# Unintended Births
(Percent)

Healthy People 2010 Goal: *Decrease the proportion of pregnancies that are unintended to 30.0 percent.*

Data are survey data for 2000-2004, available for large counties; otherwise, only data for regions are available. The state rate is 39.7 percent. The survey data describe the percent of all births (not pregnancies) that are unintended.

Counties or regions categorized as close to the goal are within 20 percent of the goal; counties or regions at some distance from the goal are more than 20 percent away but less than double the goal; and counties or regions far from the goal are at least double the desired goal.

County data for Boulder, Douglas Grand and Gunnison counties are different from regional data
