Baca Grande Water & San Dist – Wagon Wheel Lift Station	Site Application #5099	Lift station and force main. Design capacities 0.09 MGD Average Capacity, 0.317 MGD Peak Capacity	Saguache	Approved 06/17/2010

## E. WATER QUALITY CERTIFICATIONS (Section 401)

***Water Quality Certifications, under Section 401 of the Clean Water Act, provide for Division determinations that federally issued permits and licenses will comply with the Basic Standards and Methodologies for Surface Water, the Basic Standards for Ground Water, surface and ground water classifications and water quality standards, and all other applicable water quality requirements for the affected waters.***

- For the purposes of the antidegradation requirements found in Section 31.8 of the Basic Standards and Methodologies, the following projects have been reviewed to make a preliminary determination of the significance of such projects and a draft certification determination. Public comment on these preliminary determinations will be received for thirty days following the date of publication of this newsletter. More information on the specific projects can be obtained from John Hranac ([john.hranac@state.co.us](mailto:john.hranac@state.co.us)), (303) 692-3586) or Christy Pickens ([christy.pickens@state.co.us](mailto:christy.pickens@state.co.us)), (303) 692-3584. The U.S. Army Corp of Engineers (COE) may also review these projects, under Section 404 of the Clean Water Act, and a list of their current public notice can be found on their web site.***

## G. TOTAL MAXIMUM DAILY LOADS SENT TO PUBLIC NOTICE ON JULY 1, 2010 COMMENTS DUE BY JULY 30, 2010

TMDLs developed under Section 303(d) of the Clean Water Act are pollutant specific and identify the available assimilative capacity, pollutant sources, and allocate assimilative capacity among those sources. TMDLs have been developed to address the pollutants and waterbodies indicated

Lake Creek, COARUA10; copper  
South Platte River, Burlington Ditch to Big Dry Creek, COSPUS15; cadmium

Comments will be accepted through July 30, 2010. Following the close of the public comment period, the TMDL will be revised as appropriate and submitted to EPA for approval. TMDL submittal constitutes final agency action. Parties may request that the Colorado Water Quality Control Commission convene an adjudicatory hearing concerning a disputed TMDL as described in the Colorado Water Quality Management and Drinking Water Protection Handbook, WQCC Policy #98-2.

Copies of TMDLs may be obtained from the Water Quality Control Division, 4300 Cherry Creek Drive South, Denver, Colorado, 80246-1530. For more information, please call the Phil Hegeman at (303) 692-3518. Additional information is available on the Division's TMDL webpage at [www.cdphe.state.co.us/wq/Assessment/Assessment\\_unit.html](http://www.cdphe.state.co.us/wq/Assessment/Assessment_unit.html)

## SPECIAL NOTES

### NOTES FROM ENGINEERING UNIT

In accordance with the Site Location and Design Approval Regulations for Domestic Wastewater Treatment Works, 5 CCR 1002-22, Regulation 22, Section 22.11(2) and the Design Criteria for Potable Water Systems, Section 1.2.7, the Division has been requiring that upon completion of construction of wastewater and drinking water projects, the applicant's professional engineer (licensed representative of the engineering firm for drinking water projects) submit a certification that the treatment aspects of the facility were constructed consistent with the design documents (plans and specifications) as approved by the Division's design approval for the project. The Division recently became aware that, for many projects, these requirements conflict with the Colorado Department of Regulatory Agencies (DORA) professional licensure rules for engineers. While the Division evaluates the most appropriate means for ultimately addressing this issue, the Division is proposing an interim measure that involves a revision of the certification language on both forms.

The draft versions of the forms will be available on the Engineering Section's web page for review by July 2, 2010. Please provide any comments on the proposed modification to the certification statement, in writing, by August 2, 2010. Please

direct the comments to the attention of Ms. Nicole Rollo, Engineering Section Administrative Assistant at [nicole.rollo@state.co.us](mailto:nicole.rollo@state.co.us)
