City of Aurora/Aurora Water	Site Application #4979	Lift station and Kings Point Interceptor. Lift Station design capacities 0.841 MGD Average, Peak capacity 2.96 MGD	Approved 06/19/2008	Arapahoe
Inverness Water and Sanitation District	Site Application #4990	Lift station and force main. Design capacities 0.900 MGD Average Capacity, Peak capacity 3.220 MGD	Approved 07/11/2008	Arapahoe

E. WATER QUALITY CERTIFICATIONS (Section 401)

Water Quality Certifications, under Section 401 of the Clean Water Act, provide for Division determinations that federally issued permits and licenses will comply with the Basic Standards and Methodologies for Surface Water, the Basic Standards for Ground Water, surface and ground water classifications and water quality standards, and all other applicable water quality requirements for the affected waters.

E. WATER QUALITY CERTIFICATIONS (Section 401) (cont.)

1. For the purposes of the antidegradation requirements found in Section 31.8 of the Basic Standards and Methodologies, the following projects have been reviewed to make a preliminary determination of the significance of such projects. Public comment on these preliminary determinations will be received for thirty days following the date of publication of this newsletter. More information on the specific projects can be obtained from John Hranac (john.hranac@state.co.us), (303) 692-3586) or Christy Pickens (christy.pickens@state.co.us), (303) 692-3584. The U.S. Army Corp of Engineers also reviews these projects, under Section 404 of the Clean Water Act, and a list of their current public notice can be found on their web site.

<u>APPLICANT</u>	<u>C.O.E PERMIT #</u>	<u>ACTIVITY</u>	<u>COUNTY</u>	<u>WATERBODY</u>	<u>DETERMINATION</u>
#4204 City of Colorado Springs- Eng. SPECIAL NOTES

WaterReuse Association forms Colorado Section

The WaterReuse Association has formed a Colorado Section. The section launched with twelve organizational members, six of which are utilities, and is known as WaterReuse Colorado.

The primary objectives of WaterReuse Colorado include advocating legislation and regulations that facilitate appropriate water reuse, promoting safe and effective reuse throughout Colorado, and improving public understanding of water reclamation. It also serves as a local networking and information resource to utilities operating or contemplating reuse systems.

The group will work in partnership with the RMWEA/RMSAWWA Joint Water Reuse Committee and meets jointly with that group in odd-numbered months. For more information, contact John Rehring, President of WaterReuse Colorado, at 303-383-2300 or RehringJP@cdm.com, or visit www.watereuse.org.
