

**HISTORY COLORADO STATE HISTORICAL FUND
GRANTS AWARDED
FISCAL YEAR 2013**

*What is the
State Historical Fund?*

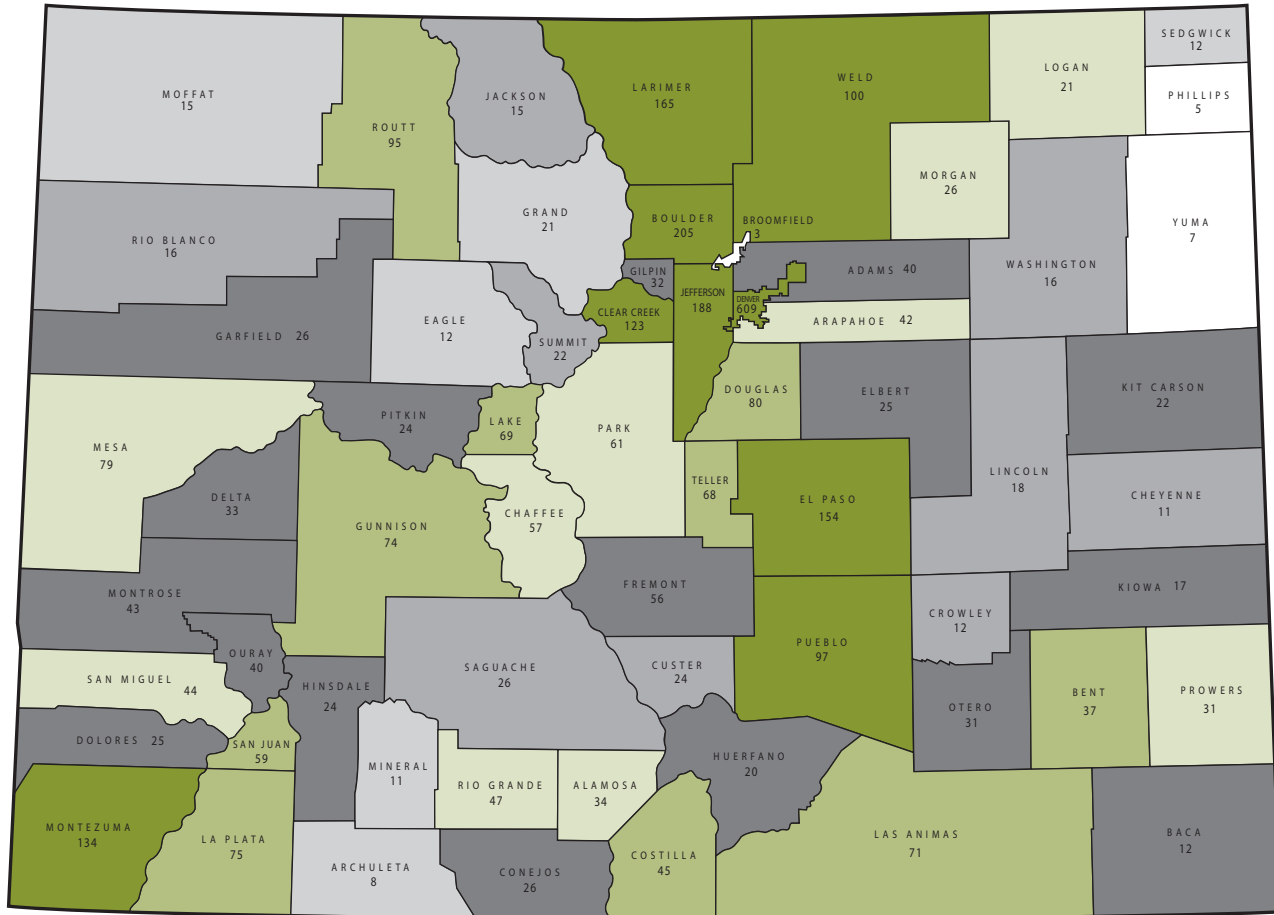

As one of the nation's most successful state historic preservation grants programs, the History Colorado State Historical Fund (SHF) supports preservation projects in all corners of Colorado. Each year, the program receives a portion of the total state tax revenue generated by limited-stakes gaming in the towns of Black Hawk, Central City, and Cripple Creek. SHF distributes these funds to public municipalities and nonprofit organizations for the preservation and interpretation of Colorado's architectural and archaeological treasures. This is a report of the grants that were awarded for Fiscal Year 2013.

*History Colorado is headquartered in the History Colorado Center,
1200 Broadway, Denver, CO 80203 in Denver's Golden Triangle Museum District.
Find History Colorado at [Facebook.com/HistoryColorado](https://www.facebook.com/HistoryColorado) and on Twitter @HistoryColorado.
For more information, visit www.HistoryColorado.org or call (303) HISTORY.*

State Historical Fund

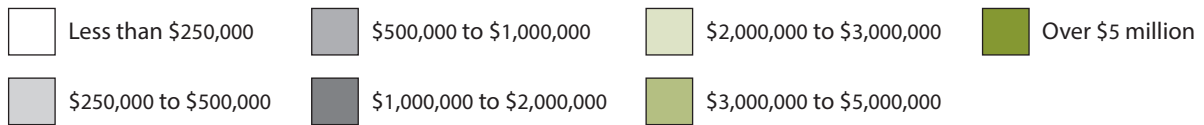

Total Grant Dollars Awarded by County

From Program Inception Through FY2013

Projects affecting multiple counties are not represented.

Due to a new formula for tallying the total number of successful grants from SHF's inception, some numbers may vary from those reported last year.

State Historical Fund Grants Awarded Summary

Fiscal Year 2013

Grants Awarded | 119

Total value of those grants | \$6,066,442

Grants awarded since program's inception | 3,972

Total value of those grants | \$256,307,546

Grant Award Highlights
State Historical Fund Fiscal Year 2013

Golconda Mine and Boarding House
Hinsdale County Historical Society
Acquisition and Development

13-01-048

Hinsdale / Rural
 \$134,800

The goal of this project is to stabilize and interpret the Golconda Boarding House and Compressor House located above the Alpine Loop in Hinsdale County. Perched at an elevation of 12,400 feet, the boarding house is a unique two-story log building unlike any other in the San Juan Mountains. The compressor house contains intact machinery distinct to the hard rock mining era. Exposure to severe alpine weather has taken a heavy toll on these impressive log structures. After completion, visitors will be able to enter and tour both buildings safely, while interpretive panels will educate visitors on the site's history.

State Soldiers' and Sailors' Home
State of Colorado, Department of Human Services
Acquisition and Development

13-01-031

Rio Grande / Homelake
 \$98,720

The Colorado Department of Human Services is receiving funding to begin restoration of the Paden-Meyer Memorial Chapel on the campus of the Colorado State Veteran's Center at Homelake. Constructed in 1898, the chapel is one of the oldest surviving structures on the campus, which was originally established as a home for aging and disabled Civil War veterans. Work includes the completion of investigation and materials testing, design, and construction documents for the structure's complete preservation and rehabilitation. The funding will also go toward rehabilitation of the building's fascias and soffits as well as installation of gutters and downspouts to prevent further damage.

Bromley Farm / Koizuma-Hishinuma Farm
City of Brighton
Acquisition and Development

13-01-004 and 13-M2-002

Adams / Brighton
\$231,500 (in aggregate)

One of the city of Brighton's goals is to maintain its small-town atmosphere and increase quality of life as it grows into a larger city. Preservation of farm heritage is a large part of this goal as farmland disappears northwest of Denver. In November 2006, Brighton purchased the 9.6-acre Bromley Farm/Koizuma-Hishinuma Farm, saving its structures from demolition. The city has already done much to restore the farm buildings and is now working toward second-phase work. These grants will help fund rehabilitation of the main barn and pay for foundation work under the main house. The projects will not only bring the farm back to life—they will help preserve Brighton's agricultural past.

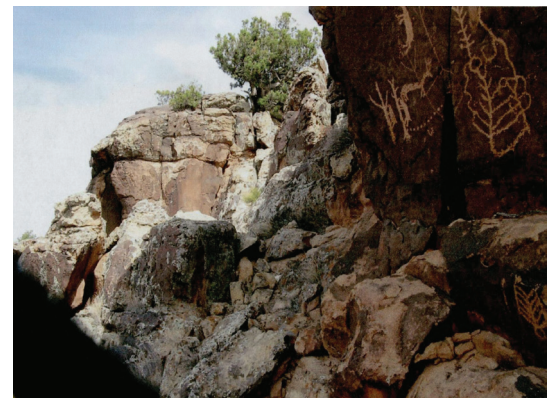

Shavano Valley Rock Art Site
The Archaeological Conservancy
Acquisition and Preservation

13-01-012

Montrose / Rural
\$82,437

Considered the premier rock-art site of the Uncompahgre Plateau and Valley area, the Shavano Valley Rock Art Site comprises 42 acres of abundant and well-preserved Ute petroglyphs dating from the Archaic period through the historic Ute period, as well as artifact concentrations that indicate sites of stone tool manufacturing. A decade ago, a community foundation purchased the land to protect it from development, but now lacks the resources to make full use of the site's educational, research, and traditional ceremonial potential. As such, this grant will allow the Archaeological Conservancy to acquire and begin to preserve the site so that it may be used for further American Indian research and traditions, as well as educational programming.

Georgetown School
Georgetown Trust for Conservation and Preservation, Inc.
Acquisition and Development

13-01-003

Clear Creek / Georgetown
\$87,052

The Georgetown School may be the most outstanding structure in Georgetown's landmark district. Neglected for 60 years, it was placed on Colorado's Most Endangered Places list in 2006. After years of work, Colorado Preservation, Inc. declared the school saved in 2011. However, there's still much to be done. This grant will complete basic systems such as electrical and heating that will make the schoolhouse functional. In the long term, the school will be used as an educational, training, and meeting site for a diverse group of agencies.

Crossan's M&A Market
Historic Routt County!
Acquisition and Development

13-01-058

Routt / Yampa
\$200,000

Crossan's M&A Market, one of the Yampa Valley's first general stores, has been an established and familiar feature on the corner of Yampa's First and Main Streets for more than a century. It will remain so, thanks in part to this grant award, which provides for its stabilization and initial rehabilitation. This work constitutes the first phase of a multi-phase, multi-year preservation project. Eventually, the town of Yampa intends to use the building as the new Yampa Town Hall and Visitor's Center.

Willows School
The Historic Willows School Society, Inc.
Acquisition and Development

13-01-040

Custer / Westcliffe
\$51,675

The Historic Willows School Society, Inc. has been awarded funding for the rehabilitation and restoration of an 1889 one-room schoolhouse in the Wet Mountain Valley. This grant will help restore and repair the foundation, siding, windows, doors, and other features. Electrical upgrades, roof and drain repairs, and ADA-compliant additions will make the schoolhouse a functional building once again.

Maytag Aircraft Building
CASA of the Pikes Peak Region, Inc.
Acquisition and Development

13-01-025

El Paso / Colorado Springs
\$61,009

As one of the finest examples of Modern Movement architecture found in Colorado Springs, the 1957 Maytag Aircraft Building will undergo roof rehabilitation and exterior repair with funds from SHF. Founded by Lewis B. Maytag, Jr., heir to the fortune of Maytag Appliance magnate Lewis B. Maytag, Sr., the Maytag Aircraft Corporation enlisted local architects to construct the building for administrative offices. The building currently houses offices for CASA of the Pikes Peak Region, a nonprofit organization that advocates for child victims of domestic violence and neglect in El Paso and Teller Counties. Following a 2010 Historic Structure Assessment funded by SHF, CASA became committed to the long-term care and maintenance of the building, not only for its vital role in their organization, but also for its contribution to the downtown historic landscape.

HISTORY *Colorado*
STATE HISTORICAL FUND

The State Historical Fund was created by the 1990 constitutional amendment allowing limited gaming in the towns of Cripple Creek, Central City, and Black Hawk. The amendment directs that a portion of the gaming tax revenues be used for historic preservation throughout the state. Funds are distributed through a competitive process and all projects must demonstrate strong public benefit and community support.
