E. WATER QUALITY CERTIFICATIONS (Section 401)

Water Quality Certifications, under Section 401 of the Clean Water Act, provide for Division determinations that federally issued permits and licenses will comply with the Basic Standards and Methodologies for Surface Water, the Basic Standards for Ground Water, surface and ground water classifications and water quality standards, and all other applicable water quality requirements for the affected waters.

- For the purposes of the antidegradation requirements found in Section 31.8 of the Basic Standards and Methodologies, the following projects have been reviewed to make a preliminary determination of the significance of such projects and a draft certification determination. Public comment on these preliminary determinations will be received for thirty days following the date of publication of this newsletter. More information on the specific projects can be obtained from John Hranac (john.hranac@state.co.us), (303) 692-3586 or Christy Pickens (christy.pickens@state.co.us), (303) 692-3584. The U.S. Army Corp of Engineers (COE) may also review these projects, under Section 404 of the Clean Water Act, and a list of their current public notice can be found on their web site.***

SPECIAL NOTES

Please note there was a mistake in the August bulletin regarding the proposed abolishment of WQP-19, PQL Policy—not WQP-19, Policy for Characterizing Ambient Water Quality for Use in Determining Water Quality Standards Based Effluent Limits. As noted in August bulletin, WQP-19, PQL Policy, is proposed to be formally rescinded because it has been incorporated into the Division's 2008 PQL Guidance. This fact remains true, however a link to the alternate WQP-19 policy was provided in the August bulletin. Please note WQP-19, PQL Policy, is still proposed to be formally rescinded and a link to the appropriate policy can be found on the Division's website at:

www.cdphe.state.co.us/wq/Publiccommentonwqcdpolicies.htm.

Furthermore, WQP-19—Policy for Characterizing Ambient Water Quality for Use in Determining Water Quality Standards Based Effluent Limits—remains in effect.

The public comment period regarding the proposed abolishment of WQP-19, PQL Policy, ends Friday September 30, 2011. If you have any questions, please contact Dave Akers at (303) 692-3591 or at dave.akers@state.co.us. Please send written comments to Logan Callihan, the Program's policy intern, at logan.callihan@dphe.state.co.us and she will forward the comments to Dave and the appropriate lead manager.

WATER QUALITY CONTROL COMMISSION**

M E M O R A N D U M

TO: All Interested Persons (Please forward to the appropriate person in your organization.)
FROM: Nancy Horan, Program Assistant
Water Quality Control Commission
DATE: August 15, 2011
SUBJECT: Water Quality Hearings Notice Distribution List

In an effort to ensure that all interested persons receive notices of Colorado Water Quality Control Commission hearings we maintain a database of persons/entities interested in each regulation. To be added to this database, we request submittal of a completed notice distribution form. This form, which lists each Commission regulation and policy, is available on the Commission's website at: <http://www.cdphe.state.co.us/op/wqcc/PubPart/RMHDistList.html>. Once completed, the form can be emailed to the Commission office at cdphe.wqcc@state.co.us. Alternatively, it can be mailed to the Water Quality Control Commission at 4300 Cherry Creek Drive South, Denver, Colorado 80246. It is important that any hand-written forms be legible. We would prefer that interested persons who respond through the mail either type their contact information or affix a return-address label.

If you are already receiving Commission notices, you can fill out the form to update your contact information and notice preferences. By checking the "current" box, you will alert us not to make a duplicate entry. If there are no changes to your contact information or notice preferences, you do not need to respond to this memo. Please be aware that we routinely remove from the database those contacts that produce returned mail (whether electronic or conventional). If your contact person or email address has changed during the past year, please re-submit with current info.

If you would like more information about the Water Quality Control Commission and its activities, please consult our website at <http://www.cdphe.state.co.us/op/wqcc/index.html> or call the Commission office at 303-692-3463.

We apologize if you receive multiple copies of this memo. To assure broad distribution, it is being sent to multiple mailing lists.
