E. WATER QUALITY CERTIFICATIONS (Section 401)

Water Quality Certifications, under Section 401 of the Clean Water Act, provide for Division determinations that federally issued permits and licenses will comply with the Basic Standards and Methodologies for Surface Water, the Basic Standards for Ground Water, surface and ground water classifications and water quality standards, and all other applicable water quality requirements for the affected waters.

- For the purposes of the antidegradation requirements found in Section 31.8 of the Basic Standards and Methodologies, the following projects have been reviewed to make a preliminary determination of the significance of such projects. Public comment on these preliminary determinations will be received for thirty days following the date of publication of this newsletter. More information on the specific projects can be obtained from John Hranac (john.hranac@state.co.us), (303) 692-3586) or Christy Pickens (christy.pickens@state.co.us), (303) 692-3584. The U.S. Army Corp of Engineers also reviews these projects, under Section 404 of the Clean Water Act, and a list of their current public notice can be found on their web site.***

SPECIAL NOTES

The WQCD proposes to grant variances for chloride and sulfate effluent limitations for the following facilities:

Legal Entity	Facility	Certification #	County
Sage Pointe	Sage Pointe Water & Sanitation Co	COX-631004	Logan
Town of Wiggins	Wastewater Treatment Plant	COX-631013	Morgan
Dotsero Mobile Home Park	Wastewater Treatment Plant	COX-631012	Eagle
Mesa County Valley School Dist	Loma Elementary School	COX-621024	Mesa

The Division will be accepting comments on the proposed variances until March 27, 2009. Comments and questions should be directed to Rick Koplitz at the address listed on the public notice page or at rick.koplitz@state.co.us. These proposed variances are for facilities that cannot comply with the corresponding effluent limits in cases where the source of chloride and/or sulfate is either the raw water and/or chemical addition used to improve the quality of the drinking water, e.g. drinking water treatment or residential water softeners.

SPECIAL NOTES

Low Risk Discharge Guidance for Potable Water

The WQCD has prepared for public review a draft of "Low Risk Discharge Guidance for Potable Water Discharges", in accordance with Division policy WQP-27. The Division will be accepting comments on the draft guidance until March 31, 2009. Comments and questions should be directed to Nicole Rolfe at the address listed on the public notice page or at nicole.rolfe@state.co.us. The document is available electronically on the WQCD website at <http://www.cdphe.state.co.us/wg/PermitsUnit/publicnotice/publiccomment.html>
