester hours****Tuition: \$315****Course Delivery:** *GEOG 479 Adams State***Geography of Sub-Saharan Africa**

This course focuses on the region of Africa south of the Sahara Desert and represents a systematic, thematic approach to the multifaceted aspects of the physical and human geography of the region. It is designed to introduce students to a variety of contemporary geographic ideas, theories and concepts and their applicability to "real world" situations in the region. We begin with a general overview of the regions' physical environment, its colonial history, and its peoples and cultures. Finally, a variety of themes associated with the region's human geography, population, and medical and urban geographies, as well as gender inequalities, agricultural and industrial development, and political geography will be examined.

Print Correspondence, Self-paced**Credits: 3 semester hours****Tuition: \$315****Course Delivery:** **Geology***GEL 1150 Metro State***Oceanography**

Introduces world's oceans, including historical explorations, physical and biological processes, energy sources, ocean resources, marine provinces, and geology of ocean basins. Emphasizes global distribution, use and control of ocean resources, and ocean pollution. 3 essays, research project, 4 take-home exams. Textbooks and study guide available at Auraria Campus Bookstore. Register through MSCD.

Print Correspondence, Self-paced**Instructor: Elizabeth Simmons, MS****Credits: 3 semester hours****Tuition: \$390****Course Delivery:** 

*GEOL 101 CSU-Pueblo***Earth Science**

Explore the Earth, its origin, composition, and processes by integrating physical inter-relationships using a holistic approach.

Physical elements and processes comprising environment: energy, air, water, weather, climate, landforms, soils, animals, plants, and Earth itself, as well as elements of astronomy, are examined. As a spatial human-Earth science, course is unique among sciences to synthesize and integrate vast physical science disciplines. Only through relevant education can informed citizens learn about life-sustaining environment that surrounds us all. E-mail/interactive dialog available. Register through CSU-Pueblo.

History Modules

These modules are designed for world history teachers and instructors who wish to enhance their knowledge of world history content and pedagogy. If taken in total, the course is comparable to a college survey course in world history plus teaching guides.

*HIST 5502 OL1 CU-Denver and Health Sciences Center***Module I: 3500 to 500 B.C.E.—The Early Complex Societies**

Reviews the very long period of prehistory, before writing, when anatomical changes and transition to agriculture transformed human society. With agriculture came the development of complex societies worldwide, societies in which large-scale social organization dramatically changed the course of human history. Module concentrates on text readings, documents, maps, and other resources that deal with period before history, early societies in Southwest Asia (Mesopotamia), North Africa (Egypt), South Asia (Indus), East Asia (China), the Americas, and Oceania.

Online, Self-paced

Instructor: Marilyn Hitchens

Credits: 1 semester hour

Tuition: \$376 Fees \$50

Course Delivery: 

*HIST 5502 OL2 CU-Denver and Health Sciences Center***Module II: 500 B.C.E. to 500 C.E.—The Formation of Classical Societies**

Investigate meaning of "classicism" in world history and examine and make comparisons between classical Persia, China, India, Greece, and Rome. Also covers major cross-cultural exchanges (Silk Road and Eurasian nomadic invasions) that occurred during classical period and results of those exchanges for world history. Become familiar with content and pedagogy by means of lectures, text narrative, document readings, geographical study, and by reading a short novel or monograph.

Online, Self-paced

Instructor: Marilyn Hitchens

Credits: 1 semester hour

Tuition: \$376 Fees \$50

Course Delivery: 

*HIST 5502 OL3 CU-Denver and Health Sciences Center***Module III: 500 C.E. to 1000 C.E.—The Postclassical Era**

Examine collapse of classical imperial societies in China, India, Southwest Asia, and the Mediterranean basin under the weight of internal struggle and external invasion; restoration of order in the form of new or altered societies; restoration of trade and exchange. The Byzantine Empire, Islamic states and empires, the Sui, Tang, and Song dynasties in China, medieval Japan, the meeting of Hindu and Islamic traditions in Indian Ocean and feudal Europe form basis for narrative development of the period 500 to 1000 C.E. Read lectures, study text material, examine maps, analyze documents, and read a short novel or monograph.

Online, Self-paced

Instructor: Marilyn Hitchens

HIST 5502 OL5 CU-Denver and Health Sciences Center

Module V: 1500 to 1800 C.E.—The Age of Global Contact and Exchange

Examine global contacts and exchanges that resulted from voyages of Columbus in late 15th to 18th century. During these three centuries, the continents of the world became progressively more interconnected first by trade and later by movements of peoples. Also examines economic and cultural exchanges that grew out of this explosion of world trade. Course content includes Atlantic and Pacific exchanges; changes in Europe that intensified global contacts and exchanges; changes in African society as a result of Atlantic and Pacific Exchanges; growth in power of Islamic world states; and changes in East Asia as a result of world exchange. Includes lectures, text readings, examination of primary documents and maps, pedagogical approaches to subject matter, and review of a literary work connected with period and themes.

Tuition: \$597 **Fees:** \$15

Course Delivery: 

*HD 276 799 Colorado State***Studying Young Children**

Readings with related observation assignments. Topics include studying children through observation; children's emotional, social, and physical development; how children think; language development; creativity; and the whole child and the learning environment. 8 unit assignments, 1 exam.

Course materials, including study guide, available at Colorado State Bookstore.

Print Correspondence, Self-paced

Instructor: Barbara McCornack, MA

Credits: 3 semester hours

Tuition: \$597 **Fees:** \$15

Course Delivery: 

*HD 302 799 Colorado State***Marriage and Family Relationships**

Prereq.: General Psychology or General Sociology. Designed on major themes of marriage and family. Course uses cross-cultural approach to familiarize the student with the variety of forms and functions in human relationships including single life, heterosexuality, homosexuality, racial and ethnic variations, and individual family forms. 5 exams, 5 assignments. Course materials, including study guide, available at Colorado State Bookstore.

Print Correspondence, Self-paced

Instructor: Carol Pfaffly, PhD

Credits: 3 semester hours

Tuition: \$597 **Fees:** \$15

Course Delivery: 

*HD 302 865 Colorado State***Marriage and Family Relationships**

Prereq.: S/SCC 100 (General Sociology), PY/PYCC 100 (General Psychology).

Designed on major themes of marriage and family. Course uses cross-cultural approach to familiarize the student with the variety of forms and functions in human relationships including single life, heterosexuality, homosexuality, racial and ethnic variations, and individual family forms. 5 exams, 5 assignments. Course materials available at Colorado State Bookstore.

Online, Semester-based

Instructor: Carol Pfaffly, PhD

Credits: 3 semester hours

Tuition: \$597 **Fees:** \$15

Course Delivery: 

*HD 310 854 Colorado State***Infant and Child Development in Context**

Prereq.: HD/HDCC 101 (Individual and Family Development) and PY/PYCC 100 (General Psychology). Physical, cognitive, and socioemotional development, from conception through middle childhood in context of family, relationships, and culture. 3 exams, 2 observation assignments. Course materials, including study guide, available at Colorado State Bookstore.

Print Correspondence, Self-paced

Instructors: Karen Barrett, PhD, and

David MacPhee, PhD

Credits: 3 semester hours

Tuition: \$597 **Fees:** \$15

Course Delivery: 

*HD 312 799 Colorado State***Adult Development—Middle Age and Aging**

Prereq.: HDCC 101 or PYCC 100 or SCC 100. Presents aging as a complex and dynamic process. Beginning with an historical overview, ever-widening concentric circles beginning with individual's experience with self, then interpersonal relations with both family and society, and adult's experience as worker and learner. 4 exams. Course materials, including study guide, available at Colorado State Bookstore.

Print Correspondence, Self-paced

Instructor: Jan Rastall, MEd

Credits: 3 semester hours

Tuition: \$597 **Fees:** \$15

Course Delivery: 

*HD 317 799 Colorado State***Children with Special Needs in Child Care**

Prereq.: HD 276 or written consent of instructor. Explores characteristics of, services available to, and issues affecting individuals. Historical perspectives, as well as national trends and resources for developmentally appropriate practice in early education curriculum for children with exceptionality. 2 exams, written assignments.

Course materials, including study guide, available at Colorado State Bookstore.

Print Correspondence, Self-paced

Instructor: Deborah Hobbs, MA

Credits: 3 semester hours

Tuition: \$597 **Fees:** \$15

Course Delivery: 

*HD 374 799 Colorado State***Children's Programming/Curriculum Development**

Integrating knowledge of child development with early childhood teaching skills. Principles of designing and evaluating programs that are developmentally appropriate for children and develop curriculum that is physically, socially, emotionally, cognitively, and creatively appropriate. 8 unit assignments, 1 exam. Course materials, including study guide, available at Colorado State Bookstore.

Print Correspondence, Self-paced

Instructor: Barbara McCornack, MA

Credits: 3 semester hours

Tuition: \$597 **Fees:** \$15

Course Delivery: 

*HD 430 799 Colorado State***Play Behavior**

Prereq.: HDCC 101 or consent of instructor. Young children are natural players and love creatively designed environments. Explores role of play in human development, facilitates design of developmentally appropriate play environments, and encourages development through play. 6 assignments, 2 exams. Course materials, including study guide, available at Colorado State Bookstore.

Print Correspondence, Self-paced

Instructor: Tracy Troeger

Credits: 3 semester hours

Tuition: \$597 **Fees:** \$15

Course Delivery: 

*HD 439 799 Colorado State***Administration of Child Care Centers**

Prereq.: any two of the six courses meeting Colorado child care certification requirements. As more and more women enter work force, the need for affordable, quality child care has skyrocketed. Course focuses on center administration relating to program development and operations, budgeting, state regulations and licensing, and personnel issues. 2 exams, 1 final project. Course materials, including study guide, available at Colorado State Bookstore.

Print Correspondence, Self-paced

Instructor: Ruth McBride, MS

Credits: 3 semester hours

Tuition: \$597 **Fees:** \$15

Course Delivery: 

*HDCC 101 799 Colorado State***Individual and Family Development**

People begin the process of emotional, social, cognitive, and physical development at the moment of conception and continue this developmental process through the life span. Introduces principles and sequences in human development and how crucial element of family-structure and functions supports development. Text books and course materials available at Colorado State Bookstore.

Print Correspondence, Self-paced

Instructor: Linda Stoddard, MS

Credits: 3 semester hours

Tuition: \$597 **Fees:** \$15

Course Delivery: 

*ID 189 Adams State***Teaching Parents to Parent**

Help parents find specific answers and actions for some of the difficult moments in child rearing. Teaches a win-win approach to teaching children to be responsible and learn how to solve their own problems while gaining confidence to meet life's challenges. 7 lessons, final paper.

Print Correspondence, Self-paced

Credits: 1 semester hour

Tuition: \$105 **Fees:** \$12

Course Delivery: 

*ID 189 Adams State***Teaching Parents to Parent Teens**

Times have changed and today's challenges require a new approach to parenting teens. Identifies issues faced by parents of teens and show practical solutions using simple, immediate techniques. 7 lessons, workbook assignments, 1 final paper.

Print Correspondence, Self-paced

Credits: 1 semester hour

Tuition: \$105 **Fees:** \$12

Course Delivery: 

Human Rehabilitation Services*HRS 290 Northern Colorado***Introduction to Human Rehabilitative Services**

Overview of human rehabilitative service delivery systems such as rehabilitation, social services, mental health, and corrections. Orientation to current practices of rehabilitative services professional. Internet access required. 8 written assignments, 2 supervised exams. Course materials, including study guide, available from UNC Bookstore. Register through UNC. Students residing outside USA/possessions/APO/FPO pay \$40 international airmail postage fee.

Print Correspondence, Self-paced

Instructor: Juliet Fried, EdD

Credits: 3 semester hours

Tuition: \$420

Course Delivery:   

*HRS 290 Northern Colorado***Introduction to Human Rehabilitative Services**

Overview of human rehabilitative service delivery systems such as rehabilitation, social services, mental health, and corrections. Orientation to current practices of rehabilitative services professional. E-mail address and Internet access required. 8 written assignments, 2 self-administered exams. Course materials available from UNC Bookstore. Register through UNC.

Online, Self-paced

Tuition: \$420

Course Delivery:  

Journalism*JOUR 1001 640 CU-Boulder***Contemporary Mass Media**

Examines mass media's interaction with society and looks at journalism and mass media in historical, intellectual, economic, political, and social contexts. 10 lessons, no exam.

Online, Self-paced

Instructor: Douglas Wagner, PhD

Credits: 3 semester hours

Tuition: \$555

Course Delivery: 

*JOUR 3771 640 CU-Boulder***Mass Communication History**

Discusses major trends in development of contemporary American journalism, its role in U.S. history, famous journalists, and foundations and evolution of freedom of the press. Prereq.: junior or senior standing. 12 lessons, no exams.

Online, Self-paced

Instructor: Cinda Gillilan, PhD

Credits: 3 semester hours

Tuition: \$555

Course Delivery: 

*JOUR 459 Adams State***Creative Writing for Radio, Television and Film**

Understand and apply specialized concepts and techniques required to creatively write effective scripts and copy for most non-news broadcast, cable, and film applications. Includes writing commercials, public service announcements, station and channel IDs, promos, and presentations using basic writing formats necessary to advertising, broadcast, cable, and film processes. Deals with processes of creating a story, or concept, developing it into a treatment, then into a properly formatted first act screenplay (17-25 pages). Portfolio of scripts, exercises, minitests, 1 exam.

Print Correspondence, Self-paced

Credits: 3 semester hours

KINS 185 001 Western State

Lifetime Wellness

Course with conceptual and experiential components provides a basis for developing a healthier lifestyle. Spring semester. Register through Western State College.

Online, Semester-based

Instructor: Kathleen Kinkema, PhD

Credits: 3 Semester Hours

Tuition: \$375

Course Delivery: 

KINS 397 001 Western State

Sport Marketing

Overview of major marketing concepts and issues as they apply to sport industry. Course content focuses on developing basic knowledge and understanding of sport marketing and sponsorship in a variety of settings. Spring semester. Register through Western State College.

Online, Semester-based

Instructor: Kathleen Kinkema, PhD

Credits: 3 Semester Hours

Tuition: \$375

Course Delivery: 

KINS 397 002 Western State

Risk Management for Physical Activity

Focuses on risk management for physical activity professionals. Topics include risk assessment, constitutional law, federal law, contracts, liability, negligence, legal defenses, and risk reduction strategies. Special attention is directed toward laws and court cases that are pertinent to those in physical activity professions. Fall and spring semesters. Register through Western State College.

Online, Semester-based

Instructor: Kathleen Kinkema, PhD

Credits: 3 Semester Hours

Tuition: \$375

Course Delivery: 

KINS 397 003 Western State

Psychology of Coaching

Course addresses skills that lead to great coaching. Specific ideas addressed are philosophy of coaching, motivation, psychological skills training, managing psychic energy, stress management, attentional skills, goal setting, understanding leadership, team dynamics, and communication. Register through Western State College. Summer semester.

Online, Semester-based

Instructor: Kevin Ludlum, PhD

Credits: 3 Semester Hours

Tuition: \$375

Course Delivery: 

KINS 397 004 Western State

Motivation in Sport and Physical Activity

The theoretical basis of motivation is presented in a way you can apply to your own life, in the classroom, or on the field/court. Includes understanding motivation and achievement behavior, motivational orientations, increasing motivation in sport, intrinsic vs. extrinsic motivation, using rewards appropriately to increase motivation, and specific strategies used by you and your colleagues to enhance motivation. Register through Western State College. Summer semester.

Online, Semester-based, Summer only

Instructor: Kevin Ludlum, PhD

Credits: 3 Semester Hours

Course Delivery: 

SES 401 Northern Colorado

Physiological Implications for Human Performance

Explores scientific principles of human physiology as related to exercise and performance. UNC SES majors cannot use this course to meet core requirements. 7 written assignments, article reviews, case study. E-mail address and Internet access required. Course materials available through UNC Bookstore. Register through UNC. Call for availability. Students residing outside USA/possessions/APO/FPO pay \$40 international airmail postage fee.

Online, Self-paced

Instructor: Mark Peters, MA, ATC

Credits: 3 semester hours

Tuition: \$420

Course Delivery:   

SES 401 Northern Colorado

Physiological Implications for Human Performance

Explores scientific principles of human physiology as related to exercise and performance. UNC SES majors cannot use this course to meet core requirements. 6 written Q & A, 6 quizzes, 1 paper, 1 case study. Register through UNC. Students residing outside USA/possessions/APO/FPO pay \$40 international airmail postage fee.

Print-based, Self-paced

Instructor: Mark Peters, MA, ATC

Credits: 3 semester hours

Tuition: \$420

Course Delivery: 

Manufacturing and Construction

MC 136 865 Colorado State **Computer-Aided Design**

Teaches commands, features, and limitations associated with the basic operation of AutoCAD. Gain valuable hands-on experience using well-structured exercises and programmed study. Presents a logical and well-tested, step-by-step introduction to AutoCAD commands, mode settings, drawing aids, shortcuts, and other valuable characteristics of AutoCAD. Prereq.: BD 150 (Business Computing Concepts and Applications) or written consent of instructor.

Online, Semester-based

Instructor: James Folkestad, PhD

Credits: 3 semester hours

Tuition: \$597 Fees: \$15

Course Delivery: 

Marketing

BK/DM 360 865 Colorado State **Retailing**

Retail markets, institutions, operations, and problems. Prereq.: BK 300 (Marketing) or BK 305 (Fundamentals of Marketing). Cannot receive credit for both BK 360 and DM 360. Course materials available at Colorado State Bookstore.

Online, Semester-based

Instructor: Marianne Bickle, PhD

Credits: 3 semester hours

Tuition: \$597 Fees: \$15

Course Delivery: 

MKTG 340 CSU-Pueblo **Principles of Marketing**

Basic concepts of marketing includes such topics as effects of environment on marketing; market segmentation; understanding consumer behavior; the importance of research in marketing; decisions on product (service), price, distribution, and promotion in domestic and international market. Required course for higher level courses in marketing. E-mail/interactive dialog available. Register through CSU-Pueblo.

Print Correspondence, Self-paced

Credits: 3 semester hours

Tuition: \$297

Course Delivery: 

MKTG 341 CSU-Pueblo **Sales Force Management**

Learn most effective ways of managing a sales force through methods of forecasting sales; designing sales territories; allocating sales territories; selecting a sales force; setting goals; motivating the sales force; sales compensation models; and establishing criteria for sales performance evaluations. Prereq.: Principles of Marketing. E-mail/interactive dialog available. Register through CSU-Pueblo.

Print Correspondence, Self-paced

Credits: 3 semester hours

Tuition: \$297

Course Delivery: 

MKTG 441 CSU-Pueblo **Marketing Strategies**

Learn concepts in marketing strategies to understand importance of internal and external environment when making marketing decisions; how to target a specific segment and manipulate marketing mix for both tangible goods and services; product and service strategy; which pricing and promotion strategy to use; how to analyze real-life situations through in-depth case analysis; and which generic marketing strategies should be used and why. Prereqs.: MKTG 340, MKTG 440. E-mail/interactive dialog available. Register through CSU-Pueblo.

Print Correspondence, Self-paced

Credits: 3 semester hours

Tuition: \$297

Course Delivery: 

MKTG 475 CSU-Pueblo **International Marketing**

How marketing works in the international arena. Understand how external factors like culture, politics, customs, etc., affect marketing; emerging multinational market groups and their effects on international marketing; different methods of entering a foreign market; adapting promotion to a foreign market; types of distribution systems to use; and more. Prereq.: MKTG 340. E-mail/interactive dialog available. Register through CSU-Pueblo.

Print Correspondence, Self-paced

Credits: 3 semester hours

Tuition: \$297

Mathematics

MATH 095 Adams State **Basic Arithmetic Skills**

Numeration, operations on whole numbers, factoring, prime numbers, arithmetic operations, decimal numerals, percent, measures, ratio and proportion, and averages. Course is graded on a pass/fail basis and does not provide credit towards bachelor's degrees. 10 chapter assignments, 2 proctored exams.

Print Correspondence, Self-paced

Credits: 3 semester hours

Tuition: \$315

Course Delivery: 

MATH 097 Adams State **Basic Algebra Skills**

Numbers of ordinary arithmetic and their properties, integers and rational numbers, solutions of equations, polynomials, graphs, polynomials in several variables, fractional expressions, radical notation, and quadratic equations.

Print Correspondence, Self-paced

Credits: 3 semester hours

Tuition: \$315

Course Delivery: 

MATH 099 Adams State **Intermediate Algebra**

Real Number System and its properties, linear equations and inequalities, powers and roots, functions and their graphs, systems of equations and inequalities, polynomials in several variables, rational expressions, complex numbers, and quadratic equations.

Print Correspondence, Self-paced

Credits: 3 semester hours

Tuition: \$315

Course Delivery: 

MATH 099 001 Western State **Basic Algebra**

Course is designed to develop algebraic skills and covers properties of polynomial and rational expressions, solving linear and quadratic equations, and graphing equations. Numbers and variables, fractions, decimals, exponents, and radicals are covered.

Online, Semester based.

Instructor: Tom Kattning

Noncredit

Tuition: \$180

Course Delivery: 

*MATH 1011 650 CU-Boulder***Fundamentals and Techniques of College Algebra**

Covers simplifying algebraic expressions, factoring linear and quadratic equations, inequalities, exponentials, logarithms, functions and graphs, complex numbers, and binomial theorem. Cannot receive credit for both MATH 1011 and any of the following: Math Modules 1000, 1010 and 1020; MATH 1001, MATH 1150. Prereq.: one year high school algebra or placement exam score for MATH 1000. Meets MAPS requirement for mathematics. Approved for arts and sciences core curriculum: quantitative reasoning and mathematical skills. 20 lessons, 4 exams.

Print Correspondence, Self-paced**Instructor: Brian Clark, MA****Credits: 3 semester hours****Tuition: \$555****Course Delivery:** *MATH 1021 640 CU-Boulder***Numerical and Analytical College Trigonometry**

Covers trigonometric functions, identities, solutions of triangles, addition and multiple angle formulas, inverse and trigonometric functions, and laws of sines and cosines. Cannot receive credit for both MATH 1021 and 1030/1040. Prereq.: MATH 1011 or 1020, placement exam score for MATH 1030, or 1-1/2 years high school algebra and one year high school geometry. 13 lessons, 3 exams.

Online Correspondence, Self-paced**Instructor: Kristen Marshall, PhD****Credits: 2 semester hours****Tuition: \$370****Course Delivery:** *MATH 1021 650 CU-Boulder***Numerical and Analytical College Trigonometry**

Covers trigonometric functions, identities, solutions of triangles, addition and multiple angle formulas, inverse and trigonometric functions, and laws of sines and cosines. Cannot receive credit for both MATH 1021 and 1030/1040. Prereq.: MATH 1011 or 1020, placement exam score for MATH 1030, or 1-1/2 years high school algebra and one year high school geometry. 13 lessons, 3 exams.

Print Correspondence, Self-paced**Instructor: Kristen Marshall, PhD****Credits: 2 semester hours****Tuition: \$370****Course Delivery:** *MATH 104 Adams State***Finite Mathematics**

Topics covered include functions and their graphs, matrices, linear programming, probability, and descriptive statistics.

Applications are studied from areas of business, behavioral sciences, economics, and social sciences. Computer is used as problem-solving tool in some cases. Improve and enhance basic math skills, specifically in areas of graphs, matrices, probability, and statistics. Provides wider perspective of applied mathematics, how it works, and why and how it is used in real world. 7 lessons, 12 homework assignments, 2 exams.

Print Correspondence, Self-paced**Credits: 3 semester hours****Tuition: \$315****Course Delivery:** *MATH 1071 640 CU-Boulder***Finite Mathematics for Social Science and Business**

Discusses systems of linear equations and introduces matrices, linear programming, and probability. Cannot receive credit for both MATH 1071 and 1050/1060/1070.

Prereq.: MATH 1011 or 1000, placement exam score for MATH 1020, or 1-1/2 years of high school algebra. 20 lessons, 4 exams.

Online Correspondence, Self-paced**Instructor: Kristen Marshall, PhD****Credits: 3 semester hours****Tuition: \$555****Course Delivery:** *MATH 1071 650 CU-Boulder***Finite Mathematics for Social Science and Business**

Tuition: \$925

Course Delivery: 

MATH 135 C01 CU-Colorado Springs**Calculus I**

Selected topics in calculus: rates of change of functions, limits, derivatives of algebraic functions, applications of derivatives, integration, and the Fundamental Theorem of Calculus. Offered fall semester only.

Online

Instructor: Staff

Credit: 4 Semester Hours

Tuition: \$787

Course Delivery: 

MATH 136 C01 CU-Colorado Springs**Calculus II**

Continuation of Calculus I (MATH 135). Transcendental functions, techniques, and applications of integration, Taylor's theorem, improper integrals, infinite series, analytic geometry, polar coordinates, introduction to differential equations. Offered fall semester only.

Online

Instructor: Staff

Credit: 4 Semester Hours

Tuition: \$787

Course Delivery: 

MATH 159 Adams State**Math Concepts for the Elementary****School Teacher**

Designed for those planning to teach K-8. Includes content material for problem solving, sets, whole numbers and integers, real numbers, numeration systems, ratio and percents, and elementary number theory. Prereq.: good arithmetic ability. 7 lessons, 4 exams. (Math 159 does not satisfy requirement for methods of teaching mathematics at Adams State.)

Print Correspondence, Self-paced

Credits: 3 semester hours

Tuition: \$315

Course Delivery: 

MATH 215 C01 CU-Colorado Springs**Discrete Mathematics**

Includes study of set theory, logic, number theory, recursion, combinatorics, and graph theory. Emphasis on ideas and methods of mathematical proof. Offered fall semester only.

Online

Instructor: Staff

Credit: 4 Semester Hours

Tuition: \$787

Course Delivery: 

MATH 2300 640 CU-Boulder**Analytic Geometry and Calculus 2**

Continuation of MATH 1300. Topics include transcendental functions, methods of integration, polar coordinates, conic sections, improper integrals, and infinite series. Prereq.: MATH 1300. Students with credit in MATH 2300 cannot receive credit in either MATH 1320 or APPM 1360. 33 lessons, 5 exams.

Online, Self-paced

Instructor: William Blubaugh, PhD

Credits: 3 semester hours

Tuition: \$420

Course Delivery: 

MATH 464 Northern Colorado
Introduction to the History of Mathematics

Prereqs.: MATH 221, 228, 341: Elementary Linear Algebra; Discrete Mathematics; Introduction to Modern Geometry. Junior or above in mathematics. Survey of mathematical conceptual development and people involved from antiquity to the present, including pedagogical applications, content connections, and use of reference resources. 4 exercise sets, 3 written papers, 2 supervised exams. E-mail address and Internet access required. Textbook available from UNC Bookstore. Register through UNC. Students residing outside USA/possessions/APO/FPO pay \$40 international airmail postage fee.

Online, Self-paced

Instructor: William Blubaugh, PhD

Credits: 3 semester hours

Tuition: \$420

Course Delivery:   

Mechanical Engineering

MAE 5092 CU-Colorado Springs
Remote Sensing in Space

Covers fundamental technology for various remote sensing techniques. These techniques cover optical, infrared, microwave, and nuclear sensors and imaging systems as appropriate. Background effects and effects of propagation through the atmosphere are included as well as trade-offs of systems and platform capabilities. Admission to the UCCS Master of Engineering degree program required. Prereq.: ECE 3120 (Electromagnetic Fields) or consent of the instructor.

Videotape

Credits: 3 semester hours

Tuition: \$1350

Course Delivery: 

MAE 5093 CU-Colorado Springs
Systems Engineering

Focus on the Systems Engineering life-cycle process and the derivation of engineering/technical requirements from customer/operational requirements. Analytical tools which support fielding of effective systems consistent with developed requirements will be covered. Major emphasis will be placed on systems reliability and life-cycle costing. Admission to the UCCS Master of Engineering degree program required. Prereq.: MATH 381 (Introduction to Probability and Statistics) and MATH 313 (Introduction to Linear Algebra) or equivalent.

Videotape

Credits: 3 semester hours

Tuition: \$1350

Course Delivery: 

MAE 5410 CU-Colorado Springs
Astrodynamics

Rigorous development and application of the fundamental principles of astrodynamics to satellite motion. Study of coordinate systems, time keeping, computation of orbits, introduction to perturbation theory, Kepler's and Lambert's problems, linear orbit theory, patched conics method. Admission to the UCCS Master of Engineering degree program required. Prereq.: MAE 4402 (Intermediate Dynamics), MAE 4410 (Fundamentals of Astrodynamics), or consent of the instructor.

Videotape

Credits: 3 semester hours

Tuition: \$1350

Course Delivery: 

*MAE 5417 CU-Colorado Springs***Analysis of Mechanical and Aerospace Dynamic Systems**

Unified approach to dynamic systems analysis; method for development of lumped-parameter analytical models for mechanical and electromechanical systems, vehicles, robots, power systems; energy-based state-space formulations; simulation of linear and non-linear systems; perturbation techniques and neighboring trajectories; controllability concepts; modal analysis. Admission to the UCCS' Master of Engineering degree program required. Prereq.: MAE 3401 (Modeling and Simulation of Dynamic Systems), MAE 3420 (Automatic Control of Aerospace and Mechanical Systems), MATH 413 (Linear Algebra) or consent of the instructor.

Videotape**Credits: 3 semester hours****Tuition: \$1350****Course Delivery:** *MAE 5419 CU-Colorado Springs***Trajectory Optimization**

Optimization of the non-linear dynamics governing trajectories of aerospace vehicles or robots. Calculus of variations and numerical algorithms. Optimal orbit transfer, launch, re-entry, and interplanetary trajectories; robot path planning. Treatment of equality and inequality constraints (e.g., heating, loads). Projects in numerical optimization. Admission to the UCCS' Master of Engineering degree program required. Prereq: MATH 313 (Introduction to Linear Algebra), MATH 340 (Introduction to Differential Equations), and MAE 2102 (Dynamics). Graduate level linear algebra and astrodynamics recommended.

Videotape**Credits: 3 semester hours****Tuition: \$1350****Course Delivery:** *MAE 5424 CU-Colorado Springs***Spacecraft Attitude Dynamics and Determination**

Graduate-level treatment of spacecraft attitude dynamics and attitude determination techniques. Vector treatment of 3-D rigid-body rotational spacecraft dynamics, kinematics, Euler angles, quaternions, angular momentum, Attitude matrix, algebraic attitude determination algorithms, introduction to dynamic determination techniques. Admission to the UCCS' Master of Engineering degree program required. Prereq.: MAE 4402 (Intermediate Dynamics), ECE 3610 (Engineering Probability and Statistics) and MATH 313 (Introduction to Linear Algebra), or equivalents.

Videotape**Credits: 3 semester hours****Tuition: \$1350****Course Delivery:** *MAE 5495 CU-Colorado Springs***Launch Vehicle Analysis**

Theory of rocket performance, nozzle performance, propellant characteristics, staging, throw-weight analysis, orbit injection. Development of launch-vehicle requirements based on mission requirements. Admission to the UCCS' Master of Engineering degree program required. Prereq.: MAE 2301 (Thermodynamics), MAE 3130 (Fluid Mechanics), or equivalents. MAE 5410 (Astrodynamics) required, may be taken concurrently.

Videotape**Credits: 3 semester hours****Tuition: \$1350****Course Delivery:** *MAE 5595 CU-Colorado Springs***Space Mission Analysis**

Space environment, spacecraft communication constraints. Orbit selection, launch requirements, communication requirements. Development of spacecraft design requirements, as driven by the mission requirements. Admission to the UCCS' Master of Engineering degree program required. Prereq.: MAE 5410 (Astrodynamics), MAE 5424 (Spacecraft Attitude Dynamics and Determination), and MAE 5495 (Launch Vehicle Analysis).

Videotape**Credits: 3 semester hours****Tuition: \$1200****Course Delivery:** *MAE 5596 CU-Colorado Springs***Space Mission Design**

A capstone course which includes some review of engineering subsystem technology. Students will be asked to configure and design a spacecraft bus to fulfill missions specified. Prereq.: MAE 5090 (Space Mission Operations), MAE 5594 (Space Communications System Design), and MAE 5595 (Space Mission Analysis).

Videotape**Credits: 3 semester hours****Tuition: \$1350****Course Delivery:** *ME 509 865 Colorado State***Manufacturing Quality Design and Control**

Basic information, beginning skills, and exploration of attitudes concerning occupational therapy. A broad overview emphasizes scope of OT, OT process, team process, professional issues, and current trends. This course has two required parts: a mandatory three-day workshop on the CSU campus, and online course work throughout the semester. Chapter assignments, quizzes, 2 exams. Course materials available at Colorado State Bookstore.

Online and On Campus, Semester-based Instructor: William Duff, PhD**Credits: 3 semester hours****Tuition: \$1,233 Fees: \$1,135****Course Delivery:** 

*ME 510 865 Colorado State***Capital Budgeting**

Review of engineering economic principals, continuous compounding, capital budgeting models including the Lorrie-Savage Linear Programming formulation, capital rationing, lending and borrowing, multicriteria optimization, utility theory, risk attitudes, preference and ordering rules, certainty equivalence, stochastic dominance, portfolio theory, simulation, decision tree analysis, value of information, sensitivity analysis, certainty equivalents, replacement analysis, dynamic programming, and nonlinear programming. Software and hardware requirements: Mathcad 2001i Professional and Internet access. Course consists of two required parts: a mandatory two-day workshop on CSU campus and online course work throughout semester. Prereq.: ME 304 (Engineering Design), ST/STCC 309 (Statistics for Engineers and Scientists). Course materials available at Colorado State Bookstore.

Online and On Campus, Semester-based

Instructor: William Duff, PhD

Credits: 3 semester hours

Tuition: \$1,233 Fees: \$1,135

Course Delivery: 

*ME 512 865 Colorado State***Reliability Engineering**

Study reliability methods and models, learn about statistical methods for reliability data analysis, and prepare and present 2 case studies. Course consists of two required parts: a mandatory three-day workshop on CSU campus and online course work throughout semester. Topics include introduction, using minitab; reliability concepts and data; models for failure-time data; censoring and likelihood for failure-time data; nonparametric estimation; location-scale based parametric distributions; probability plotting; and bootstrap confidence intervals. Additional topics delivered via WebCT after workshop's conclusion include parametric likelihood fitting concepts; exponential distribution; maximum likelihood for log-location-scale distributions; failure-time regression analysis; and accelerated testing. Prereq.: ST/STCC 309 (Statistics for Engineers and Scientists). Required software: Minitab Statistical Software Release 13 (full version for Windows). Software available at a considerably reduced academic price at Software Cellar in CSU Student Center (970-491-7625). Proof of enrollment or admission to CSU may be required to purchase. Quizzes, final exam. Course not offered every semester; call for availability.

Online and On Campus, Semester-based

Instructor: William Duff, PhD

Credits: 3 semester hours

Tuition: \$1,233 Fees: \$1,135

Course Delivery: 

*ME 513 865 Colorado State***Simulation Fundamentals**

Learn SIGMA for Windows, a resident entity oriented event graph simulation language that allows you to easily master the underlying structure and workings of simulation languages. Also learn ARENA, a powerful easily learned entity flow oriented simulation language that is as powerful as and similar in organization to most commercial simulation languages. These two simulation languages can accomplish simulation studies in a matter of hours and provide the capability for easily mastering any other simulation language. Build simulations of many common systems, including sequential manufacturing operations, service operations, assembly operations, and machine breakdown and repair. Set up and conduct proper simulation experiments. Two-part course: mandatory three-day workshop and online course work throughout semester. Prereq.: ST/STCC 309 (Statistics for Engineers and Scientists). Required software: SIGMA (supplied) and ARENA (with text). Course materials available at Colorado State Bookstore.

Online and On-Campus, Semester-based

Tuition: \$1,233 Fees: \$1,135

Course Delivery: 

Medical Terminology

FND 210 Northern Colorado

Medical Terminology

For students in any major. Terminology used in medical sciences. Develop medical vocabulary. 16 self-administered chapter quizzes, 2 supervised exams. E-mail address and Internet access required. Course materials are available from UNC Bookstore. Register through UNC.

Online, Self-paced

Instructor: Jamie Erskine, PhD, RD

Credits: 2 Semester Hours

Tuition: \$280

Course Delivery:  

OT 215 865 Colorado State

Medical Terminology

Course covers definition and use of medical terms. Course materials available at Colorado State Bookstore.

Online, Semester-based

Instructor: David Greene, PhD

Credits: 1 semester hour

Tuition: \$199 Fees: \$15

Course Delivery: 

Music

EMUS 1081 650 CU-Boulder

Basic Music Theory

Introduction to music notation, meter and rhythm, scales, intervals, triads, seventh chords, fundamentals of harmonic progression, voice leading, aural skills, and composition. For nonmusic majors who have little or no previous background.

10 lessons, 2 exams.

Print Correspondence, Self-paced

Instructor: Debbie Corisis, MA

Credits: 3 semester hours

Tuition: \$555

Course Delivery: 

MUCC 100 865 Colorado State

Music Appreciation

A multifaceted look at music and how it has changed through time. Acquire active listening skills and an awareness of elements of music. Study styles and periods from Medieval chant to world music and rock, spanning Middle Ages to present. Lectures include audio examples, film and book recommendations, and links to Web resources. No prior musical training required. Course materials available at Colorado State Bookstore.

Online, Semester-based

Instructor: Linda Kobler

Credits: 3 semester hours

Tuition: \$597 Fees: \$15

Course Delivery: 

Nursing

NSG 305 CSU-Pueblo

Ethical Issues in Health Care

Selected theories that influence ethical choices in nursing practice. Areas of philosophy, law, and the legal system that affect public's health are included plus topics related to current ethical issues and nursing decision making. (Offered through NLN-accredited BSN program.) Prereq.: permission of instructor. E-mail/interactive dialog available. Register through CSU-Pueblo.

Print Correspondence, Self-paced

Credits: 3 semester hours

Tuition: \$297

Course Delivery: 

NSG 351 CSU-Pueblo

Research in Nursing

Course introduces roles and methods of research in nursing and helps develop nurses as consumers of research for research-based practice. Prereqs.: evidence of knowledge of basic statistics, nursing care, and nursing theories demonstrated through transcript documentation at time of registration. Non-nursing students accepted with permission of instructor. (Offered through NLNAC accredited BSN program.) 56K, Netscape 4.0+ or Internet Explorer 5.0+ required. E-mail/interactive dialog available. Register through CSU-Pueblo.

Online, Self-paced

Credits: 3 semester hours

Tuition: \$320

Course Delivery: 

NSG 431 CSU-Pueblo

Gerontological Nursing

An elective theory course that focuses on nursing care of older adults. Focuses on positive adaptation through positive life style processes. Biopsychosocial changes, legal, and ethical problems are addressed. 4 study units, 3 written tests, care management study or individualized experience that includes 3 interviews. Prereq.: completion of all junior level nursing courses. E-mail/interactive dialog available. Register through CSU-Pueblo.

Print Correspondence, Self-paced

Credits: 3 semester hours

Tuition: \$297

Course Delivery: 

NURS 200 Northern Colorado

Women's Health Care

For students of any major. Examine women's health care concerns over the adult life span and the accompanying psychological, sociological, and cultural implications. Includes historical perspective. Project, 9 quizzes, final exam, 2 short papers, discussion board. E-mail address and Internet access required. Course materials available from UNC Bookstore. Register through UNC.

Online, Self-paced

Instructor: Vicki Downey, PhD, RN

Credits: 3 semester hours

Tuition: \$420

Course Delivery:  

*NURS 320 Northern Colorado***Basic EKG Interpretation**

Introduces the concepts of EKG and arrhythmia recognition. Prereqs.: BIO 341 (Human Anatomy) and BIO 350 (Human Physiology) or equivalents; clinical level nursing student or RN. 12 lessons, 2 supervised exams. Course materials, including study guide, available from UNC Bookstore. Register through UNC. Students residing outside USA/possessions/APO/FPO pay \$40 international airmail postage fee.

Print Correspondence, Self-paced

Instructor: Linda Sullivan, RN, BSN, MS

Credits: 2 semester hours

Tuition: \$280

Course Delivery: 

*NURS 326 Northern Colorado***Pathophysiology**

A systems approach to alteration and disruption of physiologic functions. Focus on differentiation of pathophysiologic findings and identification of major disease processes.

Prereq.: previous course in anatomy or physiology. 4 supervised exams. Course materials, including study guide, available from UNC Bookstore. Register through UNC. Students residing outside USA/possessions/APO/FPO pay \$40 international airmail postage fee.

Print Correspondence, Self-paced

Course Delivery:   

*NURS 496 Mesa State***Concepts of Hospice and Palliative Care**

Palliative Care has become a new area of expertise within medicine, nursing, social work, chaplaincy, pharmacy, and other disciplines. This new approach to caring for people at the end of life incorporates special knowledge and skills in addressing the needs of patients and families facing progressive disease. Participants will explore assessment, advanced communication skills, responses to loss, advance care planning, symptoms management, and ethical issues facing patients and families at the end of life. The course will also prepare participants for the national certification exam in palliative care offered by the Hospice and Palliative Nurses Association.

Online, Semester-based

Credits: 3 Semester hours

Tuition: \$399

Course Delivery:  

*NURS 496 Mesa State***Introduction to Health Care Informatics**

Health Care Informatics encompasses all aspects of organization, analysis, management, and use of information in health care. Professional nurses are increasingly involved in the intersection of information systems and health care. This course will provide both an introduction to and discussion of current topics and trends in health care informatics.

Online, Semester-based

Course Delivery: 

Political Science*POLSC 101 Mesa State***American Government**

Structures and functions of the American political system and the constitutional development of federalism and separation of powers. Also, citizen participation and influence in politics, the congress, the presidency, and the supreme court, and public policy including civil rights and liberties.

Online, Semester-based

Credits: 3 Semester hours

Tuition: \$399

Course Delivery:  

*POLSC 101 CSU-Pueblo***American National Politics**

Provides broad introduction to basic processes in American politics including principles, practices, structures, and policy of national government. Internet-based assignments, Internet access required. E-mail/interactive dialog available. Register through CSU-Pueblo.

Self-paced

Credits: 3 semester hours

Tuition: \$297

Course Delivery: 

*POLSC 200 CSU-Pueblo***Understanding Human Conflict**

Focuses on conflict and cooperation between individuals and groups. Special attention paid to ethnic conflict and international war with regard to conflict management and solution. E-mail/interactive dialog available. Register through CSU-Pueblo.

Print Correspondence, Self-paced

Credits: 3 semester hours

Tuition: \$297

Course Delivery: 

*POLSC 201 CSU-Pueblo***Comparative Politics**

Investigation of people and their political arrangements throughout the world. Focuses on state level of analysis. Compare efficiency and effectiveness of different systems of government throughout the world. Three major areas of inquiry are inputs to governments (leadership, ideology, interest groups); institutions of government (executive, legislative, judicial, military arrangements); and output of government (public policies-both domestic and international). Rates, directions, and forces of change also examined. E-mail/interactive dialog available. Register through CSU-Pueblo.

Print Correspondence, Self-paced

Credits: 3 semester hours

Tuition: \$297

Course Delivery: 

*POLSC 202 CSU-Pueblo***World Politics**

Study major issues facing contemporary world with analytical, problem-solving orientation in which information, critical reasoning, and creative thinking are emphasized. Topics such as population growth, military intervention, child labor, refugee issues, water, energy resources, and other current topics. E-mail/interactive dialog available. Register through CSU-Pueblo.

Print Correspondence, Self-paced

Credits: 3 semester hours

Tuition: \$297

Course Delivery: 

*POLSC 305 CSU-Pueblo***International Relations**

Study of international systems and organizations with special emphasis on principal sources of conflict and study of conflict management. Prereq.: POLSC 201 or 202. Register through CSU-Pueblo.

Correspondence, Self-paced

Credits: 3 semester hours

Tuition: \$297

Course Delivery: 

*POLSC 445 CSU-Pueblo***Area Study: Latin America**

Introduces political, economic, social, and military processes and structures of Latin America. Special emphasis on contemporary issues with regard to economic development and democratization. E-mail/interactive dialog available. Register through CSU-Pueblo.

Print Correspondence, Self-paced

Credits: 3 semester hours

Tuition: \$297

Course Delivery: 

*POLSC 450 CSU-Pueblo***Area Study: Asia and the Pacific**

Introduces political, economic, social, military processes and structures of Asia and the Pacific Rim. Special emphasis on contemporary issues with regard to economic development of region in this decade. E-mail/interactive dialog available. Register through CSU-Pueblo.

Print Correspondence, Self-paced

Credits: 3 semester hours

Tuition: \$297

Course Delivery: 

*POLSC 491 CSU-Pueblo***Special Topics: U.S. Foreign Policy**

Process, management, and underlying principles that govern U.S. foreign policy. Process and management includes understanding relationship between President, professional bureaucracy, and legislature. Principles include ethical and moral values that guide U.S. policymakers in conduct of foreign policy. The Constitutional basis for foreign policy and rules that reflect and guide foreign policy are also discussed. E-mail/interactive dialog available. Register through CSU-Pueblo.

Print Correspondence, Self-paced

Credits: 3 semester hours

Tuition: \$297

Course Delivery: 

*PS 437 1 Fort Lewis***Contemporary National Security Strategy and Policy**

Domestic and international contexts in which national security is developed, relevant organization and decision-making process, and actual formulation and implementation of national security strategy and policy.

Online, Self-paced

Instructor: Jim Callard

Credits: 4 semester hours

Tuition: \$460

Course Delivery: 

*PSCI 100 Northern Colorado***U.S. National Government**

Identify and analyze principal rules, actors, and institutions of national politics and explain their development. Required of all UNC/PSCI majors and minors. 8 written lessons, 2 self-administered exams. Course materials, including study guide, available from UNC Bookstore. Register through UNC. Students residing outside USA/possessions/APO/FPO pay \$40 international airmail postage fee.

Print Correspondence, Self-paced

Instructor: Steve Mazurana, MA

Credits: 3 semester hours

Tuition: \$420

Course Delivery: 

*PSCI 105 Northern Colorado***Fundamentals of Politics**

A comparative survey of political institutions and processes and of various approaches to the explanation of politics. 12 sets essay responses, self-administered final exam. Course materials, including study guide, available through UNC Bookstore. Register through UNC. Students residing outside USA/possessions/APO/FPO pay \$40 international airmail postage fee.

Print Correspondence, Self-paced

Instructor: Steve Mazurana, MA

Credits: 3 semester hours

Science Education

The online professional development SCED 559 courses listed below are in-depth science courses which engage teachers in online asynchronous discussions and activities with scientists and expert instructors from the American Museum of Natural History. Each course highlights the museum's rich resources through three-dimensional virtual specimens, videos from the field, and interactive simulations. Register for the six-week online courses through the AMNH Seminars on Science program. Graduate credit from Adams State College is available by registering and completing an additional assignment for graduate credit through Adams State College Extended Studies.

SCED 559 Adams State

Earth: Inside and Out—Dynamic Earth Systems

How has the earth evolved? What causes climate and climate change? This course explores the dynamic geological events and systems that have shaped the planet and make it habitable.

Credits: 3 semester hours

Course Cost: \$445

Graduate credit tuition with ASC: \$270

Course Delivery: 

SCED 559 Adams State

Genetics, Genomics, Genethics—Molecular Biology

Learn about the latest research into the genome and the intriguing ethical issues raised by such possibilities as genetic enhancement, genetically modified foods, and cloning.

Credits: 3 semester hours

Course Cost: \$445

Graduate credit tuition with ASC: \$270

Course Delivery: 

SCED 559 Adams State

In the Field with Spiders—Classification, Anatomy, and Morphology

Did you know that you're never more than six feet away from a spider? Learn the ins

and outs of spider research from the head of the museum's world-renowned spider lab.

Credits: 3 semester hours

Course Cost: \$445

Graduate credit tuition with ASC: \$270

Course Delivery: 

SCED 559 Adams State

Sharks and Rays—Ecology, Classification, and Evolution

Explore the fossil record and the diversity of sharks and rays to learn about how they're related and the extraordinary sensory and reproductive features they share.

Credits: 3 semester hours

Course Cost: \$445

Graduate credit tuition with ASC: \$270

Course Delivery: 

SCED 559 Adams State

Space, Time, and Motion—Physical Science

This course explores the physical laws that govern our universe and how our concepts of how the universe works have changed since ancient times.

Credits: 3 semester hours

Course Cost: \$445

Graduate credit tuition with ASC: \$270

Course Delivery: 

SCED 559 Adams State

The Diversity of Fishes—Classification, Anatomy, and Morphology

Fishes were the first creatures with brains and bony jaws. But their incredible diversity makes it easier to determine what's not a fish. Course explores this paradox by demonstrating how Ichthyologists pursue the evidence through the study of evolution, diversity ecosystems, and biogeography.

Credits: 3 semester hours

Course Cost: \$445

Graduate credit tuition with ASC: \$270

Course Delivery: 

SCED 559 Adams State

The Link Between Dinosaurs and Birds—Evolution and Classification

In this course, equipped with paleontologists' tools and techniques, you'll study the theropod group of dinosaurs (Tyrannosaurus Rex and Velociraptor belonged to it) and determine which are most closely related to modern birds.

Credits: 3 semester hours

Course Cost: \$445

Graduate credit tuition with ASC: \$270

Course Delivery: 

SCED 559 Adams State

The Ocean System—Integrated Science

This course explores how oceanographers investigate the role that symbiotic relationships and other biological adaptations have in the dynamics of oceans, a dynamic that is being threatened by human activities and consumption.

Credits: 3 semester hours

Course Cost: \$445

Graduate credit tuition with ASC: \$270

Course Delivery: 

SOC 251 Adams State

Social Problems and Social Welfare Strategies

Surveys contemporary social problems, including poverty, family violence, mental illness, alienation, alcohol and substance abuse, and juvenile delinquency. Emphasis on causes, severity, consequences, and strategies for alleviating social problems. Prereq.: SOC 201 The Sociological Imagination.

Print Correspondence, Self-paced

Credits: 3 semester hours

Tuition: \$315

Course Delivery: 

SOC 259 Adams State

The Formation and Strengthening of the Self-Concept

Course deals with three issues related to self-concept: how self-concept is formed, with special emphasis on weak versus strong; implications of weak and strong self-concepts for life adjustments and interpersonal relationships; ideas that may be helpful in strengthening weak self-concepts.

Understand these concepts through presentation of material followed by questions

designed to bring out aspects of student's life that pertain to self-concept formation. 5 lessons, 1 exam.

Speech, Language, and Hearing Sciences

The Certificate of Professional Development, specializing in ASL or interpreting, is a series of three courses for those interested in broadening their skills and knowledge. All courses are offered at a distance via the World Wide Web.

The set of three courses constitutes core knowledge regarding ASL and the application of these skills to assessing ASL. While a student could take three single courses, a certificate verifies that a student has learned a coherent body of knowledge in a curriculum designed for professional development.

As the value of continuing education for the growth of professional skills is recognized in all fields, certificate programs represent training that is focused and specific. For a field with limited terminal degrees, a certificate demonstrates training that is well organized and coherent. See www.colorado.edu/slhs/ASLcert.

SLHS 4035 CU-Boulder

The Linguistic Structure of American Sign Language

Reviews theoretical and practical aspects of ASL grammatical structure, sociolinguistics of ASL, and development of ASL as a normal first language. Focuses on ASL literature and expository text as sources for complex grammatical structures. Prereq.: LING 2000; SLHS 2325 recommended. Same as SLHS 5035.

Voice Science, Pathology, and Technology

Examines basic processes of voice production and disorders of vocal mechanism and is useful for speech pathologists, voice teachers, performers, and others. Prereq.: Speech 1010 or permission of instructor. 4 assignments, 4 proctored exams, 1 comprehensive final, 1 project report. Textbook and study guide available at Auraria Campus Bookstore. Register through MSCD.

Print Correspondence, Self-paced

Instructor: Diane Lowry, MA, CCC-SLP

Credits: 3 semester hours

Tuition: \$390

Fees: \$30

Course Delivery:   

*SPE 3610 Metro State***Audiology II**

Advanced anatomy of inner ear and central auditory nervous system. Introduces vestibular system and specialized diagnostic tests. Recommended for speech and language majors especially if considering graduate study. Prereq.: Upper-division status or permission of instructor. 11 lessons, 3 proctored exams, research paper. Textbooks and study guide available at Auraria Campus Bookstore. Register through MSCD. Offered spring only.

Print Correspondence, Self-paced

Instructor: Jean Lundy, EdD

Credits: 2 semester hours

Tuition: \$260

Course Delivery: 

Surveying and Mapping*SUR 1510 Metro State***Surveying I**

Introductory course in elementary surveying. Learn theory of measurements, methods of collecting and recording data, reduction of observations of angles, directions, distances, and differences in elevation; computation and adjustment of traverses; uses of data collectors and interfacing with CAD software; construction stakeout employing coordinate geometry and CAD output; and methods of computing coordinate geometry and areas. Field work includes use of transits, total stations, electronic distance meters, surveyors' tapes, differential levels, and data collectors. Lab required. Register online at www.mscd.edu/~surdd or call MSCD Extended Campus, 303-721-1313.

DVD, Self-paced

Instructor: Herbert W. Stoughton, PhD

Credits: 4 Semester hours

Tuition: \$680

Course Delivery: 

*SUR 2520 Metro State***Surveying II**

Covers control surveying, state plane coordinate systems, construction surveying, legal and boundary surveying, and large-scale topographic mapping for engineering and architectural projects. Also optical micrometer and electronic theodolites, precise levels, and electronic distancers. Lab assignments cover astronomic azimuth observations, circular and parabolic curves, Earthwork surveys, control surveying, and topographic mapping. Lab required. Register online at www.mscd.edu/~surdd or call MSCD Extended Campus, 303-721-1313.

DVD, Self-paced

Instructor: Herbert W. Stoughton, PhD

Credits: 4 semester hours

Tuition: \$680

Course Delivery: 

*SUR 2530 Metro State***Route Surveying**

Expand concepts on circular and parabolic curve and Earthwork introduced in SUR 2520. Topics include math of spirals, unequal tangent vertical curves, mass diagram of Earthwork quantities, alignment profile and slope staking, large scale site mapping, alignment and design, and other surveying techniques required for highways, pipelines, tunnels, transmission lines, water lines, sewers, and canals, etc. Introduces terrain modeling for site distances and environmental concerns. Lab required. Register online at www.mscd.edu/~surdd or call MSCD Extended Campus, 303-721-1313

DVD, Self-paced

Instructor: Herbert W. Stoughton, PhD

Credits: 4 semester hours

Tuition: \$680

Course Delivery: 

*SUR 2550 Metro State***Surveying Computations**

An introductory course on converting survey field observations/data into a form suitable to end user. Apply principles and precepts learned in math and surveying courses to surveying problems; develop analysis techniques and perform computations required for plane surveying problems encountered by surveyor, land developer, and civil engineer. Traverse computations, subdivision computations, route surveying computations, etc., are addressed. Register online at www.mscd.edu/~surdd or call MSCD's Extended Campus, 303-721-1313.

DVD, Self-paced

Instructor: Herbert W. Stoughton, PhD

Credits: 3 semester hours

Tuition: \$510

Course Delivery: 

*SUR 3100 Metro State***Survey Data Adjustment and Analysis I**

Provides foundation in basic principles of computational methods used to adjust and analyze survey observations employing statistical principles and least squares theory. Problems include adjustment of triangulation, traverses, trilateration, and vertical networks by condition and/or observation equations. Register online at www.mscd.edu/~surdd or call MSCD's Extended Campus, 303-721-1313.

DVD, Self-paced

Instructor: Herbert W. Stoughton, PhD

Credits: 3 semester hours

Tuition: \$510

Course Delivery: 

*SUR 3150 Metro State***Astronomy for Surveyors**

Introductory course on applying astronomical observations to surveying and mapping projects. Acquire knowledge about positional determination by astronomical observations and determining the direction (azimuth, bearing) of lines on Earth's surface from astronomic observations. Compute azimuth of a line from actual survey observations. Register online at www.mscd.edu/~surdd or call MSCD extended Campus, 303-721-1313.

DVD, Self-paced

Instructor: Herbert W. Stoughton, PhD

Credits: 2 semester hours

Tuition: \$340

Course Delivery: 

*SUR 3220 Metro State***Real Property Descriptions**

Addresses writing real-property legal descriptions for deeds, easements, and rights-of-way. Emphasis on structure and order of elements in description and on avoiding common mistakes of language, construction, and terminology in order to avoid ambiguities in intent of instrument. Interpretation of rules to deal with conflicts and ambiguities in instruments is presented. Register online at www.mscd.edu/~surdd or call MSCD's Extended Campus, 303-721-1313.

DVD, Self-paced

Instructor: Herbert W. Stoughton, PhD

Credits: 2 semester hours

Tuition: \$340

Course Delivery: ●

*SUR 3300 Metro State***Photogrammetry**

Introduces science of photogrammetry. Geometry of photographic camera, vertical photography, aerial mapping camera, flight planning, project planning, supporting field surveys, and field classification and targeting are emphasized. Photogrammetric plotters and comparators are discussed. Digital image scanning and GPS synchronization are presented. Applying photogrammetry to engineering and surveying mapping programs is discussed. Register online at www.mscd.edu/~surdd or call MSCD's Extended Campus, 303-721-1313.

DVD, Self-paced

Instructor: Herbert W. Stoughton, PhD

Credits: 3 semester hours

Tuition: \$510

Course Delivery: ●

*SUR 3540 Metro State***Boundary Law I**

Introduces concepts of boundary control and legal principles. Subjects addressed include proportionate measurement, rights in land, junior/senior title rights, retracement of original surveys, deed first/survey first, common and case law, ranking/prioritizing evidence, controlling monuments and corners, errors in legal description, and plats and case studies. Lessons on DVD. Register online at www.mscd.edu/~surdd or call MSCD's Extended Campus, 303-721-1313.

DVD, Self-paced

Instructor: Herbert W. Stoughton, PhD

Credits: 3 semester hours

Tuition: \$510

Course Delivery: ●

*SUR 3700 Metro State***Geodesy I**

This science of geodesy course presents overview into theory of surveying in which size and shape of Earth must be addressed. History of geodesy and classical survey procedures to determine latitude, longitude, elevation, and Earth's gravity field are presented. Underlying theory of instrumentation and application of physical theory are discussed. Register online at www.mscd.edu/~surdd or call MSCD's Extended Campus, 303-721-1313.

DVD, Self-paced

Instructor: Herbert W. Stoughton, PhD

Credits: 3 semester hours

Tuition: \$510

Course Delivery: ●

*SUR 4320 Metro State***Geodetic Survey Methods**

Apply precise surveying field procedures to surveying problems encountered in route surveying and geodesy. Employ precise surveying instrumentation and methods. Problems include surveys for geodetic, hydrographic, and mine surveys. Global positioning satellites, gyrotheodolites, and inertial positioning systems are introduced and discussed. Applications include municipal and regional geodetic networks supporting GIS/LIS, rapid transit systems, highways and streets, utility corridors, dam monitoring, and industrial applications. Integrate planning, implementation, data reduction, analysis, and publication of results for survey assignments. Register online at www.mscd.edu/~surdd or call MSCD's Extended Campus, 303-721-1313.

DVD, Self-paced

Instructor: Herbert W. Stoughton, PhD

Credits: 4 semester hours

Tuition: \$680

Course Delivery: ●

*SUR 4510 Metro State***Map Projections and Coordinate Systems**

In-depth course addresses popular conformal map projections employed in surveying and mapping programs. Theories for Lambert conformal conic, Mercator, transverse Mercator, oblique Mercator, and stereographic projections are presented. Designing the projection system, transformation between plane coordinates and geodetic positions, and conversion of survey data to map projection data are emphasized. Use of local conformal map projections is presented. Lab required. Register online at www.mscd.edu/~surdd or call MSCD's Extended Campus, 303-721-1313.

DVD, Self-paced

Instructor: Herbert W. Stoughton, PhD

Credits: 3 semester hours

Tuition: \$510

Course Delivery: ●

*SUR 4540 Metro State***Boundary Law II**

Treats areas of evidence and procedures for boundary location. Statute and case laws are studied. Professional aspects of land surveying and concept of multipurpose cadastre are covered. 28 lessons on videotape, midterm, and final exam. Register online at www.mscd.edu/~surdd or call MSCD's Extended Campus, 303-721-1313.

DVD, Self-paced

Instructor: David Pehr, JD

Credits: 3 semester hours

Tuition: \$510

Course Delivery: ●

Women's Studies

WMS 1001 Metro State

Women in Transition

Provides important foundation for understanding women's status and roles in society. Explores social, economic, and political factors that affect women's lives in connection with systems of oppression-sexism, racism, classism, and heterosexism. Issues surrounding work, media, age, disability, and violence against women are also addressed. 25 lessons, 4 journals, 2 project reports. Textbook and study guide available at Auraria Campus Bookstore. Register through MSCD.

Print Correspondence, Self-paced

Instructor: Judith Wonstolen, MA

Credits: 3 semester hours

Tuition: \$390

Course Delivery: 

WMS 3360 Metro State

Women in European History

An historical analysis of role of, and contributions made by, women in development of Western civilization from Neolithic times to present. 10 lessons, 4 book reviews. Also offered as HIS 3360. May be taken for credit from only one department. Textbook and study guide available at Auraria Campus Bookstore. Register through MSCD.

Print Correspondence, Self-paced

Instructor: Shirley F. Fredricks, PhD

Credits: 3 semester hours

Tuition: \$390

Course Delivery: 

WMS 367Q Metro State

Women in the Islamic Middle East

Analyzes pre-Islamic traditions relative to women in the Middle East; development of ideological/theological definitions of the nature/purpose of women within Islamic society; current diversity of expectations of and prohibitions against women in the Islamic Middle East; and social, cultural, economic, and political conditions under which women live in the Middle East and implications for the future. 4 book critiques, 5 lessons, critical essay. Also offered as HIS 335F. May be taken for credit from only one department. Textbook and study guide available at Auraria Campus Bookstore. Register through MSCD.

Print Correspondence, Self-paced

Instructor: Shirley Fredricks, PhD

Credits: 3 semester hours

Tuition: \$390

Course Delivery: 

Writing

WRTG 1150 CU-Boulder

1st Year Writing/Rhetoric

Rhetorically informed introduction to college writing. Focuses on critical analysis, argument, inquiry, and information literacy. Taught as a writing workshop, course places a premium on invention, drafting, and thoughtful revision. For placement criteria, see arts and sciences advising office. May be repeated up to 6 total credit hours. Meets MAPS requirement for English. Same as UWRP 1150. Approved for arts and sciences core curriculum: written communication. Restricted to nonbusiness students.

Online, Semester-based

Instructor: Anne Heintzman, MA

Credits: 3 semester hours

Tuition: \$657

Course Delivery: 

WRTG 3020 CU-Boulder

Topics in Writing/World Environment Issues

Instructor assigns two or more readings on a given topic. Students choose an essay, abstract its argument, analyze it, and agree or disagree with author. Teaches principal modes of academic rhetoric: description, analysis, and argument. Restricted to arts and sciences juniors and seniors. Same as NRLN 3020. Approved for arts and sciences core curriculum: written communication.

Online, Semester-based

Instructor: Anne Heintzman, MA

Credits: 3 semester hours

Tuition: \$657

Course Delivery: 

WRTG 3020 CU-Boulder

Topics in Writing/Biomedical Ethics

Instructor assigns two or more readings on a given topic. Students choose an essay, abstract its argument, analyze it, and agree or disagree with author. Teaches principal modes of academic rhetoric: description, analysis, and argument. Restricted to arts and sciences juniors and seniors. Same as NRLN 3020. Approved for arts and sciences core curriculum: written communication.

Online, Semester-based

Instructor: Donald Wilkerson, MA

Credits: 3 semester hours

Tuition: \$657

Course Delivery: 

WRTG 3020 CU-Boulder

Topics in Writing/American Culture

Instructor assigns two or more readings on a given topic. Students choose an essay, abstract its argument, analyze it, and agree or disagree with author. Teaches principal modes of academic rhetoric: description, analysis, and argument. Restricted to arts and sciences juniors and seniors. Same as NRLN 3020. Approved for arts and sciences core curriculum: written communication.

Online, Semester-based

Instructor: Rosalyn Zigmond, PhD

Credits: 3 semester hours

Tuition: \$657

Course Delivery: 

*WRTG 3020 CU-Boulder***Topics in Writing/Education and Society**

Instructor assigns two or more readings on a given topic. Students choose an essay, abstract its argument, analyze it, and agree or disagree with the author. They thus learn the principal modes of academic rhetoric: description, analysis, and argument.

Restricted to arts and sciences juniors and seniors. Same as NRLN 3020. Approved for arts and sciences core curriculum: written communication.

Online, Semester-based

Instructor: Amy Goodloe, MA

Credits: 3 semester hours

Tuition: \$657

Course Delivery: 

*WRTG 3020 CU-Boulder***Topics in Writing/Artificial Intelligence: Fact and Fiction**

Instructor assigns two or more readings on a given topic. Students choose an essay, abstract its argument, analyze it, and agree or disagree with the author. They thus learn the principal modes of academic rhetoric: description, analysis, and argument.

Restricted to arts and sciences juniors and seniors. Same as NRLN 3020. Approved for arts and sciences core curriculum: written communication.

Online, Semester-based

Instructor: Bruce Leland, PhD

Credits: 3 semester hours

Tuition: \$657

Course Delivery: 

*WRTG 3030 CU-Boulder***Writing on Science and Society**

Through selected reading and writing assignments, students examine ethical and social issues that arise in the decision-making processes associated with science and technology. Focuses on critical thinking, analytical writing, and oral presentation. Taught as a writing workshop, the course emphasizes effective communication with both professional and non-technical audiences. May be repeated up to 6 total credit hours. Restricted to junior and senior engineering students and junior and senior physical and biological science majors. Same as UWRP 3030. Approved for arts and sciences core curriculum: written communication.

Online, Semester-based

Instructor: Donald Wilkerson, MA

Credits: 3 semester hours

Tuition: \$657

Course Delivery: 

*WRTG 3040 CU-Boulder***Writing on Business and Society**

Through selected readings and daily writing assignments, examine ethical and social issues that arise in business. Focusing on critical thinking, analytical and argumentative writing, and oral presentation, course emphasizes effective communication with nontechnical audiences. Classes conducted as workshops. Restricted to junior and senior business or economics majors. Approved for arts and sciences core curriculum: written communication.

Online, Semester-based

Instructor: Anne Heintzman, MA

Credits: 3 semester hours

Tuition: \$657

Course Delivery: 

*WRTG 3040 CU-Boulder***Writing on Business and Society**

Through selected readings and daily writing assignments, examine ethical and social issues that arise in business. Focusing on critical thinking, analytical and argumentative writing, and oral presentation, course emphasizes effective communication with nontechnical audiences. Classes conducted as workshops. Restricted to junior and senior business or economics majors. Approved for arts and sciences core curriculum: written communication.

Online, Semester-based

Instructor: Amy Goodloe, PhD

Credits: 3 semester hours

Tuition: \$657

Course Delivery: 

*WRTG 3040 CU-Boulder***Writing on Business and Society**

Through selected readings and daily writing assignments, examine ethical and social issues that arise in business. Focusing on critical thinking, analytical and argumentative writing, and oral presentation, course emphasizes effective communication with nontechnical audiences. Classes conducted as workshops. Restricted to junior and senior business or economics majors. Approved for arts and sciences core curriculum: written communication.

Online, Semester-based

Instructor: Anne Bliss, PhD

Credits: 3 semester hours

Tuition: \$657

Course Delivery: 

*WRTG 3090 CU-Boulder***Open Topics in Writing: Advanced**

Advanced topics course providing intensive, specialized writing instruction in selected topics. May be repeated up to 6 total credit hours if the topics are different. Prereq: WRTG 3020, or 3030, or 3040, or instructor consent.

Online, Semester-based

Instructor: Anne Heintzman, MA

Credits: 1 or 2 semester hours

Tuition: \$219/1 credit, \$438/2 credits

Course Delivery: 

High School Independent Learning Program

High School Independent Learning Program courses are offered by the Division of Continuing Education and Professional Studies, University of Colorado at Boulder. All courses are for 1 semester (half-unit) high school credit. Registration for credit requires the approval and cooperation of the student's high school. Tuition is \$125 per course. Syllabus and text are extra. High school students may also register for CU-Boulder college credit courses as concurrent students.

For more information contact:

Independent Learning Programs
Division of Continuing Education and Professional Studies

Business Education

HBUS 1755 620 CU-Boulder

Office Systems

Within their business careers, office workers (such as receptionists, messengers, typists, clerks, and cashiers) usually perform a variety of duties. Prepares students for these duties. Become familiar with filing and office machine systems; incoming and outgoing funds and bank statements; sales and accounts payable, inventory control, and payroll systems. 6 assignments, 2 projects, 3 exams.

High School, Self-paced, Correspondence

Instructor: Steve Wanner

Credits: 0.5 high school credit

Tuition: \$125

Course Delivery: 

HBUS 1955 620 CU-Boulder

Consumer Education and Economics

Beginning level course teaches rights and responsibilities as a consumer. Discover how personal goals and values affect choices; develop reliable decision-making skills for spending, saving, and investing; evaluate alternatives in marketplace; and maximize resources. Specific lessons on personal economics and finance include earning money, spending and saving money, working with money, and getting and using credit. 5 assignments, 3 projects, 2 exams.

High School, Self-paced, Correspondence

Instructor: Steve Wanner

Credits: 0.5 high school credit

Tuition: \$125

Course Delivery: 

HBUS 2356 620 CU-Boulder

Beginning Accounting I

Studies in accounting terminology, concepts, principles, and practices give solid foundation both for a career and for financial success. Reinforce understanding of accounting procedures by working through realistic accounting cycles for a proprietorship and a partnership. 5 assignments, 2 projects, 2 exams.

High School, Self-paced, Correspondence

Instructor: Steve Wanner

Credits: 0.5 high school credit

Tuition: \$125

Course Delivery: 

HBUS 2456 620 CU-Boulder

Beginning Accounting 2

Learn that effective business decisions can be made only when information is current, accurate, and complete. Apply knowledge of business decision-making processes while studying accounting system of a corporation that uses special journals. The final section emphasizes functions of accounting control. 5 assignments, 2 projects, 2 exams.

High School, Self-paced, Correspondence

Instructor: Steve Wanner

Credits: 0.5 high school credit

Tuition: \$125

Course Delivery: 

HBUS 2756 620 CU-Boulder

Business English and Communication

Knowledge of basic grammar needed to be successful in this course. Focus on common language skills necessary to good expression in such business communications as letters, memos, and reports. Coherent writing, sentence structure, and vocabulary building stressed. 5 assignments, 2 projects, 2 exams.

High School, Self-paced, Correspondence

Instructor: Steve Wanner

Credits: 0.5 high school credit

Tuition: \$125

Course Delivery: 

English

HENG 0155 620 CU-Boulder

Basic Grammar

Learn terminology and structure of English language in easy-to-understand, step-by-step fashion. Parts of speech, sentence structure, choice and use of words, capitalization, and punctuation are covered. 5 assignments, 2 exams.

High School, Self-paced, Correspondence

Instructor: Del Bishop

Credits: 0.5 high school credit

Tuition: \$125

Course Delivery: 

HENG 0255 620 CU-Boulder

Intermediate Grammar

An in-depth study of grammar. Reviews parts of speech and usage, sentence patterns, basic punctuation, and capitalization. Study clauses, phrases, and sentence problems; and complex pronoun, verb and adverb forms. 5 assignments, 2 exams.

High School, Self-paced, Correspondence

Instructor: Del Bishop

Credits: 0.5 high school credit

Tuition: \$125

Course Delivery: 

HENG 2102 620 CU-Boulder**The American Short Story**

Explore basic literary elements of short stories and techniques for analyzing. Learn about development of American short story during past 150 years by analyzing stories that represent Romantic, Realistic, Naturalistic, and Modern periods. Stories in HENG 2102 are more difficult than those in HENG 1701 The Short Story. 5 assignments, 5 exams.

High School, Self-paced, Correspondence

Instructor: Del Bishop

Credits: 0.5 high school credit

Tuition: \$125

Course Delivery: 

HENG 2302 620 CU-Boulder**Basic Expository Writing**

Presents basics of expository writing. Learn step-by-step to write unified, coherent papers and to think in an organized, systematic fashion. Study effective uses of language, as well as methods of connecting ideas and expanding ideas through details and examples. 5 assignments, 6 exams.

High School, Self-paced, Correspondence

Instructor: Del Bishop

Credits: 0.5 high school credit

Tuition: \$125

Course Delivery: 

HENG 3156 620 CU-Boulder**Ninth Grade English 1**

Course introduces three aspects of language arts: literature, grammar, and composition. Literature segments include reading short stories, poetry, drama, and selections from *The Odyssey*. Emphasis is on enjoying and understanding various types of literature. The grammar and composition lessons involve parts of speech, characteristics of a sentence, and paragraph development. 6 assignments, 3 projects, 3 exams.

High School, Self-paced, Correspondence

Instructor: Del Bishop

Credits: 0.5 high school credit

Tuition: \$125

Course Delivery: 

HENG 3256 620 CU-Boulder**Ninth Grade English 2**

Reviews basic approaches to literature and fundamentals of grammar and composition before learning new information about these elements. Literature lessons involve reading short stories, essays, and biographies, *Romeo and Juliet*, and selections from *Great Expectations*. Grammar and composition lessons concentrate on punctuation, structures and purposes of sentences, and developing specificity and coherence in paragraphs. 6 assignments, 3 projects, 3 exams.

High School, Self-paced, Correspondence

Instructor: Del Bishop

Credits: 0.5 high school credit

Tuition: \$125

Course Delivery: 

HENG 3556 620 CU-Boulder**Tenth Grade English 1**

Continue to develop skills in the three aspects of language arts. Literature segments include reading short stories, poetry, drama, and tales of *King Arthur and his Knights of the Round Table*. Grammar and composition lessons study parts of speech, basic parts and characteristics of sentences, capitalization and punctuation, and the step-by-step development of a paper. 6 assignments, 3 projects, 3 exams.

High School, Self-paced, Correspondence

Instructor: Del Bishop

Credits: 0.5 high school credit

Tuition: \$125

Course Delivery: 

HENG 3656 620 CU-Boulder**Tenth Grade English 2**

Review before learning new information about fundamentals of grammar and composition and the study of literature. In literature lessons, read short stories, essays, and biographies, *Julius Caesar*, and John Steinbeck's *The Pearl*. Grammar and composition lessons concentrate on patterns, structures, kinds and purposes of sentences; additional ways to punctuate sentences; and on developing polished papers. 6 assignments, 3 projects, 3 exams.

High School, Self-paced, Correspondence

Instructor: Del Bishop

Credits: 0.5 high school credit

Tuition: \$125

Course Delivery: 

HENG 3956 620 CU-Boulder**Eleventh Grade English 1**

Historical development of American literature from colonial period to 1900. Gain an understanding of ideas that fostered growth of the U.S. and of ways in which its literature became distinctively American. Develop composition skills by analyzing literary selections and applying the basic organizational pattern of a good essay. 6 assignments, 3 projects, 3 exams.

High School, Self-paced, Correspondence

Instructor: Del Bishop

Credits: 0.5 high school credit

Tuition: \$125

Course Delivery: 

HENG 4056 620 CU-Boulder**Eleventh Grade English 2**

The course covers modernist prose and poetry and American nonfiction and drama. Writing is central to the course. Three written projects allow students to explain personal literary interpretations, develop fictional characters, and write creatively. 6 assignments, 3 projects, 3 exams.

High School, Self-paced, Correspondence

Instructor: Del Bishop

Credits: 0.5 high school credit

Tuition: \$125

Course Delivery: 

HENG 4356 620 CU-Boulder**Twelfth Grade English 1**

Read many of the great works from the Anglo-Saxon period through the 18th century. Gain understanding of development of English literature through study of Shakespeare's *Macbeth* and selections from *Beowulf*, *The Canterbury Tales*, and *Paradise Lost*. Improve writing skills by preparing papers that analyze literary works. 6 assignments, 3 projects, 3 exams.

High School, Self-paced, Correspondence

Instructor: Del Bishop

Credits: 0.5 high school credit

Noncredit Courses

Noncredit courses do not carry academic credit but some provide continuing education units (CEUs). One CEU is defined as 10 contact hours of participation in an organized continuing education experience under responsible sponsorship, capable direction, and qualified instruction. Nationally recognized, the CEU provides a standardized measure for accumulating, transferring, and recognizing work through continuing education programs. Generally, independent study based on the semester hour equates with 1.5 CEUs. For further information or to apply for CEUs, contact the registering institution.

Criminal Justice/ Legal Certificates

Travel and Tourism Certificate in Travel Planning

This course continues throughout the year. The Extended Studies Program at Fort Lewis College offers an online course curriculum in travel and tourism. Completion of all courses in the curriculum leads to a Certificate in Travel Planning.

Join us in exploring the fastest growing industry in the world! Learn the essentials of travel planning and start getting more enjoyment and value for yourself as well as others who enjoy the travel experience. When you successfully complete these courses, you will be able to plan and create itineraries for yourself and others.

There is no specific timetable for these courses. You may begin taking any of the courses as soon as your registration information and fees are processed. Each online course takes between 20 and 30 hours to complete and includes all materials and instructor support.

It is recommended, but not mandatory, that you complete each course in the sequence listed. If you are only interested in enhancing your current knowledge of a particular area in travel planning, you may enroll in those that specifically interest you. You must, however, complete all courses in the curriculum to earn your certificate in travel planning.

NC/BA/ES 100 1 Fort Lewis

Travel Sales and Trends

Course provides foundation for rest of courses in this program of study. Learn what it takes to be a travel professional, as well as how to work with travel professionals. Discover successful sales steps for telephone reservations agents and travel professionals who work with clients one-on-one and learn how they work. Trends in travel industry, including use of the Web for travel resources, as well as information on possible careers in industry are also explored.

Get Paid To Travel

If you love to travel and enjoy working with individuals, tour directing and guiding may be the career for you! As a professional tour director, you are hired by tour operators to escort groups on local programs, domestic tours, international tours, and cruises. You may be on an African safari one week and cruising the Seven Seas the next. If you prefer local work, there's plenty of opportunity working with local tour operators, destination management companies, and receptive services. Professional tour directors earn a lucrative income, including salary, commissions, and gratuities. The average experienced tour director makes approximately \$1,500–\$2,000 per week while on tour. You'll find it challenging, exciting, rewarding, and with never a dull moment!

CSU Distance Degree Program

Distance Degree Program

The Distance Degree Program provides continuing education opportunities to off-campus graduate students in a flexible, convenient format. The video-based and online program allows students to take courses or complete a degree with no campus residency requirement.

Since the Distance Degree Program began in the fall of 1967, more than 935 students have completed their master's or PhD degrees, and many more have completed courses to advance their careers and stay current in their fields.

An average of 70 courses are taught each semester via the Distance Degree Program, representing the colleges of agricultural sciences, applied human sciences, business, engineering, natural sciences, and veterinary medicine and biomedical sciences. Currently over 900 students are enrolled throughout Colorado, the nation, and Canada.

In some cases, access to specific types of equipment may be required. The appropriate academic department should be contacted for information and admission details.

The Delivery Method

Many students consider the flexibility of the Distance Degree Program to be its greatest asset. If your job requires occasional travel or you have other responsibilities, the video-based and online Distance Degree Program allows for the viewing of course materials at a time convenient to you.

Distance Degree Program courses are regular on-campus courses taught by Colorado State faculty, which are videotaped in specially equipped classrooms. This format ensures that the information being presented is timely and up-to-date. The tapes, along with handouts, are sent via UPS directly to the student. Tapes normally reach the student within five to seven working days after shipping. Tapes are usually picked up by UPS late Monday

afternoon. Other formats include video library tapes and online courses.

Distance Degree Program students complete the same course requirements and take the same examinations as on-campus students. Interaction with the instructor is made possible through the use of electronic mail, fax machine, computer communication, surface mail, and telephone during faculty office hours.

Programs of Study

The Distance Degree Program offers the following degree programs:

UNDERGRADUATE DEGREES:

Undergraduate programs are oriented to degree completion and build upon an existing bachelor's or associate degree and professional experience.

A minimum of 30 credit hours must be taken after formal admission to the university.

- Social Sciences
(BA) in Liberal Arts with an emphasis in Communication and Public Affairs

GRADUATE DEGREES:

A minimum of 24 credits must be earned at Colorado State, 21 of which must be earned after formal admission to the university. In addition, all graduate students must be continuously enrolled at the university by taking courses toward their degree program or through continuous registration.

- Adult Education and Training (AET)
(MEd) in Education and Human Resource Studies
- Agricultural Education
(MAgr) in Agricultural Sciences
- Bioresource and Agricultural Engineering (MS)
- Business Administration (MBA)
- Civil Engineering (MS)
- Computer Science (MS)
- Engineering Management Program
(MS) in Mechanical Engineering
- Industrial Engineering Program
(MS, PhD) in Mechanical Engineering

- Materials Engineering
(MS) in Mechanical Engineering
- Organizational Performance and Change (OPC) (MEd) in Education and Human Resource Studies (formerly Human Resource Development)
- Rangeland Ecology (MS)
- Statistics (MS)
- Telecommunications
(ME) in Electrical and Computer Engineering

Admission to the Graduate School

Completion of a degree program through the Distance Degree Program requires application and admission to the Colorado State Graduate School.

Master's degrees vary from 30 to 42 semester credits. Of those credits, a minimum of 24 credits must be earned at Colorado State, 21 of which must be earned after admission to the Graduate School. Prospective students are encouraged to contact the Graduate School for information on this important procedure, including restrictions on the credits that may be earned prior to admission and/or transferred into the program.

Contact the Graduate School at 970-491-6817.

For more information call 970-491-5288 (toll free 877-491-4336), e-mail info@learn.colostate.edu, or visit the web site at www.learn.colostate.edu.

UNIVERSITY OF COLORADO AT COLORADO SPRINGS

DISTANCE MBA

The online Distance MBA was established in 1996. Through the online MBA program, students who have internet access may take MBA classes from anywhere in the world. Online courses are available 24 hours a day, 7 days a week, and are designed to be asynchronous, students are not required to be online at specific times. This convenience suits the needs of a highly mobile student population and ensures that students can complete their degree despite any changes in personal or professional circumstances. We Are Where You Are!

The Graduate School of Business Administration is the largest professional college on the campus of the University of Colorado at Colorado Springs. Only one third of the business schools across the country have earned accreditation from AACSB International - The Association to Advance Collegiate Schools of Business, and the Graduate School of Business Administration is one of these prestigious schools. AACSB accreditation is the highest standard of achievement in business education.

US News and World Report ranked the Distance MBA program at the University of Colorado at Colorado Springs as one of the Top 26 Professionally Accredited Online Graduate Business Programs in the Country.

We take great pride in our program and invite you to take a closer look. The quality, convenience, and affordability that we provide to students is unparalleled. We hope that you will consider partnering with us as you pursue your business education.

Distance MBA

Linking the highest quality EDUCATION with the latest
in TECHNOLOGY

We Are Where You Are™

Eligibility

Students who have earned the equivalent of a **four-year bachelor's degree** from a regionally accredited institution or comparable international institution are eligible to apply to the Distance MBA program. *Students must be admitted to the MBA program to take Distance MBA classes.*

Technology Requirements

- Access to a Pentium II or faster computer
- Internet connectivity (minimum of 56K dial-up via modem or broadband)
- Sound card and speakers
- Internet Explorer 6.0 or higher (recommended) or Netscape Navigator 7.0 or higher
- Microsoft Word, Excel, and PowerPoint (available at UCCS bookstore)
- Adobe Acrobat Reader

Tuition and Fees (for Academic Year 2004-2005)

Tuition \$1,390/course
Technology Fee \$51/course

Tuition and fees are subject to change each academic year starting with fall semester.

Fax: 719-262-3100

Curriculum - Distance MBA

To earn your MBA at UCCS, you will take a total of 36-48 credit hours of courses, depending on your academic background. These courses may be taken on campus or online. We've divided these hours into three categories:

Preparatory Courses: 12 hours (4 classes)

The preparatory courses are an integral component to the MBA degree curriculum. The concepts in these courses are fundamental to your education. Prior academic coursework may be used to satisfy preparatory courses. Transcripts are evaluated for applicable prior academic coursework once a student is admitted to the MBA program. In some cases, a waiver exam may be taken to fulfill a preparatory requirement.

- BCOM 559, Professional Business Communications
- BUAD 559, Macroeconomics for Managers
- BUAD 569, Business, Government and Society
- QUAN 559, Fundamentals of Business Statistics

Core Courses: 21 hours (7 classes)

Core courses make up the heart of the MBA Program and cover areas that are directly applicable in today's business world.

- ACCT 609, Contemporary Issues in Accounting
- FNCE 609, Corporate Financial Management
- INFS 609, Information Systems
- MGMT 609, Leading and Managing the Organization of the Future
- MKTG 609, Marketing Strategy
- OPTM 609, Operations: Competing through Capabilities
- BUAD 659, Strategic Management

Area of Emphasis + Elective Courses: 15 hours (5 classes)

You can develop expertise in a chosen specialization. Maximum flexibility is offered online with a choice of seven possible area of emphasis. The MBA electives enhance your background by allowing you to develop extra breadth for greater cross-functionality or additional depth in your selected area of emphasis.

- Finance
- Information Systems
- International Business
- Health Care Administration
- Management
- Project Management

Don't reinvent the wheel.

Since 1999, the **Center for Innovations in Teaching and Technology** has developed stand-alone web based courses for the University of Colorado's 25,000 employees. We now offer these courses to members of other universities and state agencies. Course content can be changed to suit your institution's

needs at a fraction of the cost of developing your own courses. Also, content updates can be made by your own staff, reducing course maintenance costs. All courses are authored in Macromedia Dreamweaver and Flash, and can be stored on your server or within our Blackboard course management system.

Course Offerings

We offer web courses in:

- HIPAA
- FERPA
- Sexual Harassment
- Workplace Violence
- Coaching
- Hazardous Waste Management
- Asbestos Awareness

Each 1-2 hour course features:

- User friendly navigation system
- Frequent practice items
- Objectives based quiz
- Easy to use Blackboard gradebook
- Online Job Aids
- "Lean-screens" of readable text
- Contacts to your organization.

How to Register

Complete the registration form. Mail, fax, or deliver the registration form, along with tuition and fees, to the institution offering the desired course. (A service charge is assessed for all returned checks.) To charge tuition and fees, indicate the type of credit card, the credit card number, the expiration date, and the full name appearing on the card. MSCD also requires an admission application.

Students may register by phone at ASC, Colorado State, CSU-Pueblo, CU-Boulder, Fort Lewis College, and UNC if charging the tuition and fees. All Consortium members accept VISA and MasterCard. The Discover Card is also accepted at ASC, Colorado State, CSU-Pueblo, MSCD, CU-Boulder, Fort Lewis College, CU-Denver, Mesa State, and UNC. Colorado State also accepts American Express. Students may register by phone during regular business hours. Colorado State and ASC also offer online enrollment.

and card issue date ____/____/____ **Note:** If you are younger than 23 years of age, provide parent's visa type _____

or Resident Alien No. _____ and card issue date ____/____/____

If we will receive transcripts, scores, etc., with a different name, please indicate name. _____

If you are a re-admit student whose name has changed since your last registration,
give former name and attach copy of legal court documents reflecting change. _____
last first middle

Ethnic Origin: Select one category that most accurately reflects your ethnic background. (Disclosure of ethnic information is voluntary and is not being used in a discriminatory manner.)

- ☐ African American or Black, not of Hispanic origin (3) ☐ Caucasian/White, not of Hispanic origin (4) ☐ Other (7)
☐ American Indian or Alaskan Native (1) ☐ Hispanic, Chicano, Mexican American, Latino (5)
☐ Asian or Pacific Islander (2) ☐ Nonresident Alien (foreign citizen, not a permanent resident) (6)

List other ethnic or racial terms that further or better describe your ethnic background. _____

The following Selective Service question **must be answered** to comply with Colorado State law:

If you are a male born after December 31, 1959, are you registered with the Selective Service? Yes ☐ No ☐

List family members who have attended MSCD. Name _____ Dates of Attendance _____

Name _____ Dates of Attendance _____

List family members who currently work at MSCD. Name _____

Year and semester of expected enrollment (check one): 20____ Fall ☐ Spring ☐ Summer ☐ Summer Only ☐

Refer to the "Metro State Plans" section in the application instructions on the previous page. Select the degree status you will follow and enter the appropriate code in the space provided below.

I plan to (check all that apply):

- ☐ seek a degree with a major in ____ (see major codes on previous page)
☐ seek teacher licensure
☐ seek a certificate of completion in ____ (see certificate codes on previous page)
☐ be a non-degree student (see instructions)

Important Note: Failure to completely fill out this section may result in your being classified as out-of-state. This will mean additional tuition costs. If you are younger than 23 years of age on the first day of classes, you must provide information in the second column. If information is for guardian, submit proof of legal guardianship.

You	Check one: <input type="checkbox"/> Parent <input type="checkbox"/> Legal Guardian (court documents required)	N/A
Dates of continuous physical presence in Colorado (mo/day/yr) From ____/____/____ To ____/____/____	<input type="checkbox"/> From ____/____/____ To ____/____/____	<input type="checkbox"/>
Dates of extended absences from Colorado (more than 6 months) From ____/____/____ To ____/____/____	<input type="checkbox"/> From ____/____/____ To ____/____/____	<input type="checkbox"/>
Reason for absence _____	_____	
Date Colorado driver's license was first issued (mo/day/yr) _____/_____/_____	<input type="checkbox"/> _____/_____/_____	<input type="checkbox"/>
Date current driver's license or CO IDcard was issued (mo/day/yr) _____/_____/_____	<input type="checkbox"/> _____/_____/_____	<input type="checkbox"/>
List last 3 years of Colorado motor vehicle registration if you own or lease the vehicle _____/_____/_____	<input type="checkbox"/> _____/_____/_____	<input type="checkbox"/>
Date of purchase of any Colorado residential property (mo/yr) _____/_____/_____	<input type="checkbox"/> _____/_____/_____	<input type="checkbox"/>
Dates of military service (mo/day/yr) From ____/____/____ To ____/____/____	<input type="checkbox"/> From ____/____/____ To ____/____/____	<input type="checkbox"/>
List all years Colorado income taxes have been filed as a resident _____	<input type="checkbox"/> _____	<input type="checkbox"/>

Nonresident, active-duty military personnel stationed in Colorado and their dependents, as defined by the military, may request a tuition adjustment to in-state rates each semester. For information, contact the education office of your military base.

Last Name _____

First Name _____

Social Security Number _____

4 Employment

Please list current and most recent employment or primary source of support (if you are younger than 23, you must list parent's employment information) for the past 12 months (mo/day/yr):

Current Employer/Source of Support	City	State	Dates
_____	_____	_____	From ____/____/____ To ____/____/____
_____	_____	_____	From ____/____/____ To ____/____/____
_____	_____	_____	From ____/____/____ To ____/____/____

(this line for parent/guardian if younger than 23)

I intend to work while enrolled at Metro State ☐ 30 hours/week or more
☐ less than 30 hours/week

I do not intend to work while enrolled ☐

5 Secondary Education

Fill in name, location and dates of high school currently attending or last attended.

If you graduated, request that an official transcript be mailed directly from your high school to the Office of Admissions.

Name of High School	City	State	Years of Attendance	Month/Year Graduated or Will Graduate
_____	_____	_____	_____	____/____

If you will be younger than 20 years of age, indicate when you took or plan to take one of the college entrance exams (mo/yr): ACT ____/____ SAT ____/____

If you wish to take classes at Metro State while still in high school, check program under which you wish to be considered:

☐ Post Secondary Options Program ☐ Student Education Enrichment Program

If you did not graduate, have you earned a GED certificate? Yes ☐ No ☐

If yes, list name of issuing state or agency: _____ Date (mo/day/yr) ____/____/____

If yes, you must request that an official copy of your GED test scores be mailed directly to the Office of Admissions.

6 Postsecondary Education

Have you ever attended, or are you currently attending, any college/university or proprietary school? Yes ☐ No ☐ If yes, list **all** colleges below. Please request that each institution mail official transcripts directly to the Office of Admissions. Students receiving veterans' educational benefits must have all previous college credit evaluated at Metro State.

Do you have less than a cumulative 2.00 GPA from all colleges/universities attended? Yes ☐ No ☐

Name of College or University (list in order of attendance, earliest first)	City	State	Dates of Attendance (mo/yr)	Degree Earned (e.g., A.A., B.A.)
_____	_____	_____	From ____/____ To ____/____	_____
_____	_____	_____	From ____/____ To ____/____	_____
_____	_____	_____	From ____/____ To ____/____	_____
_____	_____	_____	From ____/____ To ____/____	_____
_____	_____	_____	From ____/____ To ____/____	_____
_____	_____	_____	From ____/____ To ____/____	_____

7 Signature

I hereby certify that, to the best of my knowledge, the information furnished on this application is true and complete and that I have read the instructions contained in this application. I understand that if found otherwise, it is sufficient cause for delay of admission, loss of credit, rejection or dismissal. I understand that I am responsible for any charges that I may incur as a student at Metro State including, but not limited to, tuition and fees. I will notify the Office of Admissions of any demographic or academic changes before my first enrollment and prior to any subsequent enrollment if changes occur.

Student signature _____ Date _____

If you are under 18 years of age, a parent or guardian's signature is also required.

Parent/Guardian signature _____ Date _____

Frequently Asked Questions

How many courses can I take at one time?

Contact the institution offering the course. We advise most students not to take more than two courses at a time.

When can I enroll?

You may enroll at any time.

Will my grade appear on a transcript?

Your final grade in a credit-bearing course is recorded on an official transcript at the institution that offers the course.

Check with that institution for transcript availability if you need to meet a deadline.

How do I make sure that the credit I earn applies toward my goal?

The institution offering the course awards the academic, semester-hour credit upon your completion of the course. If you wish to apply credit toward degree requirements, certification, or licensure, contact your advisor or the agency issuing the certificate/license before you register.

How long do I have to complete a course?

This varies by institution and sometimes by course. Check with the providing institution concerning the course that interests you.

How fast can I complete a course?

Minimum time for course completion differs by institution. If you intend to pursue a fast pace for self-study, check with the institution for its policy before you register.

How do I take exams?

Most exams must be proctored. Your syllabus/study guide will direct you in selecting a proctor.

May I audit?

Most colleges allow auditing, Metro State College of Denver does not. Contact the institution offering the course.

What about noncredit courses?

Some courses listed in this catalog have both a credit and noncredit option. A noncredit enrollment cannot be applied to academic degree programs. In most cases, noncredit courses award continuing education units (CEUs), and in many cases these courses may be used for professional certification. For information on applicability, contact your licensing or certification board and the institution offering the course before registering.

Who can enroll?

Anyone capable of college-level work.

Do I need to provide transcripts?

Most institutions do not require transcripts to enroll. If you plan to register for a Metro State College of Denver course, also complete the application on page 129.

Are there prerequisites?

If a course has prerequisites, they are listed in the course description. Occasionally instructor permission may be substituted for a prerequisite requirement. While Consortium institutions do not require proof of prerequisites at the time of enrollment, it is your responsibility to satisfy any prerequisite requirements if you are a degree-seeking student.

Do I have to be a Colorado resident?

No. Students reside throughout the world.

What is the cost?

See each course description for cost. Tuition and fees are due at the time of registration. Tuition listed is based on the 2005-06 academic-year rates. The institutions and the Colorado Commission on Higher Education reserve the right to change tuition rates without notice.

Are there senior citizens discounts?

No.

How do I pay?

Member institutions accept personal checks, money orders, VISA, and MasterCard. The Discover card is also accepted at Adams State College, Colorado State University, CU-Boulder, Mesa State College, Metro State College of Denver, Colorado State University-Pueblo, Fort Lewis College, CU-Denver and Health Sciences Center, and the University of Northern Colorado. Colorado State University also accepts American Express.

Are textbooks included in tuition and fees?

No. Textbooks are available at the bookstore of the institution offering the course.

Are refunds offered if I withdraw?

Each institution has its own policies about transfer fees, withdrawal, and refunds. The institution may charge a transfer fee and may give partial refunds. These policies are included in your course materials. Examine the course requirements and overview as soon as you receive your study guide. Refunds for courses are permitted only during a limited time following enrollment. Confirm the policy of the providing institution before you register.

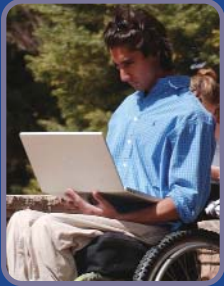

Is there a fee for postage?

Students who live outside the U.S., its possessions, or APO/FPO addresses pay a per-course fee for international airmail delivery. Contact the institution about specific charges for any course that interests you.
