## Child Obesity Rate State Performance Measure 12

Colorado FY 2005 Goal: Reduce the proportion of WIC children in Colorado who are obese to 5.0% or less.

County rates are based on 2000 WIC data for children from birth until their 5<sup>th</sup> birthday. WIC serves children at or below 185 percent of the federal poverty level.

Counties categorized as close to the goal are within 20 percent of the goal; counties at some distance from the goal are more than 20 percent away but less than double the goal; and counties far from the goal are at least double the desired goal.

Counties Meeting the Colorado FY 2005 Goal (at or below 5.0%):
