MEMORANDUM

TO: All Interested Persons (Please forward to the appropriate person in your organization.)

FROM: Elizabeth Tenney, Program Assistant
Water Quality Control Commission

DATE: July 3, 2019

SUBJECT: Water Quality Hearings Notice Distribution List

In an effort to ensure that all interested persons receive notices of Colorado Water Quality Control Commission hearings, the Commission office maintains a database of persons/entities that have asked to be informed of upcoming hearings related to specific Commission regulations and/or policies. To be added to this database, please submit a completed [application](#), available on the public participation section of the commission [website](#).

If you are already receiving Commission notices, you can fill out the form to update your contact information and notice preferences. By checking the "current" box, you will alert us not to make a duplicate entry. If there are no changes to your contact information or notice preferences, you do not need to respond to this memo. Please be aware that the Commission office routinely removes from the data base those contacts that produce returned mail. If your contact person or email address has changed during the past year, please re-submit with current information.

If you would like more information about the Water Quality Control Commission and its activities, please consult our [website](#) or call the Commission office at 303-692-3463.

We apologize if you receive multiple copies of this memo. To assure broad distribution, it is being sent to a variety of mailing lists.

D. WATER QUALITY CERTIFICATIONS (Section 401)

Water Quality Certifications, under Section 401 of the Clean Water Act, provide for Division determinations that federally issued permits and licenses will comply with the Basic Standards and Methodologies for Surface Water, the Basic Standards for Ground Water, surface and ground water classifications and water quality standards, and all other applicable water quality requirements for the affected waters.

- For the purposes of the antidegradation requirements found in Section 31.8 of the Basic Standards and Methodologies, the following projects have been reviewed to make a preliminary determination of the significance of such projects and a draft certification determination. Public comment on these preliminary determinations will be received for thirty days following the date of publication of this newsletter. More information on the specific projects can be obtained from Scott Garncarz (scott.garncarz@state.co.us), (303) 692-2374 or Trevor Klein (trevor.klein@state.co.us), (303) 691-7809. The U.S. Army Corp of Engineers (COE) may also review these projects, under Section 404 of the Clean Water Act, and a list of their current public notice can be found on their web site.
